Pages 41705-45422

XUM

EXPLANATION

Mounting production problems and the ever-increasing volume of the daily issue have caused delays in the issuance of our regular monthly subject indexes.

In a continuing effort to publish finding aids to the Federal Register on a more timely basis, this monthly index is a consolidation of the table of contents entries published in the daily issues during this month.

In addition to the new monthly index format (consolidated table of contents) an Annual Subject Index is planned.

Users and subscribers are invited to send their comments and suggestions to the Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

Fred J. Emery
Director, Office of the
Federal Register

ENVIRONMENTAL PROTECTION AGENCY—Continued

Rules—Continued

Fuel and fuel additives; unleaded gasoline:
- Availability — 43281
- Liability of branded refiners — 42356

Pesticide chemicals, tolerances, etc.:
- Benomyl — 43723
- Carboxin — 43723
- Dinoseb — 43289
- Ethephon — 43290
- Inert ingredients, certain — 43292
- Isobutyric acid — 43724
- Isophorone; correction — 43292
- Linuron — 43291
- Methidathion — 43291
- Paraquat — 43291
- 2,4-D — 43292

Water pollution; effluent guidelines for certain point source categories:
- Organic chemicals manufacturing — 43629

Water pollution; Colorado River system; salinity control policy and standards procedures — 43721

Water quality standards:
- Kentucky — 41709, 43404

Proposed Rules

Air pollution control, motor vehicles and engines, new:
- Certificates of conformity — 44246
- Enforcement and auditing procedures — 45360

Air quality, State implementation plans:
- California — 44237
- Georgia — 44239, 44245
- Kentucky — 42377
- Puerto Rico — 43640
- Virginia; correction — 43641
- West Virginia — 44461
- Wyoming — 43639

Fuels and fuel additives; carriers transporting unleaded gasoline — 42379

Noise emission standards:
- Labeling of hearing protectors — 42380
- Medium and heavy duty trucks — 42379
- Portable air compressors — 42379

Pesticide chemicals, tolerances, etc.:
- Acetaldehyde — 43316
- Carbofuran — 44777
- Inert ingredients, certain — 43409
- 2,4-D — 44668

Water quality standards:
- Oregon; withdrawal of proposal — 43557
- West Virginia — 44777

Notices

Air pollution; indirect source application; Rockaway Townsquare Shopping Center; opportunity for comment — 43870

Air quality implementation plans:
- Kentucky — 42416
- Philadelphia region; metropolitan — 42943

Automobile emission standards, 1977; suspension, application guidelines for — 41899

Environmental impact; plutonium and the transuranium elements, hearing — 44485

Environmental statements; availability of agency comments — 45068

Food additive tolerance petitions:
- Elanco Products Co — 43326
- National Canners Association — 43326

Meetings:
- Municipal Waste Water Systems, Technical Advisory Group for — 44678
- Science Advisory Board — 44678, 44803

Noise pollution; Occupational Safety and Health Administration regulation; request for review and report — 43801

Pesticide chemicals; tolerances, etc.; petitions:
- American Cyanamid Co.; correction — 43579
- Chemagro Division, Mobay Chemical Corp — 43326, 43579
- Mobil Oil Chemical Co — 43326
- Research Products Co., Inc — 44487
- Upjohn Co — 43327

Pesticides; registration applications — 42022, 42415, 42714, 42943, 43102, 43579, 43655, 43758, 43870, 44068, 44277, 44486, 44677, 44801, 45074, 45316

Pesticides, specific exemptions and experimental use permits:
- Army Department; dimethylamine salt of 2,4-D for water hyacinth control — 42943
- Interior Department, sodium cyanide in spring-loaded ejector mechanism — 41761
- Maine; femitrothion for spruce budworm control — 42416

Waste treatment, areawide; management planning approvals, area and agency designation — 43759

Water quality standards:
- Hawaii — 43759
- Pennsylvania — 43327

- Mandatory petroleum allocation:
  - Aviation fuels (non-bonded) to international air carriers — 43812, 44709
  - Old oil — 42245, 43389, 44710
  - Propane and butane; refinery fuel, SNG, gas utility and industrial use limitations — 44405
  - Residual fuel oil; space heating requirements — 44710
- Mandatory petroleum price regulations:
  - Natural gas liquids and products — 44407
  - Non-product cost increases, pass through by refiners, etc — 42368, 43389
  - Old oil — 42245, 43814
- Oil import regulations:
  - Conforming amendments — 43218
  - Procedures, etc — 45268
- Rulings:
  - Allocation of refiner's increased product; costs to sales volumes — 44415
  - Stripper well leases — 44414, 44416

Notices
- Feedstocks to synthetic natural gas facilities, allocation; hearing — 44507
- Meetings:
  - Consumer Affairs and Special Impact Advisory Committee — 45077
  - Wholesale Petroleum Advisory Committee — 44086
- National Utility Residual Fuel Oil Allocation; January 1975 supplier percentage notice — 43976
- Old oil; allocation:
  - Entitlement price — 43103
  - Reporting forms, availability — 44508
- Refiners buy-sell list; crude oil allocation — 41772
- Southern California Outer Continental Shelf; public symposium, notice — 44508

FEDERAL HIGHWAY ADMINISTRATION

Rules
- Engineering and traffic operations:
  - Traffic control devices on Federal-aid and other streets and highways — 44746
  - Urban program to increase capacity and safety; correction — 45215
- Planning:
  - Highway planning and research and development contracts; program management and coordination; correction — 42354
- Right-of-way and environment:
  - Air quality guidelines for use in Federal-aid highway programs — 44441
  - Environmental impact and related statements — 41803
  - Right-of-way; correction — 45215

Proposed Rules
- Planning; urban transportation; extension of comment period — 44457
- Right-of-way and environment; outdoor advertising controls; correction and extension of time — 43409

Notices
- Maryland; interim agreement concerning driving while intoxicated — 41758
- Meetings:
  - Uniform Traffic Control Devices, National Advisory Committee on — 44673

FEDERAL HOME LOAN BANK BOARD

Rules
- Federal Home Loan Bank System:
  - Certificate accounts of less than $100,000 — 43195
  - Sexual discrimination in lending prohibited — 43618
- Federal Savings and Loan Insurance Corporation:
  - Operations; insurance for public deposits — 45255
- Federal Savings and Loan System:
  - Bylaws concerning advisory directors — 42340
  - Public unit accounts — 44659
  - Security for public deposits — 45254
  - Travelers' convenience withdrawals — 44739
- Offices; branch office applications — 43708
- Operations:
  - Branch office applications — 43707
  - Stock bonus, pension or profit sharing plans — 43708
- Organization and channelling of functions; operations — 45256
- Public unit accounts, maximum rate limitations — 42693

INDEX

code of federal regulations

List of CFR Sections Affected

DECEMBER 1974

Includes U.S.C.–C.F.R. Table of Authorities

Format and Coverage

This list is designed so that users can determine the changes that have occurred since the revision date of the Code books they are using. If you do not have *latest edition*, see instructions on page 2. Format and coverage for this December 1974 list is as follows:

- Titles 1–16: Changes published during 1974.
- Titles 17–27: Changes published April through December 1974.
- Titles 28–41: Changes published July through December 1974.
- Titles 42–50: Changes published October through December 1974.

CODE

XUM

(CHANGES PUBLISHED DURING 1974)

WHAT IT IS

The List of CFR Sections Affected is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. It should be shelved with current Code volumes. Entries indicate the nature of the changes. Certain terms used are defined in the glossary below. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The Code of Federal Regulations may be brought up to immediate date by the following steps:

1. Consult this List of CFR Sections Affected for any changes, deletions, or additions published after the revision date of the volume you are using.
2. Check the "Cumulative List of Parts Affected" appearing at the front of the latest issue of the Federal Register for changes published after the last date covered by this issue of the List of CFR Sections Affected.
3. If you do not have the *latest edition* of the Code of Federal Regulations, use the previous edition, and bring it up to date as follows:

Volumes Having Revision Date:	Refer to List of Sections Affected:
January 1, 1975 (Titles 1—16)	December 1974
April 1, 1974 (Titles 17—27)	March 1974
July 1, 1974 (Titles 28—41)	June 1974
October 1, 1974 (Titles 42—50)	September 1974

After checking List of CFR Sections Affected as indicated, follow steps 1 and 2 above.

For an explanation of the structure and numbering of the Code, see 1 CFR Part 21.

GLOSSARY

Amended—A typographical unit of the CFR was partially set forth.
Recodified—Major portions of CFR were restructured or rearranged, or both.
Redesignated—A typographical unit or larger was renumbered and transferred from one place to another place in the CFR with no change in text.
Removed—A typographical unit was removed from the CFR.
Revised—A typographical unit of the CFR was set forth in full.
Superseded—An existing CFR unit was replaced by regulations appearing under another CFR unit.
Suspended—The entire CFR unit was not in effect for the period of time indicated.
Suspended in part—A portion of the CFR unit was not in effect for the period of time indicated.
Technical amendment—General amendment that may have no substantive effect on regulations.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50. It contains references to the U.S. Code sections cited as authority for regulations added during the year.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A finding aid has been included at the end of this issue which identifies the inclusive page numbers in each Federal Register.

INDEX

An index to the daily Federal Register is published monthly, quarterly, and annually for the calendar year.

INQUIRIES AND SUGGESTIONS

Inquiries concerning this and other publications of the office and suggestions for improvements will be welcomed by the Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

1806 Heading revised	17093
1806.1—1806.6 Designated as Subpart A; heading added	17093
1806.21—1806.27 (Subpart B) Added	17093
1807.1 (e) revised	20367
1808.3 Revised	28871
1808.6 Added	28871
1812 Removed	3948
1822.1–1822.18 (Subpart A) Revised	44993
1822.7 (o) added	14714
1822.61—1822.77 (Subpart C) Heading amended	36110
1822.63 (a) amended	36110
1822.64 Revised	44403
1822.73 (a)(2) revised; (a)(3) removed	24218
1822.83 (k) amended	20803
1822.203 (a) amended	36111
1822.207 (a) revised	9538
1823.2 (a) introductory text and (a)(1)(i) revised	12729
(a)(1)(i) and (ii) revised	17971
1823.3 (c)(9)(i) revised	12729
(b) and (c)(5) revised	17971
1823.5 (b)(1) revised	12729
(b)(1) removed; (b)(2) redesignated as (b)(1); (b)(3) revised and redesignated as (b)(2)	41831
1823.6 (a)(4) and (b)(1) and (3) revised	17972
(a)(4), (5), and (6) and (b)(3), (4) and (5) revised; (b)(4) redesignated as (b)(6)	41829
1823.7 (a)(2)(i) and (b)(2) revised; (b)(4), (5), and (6) added	41831
1823.13 (b)(2) removed; (b)(3) redesignated as (b)(2)	12729
1823.23 (a) revised	41831
1823.24 (d) revised	12729
(g)(1) revised	41831
1823.27 Revised	12729
1823.28 Revised	12729
1823.29 (c)(3) revised	12729
1823.45 (a), (b), and (c)(1) revised	12730
1823.46 (c) revised	12730
Amended	41831
1823.47 (a) and (e) revised	12730
(e) revised	41831
1823.345 (a)(10) added	30826
1823.401—1823.413 (Subpart N) Added	3662
1823.450—1823.469 (Subpart O) Heading revised	3814
1823.454 Revised	14188
1823.460 Revised	40579
1823.466 Added	3814
Removed	20475
1823.467 Added	3814
(c)(1)(xii) added	4871
Removed	20475
1823.468 Added	3815
Removed	20475
1823.469 Added	3815
Removed	20475
1823.471—1823.477 (Subpart P) Added	20475
1832.1 (a)(4), (5), and (6) revised	14500
Introductory text revised	41511
1832.3 Revised	14500
(b)(6) and (d)(3) revised	41169
(b)(3) and (d) revised; (b)(10) removed	41512
1832.5 (c)(1)(iv) added	787
(b) revised	3667
(b) (c) introductory text, (c)(1)(i), (ii), (iv), and (4) revised; (f) and (g) removed	20677
1832.7 (c) revised	3667
1832.8 (h), (i), and (m) revised	3667
1832.13 Added	3667
1832.32 (t) and (u)(1) revised	16117
(a) revised	25641
1832.71—1832.73 (Subpart D) Removed	25642

(CHANGES PUBLISHED DURING 1974)

Chapter XVIII—Continued

	Page
1832.81—1832.92 (Subpart E) Added	7569
1832 Appendix I added	3667
1841.1 Revised	27684
1841.3 (a) and (c) revised	27684
1841.11 Amended	27684
1841.13 (a) amended	27684
1841.15 (a)(2) amended	27684
1841.26 (a)(3) and (6) revised	27685
1841.36 (b) amended	27685
1841.41 Amended	27685
1841.46 (f)(2) revised	27685
1842 Revised	34263
1842.17 Revised	16118
1842.23 (a) revised; (b) and (c) redesignated as (c) and (d); new (b) added	36852
1843.1 (b) and (d) revised	15868
1843.3 Revised	15868
(h) revised	25312
1843.5 Amended	15869
1843.10 Introductory text revised; (a) amended	15869
1843.20 Amended	15869
1843.30 Introductory text and (a) amended	15869
1843.42 (e) amended	15869
1843.44 (a) and (f)(6) amended; (a)(1), (2), and (3) added; (b) revised	15869
1843.90 (a) revised; (c) amended	15869
1843.91 Removed	15869
1845 Added	27685
1845.10 (b) introductory text and (b)(3) and (4) revised	29581
(b) revised	38889
1845.11 (c) and (o) revised	29582
(r) and (s) added	37053
1845.12 (e) removed and (f) through (k) redesignated (e) through (j)	29582
(j) revised	37053
1845.13 (a) revised	29582
(a) table corrected	30470
(h) and (i) added	37053
1845.14 (d) revised	37053
1845.20 (a) and (b) revised	29582
1845.25 (b) revised	29582
1845.26 (a)(3) revised	29582
(c) revised	37053
1845.29 Added	37053
1845.30 (a) revised	29582
(a) amended	37053
1861.10 Added	25313
1861.62 (f)(3)(ii) revised; (f)(5) added	31621
1861.84 (a) through (d) redesignated as (b) through (e); new (a) added	20070
1861.85 (a) revised	20070
1872.65 (e) revised	1830
(c)(3) revised	15024
1873 Heading revised	3948
1873.1—1873.4 (Subpart A) Revised	3948
1873.3 Revised	41735
1873.5 Removed	3948
1873.6 Removed	3948
1873.7 Removed	3948
1873.8 Removed	3948
1873.9 Removed	3948
1873.21—1873.32 (Subpart C) Added	3949
1873.30 Revised	41831
1873.41—1873.46 (Subpart D) Added	3950

TITLE 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

	Page
101 Revised	43815
101.3–1 (c)(10) revised	4469
106.10 (a)(2) revised	11417
106.11 (c), (d), and (h) revised	11417
106.12 (c) added	11417
106.18 Added	11417
107.1 Revised	39193
107.202 (c) revised	39193
107.203 (d) revised	39193
107.1102 (e) revised	39193
107 Appendices A, B, and C added	39193
108.501–1 (f) revised	20477
(g) revised	28419
108.502–1 (h) revised	33689, 39867
113.1 (a) amended	36322
113.2 (a) revised; (c) added	36322
113.3 (a) revised; (b) amended redesignated as (c); new (b) added; (c) redesignated as § 113.3–1(a)	36322
113.3–1 (a) redesignated from § 113.3(c) and amended; (b) and (c) added	36322
113.3–2 Added	36322
113.5 (d)(2) amended	36322
113.6 (b) amended	36322
113.7 (d)(2) amended	36322
113.9 (a), (b), (d), and (f)(2) amended	36322
113.10 (a) amended	36322
114 Revised	45211
116 Added	6056
121 Schedule H added	5627
Schedule I added	5627
Revised	44424
121.3–2 (b) and (t) amended	11256
121.3–4 Amended	22944
121.3–5 (a) revised	6
121.3–7 (b) revised	32901
121.3–8 (a)(1) revised	5627
Introductory text of (e) revised; (e)(15) added	9538
(a)(2) revised	31302
121.3–10 (a) revised	5627
Introductory text of (d) revised	9538
(d)(11) added	30345
121.3–15 Revised	38385
121.3–16 (b) revised	27314

Chapter III—Economic Development Administration, Department of Commerce

	Page
301.2 Amended	12859, 44959
301.20 (a)(1) and (b) amended; (c) added	44959
301.21 Revised	44959
301.23 Added	44959
301.42 (b) (6) and (8) revised	44959
301.55 (b) revised	32979
(b)(9) corrected	34397
302.4 (a) amended	12859
(b)(1)(i) added	44960
302.11 Redesignated as 302.12; new 302.11 added	44960
302.12 Redesignated from 302.11	44960
302.30 (Subpart C) Removed	44960
302.40—302.41 (Subpart D) Redesignated as Subpart C	44960
302.40 Amended	44960
302.41 (b)(3) amended	44960
302.50 (a)(1) amended	44960
303.1 (a) and (b) introductory text and (1) revised	44960
303.2 (b) revised	44960
303.9 Added	44960
303.21 Amended	44960
304.1 (a) revised	7779
(a) and (b) amended	44960
304.8 (a) and (b) amended	44960
305.3 (c) added	44960
305.4 Revised	7576

(CHANGES PUBLISHED DURING 1974)

	Page
305.5 Revised	30107
(b)(3) (v), (vi), and (vii) amended	44960
(b)(3)(iv) revised; (d) added	44960
305.6 Text designated as (a), (a)(1) and (2); (b) added	44960
305.7 Added	44960
305.23 (f) added	44961
305.56 Introductory text revised	7779
305.58 Redesignated as 305.59; new 305.58 added	44961
305.59 Redesignated from 305.58	44961
305.68 Text redesignated as (a); (b) added	44961
306 Revised	44961
307.50—307.58 (Subpart D) Added	44966
308 Added	44968
309.7 (a) and (b) revised; (e) added	3818
(a) revised	44970
309.8 (a) revised	3818
309.10 (a) amended	44970
309.15 Revised	7926
311.63 (a)(1) revised	22426
311.71 (a) revised	22426
312 Added	49970

Chapter IV—Emergency Loan Guarantee Board

Chapter removed as of 12-31-74

Chapter V—Regional Action Planning Commissions

470 Chapter established	43534
570 Added	43534

1.24 Removed 35152
1.30 Removed 17306
1.35 Revised 28628
11 Added 26407
12 Added 40493
17 Added 17306
130 Added 18093
130.201—130.209 (Subpart B) Added 26407
130.301—130.310 (Subpart C) Added 26408
140 Added 26410–26413
140.801—140.805 (Subpart H) Added 28876
160 Added 26413
170 Added 36327
190 Added 13880
260 Added 34521
260.401–260.411 (Subpart D) Added 35141
420 Added 36472
420.201—420.206 (Subpart B) Added 40946
420.204 Added 40946
(c) corrected 42354
470 Added 35142
470.301—470.307 (Subpart C) Added 37637
473 Added 39658
473.104 (a)(2) corrected 40763
476 Added 20663
476.2 Amended 39659
476.600—476.612 (Subpart G) Added 20667
490 Added 35142
620 Added 33311
620.101—620.104 (Subpart A) Added 35145
620.301—620.315 (Subpart C) Added 36328
620.309 Corrected 38097
625 Added 35145
630 Added 26414
630.201—630.204 (Subpart B) Added 36473
630.301—630.306 (Subpart C) Added 35348
630.501—630.510 (Subpart E) Added 36330
630.601—603.606 (Subpart F) Added 29173
630.604 Amended 33670
630.801—630.803 (Subpart H) Added 36474
633 Added 20371
633.201—633.211 (Subpart B) Added 35146
633.301—633.302 (Subpart C) Added 22418
635 Added 27130
635.101—635.205 (Subparts A and B) Added 35152
637 Added 11879
637.201—637.205 (Subpart B) Added 35649
640 Added 17310
645 Heading revised 36474
646 Added 36474
650 Heading revised 29174
650.101—650.111 (Subpart A) Added 36331
650.201—650.209 (Subpart B) Added 36331
650.301 Amended 29589
650.303 (a) and (c) revised 29589
650.305 (a) revised 29590
650.309 Revised 29590

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to CFR Finding Aids Volume, Table 1; January–December 1974)

This table lists the sections of the U.S. Code which were added to the CFR Finding Aids Volume, Table I as a result of new citations of authority carried in the *Federal Register* during 1974. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the List of CFR Sections Affected, above.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

NOTE: There are no items eligible for inclusion in the list of RULES GOING INTO EFFECT.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5284. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

contents

THE PRESIDENT

Executive Orders

Abolishing National Commission for Industrial Peace 43529

EXECUTIVE AGENCIES

AGRICULTURAL MARKETING SERVICE

Rules

Limitations of handling and shipments:

Title 3—The President

EXECUTIVE ORDER 11823

Abolishing the National Commission for Industrial Peace

By virtue of the authority vested in me as President of the United States of America by the Constitution and laws of the United States, including the Federal Advisory Committee Act (5 U.S.C. App. I), and section 301 of title 3 of the United States Code, it is hereby ordered as follows:

SECTION 1. The National Commission for Industrial Peace is hereby abolished and Executive Order No. 11710 of April 4, 1973, and Executive Order No. 11729 of July 12, 1973, are hereby revoked.

SEC. 2. The Secretary of the Treasury shall be responsible for closing the affairs of the Commission, and for the completion of any functions that remain to be performed under the Federal Advisory Committee Act with respect to the Commission and its report. In preparing the report required by section 6(b) of that Act, the Secretary shall consult with the Director of the Federal Mediation and Conciliation Service.

Gerald R. Ford

THE WHITE HOUSE,
December 12, 1974.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1975 Crop of Extra Long Staple Cotton; Acreage Allotments and Marketing Quotas

STATE RESERVES AND COUNTY ALLOTMENTS

Correction

In FR Doc. 74-27773 appearing at page 41354 in the issue for Wednesday, November 27, 1974, in the table for § 722.562, under "TEXAS, Ward County," the number under "*County allotment (acres)*" now reading "460.1" should read "480.5".

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Regulation 329, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period December 6-12, 1974. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 329 (39 FR 42337). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (iii) of § 907.629 (Navel Orange Regulation 329) (39 FR 42337) are hereby amended to read as follows:

"(i) District 1: 1,581,000 cartons;

"(iii) District 3: 119,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674))

Dated: December 11, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-27977 Filed 12-13-74;8:45 am]

Title 10—Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 31—GENERAL LICENSES FOR BYPRODUCT MATERIAL

PART 32—SPECIFIC LICENSES TO MANUFACTURE, DISTRIBUTE, OR IMPORT CERTAIN ITEMS CONTAINING BYPRODUCT MATERIAL

Revision of General License for Industrial Devices

The Atomic Energy Commission published in the FEDERAL REGISTER on February 5, 1974 (39 FR 4583) proposed amendments to its regulations pertaining to the use of byproduct material in certain gauges and similar devices. The proposed amendments, among other things, would have required the user to register with the Commission prior to receiving byproduct material for use under the general license in § 31.5 of the Commission's regulation, 10 CFR Part 31, "General Licenses for Byproduct Material." Related changes were proposed in the requirements imposed on persons specifically licensed under 10 CFR 32.51 to distribute byproduct material in devices to be used under the general license.

Interested persons were invited to submit written comments on the proposed amendments by March 18, 1974. That date was later extended to April 17, 1974, and on April 16, 1974, a public meeting on the proposed changes was held at the Atomic Energy Commission's offices in Bethesda, Maryland. After consideration of the written comments received, the record of the public meeting, and other factors involved, the Commission has adopted the proposed amendments with certain modifications. The more significant ones are described below.

(1) Under the proposed amendments, each user of the general license would have been identified to the Commission by the registration certificate which he filed prior to receipt of a device containing byproduct material. Under the amendments set out below, prior registration by the general licensee is not required. Persons receiving devices for use under 10 CFR 31.5 will be identified in quarterly reports submitted to the Commission by persons specifically licensed to distribute the devices. Persons specifically licensed under 10 CFR 32.51 also will be required to report to the appropriate Agreement State agency any transfers to general licensees regulated by the Agreement State. Implementation of similar reporting requirements by the Agreement States should result in a system whereby all transfers to persons using the general license in 10 CFR 31.5 or equivalent Agreement State regulations are reported to the responsible regulatory agency.

(2) The proposed amendments would have permitted transfer of devices between general licensees since both the transferor and the transferee would have registered with the Commission. Since prior registration by the general licensee has not been adopted, the proposed provision for transfer by the general licensee has been modified in order to achieve a workable system for identifying users under the general license. The amendments set out below permit the general

XUM
V 39 N 242 DEC 16 74
XUM

licensee to transfer a device (a) to a specific licensee, (b) to another general licensee if the device remains installed in the same location but the person possessing the device changes as may be the case when a plant or building is sold, and (c) to another general licensee when possession of a device which remains in its shipping container is changed as in the case when a distributor ships a device to a construction site where it may be temporarily possessed by the building contractor prior to possession by the ultimate user.

(3) The proposed amendments provided that under certain conditions the general licensee may be authorized to perform tests for leakage of radioactive material. Under the amendments set out below the general licensee would only be authorized to collect the test sample for the leakage test; this sample would then be analyzed by a specific licensee.

(4) The proposed amendments would have deleted an existing specific requirement that the general licensee have the device tested periodically for proper operation of the on-off mechanism and indicator. The intent of the proposed deletion was not to eliminate all tests on on-off mechanisms and indicators but rather to consider the need and procedures for the tests on a case-by-case basis. That consideration would have been reflected in the safety instructions and precautions which the user would be required to follow and those instructions could require that the tests be performed by a specific licensee. Comments on the proposed deletion of the specific test requirement, however, indicate that such action could result in misunderstanding and non-performance of important safety testing. Accordingly, the amendments set out below retain a specific requirement for testing of the on-off mechanism and indicator.

(5) Under the proposed amendments, the general license in § 31.5 would have been restricted to commercial and industrial firms, research, education and medical institutions, and governmental agencies. The amendments set out below also extend the general license to individuals using the devices in the course of their work, occupation, or profession. An example of such an individual is a consulting engineer who owns and uses a soil density gauge in his work on highway construction projects.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to 10 CFR Parts 31 and 32 are published as a document subject to codification.

1. Section 31.5 of 10 CFR Part 31 is revised to read as follows:

§ 31.5 Certain measuring, gauging or controlling devices.[2][3]

(a) A general license is hereby issued to commercial and industrial firms and research, educational and medical institutions, individuals in the conduct of their business, and Federal, State or local government agencies to acquire, receive, possess, use or transfer, in accordance with the provisions of paragraphs (b), (c) and (d) of this section, byproduct material contained in devices designed and manufactured for the purpose of detecting, measuring, gauging or controlling thickness, density, level, interface location, radiation, leakage, or qualitative or quantitative chemical composition, or for producing light or an ionized atmosphere.

(b) The general license in paragraph (a) of this section applies only to byproduct material contained in devices which have been manufactured or imported and labeled in accordance with the specifications contained in a specific license issued by the Commission pursuant to § 32.51 of this chapter or in accordance with the specifications contained in a specific license issued by an Agreement State which authorizes distribution of the devices to persons generally licensed by the Agreement State.

(c) Any person who acquires, receives, possesses, uses or transfers byproduct material in a device pursuant to the general license in paragraph (a) of this section:

(1) Shall assure that all labels affixed to the device at the time of receipt and bearing a statement that removal of the label is prohibited are maintained thereon and shall comply with all instructions and precautions provided by such labels;

(2) Shall assure that the device is tested for leakage of radioactive material and proper operation of the on-off mechanism and indicator, if any, at no longer than six-month intervals or at such other intervals as are specified in the label; however;

(i) devices containing only krypton need not be tested for leakage of radioactive material, and

(ii) devices containing only tritium or not more than 100 microcuries of other beta and/or gamma emitting material or 10 microcuries of alpha emitting material and devices held in storage in the original shipping container prior to initial installation need not be tested for any purpose;

(3) Shall assure that the tests required by paragraph (c)(2) of this section and other testing, installation, servicing, and removal from installation involving the radioactive materials, its shielding or containment, are performed:

(i) in accordance with the instructions provided by the labels; or

(ii) by a person holding a specific license from the Commission or an Agreement State to perform such activities;

(4) Shall maintain records showing compliance with the requirements of paragraphs (c)(2) and (c)(3) of this section. The records shall show the results of tests. The records also shall show the dates of performance of, and the names of persons performing, testing, installation, servicing, and removal from installation concerning the radioactive material, its shielding or containment;

(5) Upon the occurrence of a failure of or damage to, or any indication of a possible failure of or damage to, the shielding of the radioactive material or the on-off mechanism or indicator, or upon the detection of 0.005 microcurie or more removable radioactive material, shall immediately suspend operation of the device until it has been repaired by the manufacturer or other person holding a specific license from the Commission or an Agreement State to repair such devices, or disposed of by transfer to a person authorized by a specific license to receive the byproduct material contained in the device and, within 30 days, furnish to the Director of the appropriate Atomic Energy Commission Regulatory Operations Regional Office listed in Appendix D of Part 20 of this chapter, a report containing a brief description of the event and the remedial action taken;

(6) Shall not abandon the device containing byproduct material;

(7) Shall not export the device containing byproduct material without a specific license from the Commission authorizing such export;

(8) Except as provided in paragraph (c)(9) of this section, shall transfer or dispose of the device containing byproduct material only by transfer to a specific licensee of the Commission or of an Agreement State whose specific license authorizes him to receive the device and within 30 days after transfer of a device to a specific licensee shall furnish to the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545 a report containing identification of the device by manufacturer's name and model number and the name and address of the person receiving the device. No report is required if the device is transferred to the specific licensee in order to obtain a replacement device;

(9) Shall transfer the device to another general licensee only:

(i) Where the device remains in use at a particular location. In such case the transferor shall give the transferee a

[2] Persons possessing byproduct material in devices under the general license in § 31.5 before Jan. 15, 1975 may continue to possess, use or transfer that material in accordance with the requirements of § 31.5 in effect on Jan. 14, 1975.

[3] The recordkeeping and reporting requirements for § 31.5 have been cleared by GAO under B180225 (R0068). This clearance expires on November 30, 1977.

copy of this section and any safety documents identified in the label of the device and within 30 days of the transfer, report to the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545, the manufacturer's name and model number of device transferred, the name and address of the transferee, and the name and/or position of an individual who may constitute a point of contact between the Commission and the transferee; or

(ii) Where the device is held in storage in the original shipping container at its intended location of use prior to initial use by a general licensee.

(10) Shall comply with the provisions of §§ 20.402 and 20.403 of this chapter for reporting radiation incidents, theft or loss of licensed material, but shall be exempt from the other requirements of Parts 19 and 20 of this chapter.

(d) The general license in paragraph (a) of this section does not authorize the manufacture or import of devices containing byproduct material.

§ 31.6 [Amended].

2. Paragraphs (a) and (d) of § 31.6 are deleted.

3. Section 32.51 is revised to read as follows:

§ 32.51 Byproduct material contained in devices for use under § 31.5; requirements for license to manufacture, import or distribute.[4]

(a) An application for a specific license to manufacture, import, or distribute devices containing byproduct material to persons generally licensed under § 31.5 of this chapter or equivalent regulations of an Agreement State will be approved if:

(1) The applicant satisfies the general requirements of § 30.33 of this chapter;

(2) The applicant submits sufficient information relating to the design, manufacture, prototype testing, quality control, labels, proposed uses, installation, servicing, leak testing, operating and safety instructions, and potential hazards of the device to provide reasonable assurance that:

(i) the device can be safely operated by persons not having training in radiological protection.

(ii) under ordinary conditions of handling, storage and use of the device, the byproduct material contained in the device will not be released or inadvertently removed from the device, and it is unlikely that any person will receive in any period of one calendar quarter a dose in excess of 10 percent of the limits specified in the table in § 20.101(a) of this chapter; and

(iii) under accident conditions (such as fire and explosion) associated with handling, storage and use of the device, it is unlikely that any person would receive an external radiation dose or dose commitment in excess of the dose to the appropriate organ as specified in Column IV of the table in § 32.24.

(3) Each device bears a durable, legible, clearly visible label or labels approved by the Commission which contain in a clearly identified and separate statement:

(i) instructions and precautions necessary to assure safe installation, operation, and servicing of the device (documents such as operating and service manuals may be identified in the label and used to provide this information);

(ii) the requirement, or lack of requirement, for leak testing, or for testing any on-off mechanism and indicator, including the maximum time interval for such testing, and the identification of radioactive material by isotope, quantity of radioactivity, and date of determination of the quantity; and

(iii) the information called for in the following statement in the same or substantially similar form:

> The receipt, possession, use, and transfer of this device Model ---------[1], Serial No. ---------[1], are subject to a general license or the equivalent and the regulations of the U.S. AEC or of a State with which the AEC has entered into an agreement for the exercise of regulatory authority. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited.
>
> CAUTION—RADIOACTIVE MATERIAL
>
> ----------
> (Name of manufacturer, importer, or distributor)[1]

(b) In the event the applicant desires that the device be required to be tested at intervals longer than six months, either for proper operation of the on-off mechanism and indicator, if any, or for leakage of radioactive material or for both, he shall include in his application sufficient information to demonstrate that such longer interval is justified by performance characteristics of the device or similar devices, and by design features which have a significant bearing on the probability or consequences of leakage of radioactive material from the device or failure of the on-off mechanism and indicator. In determining the acceptable interval for the test for leakage of radioactive material, the Commission will consider information which includes, but is not limited to:

(1) Primary containment (source capsule);

(2) Protection of primary containment;

(3) Method of sealing containment;

(4) Containment construction materials;

(5) Form of contained radioactive material;

(6) Maximum temperature withstood during prototype tests;

(7) Maximum pressure withstood during prototype tests;

(8) Maximum quantity of contained radioactive material;

(9) Radiotoxicity of contained radioactive material; and

(10) Operating experience with identical devices or similarly designed and constructed devices.

(c) In the event the applicant desires that the general licensee under § 31.5 of this chapter, or under equivalent regulations of an Agreement State, be authorized to install the device, collect the sample to be analyzed by a specific licensee for leakage of radioactive material, service the device, test the on-off mechanism and indicator, or remove the device from installation, he shall include in his application written instructions to be followed by the general licensee, estimated calendar quarter doses associated with such activity or activities and the bases for such estimates. The submitted information shall demonstrate that performance of such activity or activities by an individual untrained in radiological protection, in addition to other handling, storage, and use of devices under the general license, is unlikely to cause that individual to receive a calendar quarter dose in excess of 10 percent of the limits specified in the table in § 20.101(a) of this chapter.

4. A new § 32.51a is added to read as follows:

§ 32.51a Same: conditions of licenses.

Each person licensed under § 32.51 shall:

(a) Furnish a copy of the general license contained in § 31.5 of this chapter to each person to whom he directly or through an intermediate person transfers byproduct material in a device for use pursuant to the general license contained in § 31.5 of this chapter.

(b) Furnish a copy of the general license contained in the Agreement State's regulation equivalent to § 31.5 of this chapter, or alternatively, furnish a copy of the general license contained in § 31.5 of this chapter, to each person to whom he directly or through an intermediate person transfers byproduct material in a device for use pursuant to the general license of an Agreement State. If a copy of the general license in § 31.5 of this chapter is furnished to such person, it shall be accompanied by a note explaining that use of the device is regulated by the Agreement State under requirements substantially the same as those in § 31.5 of this chapter.

5. Section 32.52 is revised to read as follows:

§ 32.52 Same: material transfer reports and records.

Each person licensed under § 32.51 to distribute devices to generally licensed persons shall:

(a) Report to the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545, all transfers of such devices to persons for use under the general license in § 31.5 of this chapter.

[4] The recordkeeping and reporting requirements of 10 CFR Part 32 have been cleared by GAO under B180225 (R0068). This clearance expires November 30, 1977.

[1] The model, serial number, and name of the manufacturer, importer, or distributor may be omitted from this label provided the information is elsewhere specified in labeling affixed to the device.

XUM
V 1674 DEC 1974 XUM

Such report shall identify each general licensee by name and address, an individual by name and/or position who may constitute a point of contact between the Commission and the general licensee, the type and model number of device transferred, and the quantity and type of byproduct material contained in the device. If one or more intermediate persons will temporarily possess the device at the intended place of use prior to its possession by the user, the report shall include identification of each intermediate person by name, address, contact, and relationship to the intended user. If no transfers have been made to persons generally licensed under § 31.5 of this chapter during the reporting period, the report shall so indicate. The report shall cover each calendar quarter and shall be filed within 30 days thereafter. The first report to be filed pursuant to this paragraph as revised and effective on January 15, 1975 shall cover the first calendar quarter in 1975. The report, if any, required for the fourth calendar quarter in 1974 shall be filed pursuant to the requirements of this paragraph in effect on January 14, 1975.

(b) Report to the responsible Agreement State agency all transfers of such devices to persons for use under a general license in an Agreement State's regulation equivalent to § 31.5 of this chapter. Such report shall identify each general licensee by name and address, an individual by name and/or position who may constitute a point of contact between the agency and the general licensee, the type and model number of device transferred, and the quantity and type of byproduct material contained in the device. If one or more intermediate persons will temporarily possess the device at the intended place of use prior to its possession by the user, the report shall include identification of each intermediate person by name, address, contact, and relationship to the intended user. The report shall be submitted within 30 days after the end of each calendar quarter in which such a device is transferred to the generally licensed person. If no transfers have been made to a particular Agreement State during the reporting period, this information shall be reported to the responsible Agreement State agency upon request of the agency. The first report, if any, to be filed pursuant to this paragraph as revised and effective on January 15, 1975 shall cover the first calendar quarter in 1975.

(c) Keep records showing the name, address, and a point of contact for each general licensee to whom he directly or through an intermediate person transfers byproduct material in devices for use pursuant to the general license provided in § 31.5 of this chapter or equivalent regulations of an Agreement State. The records shall show the date of each transfer, the isotope and quantity of radioactivity in each device transferred, the identity of any intermediate person, and compliance with the report requirements of this section.

Effective date. The foregoing amendments become effective on January 15, 1975.

(Secs. 81, 161, Pub. L. 83-703, 68 Stat. 935, 948 (42 U.S.C. 2111, 2201))

Dated at Germantown, Maryland this 7th day of December 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74-29035 Filed 12-13-74;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER V—REGIONAL ACTION PLANNING COMMISSIONS

PART 570—REGIONAL EXCESS PROPERTY PROGRAM

Administration Procedures

By virtue of the authority contained in section 514 of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3193), the Regional Action Planning Commissions hereby issue rules regulations and procedures for the administration of the regional excess property program.

In that the material contained herein is a matter relating to a program of economic assistance and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable. However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553 interested persons may submit written comments or suggestions to the Special Assistant for Regional Economic Coordination, Office of the Secretary, U.S. Department of Commerce, Room 2092, Washington, D.C. 20230, by January 16, 1975.

The purpose of these regulations is to implement the provisions of section 514 so as to authorize the Federal Cochairmen of the Regional Action Planning Commissions established pursuant to the Public Works and Economic Development Act of 1965, as amended, to acquire and dispose of excess Federal property for the purpose of economic development.

These regulations only apply to those States or parts of States included within economic development regions established pursuant to Title V of the Public Works and Economic Development Act.

Therefore, a new Chapter V, "Regional Action Planning Commissions," is added to Title 13, Code of Federal Regulations, consisting of the following Part 570:

Sec.
570.1 Authority and purpose.
570.2 Definitions.
570.3 Recipients of excess property.
570.4 Acquisition and disposal of property.
570.5 Return of property.
570.6 Reporting.
570.7 Records.
570.8 Procedures.
570.9 Reimbursement by recipient.
570.10 Delegation of authority.

AUTHORITY: Pub. L. 89-136, sec. 11, 79 Stat. 1162 (42 U.S.C. 3193).

§ 570.1 Authority and purpose.

Pursuant to section 514 of the Public Works and Economic Development Act of 1965, as amended (hereafter, the Act), the Federal Cochairman of each regional commission may acquire excess property, without reimbursement, through the Administrator, GSA, and shall dispose of such property, without reimbursement, for the purpose of economic development, by lending to or vesting title in eligible recipients located wholly or partially within the economic development region of such Federal Cochairman.

§ 570.2 Definitions.

(a) The term "excess property" has the meaning given it by section 3(e) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 472(e)), except that such term does not include real property.

(b) The term "care and handling" has the meaning given it by section 3(h) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 472(h)).

§ 570.3 Recipients of excess property.

(a) The Federal Cochairman of each Regional Commission may lend or transfer title to excess property acquired in the continental United States for the purpose of supporting economic development to any of the following recipients:

(1) Any State or political subdivision thereof;

(2) Any tax-supported organization;

(3) Any Indian tribe, band, group, pueblo, or Alaskan village or Regional Corporation (as defined by the Alaska Native Land Claims Settlement Act of 1971) recognized by the Federal Government or any State, and any business owned by any tribe, band, group, pueblo, village, or Regional Corporation;

(4) Any tax-supported or nonprofit private hospital; and

(5) Any tax-supported or nonprofit private institution of higher education requiring a high school diploma, or equivalent, as a basis for admission.

(b) Such recipient may have, but need not have, received any other aid under the Act.

§ 570.4 Acquisition and disposal of property.

(a) Only property which will be immediately used by a recipient agency will be acquired by a Federal Cochairman. The request for property will bear the concurrence of the Governor of the State in which the applicant is located. The Federal Cochairman will not acquire property to be stockpiled by a recipient. In no event will real property be acquired or disposed of pursuant to this authority.

(b) The following classes of items will not be acquired or disposed of to a recipient:

(1) Subsistence items, including rations and perishable foods;

(2) Property dangerous to public health and safety;

(3) Property determined by competent authority to be classified for reasons of national security;

(4) Dangerous drugs;

(5) Passenger vehicles, except buses and ambulances;

(6) Firearms and ammunition;

(7) Aircraft;

(8) Clothing and shoes;

(9) Jewelry;

(c) The Federal Cochairman may transfer title to property to a recipient if:

(1) The property is to be used for the purpose requested for two or more years;

(2) The property will become an integral part of a project; or

(3) The property is expendable, i.e., will be consumed in the operation or development of the project or program, will be altered in use so as not to be reusable, or otherwise is intended by its nature to have a one-time use or function.

(d) Transfers of title to non-expendable property with an acquisition cost of $2500, or more, shall include a provision that the property shall in the discretion of the Federal Cochairman be returned as the Federal Cochairman directs at the expense of the recipient if, within a two year period after such transfer, the property is no longer being used for the purpose for which it was requested or if any other condition of the transfer is not met. In lieu of return of the property the Federal Cochairman in his discretion may require payment of the fair market value of the property. For good causes shown the Federal Cochairman may, with the approval of the Secretary, waive any of the conditions imposed pursuant to this section.

(e) In lending property acquired under the Act, the Federal Cochairman shall require the recipient to provide proper and adequate liability insurance for the operation and use of machinery, equipment and vehicles or any other item of property so disposed of under the Act and the recipient will be required to hold the Regional Commission, its members, officers and employees, harmless in the event of any claim arising from the injury, disease, or death to operators or users or any person as a result of the use of such property.

(f) The Federal Cochairman may dispose of property to be disassembled or "cannibalized", or approve such action, only in cases in which it is clear that the separated components have greater use value when separated from the original item than does the assembled item. The Federal Cochairman shall consider carefully the facts in each case with due regard to the Federal Government's interest in the property. Retroactive approval of a request for "cannibalization" will normally not be granted.

§ 570.5 Return of property.

Property made available to a recipient on a loan basis will be reported to the Federal Cochairman when the loan period terminates. In such cases, or if the conditions of the loan are not being met, or if the property is no longer needed by the recipient for economic development purposes, the Federal Cochairman may order the return of the property for disposition to other eligible recipients. Property not disposed of to other eligible recipients in the region shall be reported by the Federal Cochairman to GSA for disposal.

§ 570.6 Reporting.

Each Federal Cochairman shall submit to the Secretary an annual report on the property acquired and disposed of, and property acquired but not disposed of. Such report will be submitted within three months after the close of the fiscal year and shall provide data on the acquisition cost of the property and include information on the types of property acquired for each recipient. The report shall further identify that property provided through loan and by transfer of title.

§ 570.7 Records.

The Federal Cochairman will institute and maintain a record system which will permit ready identification of property acquired, its value, and its disposal.

§ 570.8 Procedures.

(a) Each Federal Cochairman is authorized to designate a member of his Federal staff to serve as regional commission property officer and to delegate to such designee authority to administer the regional excess property program within his region.

(b) Only the Federal Cochairman or the regional commission property officer will be authorized under this regulation to screen excess property for acquisition.

(c) Each Federal Cochairman will prepare a procedures handbook, to be approved by the Secretary, for the orderly acquisition, recording, and disposal of property within his region. The handbook will follow the constraints set forth in this part. Each Federal Cochairman will thereafter provide each recipient written instructions to insure the efficient and orderly conduct of the regional excess property program.

§ 570.9 Reimbursement by recipient.

(a) The recipient of any property disposed of by the Federal Cochairman pursuant to this authority shall pay to the Federal agency having custody of the property all costs of care and handling, including transportation costs, incurred in the acquisition and disposal of the property.

(b) The recipient shall also pay any other costs including costs of returning the property to the Federal Government under §§ 570.4(c)(1) or 570.5, which may be incurred with regard to property made available to it by loan or transfer of title, except that in the event property is returned to the Federal Government, the recipient shall not be responsible for costs incurred after such return.

(c) No Federal Cochairman shall be involved in the receiving or processing of any costs paid by a recipient under (a) or (b) of this section.

§ 570.10 Delegation of authority.

The authority of the Secretary of Commerce with respect to the regional excess property program established by Section 514 of the Act is delegated to the Special Assistant to the Secretary for Regional Economic Coordination.

Dated: December 6, 1974.

Approved and Issued,

FREDERICK B. DENT,
Secretary of Commerce.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-GL-34]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On Page 36490 of the FEDERAL REGISTER dated October 10, 1974, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to alter the transition area at Fostoria, Ohio.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., January 30, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on November 25, 1974.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (40 FR 441), the following transition area is amended to read:

FOSTORIA, OHIO

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Fostoria Metropolitan Airport (Latitude 41°11'30" N., Longitude 83°23'50" W.); within three miles each side of the 084° bearing from the airport extending from the 6.5 mile radius area to 8.5 miles east of the airport; excluding that portion that overlies the Tiffin, Ohio transition area.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2548]

PART 13—PROHIBITED TRADE PRACTICES

Forever Young Inc., et al

Correction

In FR Doc. 74-28262, appearing at page 41968, in the issue of Wednesday, December 4, 1974, in the first column of page 41969, item 14, lines 11 and 12 should be

transposed, so that they read as follows: "pare patients for chemical skin-peeling, and only such a professional person can".

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER C—FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS

PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS

PART 1512—REQUIREMENTS FOR BICYCLES

Bicycles and Bicycle Safety Requirements; Suspension of Effective Date

The purpose of this document is to suspend, for reasons given below, the effective date of regulations banning hazardous bicycles and establishing bicycle safety regulations (16 CFR 1500.18(a)(12) and 16 CFR Part 1512).

In the FEDERAL REGISTER of July 16, 1974 (39 FR 26100), and with an effective date of January 1, 1975, the Commission promulgated 16 CFR Part 1512, a regulation prescribing safety requirements for bicycles, and 16 CFR 1500.18(a)(12), a regulation classifying any bicycle introduced into interstate commerce after January 1, 1975, that does not meet the requirements of 16 CFR Part 1512 as a banned toy or other article intended for use by children.

Thereafter, the Commission received more than 50 written communications concerning the regulations from consumers, an importer, manufacturers of bicycles and bicycle components, a retailer, and a trade association of bicycle and component manufacturers. Seventeen of these communications express the view that the effective date of January 1, 1975, will not allow adequate time for redesign, retooling, testing, production, and shipment of complying bicycles and components.

On September 9 and 10, 1974, Commission staff met with interested parties to receive oral presentations relevant to requests for an extension of the effective date and for changes in various provisions of the regulations.

After considering the written communications and oral presentations, the Commission concludes that the original effective date should be suspended and that a new effective date should be proposed for written comment by interested parties.

Accordingly, the Commission will, in the near future, propose a new effective date for the regulations and also propose amendments concerning the footbrake crank differential, chain guards, the handle bar stem-to-fork test, and instructions and labeling.

Therefore, the effective date of 16 CFR 1500.18(a)(12) and 16 CFR Part 1512 is hereby suspended until further notice.

(Secs. 3(f)(1)(D), (g)(1)(A), (s), 9(c)(1), 74 Stat. 372, 374, 376, as amended 80 Stat. 1304–05, 86 Stat. 207–09 (15 U.S.C. 1261, 1262))

Dated: December 10, 1974.

SHELDON D. BUTTS,
Acting Secretary, Consumer Product Safety Commission.

[FR Doc.74-29113 Filed 12-13-74;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 74-304]

PART 1—GENERAL PROVISIONS

Customs Field Organization

On August 13, 1974, notice of a proposal to change the designation of Albuquerque, New Mexico, in the El Paso, Texas, Customs district (Region VI), from a Customs station to a Customs port of entry was published in the FEDERAL REGISTER (39 FR 28996). No comments were received regarding this proposal.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 9 (38 FR 17517), the designation of Albuquerque, New Mexico, as a Customs station in the El Paso, Texas, Customs district (Region VI) is hereby revoked and Albuquerque, New Mexico, is hereby designated a Customs port of entry in the El Paso, Texas, Customs district (Region VI).

The geographical limits of the port of entry will include all of the territory within the following boundaries:

Beginning at the northwest corner of the intersection of the northern boundary of Bernalillo County with the eastern boundary of Valencia County and proceeding in a southeasterly, then easterly, direction along the boundary between Bernalillo and Valencia counties to the intersection of such boundary with Interstate No. 25, then proceeding in a southerly direction along Interstate No. 25 in Valencia County to its intersection with the northern boundary of Socorro County, then proceeding in an easterly direction along the northern boundary of Socorro County to its intersection with New Mexico State Highway No. 47, then proceeding in a northerly direction along New Mexico State Highway No. 47 in Valencia County to its intersection with the southern boundary of Bernalillo County, then proceeding in an easterly, then southerly, then easterly, direction along the southern boundary of Bernalillo County to its intersection with New Mexico State Highway No. 14, then proceeding in a northerly direction along New Mexico State Highway No. 14 in Bernalillo County to its intersection with the New Mexico State Highway No. 44, then proceeding in a northwesterly direction along New Mexico State Highway No. 44 into Sandoval County to the intersection of Highway No. 44 with New Mexico State Highway No. 528, then proceeding in a southerly direction along New Mexico State Highway No. 528 to its intersection with Idalia Road, then proceeding in a westerly direction on Idalia Road to its intersection with Chayote Road, then proceeding in a northerly direction on Chayote Road to its intersection with Progress Boulevard, then proceeding in a westerly direction on Progress Boulevard to its intersection with Encino Boulevard, then proceeding in a southeasterly direction on Encino Boulevard to the northern boundary of Bernalillo County, then proceeding west along the northern boundary of Bernalillo County to the eastern boundary of Valencia County.

To reflect these changes, the table in § 1.3(d) of the Customs Regulations (19 CFR 1.3(d)) is amended by deleting "Albuquerque N. Mex." from the column headed "Customs stations" and "El Paso." from the column headed "Ports of entry having supervision" in the El Paso, Texas, district, and the table in § 1.3(c) of the Customs Regulations (19 CFR 1.3(c)) is amended by inserting "Albuquerque, New Mexico (including the territory described in T.D. 74-304)" directly below "EL PASO, TEX. (T.D. 54407)." in the column headed "Ports of entry" in the El Paso, Texas, Customs district (Region VI).

(Sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended (19 U.S.C. 1, 2))

It is desirable to make the benefits of this designation of Albuquerque, New Mexico, as a Customs port of entry available to the public as soon as possible. Therefore, good cause is found for dispensing with the delayed effective date provision of 5 U.S.C. 553(d).

Effective date. This amendment shall be effective December 16, 1974.

Dated: December 9, 1974.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.74-29211 Filed 12-13-74;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION; DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (99-098V), filed by PS Services, Inc., Bloomington, IL 61701, proposing the safe and effective use of a tylosin premix in the manufacture of swine feed. The application is approved.

To facilitate referencing, the firm is being assigned a sponsor code number and placed in the list of firms in 21 CFR 135.501(c).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135e are amended as follows:

1. In § 135.501(c) by adding a new sponsor as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c) * * *

Code No.:	Firm name and address
* * * * *	
105	PS Services, Inc., 1701 Towanda Ave., Bloomington, IL 61701.
* * * * *	

2. In § 135e.10(b) by adding an additional approval as follows:

§ 135e.10 Tylosin.

* * * * *

(b) * * *

(27) To 105: 40 grains per pound, item 4.

* * * * *

Effective date. This order shall be effective December 16, 1974.

(Sec. 512(i), 82 Stat. 347; (21 U.S.C. 360b (i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 613—JEWELRY AND MISCELLANEOUS PRODUCTS MANUFACTURING INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064), as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 55), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 comp., p. 1004), and by means of Administrative Order No. 634 (39 FR 30941), the Secretary of Labor appointed and convened Industry Committee No. 119-B for the Jewelry and Miscellaneous Products Manufacturing Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 119-B are hereby published, revising §§ 613.1 and 613.2 of Part 613, Title 29, Code of Federal Regulations. The increase in future wage rates prescribed by sections 6(a), (b), (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 613 is changed to conform to the description used by the Industry Committee.

1. As amended the title to Part 613 reads as set forth above.

2. As revised, §§ 613.1 and 613.2 read as follows:

§ 613.1 Definition.

(a) The Jewelry and Miscellaneous Products Manufacturing Industry in Puerto Rico is defined as the manufacture of jewelry and jewelry products including the processing of natural or synthetic stone for jewelry or industrial use; the manufacture of artificial flowers except those made of molded plastic, party favors and similar products, straw, hair and related products; and all other manufacturing activities which are not included in definitions of other manufacturing industries in Puerto Rico for which wage orders have been issued: *Provided, however,* That the industry shall not include any activity carried on by an establishment primarily engaged in another industry in Puerto Rico for its own use.

(b) This industry includes, but is not limited to, the manufacture of jewelry and jewelry findings, rosaries, beads, buttons, buckles, and hair ornaments and accessories; the processing of stones for jewelry or industrial use; the manufacture of flowers, buds, berries, foliage, leaves, fruits, plants, stems and branches which are commonly or commercially known as artificial; the manufacture of party favors and ornaments and decorations for holidays except those made of molded plastics or metal other than metallic chenille, foil or tinsel; and the manufacture of products made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair bristles, feathers and similar materials.

§ 613.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under subsection 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the jewelry and miscellaneous products manufacturing industry in Puerto Rico who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Jewelry, novelty, decoration, straw, hair and related products sector of the industry*—(1) *Pre-1961 coverage classification.* The classifications for pre-1961 coverage apply to all activities in this sector of the industry to which section 6 of the Fair Labor Standards Act applied prior to the Fair Labor Standards Amendments of 1961.

(i) *Gem stone, industrial jewel and precious jewelry classification.* (A) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(B) This classification is defined as the sawing, cutting, grinding, polishing, and other processing of gem diamonds, other precious and semi-precious stones, synthetic stones used for decorative purposes, and natural or synthetic jewels for industrial use, including, but without limitation, jewel bearings, industrial diamonds, and the processing of precious and synthetic stones as components of phonograph needles and the attachment of such jewels to metal phonograph needle components, but not including the production of such metal components; and the manufacture of jewelry and other personal ornaments from precious metals with or without precious stones.

(ii) *Metal expansion watch band classification.* (A) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(B) This classification is defined as the fabrication or partial fabrication of metal expansion bands or expansion bracelets for watches or other uses.

(iii) *Hair ornaments and accessories classification.* (A) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(B) This classification is defined as the manufacture of combs, barrettes,

XUM

bobby pins, hair clips, hair rollers, hair wavers, and other hair ornaments and accessories.

(iv) *Emblematic and military insignia classification.* (A) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(B) This classification is defined as the manufacture or partial manufacture of emblems and military insignia other than from precious metals.

(v) *Straw, hair and related products classification.* (A) The minimum wage rate for this classification is $1.54 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(B) This classification is defined as the manufacture of products made wholly or chiefly of straw, raffia, sisal, maguey, palm leaves, rushes, grasses, hair, bristles, feathers, and similar materials.

(vi) *Other related products and activities classification.* (A) The minimum wage rate for this classification is $1.75 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(B) This classification is defined as all products and activities not included in any other pre-1961 coverage classification in this sector of the industry, including but not limited to the manufacture or assembly of buttons and buckles, artificial flowers, decorations, party favors, rosaries and native and costume jewelry.

(2) *1961 coverage classification.* (i) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(ii) This classification is defined as all products and activities in this sector of the industry to which section 6 of the Act applies only by reason of the Fair Labor Standards Act Amendments of 1961.

(3) *1966 coverage classification.* (i) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely $2 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(ii) This classification is defined as all products and activities in this sector of the industry to which section 6 of the Act applies only by reason of the Fair Labor Standards Act Amendments of 1966.

(b) *Other miscellaneous products manufacturing sector of the industry—* (1) *Pre-1966 coverage classification.* (A) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(B) This classification is defined as all manufacturing activities not included within the classifications of the jewelry, novelty, decoration, straw, hair and related products sector of this industry or the definitions of other manufacturing industries in Puerto Rico for which wage orders have been issued, to which section 6 of the Act applied prior to the Fair Labor Standards Act Amendments of 1966.

(ii) *1966 coverage classification.* (A) The minimum wage rate for this classification is $1.75 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(B) This classification is defined as all manufacturing activities not included within the classifications of the jewelry, novelty, decoration, straw, hair and related products sector of this industry or the definitions of other manufacturing industries in Puerto Rico for which wage orders have been issued, to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date: These amendments shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

PART 617—MILITARY HATS AND CAPS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124-A for the Military Hats and Caps Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 124-A are hereby published. This industry, formerly included in a classification in Part 615, is now made a new Part 617 in Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

The new Part 617 reads as follows:

Sec.
617.1 Definition.
617.2 Wage rates.
617.3 Notices.

AUTHORITY: Secs. 5, 6, 8, 52 Stat. 1062, 1064; 29 U.S.C. 205, 206, 208.

§ 617.2 Definition.

The military hats and caps industry in Puerto Rico is defined as the manufacture of military hats and caps.

§ 617.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any work week is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1966 Coverage Classification:* (1) The minimum wage rate for this classification is $1.90 an hour. Pursuant to section 6(c)(2) of the Act, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached.

(2) This classification is defined as all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 Coverage Classification:* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which section

6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

§ 617.3 Notices.

Every employer subject to the provisions of § 617.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 617.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064 as amended; 29 U.S.C. 205, 206, 208)

Effective date: This part shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage & Hour Division.

PART 657—TOBACCO MANUFACTURES INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 634 (39 FR 30941), the Secretary of Labor appointed and convened Industry Committee No. 121 for the Tobacco Manufacturers Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 121 are hereby published, amending § 657.2 of Part 657, Title 29 Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 657 is changed to conform to the description used by the Industry Committee. A minor editorial change is made in § 657.3.

1. As amended, the title to Part 657 reads as set forth above.

PART 657—TOBACCO MANUFACTURES INDUSTRY IN PUERTO RICO

2. As amended, §§ 657.2 and 657.3 read as follows:

§ 657.2 Wage rates.

* * * * *

(a) *Pre-1961 coverage classifications.*

* * *

(1) *Filler tobacco processing classification.* (i) The minimum wage for this classification is $1.29 an hour for the period ending April 30, 1975. Thereafter, on May 1, 1975, the wage rate, pursuant to section 6(c)(2) of the Act, is increased $.12 an hour to $1.41 and then, on May 1 of each subsequent year, $.15 an hour until the mainland rate is attained pursuant to section 6(c) of the Act.

* * * * *

(2) *Wrapper type tobacco processing classification.* (i) The minimum wage for this classification is $1.52 an hour for the period ending April 30, 1975. Unless otherwise provided, the wage rate is increased $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is attained pursuant to section 6(c)(2) of the Act.

* * * * *

(3) *Machine threshing, other operations classification.* (i) The minimum rate for this classification is $1.74 an hour for the period ending April 30, 1975. Unless otherwise provided, the wage rate is increased $.15 an hour May 1, 1975, and on May 1 of each subsequent year until the mainland rate is attained pursuant to section 6(c)(2) of the Act.

* * * * *

(4) *Cigarette classification.* (i) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (Section 6(c)(5)).

* * * * *

(5) *Other products and activities classification.* (i) The minimum rate for this classification is $1.81 an hour for the period ending April 30, 1975. Unless otherwise provided, the wage rate is increased $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is attained pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture of cigars and all other products and activities in the industry except products and activities included in any other classification in this industry.

(b) *1961 coverage classification.* (1) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (Section 6(c)(5)).

* * * * *

(c) *1966 coverage classification.* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (Section 6(c)(5)).

* * * * *

§ 657.3 Notices.

Every employer subject to the provisions of § 657.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 657.2 are working such notice of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064 as amended; 29 U.S.C. 205, 206, 208)

Effective date. These amendments are effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

PART 661—BANKING, INSURANCE AND FINANCE INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124-B for the Banking, Insurance and Finance Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18,

DEC 24 1974 V 39 2193 XUM

the recommendations of Industry Committee No. 124–B are hereby published, amending paragraphs (a) and (b) of § 661.2 of Part 661, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a) and (b) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

1. As amended, § 661.2 reads as follows:

§ 661.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classification.* (1) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classification.* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date. This amendment shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

[FR Doc.74-29344 Filed 12-13-74;8:45 am]

PART 675—FURNITURE AND FIXTURES AND LUMBER AND WOOD PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93–259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and by means of Administrative Order No. 634 (39 FR 30941), the Secretary of Labor appointed and convened Industry Committee No. 120–A for the Furniture and Fixtures and Lumber and Wood Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 120–A are hereby published, revising §§ 675.1 and 675.2 of Part 675, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 675 is changed to conform to the description used by the Industry Committee. A minor editorial change is made in § 675.3.

1. As amended, the title to Part 675 reads as set forth above.

2. As revised, § 675.1, paragraphs (a) and (b) of § 675.2 and § 675.3 read as follows:

§ 675.1 Definition.

(a) The furniture and fixtures and lumber and wood products industry is defined as the manufacture of household, office, public building, and restaurant furniture, and office and store fixtures; and the manufacture of products made from lumber, wood and related materials; and logging and wood preserving: *Provided, however,* That the industry shall not include any product or activity in the metal, machinery, transportation equipment, and allied products industry; the jewelry and miscellaneous products manufacturing industry; the construction industry; or the paper, paper products, printing and publishing industry.

(b) The industry includes, without limitation, furniture, office and store fixtures, mattresses and bedsprings, boxes and containers, cooperage, window and door screens and blinds, caskets and coffins, matches sawmill products planing and plywood mill products, charcoal; trays, bowls, and other woodenware; excelsior cork bamboo rattan and willowware articles.

§ 675.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classification.* (1) The minimum wage rate for this classification is $1.80 an hour. Unless otherwise provided the wage rates in this section are increased by .15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(2) This classification is defined as all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classification.* (1) The minimum rate for this classification is $1.80 an hour. Unless otherwise provided, the wage rates in this section are increased by .15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

§ 675.3 Notices.

Every employer subject to the provisions of § 675.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 675.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064 as amended; 29 U.S.C. 205, 206, 208)

Effective date. This revision is effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

[FR Doc.74-29343 Filed 12-13-74;8:45 am]

PART 677—PAPER, PAPER PRODUCTS, PRINTING AND PUBLISHING INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93–259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124–B for the Paper, Paper Products, Printing and Publishing Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 124–B are hereby published, revising paragraphs (a) and (b) of § 677.2 of Part 677, Title 29, Code of Federal Regulations. The revision has the effect of combining paragraphs (a) and (b) and changing (c) to (b), thus eliminating paragraph (c). The increases in future wage rates prescribed by sections 6(a) and (b) of the 1974 Fair Labor

Standards Amendments are set forth in this wage order.

As revised, paragraphs (a) and (b) of § 677.2 read as follows:

§ 677.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classification.* (1) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classification.* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2.00 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date. These amendments shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

[FR Doc.74-29349 Filed 12-13-74;8:45 am]

PART 678—STONE, CLAY AND GLASS PRODUCTS AND NONMETALLIC MINING INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 634 (39 FR 3o941), the Secretary of Labor appointed and convened Industry Committee No. 120-B for the Stone, Clay and Glass Products and Nonmetalic Mining Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 120-B are hereby published, revising §§ 678.1 and 678.2 of Part 678, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(2) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 678 is changed to conform to the description used by the Industry Committee. A minor editorial change is made in § 678.3.

1. As amended, the title to Part 678 reads as set forth above.

2. As revised, § 678.1, paragraphs (a), (b) and (c) of § 678.2 and § 678.3 read as follows:

§ 678.1 Definition.

The stone, clay and glass products and nonmetallic mining industry in Puerto Rico is defined as the manufacture from nonmetallic mineral products such as, but not limited to, structural clay products, china, pottery, tile and other ceramic products and refractories; glass and glass products (except lenses); dimension and cut stone; crushed stone; sand and gravel; hydraulic cement; abrasives, lime, concrete, gypsum, mica, plaster and asbestos; and the mining, quarrying, or other extraction and further processing of nonmetallic minerals, except chemical and fertilizer minerals and fossil fuels: *Provided, however,* That the industry shall not include any product or activity included in the jewelry and miscellaneous products manufacturing industry; the construction industry; the metal, machinery, transportation equipment and allied products industry; or the chemical, petroleum and related products industry.

§ 678.2 Wage rates.

(a) *Pre-1961 coverage classifications.* The classifications for pre-1961 coverage apply to all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Vitreous and semivitreous china food utensils classification.* (i) The minimum wage for this classification is $1.83 an hour. Pursuant to section 6(c)(2) of the Act, the wage rate is increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is attained.

(ii) This classification is defined as the manufacture of vitreous and semivitreous china table and kitchen articles for use in households and hotels, restaurants and other commercial institutions for preparing, serving or storing food or drink, except that this classification does not include products in the art pottery classification.

(2) *Art pottery classification.* (i) The minimum wage for this classification is $1.37 an hour for the period ending April 30, 1975; $1.52 an hour beginning May 1, 1975. Thereafter, on May 1 of each subsequent year the wage rate is increased $.15 an hour until the mainland rate is attained pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture of hand-decorated pottery.

(3) *Other products and activities classification.* (i) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(b) *1961 coverage classification.* (1) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1961.

(c) *1966 coverage classification.* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely $2.00 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

§ 678.3 Notices.

Every employer subject to the provisions of § 678.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 678.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

(Secs. 5, 6, 8 52 Stat. 1062, 1064 as amended; 29 U.S.C. 205, 106, 108.)

Effective date. These amendments are effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

PART 671—COMMUNICATIONS, UTILITIES AND TRANSPORTATION INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93–259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124–B for the Communications, Utilities and Transportation Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 124–B are hereby published, revising § 671.2 of Part 671, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b); (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As amended, § 671.2 reads as follows:

§ 671.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classifications.* The classifications for pre-1966 coverage apply to all activities in the industry to which Section 6 of Fair Labor Standards Act applied prior to the Fair Labor Standards Amendments of 1966.

(1) *Radio broadcasting classifications.* (i) The minimum wage rate for this classification is $1.95 an hour. Pursuant to section 6(c)(2) of the Act, the wage rate in this section is increased by $.15 an hour on May 1, 1975 when the mainland rate is reached. Beginning January 1, 1976, the rate is increased to $2.30 an hour (section 6(c)(5)).

(ii) This classification is defined as all activities involving the dissemination by radio to the public of aural programs.

(b) *Other activities classifications.* (1) The minimum rate for this classification is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities that are not specifically included in the other pre-1966 coverage classification of the industry.

(c) *1966 Coverage Classification.* (1) The minimum rate for this classification is $1.80 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2.00 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (Section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date: This amendment shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

PART 672—BUSINESS, PROFESSIONAL, AND MISCELLANEOUS SERVICES INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93–259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124–B for the Business, Professional and Miscellaneous Services Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 124–B are hereby published, revising §§ 672.1 and 672.2 of Part 672, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(2)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 672 is changed to conform to the description used by the Industry Committee:

1. As amended, the title to Part 672 reads as set forth above.

2. As revised, §§ 672.1 and 672.2 read as follows:

§ 672.1 Definition.

The Business, Professional, and Miscellaneous Services Industry in Puerto Rico is defined as the activity carried on by any business or nonprofit enterprise performing real estate, professional, advertising, education, or research activities, or engaged in the furnishing of other facilities or services to industrial or commercial establishments or to the consumer; and the production of photographs and blueprints, the production and distribution of motion pictures and all activities incidental thereto; and all nonmanufacturing activities which are not included in the definitions of other industries in Puerto Rico for which wage orders have been issued: *Provided, however,* That the industry shall not include any activity carried on by an establishment primarily engaged in another industry in Puerto Rico for its own use.

§ 672.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1966 coverage classifications.* The clasifications for pre-1966 coverage apply to all activities in the industry to which section 6 of the Fair Labor Standards Act applied prior to the Fair Labor Standards Amendments of 1966.

(1) *Watching, protective and janitorial services classification.* (i) The minimum wage rate for this classification is $1.85 an hour. Pursuant to section 6(c)(2) of the Act, the wage rate in this section is increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached.

(ii) This classification is defined as all activities of establishments providing personnel for detective, investigative, patrolling, watching or personnel protection services, including the maintenance and monitoring of mechanical protective devices; and all activities of establishments engaged in furnishing cleaning and maintenance services such as janitorial floor waxing and office cleaning.

(2) *Other activities classification.* (i) The minimum rate for this classification

is $2 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(ii) This classification is defined as all activities that are not specifically included in the other pre-1966 coverage classification of the industry.

(b) *1966 Coverage Classifications:* The classifications for 1966 coverage apply to all activities in the industry to which section 6 of the Fair Labor Standards Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(1) *Watching, protective and janitorial services classification.* (i) The minimum wage rate for this classification is $1.85 an hour. Pursuant to section 6(c)(2) of the Act, the wage rate in this section is increased by $.15 an hour on May 1, 1975, when the mainland rate is attained. Beginning January 1, 1976, pursuant to section 6(b) of the Act, the rate is increased to $2.20 an hour, and beginning January 1, 1977, the rate increases to $2.30 an hour.

(ii) This classification is defined as all activities of establishments providing personnel for detective, investigative, patrolling, watching or personnel protection services, including the main tenance and monitoring of mechanical protective devices; and all activities of establishments engaged in furnishing cleaning and maintenance services such as janitorial, floor waxing and office cleaning.

(2) *Other activities classification.* (i) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (Section 6(c)(5)).

(ii) This classification is defined as all activities that are not specifically included in the other 1966 coverage classification of the industry.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date: These amendments shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th day of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

[FR Doc.74-29362 Filed 12-13-74;8:45 am]

PART 683—WHOLESALING AND WAREHOUSING INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 635 (39 FR 37551), the Secretary of Labor appointed and convened Industry Committee No. 124-B for the Wholesaling and Warehousing Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 124-B are hereby published, amending paragraphs (a) and (b) of § 683.2 of Part 683, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a) and (b), of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As amended, paragraphs (a) and (b) of § 683.2 read as follows:

§ 683.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classification.* (1) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classification.* (1) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, $2.00 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (section 6(c)(5)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date. This amendment shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

PART 720—RUBBER AND MISCELLANEOUS PLASTICS PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064), as amended (29 U.S.C. 205, 206, 208), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 54 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 634 (39 FR 30941), the Secretary of Labor appointed and convened Industry Committee No. 119-A for the Rubber and Miscellaneous Plastics Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6(a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division o fthe Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 119-A are hereby published, revising §§ 720.1 and 720.2 of Part 720, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6(a), (b), (c)(1)(B) and (c)(5) of the 1974 Fair Labor Standards Amendments are set forth in this wage order. The title to Part 720 is changed to conform to the description used by the Industry Committee

1. As amended, the title to Part 720 reads as set forth above.

2. As revised, § 720.1 and paragraphs (a) and (b) of § 720.2 read as follows:

§ 720.1 Definition.

The Rubber and Miscellaneous Plastics Products Industry in Puerto Rico is defined as the manufacture from natural, synthetic, or reclaimed rubber or latex rubber, products such as, but not limited to, tires and tubes, reclaimed rubber, rubber and plastics hose and belting, industrial and mechanical rubber goods, rubberized fabrics, miscellaneous rubber specialties and sundries, recapped and retreaded tires, rubber and plastics cut stock and findings for footwear, and miscellaneous fabricated plastics products: *Provided, however,* That th industry shall not include any activity in the rubber and plastics footwear industry; the

XUM

chemical, petroleum and related products industry; the leather, leather goods and related products industry; the gloves and mittens industry; the men's and boys' clothing and related products industry; the corsets, brassieres and allied garments industry; the women's outerwear, needlework and miscellaneous fabricated textile products industry; the textile mill products industry; and the jewelry and miscellaneous products manufacturing industry.

§ 720.2 Wage rates.

* * * * *

(a) *Pre-1966 coverage classifications.* The classifications for pre-1966 coverage apply to all activities in the industry to which Section 6 of the Fair Labor Standards Act applied prior to the Fair Labor Standards Amendments of 1966.

(1) *Rubber products classification.* (i) The minimum rate for this classification is $2.00 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(a)(1) now apply, namely, $2.10 an hour during the year ending December 31, 1975, and $2.30 an hour thereafter (section 6(c)(5)).

(ii) This classification is defined as the manufacture of all rubber products including the recapping and retreading of tires and tubes by a vulcanizing process.

(2) *Plastic dinnerware, sprayer, vaporizer, phonograph record and artificial flower classification.* (i) The minimum wage rate for this classification is $1.75 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture of plastic dinnerware, sprayers, vaporizers, atomizers, phonograph records and artificial flowers of molded plastic.

(3) *Plastic pipe and fittings classification:* (i) The minimum wage rate for this classification is $1.65 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture or assembly of plastic pipes and plastic pipe fittings.

(4) *Other plastics products classification.* (i) The minimum wage rate for this classification is $1.60 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture of all plastics products not included in other pre-1966 coverage classifications in the industry.

(b) *1966 Coverage classifications.* These classifications for 1966 coverage apply to all activities in the industry to which Section 6 of the Fair Labor Standards Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(1) *Rubber products classification.* (i) The minimum rate for this classification is $1.90 an hour for the period ending December 31, 1974. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely $2.00 an hour during the year ending December 31, 1975; $2.20 an hour during the year ending December 31, 1976; and $2.30 an hour thereafter (Section 6(c)(5)).

(ii) This classification is defined as the manufacture of all rubber products, including the recapping and retreading of tires and tubes by a vulcanizing process.

(2) *Plastics products classification.* (i) The minimum wage rate for this classification is $1.75 an hour. Unless otherwise provided, the wage rates in this section are increased by $.15 an hour on May 1, 1975, and on May 1 of each subsequent year until the mainland rate is reached pursuant to section 6(c)(2) of the Act.

(ii) This classification is defined as the manufacture of all plastic products.

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208)

Effective date. These amendments shall become effective December 31, 1974.

Signed at Washington, D.C., this 12th of December, 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-81]

PART 135—LIGHTS FOR COAST GUARD VESSELS OF SPECIAL CONSTRUCTION

Correction

In FR Doc. 74-27746 appearing at page 41362 in the issue for Wednesday, November 27, 1974, as corrected on page 43057 in the issue for Tuesday, December 10, 1974, the headings should read as set forth above.

Title 41—Public Contracts and Property Management

CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PROCUREMENT AND CONTRACTS

Miscellaneous Amendments

On August 12, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 28900) stating that the Department of Health, Education, and Welfare is considering an amendment to 41 CFR, Chapter 3, by adding a new § 3-3.410-1, Basic Agreements, to Subpart 3-3.4, Types of Contracts, and adding a new Subpart 3-7.51, Clauses for use with basic agreements. A minor modification is also being made to Part 3-16, Procurement Forms. The amendment prescribes policies and procedures relative to the negotiation and use of basic agreements.

Interested persons were invited to submit written data, views, and comments within 30 days after publication. Written comments were received, and after consideration of the views presented, the amendment is hereby adopted, subject to the following changes:

PART 3-3—PROCUREMENT BY NEGOTIATION

§ 3-3.410-1 [Amended]

1. Paragraphs (b) (1) and (2) of § 3-3.410-1 are deleted and the following substituted in lieu thereof:

* * * * *

(b) *Applicability.* (1) Basic agreements are appropriate for use when (i) past experience and future plans indicate that a substantial number of separate contracts may be entered into with a contractor during the life of the basic agreement; (ii) peculiar recurring problems exist with a particular contractor regarding the standard general provisions or other terms and conditions of contracts and (iii) where it is beneficial for the contractor and the Government to do so.

(2) Except where particular and unique circumstances exist regarding an individual contract, a basic agreement shall be modified only by a modification of the basic agreement itself and shall not be modified or superseded by individual contracts entered into under and subject to the terms of such basic agreement. Any provision of a contract which conflicts with the terms of a basic agreement must be approved by the Office of Grants and Procurement Management (OGPM). Basic agreements may be modified at any time; however, it is generally desirable to modify them as infrequently as possible. Changes to clauses or new clauses resulting from statutes or Executive Orders should be incorporated as soon after issuance as feasible. Clauses pertaining to subjects not covered in a basic agreement but applicable to the contract or modifications to the contracts being negotiated, and clauses required by statute or Executive Order, if any, which have become effective after the last modification to the basic agreement shall be included in the contract and modifications as if no basic agreement existed. Other changes should be incorporated on an annual basis unless one of the parties specifically requests earlier consideration. As a minimum, basic agreements should be reviewed annually before the anniversary of their effective date and revised to conform with the current requirements of this section. Unless otherwise designated by OGPM, the agency negotiating the basic agreement will be responsible for negotiating all modifications thereto.

2. Paragraph (c) (3), of § 3–3.410–1 is deleted, and the following is substituted in lieu thereof:

(c) * * *

(3) Basic agreements shall be utilized only in connection with negotiated contracts.

3. The phrase "as form" in the paragraph beginning with NOW, THEREFORE, in paragraph (d) of § 3–3.410–1 is deleted.

4. That part of (e) (1) of § 3–3.410–1 reading "When an operating agency decides it is necessary to negotiate * * *" is changed to read "When an operating agency decides to negotiate * * *"

PART 3–7—CONTRACT CLAUSES

§ 3–7.5103–2 [Amended]

5. That part of § 3–7.5103–2 reading "* * * action by the Contracting Officer shall be required" is changed to read "* * * action by the Contracting Officer shall not be required."

§§ 3–7.5103–1—3–7.5103–2 [Amended]

6. That part of the table of contents of Subpart 3–7.51, Clauses for Basic Agreements reading:

3–7.5103–1 Domestic travel.
3–7.5103–2 Advance understandings.

is changed to read:

3–7.5103–1 Advance understandings.
3–7.5103–2 Domestic travel.

PART 3–16—PROCUREMENT FORMS

§ 3–16.5001 [Amended]

7. The following is added to the text of the regulation: That part of paragraph (f) reading "Your proposal must be prepared in accordance with the attached 'Contract Provisions' and 'Instructions to Offerors'" is hereby changed to read: "Your proposal must be prepared in accordance with the attached 'Contract Provisions' and 'Instructions to Offerors'." However, if you have a basic agreement with the Department, and it is applicable to the type of contract to be awarded, the resultant contract will incorporate the basic agreement by reference.

(5 U.S.C. 301; 40 U.S.C. 486(c))

Effective date: These regulations shall become effective December 16, 1974.

Dated: December 9, 1974.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

PART 3–3—PROCUREMENT BY NEGOTIATION

1. The new §§ 3–3.410 and 3–3.410–1 reads as follows:

Sec.
3–3.410 Other types of agreements.
3–3.410–1 Basic agreement.

§ 3–3.410 Other types of agreements.

§ 3–3.410–1 Basic agreement.

(a) *Description.* A basic agreement is not a contract. It is a written instrument of understanding executed between DHEW and a contractor which sets forth the negotiated contract clauses which shall be applicable to future procurements entered into between the parties while the basic agreement is in effect. A basic agreement will apply to a particular procurement by the execution of a formal contractual document which will provide for the scope of work, price, delivery, and additional matters peculiar to the requirements of the specific procurement involved, and shall incorporate by reference or append the contract clauses agreed upon in the basic agreement as required or applicable. Basic agreements may be used with fixed-price or cost-reimbursement type contracts and need not be limited to specific types of services and supplies or categories of procurements.

(b) *Applicability.* (1) Basic agreements are appropriate for use when (i) past experience and future plans indicate that a substantial number of separate contracts may be entered into with a contractor during the life of the basic agreement; (ii) Peculiar recurring problems exist with a particular contractor regarding the standard general provisions or other terms and conditions of contracts and (iii) where it is beneficial for the contractor and the Government to do so.

(2) Except where particular and unique circumstances exist regarding an individual contract, a basic agreement shall be modified only by a modification of the basic agreement itself and shall not be modified or superseded by individual contracts entered into under and subject to the terms of such basic agreement. Any provision of a contract which conflicts with the terms of a basic agreement must be approved by the Office of Grants and Procurement Management (OGPM). Basic agreements may be modified at any time, however, it is generally desirable to modify them as infrequently as possible. Changes to clauses or new clauses resulting from statutes or Executive Orders should be incorporated as soon after issuance as feasible. Clauses pertaining to subjects not covered in a basic agreement but applicable to the contract or modifications to the contracts being negotiated, and clauses required by statute or Executive Order, if any, which have become effective after the last modification to the basic agreement shall be included in the contract and modifications as if no basic agreement existed. Other changes should be incorporated on an annual basis unless one of the parties specifically requests earlier consideration. As a minimum, basic agreements should be reviewed annually before the anniversary of their effective date and revised to conform with the current requirements of this section. Unless otherwise designated by OGPM, the agency negotiating the basic agreement will be responsible for negotiating all modifications thereto.

(3) Basic agreements shall continue in effect until terminated or superseded and shall provide for termination upon 30 days written notice by either party. Termination of a basic agreement will not affect any individual contract referencing or appending the basic agreement entered into prior to the effective date of termination.

(4) A basic agreement shall be used to cover all subsequent procurements which fall within its scope. Provisions of the basic agreement, including supplements thereto, shall be incorporated into a formal contractual document covering a particular procurement by referring therein to the number of the basic agreement and each of its supplements. When an existing contract is amended to effect new procurement, the contract modification shall incorporate the most recent basic agreement, including supplements thereto, to apply only to the work added by the contract modification.

(5) Contract modifications negotiated pursuant to the terms of an existing contract and not involving new procurement may, by mutual agreement of the parties and if determined to be in the interest of the Government, amend the existing contract to conform to a subsequently executed or supplemented basic agreement.

(6) If a clause, which properly deviates from a prescribed clause, must be replaced the replacement clause may deviate to the same extent as the original clause, if the revision is not related to the deviation, and if the deviation has not expired or been rescinded.

(7) Basic agreements may include negotiated overhead rates for cost-reimbursement type contracts. Where negotiated overhead rates are included the bases to which the rates apply and the period of applicability must also be stated. All pertinent provisions such as final rates for past periods, provisional rates for current or future periods, ceilings, and any specific items to be treated as indirect costs shall also be included as appropriate.

(8) Normally a basic agreement will continue in effect until terminated or superseded. Basic agreements for a specified term are not, however, precluded.

(c) *Limitations.* (1) Basic agreements shall neither cite appropriations to be charged nor be used alone for the purpose of obligating funds.

(2) Basic agreements shall not in any manner provide for or imply any agreement on the part of the Government to place future orders or contracts with the contractor involved, nor shall they be used in any manner to restrict competition.

(3) Basic agreements shall be utilized only in connection with negotiated contracts.

(d) *Content and format.* A basic agreement shall consist of: (a) an execution page, (b) contents page (Form HEW–656) may be used for this purpose, and (c) special provisions which are illustrated in Subpart 3–7.51. The following is illustrative of an execution page:

Basic Agreement Number

BASIC AGREEMENT

BETWEEN THE UNITED STATES OF AMERICA, AS REPRESENTED BY THE DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, and (Name of Contractor) THIS AGREEMENT, effective (Insert Date) by and between the UNITED STATES OF AMERICA, hereinafter called the "Government," as represented by the DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, and (Name of Contractor), a corporation organized and existing under the laws of the (State/Commonwealth) of ..... with its principal office in (City), (State), hereinafter called the "Contractor":

WITNESSETH THAT

WHEREAS, the Government and the Contractor desire to enter into a single basic agreement for use only in connection with negotiated (insert type of contract and categories of effort that the basic agreement will cover) entered into on or after the effective date of this Agreement, and prior to its termination; and

WHEREAS, the parties understand that this Agreement shall not in any manner provide for or imply any agreement on the part of the Government to place future orders or contracts with the Contractor.

NOW THEREFORE, the Government and the Contractor agree that the provisions and clauses of the Special Provisions, herein set forth, and the General Provisions (specify form number of applicable general provisions) attached hereto and as modified herein, shall be incorporated in and constitute the terms and conditions applicable to all negotiated (insert type of contract and categories of effort that the basic agreement will cover) entered into on or after the effective date of this agreement, and prior to its termination.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written:

UNITED STATES OF AMERICA

(e) *Procedures.* (1) Negotiation of basic agreements may be undertaken by operating agencies of DHEW in behalf of the Department. When an operating agency decides to negotiate a basic agreement with an organization, prior authorization must be requested, in writing, from the Director, Division of Procurement Policy and Regulations Development (DPPRD), OGPM. When the Director, DPPRD, gives written authorization to the agency designated to conduct negotiations on behalf of the Department, all other agencies will be notified of this designation. If another agency elects, it may attend the negotiation or furnish special terms and conditions or provisions for inclusion in the proposed basic agreement by advising the designated negotiating agency in writing within ten (10) days from the date of the authorization. After review and resolution of all requests for inclusion of special terms and conditions or provisions, the designated negotiating agency will invite those operating agencies who expressed an interest in attending the negotiations and make the necessary arrangements for the negotiation of the basic agreement.

(2) Prior to the conclusion of negotiations, the designated negotiating agency shall furnish the other operating agencies a draft copy of the proposed basic agreement, together with:

(i) A resume of all salient features of the basic agreement which will facilitate review;

(ii) Any of the operating agency's guides or procedures which are being considered for incorporation into the basic agreement by reference;

(iii) A listing of nonstandard clauses used, the genesis of such clauses, and the reasons for such clauses in the basic agreement; and

(iv) The contractor's comments, including the basis for his requesting any deviation from the DHEW Procurement Regulations and the designated negotiating agency's position with respect thereto.

(3) The other operating agencies shall have fifteen (15) days from the date of the memorandum transmitting the aforesaid information to submit comments on the draft copy of the basic agreement. After receipt, analysis and resolution of the comments of the other operating agencies, the designated negotiating agency will proceed to conclude the negotiation of the basic agreement.

(4) After conclusion of the negotiation but prior to execution of the basic agreement, a copy of the basic agreement, together with the information specified in paragraph (e)(2) above, and the comments of the other operating agencies with the designated negotiating agency's analysis thereof and the basis for the action taken will be furnished to the Director, DPPRD, OGPM, for review by DPPRD, and the Office of General Counsel. Approval by the Deputy Assistant Secretary for Grants and Procurement Management or his designee must be given prior to the execution of the basic agreement. After approval and execution of the basic agreement, the designated negotiating agency will distribute the executed document to the other operating agencies, Office of General Counsel, and the Office of Grants and Procurement Management, OASAM. The basic agreement is mandatory for use by all agencies of the Department for all procurements falling within the scope of the basic agreement.

(f) *Listing of basic agreements.* Appendix A to this chapter lists all of the approved basic agreements. The appendix will be updated on a quarterly basis.

PART 3–7—CONTRACT CLAUSES

2. As proposed, the new Subpart 3–7.51 will read as follows:

Subpart 3–7.51—Clauses for Basic Agreements

Sec.

3–7.5100 Scope of subpart.
3–7.5101 Mandatory clauses — general applicability.
3–7.5101–1 Duration of basic agreement.
3–7.5101–2 Amendment to basic agreement.
3–7.5101–3 Separate contracts.
3–7.5101–4 Work to be performed.
3–7.5101–5 Estimated cost.
3–7.5101–6 Order of precedence.
3–7.5102 Mandatory clauses—limited purpose.
3–7.5102–1 Protection of human subjects.
3–7.5102–2 Care of laboratory animals.
3–7.5102–3 Sex discrimination.
3–7.5102–4 General provisions, modifications thereto.
3–7.5103 Optional clauses.
3–7.5103–1 Advance understandings.
3–7.5103–2 Domestic travel.

§ 3–7.5100 Scope of subpart.

This subpart prescribes clauses to be used in basic agreements. The clauses set forth in § 3–7.5101 shall be included in all basic agreements and the clauses set forth in § 3–7.5102 will be mandatory whenever contracts written pursuant to the terms of a basic agreement will cover the specific subject matter or the type of institution is covered by such a provision. Optional clauses are listed as examples and are not all inclusive.

§ 3–7.5101 Mandatory clauses—general applicability.

§ 3–7.5101–1 Duration of basic agreement.

DURATION OF BASIC AGREEMENT

This Agreement shall continue in effect until terminated. The Agreement may be terminated in its entirety by either party upon thirty (30) days written notice to the other party; *Provided, However,* That no such termination shall affect any contracts theretofore entered into between the parties in which this agreement has been incorporated by reference.

§ 3–7.5101–2 Amendment of basic agreement.

AMENDMENT OF BASIC AGREEMENT

The Agreement may be amended at any time by mutual agreement of the parties. In addition, this Agreement shall be reviewed at least annually prior to the anniversary of its effective date to assure conformance with all requirements of law and pertinent regulations and shall be revised, if necessary, to conform thereto. Any amendment or revision shall be evidenced by an agreement modifying this Basic Agreement or by the issuance of a superseding Basic Agreement. No amendment, modification, or revision of this Basic Agreement shall affect any contracts theretofore entered into between the parties in which this Agreement has been incorporated by reference, except as may be expressly provided in such amendment, modification, or revision hereto; provided, however, that no such amendment shall have retroactive effect.

§ 3–7.5101–3 Separate contracts.

SEPARATE CONTRACTS

(a) The parties may from time to time enter into separate contracts, entered into under and subject to the terms of this Basic Agreement. Separate contracts shall be executed by both parties and shall set forth the scope of work to be performed, estimated cost, period of performance, and any additional terms or conditions peculiar to the requirements of the specific procurement involved. (Note: The language relative to estimated cost can be changed if cost plus-fixed-fee or fixed-price type contracts could

be awarded under the terms of the Basic Agreement.)

(b) This Agreement shall not be modified or superseded, in whole or in part, by any individual contract entered into under and subject to the terms of this Agreement.

(c) The term "contract" as used throughout this Basic Agreement shall include and apply to this Basic Agreement and to each separate contract entered into hereunder and subject to the terms hereof to the extent applicable. The term "Agreement" as used herein shall apply only to this Basic Agreement.

§ 3–7.5101–4 Work to be performed.

WORK TO BE PERFORMED

(a) Independently and not as an agent of the Government, the Contractor shall perform the work described in each separate contract. When the work under any separate contract is to be performed on other than a completion basis, a level-of-effort to be provided by the Contractor will be specified in such contract.

(b) The Contractor shall deliver to the Government such reports and such other items, at such times and in such quantities, as specified in each separate contract. The Contractor shall also make such reports to the Government as called for by the terms of this Basic Agreement in accordance with the formal instructions of the Contracting Officer.

(c) None of the research effort under any separate contract shall be subcontracted or transferred to another organization without the specific prior written approval of the Contracting Officer.

§ 3–7.5101–5 Estimated cost.

ESTIMATED COST

The estimated cost of separate contracts under this agreement shall be separately specified in each such contract. (Note: The language can be modified if fixed-price or cost-plus-fixed fee contracts are to be awarded under the terms of the basic agreement.)

§ 3–7.5101–6 Order of precedence.

ORDER OF PRECEDENCE

In the event of an inconsistency in this contract, the inconsistency shall be resolved by giving precedence in the following order: (a) the separate contract; (b) the Special Provisions of this Agreement; and (c) the General Provisions of this Agreement.

§ 3–7.5102 Mandatory clauses—limited purpose.

§ 3–7.5102–1 Protection of human subjects.

If the contracts to be negotiated pursuant to the terms of the Basic Agreement involve human subjects, include the following clause in the Basic Agreement.

PROTECTION OF HUMAN SUBJECTS

(a) The Contractor agrees that the rights and welfare of human subjects will be protected in accordance with procedures specified in its current Institutional Assurance on file with the Department. The Contractor further agrees to provide certification at least annually that an appropriate institutional committee has reviewed and approved the procedures which involve human subjects in accordance with the applicable Institutional Assurance accepted by the Department.

(b) The Contractor shall bear full responsibility for the proper and safe performance of all work and services involving the use of human subjects under this contract. The parties hereto agree that the Contractor retains the right to control and direct the performance of all work under this contract. No provision of this contract shall be deemed to constitute the Contractor or any subcontractor, agent or employee of the Contractor or any other person, organization, institution, or group of any kind whatsoever, as the agent or employee of the Government. The Contractor agrees that it has entered into this contract and will discharge its obligations, duties, and undertakings and the work pursuant thereto whether requiring professional judgment or otherwise as an independent contractor and without liability on the part of the Government.

§ 3–7.5102–2 Care of laboratory animals.

If the contracts to be negotiated pursuant to the terms of the Basic Agreement involve the use of animals, include the following clause:

CARE OF LABORATORY ANIMALS

(a) Before undertaking performance of any contract involving experimentation using laboratory animals, the Contractor shall register with the Secretary of Agriculture of the United States in accordance with Section 6 of the Laboratory Animal Welfare Act of 1966, Pub. L. 89–544, as amended by the Animal Welfare Act of 1970, Pub. L. 91–579 (7 U.S.C. 2131 et seq.). The Contractor shall furnish evidence of such registration to the Contracting Officer.

(b) The Contractor shall acquire animals to be used in research under this contract from dealers licensed by the Secretary of Agriculture, or from sources exempted in accordance with the Public Laws enumerated in (a) above, or from such sources as may be specified by the terms of any separate contract: *Provided, however,* That the requirement for obtaining animals from licensed dealers shall not apply to those animals excluded from the regulations cited in (c) below.

(c) In the care of any experimental warm-blooded animals used or intended for use in the performance of this contract, the Contractor shall comply with: The Public Laws enumerated in (a) above; regulations issued thereunder (Title 9, Code of Federal Regulations, Parts 1, 2, and 3, entitled "Laboratory Animal Welfare"); the principles enunciated in the "Guide for the Care and Use of Laboratory Animals" prepared by the Institute of Laboratory Animal Resources, National Academy of Sciences—National Research Council (HEW Publication (NIH) 73–23); and the terms of the pertinent contract. In the event that any conflict among the standards prescribed by the foregoing is not clearly resolved by the express terms of the pertinent contract, the higher standard shall be used.

§ 3–7.5102–3 Sex discrimination.

If the contracts to be negotiated pursuant to the terms of the Basic Agreement are to be funded with funds made available under Titles VII or VIII of the Public Health Service Act as amended by the Comprehensive Health Manpower Training and Nurse Training Acts of 1971, include the following clause:

SEX DISCRIMINATION

(a) *Contractor's assurance.* The Contractor agrees that it will comply with the provisions of its Assurance (HEW–690 (3/72)) which was executed on _____, and submitted to the Office of Civil Rights, Department of Health, Education, and Welfare as required by Public Health Service Act sections 799A and 845 and by pertinent portions of the regulations issued under section 315(b) of the Act and which states that the Contractor will not discriminate on the basis of sex in admissions to its training programs.

(b) *Alternate dispute and supplemental termination procedures clause.* Prior to termination of a contract whether for default or for convenience, based upon breach of the assurance, the Contractor shall be entitled to a hearing. The standard disputes clause is hereby made inapplicable to decisions concerning the Contractor's compliance with the assurance and this clause shall apply exclusively.

(1) If, during the performance of this contract, the Government has reason to believe that the Contractor is failing to fulfill its obligations under the assurance, the Contractor shall be notified of its non-compliance by the Director, Office of Civil Rights, or his authorized representative, who, for purposes of this notification, is hereby designated the Contracting Officer's representative, and informed that termination of its contract is being considered.

(2) Such notice shall be mailed to the Contractor by registered mail with return receipt requested and shall inform the Contractor of its non-compliance. The Contractor may, within thirty (30) days from receipt of the notification, request a hearing.

(3) The request for a hearing shall be mailed or otherwise delivered to the Director, who is hereby designated as the Contracting Officer's representative for the purpose of determining, as hereinafter provided, whether the Contractor is in breach of the assurance and for terminating the contract on that ground. The Contractor shall send the Contracting Officer a copy of that request. If the Contractor does not request a hearing within the thirty (30) days, the Director shall issue a decision of non-compliance which shall constitute the final Departmental decision. The Director shall notify the Contracting Officer of the Contractor's violation of its assurance. If the Contractor requests a hearing, it shall be afforded a prompt opportunity to be heard and to offer evidence to show that it is in compliance.

(4) The Reviewing Authority (Civil Rights), HEW, which has been delegated the authority by the Director to review decisions of cases arising under §§ 799A and 845 of the Public Health Service Act, shall designate a hearing officer who shall conduct the hearing and shall decide, after the hearing, based on the record as a whole, whether the Contractor has failed to fulfill its obligations under the assurance. The initial decision of the hearing officer, which shall include Findings of Fact and Conclusions of Law, shall be reduced to writing and an authenticated copy thereof will be issued to the Contractor by registered mail, return receipt requested. Exceptions to the initial decision of the hearing officer may be filed with the Reviewing Authority but not later than twenty (20) days after the initial decision has been received by the Contractor.

(5) In the event the Contractor does not file exceptions to the initial decision of the hearing officer, the Reviewing Authority shall either certify the initial decision as the final Departmental decision or review it. In the event the Contractor files exceptions to the initial decision, the Reviewing Authority shall review the initial decision. Upon review, whether upon its own motion or upon filing exceptions, the Reviewing Authority shall affirm, modify, or reverse the initial decision, in whole or in part, based on the record as a whole, and state the reasons therefor. This decision of the Reviewing Authority shall become the final Departmental decision.

XUM
DEC 1974 V39 #242
XUM

(6) An authenticated copy of the Reviewing Authority's final Departmental decision shall be forwarded to the Contractor and the Contracting Officer.

(7) Any final Departmental Decision shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. This clause does not preclude consideration of questions of law in connection with decisions provided for above, provided that nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

(8) If the final Departmental decision is that the Contractor has failed to fulfill its obligations under the assurance and is, therefore, in non-compliance, the contract shall be terminated by the Director, acting for the Contracting Officer. If the contract contains only a "Termination for Convenience" clause, the contract shall be terminated for the convenience of the Government. If the contract contains both "Termination for Convenience" and "Termination for Default" clauses, the Director shall terminate the contract under the "Termination for Default" clause. Any additional decisions required by the clause under which this contract is terminated shall be made by the Contracting Officer.

(9) To the extent that this clause is inconsistent with the applicable "Termination" clause, this clause shall take precedence. In all other respects, termination shall be subject to the applicable "Termination" clause.

§ 3–7.5102–4 General provisions, modifications thereto.

If modifications are to be made to the General Provisions include the following provision in the Basic Agreement:

GENERAL PROVISIONS, MODIFICATIONS THERETO

(a) *Modifications to General Provisions applicable to individual contracts.* List any additional clauses that may be applicable to some contracts negotiated pursuant to the terms of the Basic Agreement. Each separate contract must reference the applicable clause. For example, if the work under any separate contract negotiated pursuant to the terms of the Basic Agreement involves the production of motion pictures, scripts, musical compositions, sound tracks, computer programs, translations or similar materials, and such contract so specifies, the "Rights in Data" clause set forth in the General Provisions may be deleted and the alternate "Rights in Data" clause set forth in item (8) of paragraph (a) of § 3–16.5003 may be substituted therefor.

(b) *Applicable overhead and payment provision.* Specify any overhead and payment provisions which would be applicable.

(c) *Modifications applicable to all contracts hereunder.* List any modification that would be applicable to all contracts negotiated pursuant to the terms of the Basic Agreement.

§ 3–7.5103 Optional clauses.

§ 3–7.5103–1 Advance understandings.

ADVANCE UNDERSTANDINGS

(a) The parties may agree in advance regarding the approval of any item or activity under any separate contract the cost of which is not either expressly allowable or unallowable pursuant to any other clause of this Agreement or which otherwise requires the specific approval of the Contracting Officer. Each such advance understanding shall be set forth in the contract to which the understanding pertains and shall describe with particularity the items or activities covered by the understanding. Further administrative action by the Contracting Officer shall not be required with respect to any item or activity subject to an advance understanding; and such advance understanding shall not, unless otherwise provided therein, constitute a determination of the allowability of the cost involved.

(b) Unless otherwise specified in a separate contract, or modification thereto, the costs of the following items or activities shall be unallowable as direct items or cost under this contract:

(1) Acquisition, by purchase or lease, of any interest in real property.

(2) Special rearrangement or alteration of facilities.

(3) Purchase or lease of any item of general purpose office furniture or office equipment.

§ 3–7.5103–2 Domestic travel.

DOMESTIC TRAVEL

(a) Total expenditures for domestic travel under any separate contract shall not exceed (insert amount), or (insert percentage) of the amount, if any, specified in such contract as being allotted for such travel, whichever is greater, without the written approval of the Contracting Officer.

(b) The cost of travel by privately-owned automobile shall be reimbursed at the mileage rate prescribed by the Contractor's established, generally applicable travel policy in lieu of actual costs: *Provided, however,* That such reimbursement shall not exceed the otherwise allowable comparative cost of travel by common carrier.

(c) Reasonable actual costs of lodging and subsistence, or of per diem in lieu of actual costs, shall be allowable to the extent that such actual costs or per diem amounts do not exceed the amounts or per diem rates prescribed by the Contractor's established, generally applicable travel policy.

(d) Any revision to the Contractor's established, generally applicable travel policy submitted to the cognizant audit agency during the period of performance of this contract shall be effective, without formal modification to this contract, upon delivery to the procurement official of the agency who negotiated the basic agreement, of a copy of such revised policy together with evidence of submission to the cognizant audit agency.

The following is added to the text of the regulation: That part of paragraph (f) of Section 3–16.5001 reading "Your proposal must be prepared in accordance with the attached "Contract Provisions" and "Instructions to Offerors" is hereby changed to read: "Your proposal must be prepared in accordance with the attached "Contract Provisions" and "Instructions to Offerors." However, if you have a basic agreement with the Department, and it is applicable to the type of contract to be awarded, the resultant contract will incorporate the basic agreement by reference."

[FR Doc.74–29214 Filed 12–13–74;8:45 am]

CHAPTER 9—ATOMIC ENERGY COMMISSION

PART 9–3 PROCUREMENT BY NEGOTIATION

Subpart 9–3.3 Determinations, Findings, and Authorities

MISCELLANEOUS AMENDMENT

This revision to AECPR 9–3.301 is being made in order to incorporate therein material previously found in AECPR Temporary Regulation No. 4, dated March 8, 1974, dealing with Determinations, Findings and Authorities. Since the provisions of AECPR Temporary Regulation No. 4 will be incorporated into a permanent AECPR 9–3.301, this temporary regulation is hereby canceled.

Section 9–3.301 is revised as follows:

§ 9–3.301 General.

Except as otherwise provided in § 9–3.302, the determinations and findings required by FPR Subpart 1–3.3 shall be made. Except as otherwise provided in § 9–3.303, the determinations and findings required by FPR Subpart 1–3.3 may be made and executed by contracting officers, or by Directors of AEC Headquarters Divisions that have been delegated authority to select contractors.

(Sec. 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, (42 U.S.C. 2201); sec. 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, (40 U.S.C. 486))

Effective date: This amendment is effective December 16, 1974.

Dated at Germantown, Maryland, this 9th day of December 1974.

For the U.S. Atomic Energy Commission.

JOSEPH L. SMITH,
Director, Division of Contracts.

[FR Doc.74–29106 Filed 12–13–74;8:45 am]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5454]

ALASKA

Amendment of Public Land Order No. 5176

By virtue of the authority vested in the Secretary of the Interior by section 11 (a) (3) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1610(a) (3), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subparagraphs b and c of paragraph 1 of Public Land Order No. 5176 of March 9, 1972, as amended by Public Land Order No. 5191 of March 17, 1972, Public Land Order No. 5252 of September 12, 1972, and Public Land Order No. 5393 of September 14, 1973, withdrawing, reserving, and designating lands for selection by the village corporations of Tatitlek and Eyak, respectively, is hereby amended to delete the specific designation of lands for the villages of Tatitlek and Eyak and to make all of the lands so withdrawn available to the village corporation of Tatitlek and the possible selection by the village corporation of Eyak, if it is determined to be an eligible village.

The tract described contains 563.32 acres, authority to make contracts and to grant the Department of the Air Force as the

2. The lands withdrawn by Public Land Order No. 5176, as amended, remain subject to all of the terms and conditions contained therein.

JACK O. HORTON,
Assistant Secretary of the Interior.

DECEMBER 10, 1974.

[FR Doc.74-29204 Filed 12-13-74;8:45 am]

[Public Land Order 5455]

[Fbks-012720, 012723]

ALASKA

Partial Revocation of Public Land Orders No. 1571 and No. 1851

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 1571 of December 26, 1957, as amended by Public Land Order No. 1851 of May 14, 1959, which withdrew lands for the Department of the Air Force for military purposes, is hereby revoked so far as it affects the following described lands:

(F-012720)

Two parcels of land located at Wainwright DEW Station (LIZ-3) in the Second Judicial District, State of Alaska; said parcels being more particularly described as follows:

PARCEL 1

Commencing at U.S.C.&G.S. Triangulation Station "ALOAK" thence S. 32°00'00" W., a distance of 6,650.0 feet, more or less; thence N. 69°00'00" E., a distance of 5,000.0 feet, more or less, to the true point of beginning; thence continuing N. 69°00'00" E., a distance of 3,900.0 feet, more or less; thence N. 21°-00'00" W., a distance of 1,900.0 feet, more or less; thence S. 69°00'00" W., a distance of 3,900.0 feet more or less; thence S. 21°00'00" E., a distance of 1,900.0 feet, more or less, to the point of beginning.

Containing 170.11 acres, more or less.

PARCEL 2

Commencing at U.S.C. & G.S. Triangulation Station "WAINWRIGHT"; thence S. 66°00'00" W., a distance of 1,150.0 feet, more or less; thence S. 76°00'00" E., a distance of 1,100.0 feet, more or less, to the true point of beginning; thence continuing S. 76°00'00" E., a distance of 5,050.0 feet, more or less; thence S. 24°00'00" E., a distance of 10,240.0 feet, more or less, to a point called "A" for further reference hereinbelow; thence return to said point of beginning N. 18°00'00" E., a distance of 1,200.0 feet more or less; thence N. 84°00'00" E., a distance of 7,500.0 feet, more or less; thence S. 49°30'00" E., a distance of 12,950.0 feet, more or less; thence S. 69°00'00" W., a distance of 5,280.0 feet, more or less; thence S. 21°00'00" E., a distance of 4,500.0 feet, more or less; thence S. 69°00'00" W., a distance of 5,000.0 feet, more or less, to the MHW Line of Wainwright Lagoon; thence northwesterly along said MHW Line, a distance of 4,700.0 feet, more or less, to point "A" described hereinabove.

There is excepted therefrom a 30-foot right-of-way being 15.00 feet on each side of the following described centerline:

Commencing at U.S.C.&G.S. Triangulation Station "WAINWRIGHT"; thence S. 66°00'00" W., a distance of 1,150.0 feet, more or less; thence S. 76°00'00" E., a distance of 1,100.0 feet, more or less; thence N. 18°00'00" E., a distance of 500.0 feet, more or less, to the true point of beginning; thence S. 84°00'00" E., a distance of 5,200.0 feet, more or less; thence S. 35°00'00" E., a distance of 15,300.0 feet, more or less, to the southerly boundary of Parcel 2 described above.

Right-of-way contains 14.12 acres, more or less.

Parcels 1 and 2 comprise 2,539.0 acres, more or less, excluding 14.12 acres described above.

(F-012723)

A parcel of land located at Point Lay DEW Station (LIZ-2) in the Second Judicial District, State of Alaska; said parcel being more particularly described as follows:

Commencing at U.S.C. & G.S. Triangulation Station "BETH"; thence by metes and bounds N. 59°00' E., a distance of 13,800.0 feet, more or less; thence east, a distance of 12,300.0 feet, more or less; thence north, a distance of 2,730.0 feet, more or less, to the true point of beginning; thence west a distance of 6,000.0 feet, more or less; thence north, a distance of 2,200.0 feet, more or less; thence west, a distance of 8,300.0 feet, more or less, to a point on the MHW Line of KASEGALUK LAGOON, said point being called point "A" for further reference hereinbelow; thence returning to said point of beginning, north, a distance of 5,830.0 feet, more or less; thence west, a distance of 13,770.0 feet, more or less, to a point on the MHW Line of KASEGALUK LAGOON; thence southerly along said MHW Line, a distance of 3,630.0 feet, more or less, to point "A" described hereinabove, and the terminus of this description.

Contains 1,450.0 acres, more or less.

2. The lands described in paragraph 1 are withdrawn under section 11(a)(1) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 696), for selection by the villages of Wainwright and Point Lay and the Arctic Slope Regional Corporation.

3. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181-287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary of the Interior.

DECEMBER 11, 1974.

[Public Land Order 5456]

[AA-239]

ALASKA

Revocation of Executive Order No. 8786; Partial Revocation of Public Land Order No. 1087

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Executive Order No. 8786 of June 14, 1941, which withdrew approximately 1,930 acres of land on Amaknak Island for the use of the Department of the Navy for naval aviation purposes is hereby revoked. A portion of this island is subject to the withdrawal made by Executive Order No. 1733 of March 3, 1913, as amended by Executive Order No. 5243 of December 19, 1929, which remains in full force and effect.

2. Public Land Order No. 1087 of March 8, 1955, which reserved lands on Hog Island in Unalaska Bay and lands on Unalaska Island for use of the Department of the Navy for military purposes its partially revoked so far as it affects the following described lands:

a. All of Hog Island, in Unalaska Bay, near Unalaska Island, as shown on U.S. Coast and Geodetic Survey Chart No. 9007.

The area described aggregates 110 acres.

b. Beginning at a point identified as C & GS. triangulation Station "Ober," latitude 53°51'25.038" N., longitude 166°33'41.314" W., located on the south shore of Captains Bay, Unalaska Island, thence South, along said longitude to intersection with latitude 53°48'00" N.; East, along said latitude to intersection with longitude 166°31'35" W.; North, along said longitude to intersection with latitude 53°50'48" W.; West, along said latitude to intersection with longitude 166°32'20" W.; North, along said longitude to intersection with southwest boundary of Unalaska Townsite Reservation by Executive Order No. 8573 of October 21, 1940; Northwesterly, along south boundary of the Townsite Reservation to a point on the south shore of Captains Bay; Southwesterly, along shore of Captains Bay to point of beginning.

The tract described contains approximately 3,500 acres.

3. The village corporation of Unalaska at Dutch Harbor, has been found to be eligible for land grants under the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688), and pursuant to section 12(d) of the act (85 Stat. 688, 702), has timely identified the lands described in paragraph 2 of this order for selection.

JACK O. HORTON,
Assistant Secretary of the Interior.

DECEMBER 11, 1974.

[Public Land Order 5457]

[F-012026 (Anch.)]

ALASKA

Partial Revocation of Public Land Order No. 1771

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 1771 of December 24, 1958, which withdrew lands for the Department of the Air Force for military purposes, is hereby revoked so far as it relates to the following described lands:

UNALAKLEET AREA

Parcel 1: Beginning at a point in latitude 63°55'30" N., longitude 160°46' W., which bears N. 77°20'38" E., 2,992.17 feet from U.S.C. & G.S. Station "Traeger", thence by metes and bounds:

East 4,024.35 feet; south 6,095.72 feet; west 4,026.81 feet; north 6,095.72 feet to the point of beginning.

The tract described contains 563.32 acres.

Parcel 2: Beginning at a point which bears N. 22°51'17" W., 330 feet; and N. 73°19'00" E., 315 feet more or less from Corner No. 2 of Air Navigation Site Withdrawal No. 185; thence by metes and bounds:

West 250 feet, more or less, to a point on the line of mean high tide of Norton Sound; N. 14°00' W., 2,200 feet more or less in a meandering line along said mean high tide line; east 1,650 feet, more or less; south 2,000 feet, more or less; west 720 feet, more or less to the point of beginning; excepting therefrom the following described parcel which contains 8.41 acres:

Commencing at meander Corner No. 2 of ANS 185 proceed N. 73°15' E., 315 feet more or less to a point; thence N. 22°51'16" W., 743 feet more or less to a point; thence N. 17°22'17" W., 1716.12 feet more or less to the point of beginning of this description; thence East 660 feet to a point; thence South 660 feet to a point; thence West 453.53 feet to a point; thence N. 17°22'17" W., 691.94 feet to the point of beginning.

The tract described contains 51.00 acres.

The above described two parcels less the exception, contain a total of 614.41 acres, more or less.

2. The lands described in paragraph 1 of this order, excluding those excepted from Parcel No. 2, are withdrawn under section 11(a)(1) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 696), for selection by the Native village of Unalakleet.

3. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181, 287 (1970), will be rejected until this order is modified or the lands, are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Public Land Order 5468]

[F-010113, 013010]

ALASKA

Partial Revocation of Public Land Orders Nos. 765, 1139, 1444

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 765 of November 13, 1951, and Public Land Order No. 1139 of April 28, 1955, which withdrew lands for the Department of the Army for military purposes, are hereby revoked as to the following lands, now described by U.S. Survey:

[illegible]

Lot 2, containing 2.34 acres.
Lot 3, containing 7.02 acres.

2. Public Land Order No. 1444 of July 12, 1957, which withdrew lands for the Department of the Air Force as the Northway TACAN Site (F-013010) is hereby revoked as to the following described lands:

Commencing at Corner No. 5 of Federal Aviation Administration existing withdrawal (U.S. Survey No. 2630), proceed S. 30°00' W., 1,569.19 feet to the true point of beginning of this description; thence proceed S. 60°00' E., 1,786.63 feet; thence S. 30°00' E., 948.74 feet; thence N. 60°00' W., 1,786.63 feet; thence N. 30°00' W., 948.74 feet to the point of beginning, containing 38.91 acres more or less.

3. The lands described in paragraphs 1 and 2 are withdrawn under section 11(a)(1) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 696), for selection by the village of Northway and the Doyon Ltd. regional corporation.

4. Prior to any conveyance of the lands described in paragraphs 1 and 2, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary of the Interior.

(7) Scores not less than 30 points

tainer, as such, is not a factor of quality

TABLE II.—Single sampling plans and acceptance numbers

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

CANNED GRAPEFRUIT AND ORANGE FOR SALAD

Proposed Grade Standards

Notice is hereby given that the United States Department of Agriculture is considering a revision of the United States Standards for Grades of Canned Grapefruit and Orange for Salad (7 CFR 52.1251–52.1264). These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different marketing levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover cost of such services.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than December 31, 1974, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made under this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27 (b)).

NOTE.—Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

Statement of consideration leading to the proposed revision. The Florida Canners Association representing all of the processors of canned grapefruit and orange for salad has requested the USDA to revise the current U.S. Standards for Grades of Canned Grapefruit and Orange for Salad to conform, as nearly as practicable, to the U.S. Standards for Grades of Canned Grapefruit.

The U.S. Standards for Grades of Canned Grapefruit were revised effective October 25, 1973, to overcome problems associated with mechanized segmenting and filling operations. Based upon the applicability of the revised canned grapefruit standards, and the similarity of canned grapefruit to canned grapefruit and orange for salad, the Florida Canners Association has requested the USDA to bring the current U.S. Standards for Grades of Canned Grapefruit and Orange for Salad in line with the current industry problems and operations.

Changes proposed are as follows:

(1) Elimination of drained weight as a scoring factor of quality and adoption of new acceptance criteria for these weights. This is consistent with other U.S. Standards since it is variable from container to container and is not necessarily related to quality.

(2) Lowering of the recommended minimum drained weight from 56.25 percent of the water capacity of the container to 53 percent. This is 3 percent above the FDA minimum fill of container (50 percent) for canned grapefruit and is equal to the U.S. Standards for Grades of Canned Grapefruit (53 percent).

(3) Lower the minimum percent of practically whole segments in grade A from 75 percent to 65 percent of the weight of each fruit. These changes are to compensate for unavoidable increased breakage due to mechanized segmenting and filling operations.

(4) Changes the criteria for the factor of character to relax the restriction on loose floating cells in grade A. This will conform with the current U.S. Standards for Grades of Canned Grapefruit.

(5) Provides for the addition of orange juice as a liquid packing medium.

Other changes proposed to be consistent with current practice in the U.S. standards are as follows:

(1) Provides for Brix determination on comminuted blended slurry of entire contents of container within 15 days of canning as an alternative to Brix determination on the packing media 15 days or more after canning.

(2) Realignment of score points to 25 points for each factor that is scored.

(3) Presents "Allowances for Defects" in a tabular form. This will conform with the current U.S. Standards for Grades of Canned Grapefruit.

The proposed revision is as follows:

Subpart—United States Standards for Grades of Canned Grapefruit and Orange for Salad

Sec.

52.1251 Product description.
52.1252 Grades.
52.1253 Liquid media and Brix measurements.
52.1254 Fill of container.
52.1255 Minimum drained weights.
52.1256 Sample unit size.
52.1257 Determining the grade of a sample unit.
52.1258 Determining the rating for factors which are scored.
52.1259 Wholeness.
52.1260 Color.
52.1261 Defects.
52.1262 Character.
52.1263 Determining the grade of a lot.
52.1264 Score sheet for canned grapefruit and orange for salad.

AUTHORITY: Agricultural Marketing Act of 1946; sec. 205, 60 Stat. 1090, as amended; (7 U.S.C. 1624).

Subpart—United States Standards for Grades of Canned Grapefruit and Orange for Salad

§ 52.1251 Product description.

Canned grapefruit and orange for salad, commonly known as canned citrus salad, is prepared from sound, mature grapefruit (Citrus paradisi Macfadyen) and sound, mature oranges of the orange group (Citrus sinensis). The fruit ingredients have been properly washed, segmented, and cored; and seeds and major portions of membrane have been removed. The product is packed with or without the addition of water, juice, orange juice, nutritive carbohydrate sweeteners, artificial sweeteners, or any other safe and suitable ingredients permissible under the Federal Food, Drug, and Cosmetic Act. The product is sufficiently processed by heat to assure preservation in hermetically sealed containers.

§ 52.1252 Grades.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of canned grapefruit and orange for salad that:

(1) Has a drained weight of orange fruit that is not less than 37½ percent nor more than 60 percent of the drained weight of the product;

(2) Has an average drained weight of not less than 53 percent of the water capacity of the container, of which not less than 65 percent by weight of each fruit ingredient consists of practically whole segments;

(3) Has a good color;

(4) Is practically free from defects;

(5) Has a good character;

(6) Has a good flavor and odor; and

(7) Scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Choice") is the quality of canned grapefruit and orange for salad that:

(1) Has a drained weight of orange fruit that is not less than 32½ percent nor more than 60 percent of the drained weight of the product;

(2) Has an average drained weight of not less than 53 percent of the water capacity of the container, of which not less than 50 percent by weight of each fruit ingredient consists of practically whole segments;

(3) Has a reasonably good color;

(4) Is reasonably free from defects;

(5) Has a reasonably good character;

(6) Has a reasonably good flavor and odor; and

XUM
V 39 I 242 DEC 16 1974 V
XUM

(7) Scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U.S. Broken" is the quality of canned grapefruit and orange for salad that:

(1) Has a drained weight of orange fruit that is not less than 32½ percent nor more than 50 percent of the drained weight of the product;

(2) Has an average drained weight of not less than 53 percent of the water capacity of the container, of which less than 30 percent of the drained weight of either fruit ingredient consists of practically whole segments;

(3) Has a reasonably good color;

(4) Is reasonably free from defects;

(5) Has a reasonably good character;

(6) Has a reasonably good flavor and odor; and

(7) Scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned grapefruit and orange for salad that fails to meet the requirements of U.S. Grade B and U.S. Broken.

§ 52.1253 Liquid media and Brix measurements.

(a) Brix requirements for liquid media in canned grapefruit and orange for salad are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. It is recommended that the product, when packed in sirup, meet the following Brix measurements, as applicable, for the respective designation:

Designations:	Brix measurement
Heavy sirup	18° or more.
Light sirup	16° or more, but less than 18°.
Slightly sweetened water	12° or more, but less than 16°.

(b) These recommendations are not applicable to the canned product packed in water, orange juice, fruit juice, or with artificial sweeteners.

(c) The densities of the packing media, as listed in this section, are measured on the refractometer, expressed as percent by weight sucrose (degrees Brix) with correction for temperature to the equivalent at 20° C. (68° F.), but without correction for invert sugars or other substances. The degrees Brix of the packing media may be determined by any other method which gives equivalent results.

(d) Brix determination is made on the packing media 15 days or more after the grapefruit and orange for salad is canned or on the blended homogenized slurry of the comminuted entire contents of the container if canned for less than 15 days.

§ 52.1254 Fill of container.

(a) The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled as full as practicable with grapefruit and orange for salad without impairment of quality and that the product and packing media occupy not less than 90 percent of the total capacity of the container.

(b) Total capacity of the container means the maximum weight of distilled water, at 20 degrees C. (68 degrees F.) which the sealed container will hold.

§ 52.1255 Minimum drained weights.

(a) *General.* The minimum drained weight requirements for the various container sizes are listed in Table I. The drained weight of the grapefruit and orange for salad is not less than 53 percent of the water capacity of the container.

(b) *Definitions.* (1) Sample average—the average of all the drained weights of the sample containers representing a lot.

(2) $\overline{X}_d$—a specified minimum sample average drained weight.

(3) LL—lower limit for individual container drained weights.

(c) *Method for determining drained weight.* The drained weight of canned grapefruit and orange for salad is determined by emptying the contents of the container upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937 inch (2.38 mm), ±3 percent square openings) so as to distribute the product evenly over the sieve. Without shifting the product, incline the sieve at an angle of approximately 17° to 20° to facilitate drainage and allow to drain for 2 minutes. The weight of drained grapefruit and orange for salad is the weight of the sieve and product less the weight of the dry sieve. A sieve 8 inches in diameter is used if the contents of the container is less than 3 pounds and a sieve 12 inches in diameter is used if the contents of the container is 3 pounds or more.

(d) *Compliance with drained weight requirements.* A lot of canned grapefruit and orange for salad is considered as meeting the minimum drained weight requirements when the following criteria are met:

(1) The sample average meets the specified minimum sample average drained weight (designated as "$\overline{X}_d$" in Table I); and

(2) The number of containers which fail to meet the minimum drained weight for individual containers (designated as "LL" in Table I) does not exceed the applicable acceptance number specified in Table II.

Table I.—Minimum drained weights

Container designation	$\overline{X}_d$	LL
	Ounces	Ounces
8Z (211×304)	4.00	4.25
No. 303 (303×406)	7.00	7.50
No. 3 cylinder (404×700)	27.00	28.50

Table II.—Single sampling plans and acceptance numbers

Sample size (number of sample containers)	3	6	13	21	29	38	48	60
Acceptance numbers	0	1	2	3	4	5	6	7

§ 52.1256 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit comprised of the entire contents of one container, irrespective of container size.

§ 52.1257 Determining the grade of a sample unit.

(a) *General.* The grade of a sample unit of canned grapefruit and orange for salad is determined by considering the factor of flavor and odor which is not scored; the ratings for the factors of wholeness, color, defects, and character which are scored; the total score; and the limiting rules which may be applicable.

(b) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each factor are:

Factors:	Points
Wholeness	25
Color	25
Defects	25
Character	25
Total	100

(c) *Definitions.* (1) "Percentage of orange fruit" means the drained weight of the orange ingredient multiplied by 100 and divided by the drained weight of the total fruit ingredients. Compliance with this requirement shall be based on the sample average (average of all sample units representing a lot): Provided, that the weight of drained orange fruit in no single container is less than 25 percent or more than 75 percent of the drained fruit in such container. It is recommended that the number of orange units be not less than the number of grapefruit units.

(2) "Good flavor and odor" means that the product has a distinct and normal flavor and odor typical of canned grapefruit and orange for salad and is free from objectionable flavors and objectionable odors of any kind.

(3) "Reasonably good flavor and odor" means that the product may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.1258 Determining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "23 to 25 points" means 23, 24, or 25 points).

§ 52.1259 Wholeness.

(a) *General.* A "practically whole segment" means:

(1) A fruit segment that is substantially intact and retains its apparent original conformation; or

Dated: December 9, 1974

(2) A portion of a segment that is not less than 75 percent of its apparent original size.

(b) (*A*) *classification.* Sample units of canned grapefruit and orange for salad that consist of not less than 65 percent by weight of each drained fruit ingredient in practically whole segments may be given a score of 21 to 25 points.

(c) (*B*) *classification.* Sample units of canned grapefruit and orange for salad that consist of less than 65 percent but not less than 40 percent by weight of either or both of the drained fruit ingredients in practically whole segments may be given a score of 17 to 20 points. In addition the sample average (average of all sample units representing a lot) shall not be less than 40 percent by weight in practically whole segments. Sample units of canned grapefruit and orange for salad that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.)

(d) (*Broken*) *Classification.* Sample units of canned grapefruit and orange for salad that individually consist of less than 40 percent by weight of either or both of the drained fruit ingredients in practically whole segments, or average (average of all sample units) less than 40 percent by weight of either or both of the drained fruit ingredients in practically whole segments may be given a score of 0 to 16 points. Sample units of canned grapefruit and orange for salad that fall into this classification shall not be graded above U.S. Broken, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1260 Color.

(a) (*A*) *classification.* Canned grapefruit and orange for salad that has a good color may be given a score of 23 to 25 points. "Good color" means that:

(1) With respect to the grapefruit, a practically uniform, bright, typical color free from any noticeable tinge of amber; and

(2) With respect to the orange fruit, a practically uniform, bright, typical orange color.

(b) (*B*) *classification.* Canned grapefruit and orange for salad that has a reasonably good color may be given a score of 21 or 22 points. Canned grapefruit and orange for salad that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably good color" means that:

(1) With respect to the grapefruit, a fairly bright color which may be variable but is not off-color for any reason; and

(2) With respect to the orange fruit, at least a fairly bright, typical orange color which may be variable.

(c) (*SStd.*) *classification.* Canned grapefruit and orange for salad that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1261 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from extraneous vegetable material, from seeds, from portions of albedo, from portions of tough membrane, from damaged units, and from other similar defects.

(1) "Extraneous vegetable material" means portions of leaves, small pieces of peel, and other similar material that is harmless.

(2) "Seed" means any seed or any portion thereof, whether or not fully developed, that measures more than $\frac{3}{16}$ inch in any dimension.

(3) "Large seed" means any seed or any portion thereof, whether or not fully developed, that measures more than $\frac{3}{8}$ inch in any dimension.

(4) "Damaged unit" means any grapefruit or orange segment or portion thereof that is damaged by lye peeling, by discoloration, or by similar injury or that is otherwise damaged to such an extent that the appearance or eating quality of the unit is materially affected.

(b) (*A*) *classification.* Canned grapefruit and orange for salad that is practically free from defects may be given a score of 23 to 25 points. "Practically free from defects" means that:

(1) All defects present, whether or not specifically defined or listed in this section, do not more than slightly affect the appearance or edibility of the product; and

(2) The defects that may be present in a sample unit and in the entire sample do not exceed the allowances specified in Table III.

(c) (*B*) *classification.* Canned grapefruit and orange for salad that is reasonably free from defects may be given a score of 21 or 22 points. Canned grapefruit and orange for salad that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably free from defects" means that:

(1) All defects present, whether or not specifically defined or listed in this section, may materially, but not seriously, affect the appearance or edibility of the product; and

(2) The defects that may be present in a sample unit and in the entire sample do not exceed the allowances specified in Table IV.

(d) (*SStd.*) *classification.* Canned grapefruit and orange for salad that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

TABLE III.—*Allowances for defects in canned grapefruit and orange for salad, U.S. Grade A*

[1] All defects specified above and/or any other defects that may be present.
[2] Cumulative effect—may materially, but not seriously, affect the appearance or eating quality of the product.

§ 52.1262 Character.

(a) *General.* The factor of character refers to the structure and condition of the cells of the grapefruit and orange and reflects the maturity of the fruits.

(b) *(A) classification.* Canned grapefruit and orange for salad that has a good character may be given a score of 23 to 25 points. "Good character" means that the grapefruit and orange segments are moderately firm and fleshy; that the segments or portions thereof have a juicy, cellular structure free from dry cells, or "ricey" cells, or fibrous cells that materially affects the appearance or eating quality of the product.

(c) *(B) classification.* Canned grapefruit and orange for salad that has a reasonably good character may be given a score of 21 or 22 points. Canned grapefruit and orange for salad that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably good character" means that the grapefruit and orange segments may be affected, but not seriously so, by dry cells, "ricey" cells or fibrous cells that detract from the appearance or eating quality of the product.

(d) *(SStd.) classification.* Canned grapefruit and orange for salad that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1263 Determining the grade of a lot.

The grade of a lot of canned grapefruit and orange for salad covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.83).

MILK IN THE MIDDLE ATLANTIC AND NEW YORK-NEW JERSEY MARKETING AREAS

Extension of Time for Filing Exceptions to the Recommended Decision on Proposed Amendments to Tentative Marketing Agreements and to Orders

Notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Middle Atlantic and New York-New Jersey marketing areas, which was issued October 15, 1974 (39 FR 37926), extended to December 13, 1974 (39 FR 39885), is hereby further extended to December 30, 1974. The extention of time was requested by James A. McHale, Secretary, Pennsylvania Department of Agriculture.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on: December 10, 1974.

FOOD STAMP PROGRAM

Extension of Comment Period

A proposed amendment to the Food Stamp Regulations was published in the FEDERAL REGISTER on September 30, 1974. This proposal was to: (1) Provide restoration of certain lost benefits to food stamp recipients; (2) offset non-fraud recipient claims against refunds due to households for overcollection of cash and/or for any retroactive benefits to which that household is entitled; (3) strengthen the accounting and control over the sale of food coupons; and (4) make State agencies which have failed to cooperate with USDA liable to FNS for the bonus value of coupons issued

pursuant to court decisions which are inconsistent with federally prescribed program provisions. The comment period expired October 30, 1974.

In an effort to stimulate additional feedback on these important issues, the Department has decided to extend the comment period until January 15, 1975.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-EA-80]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration, Designation, and Revocation

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation regulations so as to alter the Camp Springs, Md. (39 FR 365), Fort Belvoir, Va. (39 FR 380) Control Zones; and Washington, D.C. Transition Area (39 FR 608); and designate a Chantilly, Va. Transition Area; and revoke the Leesburg, Va. Transition Area (39 FR 528).

The Washington, D.C. terminal area requires changes in the controlled airspace to meet control requirements. The present Washington, D.C. Transition Area includes the transition area airspace for Washington National Airport, Washington, D.C., Andrews AFB, Camp Springs, Md., Dulles International Airport, Chantilly, Va., Davison, AAF, Fort Belvoir, Va., and Manassas Municipal Airport, (Harry P. Davis Field) Manassas, Va., The Leesburg, Va. Transition Area presently provides a separate designation for Leesburg Municipal Airport (Godfrey Field).

It is proposed to incorporate the 700-foot floor transition area for these airports into two transition areas as follows: The Washington, D.C. Transition Area as amended will include the transition area requirements for Washington National Airport, Andrews AFB and Davison AAF. The designation of a Chantilly, Va. Transition Area will include the transition area requirements for Dulles International Airport, Leesburg Municipal Airport (Godfrey Field), and Manassas Municipal (Harry P. Davis Field). The present Leesburg, Va. Transition Area will be revoked since the transition area requirements will be included in the Chantilly, Va. Transition Area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before January 15, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Washington, D.C. proposes the airspace action hereinafter set forth:

§ 71.171 [Amended]

1. Amend § 71.171 of Part 71 of the Federal Aviation regulations by deleting the description of the Camp Spring, Md. Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 38°48'39" N., 76°52'02" W. of Andrews AFB, Camp Spring, Md.; within 2.5 miles each side of the Andrews VORTAC 360° radial, extending from the VORTAC to 7.5 miles north of the VORTAC; within 2.5 miles each side of the Andrews VORTAC 180° radial, extending from the VORTAC to 7 miles south of the VORTAC, excluding the portion within a 1-mile radius of the center 38°44'56" N., 76°55'58" W. of Hyde Field, Clinton, Md., excluding the west portion subtended by a chord drawn between the points of intersection of the 5-mile radius zone with the Washington, D.C. Control Zone.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Fort Belvoir, Va. Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 38°42'55" N., 77°10'55" W., of Davison AAF, Fort Belvoir, Va.; within 1 mile each side of the Davison AAF localizer southeast course, extending from the 5-mile radius zone to the OM; within 2 miles each side of the extended centerline of Runway 32, extending from the northwest end of Runway 32 to 5 miles northwest, excluding the portion within P-73.

§ 171.181 [Amended]

3. Amend § 71.181 of Part 71 of the Federal Aviation regulations by deleting the description of the Washington, D.C. Transition Area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center 38°51'07" N., 77°02'23" W., of Washington National Airport, Washington, D.C.; within an 11-mile radius of the center of Washington National Airport, extending clockwise from a 022° bearing to a 165° bearing from the airport; within an 11.5-mile radius of the center of Washington National Airport, extending clockwise from a 210° bearing to a 270° bearing from the airport; within a 12.5-mile radius of the center of Washington National Airport, extending clockwise from a 270° bearing to a 310° bearing from the airport; within an 11.5-mile radius of the center of Washington National Airport, extending clockwise from a 310° bearing to a 022° bearing from the airport; within 4.5 miles each side of a 317° bearing from the Georgetown, D.C. RBN, extending from the RBN to 5.5 miles northwest; within an 8.5-mile radius of the center, 38°48'39" N., 76°52'02" W., of Andrews AFB, Camp Springs, Md.; within 2.5 miles each side of the Andrews VORTAC 360° radial, extending from the VORTAC to 9.5 miles north of the VORTAC; within a 5-mile radius of the center, 38°42'55" N., 77°10'55" W., of Davison AAF, Fort Belvoir, Va.; within 5 miles each side of a 180° bearing from a point 38°39'41" N., 77°06'37" W., extending from said point to 9.5 miles south; within 5 miles each side of a 081° bearing from a point 38°39'41" N., 77°06'37" W., extending from said point to 20 miles east; within 3.5 miles each side of the extended centerline of Davison AAF Runway 32, extending from the northwest end of Runway 32 to 9 miles northwest; within 6.5 miles southwest and 4.5 miles northeast of a 134° bearing and a 314° bearing from a point 38°39'41" N., 77°06'37" W., extending from 5.5 miles northwest to 11.5 miles southeast of said point; excluding the portion within P-56 and P-73.

4. Amend Section 71.181 of Part 71 of the Federal Aviation Regulations by designating a Chantilly, Va. Transition Area as follows:

CHANTILLY, VA.

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center, 38°56'40" N., 77°27'24" W., of Dulles International Airport, within 8 miles each side of the Armel, Va. VORTAC 292° radial, extending from the VORTAC to 20 miles west; within 5 miles west and 6.5 miles east of the Dulles International Airport Runway 19R ILS localizer course, extending from the OM to 18 miles north; within 6.5 miles east and 4.5 miles west of the Dulles International Airport Runway 19L ILS localizer course extending from 5.5 miles south of the OM to 11.5 miles north of the OM; within 5 miles each side of the Martinsburg, W. Va. VORTAC 176° radial, extending from 15 miles south of the VORTAC to 26.5 miles south of the VORTAC; within 6.5 miles west and 4.5 miles east of the Dulles International Airport Runway 1R localizer course, extending from the OM to 11.5 miles south; within an 8-mile radius of the center of Leesburg Municipal Airport (Godfrey Field), Leesburg, Va. 39°04'37" N., 77°33'26" W.; within a 6.5-mile radius of the center 38°43'30" N., 77°31'00" W., of Manassas Municipal Airport (Harry P. Davis Field), Manassas, Va. within 2 miles each side of a 330° bearing from a point 38°43'36" N., 77°31'18" W., extending from said point to 9.5 miles northwest.

5. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by revoking the Leesburg, Va. Transition Area.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), De-

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration, Designation, and Revocation

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation regulations so as to alter the Camp Springs, Md. (39 FR 365), Fort Belvoir, Va. (39 FR 380) Control Zones; and Washington, D.C. Transition Area (39 FR 608); and designate a Chantilly, Va. Transition Area; and revoke the Leesburg, Va. Transition Area (39 FR 528).

The Washington, D.C. terminal area requires changes in the controlled airspace to meet control requirements. The present Washington, D.C. Transition Area includes the transition area airspace for Washington National Airport, Washington, D.C., Andrews AFB, Camp Springs, Md., Dulles International Airport, Chantilly, Va., Davison, AAF, Fort Belvoir, Va., and Manassas Municipal Airport, (Harry P. Davis Field) Manassas, Va., The Leesburg, Va. Transition Area presently provides a separate designation for Leesburg Municipal Airport (Godfrey Field).

It is proposed to incorporate the 700-foot floor transition area for these airports into two transition areas as follows: The Washington, D.C. Transition Area as amended will include the transition area requirements for Washington National Airport, Andrews AFB and Davison AAF. The designation of a Chantilly, Va. Transition Area will include the transition area requirements for Dulles International Airport, Leesburg Municipal Airport (Godfrey Field), and Manassas Municipal (Harry P. Davis Field). The present Leesburg, Va. Transition Area will be revoked since the transition area requirements will be included in the Chantilly, Va. Transition Area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before January 15, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Washington, D.C. proposes the airspace action hereinafter set forth:

§ 71.171 [Amended]

1. Amend § 71.171 of Part 71 of the Federal Aviation regulations by deleting the description of the Camp Spring, Md. Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 38°48'39" N., 76°52'02" W. of Andrews AFB, Camp Spring, Md.; within 2.5 miles each side of the Andrews VORTAC 360° radial, extending from the VORTAC to 7.5 miles north of the VORTAC; within 2.5 miles each side of the Andrews VORTAC 180° radial, extending from the VORTAC to 7 miles south of the VORTAC, excluding the portion within a 1-mile radius of the center 38°44'58" N., 76°55'58" W. of Hyde Field, Clinton, Md., excluding the west portion subtended by a chord drawn between the points of intersection of the 5-mile radius zone with the Washington, D.C. Control Zone.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Fort Belvoir, Va., Control Zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 38°42'55" N., 77°10'55" W., of Davison AAF, Fort Belvoir, Va.; within 1 mile each side of the Davison AAF localizer southeast course, extending from the 5-mile radius zone to the OM; within 2 miles each side of the extended centerline of Runway 32, extending from the northwest end of Runway 32 to 5 miles northwest, excluding the portion within P-73.

§ 171.181 [Amended]

3. Amend § 71.181 of Part 71 of the Federal Aviation regulations by deleting the description of the Washington, D.C. Transition Area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center 38°51'07" N., 77°03'23" W., of Washington National Airport, Washington, D.C.; within an 11-mile radius of the center of Washington National Airport, extending clockwise from a 022° bearing to a 165° bearing from the airport; within an 11.5-mile radius of the center of Washington National Airport, extending clockwise from a 210° bearing to a 270° bearing from the airport; within a 12.5-mile radius of the center of Washington National Airport, extending clockwise from a 270° bearing to a 310° bearing from the airport, within an 11.5-mile radius of the center of Washington National Airport, extending clockwise from a 310° bearing to a 022° bearing from the airport, within 4.5 miles each side of a 317° bearing from the Georgetown, D.C. RBN, extending from the RBN to 8.5 miles northwest; within an 8.5-mile radius of the center 38°58'30" N., 76°52'02" W. of Andrews AFB, Camp Springs Md. within 2.5 miles each side of the Andrews VORTAC 360° radial, extending from the VORTAC to 9.5 miles north of the VORTAC; within a 5-mile radius of the center, 38°42'55" N., 77°10'55" W., of Davison AAF, Fort Belvoir, Va.; within 5 miles each side of a 180° bearing from a point 38°39'41" N., 77°06'37" W., extending from said point to 9.5 miles south within 5 miles each side of a 061° bearing from a point 38°39'41" N., 77°06'37" W., extending from said point to 20 miles east within 3.5 miles each side of the extended centerline of Davison AAF Runway 32, extending from the northwest end of Runway 32 to 9 miles northwest; within 6.5 miles southwest and 4.5 miles northeast of a 134° bearing and a 314° bearing from a point 38°39'41" N., 77°06'37" W., extending from 5.5 miles northwest to 11.5 miles southeast of said point; excluding the portion within P-56 and P-73.

4. Amend Section 71.181 of Part 71 of the Federal Aviation Regulations by designating a Chantilly, Va. Transition Area as follows:

CHANTILLY, VA.

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center, 38°56'40" N., 77°27'24" W., of Dulles International Airport, within 8 miles each side of the Armel, Va. VORTAC 292° radial, extending from the VORTAC to 20 miles west; within 5 miles west and 6.5 miles east of the Dulles International Airport Runway 19R ILS localizer course, extending from the OM to 18 miles north; within 6.5 miles east and 4.5 miles west of the Dulles International Airport Runway 19L ILS localizer course extending from 5.5 miles south of the OM to 11.5 miles north of the OM; within 5 miles each side of the Martinsburg, W. Va. VORTAC 176° radial, extending from 15 miles south of the VORTAC to 28.5 miles south of the VORTAC; within 6.5 miles west and 4.5 miles east of the Dulles International Airport Runway 1R localizer course, extending from the OM to 11.5 miles south; within an 8-mile radius of the center of Leesburg Municipal Airport (Godfrey Field), Leesburg, Va. 39°04'37" N., 77°33'26" W.; within a 6.5-mile radius of the center 38°43'30" N., 77°31'00" W., of Manassas Municipal Airport (Harry P. Davis Field), Manassas, Va. within 2 miles each side of a 330° bearing from a point 38°43'36" N., 77°31'18" W., extending from said point to 9.5 miles northwest.

5. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by revoking the Leesburg, Va. Transition Area.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), De-

[14 CFR Part 71]

[Airspace Docket No. 74-RM-20]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation regulations so as to designate a transition area at Steamboat Springs, Colo.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colorado 80207. All communications received on or before January 9, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

Rocky Mountain Airways, an air taxi commercial operator, is regularly serving the Steamboat Springs Municipal Airport on a scheduled basis. A private-use instrument approach procedure has been developed for Rocky Mountain Airways utilizing privately-owned NDB and MLS navigational aids. Communications and weather reporting services are available. The proposed transition areas will provide controlled airspace for arrival/departure procedures, as well as holding and transition routes from Victor Airway 200 and 220. Consideration was given to terrain, chart legibility, and ease of charting in arriving at the proposed floor of 1,200' AGL northwest of the Kremmling, Colorado VORTAC.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (39 FR 440) designate a transition area for Steamboat Springs, Colorado to read:

STEAMBOAT SPRINGS, COLO.

That airspace extending upward from 700 feet above the surface within 5 miles east and 7.5 miles west of the 153° and 333° bearings from the Rocky Mountain Airways NDB (latitude 40°28'13" N., longitude 106°49'46" W.) extending from 6.5 miles northwest of the NDB to 12.5 miles southeast of the NDB; that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at latitude 40°04'30" N., longitude 106°30'00" W.; to latitude 40°05'40" N., longitude 107°00'00" W.; to latitude 40°35'00" N., longitude 107° 00'00" W.; to latitude 40°35'00" N., longitude 106°30'00" W.; to point of beginning.

That airspace extending upward from 13,300' MSL within an area bounded by a line beginning at latitude 40°04'15" N., longitude 106°30'00" W.; to latitude 40°25'00" N., longitude 106°30'00" W.; to latitude 40°08' 00" N.; longitude 105°52'00" W.; thence along the north edge of V220 to the point of beginning.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Aurora, Colorado, on December 5, 1974.

M. M. MARTIN,
Director,
Rocky Mountain Region.

[FR Doc.74-29108 Filed 12-13-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-GL-41]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Medford, Wisconsin.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before January 15, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A standard instrument approach procedure has been developed for the Taylor County Airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Medford, Wisconsin.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

MEDFORD, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 5.5 mile radius of the Taylor County Airport (Latitude 45°06'02" N., Longitude 90°19'18" W.); within 3 miles each side of the 162° bearing from the airport extending from the 5.5 mile radius area to 8 miles Southeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on November 25, 1974.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[14 CFR Part 71]

[Airspace Docket No. 74-GL-44]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Cadiz Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before January 15, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018.

A new instrument approach procedure has been developed for the Harrison County Airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Cadiz, Ohio.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

CADIZ, OHIO

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Harrison County Airport (Latitude 40°14'18" N., Longitude 81°00'45" W.); within 3 miles each side of the 311° bearing from the airport, extending from the 7-mile radius area to 8 miles northwest of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on November 25, 1974.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[Airspace Docket No. 74-GL-45]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Antigo, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before January 15, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new standard instrument approach procedure has been developed for the Langlade County Airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Antigo, Wisconsin.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

ANTIGO, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Langlade County Airport (Latitude 45°09'20" N., Longitude 89°06'33" W.); within 3 miles each side of the 358° bearing from the airport, extending from the 5-mile radius area to 8 miles north of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on November 25, 1974.

National Highway Traffic Safety Administration

[23 CFR Part 1204]

[Docket No. 74-35; Notice 2]

HIGHWAY SAFETY PROGRAM STANDARDS; BICYCLIST SAFETY

Extension of Comment Period

This notice extends the comment closing date for the advance notice of proposed rulemaking concerning Bicyclist Safety.

On October 15, 1974, the National Highway Traffic Safety Administration issued an Advance notice of proposed rulemaking relating to bicyclist safety (39 FR 36864). While the closing date for comments on the notice was December 16, 1974, petitions to extend the comment period 3 to 6 months were received from Congressman Sidney Yates of Illinois and such organizations as the American Youth Hostels and the League of American Wheelman. It was the belief of these organizations that their members would not be informed of the proposed standard in sufficient time to respond.

When it began rulemaking in this area, the agency was aware of the need for substantial information from many sources, including bicyclists themselves. For that reason, it embarked on a three-step process in establishing the final standard. The first step was the issuance of the advance notice of proposed rulemaking which raised rather than resolved the major issues in this area. The second step, anticipated for early spring, will be to issue a notice of proposed rulemaking (NPRM), based on responses received to the advance notice. An additional period for comment will follow the NPRM. It is only after reviewing comments in response to the NPRM that NHTSA will take the third step of transmitting a final rule to the Congress pursuant to the Highway Safety Act of 1973.

It is the intent of NHTSA that comments be considered from the bicycling public at each step of the standard-making process. Further, comments received after the comment closing date are not excluded from consideration, but rather are considered to the extent practicable during the drafting of the standard. The comment closing date is meant to indicate when NHTSA will begin to draft the next stage of the standard, and to guarantee the commenter that comments received before that date will be considered pursuant to the Administrative Procedures Act. The NHTSA concludes, therefore, that the public will have ample opportunity to comment on the proposed bicyclist standard at its various stages of development, and that an extension of 3 to 6 months is not necessary.

The NHTSA is also aware, however, that many bicyclists who did not learn of the advance notice when issued feel they have much to contribute to the initial stage of NHTSA's standard-making process. Further, the National Highway Safety Advisory Committee has recommended that NHTSA solicit the views of school superintendents concerning bicyclist safety. Consequently, the comment period is hereby extended to January 16, 1975.

(Sec. 101, Pub. L. 89-564, 80 Stat. 731 (23 U.S.C. 402); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on December 13, 1974.

WILLARD Y. HOWELL,
Acting Associate Administrator,
Traffic Safety Programs.

[FR Doc.74-29394 Filed 12-13-74;11:37 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 120]

[FRL 277-6]

WATER QUALITY STANDARDS; OREGON

Withdrawal of Proposed Rulemaking

The purpose of this notice is to withdraw the notice of proposed rulemaking published in the FEDERAL REGISTER (February 4, 1974 (39 FR 4486)), in which the Environmental Protection Agency proposed to amend 40 CFR Part 120 to set out water quality standards for total dissolved gas for the State of Oregon.

The February 4, 1974 notice of proposed rulemaking was issued pursuant to section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251 et seq., the "Act"), which provides for Federal promulgation of water quality standards where a State fails to adopt water quality standards meeting the requirements of the Act. The EPA is required to promulgate standards within 190 days of the proposal, unless by such time the State shall have adopted water quality standards which are found to be in accordance with the requirements of the Act.

The notice proposed a revision of the total dissolved gas water quality standard for the State of Oregon. Excessive total dissolved gas pressure (supersaturation) is a relatively new aspect of water quality. Gas bubble disease in

aquatic organisms can result when the uncompensated total gas pressure is greater in the water than in the air. This increase in pressure occurs at dam spillways, in thermal discharges or as a result of eutrophication. The main cause of excessive total dissolved gas pressure in the Pacific Northwest is supersaturated waters from the spillways of dams. As the water passes over the top of the spillway, air is forced into solution and supersaturation (gas pressure that results in over 100 percent saturation) can result. Modified gas pressures present a widespread potential for adversely affecting fish and aquatic invertebrates.

As the uncompensated pressure increases, fish that are acclimated to a lower pressure can suffer from gas bubble disease when they enter the area of higher pressure. Bubbles form on the external surfaces of the fish and within their bodies. Death results if the internal gas bubbles become sufficiently large to block major blood vessels. Sublethal effects reduce the health of the fish making them increasingly susceptible to other diseases. These effects can occur as gas pressures increase above 110 percent of saturation.

A water quality standard setting total dissolved gas criteria decreases in stringency as it exceeds 100 percent saturation. In considering the technical aspects of this FEDERAL REGISTER notice, therefore, one should keep in mind that an allowable increase in percent of saturation of total dissolved gas from, for example, 105 percent to 110 percent represents a less stringent criteria because the total amount of dissolved gas increases.

EPA after partially approving Oregon's water quality standards requested that Oregon change its water quality standard for total dissolved gas from 105 percent to 110 percent saturation to complete the standards. The reasoning for the proposed action was that adoption of a criterion of 105 percent was not compatible with the neighboring States of Washington and Idaho which have a standard for total dissolved gas of 110 percent. EPA also believed that 105 percent saturation for total dissolved gas was unreasonably stringent and unachievable. Oregon, however, believes that the 105 percent standard should apply and declined to adopt the proposal. EPA then proposed promulgation of the 110 percent total dissolved gas standard which was published in the FEDERAL REGISTER on February 4, 1974.

Section 510 of the Act, however, provides for the right of a State to adopt and enforce State standards that are more stringent than Federal standards. Subsequent to publication of the proposed Oregon standard, and a further review of the application of section 510 to this action, the Agency has determined that the Oregon total dissolved gas standard would not be preempted by promulgation of the less stringent Federal standard of 110 percent. For this reason, EPA has decided to withdraw the notice of proposed rulemaking, while expressing following reservations:

(1) EPA believes that the Oregon standard is unrealistic. Approval of the "fall safe" 105 percent standard is not considered necessary to protect aquatic life on the basis of available scientific information;

(2) The neighboring States of Idaho and Washington have total dissolved gas limits of 110 percent and Oregon should adopt consistent standards for interstate waters;

(3) Over the long term, it is believed that attainment of the 105 percent standard would be accomplished at substantially increased cost over attainment of 110 percent; and

(4) There is doubt as to whether 105 percent can ever be achieved, over the long term, even under the most favorable conditions.

In view of these concerns, EPA will continue to urge the State of Oregon to adopt the total dissolved gas standard of 110 percent of saturation.

In consideration of the foregoing, the notice of proposed rulemaking published in the FEDERAL REGISTER, February 4, 1974 (39 FR 4486), entitled "State of Oregon, Navigable Water Quality Standards" is hereby withdrawn.

A copy of the standards may be found at EPA Headquarters, Room 807-East Tower, 401 M Street, SW., Washington, D.C. 20460 and at Region X, EPA, 1200 6th Avenue-Park Place, Seattle, Washington 98101.

This withdrawal is issued under the authority of Section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251 et seq.).

Dated: December 10, 1974.

RUSSELL E. TRAIN,
Administrator.

[FR Doc.74-29099 Filed 12-13-74;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Effective Date of Increased Benefits

The Administrator of Veterans' Affairs proposes an amendment to § 3.660(c) of Title 38, Code of Federal Regulations, to conform with provisions in title 38, United States Code.

Section 3010(n) of title 38, United States Code provides that the effective date of an award of increased benefits by reason of marriage or birth or adoption of a child shall be the date of the event if evidence of the event is received by the Veterans Administration within 1 year from such date. This provision was added by Public Law 91-584 (84 Stat. 1575). Currently § 3.660(c) of Title 38, Code of Federal Regulations, provides that the effective date of increased benefits due to a change in marital status or status of dependents will be the date of receipt of notice of such change. It is proposed to amend § 3.660(c) to provide that when an increase in rates is due to marriage, or birth or adoption of a child, which would permit payment at a higher rate, the increased rate will be effective the date of the event if evidence of the event is received within 1 year from such date.

In addition minor editorial changes are made in §§ 3.660(a), 3.662 and 3.666 to reflect these provisions apply equally to male and female beneficiaries. No substantive change affecting benefits is involved.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (27A1), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All relevant material received before January 15, 1975, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that the change to § 3.660(c) would be effective December 24, 1970, the date of enactment of Public Law 91-584.

1. In § 3.660, paragraph (a)(1) and (c) are revised to read as follows:

§ 3.660 Dependency, income and estate.

(a) *Reduction or discontinuance*—(1) *General.* A veteran, widow, widower or child who is receiving pension, or a parent who is receiving compensation or dependency and indemnity compensation must notify the Veterans Administration of any material change or expected change in or her income or other circumstances which would affect his or her entitlement to receive, or the rate of, the benefit being paid. Such notice must be furnished when the veteran acquires knowledge that he or she will begin to receive additional income at a rate which if continued will cause the income to exceed the income limitation or increment applicable to the rate of the benefit being paid or when his or her marital or dependency status changes. In pension claims subject to § 3.252(b) and in compensation claims subject to § 3.250(a)(2), notice must be furnished of any material increase in corpus of the estate or net worth.

* * * * *

(c) *Increases; change in status.* Where there is change in the payee's marital status or status of dependents which would permit payment at a higher rate and the change in status is by reason of the claimant's marriage or birth or adoption of a child, the effective date of the increase will be the date of the event if the

required evidence is received within 1 year of the event. Where there is a change in dependency status for any reason other than marriage, or the birth or adoption of a child, which would permit payment at a higher rate, the increased rate will be effective the date of receipt of notice constituting an informal claim if the required evidence is received within 1 year of the Veterans Administration request. The rate payable for each period will be determined, as provided in § 3.260 (f), on the basis of income for the full calendar year. (See § 3.651 as to increase due to termination of payments to another payee. Also see § 3.667 as to increase based on school attendance.)

2. Section 3.662 is revised to read as follows:

§ 3.662 Children; no widow or widower entitled.

(a) When an award of death pension to a widow or widower with a child or children has been discontinued for the reason that his or her annual income is in excess of the statutory limitation, payments to the child or children whose annual income, determined separately, does not exceed the statutory limitation will commence effective the day following the date of last payment to the widow or widower. In those cases in which an award of death pension to a widow or widower is discontinued retroactively in accordance with the provisions of § 3.660 and an additional amount in behalf of a child or children was included in the award, an adjustment will be made in the award to the widow or widower. The monthly rate payable to the widow or widower for the period from the eective date of discontinuance to the date of last payment will be the amount to which such child or children would have been entitled during that period.

(b) When payments are being made to a child or children and evidence is received showing that the annual income of the widow or widower, which was in excess of the statutory limitation, has been reduced to an amount not in excess of the statutory limitation, payments to the child or children will be discontinued effective date of last payment. For the period commencing the date from which the widow or widower is shown to be entitled to the date of last payment to the child or children, the rate for the widow or widower will be the difference between the amount paid to the child or children and the amount which would have been payable for the widow or widower and child or children. The full rate will be payable thereafter.

3. In § 3.666, the introductory text preceding paragraph (a) and the introductory text of paragraph (a) preceding paragraph (a)(1) are revised to read as follows:

§ 3.666 Penal institutions.

Where any individual to or for whom pension is being paid under a public or private law administered by the Veterans Administration is imprisoned in a Federal, State or local penal institution as the result of conviction of a felony or misdemeanor, such pension payments will be discontinued effective on the 61st day of imprisonment following conviction. The payee will be informed of his or her rights and the rights of dependents to payments while he or she is imprisoned as well as the conditions under which payments to him or to her may be resumed on his or her release from imprisonment. Payments of pension authorized under this section will continue until notice is received in the Veterans Administration that the imprisonment has terminated.

(a) *Disability pension.* Payment may be made to the wife, husband, child or children of a veteran disqualified under this section:

* * * * *

Approved: December 9, 1974.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1046]

[Ex Parte No MC-98]

OPERATIONS AND PRACTICES OF PASSENGER BROKERS AFFILIATED WITH MOTOR CARRIERS

Notice of Proposed Rulemaking

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 20th day of November 1974.

It appearing that for the reasons noted in Greyhound Lines, Inc., Extension—Special Operations, 120 M.C.C. 629, it is in the public interest to institute an investigation proceeding to determine whether it is necessary to adopt the regulations set forth in the appendix to this notice of proposed rulemaking or other appropriate regultaions regarding the nature of operations conducted by passenger brokers affiliated with motor comom ncarriers of passengers; and that such a proceeding is not anticipated to have any adverse effect upon the environment.

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of parts I and II of the Interstate Commerce Act (49 U.S.C. 1 and 301 *et seq.*) and particularly sections 204 (a)(4) and 211(c) thereof, and sections 553 and 559 of the Administrative Procedure Act (5 U.S.C. 553 and 559) to investigate the possibility of adopting the regulations set forth in the appendix to this order or other apropriate regulations regarding the nature of operations conducted by passenger brokers affiliated with motor common carriers of passengers, and to take such other and further action as the facts and circumstances may justify or require.

It is further ordered, That all motor common carriers of passengers[1] and all passenger brokers subject to the Interstate Commerce Act, be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that the respondents or other interested persons may participate in this proceeding by submitting for consideration written statements of facts, views, and arguments on the subject of this notice and order.

It is further ordered, That any person intending to participate in this proceeding by submitting initial or reply statements, or otherwise, shall notify this Commission, by filing with the Secretary, Interstate Commerce Commission, Washington D.C. 20423, on or before January 25, 1975, the original and one copy of a statement of his intention to participate. Inasmuch as the Commission desires whatever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of this type only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding. (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be issued in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of service of this service list the Commission will fix the time within which initial statements and replies must be filed.

It is further ordered, That while this proceedings does not currently appear to be a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

[1] Although all motor common carriers of passengers are made respondents herein to facilitate their participation in the proceeding if they so desire, it is not anticipated that the regulations proposed will have significant direct effects on any carriers but those affiliated with passenger brokers and which also hold authority to conduct tour services in special operations.

XUM
V 39 DEC 1974 242
XUM

initial and reply statements filed by parties participating herein shall indicate the presence or absence of any effect of the recommendations made therein, to this Commission on the quality of the human environment. Cf. Implementation—Natl. Environmental Policy Act, 1969, 340 I.C.C. 431 (1972).

And it is further ordered, That a copy of this order be posted in the Office of the Secretary, Interstate Commerce Commission, for public inspection and that a copy be delivered to the Director, Division of the Federal Register for publication in the Federal Register as notice for all interested persons. Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Ave., Washington, D.C., during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

APPENDIX

It is proposed to amend part 1046 by adding the following sections:

Sec.
1046.301 Definition of affiliation between passenger broker and motor common carrier of passengers.
1046.302 Registration of affiliation.
1046.303 Prohibition of duplicative operations.
1046.304 Effectiveness of prohibition.

§ 1046.301 Definition of affiliation between passenger broker and motor common carrier of passengers.

A passenger broker shall be deemed to be "affiliated" with a motor common carrier of passengers if said broker controls, is controlled by, or is under common control with such carrier; if said broker and carrier are the same person; or if said broker and carrier hold out service to the public under a common trademark or other mutual identification.

§ 1046.302 Registration of affiliation.

(a) Every passenger broker subject to section 211 of the Interstate Commerce Act which is affiliated with any motor common carrier of passengers subject to part II of the Interstate Commerce Act shall file with the Commission, within 30 days after said broker becomes subject to the provisions of this subsection or after a change occurs in the information previously filed, the original and one copy of a registration statement, signed and verified under oath, which statement shall specify:

(1) the name, address, and license number of the said broker;

(2) the name, address, and certificate number of every motor common carrier of passengers subject to part II of the Interstate Commerce Act with which the said broker is affiliated;

(3) the exact nature of the affiliation which exists, including (in those instances where common control is involved) the names and addresses of all common officers, directors, and major stockholders, if any, and the percentage distribution of substantial or controlling interests in each broker and carrier involved, whether by ownership of stock, partnership, sole proprietorship, or otherwise; and

(4) any operating authority held by any such passenger carrier (including specification of certificate and Sub-No., and date of issuance of each certificate in which such authority is contained) which allows said carrier to transport passengers over irregular routes, in special operations, in all-expense sightseeing and pleasure tours (whether or not specifically so limited).

(b) Upon the filing of any such registration statement, the Commission will issue a Notice of Registration, reciting the information filed concerning the names, addresses, and certificate or license numbers of each carrier and broker asserted to be affiliated, indicating the general nature of the affiliation disclosed, and specifying whether or not, and the extent to which, each carrier involved holds authority to transport passengers over irregular routes, in special operations, in all-expense sightseeing and pleasure tours.

(c) Said Notice of Registration shall be served on the broker which filed the registration statement and shall be deemed to attach to, and become a part of, the license held by such broker; and copies of the said notice shall be:

(1) Served on each carrier named therein;

(2) Filed in the lead docket for each broker and carrier named therein;

(3) Placed in an appropriate file open to public inspection at the offices of the Commission;

(4) Furnished to each of the Regional Directors of the Bureau of Operations for those regions in which are located the headquarters of the brokers and carriers named therein; and

(5) Delivered to the Board, Commission, or Official (or to the Governor where there is no Board, Commission, or Official) having authority to regulate the business of transportation by motor vehicle in each State in which the named brokers and carriers operate.

(d) The filing of a registration statement under this section shall not require approval by the Commission of any affiliation disclosed therein, except as provided in section 5 of the Interstate Commerce Act and the Commission's rules and regulations thereunder, and except as provided in the regulations promulgated by the Commission concerning transfers of passenger brokers' licenses (49 CFR Part 1133); nor shall the issuance of a Notice of Registration by the Commission be construed to imply approval of any acquisition of control subject to section 5 of the Interstate Commerce Act or of any transfer or change in control of a corporation subject to Part 1133 of the Commission's rules and regulations (49 CFR Part 1133).

§ 1046.303 Prohibition of duplicative operations.

No passenger broker subject to section 211 of the Interstate Commerce Act which, during the time that this section is effective, is or has been affiliated with any motor common carrier of passengers subject to part II of the Interstate Commerce Act holding authority from this Commission to transport passengers over irregular routes, in special operations, in all-expense sightseeing and pleasure tours (whether or not specifically so limited) shall, except as provided in § 1046.304, arrange for motor carrier transportation of passengers, in tour service, for individual passengers formed into a bona fide charter group by said broker and using the charter service of any interstate motor common carrier of passengers (in the manner described in *Tauck Tours, Inc., Extension—New York, N.Y.*, 54 M.C.C. 291, 300–303 (1952)), beginning and ending at, and extending to, points all or substantially all of which are within the territory in which such an affiliated passenger carrier may conduct such irregular-route special operations, in all-expense sightseeing and pleasure tours. This prohibition shall not be construed to limit:

(a) The location at which such broker may lawfully conduct brokerage operations;

(b) The arranging for passenger transportation (1) of individual passengers in special operations conducted by authorized motor passenger carriers, (2) of preformed groups of passengers in special or charter operations conducted by authorized motor carriers, or (3) of individuals or groups of passengers in regular-route operations; or

(c) The arranging for passenger transportation extending substantially beyond the territorial scope of the said special operations authorities held by all such passenger carriers affiliated with said broker.

§ 1046.304 Effectiveness of prohibition.

(a) A Notice of Registration issued pursuant to § 1046.302 above shall remain effective, notwithstanding the issuance of a subsequent notice reflecting a change or termination in the affiliation or other circumstances involved, for the purpose of defining the scope of prohibited duplicative operations under § 1046.303 above, unless and until such time as the Commission shall approve the removal (in whole or pertinent part) of the limitation prohibiting duplicative operations in the manner provided in paragraph (b) of this section.

(b) The prohibition against duplicative operations, insofar as it may have arisen from an affiliation which no longer exists or from operating authority no longer held by the affiliated motor carrier, may be removed as to a particular broker's license only upon approval by the Commission pursuant to a petition filed by the said broker and proof that the resumption of the prohibited operations (or pertinent part thereof) will be consistent with the public interest and the national transportation policy. Such determination and approval shall be made upon a record involving the participation of any interested parties after publication of a notice of the petition in the FEDERAL REGISTER.

(49 U.S.C. 1 and 301 (5 U.S.C. 553, 559))

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Office of the Secretary

WELT WORK SHOES FROM ROMANIA

Antidumping; Withholding of Appraisement Notice

Information was received on February 5, 1974, that welt work shoes from Romania were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of March 15, 1974 on page 10002. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of welt work shoes from Romania is less, or is likely to be less, than the constructed value (section 206 of the Act; 19 U.S.C. 165).

STATEMENT OF REASONS

The information currently before the U.S. Customs Service tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and constructed value.

Purchase price will probably be based on c.i.f. and c&f prices, packed, with deductions for ocean freight, inland freight and insurance, where applicable.

Since the merchandise under consideration was produced in a state-controlled-economy country, constructed value will probably be based on the price at which such or similar merchandise is sold for export to the United States by a non-state-controlled-economy country. The country chosen for this purpose will probably be the Republic of Korea.

The price for export to the United States by the Republic of Korea will probably be based on the f.o.b. price with deductions for inland freight, handling and clearance, with adjustments for differences in packing and differences in merchandise.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the constructed value.

Customs officers are being directed to withhold appraisement of welt work shoes from Romania in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20229, in time to be received by his office on or before December 27, 1974. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before January 15, 1975.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective December 16, 1974. It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DECEMBER 13, 1974.

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is given that the Chief of Naval Operations Executive Panel Advisory Committee will hold a closed meeting on January 16 and 17, 1975, at the Pentagon, Washington, D.C. The sessions will commence at 9 a.m. and terminate at 5:30 p.m.

The agenda will consist of matters which are classified in the interest of national security, including intelligence systems and applications, weapons and ship design, and long-range Navy plans and policy. The Secretary of the Navy has determined in writing that the meeting of the Chief of Naval Operations Executive Panel Advisory Committee should be closed to the public because it will be concerned with matters listed in section 552(b) of title 5, U.S.C.

Dated: December 10, 1974.

H. B. ROBERTSON, Jr.,
Rear Admiral, JAGC, U.S. Navy,
Acting Judge Advocate General.

NATIONAL ADVISORY BOARD COUNCIL

Committee Meeting

Notice is hereby given that an ad hoc committee of members of the National Advisory Board Council will meet at the State Office of the Bureau of Land Management, Colorado State Bank Building, 1600 Broadway, Denver, Colorado, January 3, 1975, beginning at 8:30 a.m. The purpose of the meeting will be to consider a time, place, and agenda items for a spring meeting of the full Council.

The committee meeting will be open to the public. Time will be made available for a limited number of brief statements by members of the public. Those wishing to make an oral statement should inform the Public Affairs Officer, Bureau of Land Management, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, by close of business January 2, 1975. Any interested person may file a written statement with the committee for its consideration. Such statement may be submitted at the meeting or mailed to the Director (230), Bureau of Land Management, Washington, D.C. 20240. Further information concerning the meeting may be obtained from the Public Affairs Officer, Bureau of Land Management, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202. His phone is (303) 837-4481.

GEORGE L. TURCOTT,
Associate Director.

Office of the Secretary

OUTER CONTINENTAL SHELF

Geological and Geophysical Exploration

1. Pursuant to the authority contained in Section 11 of the Outer Continental Shelf Lands Act, 43 U.S.C. § 1340, 67 Stat. 469, notice is hereby given that no geological or geophysical explorations shall be conducted on any part of the Outer Continental Shelf of the United States unless (a) such explorations are conducted by a person or persons as defined in section 2(d) of said Act, 43 U.S.C. 1331 (d), and (b), a permit therefor is first obtained by such person or persons from the appropriate Area Oil and Gas Supervisor of the United States Geological Survey.

2. All such permits issued after the date of this notice shall include the following provisions:

(1) If upon approval of this application conditions are added by the Supervisor and set forth upon or attached to the approved application which is returned to the applicant, the applicant will, upon commencement of operations covered by the permit, be deemed to have agreed to such conditions and they will become conditions of the permit.

(2) Exploration operations shall be conducted in compliance with the terms and conditions of this permit, applicable OCS orders and other orders of the Supervisor, the regulations in 30 CFR Part 251 from and after such time as they are adopted and as modified thereafter except that if any provision of such regulations is in conflict with the express terms of this permit, the terms of this permit shall control, and other applicable regulations, and with applicable laws.

(3) Upon request of the Supervisor, the data acquired under this permit and the processed information derived therefrom after it has been processed for the permittee's own use or for delivery to any third party shall be submitted to the Supervisor within 30 days after request. Processed information is data in analog or digital format, the form of which has, in order to facilitate interpretation, been changed through processing operations including, but not limited to, the application of corrections for known perturbing causes, the rearrangement of the data, filtration to remove erroneous signals and interference, and the combination and transformation of data elements. The intent of this provision is to obtain for the United States without cost the information which the permittee processes for his own use or supplies to third parties. It is not intended to require the permittee to supply interpreted, as distinguished from processed, information.

The United States will not disclose for ten years or for such longer period as may be established by regulations promulgated by the Secretary of the Interior in the future (1) all trade secrets and commercial or financial information which are privileged or confidential and which are received by the Department of the Interior pursuant to this permit and (2) all geological and geophysical information and data, including maps, concerning wells, received by the Department of the Interior pursuant to this permit.

(4) If the exploration is to be conducted in a leased area, necessary precautions will be taken to avoid interference with operations on the lease and damage of existing structures and facilities. The lessee (or operator) of the leased area will be notified by letter prior to entering or commencing operations and a copy of the letter sent to the official approving this application.

3. The Area Oil and Gas Supervisor may add to any future permit for geological and geophysical exploration on the Outer Continental Shelf such other terms and provisions, not inconsistent herewith, as he may deem appropriate.

4. Any permit issued on or after November 1, 1974, which contains a provision requiring disclosure of geological and geophysical data and processed information upon request of the Department shall be amended by the substitution of the provisions set forth in paragraph 2 of this notice for the provision requiring disclosure, if the person holding the permit shall on or before December 31, 1974, request the appropriate Area Oil and Gas Supervisor in writing to make the amendment.

5. All prior notices and orders issued under the authority of the Secretary of the Interior, including, without limitation, those notices enumerated below; are hereby amended and modified to the extent necessary to conform to the terms of this notice:

Notice dated March 7, 1964 of the Secretary of the Interior.
Notice dated July 28, 1961 of the Secretary of the Interior
Notice of September 6, 1960 of the Acting Secretary of the Interior
Notice dated August 5, 1960 of the Acting Secretary of the Interior
Notice dated March 27, 1956 of the Secretary of the Interior
Notice dated March 31, 1955 of the Secretary of the Interior
Notice dated March 23, 1954 of the Secretary of the Interior
Notice dated September 17, 1963 of the Acting Secretary of the Interior

6. Nothing in this notice shall apply to geological and geophysical explorations on the Outer Continental Shelf of the United States conducted by any agency of the United States.

Dated: December 11, 1974.

JOHN C. WHITAKER,
Secretary of the Interior.

FRESH PEACHES GROWN IN GEORGIA

Order Directing That a Referendum Be Conducted; Designation of Referendum Agents and Determination of Representative Period

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601-674), it is hereby directed that a referendum be conducted among the growers who, during the period January 1, 1974, through October 31, 1974 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether such growers favor the termination of the said amended marketing agreement and order. William C. Knope and John R. Toth of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, P.O. Box 9, Lakeland, Florida 33802, are designated as the referendum agents to conduct said referendum severally or jointly.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda in Connection with Marketing Orders for Fruits, Vegetables, and Nuts Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (7 CFR 900.400 et seq.).

Copies of the text of the aforesaid marketing order may be examined in the office of the referendum agents or of the Director, Fruit and Vegetable Division,

Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Ballots to be cast in the referendum may be obtained from the referendum agents and any appointee hereunder.

Dated: December 11, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

Soil Conservation Service

EAST FRANKLIN WATERSHED PROJECT, LOUISIANA

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement (EIS) for the East Franklin Watershed Project, Catahoula, Franklin, and Richland Parishes, Louisiana, USDA-SCS-EIS-WS-(ADM)-75-2-(D)-LA.

The EIS concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment supplemented by channel work. The channel work will include clearing and debris removal on 15 miles of existing channels, 6 miles of new channel construction, and 165 miles of enlargement by excavation to provide improved water management in a flatland watershed that is 74 percent agricultural crop land and grassland. Of the 186 miles of work proposed on existing streams or channels, 160 miles will involve those with only ephemeral flow, and 17 miles with intermittent flow. The balance involves existing ponded or flowing water or completely new channels where none existed before.

A limited supply of the draft EIS is available at the following location to fill single copy requests:

Soil Conservation Service, USDA
3737 Government Street
Alexandria, Louisiana 71301

Copies of the draft EIS have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Alton Mangum, State Conservationist, Soil Conservation Service, Post Office Box 1630, Alexandria, Louisiana 71301.

Comments must be received on or before February 11, 1975 in order to be considered in the preparation of the final environmental impact statement.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before January 6, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00222-99-90000. Applicant: Little Company of Mary Hospital, 4101 Torrance Boulevard, Torrance, California 90503. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the course Applied Technology of CAT to train registered Radiologic Technologists to perform the CAT examination and to have practical in-depth knowledge of the operation of the different components of the equipment. In addition the article will be used in a program on the Clinical Application of CAT to provide interested physicians with first hand experience in the use of the CAT. Application received by Commissioner of Customs: November 20, 1974.

Docket number: 75-00223-65-46040. Applicant: Case Western Reserve University, Dept. of Metallurgy & Molecular Science, Cleveland, Ohio 44106. Article: Electron Microscope, Model Elmiskop 102. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used in the following research projects in the Department of Metallurgy and Materials Science:

1. Electron Irradiation Damage—Studies of the defect clusters induced by radiation damage, such as dislocation loops, voids, transformation products, etc. in various metals, alloys and ceramic oxides.

2. Dislocation-Solute Atom Interactions in Alloys—Studies of dislocation and precipitate substructure in refractory metals as related to mechanical properties.

3. Dispersion-Hardened Alloys—Analysis of the distribution of particles, dislocations and grain boundaries.

4. Structure of Martensites—Analysis of the structure resulting from transformations.

5. Strengthening Mechanisms in Ceramic Oxides—Studies of dislocations, precipitate structures and ordering reactions in spinel, sapphire, garnets and other oxides.

6. Processing Studies in Non-oxide Ceramics—Studies of the configurations of grain boundaries, stacking faults, etc. as a function of processing variables in silicon nitride.

7. Electron Microscopy of Opaque Minerals—Studies of the structure and identification of phases in minerals—particularly hematite, ilmenite and magnetite.

The article will also be used to teach undergraduates and graduate students the use, theory, and applications of electron microscopy to metallurgy and materials science.

Application received by Commissioner of Customs: November 20, 1974.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00392-33-46040. Applicant: University of Nebraska Medical Center, 42nd and Dewey Avenue, Omaha, NE 68105. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for

XUM
V 39 DEC 1974
XUM

studies of human and lower animal cells and tissues, in both normal and pathological states. Included are investigations of:

(1) The alteration of fine structure of Sertoli and Leydig cells in animal and human testis after vasectomy.

(2) The ultrastructure of connective tissue cells involved in collagen formation during wound healing.

(3) The ultrastructural manifestations of hormone synthesis in the pituitary gland.

The article will also be used to teach graduate students, medical students, and medical residents the use of electron microscopy in courses *Fundamentals of Electron Microscopy* and *Selected Problems in Electron Microscopy*. In addition the article will be used by graduate students in research for the courses *Masters Thesis* and *Doctoral Dissertation*.

Comments: No comments have been received with respect to this application.

Decision: Application Denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Numbers 73-00493-33-46040 and 74-00124-33-46040 which were denied without prejudice to resubmission on July 27, 1973 and January 3, 1974, respectively, for information deficiencies. In the reply to Question 8 in the present submission the applicant alleged that the foreign article provided the following pertinent characteristics:

1. Ease of column alignment.

2. Magnifications of from 200–200,000 diameters, and

3. Guaranteed resolution of 5 Angstroms.

At the time the foreign article was ordered two domestically manufactured electron microscopes were available, the Model ETEM–101, a relatively simple, low resolution instrument manufactured by Elektros Incorporated, and the Model EMU–4C supplied by the Adam David Company.

The Department of Health, Education, and Welfare (HEW) reviewed this application and found the Model EMU–4C to be the most closely comparable domestic instrument, because the ETEM–101 might be considered to have inadequate resolution and magnification for some of the intended ultrastructural studies.

HEW advises in its memorandum dated June 14, 1974 that the Model EMU–4C provides equal guaranteed resolution, equal magnification range and equivalence with respect to other features. HEW also advises that the alleged superior ease of alignment, or basic simplicity, for the foreign article is neither established or pertinent within the meaning of § 701.2(n) of the regulations.

Accordingly, HEW recommends that the research and teaching purposes intended by the applicant do not establish a pertinent characteristic for the article that justifies duty-free entry. Therefore, we find that the Model EMU–4C is of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Acting Director, Special Import Programs Division.

INDUSTRY SECTOR ADVISORY COMMITTEES FOR MULTILATERAL TRADE NEGOTIATIONS

Notice of Meetings

A meeting of each of the 26 Industry Sector Advisory Committees for Multilateral Trade Negotiations will be held at the U.S. Department of Commerce, 14th and E Streets, N.W., Washington, D.C., beginning at 10:00 a.m., on the following days:

	ISAC
Thursday, Jan. 16, 1975...	1 Food and kindred products.
	2 Textiles and apparel.
	3 Lumber and wood products.
	9 Leather and products.
	21 Photographic equipment and supplies.
	26 Miscellaneous manufacturers, toys, musical instruments, furniture, etc.
Tuesday, Jan. 21, 1975...	4 Paper and products.
	5 Industrial chemicals.
	6 Drugs, soaps, cleaners, and toilet preparations.
	7 Paints, gums, wood chemicals, and miscellaneous chemical products.
	20 Scientific and controlling instruments.
Thursday, Jan. 23, 1975...	8 Rubber and plastics materials.
	10 Stone, clay, and glass products.
	16 Office and computing equipment.
	17 Machine tools, other metalworking equipment, and other nonelectrical machinery.
	22 Communication equipment and non-consumer electronic equipment.
Tuesday, Jan. 28, 1975...	11 Ferrous metals and products.
	14 Other fabricated metal products.
	15 Construction, mining, agricultural, and oil field machinery and equipment.
	19 Consumer electronic products and household appliances.
	23 Railroad equipment and miscellaneous transportation equipment.
Thursday, Jan. 30, 1975...	12 Nonferrous metals and products.
	13 Hand tools, cutlery, and tableware.
	18 Electrical machinery, power boilers, nuclear reactors, and engines and turbines.
	24 Aerospace equipment.
	25 Automotive equipment.

The Committees have been established to provide the Secretary of Commerce and the Special Representative for Trade Negotiations with detailed views and information regarding trade barriers affecting individual products in each respective Committee's sector of U.S. industry for use during the multilateral trade negotiations to be undertaken by the United States.

Agenda items for all meetings are as follows:

I. *General Session* (Department of Commerce Auditorium 10:00 a.m.—12:00 p.m.).

A. Introduction.

B. Summary of Final TRA Provisions and GATT MTN Status/Outlook.

Presentation Followed by Discussion Period for ISAC Members.

C. Outline of ISAC Functions and Work Program.

D. Legal and Operational Considerations.

E. Discussion Period for ISAC Members re General ISACs' Topics/Concerns.

F. Recess.

II. *Individual Afternoon Sessions* (1:30–3:30 p.m., Rooms to be Announced on Day of Meeting).

A. Introduction and Discussion of Individual ISAC Topics.

B. Election of ISAC Chairman and Vice Chairman.

C. Discussion re Possible Steering Group, Election of Members, If Necessary.

D. Summary of Immediate ISAC Work/Scheduling.

E. Final Discussion Period.

F. Adjournment.

The meetings will be open to public attendance, and a limited number of seats will be available. Any member of the public who wishes to file a written statement with any of the Committees may do so before or after the meeting.

In order to facilitate preparations, persons who wish to attend any of these meetings are requested to contact Ms. Clare Soponis, Room 3026, U.S. Department of Commerce, Washington, D.C. 20230, telephone (AC 202) 967-3268, by

close of business 5 days prior to the specific meeting date concerned. Any questions regarding the meetings should also be directed to Ms. Soponis.

LAWRENCE A. FOX,
Deputy Assistant Secretary for International Economic Policy and Research.

DECEMBER 9, 1974.

Maritime Administration

CONTAINER AND UNITIZED CARGO SHIPS

Reconstruction To Increase Container Capacity; Computation of Foreign Cost

Notice is hereby given of the intent of the Maritime Subsidy Board to compute the estimated foreign cost for the reconstruction of four (4) single screw container and unitized cargo ships to increase their refrigerated cargo carrying capacity by installation of a 144 foot midbody, modification and strengthening of the main deck and related structure and provision and installment of additional auxiliary machinery and other equipment required for the added cargo carrying capacity, pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended.

Any person, firm or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on January 8, 1975 with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th & E Streets, NW., Washington, D.C. 20230.

Dated: December 11, 1974.

By Order of the Maritime Subsidy Board Maritime Administration.

JAMES S. DAWSON, JR.,
Secretary.

[Department Organization Order 30-2B; Amdt. 1]

NATIONAL BUREAU OF STANDARDS

Functions and Organization

This order, effective November 29, 1974, amends the material appearing at 38 FR 27427 of October 3, 1973.

Department Organization Order 30-2B, dated September 11, 1973, is hereby amended as follows:

1. SEC. 12.

Institute for Applied Technology. a. Paragraph .06 The *Product Evaluation Technology Division* is deleted. Subsequent paragraphs .07 through .11 are renumbered .06 through .10, respectively.

b. The present paragraph .09, The *Measurement Engineering Division*, is deleted, and a new renumbered paragraph .06 is inserted to read as follows:

.06 The *Center for Consumer Product Technology* shall, in cooperation with the appropriate organizations outside NBS, coordinate and conduct research and the design of measurement and test methods to evaluate the safety, energy efficiency, and other performance characteristics of consumer products and law enforcement equipment.

a. The *Director* shall report to the Director, Institute for Applied Technology and shall direct the development, execution, and evaluation of the programs of the Center. The Deputy Director shall assist in the direction of the Center and perform the functions of the Director in his absence.

b. The *organizational units* of the Center for Consumer Product Technology shall be:

Office of Consumer Product Safety
Law Enforcement Standards Laboratory
Product Engineering Division
Product Systems Analysis Division.

c. In subparagraph .11b., the *organizational units* of the Center for Building Technology, item 5, Structures, Materials, and Life Safety Division is amended to read, "Structures, Materials, and Safety Division."

2. The organization chart attached to this amendment supersedes the chart attached to Department Organization Order 30-2B of September 11, 1973. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

RICHARD W. ROBERTS,
Director,
National Bureau of Standards.
BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Approved:

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.74-29113 Filed 12-13-74;8:45 am]

[Department Organization Order 25-5B; Amdt. 2]

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Functions and Organization

This order, effective November 14, 1974, further amends the material appearing at 39 FR 17786 of May 20, 1974; and 39 FR 26766 of July 23, 1974.

Department Organization Order 25-5B dated April 25, 1974 is hereby further amended as follows:

1. SEC. 3.

Office of the Administrator. a. Paragraph .02 is revised to read as follows:

.02 The *Deputy Administrator* assists the Administrator in formulating policies and in managing NOAA.

b. The following new paragraph .05 is added:

.05 The *Naval Deputy to the Administrator* shall insure necessary coordination and joint planning with the Navy on oceanographic programs of mutual organizational interest.

2. SEC. 7. Assistant Administrator for Administration. a. The first sentence of paragraph .02 *Office of Management and Computer Systems* is revised by inserting the phrase "coordinate the Federal planning program for environmental telecommunications systems;" after the phrase ending with the words "telecommunications requirements and systems;".

b. Paragraph .06, the *Northwest Administrative Service Office*, is revised by inserting the word "finance," after the words "personnel administration,".

3. SEC. 15. Environmental Data Service. The following new paragraph .07 is added:

.07 The *Center for Climatic and Environmental Assessment* shall assess the impact of climate and weather changes and other natural phenomena on national and international socioeconomic events through development of assessment programs, statistical models and new applications of historical data bases; track and verify global climatic changes and weather pattern fluctuations; and determine the probable relationships between climatic patterns and man-made accidents.

4. The organization chart attached as Exhibit 1 to this amendment supersedes the organization chart dated July 1, 1974. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

Effective on November 14, 1974.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

Approved:

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[FR Doc.74-29162 Filed 12-13-74;8:45 am]

[Department Organization Order 20-6; Amdt. 1]

OFFICE OF INVESTIGATIONS AND SECURITY

Functions and Organization

This order, effective November 15, 1974, amends the material appearing at 38 FR 34134 of December 11, 1973.

Department Organization Order 20-6, dated November 26, 1973, is hereby amended as follows:

SEC. 3

a. Paragraphs .02 through .07 are hereby renumbered as .03 through .08.

b. A new paragraph .02 is added to read as follows:

.02 *Safeguards Review.* The Office shall independently initiate and conduct a program to review the effectiveness of the clearance procedures and documentary safeguards established for contractors with, and applicants, recipients and beneficiaries of financial assistance provided by, the Department. The program includes such matters as the scope and veracity of certifications and representations submitted by those persons, agency procedures relating thereto, and selective investigations as may be necessary.

a. The results of such reviews and investigations, including evidence or allegations regarding possible unlawful or improper activity, shall be reported to the Secretary through the Assistant Secretary for Administration and the Under Secretary.

b. This responsibility is intended to be supplementary to, and not in substitution for or in duplication of, present assignments

of responsibility to other Departmental organizations for project administration, compliance monitoring, audit, and related activities.

Effective: November 15, 1974.

GUY W. CHAMBERLIN, Jr.,
Acting Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

VENEREAL DISEASE CONTROL ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act (Public Law 92-463), the Director, Center for Disease Control, announces the meeting date and other required information for the following National Advisory body which is scheduled to assemble during the month of January 1975.

Committee name	Date/time/place	Type of meeting and/or contact person
Venereal Disease Control Advisory Committee.	Jan. 13, 1975, 9 a.m., El Tesoro Downtown Motor Hotel, 139 Lexington St., San Antonio, Tex. 78205.	Open—contact Mr. Joe H. Miller, Building B, room 320, Center for Disease Control, Atlanta, Ga. 30333, code 404-633-3311, extension 2367.

Purpose: The Committee is charged with advising on means and methods of implementing venereal disease control programs, reviewing current and proposed program operations and suggesting new areas of control emphasis.

Agenda: Items will include discussion of Committee recommendations from the August 7, 1974, Committee meeting; program progress; and evaluation methods for venereal disease information materials.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: December 6, 1974.

WILLIAM C. WATSON, Jr.,
Director, Center for Disease Control.

Office of Education

TEACHER CORPS PROJECTS

Proposed Criteria for Selection of Applications

Pursuant to the authority contained in Part B-1 of the Education Professions Development Act of 1965, as amended (79 Stat. 1255-1258 as amended, 20 U.S.C. 1101-1107a), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the criteria set forth below as the basis on which applications submitted for Teacher Corps projects for Fiscal Year 1975 will be judged.

Because of the recent amendments to the Teacher Corps legislation made by section 835 of the Education Amendments of 1974, Pub. L. 93-380, projects are now authorized which, in addition to providing support for broadening programs of teacher preparation, also provide support for demonstration projects for retraining of experienced teachers and teacher aides, so as to strengthen the educational opportunities available to children in school attendance areas having concentrations of low-income families. Assistance under this program will be subject to Part 100a of Title 45 of the Code of Federal Regulations.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed criteria to the Teacher Corps, U.S. Office of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection Mondays through Fridays between 8:30 a.m. and 4:30 p.m. at the Teacher Corps office, Room 4031 of Federal Office Building Number Six, 400 Maryland Avenue, SW, Washington, D.C.

All comments, suggestions, or objections to be considered must be received not later than January 15, 1975 unless such 30th day is a Saturday, Sunday, or Federal holiday, in which case such material must be received by the next following business day.

(Catalog of Federal Domestic Assistance Program No. 13.489 Teacher Corps—Operations and Training)

Dated: November 13, 1974.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 10, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare

I. CRITERIA FOR THE SELECTION OF TEACHER CORPS PROJECT APPLICATIONS

In addition to the criteria set forth in 45 CFR 100a.26(b), the following criteria will also be used as a basis for approving applications for Teacher Corps projects and in determining the amount of the award under approved applications:

(A) *Instructional program.* The extent to which it is shown that the proposed instructional program (i) provides training options including training designed to enable Teacher Corps interns, teacher aides, and experienced teachers to provide individualized instruction for pupils in classrooms at the local school level, (ii) provides adequate means for identifying and evaluating teacher interns', teacher aides' and experienced teachers' competencies and (iii) makes provision for the training necessary to prepare them to serve in schools in areas having concentrations of low income families (as determined in accordance with section 103 of Title I of the Elementary and Secondary Education Act of 1965 as amended), including training necessary to identify children with learning and behavioral problems, diagnose their special needs, and prescribe learning activities to meet such needs of these children in the regular classrooms of such schools. (See paragraph F.)

(20 U.S.C. 1101, 1103)

(B) *Community based education.* The extent to which the application (i) delineates specific opportunities for consultation with and involvement of parents of children to be served by the proposed project for mutual, deliberate, collaborative decision making in the planning, development, implementation, and evaluation of such project; (ii) includes evidence that such participation has been encouraged and has in fact occurred in the development of the application; (iii) provides for developing the capabilities of such parents, residents in the community, and secondary education and college students to serve as part-time tutors or full-time instructional assistants in the project (including, where appropriate, provision for university courses) and (iv) sets forth policies and procedures for adequate dissemination of program plans and evaluation to such parents and the public.

(20 U.S.C. 1101, 1103, 1231d)

(C) *Institutional adoption.* The extent to which the proposed project is designed in such a manner as to facilitate adaptation or adoption of successful elements of the project by the applicant institution or agency into its overall instructional program.

(20 U.S.C. 1101, 1103)

(D) *Needs analysis.* Whether the application specifies that the retraining of experienced teachers and teacher aides, along with the training of teacher interns, will be based on an analysis of the critical nature of the need for special skills and/or personnel to meet the special learning needs of children from low income families, including improving opportunities for children with learning and behavioral problems.

(20 U.S.C. 1101, 1103)

(E) *Multi-cultural consideration.* The extent to which the application indicates special provisions for meeting the diverse cultures represented by the proposed project's target populations, both in terms of the training program for experienced teachers, teacher interns, teacher aides, and community volunteers, and of the specific needs of the communities and students to be served by the Teacher Corps project. In proposals for programs in areas where the target population has limited cultural diversity, there must be an indication of the extent to which teacher interns, experienced teachers and teacher aides are prepared to understand and to use multicultural concepts in their work with children.

(20 U.S.C. 1101, 1103)

(F) *Diagnostic-prescriptive teaching.* The extent to which the application indicates special provisions for training in the techniques of diagnostic-prescriptive teaching, including skills in the identification of special learning problems, skills in diagnosing particular learning needs, and skills in prescribing programs to meet such needs. The application must show how these skills can be applied by participants to improve educational opportunities for all children to be served by the project, but especially for improving the educational opportunities in the regular classroom for children with learning and behavioral problems. Development of diagnostic-prescriptive teaching skills must be an ongoing, sequentially organized part of the program design, regardless of the major teaching area, subject, or grade levels with which the Teacher Corps application is concerned.

(20 U.S.C. 1101, 1103)

(G) *School-staff focus.* The extent to which the proposed retraining of experienced teachers and teacher aides will be available to the entire educational staff of each individual school involved in the project.

(20 U.S.C. 1101)

(H) *Field based instruction.* The extent to which instruction for experienced teachers, teacher aides, teacher interns, or community volunteers will be delivered at or near their teaching stations, in those instances when instruction will be enhanced by the close proximity to such teaching stations, rather than on the campus of the participating college or university.

(20 U.S.C. 1101, 1103)

(I) *Collaborative decision-making.* The extent to which the application indicates wide participation in collaborative decision-making by a school-community council for each participating school. Activities of the council must be planned so as to assure active and continuing involvement by, and responsiveness to the needs and desires of, as many as possible of the following groups or institutions: (i) The respective Teacher Corps role groups (including teacher interns, team leaders, project management staff, and coordinators); (ii) communit(ies), institution(s) of higher education, and local education agenc(ies) involved in the project; (iii) professional associations of teachers and/or other educators; (iv) the state education department (teacher education certification offices); (v) officials of other federally supported education projects; (vi) representatives of social service (public and private) agencies assigned responsibilities within the communities served by the Teacher Corps project; (vii) parent, community, social, welfare, or educational organizations; and (viii) other organizations which may impinge upon the success of the project or the Teacher Corps role groups described in (i) above.

(20 U.S.C. 1101, 1103)

(J) *Teaching teams.* The extent to which the application sets forth a teaching team organization which will be able to operate effectively in carrying out the purposes of the project. (A teaching team is defined as not less than 4 nor more than 10 teacher interns led by an experienced teacher. Each project must contain 1 or 2 teams, but shall not exceed a maximum of 10 teacher interns for that project.)

(20 U.S.C. 1103)

(K) *Special characteristics.* Within the context of the proposed strategy, the extent to which the application indicates special characteristics of the project which will make it adaptable to the specific conditions of the sites and communities served by the project (such as population density, housing patterns, etc.).

(20 U.S.C. 1101, 1103)

(L) *Equitable geographical distribution.* The extent to which approval of the project will further the equitable geographical distribution of projects, including proportional representation among urban and rural areas.

(20 U.S.C. 1101, 1103)

(M) *Management and evaluation plans.* The extent to which the application sets forth specific plans for program organization, management, and evaluation of both process and outcome. Specific data collection procedures must be described, based on the careful specification of program goals, performance criteria, and regular program review, so as to assure a record of the project's demonstration aspects and its achievements in terms of Teacher Corps purposes.

(20 U.S.C. 1101, 1103)

II. Demonstration Requirements

Each application for a Teacher Corps project must combine (1) the meeting of local educational needs and concerns with (2) a demonstration project for the training of teacher interns and the retraining of experienced teachers and teacher aides. The demonstration project must adopt one of the following broadly defined strategies:

(A) *The Training complex.* A training complex is an organization designed to provide preservice and inservice education for potential and practicing educational personnel at a site located within or near the schools where Teacher Corps interns are serving and where retraining of experienced teachers and teacher aides is being initiated. Applications may show wide diversity in the features of a training complex, but it is essential that the application describe plans for (i) the direct involvement of training personnel from the institution of higher education involved in the Teacher Corps project, Teacher Corps interns, experienced teachers, teacher aides, and community volunteers in decision-making; (ii) the assuring that instructional experiences for teacher interns, experienced teachers and teacher aides will be administered through the training complex, and (iii) a wide use of community and local educational agency resources for the development and delivery of both training and retraining.

(20 U.S.C. 1101, 1103)

(B) *Competency-based teacher education.* Competency-based teacher education is marked by the specification of objectives for learning based on observation of teacher skills and behaviors which positively influence children's learning. Instructional programs for experienced teachers, teacher interns, teacher aides, and community volunteers are delivered through sequential programs based on various levels of professional activities and competencies. Applications must describe how the proposed project will (i) demonstrate objective-based programs of training and retraining for educational staff which are designed to improve learning opportunities for low-income children through careful analyses of training and retraining needs; (ii) develop systematic management processes so that persons in training or retraining can evaluate their own learning needs and achievements; (iii) provide alternative modes of instruction based on the achievement of pre-determined competencies for teachers or other educational personnel in relation to the improvement of pupil learning; and (iv) direct the use of university and other program resources towards meeting the needs of teacher interns, experienced teachers, teacher aides, and community volunteers within the school districts served by the project.

(20 U.S.C. 1101, 1103)

(C) *Training for implementing alternative school designs.* School districts which have planned a major organizational or structural educational innovation may choose to demonstrate, through a Teacher Corps project, a program of training teacher interns and retraining experienced teachers and teacher aides which helps meet the special needs for implementing such an innovation. Applications must (i) contain assurances that the school district is already committed to this innovation and that the institution of higher education involved in the Teacher Corps project will be able to demonstrate appropriate training and retraining activities; (ii) contain evidence that other aspects of the innovation have been planned and provided for separately from those supported under the Teacher Corps program and described in the application (which is limited to training and retraining activities); (iii) indicate directions for the improvement of training of Teacher Corps interns and retraining of experienced teachers and teacher aides through relating these activities to institutional change; and (iv) demonstrate a viable strategy for improving the education of low income children by improving both the skills of educational personnel and the conditions under which education takes place.

(20 U.S.C. 1101, 1103)

XUM
V 39 N 242 DEC 16 1974
XUM

(D) *Interdisciplinary training approaches.* This strategy provides for training of teacher interns and the retraining of experienced teachers and teacher aides through the demonstration of programs which emerge from the participation in teacher education by representatives from various academic disciplines (such as the liberal and fine arts, physical and natural sciences, social sciences, and humanities), and which are aimed at increasing the educational opportunities of low income children by reorganizing the base of knowledge and experience which the educational staff can use as a basis for planning and managing learning activities. Applications must emphasize: (i) The collaborative planning by representatives of diverse disciplines for developing programs of training and retraining geared specifically to populations of learners from low income families; (ii) the relationship of multidisciplinary training and retraining programs to the specific cultural and life styles of the pupils to be served so as to reinforce extant community values; (iii) the development of professional educational staffs which are flexible in their organization and use of knowledge in relation to growth and development of Children as members of specific cultural and social groups; and (iv) the improvement of interrelationships among educational agencies and institutions (such as universities and local school districts) and other community institutions.

(20 U.S.C. 1101, 1103)

(E) *Training for the systematic adaption of research findings.* There is presently available, in immediately usable form, a substantial body of results from research concerning learning and educational processes. Such research results can be incorporated into the design of programs for the training of teacher interns and the retraining of experienced teachers and teacher aides. This research can be drawn upon to identify training objectives, select approaches to training and evaluation, create instructional materials and activities or adapt existing materials to new situations, and organize training or retraining programs. This research evidence represents a vast potential resource which, as yet, has not been organized into systemic or overall program demonstrations. Applications selecting this strategy must emphasize (i) the systemic organization of validated research findings into demonstration programs of teacher intern training and the retaining of experienced teachers and teacher aides; (ii) the utilization of data based solutions to persistent educational problems addressed by the application; (iii) the relating of research activities and findings to the everyday life and activities of practicing educational personnel; and (iv) the broadscale, public demonstration of programs based on research findings and involving collaboration among school districts and educational groups.

(20 U.S.C. 1101, 1103)

[FR Doc.74-29212 Filed 12-13-74;8:45 am]

TEACHER CORPS PROJECTS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Part B-1 of the Education Professions Development Act of 1965, as amended (20 U.S.C. 1101-1107a), applications are being accepted from institutions of higher education and local education agencies for Teacher Corps project grants.

Applications must be received by the U.S. Office of Education Application Control Center on or before January 20, 1975.

A. *Application sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.489. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail roms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Teacher Corps, Office of Education, Room 4031, 400 Maryland Avenue, SW, Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a), published in the FEDERAL REGISTER on November 6, 1973 at 38 FR 30654 and amended on May 31, 1974 at 39 FR 19211, and the proposed Funding Criteria for Teacher Corps projects published in this issue of the FEDERAL REGISTER.

ADVISORY COUNCIL ON FINANCIAL AID TO STUDENTS

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the Advisory Council on Financial Aid to Students will be held on January 23 and 24, 1975, at 9 a.m.-4:30 p.m., in Room 4173 (Commissioners Conference Room), Federal Office Building #6, 400 Maryland Avenue SW., Washington, D.C. 20202.

The Advisory Council on Financial Aid to Students is established under Pub. L. 92-318, section 499(a). The Committee is established to advise the Commissioner on matters of general policy relating to Financial Aid to Students.

The meeting of the Committee shall be open to the public. The proposed agenda includes:

1. The role of work in financing student costs of Postsecondary Education.
2. Which grant programs should be encouraged.
3. How should the total package of student aid—loans, grants, work—fit together?
4. What is the most cost effective way to finance student loans?

Records shall be kept of all Committee proceedings and shall be available for public inspection at the Office of Warren T. Troutman located in Room 4525, Regional Office Building #3, 7th and D Streets, SW., Washington, D.C. 20202.

Signed at Washington, D.C., on December 11, 1974.

WARREN T. TROUTMAN,
Delegate.

[FRA Waiver Petition No. RSFC-74-6]

NORFOLK AND WESTERN RAILWAY CO.

Cancellation of Public Hearing

Notice is hereby given of the cancellation of the hearing scheduled for 10 a.m. on December 19, 1974, in Room 10330, Nassif Building, Washington, D.C. Notice of this hearing was published in the October 22, 1974 issue of the FEDERAL REGISTER (39 FR 37526).

Since the request for public hearing has been withdrawn, the hearing will not be rescheduled.

Issued in Washington, D.C., on December 12, 1974.

DONALD W. BENNETT,
Chief Counsel.

CIVIL AERONAUTICS BOARD

[Docket No. 25771, etc.; Order No. 74-12-26]

DELTA AIR LINES, INC. ET AL.

Order Instituting Investigation Regarding Certificates of Public Convenience and Necessity and Exemptions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of December, 1974.

In the matter of applications of Delta Air Lines, Inc., Docket No. 25771, 25785; Eastern Air Lines, Inc., 25760, 25775; National Airlines, Inc., 25715, 25767; Northwest Airlines, Inc., 25745, 25752; Southern Airways, Inc., 25746, 25747; United Air Lines, Inc., 25721, 25722; for amendment of certificates of public convenience and necessity, and for exemptions pursuant to section 416(b) of the Federal Aviation Act; the Fort Myers-Atlanta Case, Docket No. 27237.

Six carriers have filed applications for amendments to their respective certificates to permit them to offer new or improved authority to Fort Myers, Florida. Although the authority requested differs from carrier to carrier, depending on the nature of the existing authority of each, the focus of the applications is on the Fort Myers-Atlanta market in which each carrier seeks to provide first single-plane service.

National Airlines, currently the only carrier certificated to serve Fort Myers, provides the city with direct and connecting services to points in the East, South and West, including single-plane service to Baltimore, Boston, Miami, New York, Tampa and Washington, D.C. Although the carrier is also certificated at Atlanta, it has no effective authority in the Fort Myers-Atlanta market,[1] and requests that the Board authorize it to provide such service over a new Atlanta-Fort Myers segment. Delta Air Lines, Eastern Air Lines, Northwest Airlines, Southern Airways and United Air Lines each serve Atlanta and a number of points in Florida.[2] With the exception of Southern, which has applied for a new Fort Myers-Atlanta segment, each carrier desires to add Fort Myers to existing route segments. Delta would add Fort Myers as a coterminal point with Orlando on its route 24 and as an intermediate point on routes 27 and 54. Eastern proposes to add Fort Myers to routes 6 and 10 as an intermediate point between Sarasota, on the one hand, and Orlando and Fort Lauderdale, on the other. Northwest desires to add Fort Myers to segment 5 of route 3 as an intermediate point between Tampa and the coterminal points Fort Lauderdale and Miami. Finally, United seeks to add Fort Myers to segment 4 of route 51 as an intermediate point between Tampa and West Palm Beach.

On June 21, 1974, the Fort Myers parties filed a motion, pursuant to § 399.60, for expedited hearing on the issue of the need for first single-plane service between Fort Myers and Atlanta. In support of their motion, the Fort Myers parties emphasize that the requested hearing would entail only the consideration of new service since no carrier is presently authorized to operate single-plane service between Fort Myers and Atlanta, and that the award of such authority could result in Fort Myers' first direct service to the mid-continent region including such cities as Chicago, Detroit, Denver, Minneapolis, Milwaukee, Cleveland, Pittsburgh, St. Louis and Kansas City. Secondly, the Fort Myers parties assert that the city is a proven generator of traffic since the O&D survey shows that its traffic has doubled every three years over the past decade, with a substantial volume of traffic (estimated by the city at 300 daily passengers) moving between Fort Myers and the mid-continent region of the country. The city asserts that this preexisting traffic pool insures a profitable operation from the outset. Lastly, Fort Myers notes that the needs of the Fort Myers-Atlanta market have not been examined for over ten years and that because of the limited nature of the authority sought by Fort Myers, only a minimum amount of Board resources would be required for a hearing.

Answers in support of the Fort Myers motion were filed by Delta, Eastern, Northwest, Southern and United. An answer in opposition was filed by Florida Airlines asserting that Fort Myers has ample service available to Tampa where the Fort Myers' passenger can connect with single-plane services to a number of cities throughout the country; that Tampa is a preferable point for connecting purposes since Atlanta is congested; and that certification of a Fort Myers-Atlanta service will result in substantial diversion from Florida Airlines' services and seriously impair its ability to offer the number of flights it presently operates between Fort Myers and Tampa, thus, in effect, downgrading the quality of Fort Myers connecting service at Tampa.

In addition to their applications for certificate amendments, each carrier has filed an application for exemption authority which would permit the operation

[1] Atlanta is a terminal point on segment 2 of route 39, and Fort Myers is an intermediate point on route 31. The only common junction point between segment 2 of route 39 and route 31 is San Francisco, California. Consequently, any single-plane service operated by National between Atlanta and Fort Myers would have to be operated via San Francisco.

[2] Delta serves Jacksonville, Orlando, Tampa, West Palm Beach, Fort Lauderdale and Miami; Eastern serves Tallahassee, Jacksonville, Daytona Beach, Gainesville, Tampa, Sarasota, Orlando, Melbourne, West Palm Beach, Fort Lauderdale and Miami; Northwest serves Tampa, Fort Lauderdale and Miami; Southern serves Jacksonville, Tallahassee, Orlando, and Miami-Fort Lauderdale; and United serves Jacksonville, Tampa, West Palm Beach, Fort Lauderdale and Miami.

of Fort Myers-Atlanta service pending the completion of certificate proceedings.[3] In support of these applications the carriers stress Fort Myers need for first single-carrier, single-plane service to points in the mid-continent region and allege that such operations will be economic and will provide valuable service for the traveling public. Each carrier has filed an answer in opposition to the exemption applications of the others (except that Southern did not oppose Delta's exemption request) arguing primarily the comparative merits of its own case, and each carrier has replied to the answers. In addition, the Fort Myers parties have filed answers in support of the exemption applications, and Allegheny County, Pennsylvania, has filed an answer supporting United's exemption application as well as United's application to amend its certificate.

Upon consideration of the foregoing and other pertinent matters, we have determined to institute an investigation for the single purpose of considering the need for first single-plane service between Fort Myers and Atlanta.

Under § 399.60(b) of its policy statements, the Board has declined to afford priority treatment to route applications which contemplate the introduction of competitive service which might have a net deleterious effect on the overall health of the air transportation system.[4] At the same time, the Board is equally sensitive to the need of the traveling public for efficient, expeditious service in markets which can economically support improved service and in which there exists serious service deficiencies. The Fort Myers-Atlanta market appears to present an unusual situation, considering the relatively developed state of the air transportation system, where there currently is no single-plane or even single-carrier service authorized but there is a demonstrated traffic base which can support economic operations from the very outset, with a minimal competitive impact on the certificated system. Thus, the proceeding instituted herein involves considerations similar to those concerned in the Detroit-Nashville Nonstop Investigation, Order 74-9-90, September 25, 1974, in which we recently found that first direct air service between Nashville and Detroit should be certificated. On the other hand, this proceeding is clearly distinguishable from other recent decisions[5] in which we determined not to authorize new or additional competitive service in markets where it appeared that diversion from existing carriers and/or the added consumption of scarce fuel would outweigh any anticipated benefit to the traveling public. In view of these circumstances and the potential significant public benefits which could result from the authorization of first single-plane service in the Fort Myers-Atlanta market, we believe that a consideration of the needs of this market should be given a priority status on our hearing docket.[6]

Further, to focus this proceeding on those Fort Myers markets in which no carrier is currently authorized to provide single-plane service and to guard against any potential competitive impact on National's Fort Myers-East Coast services, we will specifically place in issue the possible imposition of restrictions (1) which would prohibit the operation of new single-plane services between Fort Myers, on the one hand, and Norfolk, Newport News, Washington, D.C., Baltimore, Philadelphia, New York/Newark, Providence, and Boston, on the other hand, and (2) which would prevent a new Fort Myers' carrier from publishing local or joint point-to-point fares in the above markets.[7]

To the extent they conform to the scope of the proceeding instituted herein, we are consolidating for hearing the applications of Delta (Docket 25771), Eastern (Docket 25760), National (Docket 25715), Northwest (Docket 25745), Southern (Docket 25746) and United (Docket 25721).

Finally, we have decided to deny the various exemption applications. In our view, the arguments advanced by the carriers in support of their applications for exemption fall short of establishing that an exemption should be granted, particularly in circumstances where there are competing applicants for the same authority. Even if all of the assertions of the carriers are accepted as true, they amount to no more than strong support for the grant of each carrier's respective certificate application; they do not persuade us of the desirability for the grant of an exemption pending disposition of those applications. In the circumstances, we are unable to find that enforcement of the Act would not be in the public interest.

Accordingly, *It is ordered*, That:

1. The motion of the Fort Myers parties, be and it hereby is granted;

2. A proceeding to be known as The Fort Myers-Atlanta Case, Docket 27237, be and it hereby is instituted and shall be set down for hearing before an Administrative Law Judge of the Board at a time and place hereafter designated;

3. The proceeding instituted by paragraph 2 above, shall include consideration of the following issues:

(a) Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in nonstop air transportation between Fort Myers, Florida, and Atlanta, Georgia?

(b) If the answer to (a) is in the affirmative, which air carrier(s) should be authorized to engage in such service?

(c) What conditions, if any, should be placed on the operations of such carrier(s), including but not limited to:

(1) A restriction against the operation of new single-plane service between Fort Myers, on the one hand, and Norfolk, Newport News, Washington, D.C., Baltimore, Philadelphia, New York, Newark, Providence and Boston, on the other hand, and

(2) A restriction prohibiting any new Fort Myers carrier from publishing local or joint point-to-point fares between Fort Myers and the points listed in (1) above?

4. Authority awarded in this proceeding shall be in the form of a separate segment and shall be granted without eligibility for subsidy;

5. Insofar as they conform to the scope of the proceeding set forth in paragraph 3 above, the applications of Delta Air Lines in Docket 25771, Eastern Air Lines in Docket 25760, National Airlines in Docket 25715, Northwest Airlines in Docket 25745, Southern Airways in Docket 25746, and United Air Lines in Docket 25721, be and they hereby are consolidated with the proceeding instituted by paragraph 2 above; to the extent not consolidated, the foregoing applications be and they hereby are dismissed without prejudice;

6. The applications of Delta Air Lines in Docket 25785, Eastern Air Lines in Docket 25775, National Airlines in Docket 25767, Northwest Airlines in Docket 25752, Southern Airways in Docket 25747, and United Air Lines in Docket 25722, be and they hereby are denied; and

7. Applications, motions to consolidate and petitions for reconsideration of this order shall be filed no later than twenty (20) days after the date of service of this order, and answers thereto shall be filed no later than ten (10) days thereafter.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[8]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-29230 Filed 12-13-74;8:45 am]

---

[3] Delta, National, and Southern have applied for exemption authority to serve only the Fort Myers-Atlanta market. The exemption applications of Eastern, Northwest and United parallel their requests for certificate authority.

[4] See, *e.g.*, Orders 73-7-73, July 16, 1973, and 73-8-24, August 3, 1973.

[5] Additional Service to San Diego Case (San Diego-Denver), Order 74-5-17, May 3, 1974, and Remanded Atlanta-Detroit/Cleveland/Cincinnati Investigation, Order 74-5-16, May 3, 1974.

[6] Nothing raised by Florida Airlines would lead us to a contrary result. However, the question before us now is simply whether to set the pending Fort Myers-Atlanta applications for hearing, and our conclusions herein are not intended to be a comment on the substantive merit of Florida Airlines' contentions.

[7] Without the ability to publish local or joint point-to-point fares, carriers would be required to charge fares based on the maximum fare formulas set forth in Phases 6 and 9 of the Domestic Passenger-Fare Investigation, Docket 21866.

[8] Minetti and West, members, statement concurring in the result filed as part of the original document.

[Dockets Nos. 27061 and 27062; Order No. 74-12-39]

EASTERN AIR LINES, INC.

Order Regarding Suspension/Deletion of Service

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 11th day of December, 1974.

Application of Eastern Air Lines, Inc., for continuation of temporary suspension of service at Mayaguez, P.R.—Docket 27062.

Application of Eastern Air Lines, Inc., for amendment of its certificate of public convenience and necessity for route 59 so as to delete Mayaguez, P.R.—Docket 27061.

By order 74-3-57, March 12, 1974, the board authorized Eastern to suspend service temporarily at Mayaguez, P.R., until December 31, 1974, and dismissed Eastern's application in docket 25877 for deletion of Mayaguez.[1]

On September 27, 1974 Eastern Air Lines filed an application for continuation of the temporary suspension of service at Mayaguez, to be in effect until 90 days after final decision on its concurrently filed application in docket 27061 for deletion of Mayaguez from its certificate for route 59.[2]

In support of its requests, Eastern states that continuation of its suspension at Mayaguez pending decision on its deletion application is clearly in the public interest because (a) conditions persist at the Mayaguez airport making it unsuitable for turbojet aircraft operations, (b) even a minimum pattern of service with such aircraft would be uneconomic, (c) the resumption of flight operations in the interim would result in needless expenditures and substantial losses, and (d) no inconvenience to the traveling public will result since there is ample alternative air service provided by Prinair between Mayaguez and San Juan.[3]

The Commonwealth of Puerto Rico has filed an answer to Eastern's requests. The Commonwealth contends that there are no valid grounds for Eastern's suspension or deletion at Mayaguez, and that it objects to the suspension if the carrier's deletion application in docket 27061 is not promptly set for expedited hearing.

The Commonwealth argues that Mayaguez is a large city, with a population of over 100,000; that the point generates over 200,000 O&D passengers per year; that the Mayaguez airport is fully capable of handling any amount of operations Eastern would be likely to schedule at Mayaguez, with any aircraft type the carrier would be likely to use, since the runway lengthening which was in progress in 1973 has been completed and the control tower is now in operation; that the fuel situation is not so critical as to require the complete elimination of certificated service from Mayaguez; and that the point is sufficiently isolated so as to require air transportation from its own facility.

Eastern filed a reply to the Commonwealth's answer, contending that expedited hearing procedures on its deletion application are unwarranted.

Upon consideration of the pleadings and all relevant facts, we have determined to set Eastern's application in docket 27061 for the deletion of Mayaguez, P.R., for hearing. The proceeding instituted herein shall receive priority consideration in being set for hearing. We do not mean to imply, however, that any procedures apart from those normally utilized in Board proceedings shall be followed here.[4]

We have also determined to grant Eastern's request for continued suspension authority at Mayaguez pending final board decision in the deletion case. We believe that the public interest would best be served by permitting Eastern to continue its present suspension of service at Mayaguez, pending an investigation into the future air service needs of the point in a formal proceeding. We are not persuaded that the carrier should be required to institute service in the interim, especially in view of the fact that Eastern has never served Mayaguez and that substantial start-up costs would be required which might prove ultimately needless, depending upon the outcome of the hearing. A continuation of Eastern's suspension will not deprive the traveling public and shippers of any service which they now enjoy, and there is ample air taxi service available between Mayaguez and San Juan.[5]

Finally, Board action in this proceeding may possibly have adverse impact upon the environment, to the extent that one eventual result could be the reinstitution of certificated service at Mayaguez. We will direct the Director, Bureau of Operating Rights, to determine prior to the hearing whether such action would constitute a "major Federal Action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), and to prepare an NEPA environmental impact statement, if required.

The Bureau's draft environmental impact statement, or a statement with reasons that no impact statement is required ("environmental negative declaration"), will be circulated to the parties, other environmentally concerned Federal agencies, and other interested persons for their consideration and comment. The Bureau will thereafter prepare a final environmental impact statement, or a final negative declaration, dealing with the comments received, if any. The draft and final impact statements or negative declarations shall be placed in the record of the proceeding. A hearing may be held on the environmental impact statements, if any, if requested by any party and deemed necessary by the Administrative Law Judge assigned to the proceeding.

The Director is hereby authorized to make such requests for data and other material of the parties, and others, as he deems necessary for the Bureau's analysis. The parties, under direction of the Administrative Law Judge assigned to the proceeding, shall comply fully with such requests and any procedural dates established in connection therewith.

Accordingly, *It is ordered, That:*

1. The application of Eastern Air Lines, Inc., in docket 27061 for deletion of Mayaguez, P.R., from its certificate of public convenience and necessity for route 59 be and it hereby is set for hearing at a time and place to be hereafter designated;

2. The hearing shall consider the following issues: (1) Whether the public convenience and necessity require that Eastern's certificate be altered, amended, or modified so as to suspend or delete Mayaguez, P.R.; (2) as an alternative to amending Eastern's certificate, whether the public interest requires continued temporary suspension of service by Eastern, with or without conditions; and (3) the environmental impact of final Board action in the event that Eastern should be required to institute service as a result of this proceeding;

3. Eastern Air Lines, Inc., be and it hereby is authorized to suspend service temporarily at Mayaguez, P.R., until 90 days after final decision on its application in docket 27061 for deletion of Mayaguez from its certificate, and

4. This order shall be served on Eastern Air Lines, Inc.; Air Line Pilots Association, International; Mayor, City of Mayaguez; Governor, Commonwealth of Puerto Rico, and the Puerto Rico Department of Health; Airport Manager, Mayaguez Airport; the Postmaster General; the Department of Commerce; Department of Health, Education, and Welfare; Department of Transportation; the Environmental Protection Agency; the Council on Environmental Quality; and the National Aeronautics and Space Administration.

---

[1] By order 73-10-96, Oct. 26, 1973 the Board set for hearing Eastern's application in docket 25877 for deletion of Mayaguez from its certificate. Subsequently, in light of the fuel crisis which the carrier believed would make assessment of the service needs of Mayaguez unduly difficult, Eastern determined to withdraw its deletion application and to request suspension of service until Dec. 31, 1974, which the Board permitted by order 74-3-57. The carrier advised the Board that depending on circumstances prevailing when that authority expired, it anticipated the refiling of an application for deletion and a request for renewal of suspension authority.

[2] Eastern has invoked the automatic extension provisions of sec. 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c).

[3] Eastern also indicates that since its resumption of service to Ponce, Mayaguez travelers have convenient one-carrier service to the mainland, and that the carrier plans to inaugurate direct service between Ponce and New York in the spring of 1975.

[4] We do not interpret the Commonwealth's answer (requesting "that the Board promptly set down the deletion case for expedited hearing") to request the use of extraordinary procedures or timing in the conduct of the case. In any event, we believe that the several controverted issues of fact emerging from the pleadings dictate an orderly processing of the case, and that the present availability of ample air taxi services at Mayaguez renders the shortcutting of established procedures unnecessary.

[5] Prinair presently provides 29 daily nonstop round trips in the Mayaguez-San Juan market (O&D, Oct. 16, 1974).

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-29228 Filed 12-13-74;8:45 am]

[Docket 25875; Order No. 74-12-40]

MINIMUM CHARTER RATE LEVEL

Order Regarding Statement of General Policy

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of December, 1974.

On November 11, 1974, the Department of Justice (Justice) filed a document described as a motion for stay and petition for reconsideration of the Board's Statement of General Policy, Minimum Charter Rate Levels, Regulation PS-57, adopted and effective October 18, 1974 (Statement). That Statement sets forth guidelines which the Board stated it will consider in evaluating tariffs for North Atlantic charters pursuant to section 1002(j) of the Federal Aviation Act (Act).[1] Since the Board's rules do not provide for petitions for reconsideration of final rules and statements of policy, Justice's request will be considered as a petition for rulemaking. Rule 38(d) of the rules of practice.

Justice alleges that the Board was incorrect in concluding that the statement of guidelines does not constitute ratemaking; that the provisions of section 1002(j)(5) of the Act may permit the Board to review and disapprove rates that do not meet "incremental" costs but that does not mean the Board can suspend rates merely upon a showing they are below fully allocated industry costs; and that the guidelines impose "great" economic pressures on carriers to file tariffs in accordance with the Statement which will deny the U.S. Government and the general public charter travel at "compensatory, competitively set rates." Justice implies the Board's action in issuing PS-57 violates Moss v. CAB, 430 F. 2d 891 (D.C. Circuit 1970). Answers supporting Justice's filing have been filed by Capitol International Airways, Inc., and Airline Charter Tour Association.

The Board, upon careful review of the matters raised, concludes that the relief sought should be denied. Justice's argument makes more of the Policy Statement than its plain language suggests. The guideline rate levels, adopted after full rulemaking procedures, affording ample opportunity for the comments of all interested persons, are clearly what they purport to be—specific guidelines for the purpose of evaluating existing and proposed charter rates. Stated differently, by establishing guidelines, the Board has merely made it known that it does not intend to review rates which are filed above that level. Conversely, rates filed below that level will be scrutinized both against industry data and that provided in the particular carrier's justification. It is, of course, patent that the Board has authority to suspend and investigate any North Atlantic charter rate it deems unreasonable under the usual statutory and evidentiary criteria, whether Policy Statement guidelines exist or not.

No rights of any person are affected by the promulgation of the Policy Statement and, as its terms indicate, the guideline rates are not in any sense "legally prescribed" so as to require the procedural steps incidental to Board "prescribed" rates for domestic air transportation service. The provisions of section 1002(j) clearly do not grant the Board prescription power over the reasonableness of rates in foreign air transportation, and the Board has not sought to exercise such power in promulgating the Statement.

Insofar as Justice questions the propriety of the Board's adoption of guideline rates based on charter industry average costs in the North Atlantic market, the Board has historically based its rate judgments on industry average costs for each ratemaking entity, and such decisions have been judicially sanctioned. The concept of rate regulation based on incremental or "out of pocket" costs ignores the carriers' need to charge prices sufficient to cover system and ratemaking entity costs.[2] Finally, it should be noted that the Policy Statement does not suggest that every tariff rate below the guideline minimum will be suspended.

Justice's final point that the Policy Statement will have the effect of forcing carriers to file higher level rate tariffs conforming to the guideline rates again overlooks the Statement's provisions that contemplate lower rates if adequately justified. In any event, the premise for the Board's action in adopting guidelines for a temporary one year period is the historical pattern of carrier losses in North Atlantic charter service—losses so severe as to seriously weaken the carriers' continued ability to provide the charter service which the Board has purposely fostered in recent years in order to provide the public with low-cost transportation.

In the interests of developing charter service, the Board has historically limited its intervention in the rate regulation area so the public could be served at prices settled in the competitive marketplace. With the very sharp recent increases in operating costs, due in part to fuel and other inflationary cost forces, this approach is no longer viable and a more detailed regulatory environment appears warranted, at least for a temporary period. Concerns that charter services be operated profitably have been expressed internationally as demonstrated by the action of major European aeronautical authorities in considering establishment of minimum charter rates. The Board could not and has not gone that far. But clearly present circumstances warrant more careful attention to charter rate levels, and that is what the Board has sought to achieve in its adoption of the Policy Statement.

Accordingly, *It is ordered, That:*

1. The motion for stay filed by the Department of Justice on November 11, 1974, is denied.

2. The petition filed by the Department of Justice on November 11, 1974, is dismissed.

This order will be published in the Federal Register.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF THE PHILIPPINES

DECEMBER 11, 1974.

On September 21, 1967, the United States Government concluded a comprehensive bilateral cotton textile agreement with the Government of the Republic of the Philippines concerning exports of cotton textiles and cotton textile products from the Philippines to the United States. On December 26, 1967, the two Governments exchanged notes amending the bilateral agreement. On November 17, 1970, the two Governments exchanged notes further amending and extending the bilateral agreement. By exchange of notes dated September 27 and October 9, 1973, the two Governments again extended the bilateral agreement, as previously amended. Among the provisions of the agreement, as amended and extended, are those establishing specific limits on Categories 9, 22, 26, 32, 39, 42; 43, 45, 46, 50, 51, 60, 61, and part of 63 for the agreement year beginning January 1, 1975.

Accordingly, there is published below a letter of December 11, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in the above categories, produced or manufactured in the Philippines, which may be entered or withdrawn from warehouse for consumption in the United States for the period beginning January 1, 1975 and extending through December 31, 1975, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended and extended, but are designed to assist only in the implementation of certain of its provisions.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS
Department of the Treasury,
Washington, D.C. 20229

DECEMBER 11, 1974.

DEAR MR. COMMISSIONER: Pursuant to the Bilateral Cotton Textile Agreement of September 21, 1967, as amended and extended, between the Governments of the United States and the Republic of the Philippines, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1975 and for the twelve-month period extending through December 31, 1975, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 9, 22, 26, 32, 39, 42, 43, 45, 46, 50, 51, 60, 61, and part of 63 produced or manufactured in the Philippines, in excess of the following levels of restraint:

Category	*12-month level of restraint*
9	1,758,876 square yards.
22	2,110,651 square yards.
26	1,758,876 square yards (of which not more than 422,130 square yards may be in duck fabric).[1]
32	4,221,301 dozens.
39	386,952 dozen pairs.
42	42,212 dozens.
43	84,427 dozens.
45	42,212 dozens.
46	14,071 dozens.
50	14,071 dozens.
51	14,071 dozens.
60	11,961 dozens.
61	2,181,006 dozens.
Part of 63 (T.S.U.S.A. Nos. 380.3980 and 382.3380 only)	167,861 pounds.

[1] Only T.S.U.S.A. Nos:
320. -- 01 through 04, 06, 08
321. -- 01 through 04, 06, 08
322. -- 01 through 04, 06, 08
326. -- 01 through 04, 06, 08
327. -- 01 through 04, 06, 08
328. -- 01 through 04, 06, 08

In carrying out this directive, entries of cotton textiles and cotton textile products in the above categories, produced or manufactured in the Philippines, which have been exported to the United States from the Philippines prior to January 1, 1975, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods for the twelve-month period beginning January 1, 1974 and extending through December 31, 1974. In the event that the levels of restraint for the twelve-month period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of September 21, 1967, as amended and extended, between the Governments of the United States and the Republic of the Philippines which provide, in part, that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than five percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the Federal Register on January 25, 1974 (39 F.R. 2939).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government o fthe Republic of the Philippines and with respect to the imports of cotton textiles and cotton textile products from the Philippines have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc. 74-29197 Filed 12-13-74;8:45 am]

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE SOCIALIST REPUBLIC OF ROMANIA

DECEMBER 11, 1974.

On December 31, 1970, the United States Government concluded a comprehensive bilateral cotton textile agreement with the Government of the Socialist Republic of Romania concerning exports of cotton textiles and cotton textile products from Romania to the United States over a five-year period beginning on January 1, 1971 and extending through December 31, 1975. Among the provisions of the agreement are those establishing an aggregate limit for the 64 categories, and within the aggregate limit, specific limits on Categories 19, 26, 47, 49, 55, 60, and 63 for the fifth agreement year beginning January 1, 1975.

Accordingly, there is published below a letter of December 11, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in the above categories, produced or manufactured in Romania, which may be entered or withdrawn from warehouse for consumption in the United States for the period beginning January 1, 1975, and extending through December 31, 1975, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs
Department of the Treasury
Washington, D.C. 20229

DECEMBER 11, 1974.

DEAR MR. COMMISSIONER: Pursuant to the Bilateral Cotton Textile Agreement of December 31, 1970, between the Governments of the United States and the Socialist Republic of Romania, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1975 and for the twelve-month period extending through December 31, 1975, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 19, 26, 47, 49, 55, 60, and 63, produced or manufactured in Romania, in excess of the following twelve-month levels of restraint:

Category	*12-month level of restraint*
19	1,337,057 square yards.
26	2,674,114 square yards (of which not more than 607,754 square yards may be in duck fabric [1]).
47	49,308 dozen.
49	26,180 dozen.
55	16,683 dozen.
60	23,393 dozen.
63	422,785 pounds.

[1] The T.S.U.S.A. Nos. for duck fabric are:
320...01 through 04, 06, 08
321...01 through 04, 06, 08
322...01 through 04, 06, 08
326...01 through 04, 06, 08
327...01 through 04, 06, 08
328...01 through 04, 06, 08

In carrying out this directive, entries of cotton textile products in Categories 19, 26, 47, 49, 55, 60, and 63, produced or manufactured in Romania, which have been exported to the United States from Romania prior to January 1, 1975, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods for the twelve-month period beginning January 1, 1974, and extending through December 31, 1974, have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 31, 1970, between the Governments of the United States and the Socialist Republic of Romania which provide, in part, that within the aggregate limit, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the Federal Register on January 25, 1974 (39 F.R. 3430).

In carrying out the above directions, entry into the United States for consumption shall be contrued to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Socialist Republic of Romania and with respect to imports of cotton textiles and cotton textile products from Romania have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such action., fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, D.C. 20460.

On or before February 14, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 14, 1975.

Active Ingredients: O,O-Dimethyl S-[4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl] phosphorodithioate 2.35%; Zinc Oxysulphate 22.56%; Sulphur 40.60%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1191-GGO. Carolina Chemicals, Inc., PO Box 118, West Columbia SC 29169. PEACH SPRAY CONTAINING GUTHION AND WETTABLE SULPHUR 5/8-6. Active Ingredients: O,O-Dimethyl S-[4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl] phosphorodithioate 3.03%; Sulphur 52.42%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5719-AR. Chacon Chemical Corp., 5245 Chakemco St., South Gate CA 90280. CHACON NEMATODE CONTROL. Active Ingredients: 1,2-Dibromo-3-Chloropropane 19.10%; Other Halogenated C3 Compounds 1.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34224-A. Chemrite Corp., 12600 S. Daphne Ave., Hawthorne CA 90250. CHEMRITE CR-173 DEDRITE. Active Ingredients: Pyrethrins 0.050%; Piperonyl butoxide, technical 0.100%; N-octyl bicycloheptane dicarboximide 0.166%; O, O-dimethyl O-2,4,5-trichlorophenyl phosphorothioate 1.000%; Petroleum distillate 98.192%. Method of Support: Application proceeds under 2(c) of interim policy.

XUM

EPA File Symbol 34224-L. Chemrite Corp., 12600 S. Daphne Ave., Hawthorne CA 90250. CHEMRITE CR-174 VAPORITE. Active Ingredients: Pyrethrins 0.30%; Piperonyl butoxide, technical 0.60%; N-octyl bicycloheptene dicarboximide 1.00%; Petroleum distillate 98.10%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 192-45. Dixol Industries, 1460 W. 228th St., Torrance CA 90501. TENDER LEAF HOUSE PLANT SPRAY. Active Ingredients: Petroleum Hydrocarbons 0.65%; Nicotine, as alkaloid 0.07%; Triethanolamine 0.043%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11525-RA. Peterson/Puritan, Inc., Hegeler Lane, Danville IL 61832. P/P RESIDUAL HOUSE & GARDEN INSECTICIDE. Active Ingredients: (5-Benzyl-3-furyl)methyl 2,2-dimethyl-3-(2-methylpropenyl)cyclopropanecarboxylate 0.350%; Related compounds 0.048%; Aromatic petroleum hydrocarbons 0.464%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11525-EI. Peterson/Puritan, Inc. P/P WASP & HORNET SPRAY NO. 2. Active Ingredients: (5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl)cyclopropanecarboxylate 0.250%; Related compounds 0.034%; Aromatic petroleum hydrocarbons 0.331%; Petroleum distillate 26.375%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11525-ET. Peterson/Puritan, Inc. P/P OUTDOOR FOGGER WITH REPELLENT. Active Ingredients: (5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate 0.250%; Related compounds 0.034%; 2-Hydroxyethyl n-octyl sulfide 0.950%; Related Compounds 0.050%; Aromatic Petroleum Solvent 0.332%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3743-GUL. Southern Agricultural Chemicals, Inc., PO Drawer 527, Kingstree SC 29556. BIG 'D' GRANULES. Active Ingredients: 0,0-Diethyl-0-(p-(methylsulfinyl)phenyl) phosphorothioate 10.0%; 0,0-Diethyl S-(2-(ethylthio)ethyl) phosphorodithioate 5.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 35222-R. Southern Chemicals, Inc., 204 N. Elm Ave., PO 1480, Sanford FL 32771. SOUTHERN'S M-E 44 AN AGRICULTURAL INSECTICIDE EMSULSIFIABLE LIQUID. Active Ingredients: Parathion (0,0-Diethyl 0-p-Nitrophenyl Phosphorothioate) 39.1%; 0,0-Dimethyl 0-p-Nitrophenyl Phosphorothioate 39.1%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6720-EUR. Southern Mill Creek Products Co., Inc., PO Box 1096, Tampa FL 33601. SMCP HEPTACHLOR LAWN SPRAY INSECTICIDE. Active Ingredients: Heptachlor (Heptachlorotetrahydro-4,7-methanoindene) 23.3% Related Compounds 8.2%; Xylene Range Aromatic Solvent 62.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5978-I. Syncro-Mist Controls, Inc., PO Box 402, Lewiston NY 14092. B;V.T. KLOBBER. Active Ingredients: Pyrethrins 0.9%; Piperonyl butoxide, technical 9.0%; Petroleum distillate 9.9%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 148-RROO. Thompson-Hayward Chemical Co., PO Box 2383, Kansas City KS 66110. CASORO W-85. Active Ingredients: Dichlobenil (2,6-dichlorobenzonitrile) 85.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 2935-151. Wilbur-Ellis Co., PO Box 1286, Fresno CA 93715. RED-TOP CHLORDANE 8 SPRAY. Active Ingredients: Technical Chlordane 74%; Petroleum Hydrocarbons 16%. Method of Support: Application proceeds under 2(c) of interim policy.

REPUBLISHED ITEM

The following item represents a change in the list of Applications Received published in the FEDERAL REGISTER of November 11, 1974 (39 FR 39768).

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 731]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

DECEMBER 9, 1974.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave and Local Television Transmission Services (Part 21 of the Rules).

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING
DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20827-CD-TC-(2)-75, J & S Communication Company. Consent to Transfer of Control from J & S Communication Company, Transferor, to Withers Broadcasting Company, Transferee. Stations: KUC843, Cape Girardeau, Missouri, and KRS635, St. Louis, Missouri.

20828-CD-AL-(2)-75, L. J. Galentin, d/b/a Contact of New Mexico. Consent to Assignment of License from L. J. Galentin d/b/a Contact of New Mexico, Assignor, to Contact Communications, Inc., Assignee. Stations: KLB668, Cabollo Mountain, South of Truth or Consequences, New Mexico; KUC840, Comanche Peak, El Paso, Texas.

20829-CD-AL-(2)-75, L. J. Galentin, d/b/a Contact of Texas. Consent to Assignment of License from L. J. Galentin, d/b/a Contact of Texas, Assignor, to Contact Communications, Inc., Assignee. Stations: KKD284, KRS639, Comanche Peak, El Paso, Texas.

20830-CD-TC-75, Byrnes Message Bureau, Inc. Consent to Transfer of Control from Byrnes Message Bureau, Inc., Transferor, to Jeanne H. Byrnes, Transferee. Station: KEJ884, Poughkeepsie, New York.

20831-CD-P-75, Chawilla, Incorporated (KWH313). C.P. to relocate facilities operating on 152.12 MHz located 3.2 miles SW. of Palatka, Florida.

20832-CD-P-75, Radio Dispatch Co. (new). C.P. for a new one-way station to operate on 158.70 MHz to be located 2.2 miles NW. of Manahawkin, New Jersey.

20833-CD-P-75, Radio Telephone Service, Inc. (new). C.P. for a new one-way station to operate on 158.70 MHz to be located 0.5 mi. NE of Rays Branch, Kentucky.

20834-CD-P-75, Comex, Inc. (KCC797). C.P. to add antenna location #4 to operate on 152.12 MHz to be located at Lagrange & Grandview Avenue, Manchester, New Hampshire.

20835-CD-P-75, Peoples Telephone Company, Inc. (new). C.P. for new one-way station to operate on 158.10 MHz to be located near Alabama Highway #68, 2 miles NW. of Leesburg, Alabama.

20836-CD-P-75, Amelia Telephone Corporation (new). C.P. for new one way station to operate on 152.84 MHz. to be located at Intersection of Routes 661 & 630, 2.5 miles Northeast of Amelia, Virginia.

20837-CD-P-75, Telanswer Radiophone Service (KQA739). C.P. to replace transmitter operating on 454.10 MHz. located at 1310 State Street, Boise, Idaho.

20838-CD-P-75, North Shore Communications, Inc. (KSV956). C.P. to add location #3 operating on 152.24 MHz. to be located at Nobscott Hill, 5 miles North of Framingham, Massachusetts.

20839-CD-P-75, Walnut Hill Telephone Company (KLB682). C.P. to reinstate expired license operating on 152.72 MHz. located at Corner of Fort and 7th Street, Lewisville, Arkansas.

20840–CD–P–75, Redi-Call Corporation (new). C.P. for a new station to operate on 152.06 MHz. to be located at County Road 412, 2.5 mi. SW. of Millsboro, Delaware.

20841–CD–P–75, Redi-Call Corporation (new). C.P. for a new one-way station to operate on 58.70 MHz. to be located at County Road 412, 2.5 miles SW. of Millsboro, Delaware.

20842–CD–P–75, Digital Paging Systems of Toledo, Inc. (KUO559). C.P. to relocate facilities operating on 152.24 MHz. located at Hillcrest Hotel, Madison & Sixteenth Streets, Toledo, Ohio.

20843–CD–P–(6)–75, Chalfont Communications (KMD995). C.P. to change antenna system, replace transmitter, and change frequency to 75.50, 75.58, 75.66 MHz., Repeater at Loc. #1: 5 mi. NE. from Palm Springs, Edom Hill, California; Relocate facilities, change antenna system, replace transmitter, and change frequency to 72.28, 72.36, & 72.46 MHz., Control, at Loc. #2: 73–680 Highway 111, Palm Desert, California.

20844–CD–P–(4)–75, All City Telephone Answering Service, Inc. (KSC373). C.P. for additional facilities to operate on 43.22 & 43.58 at Loc. #1: 606 West Wisconsin Avenue, Milwaukee, Wisconsin; and same facilities listed above at Loc. #2: 20695 W. National Avenue, New Berlin, Wisconsin.

20845–CD–P–75, George E. Kitchen, d/b/a Total Communications (KLF562). C.P. to relocate facilities, change antenna system, and replace transmitter operating on 152.09 MHz. located at 5607 Capital Avenue SW., Battle Creek, Michigan.

20846–CD–P–75, Mobilfone Service, Inc. (KKA402). C.P. to relocate facilities, change antenna system, and replace transmitter operating on 454.25 MHz. at Loc. #4: 1.3 miles SSW. of Jct. U.S. Highway 271 and State Highway 9, South Fort Smith, Arkansas.

20847–CD–P–(2)–75, Samuel W. Waldenberg (new). C.P. for a new station to operate on 152.18 MHz. and repeater facilities to operate on 459.100 MHz. to be located at Blacktail Mtn., 12 mi. S. of Kalispell, Montana.

20848–CD–P–75, The Swaynee Telephone Company, Inc. (new). C.P. for a new station to operate on 454.625 MHz. to be located at 103 W. Mark Street, Swaynee, Indiana.

20849–CD–AL–75, Air Call of Kingston. Consent to Assignment of License from Air Call of Kingston, Assignor, to Mrs. Loretta J. Davis, Representative of Estate of Harry E. Coale d/b/a Air Call of Kingston, Assignee. Station: KEJ887, Kingston, New York.

20850–CD–P–75, Samuel W. Waldenberg (new). C.P. for new control facilities to operate on 454.100 MHz. to be located at 425 La Salle Road, Kalispell, Montana.

Major amendment

20606–CD–P–75 (new), Asotin Telephone Company, Asotin, Washington: Change base frequency to 158.10 MHz. All other particulars are to remain as reported on PN #726, dated November 11, 1974.

CORRECTIONS

Public Notice dated December 2, 1974, should show Report No. 730 instead of Report No. 729. All other particulars to remain the same.

20752–CD–P–(2)–75, South Central Bell Tel. Co. (KIG267). Correct PN #729 dated 11/25/74 to read: CP for additional facilities to operate on 152.72 & 152.78 MHz, and change antenna system located at 100 N. Franklin Street, Mobile, Alabama.

20753–CD–P–(2)–75, Hawaiian Telephone Co. (KUA216). Correct PN #729 dated 11/25/74 to read: CP to replace transmitter and change antenna system operating on 152.51, 152.63, 152.69, & 152.81 MHz at Loc. #1: 2.9 miles NE. of Honolulu, Mt. Tantalus, Hawaii, and change antenna system operating on 152.51, 152.63, 152.69, & 152.81 MHz at Loc. #3: Puu Papaa Ridge, 2 miles NW. of Kaulua, Puu Papaa, Hawaii.

20742–CD–MP–75, William R. Miears, d/b/a Southwestern Communications Service (KUC855). Entry on PN #728 dated 11/18/74 should have been an amendment to application 20276–CD–P–75 on PN #717 dated 9/3/74.

RURAL RADIO

61207–CR–AL–75, L. J. Galentin, d/b/a Contact of New Mexico. Consent to Assignment of License from L. J. Galentin d/b/a Contact of New Mexico, Assignor, to Contact Communications, Inc., Assignee. Station: KSW21, Temporary fixed.

61208–CR–AL–75, L. J. Galentin, d/b/a Contact of Texas. Consent to Assignment of License from L. J. Galentin d/b/a Contact of Texas, Assignor, to Contact Communications, Inc., Assignee. Station: KSW24, Temp-fixed.

POINT-TO-POINT MICROWAVE SERVICE:

1682–CF–P/ML–75, American Telephone and Telegraph Company (KSA43), 1.2 Miles of Mishawaka, Indiana. Lat. 41°38'00" N., Long. 86°11'52" W. C.P. to add 3830H MHz toward Jones, Michigan, on azimuth 45 degrees/57 minutes.

1683–CF–P/ML–75, Same (KQD78). 1.5 Miles North of Jones, Michigan. Lat. 41°55'18" N., Long. 85°47'52" W. C.P. to add 3850V MHz toward Kalamazoo, Michigan, on azimuth 60 degrees/42 minutes.

1684–CF–P/ML–75, Same (KQD79), 2.5 Miles NW. of Kalamazoo, Michigan. Lat. 42°-20'40" N., Long. 85°37'41" W. C.P. to add 3810H MHz toward Cutlerville (KQD81), Michigan, on azimuth 357 degrees/43 minutes.

1685–CF–P/ML–75, Michigan Bell Telephone Company (WAS429), Cutlerville, 3.8 Miles SE. of Byron Center, Michigan. Lat. 42°-47'48" N., Long. 85°39'14" W. C.P. for a new station on 6390.0V MHz toward Allendale (WGVC–TV), Michigan, on azimuth 314 degrees/11 minutes.

1686–CF–P/ML–75, Southwestern Bell Telephone Company (KYJ66), Houston, Texas. Lat. 29°44'55" N., Long. 95°41'56" W. C.P. to add 5960.2V MHz toward League City (Apollo RS), Texas, on azimuth 133 degrees/08 minutes.

1687–CF–P/ML–75, Same (WPG66), League City (Apollo RS), Texas. Lat. 29°33'46" N., Long. 95°06'20" W. C.P. (A) to add 6390.0V MHz toward Liverpool, Texas, on azimuth 187 degrees/26 minutes, and (b) to add 6390.0H MHz toward Houston, Texas, on azimuth 313 degrees/15 minutes.

1688–CF–P/ML–75, Same (WCZ52), 6.2 Miles ESE. of Liverpool, Texas. Lat. 29°15'36" N., Long. 95°11'02" W. C.P. (a) to add 5960.2H MHz toward League City (Apollo RS), Texas, on azimuth 7 degrees/24 minutes, and (b) to add 5960.2V MHz toward Freeport, Texas, on azimuth 206 degrees/40 minutes.

1689–CF–P/ML–75, Same (WPG67), 1021 West Broad Street, Freeport, Texas. Lat. 28°-57'08" N., Long. 95°21'34" W. C.P. (a) to add 6390.0H MHz toward Liverpool, Texas, on azimuth 26 degrees/35 minutes, and (b) to add 11035V MHz toward Freeport (Dow Chemical Company), Texas on azimuth 329 degrees/13 minutes.

1690–CF–P/ML–75, Same (WAS480), Dow Chemical Company, Freeport, Texas. Lat. 28°59'10" N., Long. 95°22'56" W. C.P. for a new on 11565.5H MHz toward Freeport (WPG67), Texas, on azimuth 149 degrees/12 minutes.

1373–CF–P–75, Yankee Microwave Microwave Corporation, Inc. (KYZ85), Mt. Washington, New Hampshire. Lat 44°16'13" N., Long. 71°18'13" W. C.P. (a) to change the polarity of 5960.0V MHz to 5960.0H MHz toward Moose Hill, Maine, and (b) to add 6078.6H MHz and 6212.0H MHz toward Moose Hill, Maine, on azimuth 75 degrees/21 minutes.

1374–CF–P–75, Yankee Microwave Corporation, Inc. (KYZ86), Moose Hill, Maine. Lat. 44°29'00" N., Long. 70°07'50" W. C.P. (a) to change polarity of 6019.3H MHz to 6019.-3V MHz toward Blinn Hill, Maine, and (b) to add 6108.3V MHz and 6167.6V MHz toward Blinn Hill, Maine, on azimuth 137 degrees/54 minutes.

1375–CF–P–75, Same (WQQ54), Blinn Hill, Maine. Lat. 44°07'23" N., Long. 69°40'58" W. C.P. to (a) to add 6271.4V MHz, via power split, toward Topsham (Mt. Ararat), Maine, on azimuth 227 degrees/42 minutes, and (b) to add 6212.0V MHz and 6330.7V MHz toward Topsham (Mt. Ararat), Maine, on azimuth 227 degrees/42 minutes. (NOTE: a Waiver of 21.701(i) is requested by Yankee Microwave).

1691–CF–P–75, Tower Communication Systems Corporation (KQA33), 1.25 Miles South of Portsmouth, Ohio. Lat. 38°42'59" N., Long. 82°59'54" W. C.P. to add 10895H MHz, via power split, toward Portsmouth, Ohio, on azimuth 36 degrees/10 minutes.

1692–CF–P–75, West Texas Microwave Company (KTQ60), 2.0 Miles East of Sweetwater, Texas. Lat. 32°29'08" N., Long. 100°-21'58" W. C.P. to add 11425H MHz toward Colorado City, Texas, on azimuth 260 degrees/3 minutes.

1693–CF–P–75, Eastern Microwave, Inc. (KEM59), Sentinel Heights, New York. Lat. 42°56'40" N., Long. 76°07'08" W. C.P. to add 6049.0V MHz, via power split, toward North Syracuse, New York, on azimuth 356 degrees/48 minutes.

1694–CF–P–75, Eastern Microwave, Inc. (KYZ74), 1.55 Miles WSW. of Highland Lakes, New Jersey. Lat. 41°10'01" N., Long. 74°30'12" W. C.P. to add 6241.7V MHz, via power split, toward new point of communication at Sussex, New Jersey, Lat. 41°15'40" N., Long. 74°40'41" W., on azimuth 305 degrees/34 minutes.

1695–CF–P–75, MidKansas, Inc. (KZA43), 0.6 Mile East of Lyons, Kansas. Lat. 38°20'48" N., Long. 98°10'23" W. C.P. to add 6212.2H MHz, via power split, toward Hutchinson, Kansas, on azimuth 150 degrees/17 minutes.

1722–CF–P–75, Southwestern Bell Telephone Company (KYJ47), 715 Louisiana Street, Little Rock, Arkansas. Lat. 34°44'30" N., Long. 92°16'20" W. C.P. to add 6256.5V MHz towards Belfast, Arkansas, on azimuth 204°13'.

1723–CF–P–75, Same (KYJ50), 720 Beech Street, Pine Bluff, Arkansas. Lat. 34°13'19" N., Long. 92°00'35" W. C.P. to add 5974.8V and 6152.8V MHz towards Kearney, Arkansas, on azimuth 324°28'.

1724–CF–P–75, Same (WOI35), Kearney, 2 miles SSE. of Redfield, Arkansas. Lat. 34°24'55" N., Long. 92°10'35" W. C.P. to add 6226.9H and 6404.8H MHz toward Pine Bluff, Arkansas, on azimuth 144°23'; 6226.9V and 6404.8V MHz towards Belfast, Arkansas, on azimuth 277°33'.

1725–CF–P–75, Same (WOE26), 2.5 miles NE. of Belfast, Arkansas. Lat. 34°26'26" N., Long. 92°26'03" W. C.P. to add 6004.5H MHz towards Little Rock, Arkansas, on azimuth 24°03'; 5794.8H and 6152.8H MHz towards Kearney, Arkansas, on azimuth 97°25'.

1730–CF–P–75, The Mountain States Telephone and Telegraph Company (KPR60), Cooper Mountain, 15 miles SE. of Thermopolis, Wyoming. Lat. 43°26'50" N., Long. 108°01'56" W. C.P. to add 6160.2V MHz towards Worland, Wyoming, on azimuth 05°27'; change polarity from V to H on 11405 and 11645 MHz towards Worland, Wyoming, on azimuth 185°30'.

1731–CF–P–75, Same (KPR62), 130 South 9th Street, Worland, Wyoming. Lat. 44°-00'58" N., Long. 107°57'25" W. C.P. to add 6367.7V MHz and change polarity from V to H on 10955 MHz towards Cooper Mountain, Wyoming, on azimuth 185°30'.

1732–CF–P–75, Same (KKR39), Little Creek Mountain, 7.8 Miles SE. of Hurricane, Utah, Lat. 37°05'47" N., Long. 113°11'11" W. C.P. to add 2162.0V MHz towards a new point of communication at Springdale, Utah, via passive reflector.

1733–CF–P–75, Same (new), Main Street, Springdale, Utah. Lat. 37°11'18" N., Long. 112°59'59" W. C.P. for a new station on 2112.0V MHz towards Little Creek, Utah, via passive reflector.

1734–CF–P–75, American Telephone and Telegraph Company (KIK64), 321 W. Chestnut Street, Louisville, Kentucky. Lat. 38°14'58" N., Long. 85°45'39" W. C.P. to add 4030V MHz towards Lanesville, Indiana, on azimuth 250°13'.

1735–CF–P–75, Same (KIM60), 0.7 mile NW. of Payneville, Kentucky. Lat. 38°00'06" N., Long. 86°19'19" W. C.P. to add 3810V MHz towards Madrid, Kentucky, on azimuth 179°26'; 3890V MHz towards Lanesville, Indiana, on azimuth 58°58'.

1736–CF–P–75, Same (KIM69), 1.8 miles NE. of Madrid, Kentucky. Lat. 37°37'37" N., Long. 86°19'20" W. C.P. to add 3950V MHz towards Payneville, Kentucky, on azimuth 359°26'; 3950V MHz towards Brownsville, Kentucky, on azimuth 176°34'.

1737–CF–P–75, American Telephone and Telegraph Company (KIM71), 3.5 miles NNW. of Brownsville, Kentucky. Lat. 37°-13'09" N., Long. 86°18'16" W. C.P. to add 3810V MHz towards Madrid, Kentucky, on azimuth 356°34'; 3810H MHz towards Game, Kentucky, on azimuth 145°23'.

1738–CF–P–75, Same (KIM72), 0.6 mile North of Game, Kentucky. Lat. 36°56'47" N., Long. 86°04'12" W. C.P. to add 3850H MHz towards Brownsville, Kentucky, on azimuth 325°31'; 3950 MHz towards Flippen, Kentucky, on azimuth 138°06'.

1739–CF–P–75, Same (KIM78), 4 miles East of Flippen, Kentucky. Lat. 36°43'06" N., Long. 85°46'36" W. C.P. to add 3810H MHz towards Game, Kentucky, on azimuth 318°-15'; 3810H MHz towards Gainesboro, Tennessee, on azimuth 159°52'.

1740–CF–P–75, Same (KIM86), 3.6 miles SSE. of Gainesboro, Tennessee. Lat. 36°18'42" N., Long. 85°37'55" W. C.P. to add 3850H MHz towards Flippen, Kentucky, on azimuth 339°32', 3950H MHz towards Smithville, Tennessee, on azimuth 360°12'.

1741–CF–P–75, Same (KIM90), 3.4 miles NE. of Smithville, Tennessee. Lat 35°59'04" N., Long. 85°46'48" W. C.P. to add 3810H MHz towards Gainesboro, Tennessee, on azimuth 20°06'; 3810V MHz towards Spencer, Tennessee, on azimuth 141°21'.

1746–CF–P–75, Same (KIN34), 1.6 miles South of Collbran, Alabama. Lat. 34°20'56" N., Long. 85°46'28" W. C.P. to add 3850V MHz towards Rosalie, Alabama, on azimuth 356°45'; 3850V MHz towards Haney, Georgia, on azimuth 131°56'.

1747–CF–P–75, Same (KIN39), 6 miles ENE. of Buchanan, Georgia, on Lat. 33°49'59" N., Long. 85°07'01" W. C.P. to add 3950V MHz towards Haney, Georgia, on azimuth 314°38; 3950H MHz towards Villa Rica, Georgia, on azimuth 116°31'.

1748–CF–P–75, Same (KIN35), 1 mile SSE. of Haney, Georgia., Lat. 34°04'31" N., Long. 85°24'33" W. C.P. to add 3810V MHz towards Collbran, Alabama, on azimuth 312°08'; 3810V MHz towards Buchanan, Georgia, on azimuth 134°46'.

1749–CF–P–75, American Telephone and Telegraph Company (KTT28), 1.8 miles East of Villa Rica, Georgia. Lat. 33°43'43" N., Long. 84°58'09" W. C.P. to add 3810H MHz towards Buchanan, Georgia, on azimuth 296°29'; 3810H MHz towards Mableton, Georgia, on azimuth 66°43'.

1750–CF–P–75, Same (KRS98), 2.2 miles NE. of Jersey, Georgia. Lat. 33°43'51" N., Long. 83°46'00" W. C.P. to add 3970H MHz and 4050H MHz towards Tucker, Georgia, on azimuth 286°08'; 3970H MHz and 4050H MHz towards Monticello, Georgia, on azimuth 179°54'.

1751–CF–P–75, Same (KSJ47), 3.8 miles SE. of Lanesville, Indiana. Lat. 38°12'01" N., Long. 85°36'01" W. C.P. to add 4090V MHz towards Payneville, Kentucky, on azimuth 237°12'; 3890V MHz towards Louisville, Kentucky, on azimuth 79°07'.

1752–CF–P–75, Same (WGI23), 8 miles North of Mableton, Georgia. Lat. 33°51'54" N., Long. 84°35'37" W. C.P. to add 3850H MHz towards Villa Rica, Georgia, on azimuth 240°33'; 3950H MHz towards Smyrna, Georgia, on azimuth 33°36'.

1753–CF–P–75, Same (WGI24), 3.3 miles E. of Smyrna, Georgia. Lat. 33°52'47" N., Long. 84°27'25" W. C.P. to add 3810H MHz towards Mableton, Georgia, on azimuth 262°-41'; 3970H and 4050H MHz towards Tucker, Georgia, on azimuth 102°05'.

1754–CF–P–75, Same (WGI25), 2 miles SE. of Tucker, Georgia. Lat. 33°49'54" N., Long. 84°11'23" W. C.P. to add 4010H and 4090H MHz towards Smyrna, Georgia, on azimuth 282°14'; change azimuth on 4010H and 4090H MHz towards Jersey, Georgia, to 105°49'.

1755–CF–P–75, Same (WGI26), 5 miles NW. of Monticello, Georgia, Lat. 33°20'16" N., Long. 83°45'59" W. C.P. to add 4010H and 4090H MHz towards Jersey, Georgia, on azimuth 359°53'.

1756–CF–P–75, General Telephone Company of the Northwest, Inc. (KPV29), Jct. U.S. 101, County Road 2, Gold Beach, Oregon. Lat. 42°25'24" N., Long. 124°24'42" W. C.P. to change power and replace transmitter on 6115.7H MHz towards Soldiers Camp Mountain, Oregon, via passive reflector.

1757–CF–P–75, Same (KPV30), Cross County Road From School, Agness, Oregon. Lat. 42°39'18" N., Long. 124°03'58" W. C.P. to replace transmitter and change power on 6412.2H MHz towards Soldiers Camp Mtn., Oregon, via passive reflector.

1758–CF–P–75, Northwestern Telephone Systems, Inc. (KPM60), 60 West Grant Street, Lebanon, Oregon. Lat. 44°32'18.1" N., Long. 122°54'26.5" W. C.P. to replace transmitter and change power on 6415V MHz towards Cedar Butte, Oregon, on azimuth 162°37'.

1760–CF–P–75, Same (KPM61), 10th and L Streets, Sweet Home, Oregon. Lat. 44°23'-49.1" N., Long. 122°43'52.9" W. C.P. to replace transmitter and change power on 6355V MHz towards Cedar Butte, via passive reflector.

1761–CF–P–75, Northwestern Telephone Systems, Inc. (KPM62), Cedar Butte, near Sodaville, Oregon. Lat. 44°26'27.6" N., Long. 122°51'42" W. C.P. to replace transmitter and change power on 6295V and 6235V MHz towards Lebanon, via passive reflector.

1762–CF–P–75, American Telephone and Telegraph Company (KIN43), 325 Gardenia Street, Palm Beach, Florida. Lat. 26°42'34" N., Long. 80°03'11" W. C.P. to add 4070V MHz towards Boynton Beach, Florida, on azimuth 159°00'.

1763–CF–P–75, Same (KJJ68), 3.5 miles NW. of Ojus, Florida. Lat. 25°56'19" N., Long. 80°11'39" W. C.P. to add 3790V MHz towards Margate, Florida, on azimuth 324°10'.

1764–CF–P–75, Same (KJJ69), 4 miles WSW. of Boynton Beach, Florida. Lat. 26°30'45" N., Long. 80°07'27" W. C.P. to add 3790V MHz towards West Palm Beach, Florida, on azimuth 17°38'; 4030V MHz towards Margate, Florida, on azimuth 194°17'.

1765–CF–P–75, Same (KJJ70), 0.5 mile NE. of Hammondville, Florida. Lat. 26°14'56" N., Long. 80°11'55" W. C.P. to add 3930V MHz towards Boynton Beach, Florida, on azimuth 14°15'; 4070V MHz towards Ojus, Florida, on azimuth 179°10'.

1766–CF–MP–75, Western Tele-Communications, Inc. (WOI61), San Francisco, California. Mod. of C.P. to relocate facilities to Lat. 37°46'26" N., Long. 122°24'58" W. for frequency 6063.8H MHz on azimuth 20°43' toward Mt. Vaca.

1680–CF–MP–75, Same (WOI75), Scappoose, Oregon. Mod. of C.P. to change frequency 6271.4H to 10703V MHz and add frequency 10675V MHz on azimuth 135°19' toward Portland TOC, Oreg.

1681–CF–MP–75, Same (WOI76), Portland TOC, Oregon. Mod. of C.P. to change frequency 11445V to 11365V and add 11605V MHz on azimuth 315°34' toward Scappoose.

Major amendments

Informative: Western Tele-Communications, Inc., hereby amends a portion of its authorized San Francisco to Seattle specialized common carrier message system. These changes include the relocation of the San Francisco, Bird Valley, Maxwell and Weed, California stations.

5069–C1–P–75, Western Tele-Communications, Inc. (new), Bird Valley. C.P. to relocate facilities to Lat. 39°49'41" N., Long. 121°59'13" W. for frequency 6123.1H MHz on azimuth 163°12' towards Mt. Vaca and frequency 6123.1H MHz on azimuth 343°24' towards Maxwell.

5070–C1–P–75, Same (new), Maxwell. C.P. to relocate facilities to Lat. 39°20'55" N., Long. 122°11'32" W. on frequency 6315.9V MHz on azimuth 192°12' toward Bird Valley and frequency 6315.9H MHz on azimuth 352°37' towards St. John Mtn.

5071-C1-MP-73, Same (WOI66), St. John Mtn., California. Mod. of C.P. to change azimuth towards Maxwell to 102°18' on frequency 6123.1H MHz.

5075-C1-MP-73, Same (WOI68), Weed, California. Mod. of C.P. to relocate facilities to Lat. 41°22'41" N., Long. 122°23'25" W. for frequency 6093.5V MHz on azimuth 138°04' towards Hatchet Mtn., and frequency 6123.1V MHz on azimuth 01°01' towards Little Chinquapin Mtn.

[Docket Nos. 20232, 20233; File Nos. 33-A-L-94, 108-A-RL-94]

CLOVERLEAF AVIATION, INC., AND GUNNELL AVIATION, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

1. Gunnell Aviation, Inc. (hereinafter called Gunnell) has filed an application for renewal of its license for aeronautical advisory station WAJ 7[1] at the Santa Monica Airport, Santa Monica, California, and Cloverleaf Aviation, Inc. (hereinafter called Cloverleaf) has filed an application for new aeronautical advisory facilities at the same airport. Section 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized to operate at a landing area and, therefore, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate the applications for a comparative hearing in order to determine which application should be granted. Except for the issues specified herein, each applicant is otherwise qualified.

2. By letter, dated August 30, 1974, Cloverleaf has, in effect, alleged that Gunnell has not provided aeronautical advisory service in conformity with the scope of service for such stations as set forth in Section 87.257.

3. In view of the foregoing, *it is ordered*, That, pursuant to the provisions of § 309(e) of the Communications Act of 1934, as amended, and § 0.331(b)(21) of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators;

(b) To determine the manner in which Gunnel has operated aeronautical advisory station WAJ 7 and whether its operation was consistent with the Commission's rules, § 87.257; and

(c) To determine in light of the evidence adduced on the foregoing issues which, if either, of the applications should be granted.

4. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence on issue (b) is on Gunnell and on all other issues, the burdens are on each applicant with respect to its application except issue (c) which is conclusory.

5. *It is further ordered*, That to avail themselves of an opportunity to be heard, Gunnell and Cloverleaf, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted: November 22, 1974.

Released: December 10, 1974.

[SEAL] CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.74-29210 Filed 12-13-74;8:45 am]

[Docket Nos. 20262, 20263; File Nos. 6970-C2-P-(2)-70, 1915-C2-P-70; FCC 74-1291]

HOUSTON RADIOPHONE SERVICE AND SOUTHWESTERN BELL TELEPHONE CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

1. The Commission has before it for consideration the above-captioned applications to establish new air-ground radiotelephone service facilities to operate on 454.675, 454.825 and 454.950 MHz in the Domestic Public Land Mobile Radio Service (DPLMRS) near Houston, Texas.

2. It appears from the application of Roy M. Teel (d/b/a Houston Radiophone Service) (hereinafter "Radiophone") that he is an individual proprietor whose address is P.O. Box 4910, Tulsa, Oklahoma, 74104. Southwestern Bell, on the other hand, is a corporation with regional offices, located at 3100 Main Street, Room 1110, Houston, Texas, 77002. Southwestern is a Bell System operating company whose stock is owned entirely by the American Telephone and Telegraph Company.

3. The applications are mutually exclusive, because the grant of both to operate on the same radio channel and in the same locality would result in mutually harmful electrical interference. Since both applicants appear to be legally, financially, and otherwise qualified to construct and operate the proposed facilities, the applications must be designated for comparative hearing to determine which applicant is better qualified to operate the proposed facilities in the public interest. Ashbacker Radio Corp. v. FCC, 326 U.S. 327 (1945).

4. In view of the foregoing, *it is ordered*, That pursuant to § 309(d) and (e) of the Communications Act of 1934, as amended (47 U.S.C. 309(d) and (e)) that the captioned applications of Roy M. Teel, d/b/a Houston Radiophone Service, and Southwestern Bell Telephone Company are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine on a comparative basis the nature and extent of services proposed by each applicant.

2. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the above-captioned applicants would better serve the public interest, convenience and necessity.

5. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place, and before an Administrative Law Judge, to be specified in a subsequent order.

6. *It is further ordered*, That applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Commission's rules within twenty (20) days of the release date hereof, a written notice stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

Adopted: November 27, 1974.

Released: December 6, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FCC 74-1335; Docket No. 20281]

INTERGOVERNMENTAL MARITIME CONSULTATIVE ORGANIZATION

Preparation for Meeting of Governments on Establishment of International Maritime Satellite System; Notice of Inquiry

1. An intergovernmental conference will be held in London, England from April 23 to May 9, 1975, to decide on the principle of establishing an International Maritime Satellite System. The Intergovernmental Maritime Consultative Organization (IMCO) is the convenor of the conference of governments which will consider, *inter alia*, the Report of a Panel of Experts on Maritime Satellites[1] in arriving at a determination of whether to establish an International Maritime Satellite System and,

[1] Gunnell's radio station license, WAJ 7, expired April 16, 1974, and application for renewal was not received by the Commission until September 10, 1974. Accordingly, a timely renewal was not filed, and the application for renewal is essentially a new application seeking reinstatement of its previously held authorization.

[1] Many members of the industry who have participated in the work of the Panel of Experts have copies of this extensive Report. Copies of the Report are available for inspection at the Commission's Office of Public Information and a limited number of copies are available upon request for those who expect to file comments in this proceeding.

if so, the arrangements to be made for its organization and operation.

2. The Panel of Experts, comprised of representatives of the maritime nations, has met six times over the past 2 years and has considered the operational, technical, economic and organizational factors attendant to establishment of an international maritime satellite system. At the final meeting of the Panel of Experts, held in London during September, 1974, the United States reserved endorsement of the Panel's final Report on the basis that sufficient analysis of all possible alternative institutional arrangements, as well as of the closely related economic and technical factors has not been made.[1]

3. It is anticipated that the United States will participate in the forthcoming conference and pursuant to its statutory duties and responsibilities the Commission intends to submit recommendations to the Department of State concerning the position the United States should take at the conference. At the present time, no determination has been made to establish an international maritime satellite system nor, of course, has any decision been made as to whether the U.S. will participate in any system that is established. However, it is anticipated that a private U.S. communications entity authorized by the Commission will be the U.S. participant in any such system that the U.S. may join, and further, the Commission has certain responsibilities for assuring a regulatory framework for the provision of adequate maritime communications. Accordingly, the Commission wishes to have available for timely consideration the views of carriers, users, and others interested in maritime satellite communications on the matters discussed in the paragraphs below. It is anticipated that there will be a Further Notice of Inquiry at an appropriate time to solicit additional comments on other aspects of the international maritime satellite communications program.

4. The Panel's Report looks toward the establishment of a new international organization to be responsible for the provision of maritime satellite communications. What specific, practical alternatives to a new international organization might be considered? Even if a new international organization is formed, are there interim measures that might be taken to speed the introduction of maritime satellite communication service (e.g., what role might the MARISAT system play?)[2]

5. If it is determined that a new international organization is to be established, a determination will, of course, have to be made as to whether the United States will join. That determination will in turn depend on the precise organization that is proposed to be established, its structure, powers, membership requirements, voting procedures, financial arrangements, operating principles, procurement practices and a number of other provisions. In this regard, your attention is called to Appendix I to Section VII of the Report of the Panel of Experts, which is a "Draft Convention" on the International Organization for a Maritime Satellite System (INMARSAT)." Comments are requested on this draft Convention which will be considered at the Conference, with particular attention called to those sections for which alternative texts are set forth.

6. As indicated above, if the U.S. does join any new organization, it is anticipated that a U.S. private communication entity authorized by the Commission will be the U.S. participant. It is our expectation that the participant in the organization will be a single U.S. entity, regardless of the number of communications entities that may be authorized by the Commission to provide maritime communication service to the public using the satellite system. Should the participating entity be one of the existing carriers now authorized to provide maritime service? A new and separate entity (corporation) owned by such carriers? How should ownership in a consortium or new corporation be apportioned? Should the participating entity operate solely or partially as a "carriers' carrier"?

7. The Commission also wishes to obtain as concrete an indication as possible concerning the willingness of existing maritime carriers to invest in an international system. Recognizing that there are many uncertainties and contingencies, what are the factors that would determine whether and to what degree you would be willing to invest?

8. The questions raised in paragraphs 4–7 are not intended to limit the scope of comments submitted by interested parties. Comments may be submitted on any part of the Report or on any other aspect of the entire matter which interested parties believe will be helpful to the Commission in formulating its recommendations concerning the forthcoming Conference.

9. In view of the necessity for formulating a U.S. position well in advance of the forthcoming Conference, it is necessary that comments in response to this Notice be filed as soon as possible, but in no event later than January 6, 1975. Comments should be filed pursuant to Section 1.419(b) of the Commission's Rules and Regulations which requires, among other things, an original and 14 copies of all filings. All relevant and timely comments will be considered by the Commission. The Commission may also take into account other pertinent information before it in addition to specific comments elicited by the Notice in this proceeding.

Adopted: December 4, 1974.

Released: December 5, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-26905 Filed 12-13-74;8:45 am]

---

[1] Final Report of the Panel of Experts to the Maritime Safety Committee, p. 2, paragraph 7.

[2] MARISAT is the maritime mobile satellite communication system under development by COMSAT General Corp., ITT World Communications Inc., RCA Global Communications, Inc. and Western Union International, Inc. Atlantic and Pacific Ocean service is scheduled to begin in mid-1975. Approximately 80 percent of the satellite capacity will initially be used by the U.S. Navy, with the remainder available for commercial maritime service.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Notice of Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

To comply with the advance meeting notice requirements of Pub. L. 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meeting. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend the listed meeting should report to the room number given in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Special Committee No. 68
"Marine Radiotelephone Operator Education"
Notice of 3rd Meeting
Friday, January 10, 1975—9:30 a.m.
Sutherland Room (Room No. 437)
Coliseum, Second Mezzanine
Columbus Circle
New York City

AGENDA

1. Call to order; Chairman's report.
2. Adoption of Agenda.
3. Acceptance of Summary Records.
4. Reports on Work Assignments.
5. Approval of submitted papers.
6. Discussion of problem areas.
7. Solicitation of Work Assignments.
8. Other business.
9. Establishment of next meeting date.

A. Newell Garden, Chairman, SC-68
Raytheon Company
141 Spring Street
Lexington, Massachusetts 02173
Phone: (617) 862-6600 (Ext. 414)

Since its establishment in 1947, the RTCM has acted as a coordinator for maritime telecommunications. Problems are studied by RTCM Special Committees, and the final reports are approved by the RTCM Executive Committee.

Agendas, working papers, and other appropriate documentation for this committee meeting will be available at the meeting. Those desiring more specific information may contact either the Committee Chairman or the RTCM Secretariat.

All RTCM meetings are open to the public. For this particular meeting, however, entrance to the meeting building (New York Coliseum) is limited to those with satisfactory identification. For attendees of this meeting, the SC-68 agenda printed on green paper as distributed from the RTCM Secretariat will be accepted as identification. To

avoid delay in entering the Coliseum, please be certain to bring your agenda. If you do not regularly receive the standard green-paper agenda, please make written request to the RTCM Secretariat, allowing adequate transit time through the U.S. Postal Service. Requests for agendas should be addressed to:

RTCM Secretariat

[FCC 74-1393]

SURVEY OF POLITICAL BROADCASTING AND CABLECASTING

Discontinuance

DECEMBER 6, 1974.

The Commission announced that it is discontinuing the biennial Survey of Political Broadcasting/Cablecasting. Effective immediately, broadcast licensees and cable television systems will no longer be required to submit political broadcasting/cablecasting reports to the Federal Communications Commission on Form 322. The Commission has taken this action because the Federal Election Campaign Act of 1971 and the Federal Election Campaign Act Amendment of 1974 assign the task of collecting information on campaign spending for Federal office to other branches of the Federal Government.

The Federal Election Commission which will begin operation on January 1, 1975, may seek similar information about political broadcasting or may request the aid of the FCC in gathering such information. Broadcasters that had some political broadcasting in 1974 and cable television system that originated some political broadcasting in 1974 are asked to retain the relevant records until September 30, 1975.

Action by the Commission December 3, 1974. Commissioners Wiley (Chairman), Lee, Reid, Washburn and Robinson.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-6810]

BOSTON EDISON CO.

Extension of Procedural Dates

DECEMBER 6, 1974.

On December 4, 1974, Boston Edison Co. filed a motion to extend the procedural dates fixed by order issued June 21, 1974, as most recently modified by notice issued November 18, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Rebuttal, January 7, 1975.

Hearing, January 14, 1975 (10 a.m. e.s.t.).

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-28116 Filed 12-13-74;8:45 am]

[Docket No. E-9049]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Order Accepting for Filing and Suspending in Part Proposed Rate Increase Denying Waiver of Notice Requirements and Establishing Procedures

DECEMBER 5, 1974.

On September 27, 1974, as completed on November 5, 1974, Central Vermont Public Service Corp. (Central Vermont) tendered for filing its proposed Rate R-3, consisting of a partial requirements Rate R-3P and a full requirements Rate R-3F. Central Vermont has asked for a waiver of the Commission's notice requirements and an effective date of October 31, 1974.

The affected partial requirements wholesale customers are four municipalities (Hyde Park, Johnson, Lyndonville, and Ludlow, Vermont), one cooperative (Vermont Electric Cooperative, Inc.), and three investor-owned utility customers (Allied Power and Light Co., Rochester Electric Light and Power Company, Inc., and Vermont Marble Co.). The sole full requirements customer is Central Vermont's wholly owned New Hampshire subsidiary, Connecticut Valley Electric Company, Inc.

Central Vermont stated that the proposed Rate R-3 would produce an increase in wholesale revenues over the currently effective Rate R-2 of $1,946,618 on the 1974 test year basis, an increase of approximately 66 percent. Central Vermont further stated that the proposed Rate R-3 filing involved three significant rate design changes: (1) The proposed rate is designed to track as closely as possible the customers, demand, and energy component of the cost of service; (2) the demand ratchet in the partial requirements rate is increased from 50 percent to 90 percent; and (3) a fuel clause is introduced.

Notice of the filing was issued on October 9, 1974, with protests or petitions to intervene due on or before October 18, 1974. By virtue of a deficiency letter issued by the Secretary in this docket, additional information was filed by Central Vermont on October 30, 1974 (noticed November 6, 1974) and on November 5, 1974 (noticed November 18, 1974). Accordingly, the date for filing protests and/or petitions to intervene has been extended to November 26, 1974.

On October 16, 1974, the Vermont Public Service Board (VPSB) petitioned for intervention and requested a five month suspension on the basis that the proposed rates may grant undue preference or advantage to some customers and subject others to undue prejudice or disadvantage. VPSB indicated that under Vermont law the purchased power cost cannot be flowed through by wholesale customers without compliance with rate making statutes that may require prolonged investigations, thus placing a significant burden upon those customers.

Senators George D. Aiken (on October 21, 1974) and Robert T. Stafford (on October 22, 1974) each protested that the proposed rate increase would place an undue economic hardship on Vermont customers, and requested a five month suspension.

A timely joint petition to intervene was also filed by the four municipals, Allied Power & Light Co., Rochester Electric Light & Power Co., and the Vermont Marble Co., on October 18, 1974. The petitioners requested a five month suspension, citing the large amount of the proposed increase for the twelve months ending October, 1974, which ranges from 216 percent for Lyndonville, to 24 percent for the Vermont Marble Co. Petitioners further stated that the proposed tariff provides for a disproportionate increase to the wholesale customers, an excessive return on equity (14.5 percent), and an improper ratchet provision (90 percent).

The Vermont Electric Cooperative (Coop) filed a timely petition to intervene on October 18, 1974, requesting a five month suspension. Coop noted that an increase in Central Vermont's rates effective July 1, 1973, raised its rate by 65.2 percent and that the instant filing would add on another 144 percent, resulting in an increase of over 200 percent within 16 months. Coop also pointed out that, as a partial requirements customer, it only demands intermediate or peaking power from Central Vermont. The demand charge for this capacity, Coop stated, is improper.

Central Vermont, by answer filed October 23, 1974, requested a suspension of no more than one day, and alleged that the aforementioned pleadings were of no substance, citing present rates that yield an overall negative return of 1.9 percent. In rebuttal to VPSB's argument, Central Vermont stated that it (VPSB) has the ability to authorize an immediate pass through of rate increases to wholesale customers. Central Vermont further stated that, as to Coop, the increase would affect only 32 percent of the kw and 22 percent of the kwh delivered to Coop. In reference to the questions of the design of the proposed rate, Central Vermont stated that the partial requirements rate is available to cover all types of partial requirements service and is offered as a supplement to a wholesale customers' purchase of power from any other source, regardless of the status of the purchaser—base load, peaking or cycling.

Accompanying Central Vermont's supplemental data filings of October 30, 1974 and November 5, 1974 were petitions for waiver of the Commission's notice requirements and requests that the originaly proposed effective date of October 1974 be utilized. In support of this request, Central Vermont alleged that its September 27, 1974, filing was in substantial compliance with the Commission's regulations, and that none of its customers would be adversely affected thereby. Protests to this request were filed by Coop and VPSB on November 19, 1974, both stating that good cause had not been shown for such a waiver.

Our review of the instant filing and the issues raised therein shows that the full requirements Rate R-3F is just and reasonable and will therefore be accepted. The partial requirements Rate R-3P, however, has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed R-3P rate increase for thirty days and establish hearing procedures to determine the justness and reasonableness of Central Vermont's proposed rates. Furthermore, we find that good cause does not in fact exist to warrant a waiver of section 205(d) of the Commission's regulations, and we will reject Central Vermont's petition for such waiver.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed rates and charges

XUM
V 39 D EC 242 1974 XUM

contained in Central Vermont's revised tariff sheets and that said tariff sheets be suspended as hereinafter ordered.

(2) Good cause exists to suspend Central Vermont's proposed partial requirements Rate R–3P change for thirty days to become effective on January 6, 1975.

(3) Good cause exists to accept Central Vermont's proposed full requirements Rate R–3F.

(4) The participation in this proceeding of the above-named intervenors may be in the public interest.

(5) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(6) Good cause does not exist to justify a waiver of the thirty day notice requirements.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held on April 15, 1975, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of the revised tariff sheets proposed herein.

(B) Pending hearing and a final decision thereon, Central Vermont's proposed tariff sheet designated as partial requirements Rate R–3P is hereby suspended for thirty days and the use thereof deferred until January 6, 1975.

(C) On or before March 4, 1975, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all the intervenors shall be served on or before March 18, 1975. Any rebuttal evidence by the Company shall be served on or before April 1, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Deelgation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Central Vermont's full requirements Rate R–3F, tendered as part of its filing in this docket, is hereby accepted for filing and permitted to become effective December 6, 1974.

(F) Central Vermont's petition for waiver of the thirty day notice requirements of section 205(d) of the Commission's regulations is hereby denied.

(G) Nothing contained herein should be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences of offers of settlement pursuant to § 1.8 of the Commission's rules of practice and procedure.

(H) The above-named petitioners to intervene are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. RP72–122; PGA 75–1–A; PGA 75–2]

COLORADO INTERSTATE GAS CO.

Order Granting Interventions

DECEMBER 6, 1974.

On October 10, 1974 Colorado Interstate Gas Co. (CIG) tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1 pursuant to ordering paragraph (D) of the Commission's Order, issued on September 26, 1974, in the docket designated as RP72–122, PGA 75–1–A. On October 23, 1974 CIG tendered for filing further changes in its FPC Gas Tariff, Second Revised Volume No. 1, designated as RP72–122, PGA 72–2.

CIG's filing of October 10, 1974 was noticed on October 24, 1974, with all protests or petitions to intervene due on or before November 11, 1974. The filing of October 23, 1974 was noticed on November 5, 1974, with all protests or petitions to intervene due on or before November 13, 1974.

Timely petitions to intervene in both dockets were filed by the Public Utilities Commission of the State of Colorado and the City and County of Denver, on November 11, 1974. Having reviewed the above petitions to intervene, we believe that the petitioners have sufficient interest in the proceedings to warrant intervention.

The Commission finds:

It is desirable and in the public interest to allow the above-named petitioners to intervene.

The Commission orders:

(A) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. E–9132]

CONNECTICUT LIGHT AND POWER CO.

Transmission Agreement

DECEMBER 5, 1974.

Take notice that on November 27, 1974 The Connecticut Light and Power Co. (CL&P) tendered for filing a proposed initial rate schedule pertaining to a Transmission Agreement between The Connecticut Light and Power Co. and The United Illuminating Co. (UI) dated as of November 1, 1973.

CL&P states that the Transmission Agreement provides for the joint use of specified CL&P transmission facilities. CL&P is providing for the use of UI certain transmission facilities for transmitting energy on one of CL&P's 115 kV lines between Trumbull Junction and the Norwalk Substation in Norwalk, Connecticut to two tap points on such line, namely, the Hawthorne tap and the Old Town tap. CL&P has previously provided similar services to UI's Old Town tap under F.P.C. Rate Schedule No. 18 (the Old Town Substation Transmission Agreement between CL&P and UI dated as of January 1, 1961, as amended). Although the Transmission Agreement filed herewith supersedes F.P.C. Rate Schedule No. 18, it is filed as an initial rate schedule under § 35.12 of the Commission's regulations because of the additional new services being provided by CL&P to UI's Hawthorne tap.

CL&P states that although service commenced November 14, 1973, the parties did not reach final agreement on the details of the rate schedule filed until recently. This delay in development of the detailed language of the rate schedule prevented the filing of such rate schedule until this date. CL&P therefore requests that, in order to permit CL&P to receive payment in accordance with the Agreement between the parties for service rendered after November 14, 1973, the Commission, pursuant to § 35.11 of its regulations, waive the customary notice period and permit the rate filed to take effect as of November 14, 1973.

CL&P states that the charges provided for in the rate schedule were arrived at through negotiations.

CL&P states that a copy of this rate schedule has been mailed or delivered to UI, New Haven, Connecticut.

CL&P further states that the filing is in accordance with Part 35 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the

Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29134 Filed 12-13-74;8:45 am]

[Docket No. E-9070]

CONSUMERS POWER CO.

Filing of Amendment to Interconnection Agreement

DECEMBER 6, 1974.

Take notice that on October 18, 1974, Consumers Power Co. (Applicant) tendered for filing with the Federal Power Commission an amendment (denoted Supplemental Agreement No. 1) to an existing Interconnection Agreement between Applicant and Northern Michigan Electric Cooperative, Inc., Wolverine Electric Cooperative, Inc., the City of Grand Haven, Michigan, and the City of Traverse City, Michigan. The Interconnection Agreement is denoted Consumers Power Company Rate Schedule FPC No. 34, and became effective on November 1, 1973.

Supplemental Agreement No. 1 provides for the establishment of a temporary second interconnection point between the electric systems of Applicant and the other parties, and is dated November 27, 1973. Construction of the facilities needed to effect the interconnection was completed on March 8, 1974.

Supplemental Agreement No. 1 does not affect the rates charged for electric power and energy interchanged under the terms of the Interconnection Agreement. It does provide, however, for a capital carrying charge to be paid to Consumers Power Co. by Wolverine Electric Cooperative, Inc., to allow recovery of the capital cost of certain metering equipment provided by Consumers Power Co.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. The application is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. CP70-138]

EL PASO NATURAL GAS CO. AND NORTHWEST PIPELINE CORP.

Order Granting Withdrawal of Application and Terminating Proceedings

DECEMBER 5, 1974.

On November 13, 1974, Northwest Pipeline Corp. (Northwest), in Docket No. CP70-138, filed a notice of withdrawal of the petition filed in this proceeding on March 27, 1973, as supplemented on August 16, 1973, and requested further that the proceeding be terminated.

On March 27, 1973, El Paso Natural Gas Co. (El Paso), in Docket No. CP70-138, filed a petition to amend our order of May 12, 1970, in the same docket (43 FPC 723). By the aforementioned order, as amended by order issued on February 4, 1973, we had authorized El Paso under section 3 of the Natural Gas Act to import increased quantities of natural gas from Canada purchased from Westcoast Transmission Co., Limited (Westcoast), El Paso and Westcoast amended the purchase gas contract dated October 10, 1969, herein referred to as the Fourth Service Agreement, by the Third Amending Agreement (TAA) dated March 1, 1973, and Letter Agreements dated August 14, 1973, and August 28, 1973, to become effective upon requisite regulatory approval.

By orders issued in Northwest Pipeline Corporation et al., Docket Nos. CP73-331, et al.,[1] we issued to Northwest the requisite certificate authority to acquire and operate the Northwest Division System properties required to be divested by El Paso. Northwest also was issued the related import authority and Presidential Permit necessary to continue importation of natural gas which became effective February 1, 1974. On January 7, 1974, Northwest filed a motion requesting that it be substituted as a party applicant which was granted on March 22, 1974, in El Paso Natural Gas Company, Docket Nos. G-8234, et al.

On November 6, 1973, Northwest served notice on Westcoast, pursuant to Article V of the Third Amending Agreement to the Fourth Service Agreement and pursuant to Article V(b) of the Appendix A to that Third Amending Agreement, of its intent to cancel the Third Amending Agreement and Appendix A thereto, effective November 16, 1974, inasmuch as the necessary regulatory authorizations had not been received by Northwest, on or before September 1, 1973. Pursuant to § 1.11(d) of the Commission's rules of practice and procedure, the Commission hereby notices the withdrawal of the application and grants the request to terminate any further proceedings in this matter.

The Commission orders:

The application dated March 27, 1973, as supplemented on August 16, 1973, has been withdrawn and the request to terminate the proceeding in the aforementioned docket is granted.

By the Commission.

GEORGE V. PATTERSON

Supplemental Application

DECEMBER 5, 1974.

Take notice that on November 19, 1974, George V. Patterson (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Vice President & Director, Ohio Electric Company, Public Utility.

Ohio Electric Co., whose principal office is located at 301 Cleveland Avenue, SW., Canton, Ohio 44702, owns and operates the General James M. Gavin Plant at Gallipolis, Ohio which, when completed, will have two 1300 megawatt generating units. All of Ohio Electric Co.'s available electrical energy is sold to Ohio Power Co., of which it is a wholly owned subsidiary.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. E-9135]

MISSISSIPPI POWER CO.

Tariff Change

DECEMBER 5, 1974.

Take notice that Mississippi Power Co. on November 29, 1974, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by $3,380,418 based on the 12-month period ending December 31, 1975. Other than increasing the rates and charges, the Fuel Cost Adjustment clause is revised and Environamental Protection Cost Adjustment and Income Tax Adjustment clauses are added. The Co. proposes an effective date of January 1, 1975.

The Co. estimates its rate of return on its properties devoted to serving the Cooperative Electric Power Associations to be 4.96 percent from revenues which it would receive under its existing tariff during the year ending December 31, 1975. The Co. states that such return is less than the Co.'s embedded cost of debt, and is inadequate to attract capital required by the Co. to pay for necessary expansions of its electric plant.

The Company states that posting of the filing has been accomplished with the public utility's jurisdictional customers and Mississippi Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29129 Filed 12-13-74;8:45 am]

[Docket No. E-9140]

NEW ENGLAND POWER CO.

Tariff Change

DECEMBER 5, 1974.

Take notice that New England Power Co. (NEPCO), on November 29, 1974, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume Number 1, and requests that these changes be made effective on January 1, 1975.

NEPCO asserts that its new Rate R-9, which increases the Demand Charge from •$3.18/KW/Mo. to $7.69/KW/Mo., decreases the Energy Charge from 9.8 mills per kilowatt-hour to 2.1 mills per kilowatt-hour and decreases the credit for High Tension Delivery from 30¢/KW/Mo. to 15¢/KW/Mo., will increase revenues from its primary service for resale customers by $25,297,000 based on the 12 month test period ended December 31, 1975. In addition, the General Terms and Conditions (Schedule I) and Terms and Conditions governing specified types of service (Schedule III) also have been amended to increase various notice provisions from two to seven years, increase the interest accruing on unpaid bills from 7 percent per annum to 1½ percent per month, and decrease from sixty to thirty days the time allowed for payment of bills.

NEPCO states that since December, 1973 it has been unable to issue long term debt or preferred stock due to inadequate earnings. NEPCO further states that immediate implementation of the R-9 rate is vital if it is to resume normal financing needed to meet increased operating expenses and be in a position to continue to fulfill its public utility responsibilites.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. The above filing is on file with the Commission and available for public inspection.

[Docket No. E-8888]

OHIO ELECTRIC CO.

Extension of Time

DECEMBER 6, 1974.

On November 25, 1974, Ohio Electric Co. filed a motion to extend the date for filing direct testimony fixed by order issued September 16, 1974, as modified by notice issued November 1, 1974, in the above-designated matter. The motion states that there is no objection to the change.

Upon consideration, notice is hereby given that the date for filing direct testimony in the above matter was extended to and including December 13, 1974.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29117 Filed 12-13-74;8:45 am]

[Docket Nos. CI75-343, CI75-344, CI75-345]

O. B. MOBLEY

Applications for Certificates of Public Convenience

DECEMBER 6, 1974.

Take notice that on November 25, 1974, O. B. Mobley (Applicant), P.O. Box 1091, Shreveport, Louisiana 71163, filed in Docket Nos. CI75-343, CI75-344 and CI75-345 applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the sales for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the Elm Grove Field Bossier Parish, Louisiana, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant states that he commenced the sales of natural gas from each of three wells, subjects of the applications in above captioned dockets, on November 13, 1974, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue each of said sales for a period of one year from the end of the emergency periods within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 270). Applicant proposes to sell to United approximately 135,000 Mcf of gas per month from three wells all located in the Elm Grove Field [1] at 80

[1] Applicant proposes in Docket No. CI75-343 to sell to United approximately 60,000 Mcf of gas per month from the Elm Grove Plantation No. 1-A Well, in Docket No. CI75-344 to sell to United approximately 15,000 Mcf of gas per month from the H. L. Tompkins No. 1 Well, and in Docket No. CI75-345 to sell to United approximately 60,000 Mcf of gas per month from the Grigsby No. 1 Well.

cents per Mcf at 15.025 psia plus 100 percent of all taxes attributable to such gas.

Applicant indicates that he is currently engaged in an extensive and expensive development program in the Elm Grove Field which he intends to complete prior to making any commitment of his gas reserves other than on an emergency basis or for sale under limited-term certificates with pregranted abandonment.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petitions to intervene are filed within the time required herein, if the Commission on its own review of the matters finds that grants of the certificates are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29134 Filed 12-13-74;8:45 am]

[Docket No. E-9095]

PACIFIC POWER & LIGHT CO.

Application

DECEMBER 5, 1974.

Take notice that on November 25, 1974, Pacific Power & Light Co. (Applicant), a Maine corporation, qualified to transact business in the States of Oregon, Wyoming, Washington, California, Montana and Idaho, with its principal business office at Portland, Oregon, filed an application with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, seeking an order authorizing the issuance of not exceeding 3,500,000 shares of Common Stock of the par value of $3.25 per share (Additional Common Stock), and exempting the sale and issuance thereof from the competitive bidding requirements of § 34.1a of the Commission's regulations.

If such exemption is granted, Applicant proposes to sell the Additional Common Stock to one or more underwriters upon terms and conditions, including the underwriting compensation, to be arrived at subject to Commission approval. If the application for exemption is denied, Applicant proposes to sell the Additional Common Stock at competitive bidding in accordance with the applicable requirements of § 34.1a of the Commission's regulations.

Proceeds (estimated at $56,000,000 from the issuance and sale of shares of the Additional Common Stock will be used to repay short-term notes prior to or as they mature.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

[Docket No. E-9141]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Filing of Revised Fuel Clause

DECEMBER 5, 1974.

Take notice that on November 29, 1974, the Public Service Company of Oklahoma (PSCO) tendered for filing a revised fuel adjustment clause pursuant to § 35.14 of the Commission's regulations as amended by Order No. 517, issued November 13, 1974. The revised fuel clause would replace the current fuel clause provision contained in Rate Schedule FPC No. 162. PSCO requests that the requirement of the submission of full cost of service data be waived as provided in Ordering Paragraph A(9)(b) of Order No. 517, since PSCO's existing fuel clause is being modified to conform to the Commission's regulations as amended by Order No. 517. PSCO requests an effective date of January 1, 1975, in relation to the rates established in January of 1975 for all sales under Rate Schedule FPC No. 162 for and after the month of February, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project No. 120]

SOUTHERN CALIFORNIA EDISON CO.

Application for Amendment to Application for New License (Major)

NOVEMBER 25, 1974.

Public notice is hereby given that application was filed on October 9, 1974,

under the Federal Power Act (16 USC 791a–825r) by Southern California Edison Co., Applicant (correspondence to: Mr. Robert P. O'Brien, Vice President, Southern California Edison Co., P.O. Box 351, Los Angeles, California, 90053; and Mr. John R. Bury, Assistant General Counsel, Southern California Edison Co., P.O. Box 800, Rosemead, California, 91770), for amendment to the application for new major license for its constructed Big Creek No. 3 Project No. 120. The project is located on the San Joaquin River in Fresno, Madera, Tulare, Kern and Los Angeles Counties in the vicinity of Madera, Fresno, Visalia, Bakersfield and Los Angeles, California and affects lands of the United States, among them lands within Sierra, Sequoia and Angeles National Forests and Indian tribal lands.

The Big Creek No. 3 Project presently consists of: (1) Dam No. 6: a 495-foot long 155-foot maximum height dam with a 308-foot long concrete spillway structure with crest elevation at 2,230 feet (U.S.G.S.); (2) Dam No. 6 Reservoir with gross storage capacity of 1,065 acre-feet and with a surface area of 23.2 acres at 2,230 feet (U.S.G.S.) elevation; (3) a 21-foot wide and 21-foot high 28,191-foot long unlined diversion tunnel to (4) four 1,386-foot long steel penstocks to (5) Big Creek Powerhouse No. 3 containing 6 generating units, three of 25,000 kw, one of 31,500 kw capacity, and two of 600 kw capacity operating under a gross head of 827 feet; (6) two transformer banks, one containing three 23,000 kva 12,100/230,000 V. single-phase units; the other, four 25,000 kva 13,100/230,000 V. single-phase units, one of which is a spare; (7) Vincent Transmission Line, which is a three-phase, 220 kv, 225-mile long line from Big Creek Powerhouse No. 3 to Gould Substation; and (8) all other facilities and interests appurtenant to operation of the project.

The proposed amendment would include a fifth generating unit with approximately 35,000 kw capacity at the Big Creek Powerhouse No. 3 site. The present tunnel capacity of approximately 2,600 cfs would be increased to approximately 3,350 cfs by lining the tunnel invert, and a fifth penstock would be installed parallel to the existing penstocks. The intake structure at Dam No. 6 forebay will be modified to permit additional water to be diverted into the tunnel with no modification to the existing dam.

The additions to the present Big Creek No. 3 Project would consist of: (1) Tunnel No. 3 invert lined to increase its capacity from 2,600 cfs to 3,350 cfs; (2) a fifth penstock constructed of welded steel pipe varying in diameter from 84 to 72 inches and consisting of 50-foot sections connected by couplings, and equipped with an 84-inch butterfly valve at the manifold at the head of the penstock and a 66-by-57-inch butterfly control valve at the lower end of the penstock; (3) a 40-by-60-foot open deck construction powerhouse addition to the east end of the existing powerhouse; (4) Unit No. 5 consisting of a 36,800 kva, 35,000 kw, 3-phase 60 Hz generator direct-connected to a 47,000 hp, 450 rpm turbine which would operate at a maximum static head of 827 feet; and (5) a 40,000 kva, 13,800/230,000 V., 3-phase, 60 Hz transformer connected to the existing Transformer Bank Number Two.

Applicant estimates that the cost of the proposed addition will be about $11,570,000.

The capacity and energy provided by the proposed additions are needed to meet the growing requirements of Applicant's customers in the Applicant's service area in central and southern California. Because of increasing fuel prices and limited fuel supplies, the proposed addition would provide an efficient and economical method of meeting these needs.

Any person desiring to be heard or to make protest with reference to said application should on or before January 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Rate Schedule Nos. 295, etc.]

SUN OIL CO., ET AL.

Rate Change Filings

DECEMBER 6, 1974.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas or national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972, and followed in Opinion No. 699, issued June 21, 1974.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before December 20, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY B. KIDD,
Acting Secretary.

[Docket No. E–9134]

TOLEDO EDISON CO., ET AL.

Notice of Cancellation of Power Agreement

DECEMBER 5, 1974.

Take notice that on November 22, 1974, Toledo Edison Co., Cleveland Electric Illuminating Co., Duquesne Light Co., Ohio Edison Co. and Pennsylvania Power Co. (Companies) filed an agreement to cancel a Power Agreement among said companies. The rate schedule cancelled by this agreement has been designated as follows:

The Toledo Edison Co., F.P.C. No. 38.
Ohio Edison Co., F.P.C. No. 97.

The Companies state that there are no affected purchasers to serve other than those named above.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 16, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74–29137 Filed 12–13–74;8:45 am]

[Docket No. E-9145]

UTAH POWER AND LIGHT CO.

Filing of Tariff Change

DECEMBER 5, 1974.

Take notice that on November 29, 1974 Utah Power and Light Co. (Utah) tendered for filing the following revisions to its FPC Electric Tariff, Original Volume No. 1, Resale Service Rates:

(1) Thirteenth Revised Sheet No. 1, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates, which when effective will cancel and supersede Twelfth Revised Sheet No. 1, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates.

(2) Second Revised Sheet No. 4, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates, which when effective will cancel and supersede First Revised Sheet No. 4, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates.

(3) Second Revised Sheet No. 5, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates, which when effective will cancel and supersede First Revised Sheet No. 5, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates.

(4) First Revised Sheet No. 5A, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates, which when effective will cancel and supersede Original Sheet No. 5A, Utah Power and Light Co. FPC Electric Tariff, Original Volume No. 1, Resale Service Rates.

Utah alleges that the increased rates are necessary to offset steeply rising costs in all categories, particularly in the cost of fuel, labor, materials, and capital. Utah further alleges that the proposed rates are designed to recoup only fuel cost increases already encountered, adding that the proposed fuel clause is expected to recover future fuel increases.

Utah states that copies of the filing have been served upon its FPC tariff customers as well as the regulatory commissions of the states of Utah, Idaho, and Wyoming.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-9147]

VIRGINIA ELECTRIC AND POWER CO.

Proposed Changes in Rates and Charges and Filing of Initial Rate Schedule and Contract Supplement for Excess Facilities Service

DECEMBER 5, 1974.

Take notice that Virginia Electric and Power Co. (Vepco), on December 2, 1974, tendered for filing proposed changes in its electric resale rate schedules applicable to REA Cooperatives and its FPC Electric Service Tariff, Original Volumes Nos. 1 and 2, which applies to Resale Municipalities and Private Utilities. Also, on the same date, Vepco tendered for filing (1) an initial rate schedule for REA Cooperatives providing for Excess Facilities Service, (2) a revision of Article 15, Excess Facilities, in its FPC Electric Tariff, Original Volume No. 1 and (3) a contract supplement for Prince William Electric Cooperative to provide service to that Cooperative under the terms of the proposed Excess Facilities Schedule. Based on the test period (calendar year 1975) conditions, Vepco estimates that the proposed change in resale rates will increase annual revenues from Cooperatives by $12.6 million, or 30.02 percent, and from Municipal customers by $8.1 million, or 27.23 percent. The proposed effective date for the increased rates is January 1, 1975.

Vepco states that the resale rate increases are needed to compensate the Company for substantially increased costs of labor, material, fuel and especially capital.

The proposed Excess Facilities Schedule for Cooperatives and the revision of Article 15 applicable to Municipals specifies two separate monthly charges: (1) A monthly charge of 1.79 percent of the estimated installed cost of excess distribution (rates below 69 KV) facilities and (2) a monthly charge of 1.60 percent of the estimated installed cost of excess transmission (rates at or above 69 KV) facilities. The contract supplement for Prince William Electric Cooperative provides for relay service under the proposed Excess Facilities Schedule for Cooperatives. Vepco also requests that these rate schedules be effective January 1, 1975.

Copies of the filing were served upon representatives of all of Vepco's jurisdictional customers, the Virginia State Corporation Commission and the North Carolina Utilities Commission.

Any person desiring to be heard or to protest said applicant should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29125 Filed 12-13-74;8:45 am]

[Docket No. E-9143]

WEST TEXAS UTILITIES CO.

Changes in Rates and Charges

DECEMBER 5, 1974.

Take notice that West Texas Utilities Co. (West Texas) on November 29, 1974, tendered for filing proposed changes to supersede its FPC Rate Schedule No. 11, the rate schedule applicable for service to Gate City Electric Cooperative, Inc. (Gate City). The proposed changes would increase revenues from jurisdictional sales and service by $14,413 annually, based on the 12-month period ending June 30, 1974.

West Texas states that this rate adjustment was necessitated by the inflation experienced in all aspects of the Company's business in the last few years, the increased cost of borrowed money, and added environmental costs built into all new plant construction. West Texas states further that this filing follows the company's first rate increase in its fifty year history.

According to West Texas, the proposed rate schedule has been furnished to Gate City at Post Office Box 69, Childress, Texas 79200.

West Texas has requested an effective date of January 1, 1975, for the proposed rate schedule.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 17, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Project No. 2522]

WISCONSIN PUBLIC SERVICE CORP.

Application for Amendment of License

DECEMBER 6, 1974.

Public notice is hereby given that application has been filed on May 1, 1972 under the Federal Power Act (16 U.S.C. 791a-825r) by the Wisconsin Public Service Corporation, P.O. Box 700, Green Bay, Wisconsin 54305 (correspondence

to: C. A. McKenna, Secretary, Wisconsin Public Service Corp., 1029 North Marshall Street, Milwaukee, Wisconsin 53201) for Amendment of License (Exhibits J, K and R) for constructed Project No. 2522, known as the Johnson Falls Hydroelectric Project, located on the Peshtigo River, in the town of Stephenson, vicinity of Crivitz, Marinette County, Wisconsin. The Project affects interstate commerce.

The applicant seeks approval of revised Exhibits J, K and R (text and map). The steepness of the shoreline has prevented the normal development and utilization of project lands and waters for recreational purposes. In cooperation with the Wisconsin Department of Natural Resources, a "Fly Fishing Only" strip would be developed south of the plant.

The revised exhibits reflect the following additional changes:

(1) "Undeveloped" boat landing site and two public fishing areas have been redesignated "Public Hunting Area", (2) adjustment to the alignment of the access road to the project; and (3) deletion of reference to public hunting areas on non-project lands (now a part of Licensed Project No. 2546—Sandstone Rapids).

Any person desiring to be heard or to make protest with reference to said application should on or before January 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 9, 1974. (See 44 U.S.C. 3512 (c) and (d).) The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL ENERGY ADMINISTRATION

Request for clearance of monthly FEA Form P103-M-0 entitled Old Oil Entitlements Program, Entitlements Transaction Report. This new report is to be filed by approximately 211 refiners and importers eligible to receive old oil entitlements. Respondent burden is estimated to be 6 man-hours per monthly report.

NATIONAL ENDOWMENT FOR THE HUMANITIES

ADVISORY COMMITTEE FELLOWSHIPS PANEL

Meetings

DECEMBER 11, 1974.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that meetings of the Fellowships Panel will be held at Washington, D.C. on December 23, 1974. The short notice for this panel meeting is due to the fact that we have learned that a meeting of the American Philosophical Association is scheduled for the week of December 23, and we plan to make our meeting coincide with that of the A.P.A.

The purpose of the meetings is to evaluate prospective seminar directors for the program of Professions Seminars to be supported by the National Endowment for the Humanities in 1975.

Because the panels will discuss sensitive, personal data regarding persons nominated as seminar directors, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meetings would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meetings to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C., 20506, or call area code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

OFFICE OF MANAGEMENT AND BUDGET

ADVISORY COMMITTEE ON GNP DATA IMPROVEMENT

Notice of Public Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Advisory Committee on GNP Data Improvement to be held in Room 10103, New Executive Office Building, 726 Jackson Place, NW, Washington, D.C. on Thursday, January 2, 1975 at 9:45 a.m.

The purpose of the meeting is to review progress and to discuss improvements of annual and quarterly estimates of inventories.

The meeting will be open to public observation and participation. Anyone wishing to participate should contact the GNP Data Improvement Project, Statistical Policy Division, Room 10222, New Executive Office Building, Washington, D.C. 20503, telephone (202) 395-3793.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 12/11/74 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency

sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

AMERICAN STOCK EXCHANGE, INC., AND CHICAGO BOARD OPTIONS EXCHANGE, INC.

Proposed Participant Exchange Agreement for a Common Clearing Corporation

Notice is hereby given that the American Stock Exchange, Inc. (Amex) and the Chicago Board Options Exchange, Inc. (CBOE) have each filed pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1) a proposed participant exchange agreement in the Options Clearing Corp. (OCC).

Agreement among the Amex, the CBOE, and other options exchanges which may become stockholders in the OCC provides, among other things, that OCC will have the obligation to register options under the Securities Act of 1933 and under state "blue sky" laws and to bear the cost of such registrations. The agreement provides also that (i) subject to specified conditions, the exchanges will select the underlying securities to be the subject of options trading and (ii) the exchanges will maintain public reference files containing financial information and price information concerning underlying securities. In addition, the agreement provides that OCC will accept all matched options transactions for which it has received premiums due and, upon such acceptance, OCC will assume the obligations set forth in the OCC by-laws and rules.

The proposed participant exchange agreement will become effective upon the 30th day after this notice appears in the FEDERAL REGISTER, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed participant exchange agreement either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10–54. All amendments that have been made to the Amex's plans have been placed in their respective option files under file number S7–505. The proposed agreement is, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

EASTERN UTILITIES ASSOCIATES, ET AL.

Proposed Issue and Sale of Notes by Holding Company and Subsidiary Companies to Banks; Loans and Open Account Advances by Holding Company to Subsidiary Companies; Loans Between Subsidiary Companies

DECEMBER 6, 1974.

In the matter of Eastern Utilities Associates, P.O. Box 2333, Boston, Massachusetts, 02107; Blackstone Valley Electric Co., P.O. Box 1111, Lincoln, Rhode Island, 02865; Brockton Edison Co., 36 Main Street, Brockton, Massachusetts, 02403; Fall River Electric Light Co., 85 North Main Street, Fall River, Massachusetts, 02722; Montaup Electric Co., P.O. Box 391, Fall River, Massachusetts, 02722.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, and its four electric utility subsidiary companies, Blackstone Valley Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), Fall River Electric Light Company ("Fall River") and Montaup Electric Company ("Montaup") have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 12(b), 12(c), and 12(f) of the Act and Rule 45(a) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

During the period ending December 30, 1975, EUA, Blackstone, Brockton, Fall River, and Montaup propose to issue and sell short-term, unsecured promissory notes to banks, and in the cases of Blackstone, Brockton, and Fall River to also receive short-term loans from EUA and open-account advances from Brockton, in the maximum aggregate amounts to be outstanding at any one time as shown below:

Company	From banks	Inter-company	Aggregate banks and inter-company
EUA	$70,700,000	----------	$70,700,000
Blackstone	3,400,000	$27,250,000	30,650,000
Brockton	7,575,000	38,650,000	46,225,000
Fall River	5,650,000	2,300,000	7,950,000
Montaup	54,400,000	7,700,000	62,100,000

The notes to banks will be dated as of the date of issuance, will mature no later than December 30, 1975, and will be prepayable in whole or in part without penalty. It is represented that some of the lending banks will require compensating balances and that others will not. With respect to notes for which compensating balances are required, the notes will bear interest at not in excess of the prime or base rate charged by the lending bank on the date of issuance plus ¼ of 1 percent multiplied by 107 percent. Assuming a 15 percent compensating balance and a prime or base rate of 10 percent per annum, the maximum effective interest cost on such notes would be 12.96 percent per annum. Notes as to which no compensating balances are required will bear interest not in excess of the bank's prime or base rate plus ¼ of 1 percent together with an assumed compensating balance requirement of 20 percent. The effective interest rate applicable to such notes would be 12.81 percent, assuming a prime or base rate of 10 percent.

The advances by EUA to Blackstone and Brockton will be subordinated to the rights of the preferred stockholders of Blackstone and Brockton, respectively, to receive dividends and liquidation payments if, and so long as, (a) preferred stock dividends are in arrears (or in the event of liquidation, the liquidation rights of preferred stockholders have not been satisfied) and (b) the sum of the advances from EUA, the notes payable to banks and all other securities representing unsecured debt, maturing in less than 10 years, exceeds 10 percent of the company's secured debt, capital stocks, premium, and surplus. The advances by EUA and the advance by Brockton to Montaup will bear interest payable on April 1, 1975, July 1, 1975, October 1, 1975 and December 30, 1975, at the prime or base rate in effect at The First National Bank of Boston or The Chase Manhattan Bank, N.A. ("Chase") (depending on the source of the funds being advanced) on those respective dates. To the extent advances have been made hereunder from the proceeds of issuance by EUA of its five-year unsecured promissory notes to Chase (Holding Company Act Release No. 17085), such advances shall bear interest payable at the rate incurred by EUA on the five-year note. Since Blackstone, Brockton, and Fall River are to maintain a 15 percent compensating balance with Chase with regard to EUA's borrowings under said note, the effective interest cost for the open account advances from the note proceeds would be 12.941 percent per annum, assuming a prime or base rate of 10 percent.

It is stated that the proceeds from the proposed notes and advances will be used to meet cash requirements for construction, to provide funds for investment in subsidiaries and for compensating balances with lending banks through December 30, 1975, and to pay outstanding short-term loans. On December 31, 1974, Blackstone, Brockton, Fall River and Montaup expect to have outstanding short-term loans of $30,000,000 (including $26,600,000 advance from EUA to Blackstone), $14,875,000 (including $7,300,000 advance from EUA to Brockton), $7,850,000 (including $2,300,000 advance from EUA to Fall River) and $39,250,000 (including $6,350,000 loan from EUA), respectively. On December 31, 1974, EUA expects to have outstanding short-term loans of $44,800,000.

Blackstone, Brockton, Fall River or Montaup may prepay its notes to banks, in whole or in part, by the use of an advance or loan from EUA, or may repay an advance or loan from EUA with the proceeds of notes issued to banks. If the interest rate on a note issued to a bank for the purpose of obtaining funds to repay an advance or loan from EUA shall exceed the rate on the advance or loan being repaid, EUA shall reimburse or credit Blackstone, Brockton, Fall River or Montaup, as the case may be, for the added interest required for the term of the note so issued.

In the event of any permanent financing by any of the borrowing companies (with the exception of permanent financing by EUA the proceeds of which are applied to the payment or prepayment of its five-year note), the net cash proceeds therefrom will be applied to the reduction or payment of its short-term note indebtedness or advances from EUA then outstanding, and the maximum amount of short-term note indebtedness and advances to be outstanding at any one time, as proposed herein, will within not more than two months thereafter be reduced by the amount of the net cash proceeds of such permanent financing.

The declaration states that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are to be supplied by amendment.

Notice is further given that any interested person may, not later than December 30, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 9610; 811-1700]

SUMMIT CAPITAL FUND, INC.

Filing of Application for an Order Declaring That Company Has Ceased To Be an Investment Company

DECEMBER 6, 1974.

Notice is hereby given that Summit Capital Fund, Inc., 1010 Fidelity Union Tower, Dallas, Texas, 75201 ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as a diversified, open-end management investment company, has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement

of the representations contained therein, which are summarized below.

Applicant, a Delaware corporation, registered under the Act by filing its Notification of Registration on Form N–8A under the Act on June 17, 1968. Applicant and Selected Special Shares, Inc. ("Special"), also a registered open-end investment company under the Act, entered into an agreement and Plan of Reorganization (the "Agreement") providing for the acquisition of substantially all of the net assets of applicant by Special and the liquidation and subsequent dissolution of applicant. On August 21, 1974, the shareholders of applicant approved the agreement by a majority vote of the outstanding voting securities and the transactions contemplated by the agreement were subsequently consumated on September 19, 1974. Pursuant to the agreement, Special acquired substantially all the assets of applicant in exchange for shares of Special which have been distributed to applicant's shareholders. Applicant presently has no assets other than cash in the amount of approximately $10,000, which has been retained to pay all remaining obligations and expenses of liquidation and dissolution.

Applicant states that it shs no shareholders and is not engaged in any investment company activities. It is asserted that, subject to final settlement of its affairs pursuant to Delaware law, applicant will dissolve and terminate its existence.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company, has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 31, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may reqeust that he be notified if the Commission shall order a hearing thereon. Any such communication–should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy o fsuch request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shal be filed contemporaneously with the rerules and regulations promulgated under quest. As provided by Rule 0–5 of the the Act, an order disposing of the application will be issued as of course following December 31, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

TARIFF COMMISSION

[337–L–79]

OVERLAPPING DIGITAL MOVEMENTS

Notice of Complaint Received

The United States Tariff Commission hereby gives notice of the receipt on November 14, 1974, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by General Time Corporation, Mesa, Arizona, alleging unfair acts in the importation and sale of overlapping digital movements and clocks and clock radios incorporating such movements by reason of their being embraced within the claims of U.S. Letters Patent No. 3,200,396. The complainant names Sankyo-Seiki (America), Inc., of 149 Fifth Avenue, New York, New York 10010 and 1300 South Athens Way, Los Angeles, California 90061, as importing and offering for sale the subject products.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the issues raised in the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation, and, if so, whether the Commission should recommend to the President the issuance of a temporary exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, NW, Washington, D.C. 20436, and at the New York Office of the Tariff Commission located at 6 World Trade Center.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than January 27, 1975. Extensions of time for submitting information will not be granted unless good and sufficient cause is shown thereon. Such information should be sent to the Secretary, United States Tariff Commission, 8th and E Streets, NW, Washington, D.C. 20436. A signed original and nineteen (19) true copies of each document must be filed.

By order of the Commission.

Issued: December 11, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

VETERANS ADMINISTRATION

NEW CLINICAL SUPPORT FACILITY FOR SEISMIC CORRECTIONS FOR VARIOUS BUILDINGS

Availability of Draft Environmental Impact Statement

Notice is hereby given that a document entitled "Draft Environmental Impact Statement for a New Clinical Support Facility and Seismic Corrections for tration Hospital, Boise, Idaho," dated Various Buildings, Veterans Adminis- October 1974, has been prepared as required by the National Environmental Policy Act of 1969.

The new seismically designed Clinical Support Famility will have three floors and will provide approximately 35,000 net square fet of space. This new facility will provide space for Surgical Suite, Radiology, Pharmacy, Outpatient, Dental, Laboratory and other clinical activities.

The seismic corrections of various buildings will rehabilitate seven eixsting buildings which were found, through an engineering study, to be non-conforming with the "Zone 2 Structural Design Standards of the Earthquake Regulations of the 1970 Uniform Building Code as modified." This corrective work will vary from building to building but will include the strengthening of foundations, floors, frames, roofs and will stabilize interior partitions.

This study also determined the most feasible methods in which this work could be accomplished and retain existing architectural features as requested by the Idaho Historical Society.

This draft statement discusses the environmental impact of the New Clinical Support Facility and Seismic Corrections for Various Buildings. The document is being placed for public examination in the Veterans Administration office in Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office:

Mr. Arthur W. Farmer, Assistant Chief Medical Director for Administration (13), Room 600, Veterans Administration, 810 Vermont Avenue, NW, Washington, D.C. 20420.

Single copies of the draft statement may be obtained on request to the above office.

Dated: December 9, 1974.

[SEAL] R. L. ROUDEBUSH,
Administrator.

[5th Rev. SO No. 1043; Modification 1; Amdt. 1]

THE CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Car Service Exemption

It appearing, That the movement of sugar beets from stations on the lines of the Chicago, Rock Island and Pacific Railroad Company (RI) in the state of Colorado is diminishing; that the RI is now able to furnish sufficient system cars from its own fleet to transport the remaining portion of the beet crop; that The Denver and Rio Grande Western Railroad Company (DRGW) has regular shipments of coal from stations on its lines to destinations east of the Missouri River, including Omaha, Nebraska, and Kansas City, Kansas; that use of these cars to transport such shipments of coal will result in their return to owners with a minimum of empty car mileage and loss of utilization.

It is ordered, That, pursuant to the authority vested in me by section (b) of Fifth Revised Service Order No. 1043, the RI be, and it is hereby authorized to deliver empty to the DRGW upon receipt of orders from that line, and the DRGW is authorized to accept and use for loading with coal to destinations east of the Missouri River, including Omaha, Nebraska, and Kansas City, Kansas, any or all of the hoppers which it was authorized to use for the transportation of sugar beets under the provisions of this exemption; and,

It is further ordered, That, when empty such cars shall be returned to the owner empty in the manner prescribed by Car Service Rules 1 or 2.

Effective 12:01 a.m., December 3, 1974.
Expires 11:59 p.m., December 31, 1974.

Issued at Washington, D.C., December 3, 1974.

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 11, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before December 31, 1974.

FSA No. 42915—*Grain and Grain Products Within the Western District.* Filed by North Pacific Coast Freight Bureau, Agent, (No. 74-1), for and on behalf of carriers parties to schedule listed below. Rates on barley and oats, feed grade, in carloads, as described in the application, from points in Montana, to Bend and Prineville, Oregon.

Grounds for relief—Carrier competition.

Tariff—Supplement 34 to North Pacific Coast Freight Bureau, Agent, tariff 13-H, ICC 1199. Rates are published to become effective on January 13, 1975.

By the Commission.

TEXAS EASTERN TRANSMISSION CORP., LITTLE BIG INCH DIVISION

Tentative Valuation

Notice is hereby given that a tentative valuation for the year 1972, Valuation Docket No. 1408, is under consideration for a common carrier by pipeline, the Texas Eastern Transmission Corporation, Little Big Inch Division, P.O. Box 2521, Houston, Texas 77001.

On or before January 10, 1974, persons other than those specifically designated in Section 19a(h) of the Interstate Commerce Act having an interest in the valuation of the carrier named above may, pursuant to rule 72 of the Commission's general rules of practice (49 CFR 1100.72), file an original and three copies of a petition for leave to intervene and, if granted, thus to come within the category of "additional parties as the Commission may prescribe" under section 19a(h) of the Act, thereby enabling the party to file a protest. It is also required that a copy of the petition to intervene be served at the address shown above upon the carrier and that an appropriate certificate of service be attached to the petition. Persons specifically designated in section 19a(h) of the Act need not file a petition; they are entitled to file protest as a matter of right under the statute.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 11, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 26, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 29572 (Sub-No. E1), filed June 4, 1974. Applicant: McCLAIN MOVING COMPANY, Highway 73, Palmyra, N.J. Applicant's representative: George D. McClain, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Maryland, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of points in Philadelphia County, Pa.

No. MC 37203 (Sub-No. E2), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102 Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Arkansas, on the one hand, and, on the other, points in Kansas on and west of U.S. Highway 75 (points in Oklahoma within 150 miles of Shawnee, Okla.)*; (2) between Miller, Lafayette, Little River, Howard, Hempstead, Sevier, Pike, Polk, Montgomery, Scott, Sebastian, Logan, Crawford, Franklin, Johnson, Washington, Madison, Benton, and Carroll Counties, Arkansas, on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Massachusetts, Rhode Island, Maine, and Michigan (points in Oklahoma within 150 miles of Shawnee, Okla., and Mclean County, Ill.)*; and (3) between points in Oklahoma, on the one hand, and, on the other, points in Michigan, Pennsylvania, New York, New Jersey, Massachusetts, Rhode Island, and Maine (Coffeyville, Kans., and points within 25 miles thereof).* The purpose of this filing is to eliminate the gateways marked by asterisks above.

No. MC 37203 (Sub-No. E3), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102, Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Montana, on the one hand, and, on the other, points in Texas on and east of U.S. Highway 283 from the Texas-Oklahoma border to its intersection with U.S. Highway 67, thence along U.S. Highway 67 to its intersection with U.S. Highway 277, thence along U.S. Highway 277 to Del Rio, Tex., on

the United States-Mexico border, (2) between points in Wyoming, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 160 to Springfield, Missouri, thence along U.S. Highway 60 to its intersection with Missouri Highway 34, thence along Missouri Highway 34 to Jackson, Mo., thence along U.S. Highway 61 to Cape Girardeau, Missouri, on the Missouri-Illinois border, (3) between points in Montana, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Missouri-Kansas State line on U.S. Highway 66 to Joplin, thence along Interstate Highway 44-U.S. Highway 66 to St. Louis, Missouri, on the Missouri-Illinois border, and (4) between points in Kansas, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 37203 (Sub-No. E4), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102 Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Kansas on and south of a line beginning at the Kansas-Colorado State line on Kansas Highway 96 to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Illinois, Indiana, and Kentucky (Coffeyville, Kans., and points within 25 miles thereof, and Shawnee, Okla., and points in that part of Oklahoma, Arkansas, Kansas, and Texas within 150 miles of Shawnee)*, (2) between points in Kansas on and south of a line beginning at the Kansas-Colorado State line on Kansas Highway 96 to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to its intersection with U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Michigan, Ohio, West Virginia, Pennsylvania, New York, New Jersey, Rhode Island, Massachusetts, and Maine (Coffeyville, Kans., and points within 25 miles thereof, McLean County, Ill., and Shawnee, Okla., and points in that part of Oklahoma, Arkansas, Kansas, and Texas within 150 miles of Shawnee)*, (3) between points in Kentucky, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line on U.S. Highway 75 to Dallas, Tex., thence along Interstate Highway 45 to Houston, Tex., thence along Interstate Highway 10-U.S. Highway 81 to San Antonio, Tex., thence along Interstate Highway 35-U.S. Highway 81 to Laredo, on the U.S.-Mexico International Boundary line (points in Oklahoma)*, (4) between points in Colorado, on the one hand, and, on the other, points in Texas on and east of a line beginning at the Texas-Oklahoma State line on U.S. Highway 283 to its intersection with U.S. Highway 87, thence along U.S. Highway 87 to Brady, Tex., thence along U.S. Highway 377 to Junction, Tex., thence along U.S. Highway 83 to the United States-Mexico International Boundary line (points in Oklahoma)*, and (5) between points in Ohio, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line on U.S. Highway 75 to Dallas, Tex., thence along Interstate Highway 35-U.S. Highway 81 to Laredo, Tex., on the United States-Mexico International Boundary line (points in Oklahoma and McLean County, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 37203 (Sub-No. E5), filed May 31, 1974. Applicant: MILLSTEAD VAN LINES, INC., P.O. Drawer 878, Bartlesville, Okla. 74003. Applicant's representative: Thomas F. Sedberry, Suite 1102 Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Texas, on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Maine, Massachusetts, and Rhode Island (points in Oklahoma and McLean County, Ill.)*, (2) between points in Nebraska and Iowa, on the one hand, and, on the other, points in Texas on and east of a line beginning at the Texas-Oklahoma State line on U.S. Highway 283 to its intersection with U.S. Highway 180, thence along U.S. Highway 180 to its intersection with Oklahoma Highway 208, thence along Oklahoma Highway 208 to its intersection with Oklahoma Highway 163, thence along Oklahoma Highway 163 to its intersection with U.S. Highway 90, thence along U.S. Highway 90 to Del Rio on the U.S.-Mexico International Boundary line (points in Oklahoma)*, (3) between points in Texas, on the one hand, and, on the other, points in Michigan (points in Oklahoma, and McLean County, Ill.)*, (4) between points in Texas, on the one hand, and, on the other, points in Illinois and Indiana (points in Oklahoma)*, and (5) between points in Texas on and west of a line beginning at the Texas-Oklahoma State line on Interstate Highway 35 to Fort Worth, Tex., thence along Interstate Highway 35-U.S. Highway 81 to Laredo, Tex., on the one hand, and, on the other, points in Arkansas on and north of Interstate Highway 40 (points in Oklahoma)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 83539 (Sub-No. E16) (Correction), filed June 2, 1974, published in the FEDERAL REGISTER December 3, 1974. Applicant: C & H TRANSPORTATION CO., INC., P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Thomas E. James (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated iron and steel products* and *iron and steel pipe*, from Corpus Christi, Galveston, and Houston, Tex., to points in Arizona. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E782), filed November 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen potato products and frozen corned beef hash* (except in bulk), from Columbus, Hastings, Omaha, and York, Nebr., to points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E783), filed November 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Sylvester and Tifton, Ga., to points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Newburgh, N.Y.

No. MC 95540 (Sub-No. E784), filed November 18, 1973. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionary products*, from Newburgh, N. Y., to points in Washington, Oregon, Utah, Idaho, Montana, Colorado, and Nevada. The purpose of this filing is to eliminate the gateway of Reading, Pa.

No. MC 95540 (Sub-No. E785), filed November 18, 1974. Applicant: WALKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen prepared foodstuffs*, from Bridgeton, N. J., to those points in Wyoming on and south of a line beginning at the Wyoming-Colorado State line and extending along Interstate Highway 25 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with Wyoming Highway 120, thence along Wyoming Highway 120 to the Wyoming-Montana State line. The purpose of this filing is to eliminate the gateways of Newburgh, N. Y., and Union City, Tenn.

No. MC 95540 (Sub-No. E786), filed November 18, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products*, other than frozen, in vehicles equipped with mechanical refrigeration, from Newburgh, N.Y., to points in Arkansas and Texas and those points in Oklahoma on and south of a line beginning at the Kansas-Oklahoma State line and extending along Interstate Highway 35, and extending along Interstate Highway 35 to its junction with Oklahoma Highway 119, thence along Oklahoma Highway 119 to its junction with U. S. Highway 170 to its junction with U. S. Highway 60, thence along U. S. Highway 60 to its junction with Oklahoma Highway 18 to its junction with Oklahoma Highway 20, thence along Oklahoma Highway 20 to its junction with Oklahoma Highway 99 to its junction with U. S. Highway 64, thence along U. S. Highway 64 to the Muskogee Turnpike, thence along the Muskogee Turnpike to its junction with Oklahoma Highway 51, thence along Oklahoma Highway 51 to its junction with U.S. Highway 62, thence along U. S. Highway 62 to the Oklahoma-Arkansas State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E787), filed November 18, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen potatoes, frozen potato products, frozen onions, and frozen carrots*, from Corinna, Easton, Portland, Presque Isle, and Washburn, Maine, to points in Louisiana, Texas, New Mexico, Arizona, and California. The purpose of this filing is to eliminate the gateway of Albany, N.Y.

No. MC 95540 (Sub-No. E788), filed November 25, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits, frozen berries, and frozen vegetables*, from those points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along Interstate Highway 85 to its intersection with U.S. Highway 70, thence along U.S. Highway 70 to its intersection with U.S. Highway 117, thence along U.S. Highway 117 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Washington, Pa.

No. MC 107515 (Sub-No. E154) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 18, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Bruce E. Mitchell, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats* and *dairy products* as described in the Appendix to the report in *Modification of Permits-Packing House Products*, 48 M.C.C. 626, from Quincy, Fla., and points in that part of Florida on and east of U.S. Highway 319, to points in that part of Alabama on and north of U.S. Highway 80. The purpose of this filing is to eliminate the gateway of any point that is within 5 miles of Montezuma, Ga., and within the commercial zone of Montezuma (except Montezuma). The purpose of this correction is to reflect the correct "E" number—previously published as E134.

No. MC 107515 (Sub-No. E155) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER November 18, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats, and such commodities as are classified as dairy products*, in the Appendix to the report in *Modification of Permits-Packing House Products*, 48 M.C.C. 628, in vehicles equipped with mechanical refrigeration; (2) from points in Florida to points in that part of Virginia on and west of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 258 to Newport News, thence along U.S. Highway 17 to junction Virginia Highway 171, thence along Virginia Highway 171 to the Chesapeake Bay. The purpose of this filing is to eliminate the gateways of (1) any point that is both within 5 miles of Macon, Ga., and within the commercial zone of Macon

(except Macon), and (2) the plant sites of Family Foods, Inc., or Ambrosia Chocolate Co., Division of W. R. Grace and Company at Charlotte, N.C. The purpose of this partial correction is to clarify the destination routes. The remainder of this letter-notice remains as previously published.

No. MC 107515 (Sub-No. E496), filed June 4, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in that part of Ohio on and north of a line beginning at Cleveland on Lake Erie, thence along Interstate Highway 90 to the Ohio-Pennsylvania State line, to points in Texas, Louisiana, that part of Oklahoma on and east of a line beginning at the Arkansas-Oklahoma State line, thence along Oklahoma Highway 4 to junction U.S. Highway 259, thence along U.S. Highway 259 to junction Oklahoma Highway 1, thence along Oklahoma Highway 1 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction Indian Nation Turnpike, thence along Indian Nation Turnpike to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Alternate U.S. Highway 75, thence along Alternate U.S. Highway 75 to junction Oklahoma Highway 97, thence along Oklahoma Highway 97 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Oklahoma Highway 99, thence along Oklahoma Highway 99 to the Oklahoma-Kansas State line, points in that part of Arkansas on and south of a line beginning at the Arkansas-Louisiana State line, thence along U.S. Highway 65 to junction Arkansas Highway 4.

Thence along Arkansas Highway 4 to the Arkansas-Oklahoma State line, points in that part of Mississippi on and south of a line beginning at the Mississippi-Louisiana State line, thence along Interstate Highway 20 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 98, thence along U.S. Highway 98 to the Mississippi-Alabama State line, points in that part of Alabama on and south of a line beginning at the Alabama-Mississippi, thence along U.S. Highway 98 to junction Interstate Highway 10,, thence along Interstate Highway 10 to the Alabama-Florida State line, points in that part of Florida on and south of a line beginning at the Florida-Alabama State line thence along U.S. Highway 98 to junction Alternate U.S. Highway 27, thence along Alternate Highway 27 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Florida Highway 484, thence along Florida Highway 484 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction Florida Highway 46, thence along Florida Highway 46 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction Florida Highway 528, thence along Florida Highway 528 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E497), filed June 4, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bananas, cocoanuts, and pineapples*, from West Palm Beach, Port of Palm Beach, Port of Everglades, and Tampa, Fla., to points in Minnesota, Ohio, and that part of Missouri on and north of a line beginning at the Illinois-Missouri State line, thence along Missouri Highway 74 to junction Missouri Highway 25, thence along Missouri Highway 25 to junction Missouri Highway 91, thence along Missouri Highway 91 to junction Missouri Highway 21, thence along Missouri Highway 21 to junction Missouri Highway 106, thence along Missouri Highway 106 to junction Missouri Highway 17, thence along Missouri Highway 17 to junction Missouri Highway 38, thence along Missouri Highway 38 to junction Missouri Highway 65, thence along Missouri Highway 65 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Oklahoma State line. The purpose of this filing to to eliminate the gateway of the plant site of Food Specialties of Kentucky, in Jefferson County, Ky.

No. MC 111545 (Sub-No. E64), filed May 29, 1974, Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, (1) between points in Tennessee, on the one hand, and, on the other, points in that part of Illinois on, west, and north of a line beginning at the Illinois-Missouri State line, thence along U.S. Highway 24 to Quincy, thence along Illinois Highway 96 to junction Illinois Highway 61, thence along Illinois Highway 61 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 41 to Galesburg, thence along U.S. Highway 34 to junction Illinois Highway 88, thence along Illinois Highway 88 to Sterling, thence along Illinois Highway 2 to the Illinois-Wisconsin State line (points in Iowa);* (2) between points in that part of Tennessee within 175 miles of Chattanooga, Tenn., and on and south of a line beginning at the Tennessee-Georgia State line, thence along U.S. Highway 11 to Tennessee Highway 30, thence along Tennessee Highway 30 to junction Tennessee Highway 39, thence along Tennessee Highway 39 to Englewood, thence along U.S. Highway 411 to Maryville, thence along U.S. Highway 129 to Knoxville, thence along U.S. Highway 11E to Johnson City, thence along U.S. Highway 321 to the Tennessee-North Carolina State line, on the one hand, and, on the other, points in that part of Illinois on, north, and west of a line beginning at the Illinois-Missouri State line, thence along Illinois Highway 140 to junction U.S. Highway 40, thence along U.S. Highway 40 to Effingham, thence along U.S. Highway 45 to Champaign, thence along U.S. 150 to Bloomington, thence along U.S. Highway 51 to the Illinois-Wisconsin State line (points in that part of North Carolina, that part of South Carolina, or that part of Georgia within 175 miles of Chattanooga, Tenn.).* The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 111545 (Sub-No. E339), filed June 4, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe* (except pipe as described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459, and pipe originating at or destined to pipeline rights-of-way), from points in that part of Alabama within 175 miles of Chattanooga, Tenn., and on and east of a line beginning at the Alabama-Tennessee State line thence along U.S. Highway 231 to Arab, thence along Alabama Highway 69 to Cullman, thence along U.S. Highway 31 to Birmingham, thence along U.S. Highway 11 to the Alabama-Mississippi State line, to points in Arizona, Nevada, Oregon, and Washington, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment, where such transportation is performed on ordinary vehicular equipment, and special equipment is provided for loading and unloading is performed by the consignor or consignee, or both. The purpose of this filing is to eliminate the gateways of (1) points in that part of Alabama within 50 miles of Cartersville, Ga., and within 175 miles of Chattanooga, Tenn.; (2) points in Oklahoma; and (3) the plant site and warehouse facilities of Western Foundary Company at or near Tyler, Tex.

No. MC 111545 (Sub-No. E466), filed May 30, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heat exchangers or equalizers* for air, gas or liquids, (2) *machinery and equipment* for heating, cooling, conditioning, humidifying, dehumidifying,

and moving of air, gas, or liquids, and (3) *parts, attachments, and accessories* for use in the installation and operation of (1) and (2) above, from points in Connecticut, Delaware, Maine, Maryland, Vermont, Massachusetts, New Hampshire, New Jersey, Rhode Island, and the District of Columbia, to points in Louisiana, restricted in (1), (2), and (3) above to the transportation of commodities which, because of size or weight, requires the use of special equipment. The purpose of this filing is to eliminate the gateways of (1) points in that part of North Carolina, South Carolina, or Georgia within 175 miles of Chattanooga, Tenn.; and (2) the plant and warehouse facilities of the Trane Company at Clarksville, Tenn.

No. MC 111545 (Sub-No. E610), filed June 3, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, (1) between Newport News, Hampton, Norfolk, Virginia Beach, Portsmouth, and Chesapeake, Va., on the one hand, and, on the other, points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia; and (2) between Newport News, Hampton, Norfolk, Virginia Beach, Portsmouth, and Chesapeake, Va., on the one hand, and, on the other, points in that part of Maryland on and north of a line beginning at the Maryland-District of Columbia State line, thence along U.S. Highway 50 to junction U.S. Highway 301, thence along U.S. Highway 301 to junction Maryland Highway 300, thence along Maryland Highway 300 to the Maryland-Delaware State line, and that part of Delaware on and north of a line beginning at the Delaware-Maryland State line, thence along Delaware Highway 300 to junction Delaware Highway 44, thence along Delaware Highway 44 to Pearson, thence along Delaware Highway 8 to Deep Water Point. The purpose of this filing is to eliminate the gateway of points in North Carolina.

No. MC 111545 (Sub-No. E615), filed June 3, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, (1) from points in Florida, Georgia, and South Carolina to points in New Jersey and New York; and (2) from points in Mississippi to points in New Jersey and that part of New York on and east of a line beginning at Sea Breeze, thence along New York Highway 18 to Rochester, thence along Interstate Highway 490 to junction Interstate Highway 90, thence along Interstate Highway 90 to West Junius, thence along New York Highway 14 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of the plant site of Continental Homes, Inc., at or near Rocky Mount or Boones Mill, Va.

No. MC 111545 (Sub-No. E616), filed June 3, 1974. Applicant. HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, from points in that part of Florida on and south of a line beginning at Jacksonville Beach, thence along U.S. Highway 90 to Lake City, thence along Florida Highway 247 to Branford, thence along U.S. Highway 129 to Chiefland, thence along Florida Highway 345 to junction Florida Highway 24, thence along Florida Highway 24 to Cedar Key, to points in that part of Ohio on and east of a line beginning at the Ohio-Kentucky State line, thence along Ohio Highway 73 to Belfast, thence along Ohio Highway 785 to Sugar Tree Ridge, thence along Ohio Highway 136 to junction U.S. Highway 62, thence along U.S. Highway 62 to Washington Court House, thence along U.S. Highway 35 to Dayton, thence along U.S. Highway 25 to Lima, thence along U.S. Highway 30S to junction U.S. Highway 30 to Delphos, thence along Ohio Highway 66 to Defiance, thence along Ohio Highway 15 to the Ohio-Michigan State line. The purpose of this filing is to eliminate the gateway of the plant site of Continental Homes, Inc., at or near Rocky Mount, Va.

No. MC 111545 (Sub-No. E622), filed June 3, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities* (except knitting machines), the transportation of which, because of size or weight, requires the use of special equipment, (1) from points in Rhode Island and Vermont to points in New Mexico; and (2) from points in that part of Pennsylvania on, south, and east of a line beginning at the Pennsylvania-Maryland State line, thence along U.S. Highway 219 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 220, thence along U.S. Highway 220 to Williamsport, thence along U.S. Highway 15 to Trout Run, thence along Pennsylvania Highway 14 to the Pennsylvania-New York State line, to points in New Mexico; ((1) points in that part of Georgia, that part of North Carolina, or that part of South Carolina within 175 miles of Chattanooga, Tenn.; (2) points in that part of Georgia or that part of South Carolina within 50 miles of Atlanta, Cartersville, or Marietta, Ga., or Columbia, S.C., and within 175 miles of Chattanooga, Tenn.; and (3) points in Oklahoma);* (3) from points in North Carolina to points in New Mexico; ((1) points in that part of North Carolina or that part of South Carolina within 175 miles of Chattanooga, Tenn.; (2) points in that part of Georgia or that part of South Carolina within 50 miles of Atlanta, Cartersville, or Marietta, Ga., or Columbia, S.C., and within 175 miles of Chattanooga, Tenn.; and (3) points in Oklahoma);* (4) from points in Virginia and that part of West Virginia on, south, and east of a line beginning at the West Virginia-Kentucky State line, thence along U.S. Highway 119 to Weston, thence along U.S. Highway 33 to Elkins, thence along U.S. Highway 219 to the West Virginia-Maryland State line, to points in that part of New Mexico; ((1) points in North Carolina within 175 miles of Chattanooga, Tenn.; (2) points in that part of Georgia or that part of South Carolina within 50 miles of Atlanta, Cartersville, or Marietta, Ga., or Columbia, S.C., and within 175 miles of Chattanooga, Tenn.; and (3) points in Oklahoma);* (5) from points in South Carolina to points in New Mexico (points in Oklahoma).* The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 111545 (Sub-No. E623), filed June 3, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, between points in Kentucky, on the one hand, and, on the other, points in that part of Wisconsin on and west of a line beginning at the Wisconsin-Iowa State line, thence along U.S. Highway 151 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Wisconsin Dells, thence along Wisconsin Highway 13 to Wisconsin Rapids, thence along Wisconsin Highway 54 to Plover, thence along U.S. Highway 51 to the Wisconsin-Michigan State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 111545 (Sub-No. E625), filed June 3, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Georgia and that part of Alabama on and north of U.S. Highway 78, to points in that part of Virginia on, east, and south of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 220 to junction U.S. Highway 11, thence along U.S. Highway 11 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of the plant site of Broadmore Homes of North Carolina, Inc., near Reidsville, N.C.

No. MC 111545 (Sub-No. E628), filed May 19, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, between points in the Lower Peninsula of Michigan, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateways of points in Iowa and Illinois.

No. MC 111545 (Sub-No. E636), filed May 19, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, between points in Maryland, on the one hand, and, on the other, points in that part of Tennessee within 175 miles of Chattanooga, Tenn., and on, south, and west of a line beginning at the Tennessee-Kentucky State line, thence along Alternate U.S. Highway 41 to Nashville, thence along U.S. Highway 70 to Lebanon, thence along U.S. Highway 70N to Crossville, thence along U.S. Highway 70 to Knoxville, thence along U.S. Highway 11E to Morristown, thence along U.S. Highway 25E to junction U.S. Highway 25, thence along U.S. Highway 25 to the Tennessee-North Carolina State line. The purpose of this filing is to eliminate the gateway of points in North Carolina or Georgia.

No. MC 111545 (Sub-No. E637), filed May 19, 1974. Applicant: HOME TRANSPORTATION COMPANY, INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, (1) from points in the Lower Peninsula of Michigan, to points in Colorado; and (2) from points in Kentucky and that part of Tennessee on, north, and east of a line beginning at the Tennessee-Missouri State line, thence along Tennessee Highway 20 to Jackson, thence along U.S. Highway 45 to the Tennessee-Mississippi State line, to points in that part of Colorado on, north, and west of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 24 to Colorado Springs, thence along U.S. Highway 85 to Pueblo, thence along U.S. Highway 50 to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line. The purpose of this filing is to eliminate the gateways of points in Iowa and Missouri.

No. MC 111545 (Sub-No. E638), filed May 19, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* (except knitting machines), the transportation of which, because of size or weight, requires the use of special equipment, from points in Rhode Island to points in that part of Arkansas on and west of a line beginning at the Arkansas-Oklahoma State line, thence along Arkansas Highway 16 to Lurton, thence along Arkansas Highway 7 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateways of (1) points in that part of Georgia within 50 miles of Atlanta, Cartersville, or Marietta, Ga.; and (2) points in Oklahoma.

No. MC 11545 (Sub-No. E642), filed June 2, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such incinerators and refuse-treatment equipment, and parts, attachments, and accessories*, for incinerators and refuse-treatment equipment, as are machinery and machine tools, the transportation of which, because of size or weight requires the use of special equipment, (1) from points in Connecticut to points in Arizona, California, New Mexico, and Oregon, (2) from points in Delaware and the District of Columbia to points in Arizona, California, Idaho, Nevada, New Mexico, Oregon, Utah, and Washington, (3) from points in Maine to points in Arizona, California, Nevada, New Mexico, and Oregon, (4) from points in Maryland to points in Arizona, California, New Mexico, and that part of Oregon on, south, and west of a line beginning at the Oregon-Idaho State line, thence along Interstate Highway 80N to Portland, thence along Interstate Highway 5 to the Oregon-Washington State line, (5) from points in Massachusetts, New Hampshire, New Jersey, and Vermont to points in Arizona, California, and New Mexico, and (6) from points in Rhode Island to points in Arizona, California, Nevada, New Mexico, Oregon, and Utah. The purpose of this filing is to eliminate the gateways of (1) the site of the Bell Bomer Plant near Marietta, Ga.; and (2) Springfield, Mo.

No. MC 111545 (Sub-No. E643), filed May 19, 1974. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30062. Applicant's representative: Robert E. Born (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, requires the use of special equipment, between points in Kansas within 300 miles of Ames, Iowa, on the one hand, and, on the other, points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 136 to Indianapolis, thence along U.S. Highway 40 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 112822 (Sub-No. E207) (Correction), filed June 5, 1974, published in the FEDERAL REGISTER November 18, 1974. Applicant: BRAY LINES INCORPORATED, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese and cheese products*, in vehicles equipped with mechanical refrigeration, from points in Oklahoma east and north of a line beginning at the Oklahoma-Kansas State line and extending along U.S. Highway 81 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Oklahoma-Arkansas State line to points in California in and north of Santa Cruz, Santa Clara, Merced, Madera and Mono Counties. The purpose of this filing is to eliminate the gateway of Logan, Utah. The purpose of this correction is to indicate the destination.

No. MC 112822 (Sub-No. E216) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER November 18, 1974. Applicant: BRAY LINES, INC., P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in California on and north of a line beginning at San Francisco and extending along Interstate Highway 80 to the California-Nevada State line to points in Louisiana. The purpose of this filing is to eliminate the gateway of points in Idaho. The purpose of this correction is to indicate the destination.

No. MC 114211 (Sub-No. E160), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except commodities which because of size or weight require the use of special equipment, and commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in that part of Iowa on, south, and east of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Nebraska State line, to points in that part of California on and south of a line beginning at the Pacific Ocean, thence along

California Highway 1 to junction California Highway 152, thence along California Highway 152 to junction California Highway 99, thence along California Highway 99 to junction California Highway 58, thence along California Highway 58 to junction Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line, that part of Nevada on and south of a line beginning at the Nevada-California State line, thence along Interstate Highway 15 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Nevada-Arizona State line, that part of Arizona on and south of a line beginning at the Nevada-Arizona State line, thence along U.S. Highway 93 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Interstate Highway 40.

Thence along Interstate Highway 40 to the Arizona-New Mexico State line, that part of New Mexico on and south of a line beginning at the New Mexico-Arizona State line, thence along Interstate Highway 40 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Texas State line, that part of Oklahoma on and south of a line beginning at the Texas-Oklahoma State line, thence along U.S. Highway 66 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Oklahoma Highway 3, thence along Oklahoma Highway 3 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Oklahoma-Arkansas State line, that part of Arkansas on and south of a line beginning at the Oklahoma-Arkansas State line, thence along U.S. Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Arkansas-Louisiana State line, and that part of Louisiana on and south of a line beginning at the Arkansas-Louisiana State line, thence along U.S. Highway 71 to junction U.S. Highway 171, thence along U.S. Highway 171 to junction Louisiana Highway 10, thence along Louisiana Highway 10 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E161), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Tractors*, and (2) *Road making machinery, and contractors' equipment and supplies* which are designed for use in conjunction with tractors, from points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 25 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction South Dakota Highway 38, thence along South Dakota Highway 38 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line, to points in Washington, that part of California on, north, and west of a line beginning at Point Arena, thence along California Highway 253 to junction California Highway 101, thence along California Highway 101 to junction California Highway 20, thence along California Highway 20 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 97, thence along U.S. Highway 97 to the California-Oregon State line, that part of Oregon on, north, and west of a line beginning at the California-Oregon State line.

* * * * *

Thence along U.S. Highway 97 to junction Oregon Highway 140, thence along Oregon Highway 140 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Oregon Highway 82, thence along Oregon Highway 82 to junction Oregon Highway 3, thence along Oregon Highway 3 to the Oregon-Washington State line, that part of Idaho on and north of U.S. Highway 12, that part of Montana on and north of a line beginning at the Idaho-Montana State line, thence along U.S. Highway 12 to junction Montana Highway 200, thence along Montana Highway 200 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Montana-North Dakota State line, that part of North Dakota on, north, and west of a line beginning at the Montana-North Dakota State line, thence along U.S. Highway 2 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 5, thence along U.S. Highway 5 to junction North Dakota Highway 42, thence along North Dakota Highway 42 to the International Boundary line between the United States and Canada. The purpose of this filing is to eliminate the gateway of points in that part of Minnesota located in the Fargo, N. Dak., Commercial Zone.

No. MC 114211 (Sub-No. E162), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, from Waverly, Iowa, to points in Washington, Oregon, Idaho, Montana, Utah, California, Nevada, Arizona, North Dakota, that part of Wyoming on and west of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 16 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 430, thence along Wyoming Highway 430 to the Wyoming-Colorado State line, and that part of New Mexico on, south, and west of a line beginning at the Colorado-New Mexico State line, thence along New Mexico Highway 3 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction New Mexico Highway 18, thence along New Mexico Highway 18 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E164), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Tractors*, and (2) *Road making machinery, and contractors' equipment and supplies*, designed for use in conjunction with tractors, from points in that part of Minnesota on and north of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-Wisconsin State line, to points in Washington, Oregon, Idaho, that part of Montana on and west of a line beginning at the International Boundary line between the United States and Canada, thence along Interstate Highway 15 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 310, thence along U.S. Highway 310 to the Wyoming-Montana State line, and that part of Wyoming on and west of a line beginning at the Montana-Wyoming State line, thence along Wyoming Highway 120 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line. The purpose of this filing is to eliminate the gateways of points in that part of Minnestota located in the Fargo, N. Dak. Commercial Zone.

No. MC 114211 (Sub-No. E170), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 71 to junction Iowa Highway 4, thence along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 212, thence along Iowa Highway 212 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Iowa-Illinois State line, to points in that part of Colorado on and west of Interstate Highway 75. The purpose of this filing is to eliminate the gateways of Ft. Dodge, Iowa, and Beatrice, Nebr.

No. MC 126372 (Sub-No. E1), filed June 4, 1974. Applicant: SUREFINE TRANSPORTATION CO., 1925 East Vernon Ave., Los Angeles, Cal. 90058. Applicant's representative: Arthur J. Piken, Suite 1515, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: (I) *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *New store and office fixtures* uncrated, as described in the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in California to points in Arkansas, Kansas, and Oklahoma (points in New Mexico)*; (II) *Such new kitchen equipment*, uncrated as described in appendix IV to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, as is new furniture or new commercial or institutional fixtures, uncrated, from San Diego, Calif., and points in Los Angeles and Orange Counties, Calif., to points in Arkansas, Kansas, and Oklahoma (points in New Mexico)*; (III) *New furniture*, uncreated as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *new store and office fixtures*, uncrated as described in appendix III to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (1) from points in that part of Idaho on and south of U.S. Highway 30 to points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Kansas State line, thence along Oklahoma Highway 34 to junction Interstate Highway 40, thence along Interstate Highway 40 to Sayre, thence along U.S. Highway 283 to the Oklahoma-Texas State line.

(2) From points in Idaho to points in that part of the New Mexico south of a line beginning at Biklabito, thence along New Mexico Highway 504 to Farmington, thence along New Mexico Highway 17 to Bloomfield, thence along New Mexico Highway 64 to Cuba, thence along New Mexico Highway 126 to junction New Mexico Highway 4, thence along New Mexico Highway 4 to Pojeague, thence along U.S. Highway 285 to junction Interstate Highway 25, thence along Interstate Highway 25 to Las Vegas, thence along New Mexico Highway 104 to Tucumcari, thence along U.S. Highway 66 to the New Mexico-Texas State line; (3) from points in that part of Idaho on and north of a line beginning at the Idaho-Oregon State line, thence along Interstate Highway 80N to junction Interstate Highway 15W, thence along Interstate Highway 15W to Pocotello, thence along Interstate Highway 15 to Idaho Falls, thence along U.S. Highway 26 to the Idaho-Wyoming State line, to points in Arkansas; and (4) from Boise, Idaho, to points in that part of Kansas north of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 54 to Minneola, thence along U.S. Highway 283 to Dodge City, thence along U.S. Highway 50 to Newton, thence along Interstate Highway 35W to Sedgwick, thence along Kansas Highway 196 to Eldorado, thence along U.S. Highway 54 to the Kansas-Missouri State line (points in Arizona and New Mexico)*; (5) from points in Idaho to points in Texas (points in Arizona)*.

(IV) (1) *New furniture*, (2) *new institutional fixtures*, uncrated, and (3) *new commercial fixtures*, uncrated, when moving in mixed loads and on the same bill of lading with the commodities in (1) and (2) above, (1) from points in that part of Utah west of a line beginning at the Utah-Idaho State line, thence along U.S. Highway 91 to Brigham City, thence along Interstate Highway 15 to Provo, thence along U.S. Highway 89 to the Utah-Arizona State line, to points in Arkansas; (2) from points in that part of Utah north and west of a line beginning at the Utah-Nevada State line, thence along the Box Elder-Tooele County line and the Weber-Davis County line, to junction Interstate 15, thence along Interstate 15 to Provo, thence along U.S. Highway 91 to Levan, thence along Utah Highway 28 to Gunnison, thence along U.S. Highway 89 to Utah-Arizona State line, to points in that part of Kansas south of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 54 to Liberal, thence along U.S. Highway 83 to Garden City, thence along U.S. Highway 156 to Larned, thence along U.S. Highway 56 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Interstate Highway 70, thence along Interstate Highway 70 to Kansas City; and (3) from points in that part of Utah west of a line beginning at the Utah-Idaho State line, thence along U.S. Highway 19 to Brigham City, thence along Interstate Highway 15 to Santaquin, thence along U.S. Highway 91 to Levan, thence along Utah Highway 28 to Gunnison, thence along U.S. Highway 89 to the Utah-Arizona State line, to points in Oklahoma (points in New Mexico)*.

(V) *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *new store and office fixtures*, uncrated, as described in appendix III to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (1) from points in that part of Arizona south of Interstate Highway 40, to points in Arkansas and Kansas; (2) from points in that part of Arizona east of a line beginning at Nogales, thence along U.S. Highway 89 to Tucson, thence along Interstate Highway 10 to Phoenix, thence along U.S. Highway 60 to the Arizona-New Mexico Stateline, north of a line beginning at Nogales, thence along Arizona Highway 82 to junction Arizona Highway 90, thence along Arizona Highway 90 to junction U.S. Highway 80, thence along U.S. Highway 80 to Douglas, and west of U.S. Highway 666, to points in Idaho and Montana; (3) from points in that part of Arizona south of Interstate Highway 40 to points in Colorado and Oklahoma; and (4) from points in that part of Arizona south of Interstate Highway 40, to points in that part of Montana east of a line beginning at the Wyoming-Montana State line, thence along U.S. Highway 87 to Sheridan, thence along Interstate Highway 25 to Casper, thence along Wyoming Highway 220 to Muddy Gap, thence along U.S. Highway 287 to Rawlins, thence along Interstate Highway 80 to the Wyoming-Nebraska State line (points in New Mexico)*; (VI) *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and *new store and office fixtures*, uncrated, as described in appendix III to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in Washington, Oregon, and Idaho, to points in New Mexico and Texas (points in Arizona or California)*.

(VIII). *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *new store and office fixtures*, uncrated as described in appendix III to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (1) from points in that part of Washington on and west of a line beginning at Seattle, thence along Interstate Highway 5 to Vancouver, to points in that part of Colorado on, south, and east of a line beginning at the Colorado-Nebraska State line, thence along U.S. Highway 34 to Brush, thence along Colorado Highway 71 to Lost Chance, thence along U.S. Highway 36 to Denver, thence along Interstate Highway 25 to the Colorado-New Mexico State line; (2) from points in that part of Oregon on and west of a line beginning at Astoria, thence along U.S. Highway

30 to Portland, thence along U.S. Highway 26 to junction U.S. Highway 97, thence along U.S. Highway 97 to the Oregon-California State line, to points in Colorado and New Mexico; (3) from points in that part of Oregon west of a line beginning at Astoria, thence along U.S. Highway 30 to Portland, thence along Interstate 80N to junction U.S. Highway 197, thence along U.S. Highway 197 to junction U.S. Highway 97, thence along U.S. Highway 97 to Bend, thence along U.S. Highway 20 to Riley.

Thence along U.S. Highway 295 to New Pine Creek, to points in Texas; (4) from points in that part of Oregon west of Interstate Highway 5, to Laramie and Cheyenne, Wyo.; (5) from Klamath Falls, Oreg., to Lander, Rock Springs, Casper, Cheyenne, and Laramie, Wyo.; (6) from Portland, Oreg., to Cheyenne and Laramie, Wyo.; (7) from Grants Pass, Oreg., to Lander, Rock Springs, Casper, Cheyenne, and Laramie, Wyo.; and (8) from Eugene, Oreg., to Lander, Rock Springs, Casper, Cheyenne, and Laramie, Wyo. (points in California)*; (9) from points in that part of Oregon on and west of a line beginning at Astoria, thence along U.S. Highway 30 to Portland, thence along U.S. Highway 26, to junction U.S. Highway 97, thence along U.S. Highway 97 to Bend, thence along U.S. Highway 20 to Riley, thence along U.S. Highway 395 to New Pine Creek, to points in Oklahoma and that part of Kansas south of a line beginning at the Kansas-Colorado State line, thence along Kansas Highway 96 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 40, thence along U.S. Highway 40 to Junction City, thence along Kansas Highway 18 to Manhattan, thence along U.S. Highway 24 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S. Highway 59, thence along U.S. Highway 59 to Atchison; and (10) from points in that part of Oregon west of a line beginning at Astoria, thence along U.S. Highway 30 to Portland, thence along Interstate Highway 80N to junction U.S. Highway 197, thence along U.S. Highway 197 to junction U.S. Highway 97, thence along U.S. Highway 97 to Bend, thence along U.S. Highway 20 to Riley, thence along U.S. Highway 395 to New Pine Creek, to points in Arkansas (points in California and New Mexico)*; (11) from points in Washington to points in Texas, Oklahoma, and Arkansas; (12) from points in that part of Washington west of a line beginning at the International Boundary line between the United States and Canada, thence along Washington Highway 31 to Newport, thence along U.S. Highway 2 to Spokane, thence along Interstate Highway 90 to Vantage.

Thence along Washington Highway 243 to junction Washington Highway 24, thence along Washington Highway 24 to junction Washington Highway 241, thence along Washington Highway 241 to Roosevelt; and (12) from points in that part of Washington west of a line beginning at Blaine, thence along Interstate Highway 5 to Everett, thence along U.S. Highway 2 to Monroe, thence along U.S. Highway 522 to Bothell, thence along Washington Highway 202 to Fall City, thence along Washington Highway 203 to North Bend, thence along Interstate Highway 90 to junction Washington Highway 18, thence along Washington Highway 18 to junction Interstate Highway 5, thence along Interstate Highway 5 to Vancouver, to points in that part of Kansas south of a line beginning at the Kansas-Colorado State line, thence along U.S. Highway 40 to Oakley, thence along Interstate Highway 70 to Junction City, thence along Kansas Highway 18 to Manhattan, thence along U.S. Highway 24 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S. Highway 59, thence along U.S. Highway 59 to Atchison (points in Arizona and New Mexico)*. (VIII). *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in that part of Montana west of a line beginning at Sweetgrass, thence along Interstate Highway 15 to Helena, thence along U.S. Highway 287 to junction U.S. Highway 10, thence along U.S. Highway 10 to Bozeman, thence along U.S. Highway 191 to the Montana-Wyoming State line, to points in that part of Texas south of U.S. Highway 82 (points in Arizona)*.

(IX). *New furniture*, uncrated, as described in appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *new store and office fixtures*, uncrated, as described in appendix III to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (1) from points in that part of Montana west of a line beginning at Sweetgrass, thence along Interstate Highway 15 to Helena, thence along U.S. Highway 287 to junction U.S. Highway 10, thence along U.S. Highway 10 to Bozeman, thence along U.S. Highway 191 to the Montana-Wyoming State line, to points in that part of New Mexico on, south, and west of a line beginning at Biklabito, thence along New Mexico Highway 504 to Shiprock, thence along U.S. Highway 550 to Farmington, thence along U.S. Highway 64 to Bloomfield, thence along New Mexico Highway 44 to Cuba, thence along New Mexico Highway 126 to junction New Mexico Highway 4, thence along New Mexico Highway 4 to Poloague, thence along U.S. Highway 285 to Santa Fe, thence along U.S. Highway 85 to Las Vegas, thence along U.S. Highway 84 to junction Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Texas State line (points in Arizona)*; (2) from Butte, Mont., to points in Oklahoma and that part of Arkansas south of a line beginning at Ft. Smith, thence along Interstate Highway 40 to Little Rock, thence along U.S. Highway 70 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Interstate Highway 40, thence along Interstate Highway 40 to West Memphis; and (3) from points in that part of Montana west of a line beginning at Sweetgrass, thence along Interstate Highway 15 to Helena, thence along U.S. Highway 287 to junction U.S. Highway 10, thence along U.S. Highway 10 to Bozeman, thence along U.S. Highway 191 to the Montana-Idaho State line, to points in that part of Arkansas south of U.S. Highway 82 (points in Arizona and New Mexico)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going into Effect Today

NOTE: There are no items eligible for inclusion in the list of RULES GOING INTO EFFECT.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 669, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period December 8–14, 1974. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 668 (39 FR 42673). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* Paragraph (b) (1) of § 910.969 (Lemon Regulation 669 (39 FR 42673)) is hereby amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period December 8, 1974, through December 14, 1974, is hereby fixed at 210,000 cartons."

(Secs. 1–16, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 12, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-29297 Filed 12-16-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Area Quarantined

This amendment quarantines a portion of Seward County in Kansas because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the area quarantined.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (d) relating to the State of Kansas is amended to read:

§ 73.1a Notice of quarantine.

* * * * *

(d) Notice is hereby given that cattle in certain portions of the State of Kansas are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following area in such State is hereby quarantined because of said disease:

* * * * *

(3) That portion of Seward County comprised of sec. 16, T. 32 S., R. 33 W.

(Sec. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 2 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendment shall become effective December 12, 1974.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it and other public procedure with respect is found upon good cause that notice to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of December 1974.

J. K. ATWELL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 1—DIVESTMENT SECURITIES REGULATION

Securities Eligible for Underwriting and Unlimited Holding

The following new sections are added to 12 CFR Part 1:

Sec.
1.574 Parking Authority of the City of Pasadena.
1.575 Camarillo Library Authority.
1.576 Maine Municipal Bond Bank.
1.577 General Services Administration Fourth Public Buildings Trust.
1.578 Board of Regents, University of Iowa, Hospital Revenue Bonds.
1.579 City of Long Beach-Los Angeles County Civic Center Authority.
1.580 Alhambra Library Building Corporation (California).
1.581 Hospital Authority of Fulton County (Georgia).
1.582 New York State Housing Finance Agency, Urban Rental Project.
1.583 New York Job Development Authority.

1.384 New Haven, Connecticut, Parking Revenue Bonds.
1.385 Farmers Home Insured Note Trust.
1.386 Connecticut Housing Finance Authority, Housing Mortgage Finance Program Bonds.
1.387 New Jersey Sports and Exposition Authority.
1.388 New York State Thruway Authority, Emergency Highway Bonds.
1.389 Louisiana Stadium and Exposition District.
1.390 New Jersey Health Care Facilities Financing Authority.
1.391 Water and Sewer Improvement Bonds, Series 1974, Northwest Houston Water Supply Corporation.
1.392 Parking Authority of the City of Hawthorne (California).
1.393 Parking Authority of the City of Fullerton (California).
1.394 Parking Authority of the City of Long Beach (California).
1.395 Los Angeles County-City of Compton Civic Center Authority, City Hall Facilities Revenue Bonds.
1.396 Virginia Housing Development Authority.

AUTHORITY: Sections 1.374–1.396 issued under R.S. 324 et seq., as amended, paragraph Seventh of R.S. 5136, as amended; (12 U.S.C. 1 et seq.), 24(7), unless otherwise noted.

§ 1.374 Parking Authority of the City of Pasadena.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $1,650,000 Revenue Bonds of the Parking Authority of the City of Pasadena for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Parking Authority of the City of Pasadena is a public body corporate and politic created by the laws of California but authorized to function only upon a finding of need. The Board of Directors of the City has made the appropriate finding and, in accordance with the law, has declared itself to be the Parking Authority. Under the law, a parking authority is authorized to issue revenue bonds to finance public parking facilities and may issue such bonds without obtaining the approval of the electors of the city where the bonds are issued to finance a project which is to be leased to the city and where the principal of and interest on the bonds are to be payable from rentals paid by the city under such lease.

(2) The Authority is issuing these bonds to finance the acquisition of a six level, 549 space parking structure and a leasehold interest in the site on which it is erected. The structure and the leasehold interest in the site, located in the central business district of the City will be leased by the Authority to the City.

(3) Under the lease rental agreement the city unconditionally promises to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expenses. The City, which possesses general powers of taxation will thus commit its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $1,650,000 1973 Revenue Bonds of the Parking Authority of the City of Pasadena are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Acting Comptroller's letter dated June 6, 1973).

§ 1.375 Camarillo Library Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $885,000 Camarillo Library Authority, 1973 Revenue Bonds, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Camarillo Library Authority is a public entity created under the laws of California by an agreement between City of Camarillo and the County of Ventura. Under this agreement, the Authority is authorized to acquire a site and to acquire, construct, maintain, operate and lease public buildings for library purposes and related facilities to be leased to and operated by the County, and to issue bonds to finance such projects. The Authority is issuing these bonds for that purpose.

(2) The County, as required by its agreement with the City, has unconditionally promised in the lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet the annual interest and principal payments on these bonds as well as other necessary expenses. The County which possess general powers of taxation has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $885,000 Camarillo Library Authority, 1973 Revenue Bonds, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Acting Comptroller's letter dated June 18, 1973).

§ 1.376 Maine Municipal Bond Bank.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the approximately $10,300,000 Maine Municipal Bond Bank 1973 Series A Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Maine Municipal Bond Bank is a public body corporate and politic established in 1972 by an act of the Legislature of the State of Maine as an instrumentality exercising public and essential governmental functions. The principal function of the Bank is to lend money to governmental units of the State through the purchase of their municipal bonds (includes both general obligation and assessment bonds) and to issue its own bonds to provide funds for such purposes.

(2) These bonds will be secured by a portfolio of the municipal bonds purchased. They will also be secured by a debt service reserve fund which will be established in an amount not less than the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds. In order to assure the maintenance of the required debt service reserve in the reserve fund, the Act provides for the annual appropriation and payment from State funds for deposit in the reserve fund of such sum as is certified to be necessary to restore the fund to an amount equal to the maximum amount of principal and interest maturing and becoming due in any succeeding calendar year on the bonds of the Bank. The State, which possesses general powers of taxation has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the approximately $10,300,000 Maine Municipal Bond Bank 1973 Series A Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated July 9, 1973.)

§ 1.377 General Services Administration Fourth Public Building Trust.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of General Services Administration Fourth Public Buildings Trust, Series H and I (1973) Participation Certificates for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Administrator of General Services is offering these Participation Certificates as a part of a program authorized by the Public Buildings Amendments of 1972 to finance the construction of a number of public buildings projects and their purchase by the United States after periods of years following completion. The Participation Certificates evidence undivided interests in the unconditional obligation of the United States under a trust indenture to pay the purchase price of the projects covered thereby. This obligation includes a requirement to pay the principal of and premiums, if any, and interest on the Participation Certificates.

(2) In an opinion of October 6, 1972 addressed to the Acting Administrator, General Services Administration, the Attorney General of the United States ruled that the obligation of the United States to pay the purchase price and the Participation Certificates evidencing undivided interests in such obligation constitute an absolute and unconditional general obligation of the United States for which the full faith and credit of the United States are pledged.

(c) *Ruling.* It is our conclusion that the General Services Administration Fourth Public Buildings Trust, Series H and I (1973) Participation Certificates are obligations of the United States and are eligible for purchase, dealing in,

underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24. (Comptroller's letter dated July 18, 1973 and January 9, 1974).

§ 1.378 Board of Regents, University of Iowa, Hospital Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $10,000,000 State Board of Regents, State University of Iowa, Hospital Revenue Bonds Series 1973, for purchase, dealing in, underwriting and holding by national banks subject to the ten per cent limitation of paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The University includes colleges of Medicine, Dentistry, Nursing and Pharmacy which have been the nucleus for the development of a large university-based Medical Center.

(2) The State Board of Regents, the governing body of the University of Iowa and a number of other institutions of higher learning in the State of Iowa, is authorized under the laws of Iowa to issue revenue bonds to finance the construction of buildings and facilities for the University Hospitals at the University of Iowa. The bonds are to be payable solely from and are to be secured by a pledge of a sufficient portion of the non-appropriated revenues of the Hospitals.

(3) The Board is issuing these bonds to finance the construction of a major central tower project at the University Hospitals which will allow for the integral expansion of many departments, clinics and in-patient facilities on a level by level basis.

(c) *Ruling.* It is our conclusion that the $10,000,000 State Board Regents, State University of Iowa, Hospital Revenue Bonds Series 1973, are issued by an agency of the State of Iowa for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the ten per cent limitation with respect to aggregate holdings of obligations issued by the Iowa State Board of Regents. (Comptroller's letter dated July 25, 1973.)

§ 1.379 City of Long Beach-Los Angeles County Civic Center Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $38,000,000 City of Long Beach-Los Angeles County Civic Center Authority, Long Beach County Civic Center Revenue Bonds for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The City of Long Beach-Los Angeles County Civic Center Authority is a public entity created under the laws of California of an agreement between the City of Long Beach and the County of Los Angeles. Under this agreement, the Authority is authorized to acquire, construct and lease public buildings, and to issue bonds to finance such projects. The Authority is issuing these bonds for the purpose of financing (i) the construction of a new 14-story city hall building and a 2-story main library complex, and (ii) the acquisition of underground parking facilities which will be leased to the City.

(2) The City, as required by its agreement with the County, has unconditionally promised in the lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $36,000,000 City of Long Beach-Los Angeles County Civic Center Authority, Long Beach Civic Center Revenue Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated July 30, 1973).

§ 1.380 Alhambra Library Building Corporation (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $1,250,000 Alhambra Library Building Corporation Leasehold Mortgage Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) Alhambra Library Building Corporation, a California nonprofit corporation acting for the City of Alhambra, was created to construct or provide for the construction on land leased to it by the City of municipal buildings and related facilities to be leased to and operated by the City. The Corporation is issuing these bonds to finance the construction of a library and related facilities.

(2) The City has unconditionally promised in the lease rental agreement to pay annual lease rentals to the Corporation in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $1,250,000 Alhambra Library Building Corporation Leasehold Mortgage Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated August 7, 1973).

§ 1.381 Hospital Authority of Fulton County (Georgia).

(a) Request. The Comptroller of the Currency has been requested to rule on the eligibility of the $9,000,000 The Hospital Authority of Fulton County Revenue Anticipation Certificates, Series 1973, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Hospital Authority of Fulton County is a public body corporate and politic and an instrumentality of the State of Georgia created by the Hospital Authorities Law of Georgia and activated in accordance with the law by a resolution of the Board of Commissioners of Fulton County. The Authority is authorized to acquire, construct, reconstruct, improve, alter, and operate hospital projects and to issue revenue anticipation certificates or other evidences of indebtedness to provide funds to carry out its duties.

(2) The Authority financed the acquisition and construction of Northside Hospital through the issuance and sale of $3,000,000 of its Revenue Anticipation Certificates, Series 1966. It is issuing its 1973 series certificates to finance the acquisition and construction of an additional 4-story building to the Northside Hospital facilities. The certificates of both series are secured by a pledge of the gross revenues of the project as added to. The Authority is required to deposit monthly from such gross revenues into a sinking fund amounts sufficient to pay the principal of and the interest on the certificates as they become due and payable.

(3) The Authority and Fulton County have entered into a contract which provides that if the Authority should default in making the required sinking fund payments, continuing for 60 days, or default in making any payment when due of principal and interest on the certificates, continuing for 30 days, the County will immediately provide to the Authority sufficient funds to make whatever payments are necessary to cure such default and thereafter will make all required sinking fund payments until all of the certificates and the interest thereon have been fully paid or provision has been duly made therefor.

(4) The County possesses the general powers of property taxation and its assumption of the obligation to pay the amounts required by the contract is within its powers under the Constitution and laws of Georgia and constitutes a pledge, of its full faith and credit.

(c) *Ruling.* It is our conclusion that the $9,000,000 Hospital Authority of Fulton County Revenue Anticipation Certificates, Series 1973 are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated September 20, 1973).

§ 1.382 New York State Housing Finance Agency, Urban Rental Project.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $163,000,000 New York State Housing Finance Agency Urban Rental Project Bonds, 1973 Series A and B, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

XUM V 39 I 243 DEC 17 1974 XUM

(b) *Opinion.* (1) The State of New York has required, with respect to Urban Renewal Project Bonds of the New York State Housing Finance Agency, the maintenance of a reserve fund sufficient to meet the next succeeding year's annual requirements for bond principal and interest payments and has provided for the annual apportionment and payment from State funds for deposit to the reserve fund of such sum as is certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $163,000,000 New York State Housing Finance Agency Urban Rental Project Bonds, 1973 Series A and B are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated November 8, 1973.)

§ 1.383 New York Job Development Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $5,000,000 New York Job Development Authority, Pollution Control Bonds, Series 1 to 5, inclusive, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The New York Job Development Authority is a body corporate and politic and a public benefit corporation created in 1962 by the New York Job Development Authority Act of the New York State Legislature. The Authority is authorized to assist local development corporations in financing the cost of acquisition, construction, replacement or rehabilitation and installation of pollution control facilities. The Authority is also authorized to issue its pollution control bonds to provide funds for such purposes.

(2) These bonds will be secured by a pollution control capital reserve fund which will be established and maintained in an amount not less than the maximum amount of principal and interest maturing and coming due in any succeeding year on all outstanding pollution control bonds of the Authority. In order to secure the maintenance of this fund, the Act provides for the annual apportionment and payment from State funds for deposit to the fund of such sum as is certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $5,000,000 New York Job Development Authority, Pollution Control Bonds Series 1 to 5, inclusive, are obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated November 12, 1973).

§ 1.384 New Haven, Connecticut, Parking Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $5,215,000 City of New Haven, Connecticut, Parking Revenue Bonds, Series 1973, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The City of New Haven is authorized by a Special Act of the General Assembly of Connecticut to issue revenue bonds to finance parking facilities and to covenant with bondholders to make annual appropriations which shall be pledged to the payment of the principal and interest on the bonds.

(2) The City is issuing these bonds to finance the acquisition, construction and equipment of a 750-car parking garage on the land to be leased from the Hospital of San Rafael. The completed facility will be leased to the Hospital which will be obligated to pay rent in an amount sufficient to pay all of the interest, principal and redemption, premium, if any, on these bonds and to pay other necessary expenses.

(3) The Board of Aldermen of the City of New Haven, by resolution, have provided for the creation and maintenance of a reserve sufficient to meet the maximum amount of principal and interest maturing and coming due in any succeeding year on all outstanding bonds issued under the resolution and have covenanted to appropriate in each year from the general funds of the City an amount sufficient to satisfy any deficiency in such reserve. The City, which possesses general powers of taxation, has, as authorized by state law, thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $5,215,000 City of New Haven, Connecticut, Parking Revenue Bonds, Series 1973, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated November 12, 1973).

§ 1.385 Farmers Home Insured Note Trust.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of Certificates of Beneficial Ownership in the Farmers Home Insured Note Trust for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Farmers Home Administration, an agency of the Department of Agriculture, proposes to offer approximately $300,000,000 of these certificates with a maturity of five years and approximately $200,000,000 with a maturity of fifteen years, each with an agreed rate of interest. The Administration has agreed to supplement the interest payments on the Notes (which evidence loans made to farmers and other rural residence) sufficiently to permit the Trustee to pay interest on the Certificates at the agreed rate and has agreed to repurchase the Notes from the Trust on the maturity date of the Certificates at a price equal to the aggregate principal amount of the outstanding Certificates.

(2) In an opinion of December 29, 1969, addressed to the Secretary of Agriculture, the Attorney General of the United States ruled with respect to a similar offering that agreements to insure payments of principal and interest to investors, to repurchase insured notes from such investors on a specified date and to make proposed supplementary payments would be valid and would constitute general obligations of the United States backed by its full faith and credit. In a letter of November 7, 1973 addressed to the Secretary of Agriculture, the Attorney General expressed the view with respect to this offering that the marketing of the notes through the issuance of certificates of beneficial ownership in the trust consisting in no way altered the full faith and credit behind the notes and that such guaranty would extend to the beneficial owner.

(c) *Ruling.* It is our conclusion that Certificates of Beneficial Ownership in the Farmers Home Insured Note Trust are obligations of the United States and eligible for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24 (Comptroller's letter dated November 26, 1973).

§ 1.386 Connecticut Housing Finance Authority, Housing Mortgage Finance Program Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the Housing Mortgage Finance Program Bonds of the Connecticut Housing Finance Authority for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Connecticut Housing Finance Authority is a body politic and corporate constituting a public instrumentality and political subdivision of the State of Connecticut created in 1969 by an Act of the General Assembly of the State. The principal purpose of the Authority is to make mortgage loans to finance the construction, rehabilitation, purchase or leasing of housing for low and moderate income families and persons in the State. The Authority is authorized to borrow money for such projects through the issuance of its bonds, notes and other obligations and is issuing these bonds for that purpose.

(2) The Act requires the Authority to establish and maintain a capital reserve fund sufficient to meet the maximum payments required in the succeeding calendar year for principal and interest on its outstanding bonds, and provides that on or before December 1 of each

year there is deemed to be appropriated from the State general fund such sums as shall be certified by the chairman of the Authority as necessary to restore said fund to an amount equal to the required minimum capital reserve and such amounts shall be allotted and paid to the Authority. The State of Connecticut which possesses general powers of taxation has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the Housing Mortgage Finance Program Bonds of the Connecticut Housing Finance Authority are general obligations of a State under paragraph Seventh of 12 U.S.C. 24 and accordingly are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letters dated December 10, 1973, May 28, 1974 and October 23, 1974).

§ 1.387 New Jersey Sports and Exposition Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $295,000,000 New Jersey Sports and Exposition Authority, Sports Complex Bonds, 1974 Series, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The New Jersey Sports and Exposition Authority is a public body corporate and politic, an instrumentality of the State exercising public and essential governmental functions, created in 1971 by an act of the New Jersey State Legislature. The Authority is authorized to develop, construct, and operate a sports complex in the Hackensack Meadowland. It is also authorized to issue its bonds to finance the construction of the project. It is issuing these bonds for that purpose.

(2) The sports complex will be built on a 588 acre site and will include a racetrack for thoroughbred and harness racing which will accommodate 35,000 spectators, a 76,500 seat stadium to be leased by the New York Football Giants Inc. and related facilities.

(3) These bonds will be secured by a debt service reserve fund which will be established and maintained in an amount not less than the maximum annual debt service, including principal, interest and sinking fund requirements, for any succeeding year on all outstanding bonds of the Authority. In order to secure the maintenance of this fund, the Act provides that there "shall be appropriated and paid" for deposit to the fund of such sum as is annually certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $295,000,000 New Jersey Sports and Exposition Authority, Sports Complex Bonds, 1974 Series are obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated December 19, 1973).

§ 1.388 New York State Thruway Authority, Emergency Highway Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $100,000,000 New York State Thruway Authority Emergency Highway Reconditioning and Preservation Bonds, Series A, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The State of New York has provided for, with respect to Emergency Highway Reconditioning and Preservation Bonds of the New York State Thruway Authority, the establishment and maintenance of a reserve fund sufficient to meet the next succeeding year's annual requirements for bond principal and interest payments and for the annual apportionment and payment from State funds for deposit to the reserve fund of such sum as is certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $100,000,000 New York State Thruway Authority Emergency Highway Reconditioning and Preservation Bonds Series A are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated March 11, 1974.)

§ 1.389 Louisiana Stadium and Exposition District.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the approximately $139,000,000 Louisiana Stadium and Exposition District, Hotel Occupancy Tax and Stadium Lease-Rental, Revenue Bonds, Series 1974, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The District, created by an amendment to the Constitution of the State of Louisiana, is constructing a multi-purpose stadium and related facilities which it has leased to the State. It now has outstanding $128,185,000 in bonds issued to finance the project. It is issuing these bonds to provide funds ($8,250,000) for the completion of the project and also to provide funds to refund the outstanding bonds. The issuance of these bonds has been approved by the Legislature of Louisiana in a special referendum.

(2) The State of Louisiana, in its lease-rental agreement with the District, has unconditionally promised to pay annual rentals to the District in an amount which together with other funds available for the purpose, will be sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The other funds which may be available include the proceeds of a hotel occupancy tax which the District is authorized to levy and collect and the net revenues resulting from the operation of the facilities.

(3) The Supreme Court of Louisiana has held that the constitutional amendment grants the State the right and authority to lease the project and provide for the payment of the consideration therefor through the appropriation of funds or otherwise; and that obligations of the State under any such lease constitute a charge against the revenues of the State; and that for these reasons, the authorization for such leasing comprehends all the commitments which are components of a transaction involving the full faith and credit of the State.

(c) *Ruling.* It is our conclusion that the approximately $139,000,000 Louisiana Stadium and Exposition District, Hotel Occupancy Tax and Stadium Lease-Rental, Revenue Bonds, Series 1974, are general obligations of a State under paragraph Seventh of 12 U.S.C. 24 and accordingly are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated March 21, 1974.)

§ 1.390 New Jersey Health Care Facilities Financing Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of approximately $145,000,000 New Jersey Health Care Facilities Financing Authority Revenue Bonds, College of Medicine and Dentistry Issue, Series A, for purchase, dealing in, underwriting and holding by national banks subject to the ten percent limitation of paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) New Jersey Health Care Facilities Financing Authority is a public body corporate and politic and a political subdivision of the State established as an instrumentality exercising public and essential government functions by the New Jersey Health Care Facilities Financing Authority Law. The Authority is authorized by law to issue bonds to finance the construction of hospital facilities.

(2) The Authority is issuing these bonds to finance the cost of constructing (i) a 486-bed teaching hospital on the Newark campus of the New Jersey Medical School, (ii) a new 325-bed teaching hospital on the Piscataway campus of the Rutgers Medical School and (iii) an addition to the Raritan Valley Hospital which presently operates as a teaching hospital for the Rutgers Medical School. These facilities will be used by the New Jersey and Rutgers Medical Schools in the traditional manner of teaching hospitals, including medical, surgical and psychiatric care and treatment of patients, medical research and the teaching and training of medical students, nurses, interns, residents and fellows. Both Rutgers Medical School and New Jersey Medical School are units of the College of Medicine and Dentistry which is established in the State of New Jersey

XUM V 39 1974 DEC 243 XUM

Department of Higher Education pursuant to the New Jersey Medical and Dental Education Act of 1970.

(3) The Authority will have a leasehold interest in the sites on which the facilities are built and will lease the completed facilities to the College for annual rentals sufficient to meet annual interest and principal payments on the bonds as well as other necessary expenses.

(c) *Ruling.* It is our conclusion that the New Jersey Health Care Facilities Financing Authority Revenue Bonds, College of Medicine and Dentistry Issue, Series A, are issued by an agency of the State of New Jersey for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the ten percent limitation with respect to aggregate holdings of obligations issued by the New Jersey Health Care Facility Authority. (Comptroller's letter dated April 17, 1974.)

§ 1.391 Water and Sewer Improvement Bonds, Series 1974, Northwest Houston Water Supply Corporation.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $10,800,000 Water and Sewer Improvement Bonds, Series 1974, of Northwest Houston Water Supply Corporation for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Northwest Houston Water Supply Corporation was organized at the request and for the benefit of the City of Houston as a nonprofit water supply corporation under a provision of Texas law which authorizes the formation of such a corporation for the exclusive purpose of furnishing a water supply or sewer service or both to cities and others. The Corporation is authorized to issue bonds to finance the acquisition of water and sewer projects. A city is authorized by law to enter into a contract for the purchase of water and sewer systems from such a corporation and to agree to make periodic payments to the corporation in amounts which together with other income of the corporation will be sufficient to pay the principal of and interest on the bonds of the corporation. The law also authorizes a city to provide for the levying of a tax to make such payments.

(2) The Corporation has entered into a contract with the City of Houston under which the Corporation will finance and construct a water and sewer system for Section 4 of a suburban area immediately adjacent to the City and the City will annex section 4 of the area and purchase the system. The Corporation is issuing these bonds to finance the cost of the project. The Corporation has issued $2,200,000, Series 1967 bonds, $5,500,000, Series 1970 bonds and $8,000,000, Series 1971 bonds to finance the construction of water and sewer systems for sections 1, 2 and 3 of the same general area under substantially the same circumstances.

(3) In the purchase contract, the City has unconditionally promised to make periodic payments to the Corporation in amounts which will be sufficient to pay the principal of and interest on these bonds. The contract also provides that the periodic payments shall be payable from a continuing, direct annual ad valorem tax on all taxable property in the City sufficient to make such payments in each year and the City has by ordinance levied such a tax. The City which possesses general powers of taxation has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion, in accordance with our rulings of December 7, 1967 (§ 1.203), May 7, 1970 (§ 1.260), and April 5, 1971 (§ 1.302) relating to the Series 1967, 1970 and 1971 bonds, that the $10,800,000 Water and Sewer Improvement Bonds, Series 1974, of the Northwest Houston Water Supply Corporation are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated July 10, 1974).

§ 1.392 Parking Authority of the City of Hawthorne (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $16,530,000 Lease Revenue Bonds, Series B, of the Parking Authority of the City of Hawthorne for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Parking Authority of the City of Hawthorne is a public body corporate and politic created by the laws of California but authorized to function only upon a finding of need. The City Council has made the appropriate finding and, in accordance with the law, has declared itself to be the Parking Authority. Under the law, a parking authority is authorized to issue revenue bonds to finance public parking facilities and may issue such bonds without obtaining the approval of the electors of the city where the bonds are issued to finance a project which is to be leased to the city and where the principal of and interest on the bonds are to be payable from rentals paid by the city under such lease.

(2) The Authority is issuing these bonds to finance the construction of a three-level parking structure and other parking facilities providing a total of 3993 parking spaces for the Hawthorne Plaza regional shopping center. The completed facility will be leased by the Authority to the city.

(3) Under the lease rental agreement the City unconditionally promises to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expense. The City, which possesses general powers of taxation will thus commit its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $16,530,000 Lease Revenue Bonds, Series B, of the Parking Authority of the City of Hawthorne are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated September 23, 1974.)

§ 1.393 Parking Authority of the City of Fullerton (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $837,000 Lease Revenue Bonds, Series of 1974, of the Parking Authority of the City of Fullerton for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Parking Authority of the City of Fullerton is a public body corporate and politic created by the laws of California but authorized to function only upon a finding of need. The City Council has made the appropriate finding and, in accordance with the law, has declared itself to be the Parking Authority. Under the law, a parking authority is authorized to issue revenue bonds to finance public parking facilities and may issue such bonds without obtaining the approval of the electors of the city where the bonds are issued to finance a project which is to be leased to the city and where the principal of and interest on the bonds are to be payable from rentals paid by the city under such lease.

(2) The Authority is issuing these bonds to finance the acquisition of the site for, and the construction of, a 189 space parking facility adjacent to a Junior College and several secondary schools. The completed facility will be leased by the Authority to the city.

(3) Under the lease rental agreement the City unconditionally promises to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expense. The City, which possesses general powers of taxation will thus commit its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $837,000 Lease Revenue Bonds, Series of 1974, of the Parking Authority of the City of Fullerton are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated September 26, 1974.)

§ 1.394 Parking Authority of the City of Long Beach (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $11,500,000 1974 Lease Revenue Bonds of the Parking Authority of the City of Long Beach for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Parking Authority of the City of Long Beach is a public body corporate and politic created by the laws of California but authorized to function only upon a finding of need. The City Council has made the appropriate finding and, in accordance with the law, has declared itself to be the Parking Authority. Under the law, a parking authority is authorized to issue revenue bonds to finance public parking facilities and may issue such bonds without obtaining the approval of the electors of the city where the bonds are issued to finance a project which is to be leased to the city and where the principal of and interest on the bonds are to be payable from rentals paid by the city under such lease.

(2) The Authority is issuing these bonds to finance the construction of a three-level, 802 space, reinforced concrete parking structure as part of the City's Pacific Terrace Center project. The completed facility will be leased by the Authority to the city.

(3) Under the lease rental agreement the City unconditionally promises to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expense. The City, which possesses general powers of taxation will thus commit its faith and credit in support of the bonds.

(c) It is our conclusion that the $11,500,000 1974 Lease Revenue Bonds, of the Parking Authority of the City of Long Beach are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated September 26, 1974).

§ 1.395 Los Angeles County-City of Compton Civic Center Authority, City Hall Facilities Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $7,250,000 Los Angeles County-City of Compton Civic Center Authority, City Hall Facilities Revenue Bonds, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Los Angeles County-City of Compton Civic Center Authority is a public entity created under the laws of California by an agreement between the City of Compton and the County of Los Angeles. Under this agreement, the Authority is authorized to construct, maintain and lease a Civic Center Complex, and to issue bonds to finance such projects. The Authority is issuing these bonds to finance new city hall facilities which will be leased to the City.

(2) The City has unconditionally promised in the lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $7,250,000 Los Angeles County-City of Compton Civic Center Authority City Hall Facilities Revenue Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks. (Comptroller's letter dated October 7, 1974).

§ 1.396 Virginia Housing Development Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $59,320,000 Virginia Housing Development Authority Single Family Mortgage Bonds, 1974 Series A for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Virginia Housing Development Authority is a political subdivision and a public instrumentality of the Commonwealth of Virginia, with politic and corporate powers, created by the Virginia Housing Development Authority Act to make or purchase mortgage loans for the construction of housing for low or moderate income families and persons who would otherwise be unable to obtain adequate dwellings which they could afford. The Authority is authorized to borrow money for such projects through the issuance of its bonds or notes.

(2) The Authority is issuing these bonds to finance the making and purchasing of mortgage loans on single family residential units for families of low and moderate income.

(c) *Ruling.* It is our conclusion that the $59,320,000 Virginia Housing Development Authority Single Family Mortgage Bonds, 1974 Series A, are issued by an agency of the Commonwealth of Virginia for housing purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the 10% limitation with respect to aggregate holding of obligations issued by the Virginia Housing Development Authority. (Comptroller's letter dated November 8, 1974).

Dated: December 12, 1974.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

[FR Doc.74-28356 Filed 12-16-74;8:45 am]

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Maximum Rates of Interest; Payment of Time Deposits Before Maturity

The Board of Governors has amended its Regulation Q to establish a new category of consumer time deposit, to be called an "Investment Certificate", on which member banks are permitted to pay interest at an annual rate of 7½ percent. Member banks may only offer this new time deposit on deposits of $1,000 or more and with a maturity of 6 years or more.

Under existing Board regulations, member banks may issue time certificates of deposit in negotiable or nonnegotiable form. The Board's amendment to Regulation Q also provides that Investment Certificates issued by member banks in negotiable form cannot be paid prior to maturity. Investment Certificates issued in nonnegotiable form will be subject to the Board's existing early-withdrawal rules. Although customers obtaining negotiable Investment Certificates will be unable to receive payment of the principal amount of the deposit from the issuing bank prior to the agreed upon maturity date, such certificates would be eligible as collateral for loans at an interest rate of not less than 2 percent in excess of the rate of interest on the Investment Certificate.

In addition, member banks may arrange for the sale or purchase of an Investment Certificate on behalf of its holder and a person wishing to acquire that certificate. A member bank issuing Investment Certificates will not be permitted, however, to repurchase those time deposit certificates for its own account.

To insure that depositors entering into negotiable Investment Certificate agreements receive adequate notice that such time deposits cannot be paid prior to the agreed maturity under any circumstances, the disclosure and advertising requirements of Regulation Q have also been amended to require an express statement of that limitation. In addition, each negotiable Investment Certificate will be required to contain a statement on its face that the time deposit cannot be paid prior to maturity.

The Board's action was taken pursuant to its authority under section 19 of the Federal Reserve Act (12 U.S.C. 371b) to prescribe rules governing the payment and advertisement of interest on deposits and § 217.3 of Regulation Q (12 CFR 217.3). This action follows consultation with the Treasury Department, the Federal Deposit Insurance Corporation and the Federal Home Loan Bank Board, and is intended to permit member banks to offer longer term time deposits at more competitive rates of interest. Similar action to permit nonmember commercial banks, mutual savings banks and Federal savings and loan associations to offer longer term deposit instruments at increased rates of interest is being taken by the Federal Deposit Insurance Corporation and the Federal Home Loan Bank Board. As a result of these actions, effective December 23, 1974, the interest rate ceiling on governmental unit time deposits will increase to 7¾ per cent per annum.

The effective date was deferred for less than the 30 day period referred to in Title 5, United States Code, section 553

XUM
V 39 N 243 DEC 17 1974
XUM

(d), because the Board found that the public interest compelled it to make the action effective no later than the date adopted. See § 262.2(e) of the Board's rules of procedure (12 CFR 262.2(e)).

Effective December 23, 1974, the Board's Regulation Q (12 CFR Part 217) is amended to read as follows:

1. In § 217.7 paragraph (b) is revised and (d) is added to read as follows:

§ 217.7 Maximum rates of interest payable by member banks on time and savings deposits.

Pursuant to the provisions of section 19 of the Federal Reserve Act and § 217.3 hereof, the Board of Governors of the Federal Reserve System hereby prescribes the following maximum rates [1] of interest per annum payable by a member bank of the Federal Reserve System on time and savings deposits:

* * * * *

(b) *Time deposits of less than $100,000.* (1) Except as provided in paragraphs (a) and (d) and subparagraphs (2) and (3) of this paragraph, no member bank shall pay interest on any time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity:	*Maximum percent*
30 d or more but less than 90 d	5
90 d or more but less than 1 yr	5½
1 yr or more but less than 30 mo	6
30 mo or more	6½

(2) Member banks may pay interest on any time deposit of $1,000 or more, with a maturity of four years or more, at a rate not to exceed 7¼ percent.

(3) Investment Certificates—Member banks may pay interest on any time deposit of $1,000 or more, with a maturity of six years or more, at a rate not to exceed 7½ percent.

* * * * *

(d) *Governmental unit time deposits of less than $100,000.* * * *

2. Section 217.4 (d) and (e) are amended as follows:

§ 217.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty for early withdrawals.* * * * *Provided further,* That Investment Certificates issued in negotiable form by a member bank pursuant to subparagraph (3) of § 217.7(b) may not be paid before maturity. This provision does not prevent a member bank from arranging the sale or purchase of such a certificate on behalf of the holder or prospective purchaser of a certificate issued under that subpart. A member bank may not, however, repurchase such certificates for its own account.

(e) *Disclosure of early withdrawal penalty.* * * * Written statements made with respect to negotiable Investment Certificates issued by a member bank pursuant to subparagraph (3) of § 217.7 (b) shall state clearly that no payment before maturity will be permitted under any circumstances. Such statements shall be expresly called to the attention of the customer. In addition, every negotiable Investment Certificate shall state conspicuously on its face that, "This time deposit cannot be paid prior to maturity."

* * * * *

3. Section 217.6(e) is amended as follows:

§ 217.6 Advertising of interest on deposits.

* * * * *

(e) *Penalty for early withdrawals.* * * * Any advertisement, announcement or solicitation relating to interest paid by a member bank on negotiable Investment Certificates issued pursuant to subparagraph (3) of § 217.7(b) shall include clear and conspicuous notice that Federal law and regulation prohibit the payment of such certificate prior to maturity.

* * * * *

By order of the Board of Governors, December 6, 1974.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 74-1241]

PART 528—NONDISCRIMINATION REQUIREMENTS

PART 531—GUIDELINES RELATING TO NONDISCRIMINATION IN LENDING

Sex Discrimination and Consideration of Married Persons' Income

DECEMBER 5, 1974.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full provisions of this resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. *Regulations prior to present amendments—none.* The Guidelines Relating to Nondiscrimination in Lending state that although sex discrimination does not violate any express statutory provision, it impedes achievement of the objectives of Federal law and may be unconstitutional. The Guidelines also state that automatically discounting a wife's income is not favored.

II. *Amended regulation.* The amendments add the word "sex" to the regulations prohibiting discrimination on the basis of race, color, religion, or national origin in connection with a home financing loan, and require member institutions to consider without prejudice the combined income of both husband and wife in the extension of mortgage credit to a married couple, or either member thereof. The Guidelines are amended by deleting the statements that sex discrimination is not expressly prohibited by law.

III. *Reason for changing the regulations.* Implementation of section 808 of the Housing and Community Development Act of 1974.

Amended regulations. The Housing and Community Development Act of 1974, 88 Stat. 633, effective August 22, 1974, amends the fair housing title of the Civil Rights Act of 1968 by adding the word "sex" after the word "religion" in those sections of the title which prohibit discrimination on the basis of race, color, religion, or national origin in the sale, rental, or financing of housing. In addition, the Housing and Community Development Act of 1974 amends the National Housing Act to prohibit discrimination on the basis of sex in connection with a "federally related mortgage loan" which is defined to include a loan secured by residential real estate designed principally for occupancy by one to four families made by a lender regulated by the Board. Since the Board's Nondiscrimination Requirements were adopted to further the purposes of the 1968 Civil Rights Act, among other statutes, and because the National Housing Act, as amended, prohibits discrimination on the basis of sex in connection with a home loan made by a Federal Home Loan Bank member institution, the Board considers it desirable to amend its Nondiscrimination Requirements to effect these changes made by the Housing and Community Development Act.

In addition, the Board considers it desirable to amend its Nondiscrimination Requirements to implement section 527 of the National Housing Act, as enacted by the Housing and Community Development Act, by redesignating § 528.2 (a)–(d) as § 528.(a) (1)–(4) and by adding a new paragraph (b) thereto. Section 527 of the National Housing Act requires every lender making Federally related mortgage loans to consider without prejudice the combined income of both husband and wife for the purpose of extending mortgage credit in the form of a Federally related mortgage loan to a married couple, or either member thereof. The amended regulations require every member of the Federal Home Loan Bank System to comply with this provision when making a loan secured by residential real property.

Amended guidelines. Further, the Federal Home Loan Bank Board considers it desirable to amend Part 531 of the rules and regulations for the Federal Home Loan Bank System by redesignating § 531.3(c) (1), (2), (3, (4), and (5) as § 531.3(c) (2), (3), (5), (6), and (7), respectively, and by adding new subparagraphs (4) to § 531.3(c). The purpose of the new subparagraphs is to provide the Board's interpretation of the statutory and regulatory prohibition against discrimination on the basis of sex in home lending and the requirement

---

[1] The limitations on rates of interest payable by member banks of the Federal Reserve System on time and savings deposits, as prescribed herein, are not applicable to any deposit which is payable only at an office of a member bank located outside the States of the United States and the District of Columbia.

[2] The highest permissible rate is currently 7.75 percent per annum (12 CFR 329.7 and 12 CFR 526.3).

that lenders consider without prejudice the combined income of husband and wife when extending mortgage credit to a married couple. Thus, the proposed Guidelines explain that if a lending institution refuses to lend to members of one sex, or requires higher standards of credit worthiness from members of one sex, or places different requirements on the loans made to members of one sex in connection with a home financing loan, the lending institution would be discriminating on the basis of sex.

With regard to considering the combined incomes of a husband and wife, the amended Guidelines contain the Board's interpretation of the phrase "without prejudice" used in section 527 of the National Housing Act. On the basis of its derivation, it is interpreted to mean "without prejudgment". Section 531.8(c) requires that loan applicants be evaluated for their credit worthiness without reference to presumed characteristics of a group. In addition, the Guidelines, as amended, require that the member institutions' underwriting criteria reasonably evaluate the credit worthiness of married applicants based on a realistic appraisal of the past, present and expected continuance of both incomes when the couple applies for a loan together. The Board intends to interpret the requirement that member institutions consider the combined income of husband and wife in extending mortgage credit to a married couple, "or either member thereof" as a requirement that both incomes be considered by member institutions when one member of the couple applies for the loan only in a State where only the husband is authorized to act for the couple.

Accordingly, the Federal Home Loan Bank Board hereby amends Part 528 by adding the word "sex" after the word "religion" in §§ 528.2, 528.3, and 528.5 to read as set forth below, by redesignating § 528.2 (a)–(d) as § 528.3(a) (1)–(4), and by adding a new paragraph (b) as set forth below and amends Part 531 by redesignating § 531.8(c) (1), (2), (3), (4), and (5) as § 531.8(c) (2), (3), (5), (6), and (7), respectively, and by adding new subparagraphs (1) and (4) as set forth below,

Technical Amendments. The Board at this time also makes certain technical and conforming amendments. A technical amendment to § 528.1 clarifies the application of the definition of "dwelling" to mobile home sites. Section 802(b) of the Civil Rights Act of 1968 defines "dwelling" to include such sites. Section 528.1 is patterned after section 802(b) but inadvertently omitted a phrase in the latter section.

Also, a technical amendment would be made to the Guidelines to substitute the phrase "genuine business need" for the phrase a "sound business purpose" in the statement which now provides that a lending standard which has a discriminatory effect is proper only if its use achieves a "sound business purpose". This change conforms the language of the Guidelines to the standards formulated by the Supreme Court in "Griggs v. Duke Power Company," 401 U.S. 424.

Another technical change provides that complaints of alleged violations of the Nondiscrimination Regulations could be referred to the Board's Office of Housing and Urban Affairs as well as to the Assistant Secretary for Equal Opportunity at HUD. In addition, the Equal Housing Lender Poster is revised to state that a copy of a complaint sent to HUD may also be sent to the Board's Office of Housing and Urban Affairs. This amendment will not become effective for two months to allow member institutions time to have new posters printed.

Since affording notice and public procedure on the nontechnical amendments would delay them from becoming effective for a period of time and since it is in the public interest that the Board implement the provisions of the Housing and Community Development of 1974 Act without such delay, and since the technical amendments impose no new requirements on member institutions, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board hereby amends §§ 528.1(b), 528.2, 528.3, 528.5, 528.8, and 531.8 to read as set forth below, effective immediately, except for the amendment to section 528.5, which shall become effective 60 days after the date of the adoption of this resolution.

In § 528.1 paragraph (b) is revised to read as follows:

§ 528.1 Definitions.

* * * * *

(b) **Dwelling.** The term "dwelling" means any building, structure, or portion thereof, including a mobile home, which is occupied as, or designed or intended for occupancy as a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure, or portion thereof.

2. Section 528.2 is revised to read as follows:

§ 528.2 Nondiscrimination in lending and other services.

(a) No member institution shall deny a loan or other service rendered by the member institution for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling, or discriminate in the fixing of the amount, interest rate, duration, application procedures, collection or enforcement procedures, or other terms or conditions of such loan or other service because of the race, color, religion, sex, or national origin of.

(1) An applicant for any such loan or any other service rendered by the member institution;

(2) Any person associated with such applicant in connection with such loan or other service or the purposes of such loan or other service;

(3) The present or prospective owners, lessees, tenants, or occupant of the dwelling or dwellings in relation to which such loan or other service is to be made or given; or

(4) The present or prospective owners, lessees, tenants, or occupant of other dwellings in the vicinity of the dwelling or dwellings in relation to which such loan or other service is to be made or given.

(b) A member institution shall consider without prejudice the combined income of both husband and wife for the purpose of extending mortgage credit to a married couple or either member thereof.

3. Section 528.3 is revised to read as follows:

§ 528.3 Nondiscrimination in applications.

No member institution shall refuse or decline to allow, receive, or consider any application, request, or inquiry with respect to a loan or other service rendered by the member for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling, or discriminate in the imposition of conditions upon, or in the processing of, any such application, request, or inquiry, or make statements which discourage any such application, request, or inquiry because of the race, color, religion, sex, or national origin of any prospective borrower or other person who

(a) Makes application for any such loan or other service;

(b) Requests forms or papers to be used to make application for any such loan or other service; or

(c) Inquires about the availability of such loan or other service.

4. In § 528.5, paragraph (b) is revised to read as follows:

§ 528.5 Equal Housing Lender Poster.

* * * * *

(b) The text of the Equal Housing Lender Poster shall be as follows (except that the legend "Equal Opportunity Lender" may be substituted for the legend "Equal Housing Lender"):

EQUAL HOUSING LENDER

WE DO BUSINESS IN ACCORDANCE WITH THE FEDERAL "FAIR HOUSING LAW"

IT IS ILLEGAL, because of race, color, religion, sex, or national origin, to:

Deny a loan for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling or

Discriminate in fixing of the amount, interest rate, duration, application procedures or other terms or conditions of such a loan.

If you believe you have been discriminated against, you may discuss the matter with

the management of this institution or send a complaint to:

Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development, Washington, D.C. 20410, or call your local HUD or FEA office.

You may also send a copy of the complaint to the Office of Housing and Urban Affairs, Federal Home Loan Bank Board, Washington, D.C. 20552.

5. Section 528.8 is revised to read as follows:

§ 528.8 Complaints.

Complaints regarding discrimination in lending by a member institution should be referred to the Office of Housing and Urban Affairs, Federal Home Loan Bank Board, Washington, D.C. 20552, or to the Assistant Secretary for Equal Opportunity, U.S. Department of Housing and Urban Development, Washington, D.C. 20410. Complaints regarding discrimination in employment by a member institution should be referred to the Equal Employment Opportunity Commission, Washington, D.C. 20506.

6. Section 531.8 is revised to read as follows:

§ 531.8 Guidelines relating to Nondiscrimination in Lending.

(a) *General.* Fair housing and equal opportunity in home financing is a policy of the United States established by Federal statutes and Presidential orders and proclamations. In furtherance of the Federal civil rights laws and the economical home financing purposes of the statutes administered by the Board, the Board has adopted, in Parts 528 and 529 of this subchapter, nondiscrimination regulations which, among other things prohibit discrimination based on race, color, religion, sex, or national origin in fixing the amount, interest rate, duration, application procedures, collection or enforcement procedures, or other terms or conditions of housing related loans. This section provides supplementary guidelines to aid member institutions in developing and implementing non-discriminatory lending policies. Each member institution should re-examine its underwriting standards from time to time in order to insure equal opportunity.

(b) *Loan underwriting standards.* The basic purpose of the Board's nondiscrimination regulations is to require that every applicant be given an equal opportunity to obtain a loan. Each loan applicant's credit worthiness should be evaluated on an individual basis without reference to presumed characteristics of a group. The use of lending standards which have no economic basis and which are discriminatory in effect is a violation of law even in the absence of an actual intent to discriminate. However, a standard which has a discriminatory effect is not necessarily improper if its use achieves a genuine business need which cannot be achieved by means which are not discriminatory in effect or less discriminatory in effect.

(c) *Discriminatory practices*—(1) *Discrimination on the basis of sex.* The Civil Rights Act of 1968 and the National Housing Act prohibit discrimination in home lending on the basis of sex. Refusing to lend to, requiring higher standards of credit worthiness of, or imposing different requirements on, members of one sex would be discriminatory practices based on sex. For example, requiring single women with steady employment, or other income, and who are otherwise credit worthy, to obtain a cosigner or guarantor in order to obtain mortgage credit if the member institution does not require multiple signatures on mortgage loans to a single man in the same income and credit situation would be a discriminatory practice based on sex.

(2) *Discrimination based on age or marital status.* The Board's nondiscrimination regulations do not, at present, address discrimination on the basis of age or marital status (except as provided for in § 528.2(b)) because the regulations are limited to the scope of the Civil Rights Act of 1968 and the National Housing Act. However, such discrimination is contrary to the principle of, and may in fact violate, Constitutional provisions which guarantee equal protection of the law for all persons. In addition, such practices impede the achievement of the objectives of Federal laws intended to promote sound, economical home financing, fair housing opportunity, and a decent home for every American. Discrimination on the basis of marital status may additionally result in racial or ethnic discrimination since a larger proportion of minority group families rely on the wife's income to afford housing and other necessities. The type of practices considered by this paragraph includes loan underwriting decisions which differentiate loan applicants on the basis of assumptions regarding comparative differences in credit worthiness between older and younger persons, or among married, single, widowed, or divorced individuals without actual consideration being given to the applicants' credit histories and present and reasonably foreseeable economic prospects.

(3) *Discrimination on the basis of language.* Requiring fluency in the English language as a prerequisite for obtaining a loan may be a discriminatory practice based on national origin.

(4) *Income of husbands and wives.* A practice of normally discounting all or part of a wife's income is a violation of section 527 of the National Housing Act. As with other income, the determination as to whether a wife's income qualifies as effective for credit purposes should depend upon a reasonable evaluation of her past, present, and reasonably foreseeable economic circumstances. The Board disapproves of the practice of requiring, as a condition for counting a wife's income, information relating to birth control practices of the couple or information relating to their ability to have children.

(5) *Supplementary income.* Lending standards which consider as effective only the non-overtime income of the primary wage-earner may result in discrimination because they do not take account of variations in employment patterns among individuals and families. The Board favors loan underwriting which reasonably evaluates the credit worthiness of each applicant based on a realistic appraisal of his or her own past, present, and foreseeable economic circumstances. The determination as to whether primary income or additional income qualifies as effective for credit purposes should depend upon whether such income may reasonably be expected to continue through the early period of the mortgage risk. Automatically discounting other income from bonuses, overtime, or part-time employment, will cause some applicants to be denied financing without a realistic analysis of their credit worthiness. Since statistics show that minority group members and low- and moderate-income families rely more often on such supplemental income, the practice may be racially discriminatory in effect, as well as artificially restrictive of opportunities for home financing.

(6) *Age, income level, or racial composition of neighborhood.* Refusal to lend in a particular area solely because of the age of the homes or the income level in a neighborhood may be discriminatory in effect since minority group persons are more likely to purchase used housing and to live in low-income neighborhoods. The racial composition of the neighborhood where the loan is to be made is always an improper underwriting consideration.

(7) *Borrowers' prior history.* Unstable or irresponsible behavior, especially toward credit obligations, is a proper consideration in making lending decisions. However, the application of a rigid and arbitrary rule may be a discriminatory lending practice. An isolated experience in the distant past should not be a ground for denial of a loan if subsequent experience and present circumstances indicate stability. A policy favoring applicants who have previously owned homes may perpetuate prior discrimination. Job or residential changes may indicate upward mobility. Emphasis should be upon a realistic assessment of the credit worthiness of each applicant without resorting to unreasonable standards.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74-WE-40-AD, Amdt. 39-2049]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed L-1011-385-1 Series Airplanes

Cracks have been found in the housing of the Fire Pull Handle Module Switch Assembly, Part Number 1520324 or 1580810, installed on Lockheed L-1011-385-1 Series airplanes that result in failure to actuate all of the internal switches when the handle is moved to the pulled position. If this condition exists, the use of backup shutdown procedures would be required to deactivate the various systems normally deactivated by the fire pull handle operation.

Since this condition can exist or develop in other airplanes of the same type, an airworthiness directive is being issued to require an operational test of all four fire pull handle switch assemblies; replacement or repair of any switch found operationally defective; and submission of a report by configuration of any control unit housings found cracked.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LOCKHEED-CALIFORNIA. Applies to all L-1011-385-1 Series Airplanes certificated in all categories, incorporating Engine Shutoff Control Panel Assemblies, P/N 1520324 or P/N 1580810

Compliance as indicated, unless already accomplished.

To provide protection in the event of an unknown incipient failure condition in the housing of the fire pull handle assembly, P/N 1520324 or P/N 1580810, accomplish the following:

(1) Within 150 flight hours after the effective date of this AD, conduct a functional test in accordance with Part 2A thru 2C of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revisions. Switch assemblies found functionally satisfactory may be returned to service.

(a) Replace any fire pull handle switch assembly found defective with a serviceable switch assembly or, prior to installation of spare assemblies, inspect to verify condition of airworthiness.

(b) Repair or modify defective switch assemblies in accordance with Part 2E of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revision.

(c) Re-identify repaired or modified switch assemblies in accordance with paragraph 2E of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revision.

(2) No later than 600 flight hours after the effective date of this AD:

(a) Determine the Engine Shutoff Control Panel assembly, P/N 1520324 or P/N 1580810, configuration for all engines and the APU in accordance with Paragraph 2F of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revision.

(b) Reassemble or repair, and return the Engine Shutoff Control Panel assembly to service in accordance with part 2F, Steps (8) or (9) of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revision.

(3) Re-identify repaired or modified control panel assemblies in accordance with part 2E of Lockheed Service Bulletin 093-26-010, dated November 21, 1974, or later FAA approved revision.

(4) Submit a report of all instances of cracked or failed housings identifying the configuration in accordance with Part 2F, Step (7) of Lockheed Service Bulletin 093-26-010 dated November 21, 1974, or later FAA-approved revision, to the Chief, Aircraft Engineering Division, FAA Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. (Reporting approved by the Bureau of Budget under BOB No. 04-R-0174).

(5) Equivalent inspections, repairs and modifications may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiating data.

This amendment becomes effective December 23, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6 (c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on December 6, 1974.

ROBERT O. BLANCHARD,
Acting Director,
FAA Western Region.

[FR Doc.74-29239 Filed 12-16-74;8:45 am]

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5542, 34-11110, AS-164]

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

Financial Statements; Disclosure Provisions for Defense and Other Long-Term Contract Activities

A. INTRODUCTION

The Securities and Exchange Commission has long been concerned about the quality of disclosures made by registrants engaged in defense and other long-term contract activities because these activities involve inventories and receivables with unique risk and liquidity characteristics. After initially urging corporate managers to review their disclosure policies with respect to such contracting activities,[1] the Commission published for comment proposed amendments to Rules 5-02.3 and 5-02.6 of Regulation S-X[2] (17 CFR 210.5-02-3 and 5-02-6).

[1] Securities Act Release No. 5263, Securities Exhange Act Release No. 9650, June 22, 1972 (37 FR 21464).

[2] Securities Act Release No. 5492, Securities Exchange Act Release No. 10775, May 6, 1974 (39 FR 18300).

As noted in its release proposing these amendments, the Commission believes that it is necessary and appropriate to expand these rules to require disclosure of greater detail in certain critical areas of long-term contract activity, particularly with respect to the nature of costs accumulated in inventories, the effect of cost accumulation policies on cost of sales, and the effect of revenue recognition practices on receivables and inventories.

The proposed amendments elicited numerous letters of comment which have been duly considered by the Commission in the formulation of the amendments specifically adopted in this release. The following discussion outlines the Commission's responses to certain of these comments as reflected in the adopted rules on receivables and inventories.

COMMENTS ON DISCLOSURE OF RECEIVABLES—RULE 5-02.3

Paragraph (b). Several commentators pointed out that the proposed amendment could be broadly construed to require additional disclosure for receivables other than those arising from long-term contract activities. At the present time the Commission intends only to improve disclosures related to long-term contract activities. Consequently, the amendment to this paragraph has been deleted and the proposed disclosure of collection expectations has been incorporated in the amendments addressed specifically to receivables arising from such activities.

Paragraph (e). Some commentators suggested that the retainage disclosure should be limited to amounts not expected to be collected within one year. Due to the unique liquidity characteristics of retainage, the Commission believes that any material amount of retainage should be disclosed no matter when such amount is expected to be collected. However, the Commission also believes that the significant uncertainties which often affect the determination of a mutually satisfactory contract completion may cause the estimates of amounts to be collected within specific years to become progressively less reliable. Consequently, the amendment as adopted requires the isolation of only the aggregate amount of retainage expected to be collected after one year. However, registrants are encouraged to provide estimated collections by year if their experience or other factors enable them to do so with reasonable accuracy.

Several commentators suggested that the amendment should be modified to provide for amounts retained by contractors pursuant to the provisions of subcontracts. The Commission believes that this is unnecessary because Rule 5-02.25 (17 CFR 210.5-02-25) can be interpreted to require separate disclosure of significant amounts of retentions payable to subcontractors.

Paragraph (f). Numerous commentators pointed out that a literal interpretation of the proposed amendment would call for disclosures regarding all accrued receivables rather than just those related to long-term contracts and might also result in a duplication of disclosures

XUM
DEC 17 1974
XUM

made under paragraph (g). The Commission recognizes the validity of these comments and the amendment has been modified accordingly.

The amendment as adopted also calls for disclosure of the amounts of receivables not billed or billable that are expected to be collected after one year. The Commission believes that disclosure of the timing of expected collections provides investors with meaningful liquidity and risk information.

It should be noted that the amendment is not directed at items which are "unbilled" at the balance sheet date merely because the necessary paperwork has not been processed in accordance with the normal operation of a billing system. Such items would generally be considered "billable" for purposes of this rule.

Paragraph (g). Many commentators argued that the proposed amendment was too broad since it would require the disclosure of amounts which could be determined with reasonable certainty under express contractual escalation or change order clauses and which would be virtually assured of realization. The Commission has concluded that amounts due under routine change orders and escalation features commonly found in the terms of contracts are typically not subject to such uncertainty that separate disclosure is required. On the other hand, it believes that disclosure is necessary when amounts are recorded which are not reasonably determinable under the specific terms of existing contracts. Accordingly, the text of this rule has been amended to require disclosure where the amounts included in receivables, whether billed or unbilled, are either claims or other similar items subject to uncertainty concerning their determination or ultimate realization.

Several commentators questioned the meaning of the term "components" as used in the requirement for footnote disclosure of the principal items comprising the aggregate of claims and other similar items subject to uncertainties. In response, the Commission has used the terms "nature and status" to more accurately reflect its intentions and has expanded the attached Exhibit to provide examples of disclosure envisioned by these terms.

COMMENTS ON DISCLOSURE OF INVENTORIES—RULE 5-02.6

Paragraph (b). In response to numerous comments, this amendment has been modified in several significant ways. First, in recognition of the recently adopted Statement of Financial Accounting Standards No. 2, the Commission has deleted the requirements for disclosure of the amounts of research and development costs incurred during the period or remaining in inventory. Compliance with that Statement will obviate the need for the disclosure of these amounts. However, the amendment still contemplates a description of such costs being carried in inventory in compliance with the new Statement.

Second, the Commission recognizes that some registrants may find it impracticable to determine the actual amount of general and administrative costs remaining in inventory at the balance sheet dates. However, the Commission believes that registrants can provide reasonable estimates of such remaining costs determined, for example, on the assumption that costs related to a particular contract or program have been removed from inventory on a basis proportional to the totals of the various cost elements expected to be charged to cost of sales for that contract or program. The assumptions used to develop these estimates should be described in a note to the financial statements.

Third, the Commission expects that the description of the cost elements included in inventory will approximately disclose the existence of items not typically included in inventoried costs in a usual manufacturing operation. Described items may include, for example, retained costs representing the excess of manufacturing or production costs over the amounts charged to costs of sales for delivered or in-process units, initial tooling and other deferred start-up costs, general and administrative costs, or research and development under contractual arrangements. In general, the Commission believes that the accounting treatment of such costs is sufficiently unique to warrant the disclosure of their existence and, to the extent noted below, their magnitude.

Paragraph (c). This paragraph contains the last sentence of Rule 5-02.6(b) as it existed prior to the amendments adopted in this release. However, the requirements of this paragraph may be amended by the proposal published in Securities Act Release No. 5427 (38 FR 28948). Comments on that proposal are still being considered.

Paragraph (d). Numerous commentators pointed out that the proposed definition would include supply or service contracts expected to be in process for more than one year even though such contracts may not involve the unique risk and liquidity characteristics associated with long-term manufacturing and construction contracts or programs. The Commission believes that the proposed definition was susceptible to an overly broad interpretation. Consequently, the Commission has modified the definition to deal explicitly with all contracts or programs accounted for on either a percentage of completion or a completed contract basis provided that any such contract or program has associated with it material amounts of inventories or unbilled receivables and has been or is expected to be performed over a period of more than twelve months.

Paragraph (d)(i). Many commentators argued that the amounts reported under this proposed amendment would not be mutually exclusive from the amounts reported under paragraph (iii). To eliminate this problem, the Commission has modified proposed paragraphs (i) and (iii) and now deals with these matters in one subparagraph which requires disclosure of (1) the aggregate amount of (a) manufacturing or production costs which have been carried forward under a "learning curve" concept and (b) any related costs which have been deferred for allocation to future production, and (2) the portion of such aggregate amount which would not be absorbed in cost of sales based on existing firm orders. The amendment also calls for the isolation of the cost elements included in the costs carried forward if it is practicable for the registrant to provide this detail. The Commission believes that these disclosures will provide investors with meaningful information concerning the nature of costs accumulated in inventories.

Paragraph (d)(ii). Many of the comments noted above under proposed Rule 5-02.3(g) were also directed to this amendment. The Commission has modified this subparagraph to reflect those comments. This amendment recognizes that certain registrants classify amounts representing claims or other similar items subject to uncertainties as inventories rather than as receivables reportable under Rule 5-02.3(g). Regardless of where such amounts are classified, the Commission believes that material amounts must be disclosed together with an appropriate description of the nature and status of the principal items comprising such amounts. In this connection, the Commission has expanded the accompanying Exhibit to provide helpful examples of the type of disclosure envisioned by this rule.

Paragraph (d)(v). Numerous commentators expressed the view that the concept of "title" is fraught with substantial difficulties of legal interpretation and that in any event it would be unduly burdensome to attempt such an analysis of the items included in inventories. The Commission accepts these comments and accordingly has deleted this proposal.

The subject rules, as amended herein, apply to disclosure in financial statements filed with the Commission. Registrants and their independent public accountants must make the determination as to what information regarding such matters is required to constitute satisfactory financial statement disclosure under generally accepted accounting principles.

B. COMMISSION ACTION

The Commission hereby amends §§ 210.5-02 and 210.5-02-6 of 17 CFR Ch. II. In § 210.5-02, new paragraphs 3(e), (f) and (g) are added; paragraphs 6(a), (b) and (c) are revised and new paragraphs 6(d) and (d)(i), (ii) and (iii) are added, as given below.

§ 210.5-02 Balance sheets.

• • • • •

3. *Accounts and notes receivable.* (a) through (d) • • •

(e) If receivables include amounts representing balances billed but not paid by customers under retainage provisions in contracts, state the amount thereof either in the balance sheet or in a note to the financial statements. In addition, state the amounts, if any, expected to be collected after one year. If practicable, state by years

when the amounts are expected to be collected.

(f) If receivables include amounts (other than amounts reportable under paragraph (g) below) representing the recognized sales value of performance under long-term contracts (see § 210.5-02-6(d)) and such amounts had not been billed and were not billable to customers at the date of the balance sheet, state separately in the balance sheet or in a note to the financial statements the amount thereof and include a general description of the prerequisites for billing. In addition, state the amount, if any, expected to be collected after one year.

(g) If receivables include amounts under long-term contracts (see § 210.5-02-6 (d)), whether billed or unbilled, representing claims or other similar items subject to uncertainty concerning their determination or ultimate realization, state separately in the balance sheet or in a note to the financial statements the amount thereof and include a description of the nature and status of the principal items comprising such amount. In addition, state the amount, if any, expected to be collected after one year.

* * * * *

6. *Inventories.* (a) State separately here, or in a note referred to herein, if practicable, the major classes of inventory such as (1) finished goods; (2) inventoried costs relating to long-term contracts or programs (see (d) below and § 210.3-11); (3) work in process (see § 210.3-11); (4) raw materials; and (5) supplies.

(b) The basis of determining the amounts shall be stated.

If "cost" is used to determine any portion of the inventory amounts, describe the method of determining cost. This description shall include the nature of the cost elements included in inventory.

If "market" is used to determine any portion of the inventory amounts, describe the method of determining "market" if other than current replacement cost.

The method by which amounts are removed from inventory (e.g., "average cost," "first-in, first-out," "last-in, first-out," "estimated average cost per unit") shall be described. If the estimated average cost per unit is used as a basis to determine amounts removed from inventory under a total program or similar basis of accounting, the principal assumptions (including, where meaningful, the aggregate number of units expected to be delivered under the program, the number of units delivered to date and the number of units on order) shall be disclosed.

If any general and administrative costs are charged to inventory, state in a note to the financial statements the aggregate amount of the general and administrative costs incurred in each period and the actual or estimated amount remaining in inventory at the date of each balance sheet.

(c) If the LIFO inventory method is used, the excess of replacement or current cost over stated LIFO value shall, if material, be stated parenthetically or in a note to the financial statements.

NOTE: Paragraph (c) as proposed in Securities Act Release No. 5427 (38 FR 28948) would modify this requirement. Comments on that proposal continue under consideration.

(d) For purposes of §§ 210.5-02.3 and 210.5-02-6, long-term contracts or programs include (1) all contracts or programs for which gross profits are recognized on a percentage-of-completion method of accounting or any variant thereof (e.g., delivered unit, cost to cost, physical completion) and (2) any contracts or programs accounted for on a completed contract basis of accounting where, in either case, the contracts or programs have associated with them material amounts of inventories or unbilled receivables and where such contracts or programs have been or are expected to be performed over a period of more than twelve months. Contracts or programs of shorter duration may also be included, if deemed appropriate.

For all long-term contracts or programs, the following information, if applicable, shall be stated in a note to the financial statements:

(i) The aggregate amount of manufacturing or production costs and any related deferred costs (e.g., initial tooling costs) which exceeds the aggregate estimated cost of all in-process and delivered units on the basis of the estimated average cost of all units expected to be produced under long-term contracts and programs not yet complete, as well as that portion of such amount which would not be absorbed in cost of sales based on existing firm orders at the latest balance sheet date. In addition, if practicable, disclose the amount of deferred costs by type of cost (e.g., initial tooling, deferred production, etc.).

(ii) The aggregate amount representing claims or other similar items subject to uncertainty concerning their determination or ultimate realization, including a description of the nature and status of the principal items comprising such aggregate amount.

(iii) The amount of progress payments netted against inventory at the date of the balance sheet.

* * * * *

The amendments to Regulation S-X have been adopted pursuant to authority conferred on the Commission by the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j and 77s) thereof and the Securities Exchange Act of 1934, particularly sections 12, 13, 15(d) and 23(a) (15 U.S.C. 78*l*, 78m, 78o(d) and 78(w) thereof.

The above amendments to Regulation S-X shall be applicable to financial statements for periods ending on or after December 20, 1974. Such disclosure is recommended but not required for financial statements for periods ending on or after to December 20, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

NOVEMBER 21, 1974.

C. EXHIBIT

The following hypothetical example is furnished to illustrate the character and detail of the disclosures which might be furnished in response to Rules 5-02.3 and 5-02.6 of Regulation S-X (17 CFR 210.5-02-3 and 5-02-6) as amended by the accompanying release. The illustration is provided to assist in understanding and evaluating the amendments.

XYZ Company and subsidiaries consolidated balance sheets
[In thousands]

Assets	Dec. 31— 1974	1973
CURRENT ASSETS		
Cash	$438	$627
Accounts receivable:		
Trade and other receivables, net of allowance for uncollectible accounts of $38,000 in 1974 and $36,000 in 1973	2,846	2,306
Long-term contracts and programs (notes 1 and 2)	18,986	19,026
Total accounts receivable	21,831	21,432
Inventories and costs relating to long-term contracts and programs in process, net of progress payments (notes 1 and 3)	6,273	6,257
Prepaid expenses	46	27
Total current assets	28,508	28,343

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition. Sales of commercial products under long-term contracts and programs are recognized in the accounts as deliveries are made. The estimated sales value of performance under Government fixed-price and fixed-price incentive contracts in process is recognized under the percentage-of-completion method of accounting whereunder the estimated sales value is determined on the basis of physical completion to date (the total contract amount multiplied by percent of performance to date less sales value recognized in previous periods) and costs (including general and administrative, except as described below) are expensed as incurred. Sales under cost-reimbursement contracts are recorded as costs are incurred and include estimated earned fees in the proportion that costs incurred to date bear to total estimated costs. The fees under certain Government contracts may be increased or decreased in accordance with cost or performance incentive provisions which measure actual performance against established targets or other criteria. Such incentive fee awards or penalties are included in sales at the time the amounts can be determined reasonably.

Inventories. Inventories, other than inventoried costs relating to long-term contracts and programs, are stated at the lower of cost (principally first-in, first-out) on market. Inventoried costs relating to long-term contracts and programs are stated at the actual production cost, including factory overhead, initial tooling and other related non-recurring costs, incurred to date reduced by amounts identified with revenue recognized on units delivered or progress completed. General and administrative costs applicable to cost-plus Government contracts are also included in inventories. Inventoried costs relating to long-term contracts and programs are reduced by charging any amounts in excess of estimated realizable value to cost of sales. The costs attributed to units delivered under long-term commercial contracts and programs are based on the estimated average cost of all units expected to be produced and are determined under the learning curve concept which anticipates a predictable decrease in unit costs as tasks and production techniques become more efficient through repetition.

In accordance with industry practice, inventories include amounts relating to contracts and programs having production cycles longer than one year and a portion thereof will not be realized within one year.

* * * * *

XUM
V 21 93 43 DEC 1974 XUM

NOTE 2—ACCOUNTS RECEIVABLE

The following tabulation shows the component elements of accounts receivable from long-term contracts and programs:

[In thousands]

	Dec. 31—	
	1974	1973
U.S. Government:		
Amounts billed	$7,126	$6,532
Recoverable costs and accrued profit on progress completed—not billed	4,178	3,791
Unrecovered costs and estimated profits subject to future negotiation—not billed	1,468	1,725
Total	12,777	12,038
Commercial customers:		
Amounts billed	1,987	3,462
Recoverable costs and accrued profit on units delivered—not billed	1,298	984
Retainage, due upon completion of contracts	2,441	2,279
Unrecovered costs and estimated profits subject to future negotiation—not billed	537	803
Total	18,985	19,086

The balances billed but not paid by customers pursuant to retainage provisions in construction contracts will be due upon completion of the contracts and acceptance by the owner. Based on the Company's experience with similar contracts in recent years, the retention balances at December 31, 1974 are expected to be collected as follows: $270,000 in 1975, $845,000 in 1976 and the balance in 1977.

Recoverable costs and accrued profit not billed comprise principally amounts of revenue recognized on contracts for which billings had not been presented to the contract owners because the amounts were not billable at balance sheet date. It is anticipated such unbilled amounts receivable from the U.S. Government at December 31, 1974 will be billed over the next 60 days as units are delivered. The unbilled accounts receivable applicable to commercial customers are billable upon completion of performance tests which are expected to be completed in September 1975.

Unrecovered costs and estimated profits subject to future negotiation, the principal amount of which is expected to be billed and collected within one year, consist of the following elements:

[In thousands]

	Dec. 31—	
	1974	1973
U.S. Government contracts:		
Excess of estimated or proposed over provisional price	$190	$187
Amounts claimed for incremental costs arising from customer occasioned contract delays	1,278	1,578
Total	1,468	1,765
Commercial contracts: Unrecovered costs and estimated profit relating to work not specified in excess contract provisions	537	803
Total	2,005	2,568

NOTE 3—INVENTORIES

Inventories and inventoried costs relating to long-term contracts and programs are classified as follows:

[In thousands]

	Dec. 31—	
	1974	1973
Finished goods	$1,167	$1,439
Inventoried costs relating to long-term contracts and programs, net of amounts attributed to revenues recognized to date	2,543	2,526
Work in process	739	947
Raw materials	418	853
Supplies	113	71
Total	7,417	7,474
Deduct progress payments related to long-term contracts and programs	1,139	1,237
Total	6,278	6,237

The following tabulation shows the cost elements included in inventoried costs related to long-term contracts:

[In thousands]

	Dec. 31—	
	1974	1973
Production costs of goods currently in process	$1,134	$960
Excess of production cost of delivered units over the estimated average cost of all units expected to be produced	647	1,033
Unrecovered costs subject to future negotiation	280	310
General and administrative costs	260	270
Initial tooling and other nonrecurring costs	131	265
Total	2,552	2,638

The inventoried costs relating to long-term contracts and programs includes unrecovered costs of $280,000 and $310,000 at December 31, 1974 and 1973, respectively, which are subject to future determination through negotiation or other procedures not complete at balance sheet dates. Of such amounts, $260,000 and $280,000 are in respect to contracts under which all goods have been delivered at December 31, 1974 and 1973, respectively. The unrecovered amount at December 31, 1973 consisted of three items, one of which was settled during 1974. The amount remaining at December 31, 1974 is represented principally by a claim asserted against a customer for amounts incurred as a result of faulty materials furnished by the customer which in turn caused delays in performance under the contract. In the opinion of management these costs will be recovered by contract modification or litigation. It is expected that the negotiations which are being conducted currently with the customer will be successfully concluded during the next twelve months. If this expectation is not realized, the matter will be referred to the Armed Services Board of Contract Appeals, with the consequence that settlement could be delayed for an indeterminate period.

The actual per unit production cost of the NX-4C aircraft produced during the most recent fiscal year was less than the estimated average per unit cost of all units expected to be produced under the program. Prior to 1974, the Company's NX-4C commercial aircraft program was in the early high cost period. During the initial years of the program, the cost of units produced exceeded the sales price of the delivered units and the estimated average unit cost of all units to be produced under the program. At December 31, 1974, inventories included costs of $647,000 representing the excess of costs incurred over estimated average costs per aircraft for the 117 aircraft delivered through the year end. The estimated average unit cost is predicated on the assumption that 250 planes will be produced and that production costs (principally labor and materials) will decrease as the project matures and efficiencies associated with increased volume, improved production techniques and the performance of repetitive tasks (the learning curve concept) are realized.

NOTE: The amount by which the production costs of the equivalent finished units in process at the date of the latest balance sheet exceeds the cost of such units on the basis of the estimated average unit cost of all units expected to be produced under the program should be stated. Since, as stated above, the actual per unit production cost is currently less than the estimated average per unit cost of all units expected to be produced under the program, no such excess is assumed in this example.

Recovery of the deferred production, initial tooling and related non-recurring costs is dependent on the number of aircraft ultimately sold and actual selling prices and production costs associated with future transactions. Sales significantly under estimates or costs significantly over estimates could result in the realization of substantial losses on the program in future years. Realization of approximately $421,000 of the gross commercial aircraft inventories at December 31, 1974 is dependent on receipt of future firm orders.

Based on studies made by and on behalf of the Company, management believes there exists for this aircraft a market for over 250 units, including deliveries to date, with production and deliveries continuing at a normal rate to at least 1980. At December 31, 1974, 117 aircraft had been delivered under the program, and the backlog included 64 firm unfilled orders and options for 43 units.

The aggregate amounts of general and administrative costs incurred during 1974 and 1973 were $2,251,000 and $2,238,000, respectively. As stated in Note 1, the Company allocates general and administrative costs to certain types of Government contracts. The amounts of general and administrative costs remaining in inventories at December 31, 1974 and 1973 are estimated at $260,000 and $270,000, respectively. Such estimates assume that costs have been removed from inventories on a basis proportional to the amounts of each cost element expected to be charged to cost of sales.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

SUBCHAPTER C—DRUGS

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

Chlortetracycline

The Commissioner of Food and Drugs has evaluated a new animal drug application (93-372V) filed by the American Cyanamid Co., Princeton, NJ 08540, proposing safe and effective use of chlortetracycline in duck feed. The application is approved.

To assure that edible products of ducks are safe for consumption, the regulations are amended to provide for safe tolerances of chlortetracycline residues in such products.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)), in accordance with § 3.517 of the Code of Federal Regulations (21 CFR 3.517), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135g are amended as follows:

1. In Part 121, § 121.208(d) is amended by adding a new item to table 3 to read as follows:

§ 121.208 Chlortetracycline.

• • • • • •

(d) • • •

TABLE 3.—*Chlortetracycline in feed for other animals*

Principal ingredient	Quantity	Limitations	Indications for use
•	•	•	•
1. Chlortetracycline.	200 to 400 g/ton	For ducks; feed in complete ration to provide from 8 to 25 mg per pound of body weight per day depending upon age and severity of disease for not more than 21 d; as the calcium complex of chlortetracycline equivalent to chlortetracycline hydrochloride.	For the control and treatment of fowl cholera in ducks caused by *Pasteurella multocida* susceptible to chlortetracycline.

• • • • •

2. In Part 135g, § 135g.8 is amended by revising the introductory text of paragraph (a) to read as follows:

§ 135g.8 Chlortetracycline.

• • • • •

(a) In edible tissues and in eggs of chickens, turkeys, and ducks:

• • • • •

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(b)(i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.74-29183 Filed 12-16-74;8:45 am]

PART 135—NEW ANIMAL DRUGS

PART 135a—NEW ANIMAL DRUGS FOR OPHTHALMIC AND TOPICAL USE

Sponsors of Approved Applications; Triethanolamine Polypeptide Oleate-Condensate

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (12-817V) filed by the Purdue Frederick Co., Norwalk, CN 06856, proposing revised labeling for the safe and effective use of triethanolamine polypeptide oleate-condensate for the removal of earwax in cats and dogs. The supplemental application is approved.

The firm's address has changed from that currently listed in 21 CFR 135.501(c), and the regulation is being amended to reflect this change.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135a are amended as follows:

1. In § 135.501(c) of Part 135 by revising code No. 083 to read as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

• • • • •

(c) • • •

Code No.:	Firm name and address
•	•
083	The Purdue Frederick Co., 50 Washington St., Norwalk, Conn. 06856.
•	•

2. In § 135a.44 of Part 135a by revising paragraph (c)(2) to read as follows:

§ 135a.44 Triethanolamine polypeptide oleate-condensate otic solution.

• • • • •

(c) • • •

(2) Tilt the animal's head to the side and fill the external auditory canal with the drug. Allow the drug to remain in contact for 15 to 30 minutes; then gently flush the ear with warm water. Repeat if needed.

• • • • •

Effective date. This order will be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.74-29184 Filed 12-16-74;8:45 am]

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Oxytetracycline Hydrochloride

The Commissioner of Food and Drugs has evaluated new animal drug application (94-114V) filed by Pfizer, Inc., New York, NY 10017, proposing safe and effective uses of oxytetracycline hydrochloride injection for the treatment of beef cattle and nonlactating dairy cattle. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended in § 135b.65 by adding a new paragraph (e) to read as follows:

§ 135b.65 Oxytetracycline hydrochloride injection.

• • • • • •

(e)(1) *Specifications.* The drug contains 100 milligrams of oxytetracycline base as oxytetracycline hydrochloride in each milliliter of sterile solution.

(2) *Sponsor.* See code No. 030 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) For beef cattle and nonlactating dairy cattle in the treatment of pneumonia and shipping fever complex associated with *Pasteurella spp.* and *Hemophilus spp.*; foot-rot and diptheria caused by *Spherophorus necrophorus;* bacterial enteritis (scours) caused by *Escherichia coli;* wooden tongue caused by *Actinobacillus lignieresi;* leptospirosis caused by *Leptospira pomona;* and wound infections and acute metritis caused by strains of *Staphylococci* and *Streptococci* sensitive to oxytetracycline. If the labeling of the drug bears the statement "Federal law restricts this drug to use by or on the order of a licensed veterinarian", it may include additional uses in beef cattle and nonlactating dairy cattle for the treatment of anaplasmosis caused by *Anaplasma marginale* and anthrax caused by *Bacillus anthracis.*

(ii) Administer by intramuscular injection at a dosage level of 3 to 5 milligrams of oxytetracycline per pound of body weight per day. In the treatment of anaplasmosis, foot-rot, and advanced cases of other indicated diseases, 5 milligrams per pound of body weight per day is recommended.

(iii) Treatment of all diseases should be instituted early and should continue for 24 to 48 hours beyond remission of disease symptoms, but not to exceed a total of 4 consecutive days. If no improvement is noted within 24 to 48 hours, diagnosis and therapy should be reevaluated.

(iv) When injecting intramuscularly in adult cattle, do not inject more than 10 milliliters at any one site. The volume administered per injection site should be reduced according to age and body size so that 1 to 2 milliliters are injected in smaller animals such as small calves.

(v) Treatment must be discontinued at least 15 days prior to slaughter. Exceeding the highest recommended dose of 5 milligrams per pound of body weight, administering at recommended levels for more than 4 consecutive days, and/or exceeding 10 milliliters intramuscularly per injection site may result in antibiotic residues beyond the withdrawal time.

(vi) Not for use in lactating dairy animals.

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.74-29213 Filed 12-16-74;8:45 am]

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

Virginiamycin

The Commissioner of Food and Drugs has evaluated new animal drug applications (91-467V and 91-513V) filed by Smith Kline and French Laboratories, Philadelphia, PA 19101, proposing safe and effective use of virginiamycin premixes for the manufacture of swine feeds. The applications are approved.

The order also provides for the establishment of corresponding safe tolerances for negligible residues of virginiamycin in the edible tissues of swine.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

1. In Part 135e by adding the following new section:

§ 135e.69 Virginiamycin.

(a) *Specifications.* Virginiamycin is the antibiotic substance produced by the growth of *Streptomyces virginiae* or the same antibiotic substance produced by any other means.

(b) *Approvals.* Premix levels of 2.2 percent virginiamycin activity (10 grams per pound) and 50 percent virginiamycin activity (227 grams per pound) granted to code No. 034 in § 135.501(c) of this chapter.

(c) *Assay limits.* Finished feed must contain not less than 70 percent nor more than 130 percent of the labeled amount of the drug.

(d) *Related tolerances.* See § 135g.69 of this chapter.

(e) *Special considerations.* (1) Not for use in breeding swine over 120 pounds.

(2) Dilute premix with at least 10 pounds of a feed ingredient prior to final mixing in 1 ton of complete feed.

(e) *Conditions of use.* It is used as follows:

Virginiamycin in complete swine feeds

Grams per ton	Animal weight	Indications for use
200 (for 2 weeks).	Over 120 lb...	Treatment of active dysentery in nonbreeding swine.
100 (for 2 weeks).	Up to 120 lb...	Treatment and control of swine dysentery.
50 (thereafter):		
25	do	Aid in control of swine dysentery. For use in animals or on premises with a history of swine dysentery but where symptoms have not yet occurred.
10	Weaning to 120 lb.	Increased rate of weight gain and improved feed efficiency (starter and grower feeds only).

2. In Part 135g by adding a new section as follows:

§ 135g.69 Virginiamycin.

A tolerance of 0.1 part per million is established for negligible residues of virginiamycin in the edible tissues of swine.

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.74-29181 Filed 12-16-74;8:45 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH AQUEOUS AND FATTY FOODS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 4B2994) filed by the Dow Chemical Co., 2030 Dow Center, Midland, MI 48640, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for safe use of styrene-butadiene copolymers with 2-hydroxyethyl acrylate and acrylic acid containing not more than 15 weight percent acrylic acid and no more than 20 weight percent of a combination of 2-hydroxyethyl acrylate and acrylic acid as components of paper and paperboard intended to contact food.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2526(b)(2) is amended in the table by alphabetically inserting in the list of substances a new item as follows:

§ 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * *

(b) * * *

(2) * * *

List of substances	*Limitations*
* * *	* *
Styrene-butadiene copolymers with 2-hydroxyethyl acrylate and acrylic acid containing not more than 15 weight percent acrylic acid and no more than 20 weight percent of a combination of 2-hydroxyethyl acrylate and acrylic acid.	----------
* * *	* *

Any person who will be adversely affected by the foregoing order may at any time on or before January 16, 1975 file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective December 17, 1974.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 10, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (96-838V) filed by Fasco Mills, Box 70, Route 34 East, Mendota IL 61342, proposing safe and effective use of a tylosin premix in the manufacture of swine feed. The application is approved.

To facilitate referencing, the firm is being assigned a sponsor code number and placed in the list of firms in § 135.501(c) (21 CFR 135.501(c)).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

1. In Part 135 by adding to § 135.501(c) a new sponsor as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c) * * *

Code No.:	*Firm name and address*
* * *	* * *
126	Fasco Mills Co., Box 70, Route 34 East, Mendota, Ill. 61342.

2. In Part 135e by adding to § 135e.10 a new paragraph (b)(23) to read as follows:

§ 135e.10 Tylosin.

* * * * *

(b) * * *

(23) To 126: 0.8 gram per lb., item 4.

* * * * *

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29258 Filed 12-16-74;8:45 am]

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Oxytetracycline Hydrochloride

The Commissioner of Food and Drugs has evaluated a new animal drug application (83-578V) filed by John D. Copanos & Co., Inc., Baltimore, MD 21225, proposing safe and effective use of oxytetracycline hydrochloride injection for the treatment of beef cattle, beef calves, nonlactating dairy cattle, and dairy calves. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended in § 135b.65 by adding a new paragraph (f) to read as follows:

§ 135b.65 Oxytetracycline hydrochloride injection.

* * * * *

(f) (1) *Specifications.* The drug contains 50 milligrams of oxytetracycline hydrochloride in each milliliter of sterile solution.

(2) *Sponsor.* See code No. 054 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) Use in beef cattle, beef calves, nonlactating dairy cattle, and dairy calves for the treatment of pneumonia and shipping fever complex associated with *Pasteurella spp.* and *Hemophilus spp;* foot-rot and diphtheria caused by *Spherophorus necrophorus;* bacterial enteritis (scours) caused by *Escherichia coli;* wooden tongue caused by *Actinobacillus lignieresi;* leptospirosis caused by *Leptospira pomona;* wound infections, acute metritis, and traumatic injury caused by staphylococcal and streptococcal organisms.

(ii) Administer by intramuscular injection at 3 to 5 milligrams of oxytetracycline per pound of body weight per day. In the treatment of leptospirosis, severe foot-rot, and severe forms of the indicated diseases, administer 5 milligrams per pound of body weight per day.

(iii) Treatment should continue for 24 to 48 hours beyond remission of disease symptoms, but not to exceed a total of 4 consecutive days. Treat at the first clinical signs of disease. If no improvement is noted within 48 hours, consult a veterinarian for diagnosis and therapy.

(iv) In adult livestock, do not inject more than 10 milliliters at any one site. Reduce the volume administered per injection site according to age and body size. In calves weighing 100 pounds or less, inject only 2 milliliters per site.

(v) Discontinue treatment at least 22 days prior to slaughter. Exceeding the recommended dosage level or duration of treatment may result in antibiotic residues beyond the withdrawal time.

(vi) Not for use in lactating dairy animals.

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29259 Filed 12-16-74;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Sulfadimethoxine

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications (31-205V; 46-285V) filed by Hoffmann-La Roche, Inc., Nutley, NJ 07110, proposing safe and effective use of sulfadimethoxine as a solution or a soluble powder in the drinking water or as a drench for dairy calves, dairy heifers, and beef cattle. The supplemental applications are approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b (i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135c.13 is amended by revising paragraph (b) and by revising the title of, and adding a new item 3 to, table 1 of paragraph (e) to read as follows:

§ 135c.13 Sulfadimethoxine.

* * * * *

(b) *Sponsors.* Firms identified by code numbers in § 135.501(c) of this chapter have been granted approvals for specific conditions of use as indicated in the tables in paragraph (e) of this section as follows:

(1) To 020: approval for use as in table 1, items 1, 2, and 3; table 2, item 1.

(2) To 069: approval for use as in table 2, item 2.

(3) To 066: approval for use as in table 2, item 3.

(4) To 074: approval for use as in table 2, item 2, for dogs only.

* * * * *

(e) *Conditions of use.* It is used as follows:

TABLE 1.—*In drinking water or drench*

Principal ingredient	Grams per gallon	Limitations	Indications for use
*	*	*	*
3. Sulfadimethoxine.	1.88 to 2.50 (0.05) to 0.063 percent).	For dairy calves, dairy heifers, and beef cattle only; administer 2.5 g/100 lb of body weight for 1st day, then 1.25 g/100 lb of body weight per day for next 4 consecutive days; in drinking water or drench; available as a sulfadimethoxine soluble powder or a 12.5 percent sulfadimethoxine sodium solution (2.75 g sulfadimethoxine per fluid ounce); if no improvement within 2 to 3 d, reevaluate diagnosis; do not treat beyond 5 d; withdraw 7 d before slaughter.	Treatment of shipping fever complex, bacterial pneumonia, calf diphtheria, and foot rot.

* * * * * * *

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29534 Filed 12-16-74;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Haloxon Boluses

The Commissioner of Food and Drugs has evaluated a new animal drug application (92-483V) filed by Cooper U.S.A., Inc., Research Triangle Park, NC 27709, proposing the safe and effective use of haloxon boluses as an anthelmintic in the treatment of cattle. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by adding a new section as follows:

§ 135c.129 Haloxon boluses, veterinary.

(a) *Chemical name.* 3-Chloro-7-hydroxy - 4-methylcoumarin bis(2-chloroethyl) phosphate.

(b) *Specifications.* Each bolus contains 10.1 grams of haloxon.

(c) *Sponsor.* See code No. 010 in § 135.501(c) of this chapter.

(d) *Related tolerances.* Sections 135g.69 of this chapter.

(e) *Conditions of use.* (1) Haloxon bolus is an anthelmintic used in cattle for the control of gastrointestinal round worms of the genera *Haemonchus, Ostertagia, Trichostrongylus* and *Cooperia.*

(2) It is administered as follows:

Weight of animal (pounds)	Dose (bolus(s))
200 to 300	½
300 to 600	1
600 to 900	1½
850 to 1,200	2
Over 1,200	3

(3) For most effective results, re-treat animals in 3 to 4 weeks. If reinfection is likely to occur, additional re-treatments may be necessary.

(4) Do not use any drug, pesticide or other chemical having cholinesterase inhibiting activity either simultaneously or within a few days before or after treatment with haloxon.

(5) Do not treat animals within one week of slaughter.

(6) Do not treat dairy animals of breeding age or older.

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29257 Filed 12-16-74;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 146a—CERTIFIED PENICILLIN AND PENICILLIN-CONTAINING DRUGS FOR VETERINARY USE

Potassium Phenoxymethyl Penicillin Tablets

The Commissioner of Food and Drugs has evaluated new animal drug applications filed by Elanco Products Co., Indianapolis, IN 46206 (65-282V) and Abbott Laboratories, North Chicago, IL 60064 (65-275V) proposing safe and effective use of potassium phenoxymethyl penicillin tablets for the treatment of dogs and cats. The applications are approved.

The regulation for the certification requirements for the drug is amended to provided that it be dispensed on a prescription basis.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 146a are amended as follows:

1. By adding a new § 135c.133 to read as follows:

§ 135c.133 Potassium phenoxymethyl penicillin tablets.

(a) *Specifications.* Each tablet contains potassium phenoxymethyl penicillin and conforms to the certification requirements of § 146a.27 of this chapter.

(b) *Sponsors.* To code No. 014 in § 135.501(c) of this chapter, approval for tablets containing 125, 250, or 500 milligrams of the drug; to 068, approval for tablets containing 125 or 250 milligrams of the drug.

(c) *Conditions of use.* (1) The drug is administered to dogs and cats for the treatment of respiratory, urogenital, skin and soft tissue infections and septicemia caused by pathogens susceptible to potassium phenoxymethyl penicillin.

(2) It is administered orally at a dosage of 10–15 milligrams per pound of body weight every 6 to 8 hours.

(3) It should be administered 1 to 2 hours prior to feeding for maximum absorption.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. By deleting from the introductory text of § 146a.27(b) the final period and adding new text as follows:

§ 146a.27 Penicillin tablets, veterinary.

* * * * *

(b) * * * in all cases except those in which the veterinary prescription statement is required by regulations under Part 135c of this chapter. In those cases, the veterinary prescription statement shall comply with the requirements prescribed by § 1.106(c) of this chapter.

* * * * *

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29260 Filed 12-16-74;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 146a—CERTIFIED PENICILLIN AND PENICILLIN-CONTAINING DRUGS FOR VETERINARY USE

Potassium Phenoxymethyl Penicillin for Oral Solution

The Commissioner of Food and Drugs has evaluated new animal drug applications filed by Elanco Products Co., Indianapolis, IN 46206 (65-283V) and Abbott Laboratories, North Chicago, IL 60064 (65-276V) proposing safe and effective use of potassium phenoxymethyl penicillin for oral solution in the treatment of dogs and cats. The applications are approved.

The regulation for the certification requirements for the drug is amended to provide that it be dispensed on a prescription basis.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 146a are amended as follows:

1. By adding a new § 135c.131 to read as follows:

§ 135c.131 Potassium phenoxymethyl penicillin for oral solution.

(a) *Specifications.* The drug consists of soluble granules which conform to the certification requirements of § 146a.104 of this chapter.

(b) *Sponsors.* To code No. 014 in § 135.501(c) of this chapter, approval for soluble granules which when dissolved in water produce a solution of 125 or 250 milligrams of potassium phenoxymethyl penicillin per 5 milliliters; to 068, approval for 125 milligrams per 5 milliliters.

(c) *Conditions of use.* (1) The drug is administered to dogs and cats orally for the treatment of respiratory, urogenital, skin and soft tissue infections and septicemia caused by pathogens susceptible to potassium phenoxymethyl penicillin.

(2) It is administered at a dosage of 10 to 15 milligrams per pound of body weight every 6 to 8 hours.

(3) It should be administered 1 to 2 hours prior to feeding for maximum absorption.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. By revising § 146a.104(b) to read as follows:

§ 146a.104 Phenoxymethyl penicillin for oral suspension veterinary; potassium phenoxymethyl penicillin for oral solution, veterinary.

* * * * *

(b) When phenoxymethyl penicillin for oral suspension and potassium phenoxymethyl penicillin for oral solution are packaged for dispensing and intended solely for veterinary use, their label and labeling shall comply with all the requirements prescribed by §§ 135c.131 and 148.3 of this chapter.

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-29252 Filed 12-16-74;8:45 am]

PART 135c—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Monensin Sodium, Zinc Bacitracin

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (47-933V) filed by Elanco Products Co., Indianapolis, IN 46206, proposing safe and effective use of monensin, 90 to 110 grams per ton, with zinc bacitracin in broiler chicken feeds. This supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347, 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135c.50(f) is amended by revising items 6 and 7 in the table to read as follows:

§ 135c.50 Monensin; monensin sodium.

* * * * *

(f) * * *

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
•	•	•	•	•	•
7. Monensin	90-110	Bacitracin	10	For broiler chickens; do not feed to laying chickens; feed continuously as sole ration; withdraw 72 hr before slaughter; as zinc bacitracin provided by code No. 009 in § 135.501(c) of this chapter; as monensin sodium.	For increased rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati, E. maxima.*
7. Monensin	90-110	....do	10-30	....do	For improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati, E. maxima.*
•	•	•	•	•	•

Effective date. This order shall be effective December 17, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: December 11, 1974.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Postal Service Manual Amendment

Chapter I of the Postal Service Manual, which has been incorporated by reference in the FEDERAL REGISTER (see 39 CFR 111.1), has been amended by the issuance of Post Office Services (Domestic) Transmittal Letter 32, Issue 91, dated November 17, 1974.

In accordance with 39 CFR 111.3 notice of this change is hereby published in the FEDERAL REGISTER as an amendment to that section and the text of the change is filed with the Director, Office of the Federal Register. Subscribers to the Manual will receive this amendment automatically from the Government Printing Office. (For other availability of Chapter I of the Postal Service Manual, see 39 CFR 111.2.)

Description of this amendment to the Postal Service Manual follows:

In Part 146—Prepayment of Postage Due: § 146.12 is revised to provide that mail deposited without any postage prepaid (except as stated in § 146.11) be returned to the sender without attempt at delivery. If no return address is shown, such mail will be sent to the dead letter office to be disposed of in accordance with § 159.4.

In consideration of the foregoing, 39 CFR 111.3 is amended by adding the following:

§ 111.3 Amendments to Chapter I of the Postal Service Manual.

• • • • •

Amendments to Postal Service Manual

Transmittal letter	Date	Federal Register publication
Letter 32, issue 91	Nov. 17, 1974	39 F.R. —.

This amendment of Postal Service regulations was the subject of a rule-making proceeding and was put into effect on November 17, 1974. The text of the regulation adopted appears at 39 FR 40597.

(5 U.S.C. 552(a), 39 U.S.C. 401, 404, 407, 408, 3001-3011, 3201-18, 3403-05, 3601, 3621 and 50 U.S.C. App. 454)

ROGER P. CRAIG,
Deputy General Counsel.

[FR Doc.74-29321 Filed 12-16-74;8:45 am]

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 306-1]

PART 414—ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

Manufacturing Process; Applicability

On April 25, 1974, notice was published in the FEDERAL REGISTER (39 FR 14676-14683) of the adoption by the Environmental Protection Agency of effluent guidelines and standards for the organic chemicals manufacturing point source category. These regulations were modified slightly on June 12, 1974 (39 FR 20567).

The purpose of this notice is to announce the editorial amendment to § 414.20 to clarify that formaldehyde manufacturing process wastewater refers to the wastewater before ion exchange purification and that formaldehyde means the commercial 37 percent solution.

§ 414.20 [Amended]

1. Section 414.20 is changed so that the first paragraph reads as follows:

The provisions of this subpart are applicable to discharges of process wastewater resulting from the manufacture of the products listed below. The manufacturing process does not include ion exchange purification of a product.

• • • • •

2. Under the heading "B1 products" in § 414.20 the word "Formaldehyde" is changed to "Formaldehyde (37 percent solution)."

These editorial amendments are entirely administrative in nature. Therefore the public rulemaking process is waived and this amendment will become effective December 17, 1974.

Dated: December 9, 1974.

JOHN QUARLES,
Acting Administrator.

[FR Doc.74-29345 Filed 12-16-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-1—GENERAL

PART 14-3—PROCUREMENT BY NEGOTIATION

Responsibility and Authority; Circumstances Permitting Negotiation

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Parts 14-1 and 14-3 of Chapter 14 of Title 41 of the Code of Federal Regulations are hereby amended.

The principal changes in Subpart 14-1.4 consist of the deletion of § 14-1.451 and the transfer of pertinent portions thereof to §§ 14-1.402 through 14-1.404-3. A new § 14-1.400 has been added to describe the scope of the subpart. Departmental Manual references have been added concerning delegations of authority. Repetitious instructions already stated in 41 CFR 1-1.4 have been deleted. The amendments to Subpart 14-3.1 and 14-3.4 are editorial changes.

Subpart 14-3.2 has been amended (1) to delete § 14-3.201(a) which is no longer applicable; (2) to provide in § 14-3.203 that transportation charges to destination will be included when determining the full purchase price; (3) to provide revised references in §§ 14-3.211, 14-3.212 and 14-3.213; and (4) to revise § 14-3.214 to permit contracting officers to make the determinations that bid prices after advertising are unreasonable.

Subpart 14-3.3 is revised to add a new § 14-3.303(b) which provides instructions for making certain determinations and findings.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein provide administrative instructions and implement existing regulations. Therefore, the public rulemaking process is waived in this particular instance and these changes will become effective immediately.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

DECEMBER 10, 1974.

1. The Table of Contents of Subpart 14-1.4 of 41 CFR, Chapter 14 (Interior

Procurement Regulations) is deleted and the following is substituted therefor:

Subpart 14–1.4—Procurement Responsibility and Authority

Sec.
14–1.400 Scope of subpart.
14–1.401 Responsibility of the head of the procuring activity.
14–1.402 Authority of contracting officers.
14–1.404 Selection, designation, and termination of designation of contracting officers.
14–1.404–1 Selection.
14–1.404–2 Designation.
14–1.404–3 Termination of designation.
14–1.450 Contracting officer's representatives.
14–1.450–1 Designation.
14–1.450–2 Limitations of authority.
14–1.450–3 Termination of designation.
14–1.450–4 Documentation and acknowledgment.

AUTHORITY: 5 U.S.C. 301.

2. Subpart 14–1.4 of 41 CFR, Chapter 14 (Interior Procurement Regulations) is deleted in its entirety and the following is substituted therefor:

Subpart 14–1.4—Procurement Responsibility and Authority

§ 14–1.400 Scope of subpart.

This subpart provides references to delegations of authority contained in the Departmental Manual; establishes general criteria regarding redelegation of authority; and prescribes the requirements for the selection, designation, and termination of designation of contracting officer's representatives.

§ 14–1.41 Responsibility of the head of the procuring activity.

Except as may otherwise be specifically prescribed elsewhere, the head of each procuring activity (see § 14–1.206 of this chapter) has full responsibility for the procurement of personal property and nonpersonal services (including construction), and all related matters, under the cognizance of his activity.

§ 14–1.402 Authority of contracting officers.

(a) The authority of the Secretary with respect to all matters relating to procurement of personal property and nonpersonal services (including construction) has been delegated to Secretarial officers and to the heads of bureaus and other Departmental officers by 210 DM 1 and 205 DM 11, respectively, of the Departmental Manual, subject to the limitations prescribed therein.

(b) Redelegation of authority to other contracting officer positions will be subject to the applicable limitations of 205 DM 11 and 210 DM 1 of the Departmental Manual and this chapter (Part 14 of this chapter).

(c) In determining the extent to which authority should be redelegated, the following factors should be considered: Volume of procurement program; presence of, or capability of obtaining, adequately trained personnel; availability of existing officers where the functions, if transferred, could be better exercised; consolidation of smaller procurement programs and offices with larger program operations and offices on a geographical basis; and the overall strengthening of the procurement process by the selection of qualified personnel.

§ 14–1.404 Selection, designation, and termination of designation of contracting officers.

Contracting officers shall be selected, designated as such, and their designation terminated as provided in § 1–1.404 of this title and this § 14–1.404.

§ 14–1.404–1 Selection.

In addition to the requirements in § 1–1.404–1 of this title, the following actions are to be taken before a person is selected as a contracting officer:

(a) Any position description which includes contracting officer functions shall contain a clear statement of the contracting officer duties, responsibilities and functions.

(b) An affirmative showing must be made that the person selected as a contracting officer does in fact meet the requirements of the position and has a demonstrated capacity to perform those duties, responsibilities, and functions.

§ 14–1.404–2 Designation.

(a) It is the Department's policy to delegate and redelegate authority to positions rather than to individuals. (Also see § 14–1.402 of this chapter.)

(b) Persons appointed to designated contracting officer positions, or anyone designated to act for them in their absence, must exercise their duties and responsibilities in respect thereto in conformity with the authority given.

§ 14–1.404–3 Termination of designation.

The procurement authority, delegated or redelegated, may be terminated by the delegator for any reason. Failure to comply with all applicable requirements, statutes, regulations, executive orders, and limitations on the scope of authority to be exercised may warrant termination of the delegation of authority or the designation of contracting officer.

§ 14–1.450 Contracting officer's representatives.

§ 14–1.450–1 Designation.

(a) A contracting officer may designate a person to act as his authorized representative to administer a contract subject to the limitations of § 14–1.450–2 of this chapter.

(b) The contracting officer shall ensure that the person designated to act as his authorized representative possesses the necessary qualifications and experience.

(c) Generally, a contracting officer's representative shall be designated by name and position title, but when it is not feasible to make the designation in that manner the title only may be used.

(d) Each designation of a contracting officer's representative shall be in writing and shall clearly define the scope and limitations of the authority of the representative. Changes in the scope and limitations of authority may be accomplished either by issuance of a new designation or by an amendment to the existing designation. When the same representative is to act for the contracting officer on more than one contract, a separate designation for each contract or a general designation may be issued.

(e) A designation of a contracting officer's representative shall remain in effect throughout the life of the contract concerned unless revoked sooner by the contracting officer.

§ 14–1.450–2 Limitations of authority.

A contracting officer's representative may act for the contracting officer in administering a contract but shall not be empowered to award, agree to, or execute any contract or modification thereto, or in any way to obligate the payment of money by the Government, to make a final decision on any matter which would be subject to appeal under the disputes clause of the contract, or terminate for any cause the contractor's right to proceed.

§ 14–1.450–3 Termination of designations.

Every termination of designation of contracting officer's representative shall be made in writing and may not operate retroactively.

§ 14–1.450–4 Documentation and acknowledgment.

Two copies of each designation or revision thereof or termination of designation shall be furnished to the contractor by the contracting officer. The contractor shall be required to acknowledge receipt thereof on one copy and return it to the contracting officer for retention.

3. Subparts 14–3.1 through 14–3.4 of 41 CFR, Chapter 14 (Interior Procurement Regulations) are deleted in their entirety and the following are substituted therefor:

Subpart 14–3.1—Use of Negotiation

§ 14–3.103 Dissemination of procurement information.

(a) In connection with negotiated contracts, only the names of successful offerors and the prices at which the awards were made shall ordinarily be publicly disclosed. Information to an unsuccessful offeror concerning the merits or quality of a competitor's products shall be limited solely to the statement, if applicable, that adequate inspection or testing has shown that the successful offeror's products have met the requirements of the contract or purchase order. This shall not be construed as prohibiting purchasing officers from informing a supplier concerning the results of tests on the supplier's own products, or prohibiting purchasing officers in connection with their individual duties and responsibilities as members of technical committees from making necessary contracts with testing laboratories.

(b) The requirements of § 14–2.407–1 of this chapter relative to advance notices required prior to making contract award shall apply to negotiated contracts.

Subpart 14–3.2—Circumstances Permitting Negotiation

Sec.
14–3.201 National emergency.
14–3.203 Purchases not in excess of $10,000.
14–3.211 Experimental, developmental, or research work.
14–3.212 Purchases not to be publicly disclosed.
14–3.213 Technical equipment requiring standardization and interchangeability of parts.
14–3.214 Negotiation after advertising.

AUTHORITY: 5 U.S.C. 301.

Subpart 14–3.2—Circumstances Permitting Negotiation

§ 14–3.201 National emergency.

(a) *Determination.* It is determined by the Secretary that contracts or purchases negotiated under § 1–3.201(b) of this title during the national emergency which exists by reason of Presidential Proclamation No. 2914 of December 16, 1950 (3 CFR) are in the public interest.

§ 14–3.203 Purchases not in excess of $10,000

When determining whether the amount involved in any one transaction does not exceed $10,000, the full purchase price including transportation charges to destination is controlling. Any prompt payment discount or trade-in value of any article to be offered in exchange is not to be deducted when making this determination.

§ 14–3.211 Experimental, developmental, or research work.

Limitation: The heads of bureaus and offices shall make the determinations and findings for contracts not exceeding $25,000 required by § 1–3.211 of this title and may not redelegate these responsibilities. (Also see § 1–3.303 of this title and § 14–3.303 of this chapter.)

§ 14–3.212 Purchases not to be publicly disclosed.

Limitations: The determinations and findings to support purchases and contracts under § 1–3.212 of this title shall be made by the Secretary. (Also see § 1–3.212 of this title and § 14–3.303 of this chapter.)

§ 14–3.213 Technical equipment requiring standardization and interchangeability of parts.

Limitations: The determinations and findings to support purchases and contracts required under § 1–3.213 of this title shall be made by the Secretary. (Also see § 1–3.303 of this title and § 14–3.303 of this chapter.)

§ 14–3.214 Negotiation after advertising.

(a) The heads of bureaus and offices and contracting officers may make the determinations and findings under § 1–3.214 of this title that bid prices after advertising therefor are not reasonable (either as to all or some part of the requirement).

(b) The head of the bureau or office or his delegate shall make the determinations and findings required under § 1–3.214 of this title that bid prices after advertising therefor have not been independently arrived at in open competition. The receipt of two or more identical low bids may be considered as sufficient evidence to support such a determination: *Provided, however,* That this shall not preclude determination of a successful bidder in accordance with § 1–2.407–6 of this title if it is in the best interests of the Government to do so.

Subpart 14–3.3—Determinations, Findings, and Authorities

§ 14–3.303 Determinations and findings by the head of the agency.

(a) The heads of bureaus and offices shall make the determinations and findings required by § 1–3.211 of this title and § 14–3.211 of this chapter when the contract will not require the expenditure of more than $25,000.

(b) Determinations and findings by the head of the agency under §§ 1–3.211 through 1–3.213 (also see §§ 14–3.211 through 14–3.213 of this chapter) and § 1–6.1004 of this title will be made by the Assistant Secretary—Management. Requests for such determinations and findings will be submitted to the Director of Management Services for review and coordination.

Subpart 14–3.4—Types of Contracts

§ 14–3.408 Letter contract.

(a) *Limitations of use.* A letter contract shall not be used unless it is found that no other type of contract is suitable. In the event a bureau or office considers that a letter contract should be employed, the matter shall be submitted to the Assistant Secretary–Management (through the appropriate Assistant Secretary) for review and approval in advance of actual use.

(b) *Limitation of effectiveness.* A letter contract shall be superseded by a definitive contract not more than 90 days from the date of its execution unless prior approval is obtained from the Assistant Secretary–Management to extend the duration of the letter contract beyond 90 days.

(c) *Limitation of liability.* The maximum liability of the Government stated in a letter contract shall not exceed 50 percent of the total estimated cost of the procurement, except in cases where the cost of specialized equipment or materials (such as mechanical or electrical) to be acquired by the contractor as a part of the contract exceeds 50 percent of the total estimated cost thereof. The cost of the specialized equipment and material shall be the limitation in those cases where it exceeds the 50 percent limitation.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 250—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

Reserved Beds in Long-Term Care Facilities

Interim regulations relating to payment for reserved beds in long-term care facilities under Medicaid (Title XIX, Social Security Act) were published on June 19, 1974 (39 FR 21135). The regulation specified the conditions under which Federal financial participation will be available in State payments to reserve a bed in a long-term care facility for recipients undergoing hospitalization or on therapeutic home visits.

Comments were received from 11 State agencies or commissions, 2 national organizations, 1 State ombudsman project, 1 university, 4 long-term care facilities and 1 State facility association. The major comments and the Department's responses are summarized below.

1. Many respondents objected to the provision limiting payment to those days when it is likely that the bed would otherwise be required for occupancy by some other patient, contending that this rule is very difficult to apply and may result in controversy.

To help the single State agency in applying the rule, the provision has been clarified to indicate that analysis of current facility occupancy patterns in the locality is required which supports the likelihood that a reserved bed would otherwise be needed for some other patient.

2. Several comments stated that home visits could be therapeutic even when deinstitutionalization of the recipient is not indicated.

Accordingly, paragraph (d)(2)(i)(c) is revised to provide that Federal financial participation is available for reserved beds when the patient's plan of care provides for such home visits.

3. Some comments indicated that the specified time limits for Federal financial participation (FFP) in therapeutic home visits and hospitalization for acute conditions are too short.

No change was deemed necessary in this provision. The limit of 15 days for periods of hospitalization is deemed adequate, since studies show that such period covers the average length of stay for persons 65 years of age or older. The limit of 3 days for therapeutic visits was deemed adequate because such period covers a normal short home visit, typically a weekend.

4. A suggestion was made to clarify whether the limitations on therapeutic home visits and hospitalization for acute conditions are intended to be one-time allowances over some time period.

Paragraph (d)(2)(ii) is amended to clarify that the limitation of Federal matching for therapeutic home visits and periods of hospitalization for acute conditions applies to each home visit and

XUM
V 39 2193 DEC 17 1974 V
XUM

each period of hospitalization. An additional amendment provides that Federal financial participation is available for up to six home visits per patient during any 12-month period, limited to two visits in any calendar quarter. Home visits in the case of patients in institutions for the mentally retarded or persons with related conditions are excluded from the limitations in accordance with the encouragement for home visits stated in 45 CFR 249.13(a)(1)(xi)(E).

5. A suggestion was made that the time limits would interfere with State-approved therapeutic or rehabilitative programs such as summer camps. Accordingly, paragraph (d)(2)(ii) is further amended to provide that States may request special limits for their rehabilitative programs.

6. In the interim regulation, the term "home visits" was not defined. Accordingly paragraph (d)(2)(i) is revised to define home visits to include visits with relatives and friends and leaves to participate in State-approved rehabilitative programs.

7. Several comments stated that the effect of the interim regulations was to reduce unreasonably the number of home visits by patients. In order to assess the impact of the regulation, a requirement has been added to paragraph (d)(2)(ii) that States must obtain data, for submission to the Regional Commissioner as requested, as to the percentage of long-term care recipients under the program who make home visits.

Section 250.30 of Part 250, Chapter II, Title 45, Code of Federal Regulations is amended by revising paragraphs (b) and (d) to read as follows:

§ 250.30 Reasonable charges.

* * * * *

(b) *Upper limits.* The upper limits for payments for care and services under a medical assistance plan are as follows: The State agency may pay less than the upper limits. These upper limits do not apply to payments made under the State plan for deductibles and coinsurance imposed under title XVIII of the Social Security Act. Such payments may be made up to the reasonable charge under title XVIII. A State which pays for reserved beds in long term care facilities pursuant to paragraph (d) of this section may set payment rates for such reserved beds in an amount less than the rate paid for care in the facility if it is determined by the State that a differential exists between the cost of reserving a bed and the cost of providing care.

* * * * *

(d) *Federal financial participation.*—(1) *General* Federal financial participation is available for payments within the upper limits described in paragraph (b) of this section, in accordance with the provisions of the State plan.

(2) *Payments during recipient's absence from long term care facility.* (i) Federal financial participation is available in vendor payments which are necessary to reserve a bed in a long term care facility (skilled nursing facility, intermediate care facility, tuberculosis or mental hospital, or chronic care part of a general hospital facility) for a recipient during a temporary absence in a hospital for an acute condition or for therapeutically indicated home visits (defined to include visits with relatives and friends, and leaves to participate in State-approved therapeutic or rehabilitative programs).

(a) The following conditions will be met in any instance in which a bed is reserved;

(1) The State plan provides for such payments:

(2) Payment is made only for those days during which there is a likelihood that the reserved bed would otherwise be required for occupancy by some other patient. Determinations as to whether there is a likelihood that a bed is otherwise required for occupancy shall be based on analysis of current facility occupancy patterns in the locality and other pertinent data; and

(b) The following conditions will be met when a bed is reserved in a long term care facility because of the recipient's hospitalization for an acute condition:

(1) The single State agency has approved the recipient's hospitalization for an acute condition prior to each period of hospitalization during which a bed in another facility has been reserved. In case of an emergency admission such authorization will be obtained as soon as possible after admission.

(2) The single State agency has approved the bed reservation for the recipient prior to each period of hospitalization. In case of an emergency admission such authorization will be obtained as soon as possible after admission.

(3) The patient intends to return to the same facility after hospitalization.

(4) The hospital provides a discharge plan for the recipient.

(c) In the case of therapeutic home visits, the patient's plan of care provides for such visits.

(ii) Federal financial participation in the cost of reserving a bed for purposes of paragraph (d)(2) of this section is available for (a) periods of hospitalization for acute conditions not to exceed 15 days per any single hospital stay and for (b) therapeutically indicated home visits not to exceed 3 days per visit nor six such visits per patient during any 12-month period, limited to two visits in any calendar quarter. The limitations do not apply in the case of patients in institutions for the mentally retarded or persons with related conditions (see § 249.13(a)(1)(xi)(E) of this chapter). Where the limitations for therapeutic visits interfere with a State approved therapeutic or rehabilitative program, the State agency may submit a request for special limits to the Regional Commissioner. In addition, the State shall obtain, and submit to the Regional Commissioner as requested, data on long-term care recipients who make home visits.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

Effective date. The regulation in this section shall be effective on November 25, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: November 25, 1974.

JOHN A. SVAHN,
Acting Administrator, Social and Rehabilitation Service.

Approved: December 11, 1974.

CASPAR W. WEINBERGER,
Secretary.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[2nd Rev. S.O. 1112, Amdt. 1]

PART 1033—CAR SERVICE

Railroad Operating Regulations for Freight Car Movement

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 10th day of December 1974.

Upon further consideration of Second Revised Service Order No. 1112 (39 FR 22269) and good cause appearing therefor:

It is ordered, That: § 1033.1112 *Second Revise Service Order No. 1112* (Railroad operating regulations for freight car movement) be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 15, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 15, 1974.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10-17), 15(4), 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), 17(2)))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

(SEAL) JOSEPH M. HARRINGTON,
Acting Secretary.

[S.O. 1129, Amdt. 6]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 10th day of December 1974.

Upon further consideration of Service Order No. 1129 (38 FR 8062, 9668, 18026, 33399, and 39 FR 8161 and 19218), and good cause appearing therefor:

It is ordered, That: § 1033.1129 *Service Order No. 1129* (Chicago, Rock Island and Pacific Railroad Company authorized to operate over tracks of Burlington Northern Inc.) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., February 28, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 15, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), 17(2)))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Corrected Rev. S.O. 1193, Amdt. 1]

PART 1033—CAR SERVICE

Distribution of Boxcars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 10th of December 1974.

Upon further consideration of Corrected Revised Service Order No. 1193 (39 FR 27804, 37393 and 37638), and good cause appearing therefor:

It is ordered, That: § *1033.1139 Corrected Revised Service Order No. 1193* (Distribution of boxcars) be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., March 15, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 15, 1974.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 993]

DRIED PRUNES PRODUCED IN CALIFORNIA

Proposed Modification of Salable and Reserve Percentages for 1974–75 Crop Year

Notice is hereby given of a proposal to modify the salable and reserve percentages for the 1974–75 crop year. Salable and reserve percentages of 82 percent and 18 percent, respectively, were established (39 FR 32733) for that crop year pursuant to § 993.54 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The Prune Administrative Committee recommended modification of these percentages to 90 percent and 10 percent, respectively.

The percentages currently effective were established on the basis of early season estimates that the 1974 California prune crop would be 155,000 tons, although it was recognized when those percentages were established that this production could be less because of adverse weather conditions during July 1974. As of November 1, 1974, the Department's Crop Reporting Board estimated the 1974 production at 133,000 tons.

On November 21, 1974, the Committee met pursuant to § 993.41 to consider whether or not to modify its 1974–75 marketing policy. Paragraph (a) of that section provides that if it becomes advisable to modify the policy for a crop year, because of changed demand, supply, or other conditions, the Committee shall formulate a new policy and shall submit a report thereon to the Secretary. At that meeting, the Committee reviewed several proposals and then recommended modification of the salable and reserve percentages to 90 percent and 10 percent, respectively.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, no later than January 3, 1975. All written submissions made pursuant to this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The following estimates were included in the Committee's report:

Item	Natural condition	Prepared
	Tons	Tons
1. Domestic trade demand		107,000
2. Export trade demand		37,000
3. Desirable carryout—July 31, 1975		30,000
4. Total trade requirements	160,000	174,000
5. Carryout July 31, 1974	24,165	
6. Trade demand for 1974 crop (Item 4 minus Item 5)	135,797	
7. 1974 production	133,000	
8. Less undersized	5,583	
9. Marketable content, new crop	127,414	
10. Apparent reserve	12,497	
	Percent	Percent
11. Salable percentage (Item 6 divided by Item 9)	90	
12. Reserve percentage (100 percent minus Item 11)	10	

The proposal is to modify the salable and reserve percentages in § 993.210 (7 CFR 993.210; 39 FR 32733). As modified, paragraph (a) reads as follows:

§ 993.210 Salable and reserve percentages for prunes and handler reserve obligation for the 1974–75 crop year.

(a) *Percentages.* The salable and reserve percentages for the 1974–75 crop year shall be 90 percent and 10 percent, respectively.

* * * * *

Dated: December 11, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-29883 Filed 12-16-74;8:45 am]

DEPARTMENT OF COMMERCE

Maritime Administration

[46 CFR Part 283]

SUBSIDIZED VESSELS AND OPERATORS

Conservative Dividend Policy

On July 6, 1973 notice was published in the FEDERAL REGISTER (38 FR 18022) that the Maritime Subsidy Board had adopted a new Part 283 to Title 46, Chapter II, of the Code of Federal Regulations establishing a conservative dividend policy for each vessel operator receiving operating-differential subsidy.

Operators of vessels receiving operating-differential subsidy are required to maintain the financial ability to make adequate and timely reinvestment in the merchant marine. 46 CFR Part 283 requires such operators to adopt a dividend policy consistent with this obligation.

Part 283 of Title 46 of the Code of Federal Regulations is hereby proposed to be amended. The purpose of the proposed amendment is to require that financing lease transactions be taken into account in establishing an operator's dividend policy under 46 CFR Part 283. The financing lease transaction, an increasingly common method of asset acquisition, distorts an operator's accounting statement in the determination of funds available for distribution to stockholders, inasmuch as the liability involved with a lease hire arrangement is normally not reflected in an operator's balance sheet. Under a purchase arrangement the balance sheet of the operator would disclose the cost of the vessel and any mortgage liability assumed in acquiring the vessel. This proposed amendment to 46 CFR Part 283 requires an operator who bareboat charters or leases its vessel to capitalize its long-term charter hire payment obligations. For purposes of dividend policy, this requirement will put operators who acquire vessels by means of a long-term lease on a par with operators who acquire vessels by purchase.

While rulemaking procedures relating to the administration of public grants, such as operating-differential subsidy, are exempt from the notice requirements of 5 U.S.C. 553, this amendment to 46 CFR Part 283 is nevertheless published in proposed form. Comments by interested parties are solicited and will be considered before final adoption of the proposed amendment. Comments should be submitted in three copies to the Secretary, Maritime Subsidy Board, Washington, D.C. 20230, on or before January 14, 1975.

Accordingly, Part 283, Title 46 Code of Federal Regulations, is proposed to be amended as follows:

§ 283.3 [Amended]

1. By deleting the word "and" from § 283.3(b)(1)(v).

2. By renumbering § 283.3(b)(1)(vi) as § 283(b)(1)(vii) and by adding a new § 283.3(b)(1)(vi) to read as follows:

* * * * *

(b) *Operator's obligation with respect to construction and acquisition of vessels and retirement of indebtedness.* * * *

(1) Funds available shall mean the sum of: * * *

(vi) The present (discounted) value of noncapitalized financing leases, but excluding any profit realized as the result of sale and leaseback financing. A financing lease means any lease which, during the noncancellable lease period, either (A) covers 75 percent or more of the economic life of the property or (B) has terms which assure the lessor of a full recovery of the fair market value (which would

normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans. Present value shall be computed by discounting net lease payments by the interest rate contained in the lease agreement, or if no interest rate is contained in such agreement, by the interest rate generally in use in the financing of purchases of similar properties at the time of inception of the lease. Net lease payments mean gross lease payments less actual or estimated amounts attributable to items of expense such as taxes, insurance, maintenance and other operating expenses. If the actual amount of such items of expense are unavailable and cannot be estimated with reasonable accuracy, gross lease payments may be substituted for net lease payments in the computation of present value; and

• • • • •

3. By deleting the word "and" from § 283.3(b)(2)(ii).

4. By renumbering § 283(b)(2)(iii) as § 283(b)(2)(iv) and by adding a new § 283.3(b)(2)(iii) to read as follows:

• • • • •

(b) *Operator's obligation with respect to construction and acquisition of vessels and retirement of indebtedness.* • • •

(2) Funds required shall mean the sum of: • • •

(iii) The present value of noncapitalized financing leases excluding that portion of the present value of any such lease payable within one year; and

5. By amending § 283.3(c)(1) to read as follows:

• • • • •

(c) *Operator's obligation to maintain adequate working capital.* • • •

(1) *Working capital defined.* Working capital shall consist of total current assets (accounts 100–199, as defined in Part 282 of this chapter) less accrued deposits to any fund established pursuant to the Act minus total current liabilities (accounts 400–496, as defined in Part 282 of this chapter), plus that portion of any noncapitalized financing lease payable within one year.

• • • • •

§ 283.6 [Amended]

6. By renumbering § 283.6(b)(i), (ii), (iii), and (iv) as §§ 283.6(b)(1), (2), (3), and (4) respectively and by amending § 283.6(b)(1) to read as follows:

(b) Annual reports. • • •

(1) Surplus available for distribution to stockholders, in the format set forth in Schedule A. Any profit realized as the result of sale and leaseback financing shall be included as an Itemized Restriction;

• • • • •

(Sec. 204(b), Merchant Marine Act, 1936, as amended (46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 840) as amended by Pub. L. 91-469 (84 Stat. 1036), Department of Commerce Organization Order 10-8 (38 FR 19707, July 23, 1973).)

Dated December 10, 1974.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

Occupational Safety and Health Administration

[29 CFR Parts 1905, 1952, 1954]

FEDERAL AND STATE VARIANCES FROM IDENTICAL STANDARDS

Notice of Proposed Rulemaking

1. *Background.* Notice is hereby given that the proposed rule on the above subject published in the FEDERAL REGISTER on April 3, 1974 (39 FR 12141) has been revised and clarified in response to diverse public comments as set out below. The proposed rule would be issued under authority of sections 6, 8(g)(2), and 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) (29 U.S.C. 655, 657(g)(2), and 667). It would provide for mutual recognition for compliance purposes of Federal and State granted variances under certain conditions in States with plans approved under section 18(c) of the Act (29 USC 667(c)).

Under the rule as initially proposed, where a State standard is identical to a Federal standard, an employer could apply for a temporary or permanent variance to either the Assistant Secretary for Occupational Safety and Health (hereinafter called the Assistant Secretary) or to the State agency vested with the variance-granting authority under the plan. Such application would have to be accompanied by a certification that it had not been previously filed with either authority, or denied, modified, or revoked in any proceeding dealing with the same place of employment in the State. Compliance with any variance granted upon such application, or any order, interim order, modification, or extension granted in connection with it would be prospectively recognized by both Federal and State authorities: *Provided*, The required certification was part of the basis for the variance action. Federal recognition of State-granted variances, however, would be subject to evaluations of the State plan's effectiveness under 29 CFR Part 1954, "Procedures for the Evaluation and Monitoring of Approved State Plans".

The intent of the proposal is to minimize duplication of procedures and opportunity for conflicting interpretations of compliance obligations with regard to securing variances from occupational safety and health standards under the Federal-State occupational safety and health program. At present, 26 States are operating under approved State plans for the promulgation and enforcement of occupational safety and health standards. For at least three years after plan approval, however, Federal enforcement authority with respect to Federal standards exists side-by-side with the State standards and enforcement. Under § 1954.3 of this chapter, guidelines are provided under which this Federal enforcement authority will be withheld to to prevent duplication and conserve resources where a State plan has achieved substantial operating capacity. After final plan approval under section 18(e) of the Act, the discretionary Federal enforcement of Federal standards is removed from the State. Under section 18(f) of the Act, however, the Federal standards and enforcement provisions remain as the measure against which State standards and enforcement are evaluated for continued plan approval.

The vast majority of States with approved plans are adopting standards identical to the comparable Federal standards. All approved State plans must make provision for variances from State standards on the same basis and procedural requirements as under the Federal program. It is clear from the legislative history of the Act that Congress intended the States to have variance-granting authority under their plans. (Leg. Hist. p. 506; 29 CFR 1902.4(b)(2)(iv)). Thus, where Federal authority exists side-by-side with the State authority, employers have the right and obligation to seek variances from State standards under State procedures and, where still subject to Federal enforcement, from the Federal standards under Federal procedures.

Under these circumstances, an employer doing business in more than one State, at least one of which is a State with an approved plan, must seek variances from the Federal standards under Federal procedures wherever they apply, and under each State's procedures from the State standards wherever there is an approved State plan. This situation improves after final approval of a State plan when only State standards and procedures apply in the State. With respect to employers doing business in more than one State, at least one of which is a State with an approved plan, however, the Federal procedures must still be used for employment where there is no State plan and the individual State procedures for employment wherever an approved plan exists.

It is apparent, therefore, that unless principles of comity and estoppel are appropriately applied between Federal and State variance-granting authority considerable duplication and confusion about employer and employee compliance rights and obligations will exist. Such principles must be applied, however, within the requirements of both State and Federal law, and the respective rights and obligations under both jurisdictions. Under the Act, full State authority under State occupational safety and health programs, subject to continuous Federal monitoring, is contemplated. In addition, such principles

XUM
V 93 242 DEC 17 74
XUM

should be applied, both affirmatively and negatively, so as to foreclose using either the Federal or State procedures as an appeal from a determination under either.

In recognition that State authority prevails with regard to State standards under State law, both before final approval and after, justification for the election of the Federal variance procedures over the State exists only where an employer seeking a variance in a State with an approved plan must use them with regard to an identical Federal standard in a State without an approved plan at the same time, or where he is seeking a variance from identical standards for employment in more than one State with an approved plan. Requirement of the recognition of compliance with the outcome of such Federal variance procedures as compliance with the identical State standard, both during the concurrent jurisdiction period and after, with the outcome of such proceedings controlling both compliance obligations and subsequent variance applications dealing with the same employment under State law is based on the ongoing Federal responsibility to interpret effectiveness. However, where an employer has applied for a variance from an identical State standard under State law, he should be foreclosed from using the Federal procedures as an appeal from State determinations. Under the proposal, the employer must certify, under both Federal and State procedures, that he has not previously filed for the variance with regard to the same employment or place of employment on the same set of facts with the other authority, and the variance determination would be dependent upon such affirmative certification. State variance procedures would be required to reflect, as appropriate, changes in the Federal variance procedures as a Federal program change under 29 CFR Part 1953.

2. *Public comments.* Contemporaneously with its submission for public comment, the proposal was submitted to the Advisory Commission on Intergovernmental Relations. Comments were received from the Steel Plate Fabricators Association, Inc., the Caterpillar Tractor Co., the American Petroleum Institute, the Southern Furniture Manufacturers Association, the Chrysler Corporation, the Health Research Group, and the States of California, Colorado, Michigan, New York, and Oregon.

The comments, generally favorable from industry, ranged from challenging the Assistant Secretary's authority, under the doctrine of separation of powers, to place a mandatory requirement on States with approved plans to recognize Federal variance actions (Colorado) to recommending that the Assistant Secretary provide for exclusive Federal variance authority with respect to identical standards on the theory that interpretation of Federal standards could not be delegated (Health Research Group). Three commenting States (California, New York, and Michigan) were generally in favor of the proposal. One State (Oregon) advised that recognition of variances granted other than under its procedures would be an unconstitutional delegation of rulemaking authority, and another (California) reserved the right to determine whether or not a legislative amendment would be required to honor the proposal.

Concern was expressed that under the proposal as drafted undue weight would be given to variance precedents involving places of employment other than those covered in a particular application (New York, Michigan, California, Health Research Group). It was argued that the proposal would have the effect of increasing, rather than decreasing, the forums in which an employer could seek a Federal variance (Health Research Group), leaving the interpretation of Federal standards entirely at the mercy of employers.

Clarifications were sought to the definition of "identical standard" (Michigan, New York, Steel Plate Fabricators Association, Inc., Caterpillar Tractor Co.); to the intent of the proposal to apply only to multi-state employers (New York, Health Research Group); State authority to cite for noncompliance with Federal variances (Michigan); the effect of an employer's certification when a change of circumstances has occurred, or a similar application has been denied in other States (Michigan); and the relationship between a Federal variance and the existence of Federal enforcement activity in a State (Michigan).

It was recommended that the proposal be broadened to apply where State standards are "at least as effective as", with a requirement that a variance from the more restrictive standard be sought from the State (Steel Plate Fabricators Association, Caterpillar Tractor Co.); that the proposal include previously-granted Federal variances (Steel Plate Fabricators Association); that employees be given the right to remove applications to States to the Assistant Secretary; that all applications for a variance from the same standard by the same employer for similar work conditions be required to be consolidated; that employees be given the right to Federal review of all State variance decisions (Health Research Group); and that the States concerned be given an opportunity to participate in the Federal variance proceeding (California, Michigan).

3. *Discussion of comments.* These objections and recommendations must be considered in the context of the impact of the provisions of the Act on Federal and State authority. It is clear that the right to seek variances from standards, both temporary and permanent, is a right accorded employers under section 6 of the Act, provided affected employees are given the right to participate in any such proceeding. It is only after a variance has been granted that employees have the right to petition the same administrative authority for its modification or revocation under the State or Federal proceeding concerned. It is also clear that under an approved plan, States have comparable authority to grant variances from State standards with that of the Assistant Secretary from the Federal. (Leg. Hist. p. 506; 29 CFR 1902.4(b)(2)(iv)). Federal judicial removal provisions would not be available to remove the subject matter of a State administrative proceeding to a Federal administrative body.

Federal recognition of compliance with State standards and variances meeting the requirements of § 1954.3 of this chapter are within the discretion provided under section 18(e) of the Act. Federal recognition of the finality of State variance determinations from identical State standards on the same set of facts upon application of a multi-state employer, subject to the requirements of 29 CFR Part 1954, would preclude the Federal procedures being used as an appeal from negative State determinations. The comments suggested that an employer could avoid the Federal procedures where more liberal State decisions on State standards are thought to be available. It is pointed out that this possibility exists absent this proposal, particularly where a State has received final approval of its plan and Federal authority to enforce Federal standards no longer exists in the State. Evidence of such laxity would of course go to the question of a given State's program effectiveness, its continuing approval and final approval under section 18(e) of the Act. It must be pointed out that a variance decision can only apply to the employer and employment or place of employmnt covered by the variance application. If the decision were to constitute a binding precedent in situations not covered in the application, important employee rights guaranteed under the Act and all approved State plans would be foreclosed.

It appears that State recognition of compliance with variance actions taken with respect to multi-state employers on Federal standards identical to a State standard under procedures affording the same terms and conditions as the State, with an additional provision for State input in the decision, would be within the administrative discretion of State authorities. Recognition of the finality of such proceedings on the same set of facts would appear to be in the nature of a recognition of an adjudication, rather than a delegation of rulemaking. "U.S. v. Utah Construction Co.," 384 U.S. 394, p. 422; "Hoffman La Roche, Inc. v. Kleindienst," 478 F. 2d 1 (1973) p. 13. Appropriate State provisions may be devised to overcome any State inhibitions on applying this principle of comity.

Accordingly, the regulation as proposed has been amended to clarify its intent and to deal with the comments in the following respects: Providing that Federal variance actions will be deemed authoritative interpretations of employers' compliance obligations with regard to identical State standards; election of procedures would be available only for multi-state employers operating in more than one State, at least one of which is a State with an approved plan,

with regard to standards, or portions thereof, identical in substance and requirements to the comparable Federal standard, or portion thereof; opportunity for State comment on the proposed variance action before the Assistant Secretary; and an added requirement that employers identify any outstanding citations for noncompliance with the State standard. These last two requirements, plus an amendment to 29 CFR 1905.5, are to provide coordination of Federal variance activity with State compliance and abatement procedures. Again, State procedures must reflect a like identification of Federal citations.

Clarifying language has also been added to the proposed 29 CFR 1952.9 to preclude consideration on the same set of facts by either Federal or State authorities once an application has been filed with either authority and to specifically preserve Federal and State citation authority where noncompliance with a standard or variance action is found. Also, eligible employers with outstanding Federal variances may amend their applications to bring them under the proposal. During the period of the Assistant Secretary's discretionary enforcement authority under section 18(e) of the Act, Federal compliance actions will not be taken against an employer in compliance with approved State standards, or variances therefrom where the employer has not filed for the variance with the Assistant Secretary and it was granted in accordance with State plan requirements.

A conforming amendment is also provided in a separate notice published in this same FEDERAL REGISTER proposing an amendment to § 50-204.1a of Title 41 of the Code of Federal Regulations to clarify the relationship of State variance authority under an approved plan with regard to standards under the Walsh-Healey Public Contracts Act, which have been incorporated in the Federal occupational safety and health standards.

4. *Public participation.* Interested persons are hereby given until January 20, 1975, to submit to the Associate Assistant Secretary for Regional Programs, Room 840, 1726 M Street, NW., Washington, D.C. 20210, written comments, suggestions, or objections regarding the amended proposal for a new § 1952.9 of this chapter, and conforming amendments to 29 CFR Part 1954 and Part 1905, as set out below. Comments received will be available for public inspection or copying during normal business hours at the above address. The proposed rules may be revised prior to final publication to reflect suggestions made by comments.

In consideration of the foregoing, it is proposed to amend Chapter XVII of Title 29, Code of Federal Regulations, as follows:

PART 1905—RULES OF PRACTICE FOR VARIANCES, LIMITATIONS, VARIATIONS, TOLERANCES, AND EXEMPTIONS UNDER THE WILLIAMS-STEIGER OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970

§ 1905.5 [Amended]

1. Section 1905.5 would be amended as follows:

The words "or appropriate State review authority" are inserted after the words "Occupational Safety and Health Review Commission" and before the words "until the completion of such proceeding."

2. Section 1905.10(b)(11) would be added to read as follows:

§ 1905.10 Variances and other relief under section 6(b)(6)(A).

* * * * * * *

(b) * * *

(11) Where the requested variance would be applicable to employment or places of employment in more than one State, including at least one State with a State plan approved under section 18 of the Act, and involves a standard, or portion thereof, identical in requirements and substance to a State standard effective under such plan:

(i) A side-by-side comparison of the Federal standard, or portion thereof, involved with the State standard, or portion thereof, identical in substance and requirements;

(ii) A certification that the employer or employers have not filed for such variance on the same facts with any State authority having jurisdiction under an approved plan over any employment or place of employment covered in the application; and

(iii) A statement as to whether, with an identification of, any citations for violations of the State standard, or portion thereof, involved have been issued to the employer or employers by any of the State authorities enforcing the standard under a plan, and are pending.

* * * * * * *

3. Section 1905.11(b)(8) would be added to read as follows:

§ 1905.11 Variances and other relief under section 6(d).

* * * * * * *

(b) * * *

(8) Where the requested variance would be applicable to employment or places of employment in more than one State, including at least one State with a State plan approved under section 18 of the Act, and involves a standard, or portion thereof, identical in requirements and substance to a State standard effective under such plan:

(i) A side-by-side comparison of the Federal standard, or portion thereof, involved with the State standard, or portion thereof, involved have been issued requirements;

(ii) A certification that the employer or employers have not filed for such variance on the same facts with any State authority having jurisdiction under an approved plan over any employment or place of employment covered in the application; and

(iii) A statement as to whether, with an identification of, any citations for violations of the State standard, or portion thereof, involved have been issued to the employer or employers by any of the State authorities enforcing the standard under a plan, and are pending.

4. Section 1905.13(c) would be added to read as follows:

* * * * * * *

§ 1905.13 Modification, revocation, and renewal of rules or orders.

* * * * * * *

(c) *Multi-state variances.* Where a Federal variance has been granted with multi-state applicability, including applicability in a State operating under a State plan approved under section 18 of the Act, from a standard, or portion thereof, identical in substance and requirements to a State standard, or portion thereof, without filing the information required in §§ 1905.10(b)(11) or 1905.11(b)(8), such variance shall likewise be deemed an authoritative interpretation of the employer or employers' compliance obligations with regard to the State standard, or portion thereof, upon filing the information required under §§ 1905.10(b)(11) or 1905.11(b)(8), provided no objections of substance are found to be interposed by the State authority under § 1905.14.

5. Section 1905.14(b)(3) would be added to read as follows:

§ 1905.14 Action on applications.

* * * * * * *

(b) * * *

(3) Where the requested variance, or any proposed modification or extension thereof, involves a Federal standard, or any portion thereof, identical in substance and requirements to a State standard, or any portion thereof, as provided in §§ 1905.10(b)(11) and 1905.11(b)(8), the Assistant Secretary will promptly furnish a copy of the application to the appropriate State authority and provide an opportunity for comment on the application by such authority, which shall be taken into consideration in determining the merits of the proposed action.

(4) A copy of each final decision of the Assistant Secretary with respect to an application filed under §§1905.10, 1905.11, or 1905.13 shall be furnished the State authorities having jurisdiction over the employment or place of employment covered in the application.

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

1. A new § 1952.9 in Subpart A of Part 1952 would be added to read as follows:

§ 1952.9 Variances affecting multi-state employers.

(a) Where a State standard is identical in requirements and substance to a Federal standard addressed to the same

hazard, an employer or group of employers seeking a temporary or permanent variance from such standard, or portion thereof, to be applicable to employment or places of employment in more than one State, including at least one State with an approved plan, may elect to apply to the Assistant Secretary for such variance under the provisions of Part 1905 of this chapter, as amended.

(b) Actions taken by the Assistant Secretary with respect to such application for a variance, such as granting, denying, or issuing any modification or extension thereof, will be deemed prospectively an authoritative interpretation of the employer or employers' compliance obligations with regard to the State standard, or portion thereof, identical in substance and requirements to the Federal standard, or portion thereof, affected by the action in the employment or places of employment covered by the application.

(c) Nothing herein shall affect the option of an employer or employers seeking a temporary or permanent variance with applicability to employment or places of employment in more than one State to apply for such variance either to the Assistant Secretary or the individual State agencies involved. However, the filing with, as well as granting, denial, modification, or revocation of a variance request by, either authority (Federal or State) shall preclude any further substantive consideration of such application on the same facts for the same employment or place of employment by the other authority.

(d) Nothing herein shall affect either Federal or State authority and obligations to cite for noncompliance with standards in employment or places of employment where no variance or modification or extension thereof, granted under State or Federal law applies, or to cite for noncompliance with such Federal or State variance.

PART 1954—PROCEDURES FOR THE EVALUATION AND MONITORING OF APPROVED STATE PLANS

1. Section 1954.3 is amended by adding a new paragraph (d)(1)(i) and as adopted reads as follows:

§ 1954.3 Exercise of Federal discretionary authority.

* * * * *

(d) (1) * * *

(i) Subject to pertinent findings of effectiveness under this part, Federal enforcement proceedings will not be initiated where an employer is in compliance with a State standard which has been found to be at least as effective as the comparable Federal standard, or with any temporary or permanent variance granted to such employer with regard to the employment or place of employment from such State standard, or any order or interim order in connection therewith, or any modification or extension thereof. *Provided*, Such variance action was taken under the terms and procedures required under § 1902.4(b)(2)(iv) of this chapter, and the employer has certified that he has not filed for such variance on the same set of facts with the Assistant Secretary.

* * * * *

(Secs. 6, 8, 18, 84 Stat. 1593, 1598, 1608 (29 U.S.C. 655, 657, 667))

Signed at Washington, D.C. this 6th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-29291 Filed 12-16-74;8:45 am]

Office of the Secretary

[41 CFR Part 50-204]

VARIANCES UNDER APPROVED STATE PLANS

Proposed Safety and Health Standards

It is hereby proposed to amend § 50-204.1a of Subpart A of Part 50-204 of Title 41 of the Code of Federal Regulations to provide that variance actions taken under State provisions from State occupational safety and health standards, found to be at least as effective as the comparable Federal standards contained in Part 50-204 which are incorporated in Part 1910 of Title 29 of the Code of Federal Regulations, will be deemed variance actions from the standard under both the Walsh-Healey Public Contracts Act (41 U.S.C. 35) and the Occupational Safety and Health Act of 1970 (29 U.S.C. 651). The reasons for this proposal are set out more fully in the preamble to the proposed amendments to Title 29 of the Code of Federal Regulations, Parts 1905, 1952, and 1954. The effect of the proposed amendment would be to clarify that Federal supply contractors would secure variances from standards applying to employment in a State with an occupational safety and health plan approved under section 18 of the Occupational Safety and Health Act of 1970 in the same manner as any other employer.

Interested persons are hereby given until January 20, 1975, to submit to the Associate Assistant Secretary for Regional Programs, Room 840, 1726 M Street, NW., Washington, D.C. 20210, written comments, suggestions, or objections regarding the proposed amendment to § 50-204.1a of this chapter, as set out below. Comments received will be available for public inspection or copying during normal business hours at the above address. The proposed rule may be revised prior to final publication to reflect suggestions made by comments.

In accordance with the above, Chapter 50 of Title 41, Code of Federal Regulations, is proposed to be amended by adding at the end of paragraph (b) of § 50-204.1a the following:

§ 50-204.1a Variances.

* * * * *

(b) * * *. In accordance with the requirements of § 1954.3(d)(1)(i) of Title 29, Code of Federal Regulations, variance actions taken under State provisions under a State occupational safety and health plan approved under section 18 of the Occupational Safety and Health Act of 1970 with regard to State standards found to be at least as effective as the comparable Federal standards contained in this Part and incorporated in Part 1910 of Title 29, Code of Federal Regulations, shall be deemed a variance action from the standard under both the Walsh-Healey Public Contracts Act and the Occupational Safety and Health Act of 1970.

(Secs. 1, 4, 49 Stat. 2036, 2038, as amended (41 U.S.C. 35, 38) Secs. 4, 6, 8, 18, 84 Stat. 1592, 1593, 1598, 1608 (29 U.S.C. 653, 655, 657, 667))

Signed at Washington, D.C., this 6th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-29292 Filed 12-16-74;8:45 am]

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

[49 CFR Part 171]

[Docket No. HM-22; Notice No. 74-13]

TRANSPORTATION OF HAZARDOUS MATERIALS

Matter Incorporated by Reference

The Hazardous Materials Regulations Board of the Department of Transportation is considering amending § 171.7(d)(1) of the Hazardous Materials Regulations to update sections VIII (Division I) and IX of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code.

In order to maintain requirements of cargo tank specification MC 331 and portable tank specification DOT 51 current with the latest revisions in Title 49 CFR, the Compressed Gas Association, Inc., has petitioned the Board to effect this change.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 171 as follows:

In § 171.7, paragraph (d)(1) would be revised to read as follows:

§ 171.7 Matter incorporated by reference.

* * * * *

(d) * * *

(1) ASME Code means sections VIII (Division I) and IX of the 1974 edition of the "American Society of Mechanical Engineers Boiler and Pressure Vessel Code," and addenda thereto through June 30, 1974.

* * * * *

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, Washington, D.C. 20590. Communications received on or before March 4,

1975 will be considered before final action is taken on this proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, room 6215 Trans Point Building, Second and V Streets, SW., Washington, D.C., both before and after the closing date for comments.

(Transportation of Explosives Act (18 U.S.C. 831–835), sec. 6, Department of Transportation Act, (49 U.S.C. 1655); Title VI and sec. 902(h), Federal Aviation Act of 1958, (49 U.S.C. 1421–1430, 1472(h), 1655(c)))

Issued in Washington, D.C., on December 10, 1974.

W. J. BURNS,
Director, Office of Hazardous Materials.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 74-10; Notice 8]

AIR BRAKE SYSTEMS

Postponement of Effective Dates

This notice proposes and requests comments on the postponing of the effective dates of Standard No. 121, *Air Brake Systems*, in light of the current economic situation.

Standard No. 121, 49 CFR 571.121, was originally proposed on June 25, 1970, 35 FR 10368, and June 26, 1970, 35 FR 10456, and issued in substantially its present form on February 25, 1971, 36 FR 3817. Several amendments have been made since that time: On February 24, 1972, 37 FR 3905; June 24, 1972, 37 FR 12495; January 3, 1974, 38 FR 804; May 17, 1974, 39 FR 17550; June 10, 1974, 39 FR 20360; and November 12, 1974, 39 FR 39880. As the rule presently stands, it will become effective on January 1, 1975, for trailers, and on March 1, 1975, for trucks and buses.

This agency has noted the worsening national economic situation, as evidenced by rising unemployment rates and declining levels of industrial production. The problems of the automotive and related industries have been especially noticeable, with major "ripple effect" consequences for the rest of the economy. At this time, the NHTSA has not drawn any conclusions as to the effect the imminently effective air brake standard will have on the national economy. This agency considers it in the public interest, however, to review the desirability of having the standard come into effect at this time, in light of the magnitude of the costs of complying with it. The NHTSA has previously concluded, of course, that the public benefits of the resulting improvements in braking capability would outweigh those costs. The purpose of this proposal is to elicit further information on the economic impact of Standard No. 121, both on individual companies and on the nation as a whole, specifically in light of the present economic situation.

In addition to comments on the general economic effect of the air brake standard, the NHTSA requests comments from companies that are directly affected by the standard, as equipment suppliers or vehicle manufacturers, distributors, dealers, or users. Questions of special interest are: What has been and what will be the effect on your company of Standard No. 121, assuming that it goes into effect as currently issued? What would be the effect on your company if the standard's effectiveness were postponed 3 months, 6 months, 1 year, or indefinitely? What action would your company take if the standard were postponed as above? Comments are particularly requested on the effect of these postponements on your organization with respect to sales, prices, employment, and outside procurement.

A decision on any postponement of the air brake standard's effectiveness will be made in light of the comments received in response to this notice. It is hereby proposed, as a set of rulemaking alternatives, that the effective dates of Standard No. 121, Air Brake Systems, 49 CFR 571.121, presently January 1, 1975, for trailers and March 1, 1975, for trucks and buses, with later effective dates for more specialized categories, be postponed for 3 months, 6 months, 1 year, or indefinitely.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: December 26, 1974.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on December 16, 1974.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 306-6]

WYOMING

Approval and Promulgation of Implementation Plans

Revisions to the Legal Authority, Control Strategy, Public Availability of Emission Data, Review of New Sources, Compliance Schedule, and Source Surveillance portions of Wyoming's Implementation Plan.

On May 31, 1972 (37 FR 10842) pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved with specific exceptions, the Wyoming Plan for implementation of the national ambient air quality standards. On October 23, 1973 (38 FR 29296) and on July 3, 1974 (39 FR 24504) the Administrator approved supplemental information and plan revisions submitted by Wyoming.

On August 7, 1974, Wyoming submitted further revisions to its Implementation Plan. These revisions would amend the legal authority, control strategy, public availability of emission data, review of new sources, compliance schedule, and source surveillance portions of Wyoming's plan.

The Administrator has determined that the legal authority revisions satisfy the requirements of 36 FR 22393. Additionally, the Administrator has determined that the "Wyoming Environmental Quality Act, 1973" satisfies the requirements of 40 CFR 51.10(e) and 51.19 (a). The public is invited to submit written comments on whether the "Wyoming Environmental Quality Act, 1973" should be approved as satisfying the requirements as set forth above.

Wyoming also submitted the "Wyoming Air Quality Standards and Regulations, 1974" as an update to the regulatory portion of its plan. The regulations set forth a less stringent particulate matter control strategy applicable to beet pulp driers and a less stringent nitrogen dioxide control strategy applicable to new and existing oil fired fuel burning equipment. These proposed control strategies are only slightly less stringent than the currently effective control strategy and the emissions allowed under the proposed control strategies are consistent with the ambient air quality attainment dates set forth at 40 CFR 52.2628. Additionally, the regulations also set forth a nitrogen dioxide control strategy applicable to solid fossil fuel fired fuel burning equipment. This control strategy is consistent with the Standards of Performance set forth at 40 CFR 60.44(c).

Further, the "Wyoming Air Quality Standards and Regulations, 1974" set forth new source review requirements. The Wyoming new source review regulations satisfy the requirements of 40 CFR 51.18 for direct sources but not for indirect sources. Therefore, the

XUM
V 39 N 243 DEC 17 1974
XUM

regulations adopted by the Administrator on February 25, 1974 (39 FR 7270) and amended on July 9, 1974 (39 FR 25292) applicable to indirect sources will remain in effect. The public is invited to submit written comments on whether the "Wyoming Air Quality Standards and Regulations, 1974" should be approved.

Wyoming also submitted revisions to the compliance schedule portion of the state implementation plan. Sixteen variances were submitted, and of these, fifteen satisfy the requirements of 40 CFR Part 51 and are consistent with the approved control strategy. However, the variance issued to FMC's Coking Plant located at Kemmerer, Wyoming allows continued violation of approved particulate matter regulations without explicit requirements to achieve final compliance with the regulations. It does not, therefore, meet the requirements of 40 CFR 51.15. For this reason it is proposed that the FMC variance be disapproved.

Each proposed compliance schedule revision establishes a new date by which an individual air pollution source must comply with an emission limitation specified by the implementation plan. This date is indicated in the table below, under the heading, "Final Compliance Date." In some cases, the schedule includes incremental steps towards compliance. While the table below does not list those interim dates, the actual compliance schedule does.

Approval of any compliance schedule is solely on the basis that compliance is being required by the specified "Final Compliance Date," regardless of the method of control which is referenced by the schedule.

The proposed Wyoming revisions are available for public inspection at the office of the State Agency and at the offices of the Environmental Protection Agency listed below. Additionally, an evaluation of the compliance schedule and control strategy revisions is available at the offices of the Environmental Protection Agency listed below. In each case, the record of the appropriate public hearing has been reviewed and considered in the evaluation.

Cheyenne, Wyoming 82001

Environmental Protection Agency, Region VIII
Office of Public Affairs, Suite 900
1860 Lincoln Street
Denver, Colorado 80203

Environmental Protection Agency, Room 320
401 M Street SW
Washington, D.C. 20460

Interested persons are encouraged to submit written comments on any of the proposed revisions. Such comments will be accepted for consideration until January, 16, 1975. Comments should be addressed to John A. Green, Regional Administrator, Environmental Protection Agency, Suite 900, 1860 Lincoln Street, Denver, Colorado 80203. All comments will be available for public inspection during business hours at the Denver office noted above.

(Sec. 110, Clean Air Act (42 U.S.C. 1857c-5); 39 FR 15605)

Dated: December 2, 1974.

JOHN A. GREEN,
Regional Administrator,
Region VIII.

It is proposed to amend Part 52, Chapter I, Title 40, Code of Federal Regulations as follows:

Subpart ZZ—Wyoming

1. In § 52.2620, paragraph (d) is revised to read as follows:

§ 52.2620 Identification of Plan.

* * * * *

(d) Plan revisions were submitted on:
(1) February 9, March 1, April 18 and May 29, 1973; and
(2) August 7, 1974.

§§ 52.2623, 52.2624 and 52.2626 [Revoked]

2. Sections 52.2623, 52.2624 and 52.2626 are revoked.

§ 52.2625 [Amended]

3. In § 52.2625, paragraphs (a) and (b) are deleted and paragraphs (c) and (d) are redesignated (a) and (b), respectively.

4. In § 52.2627, paragraph (a) is revised and a new paragraph (b) is added. As amended, § 52.2627 reads as follows:

§ 52.2627 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are found in the "Wyoming Air Quality Standards and Regulations, 1974."

§§ 52.2625–52.2629 [Redesignated]

5. Sections 52.2625, 52.2627, 52.2628 and 52.2629 are redesignated as §§ 52.2623, 52.2624, 52.2626 and 52.2625, respectively.

[FR Doc.74-30100 Filed 12-16-74;8:45 am]

[40 CFR Part 52]

[FRL 307-1]

PUERTO RICO

Approval of Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act (42 U.S.C. 1857c-5(a)) and 40 CFR 51, the Administrator of the Environmental Protection Agency (EPA) approved the implementation plan submitted by the Commonwealth of Puerto Rico for attainment and maintenance of national ambient air quality standards. On August 26, 1974 (39 FR 30833) the Administrator approved certain revisions to the implementation plan in the form of forty-seven compliance schedules applicable to sources located in the Commonwealth.

On September 10, 1973, December 6, 1973, February 7, 1974, June 11, 1974 and September 6, 1974 further proposed revisions to the approved implementation plan were submitted by the Commonwealth of Puerto Rico in the form of fifty-three compliance schedules covering additional sources located in the Commonwealth. Six of the fifty-three schedules were among the schedules approved on August 26, 1974. Set forth below are proposed regulations for approval of twenty-seven of the remaining compliance schedules.

These compliance schedules were adopted by Puerto Rico after notice and public hearings in conformity with the requirements of 40 CFR 51.4 and 51.6, as certified by supporting documents submitted by the Puerto Rico Environmental Quality Board. The Regional Administrator determined that a number of these schedules could not be approved as originally submitted by the Commonwealth, and requested that additional information be supplied relating to the technical validity of the abatement methods chosen, to the procedures employed in the adoption of these schedules by the Commonwealth, and to the enforceability of their terms. This information was received by EPA on February 1, February 12, March 13, March 15, March 20, June 11 and September 6, 1974. The Regional Administrator thereupon found these schedules to be approvable as consistent with the requirements of the Clean Air Act, 40 CFR Part 51, and Puerto Rico's approved control strategies. The Regional Administrator therefore proposes to approve these schedules in the form of the regulations set out below.

The date indicated for final compliance in many of these schedules will have passed by the time of their final approval. This fact is attributable to delays occasioned by the necessity of ministering to infirmities existing at the time of their initial submission. The Regional Administrator believes approval of these schedules to be nonetheless desirable in order to make the incremental and final compliance dates contained therein federally enforceable. This is considered appropriate inasmuch as each schedule reflects the consensus of EPA and the Puerto Rico Environmental Quality Board as to the abatement actions to be taken, and the date by which compliance should be achieved. Failure to approve these schedules would limit EPA to enforcement of the state implementation plan, the provisions of which were immediately effective as of the date of the plan's promulgation.

Each of these schedules will, when approved, establish a new date by which the source involved must comply with the applicable emission limitation provisions of the federally-approved state implementation plan. This date is indicated in the table below, under the heading "Final Compliance Date." Although not indicated in the table below, many of the schedules proposed to be approved contain interim dates for the achievement of various increments of progress which will become federally enforceable upon the final approval of the schedules. In no case do the final compliance dates fall beyond the April 30, 1975 date established in Puerto Rico's implementation plan for attainment of primary ambient air quality standards, nor is relaxation of any emission limitation or standard involved. Achievement of ambient air quality standards by the attainment date will therefore not be jeopardized by approval of these schedules.

Set forth in the table below is a column headed "Effective Date." This refers to the effective date of the schedules proposed to be approved for federal enforcement purposes. A notation of "Immediately" indicates that the schedule would be federally enforceable when final approval of the schedule is granted by EPA.

Copies of the compliance schedules proposed to be approved are available for public inspection at the offices of the Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10007, the Puerto Rico Environmental Quality Board, 1550 Ponce de Leon Avenue, Santurce, Puerto Rico 00910, and the Division of Stationary Source Enforcement, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. In addition, personnel in the Regional Office are available to discuss the schedules with members of the public. Interested persons may participate in this rule making by submitting written comments in triplicate to Thomas F. Harrison, Esq., Chief, General Enforcement Branch, Enforcement and Regional Counsel Division, in care of the Region II Office at the above address. All comments postmarked on or before January 16, 1975, will be considered. All comments received, as well as copies of the Puerto Rico implementation plan, will be available for inspection during normal business hours at the Regional Office.

(42 U.S.C. 1857c-5(a))

Dated: December 3, 1974.

G. M. HANSLER,
Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart BBB—Puerto Rico

1. Section 52.2720 is amended by revising paragraph (c) as follows:

§ 52.2720 Identification of plan.

* * * * *

(c) Supplemental information was submitted by the Commonwealth of Puerto Rico Environmental Quality Board on:

(1) April 5, April 9, April 17, May 30, June 18, and September 10, 1973, and on February 1 and February 12, 1974.

(2) December 6, 1973, and on February 7, March 13, March 15, March 20, June 11 and September 6, 1974.

2. Section 52.2724 is amended by adding thereto, at paragraph (a), a list of compliance schedules as follows:

§ 52.2724 Compliance schedules.

VIRGINIA

Proposed Revision; Correction

On November 21, 1974 (39 FR 40871), the Administrator announced receipt and provided a 30 day comment period on proposed revisions to the Commonwealth of Virginia's Implementation Plan. The revisions consisted of outlining the procedures for the control and abatement of air pollution within the Commonwealth of Virginia, including procedures for application and review of indirect sources by the Commonwealth.

This notice is to announce an addition to the original FEDERAL REGISTER notice. Besides the proposed revision, the

analysis on which the review procedures are based is also available for public inspection and comment.

Because of this addition, comments regarding this proposal will be accepted up to January 16, 1974.

Copies of the proposed revision and the accompanying analysis are available for public inspection during normal business hours at the Offices of EPA, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania, 19106; at the Office of the Virginia Air Pollution Control Board, Room 1106, Ninth Street Office Building, Richmond, Virginia, 23219; and at the Freedom of Information Center, EPA, 401 M Street, SW., Washington, D.C. 20460. All comments should be addressed to the Director, Air and Hazardous Materials Division, Environmental Protection Agency, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania, 19106.

Dated: December 6, 1974.

DANIEL J. SNYDER III,
Regional Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

EASTERN BAND OF CHEROKEE INDIANS

Plan for the Use and Distribution of Judgment Funds Awarded Before Indian Claims Commission

DECEMBER 9, 1974.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use and distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Act of October 31, 1972 (86 Stat. 1498), in satisfaction of an award granted to the Eastern Band of Cherokee Indians in Indian Claims Commission Dockets 282-A through L. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated July 8, 1974, and was received by the House of Representatives on July 10, 1974, and by the Senate on July 23, 1974. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on October 10, 1974, as provided by section 5 of the 1973 act, supra.

The plan reads as follows:

The funds appropriated by the Act of October 31, 1972 (86 Stat. 1498), in satisfaction of a compromise award granted to the Eastern Band of Cherokee Indians in Dockets 282-A through L before the Indian Claims Commission, including all interest accrued, less attorney fees and litigation expenses, shall be used and distributed as herein provided:

The Secretary of the Interior (hereinafter 'Secretary') shall make a per capita distribution of one-hundred (100) percent of the judgment fund principal, and its accrued interest, in a sum as equal as possible to each member of the Eastern Band of Cherokee Indians, and to any person found by the Secretary to be eligible for membership in the tribe, who was born on or prior to and is living on the approval date of this plan. For purposes of distributing these funds membership in the Eastern Band of Cherokee Indians includes all individuals named on the roll of the Eastern Band of Cherokee Indians of North Carolina prepared and approved pursuant to the Act of June 4, 1924 (43 Stat. 376), and the Act of March 4, 1931 (46 Stat. 1518), and revised in accordance with the Act of August 21, 1957 (71 Stat. 374). Procedures for updating the tribal membership roll shall be implemented through the publication of rules and regulations in the FEDERAL REGISTER.

The Secretary, in arranging for the per capita payment to be made, shall withhold sufficient shares for individuals whose entitlement to tribal membership may be in question. These shares shall be held at interest in a separate individual Indian money account pending determination of enrollment appeals. Should any unclaimed or undeliverable per capita shares revert to the Eastern Band of Cherokee Indians pursuant to the Act of September 22, 1961 (75 Stat. 584), funds representing such shares shall be made available for general tribal purposes.

The portion per capita belonging to minors, legal incompetents, and deceased persons will continue to be invested and administered as individual Indian money until a suitable trust is developed and approved by the Secretary, or disposed of in accordance with Departmental regulations governing estates (43 CFR 4.200-4.297),

XUM
V 39 N 243 DEC 17 1974
XUM

whichever is applicable. The shares of competent living adults shall be paid directly to them.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

Bureau of Land Management

GRAND JUNCTION DISTRICT ADVISORY BOARD

Notice of Meeting

DECEMBER 10, 1974.

Notice is hereby given that the Grand Junction District Advisory Board will meet December 19, 1974, begining at 9:00 a.m., in Room 322, Wayne Aspinall Federal Building, Grand Junction, Colorado.

The purpose of the meeting is to hear protests on adverse recommendations made during their regular meeting on November 14, 1974, consideration of applications received since the regular meeting, changes in class of livestock, FY '74 project work and restructuring of the Advisory Boards.

The meeting will be open to the public. Those members of the public wishing to make an oral statement should advise the Co-Chairman prior to the meeting to aid in scheduling the time available. Any interested person may file a written statement for consideration by the Board by sending it to the Co-Chairman, Grand Junction District Manager, P.O. Box 1509, Grand Junction, Colorado 81501.

DALE R. ANDRUS,
State Director.

[Tentative Sale #45]

SOUTHEASTERN BERING SEA OUTER CONTINENTAL SHELF

Call for Nominations of and Comments on Areas for Oil and Gas Leasing

Pursuant to the authority prescribed in 43 CFR 3301.3 (1973), nominations are hereby requested for areas in the Southeastern Bering Sea Outer Continental Shelf (OCS) for possible oil and gas leasing under the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343 (1970)). Nominations will be considered for any or all of the following mapped areas:

OCS OFFICIAL PROTRACTION DIAGRAMS

1. NO 2-6	3. NN 3-1
2. NO 3-7	4. NN 2-2

These four protraction diagrams are new diagrams, the publication and availability of which are hereby announced. These diagrams may be purchased for $2.00 each from the Manager, Alaska Outer Continental Shelf Office, Bureau of Land Management, P.O. Box 1159, Anchorage, Alaska 99510. The street address is 800 A Street, Anchorage, Alaska. All nominations must be described in accordance with the Outer Continental Shelf Official Protraction Diagrams prepared by the Bureau of Land Management, Department of the Interior and referred to above. Only whole blocks or properly described subdivisions thereof, not less than one quarter of a block, may be nominated.

In addition to requesting nominations of tracts for possible oil and gas leasing within the specified areas, this notice also requests particular geological, environmental, biological, archaeological, socioeconomic or other information which might bear upon potential leasing and development within this general area—that is, if information indicates that particular tracts should not be offered for lease, this information should be supplied. Information on these subjects will be used in the preliminary selection of tracts leading to a final selection by the Director pursuant to 43 CFR 3301.4. This information is requested from Federal, State and local governments; industry; universities; research institutes; environmental organizations; and members of the general public. Comments may be submitted on blocks or subdivisions thereof, as required for nominations, or on all areas or portions thereof as described above. They should be directed to specific factual matters which bear upon the Department's decision whether to make a preliminary selection of particular tracts within these areas for further environmental analysis pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347 (1970)) and possible leasing. Comments relating to general matters which would be applicable to oil and gas operations in any part of the OCS are not sought at this time.

Nominations and comments must be submitted not later than January 20, 1975, in envelopes labeled "Nominations of Tracts for Leasing on the Outer Continental Shelf — Southeastern Bering Sea" or "Comments on Leasing on the Outer Continental Shelf—Southeastern Bering Sea," as appropriate. They must be submitted to the Director, Attention 720, Bureau of Land Management, Department of the Interior, Washington, D.C. 20240. Copies must be sent to the Area Oil and Gas Supervisor, Geological Survey, P.O. Box 259, Anchorage, Alaska 99510, and to the Manager, Alaska Outer Continental Shelf Office, Bureau of Land Management at his address cited above.

This call for nominations and comments does not in any way commit the Department to leasing in the Southeastern Bering Sea. It is an information gathering component of the Department's leasing procedure.

Final selection of tracts for competitive bidding will be made only after compliance with established Departmental procedures and all requirements of the National Environmental Policy Act of 1969. Notice of any tracts finally selected for competitive bidding will be published in the FEDERAL REGISTER stating the conditions and terms for leasing and the place, date and hour at which bids will be received and opened.

CURT BEAKLUND,
Director, Bureau of Land Management.

Approved: December 13, 1974.

JOHN C. WHITAKER,
Acting Secretary of the Interior.

Office of Hearings and Appeals

[Docket No. M 75-60]

BIG FOUR COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Big Four Coal Company has filed a petition to modify the application of 30 CFR 75.1405 to its Mine No. 1, Duff, Tennessee.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states:

(1) Petitioner has attempted to find automatic couplers and cars equipped with automatic couplers, but has been unsuccessful.

(2) As an alternative to the installation of automatic couplers, Petitioner proposes to install link-and-pin couplers on its mine cars. These couplers will enable Petitioner's miners to couple and uncouple cars without the necessity of the miners physically positioning themselves between the ends of the cars.

The petition is supported by a schematic diagram detailing the alternate method.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 16, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

DECEMBER 9, 1974.

[FR Doc.74-29281 Filed 12-16-74;8:45 am]

[Docket No. M 75-4]

NORTH AMERICAN COAL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), The North American Coal Corporation has filed a petition to modify the application of 30 CFR 75.1405 to its Powhatan No. 3 Mine located in Mead Township, Belmont County, Ohio.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states: The haulage system at the subject mine incorporates both track and belt haulage systems. Mine cars at this mine are five-ton cars supplied by American Car Foundry and Watt Car. Supply cars are of similar construction but are modified to haul supplies by cutting the sides and/or ends away. Mine cars are loaded at automatic loading stations and pulled by locomotives in trips of up to 39 cars to the River Bottom dump where the coal is transported up the slope by belt to the cleaning plant.

Supply cars are loaded outside at the Jacobsburg Portal and dropped into the mine via a 886' slope with a 18½° pitch. Supplies are then pulled on rail by locomotive to areas of the mine as needed.

The alternate coupling method requested in this petition will provide greater protection for the miners than the automatic couplers required by 30 CFR 75.1405 by eliminating the accidental uncoupling of cars which frequently occurs when the track or mine bottom is uneven. The alternate method will also eliminate the hazard of the cars uncoupling as they are dropped down the slope into the mine. It will also obviate need for persons to go between the cars to align the automatic couplers when they are out of alignment. It is a matter of record there have been numerous accidents and some fatalities directly attributable to automatic couplers since this standard was written into the Act in 1969.

Petitioner's alternate system consists essentially of a lever attached to the coupling pin which is encased in a slotted cylinder allowing the pin to drop into the coupling link and automatically lock. Where necessary a specially designed hook will be used to remotely align the link.

A training and re-training program will be initiated in which all personnel will be properly trained in the operation of this coupling device and a record kept of this training.

This alternate method of coupling is similar to the system approved by the Board of Mine Operations Appeals for the Blueboy Mine of the Hawley Fuel Corporation of Landgraff, W. Va., whose operations Petitioner recently had occasion to visit.

The petition is supported by two schematic diagrams detailing Petitioner's alternate method.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 16, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

DECEMBER 9, 1974.

[FR Doc.74-29279 Filed 12-16-74;8:45 am]

[Docket No. M 74-84]

UNITED STATES FUEL CO.

Amendment to Petition[1] for Modification of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), United States Fuel Company has filed a second amended petition to modify the application of 30 CFR 75.1405 to its King Mine located at Hiawatha, Utah.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its second amendment to the petition, Petitioner states:

• • • petitioner is agreeable upon the approval of this petition to supplement its proposed system with the following devices and means • • •:

(1) Each mine supply car will be provided with a lever system permanently mounted on the front end of the car. The lever system will enable a worker to lift the pin from the car bumper sufficiently to disengage the link which couples that car with the front end of the adjacent car. The lever will then be latched by a cam-stop welded on the end of the mine car so that the pin is maintained in an "up" position until there is occasion to use the lever again to drop the pin for coupling. The lever will extend towards the side of the car and will be of such length as to obviate the worker placing himself between the two mine cars.

(2) Workers who have occasion to couple mine cars will be furnished a positioning tool which will be used to position the link on the rear end of a mine car so that the pin from the front of the adjacent mine car may be dropped into position by use of the aforesaid lever. This positioning tool will also be of such length as to obviate any necessity for any worker to position himself between cars which are being coupled.

The coupling-uncoupling lever and the positioning tool have been designed and these designs have been evaluated by M.E.S.A. representatives and U.M.W.A. officers of Local 6363.

(3) All workers will be trained and instructed in the proper operation and use of the coupling lever and positioning tool and their proper use will be mandatory requirements for coupling and uncoupling of all mine cars at this mine. More specifically in this regard:

(a) All employees at this mine will, by February 1, 1975, be instructed regarding the function and use of the coupling lever and link aligner.

(b) Thereafter, any new employee hired at this mine will be given instruction on the function and use of the coupling lever and hand link aligners as part of his orientation before he commences actual work.

(c) This instruction of employees will again be repeated at six-month intervals. The first of such reinstruction shall be given during the first three work days in June, 1975, the next during the first three work days in December, 1975, etc. Employees absent from work during these periods will be reinstructed within the first five work days after they return to work.

(d) The Company will maintain a record of the names and dates when each mine employee received this instruction and reinstruction.

The aforesaid alternate system for coupling and uncoupling mine cars will at all times guarantee to the miners in this mine no less than the same measure of protection sought to be accomplished by a requirement for automatic couplers.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 16, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84138. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

GRAIN STANDARDS

Nebraska Grain Inspection Point

Notice is hereby given pursuant to § 26.99 of the regulations (7 CFR 26.99) under the U.S. Grain Standards Act (7 U.S.C. 71 et seq.) that on October 23, 1974, there was published in the FEDERAL REGISTER (39 FR 37657) a notice announcing a request by the Hastings Grain Inspection, Inc., Hastings, Nebraska, that its assignment of inspection points be amended to add Kearney, Nebraska, as a designated inspection point. Interested persons were given until November 22, 1974, to submit written views and comments with respect to the proposed amendment fo assignment.

No comments were received with respect to the October 23, 1974, notice in the FEDERAL REGISTER. After due consideration of market needs and circumstances and other material available to the Department, the assignment of Hastings Grain Inspection, Inc., Hastings, Nebraska, is amended to add Kearney, Nebraska, as a designated inspection point.

(Sec. 7, 39 Stat. 482, as amended 82 Stat. 764; 7 U.S.C. 79(f); 37 FR 28464 and 28476)

Effective date. This notice shall become effective December 17, 1974.

Done in Washington, D.C. on December 11, 1974.

JUNIPER HUGHES & PATS ISLANDS UNIT PLAN

Availability of Final Environmental Statement

Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Juniper-Hughes and Pats Islands Unit Plan, Ocala National Forest, USDA-FS-R8-FES (ADM.)-74-37.

This environmental statement concerns the proposed 10-year plan for the Juniper-Hughes and Pats Islands Unit on the Lake George Ranger District, Ocala National Forest. The Unit contains approximately 20,000 acres of National Forest land in Marion and Lake Counties, Florida.

Management direction includes timber management and stand improvement, recreation and wildlife management, environmental protection and management of support services (transportation, utilities, fire control, safety, law enforcement, etc.)

This final environmental statement was filed with CEQ December 6, 1974. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Rm. 3230
12th St. & Independence Ave., SW

Domestic and International Business Administration

FLORIDA STATE UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00461-33-46040. Applicant: Florida State University, Department of Biological Sciences, Tallahassee, Florida 32306. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of article: The article is intended for the following research projects:

(1) The study of synaptogenesis in the developing nervous system of cephalopods.

(2) High resolution autoradiography for the study of the neurogenetic patterns in the olfactory system of frog and rat.

(3) Ultrastructural studies on the degenerative-regenerative patterns in the olfactory system of frog and rat.

(4) The comparative ultrastructural make up of the vertebrate olfactory mucosa.

(5) Interreceptor contracts in the olfactory mucosa of mammals.

(6) Study of sensory structures in Schistosome cicarine.

(7) Ultrastructural studies of degenerative patterns in the thalamic nuclei of cat.

(8) Morphology and ultrastructure of Bacillariophytes.

(9) Ultrastructural studies of axon membranes in different functional conditions.

(10) Chemical and electrical synapti contacts in the taste buds of rat.

(11) Fine structure of the capitular filaments of the coenocytic green alga *Penicillus capitatus;* Fine structural aspects of the development of juvenile plants in Penicillus capitatus; and Fine structure of the fungus-alga association in *Cladophora Fuligmosa*. The article will also be used in the following teaching programs:

(1) Bio 339—Submicroscopic anatomy of vertebrates organs and tissues.

(2) Bio 406—Neurobiology.

(3) Bio 608—Advanced Neurology.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Number 74-00126-33-46040 which was denied without prejudice to resubmission on February 4, 1974 for informational deficiencies.

In reply to Question 8 the applicant alleged that compatibility in the article for a eucentric goniometer stage (with 360° rotation and ±60° eucentric tilting plus heating and cooling capabilities) is pertinent to his purposes.

The Department of Health, Education, and Welfare (HEW) reviewed this application and compared the alleged pertinent feature with that of the most closely comparable domestic instrument, the Model EMU-4C currently supplied by the Adam David Company.

HEW advises in its memorandum dated July 26, 1974, that the uses for the foreign article by the applicant indicate some needs for a tilt stage, a feature available with the EMU-4C, but do not establish a consistent requirement for the eucentric goniometer. Moreover, HEW advises that such a goniometer was not ordered with the article, and, therefore, cannot be considered in the determination of scientific equivalency according to §§ 701.2(d) and 701.6(a)(3) of the regulations. Finally, HEW notes that a Philips EM 300 equipped with a goniometer is currently in the same facility as the article and can fill any occasional need for a special stage or camera.

HEW concludes that the EMU-4C is scientifically equivalent to the foreign article because the description of research and teaching provided by the applicant does not establish a pertinent characteristic for the article that upholds duty-free treatment. For these reasons, we find that the Model EMU-4C is of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 71-00444-33-46040. Applicant: Indiana State University, Evansville Campus, Highway 62, Evansville, Ind. 47712. Article: Electron Microscope, Model HU-125E and Accessories. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used for research projects concerning the ultrastructure of mastigont structures of *Trichomonas suis* and analysis of subunit structure of the fibrillar envelope of the costa of *Trichomonas suis*. The courses in which the electron microscope will be used are General Biology I and II, Genetics, General Physiology, Histology and Microtechnique, and Special Problems.

Comments: Comments have been received from one domestic manufacturer, Forgflo Corporation (Forgflo), which alleges, inter alia, that its Model Paragon is "of equivalent scientific value to the instrument for which duty-free entry has been requested for the purposes stated in the application for which the instrument is intended to be used."

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used was being manufactured in the United States at the time the applicant ordered the foreign article (December 10, 1969).

Reasons: (1) The foreign article provides a guaranteed accelerating voltage of 125 kilovolts (kv). At the time the article was ordered comparable electron microscopes were produced in the United States by only one manufacturer, Forgflo Corporation (Forgflo). Forgflo comments that the Model Paragon electron microscope exceeds this capability of the foreign article. However, the Paragon was not announced until September, 1970; and Forgflo's Model EMU-4C was not announced until May 1970. At the time the foreign article was ordered, the most closely comparable domestic instrument available was the Forgflo Model EMU-4B which was formerly manufactured by the Radio Corporation of America (RCA). The Model EMU-4B had a guaranteed maximum accelerating voltage of 100 kv. Higher accelerating voltages provide proportionally greater penetration of the electron beam thereby permitting thicker specimens to be examined under the electron microscope. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated July 9, 1971 that 125 kv accelerating voltage is pertinent to the applicant's studies on fibrillar components of a Trichomonas that will require examination of relatively thick sections. (2) The foreign article has a guaranteed limiting resolution, i.e., resolving power of 3.5 Angstroms. The Model EMU-4B had a guaranteed resolving power of 5 Angstroms. Resolving power bears an inverse relationship to its numerical rating in Angstrom units, i.e., the lower the rating, the better the resolving power. HEW advises in the above memorandum that the "best resolution available" is pertinent to the applicant's study of the subunit structure of the fibrillar envelope of the Trichomonas.

For the foregoing reasons, we find that the Model EMU-4B electron microscope was not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

UNIVERSITY OF TEXAS, EL PASO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00184-33-46040. Applicant: The University of Texas at El Paso, Biological Sciences Department, El Paso, Texas 79968. Article: Electron Microscope, Model EM 10. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to examine a wide variety of biological materials including bacteriophages, bacteria, algae, fungi, xerophytic and mesophytic plant tissues, invertebrate and vertebrate tissues. Experiments to be conducted include:

A. Morphological studies of negative stained preparations of recently isolated new bacteriophages.

B. Ultrastructural studies of new species of chemo-synthetic bacteria compared to established species.

XUM
V 1993 243 DEC 1974 XUM

C. Morphological studies of new species of diatoms.

D. A comparison of ultra-thin sections of fungi prepared for the detection of malate synthetase with freeze-etch preparations of microbodies in the same tissue.

E. Detection of synaptonemal complexes and division apparati in ultra-thin sections of fungi.

F. High resolution EM studies of the possible role of the Golgier complex in fungal wall formation.

G. Comparison of chloroplasts from xerophytic plants with chloroplasts from mesophytic plants.

H. Morphologic characteristics of new trematode species.

I. Combined autoradiography — EM studies of thin sections of mouse uterus and intestine to determine correlations between the structure of the parcoplasmic reticulum and caveolae intracelluiares treated with epinephrine, acetylcholine and oxytocin.

J. Combined autoradiography — EM studies of embryonic mouse tissues at various prepartum ages under in vivo conditions.

K. Fine-structural studies of changes in microtubules and microfilaments during secretion of acetylcholine in mouse neurons.

Comments: Comments dated December 18, 1974 have been received from the Adam David Company which allege, inter alia, that its EMU–4C with additions is equivalent to the foreign article.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (September 13, 1973).

Reasons: The foreign article has a specified resolving capability of 3.5 Angstroms point-to-point. The most closely comparable domestic instrument available at the time the article was ordered was the Model EMU–4C electron microscope, formerly manufactured by the Forgflo Corporation and currently supplied by the Adam David Company, with a specified resolving capability of 5 Angstroms.

We are advised by the Department of Health, Education, and Welfare in its memorandum dated August 7, 1974 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU–4C was not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

National Oceanic and Atmospheric Administration

SEA-ARAMA MARINEWORLD

Issuance of Permit for Marine Mammals

On September 17, 1974, notice was published in the FEDERAL REGISTER (39 FR 33387) that an application had been filed with the National Marine Fisheries Service by Sea-Arama Marineworld, Seawall Boulevard at 91st Street, P.O. Box 3068, Galveston, Texas 77550, for a public display permit to take two (2) false killer whales (*Pseudorca crassidens*) or two (2) short-finned pilot whales (*Globicephala macrorhyncha c.f. scammoni*) or one (1) killer whale (*Orcinus orca*) for the purpose of public display.

Notice is hereby given that, on December 5, 1974 and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit to Sea-Arama Marineworld for two Cetacea, either false killer whales or short-finned pilot whales.

Sea-Arama Marineworld was denied a permit to take one (1) killer whale (*Orcinus orca*) on the basis that holding a single individual marine mammal of a species such as killer whales would not be conducive to the good health and well-being of that animal. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235; the Office of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702; and the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: December 5, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.74-28305 Filed 12-16-74;8:45 am]

SOUTHWEST FISHERIES CENTER

Issuance of Permit for Marine Mammals

On August 23, 1974, notice was published in the FEDERAL REGISTER (39 FR 30533), that an application had been filed by the Southwest Fisheries Center, National Marine Fisheries Service, La Jolla, California 92037, for a permit to conduct the following activities:

1. Take, tag and release up to 750 each year of the following:

a. Spotted dolphin (*Stenella attenuata*);
b. Spinner dolphin (*Stenella longirostris*);
c. Striped dolphin (*Stenella caeruleoalba*);
d. Common dolphin (*Delphinus delphis*);
e. Bottlenosed dolphin (*Tursiops truncatus*);
f. Fraser's dolphin (*Lagenodelphis hosei*);
g. Rough-toothed dolphin (*Steno bredanensis*);
h. Pygmy killer whale (*Feresa attenuata*); and
i. Melon-head whale (*Peponocephala electra*).

2. Collect and/or import an unspecified number of biological specimens and carcasses of animals of the above mentioned species which are killed incidental to commercial tuna fishing operations;

3. Collect an unspecified number of stranded animals of the above mentioned species which are found dead on the beaches of the State of California.

Notice is hereby given that, on December 11, 1974, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit to the Southwest Fisheries Center, National Marine Fisheries Service, subject to certain conditions set forth therein.

The Permit authorizes the requested taking and importing of incidentally killed animals, the requested taking of dead stranded animals, and the tagging, annually, of the following animals:

1. Spotted dolphin—750;
2. Spinner dolphin—750;
3. Striped dolphin—50;
4. Common dolphin—250;
5. Bottlenosed dolphin—100;
6. Fraser's dolphin—50;
7. Rough-toothed dolphin—50;
8. Pygmy killer whale—50;
9. Melon-head whale—50.

The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: December 11, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

Office of the Secretary

CTAB PANEL ON PROJECT INDEPENDENCE BLUEPRINT

Meeting

The Panel on Project Independence Blueprint was formed under the U.S. Department of Commerce Technical Advisory Board (CTAB) to provide the Secretary an assessment of the feasibility of the actions and policies resulting from the Project Independence Blueprint. This notice provides the schedule for the following meetings.

Date	Time	Purpose	Meeting place
Jan. 21, 1975	8:30 a.m. to 5 p.m.	To review the draft final report of the projects energy study.	Suite 210, 1522 K St. NW., Washington, D.C.
Jan. 22, 1975	do	do	Do.
Jan. 24, 1975	do	do	Do.

A limited number of seats will be available to the press and to the public. Written statements or inquiries may be filed with the Chairman before or after any of these meetings.

Persons desiring further information on the Panel or on individual meetings should contact Mr. Frank Castellon, Suite 210, 1522 K Street, NW., Washington, D.C. 20005.

Dated: December 12, 1974.

BETSY ANCKER-JOHNSON,
Assistant Secretary of Commerce for Science and Technology.

CTAB PANEL ON PROJECT INDEPENDENCE BLUEPRINT

Meetings

The Panel on Project Independence Blueprint was formed under the U.S. Department of Commerce Technical Advisory Board (CTAB) to provide the Secretary an assessment of the feasibility of the actions and policies resulting from the Project Independence Blueprint. This notice provides the schedule for the following meetings.

Date	Time	Purpose	Meeting place
Jan. 20, 1975	8:30 a.m. to 5 p.m.	Subcommittee on Flue Gas Desulfurization.	Room 3708, Main Commerce Bldg., Washington, D.C.
Jan. 21, 1975	do	do	Do.
Jan. 22, 1975	do	do	Do.
Jan. 23, 1975	do	do	Do.

A limited number of seats will be available to the press and to the public. Written statements or inquiries may be filed with the Chairman before or after any of these meetings.

Persons desiring further information on the Panel or on individual meetings should contact Dr. Bruce B. Robinson, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230.

Dated: December 12, 1974.

BETSY ANCKER-JOHNSON,
Assistant Secretary of Commerce for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Viral Vaccines and Rickettsial Vaccines.	January 6 and 7, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 8600 Rockville Pike, Bethesda, Md.	Open January 6, 9 a.m. to 10 a.m., closed January 6 after 10 a.m., closed January 7. Jack Gertzog (HFB-5), 8800 Rockville Pike, Bethesda, Md. 20014, 301-496-1676.

Purpose. Advises the Commissioner of Food and Drugs on the safety and effectiveness of viral vaccines and rickettsial vaccines and combinations thereof; reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products consisting of live, attenuated virus, inactivated virus, or killed inactivated rickettsial microorganisms, used either singly or in combination, to prevent a variety of specific infectious diseases in man caused by viral or rickettsial microorganisms.

Agenda. Open session: Previous minutes, communications received, and comments and presentations by interested persons. Closed session: Continued review of products in this category.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Vitamin, Mineral and Hematinic Drug Products.	January 6 and 7, 9 a.m., Room 1409, FB-6, 200 C St. SW., Washington, D.C.	Closed January 6, 9 a.m. to 1:30 p.m., open January 6, 1:30 p.m. to 3 p.m., closed January 6 after 3 p.m., closed January 7. Thomas DeCillis (HFD-100), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4060.

XUM
V 39 I 243 DEC 17 1974
XUM
V

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription vitamin, mineral, and hematinic drug products, and the adequacy of their labeling.

Agenda. Closed session: Continuing review of over-the-counter vitamin, mineral, and hematinic drug products under investigation. Open session: Comments and presentations by interested persons; "The Impact of Some Specific Drugs on Vitamins" by Daphne Roe, M.D.; and "Metabolism and Requirements of Some Trace Minerals in Man" by Harold Sandstead, M.D.

Committee name	Date, time, place	Type of meeting and contact person
3. Panel on Review of Skin Test Antigens.	January 10 and 11, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 8900 Rockville Pike, Bethesda, Md.	Open January 10, 9 a.m. to 10 a.m., closed January 10 after 10 a.m., closed January 11. Clay Slak (HFB-5), 8900 Rockville Pike, Bethesda, Md. 20014, 301-496-2982.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products which are used in diagnostic substances for dermal tests.

Agenda. Open session: Presentation of previous minutes, communications received, and comments and presentations by interested persons. Closed session: Continuing review of skin test antigens under investigation.

Committee name	Date, time, place	Type of meeting and contact person
4. Panel on Review of Antimicrobial Agents.	January 10, 11, and 12, 9 a.m., Conference Room D, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 10, 9 a.m. to 10 a.m., closed January 10, after 10 a.m., closed January 11 and 12. Armond M. Welch, (HFD-109) 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available information concerning the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing antimicrobial agents.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter antimicrobial agent drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
5. Joint meeting of the Panel on Review of Miscellaneous External Drug Products and the Panel on Review of Miscellaneous Internal Drug Products.	January 13, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—Michael D. Kennedy or Armond Welch, (HFD-109) 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients of currently marketed nonprescription miscellaneous external and internal drug products.

Agenda. Orientation briefings and comments and presentations by interested persons.

Committee name	Date, time, place	Type of meeting and contact person
6. FDA/NIDA Drug Abuse Research Advisory Committee.	January 13 and 14, 1 p.m., Conference Room 878, Rockwall Bldg., 11400 Rockville Pike, Rockville, Md.	Open January 13, closed January 14. John A. Scigliano, Ph.D. (HFD-120), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3694.

Purpose. Advises FDA on action to be taken on Notices of Claimed Investigational New Drugs for substances with abuse potential; advises NIDA on supplies of substances for clinical studies, quantities of substances for animal and in vitro studies beyond the maximum amount available by NIDA staff action, and requests for any amount of substances that involve protocols containing unique problems.

Agenda. Open session: Review of minutes of August 8 and 9, 1974 meeting; marijuana-human use guidelines; scientific review of IND applications; recording of proceedings of advisory committee meeting, "Conflict of Interest" and administrative procedures for consultants. Closed session: Review of clinical research protocols, synthesis of delta-9-THC.

Committee name	Date, time, place	Type of meeting and contact person
7. Panel on Review of Bacterial Vaccines and Toxoids.	January 13 and 14, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 8900 Rockville Pike, Bethesda, Md.	Open January 13, 9 a.m. to 10 a.m., closed January 13 after 10 a.m., closed January 14. Jack Gertzog (HFB-5), 8900 Rockville Pike, Bethesda, Md. 20014, 301-496-1670.

Purpose. Advises the Commissioner of Food and Drugs on the safety and effectiveness of bacterial vaccines and toxoids with standards of potency.

Agenda. Open session: Previous minutes, communications received, and comments and presentations by interested persons. Closed session: Continuing review of bacterial vaccines and toxoids under investigation.

Committee name	Date, time, place	Type of meeting and contact person
8. Panel on Review of Dentifrices and Dental Care Agents.	January 15 and 16, 9 a.m., Conference Room H, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 15, 9 a.m. to 10 a.m., closed January 15 after 10 a.m., closed January 16. Michael D. Kennedy (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available information concerning the safety and effectiveness of active ingredients of currently marketed nonprescription drug products for human use containing dentifrices and dental care agents.

Agenda. Open session. Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter dentifrices and dental care agent drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
9. Oncologic Drugs Advisory Committee.	January 16 and 17, 9 a.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 16, 9 a.m. to 10 a.m., closed January 16 after 10 a.m., closed January 17. Cyrus H. Maxwell, M.D. (HFD-150), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4290.

Purpose. Reviews and evaluates all available data concerning the safety and effectiveness of presently marketed new prescription drug products proposed for marketing for the treatment of cancer.

Agenda. Open session: Discussion of cancer chemotherapy guidelines; combination chemotherapy with drugs from various manufacturers and investigational drugs supplied by the National Cancer Institute; approval of new drug applications; and discussion of immunology-immunotherapy. Closed session: Discussion of IND 3946, IND 4756, IND 8228, and IND 10578.

Committee name	Date, time, place	Type of meeting and contact person
10. Panel on Review of General and Plastic Surgery Devices.	January 17, 9:20 a.m., Room 1409, FB-8, 200 C St. SW., Washington, D.C.	Open 9:20 a.m. to 10:20 a.m., closed after 10:20 a.m., Mark F. Parrish, Ph.D. (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3550.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and reliability of general and plastic surgery devices currently in use.

Agenda. Open session: Mr. Peter Hutt, Chief Counsel for Food and Drug Administration, Department of Health, Education, and Welfare, will address the panel. Comments and presentations by interested persons. Closed session: Review and finalization of the list of surgical diagnostic devices contained in the general device list; review of previous meeting classification results; and complete classification of surgical diagnostic devices.

Committee name	Date, time, place	Type of meeting and contact person
11. Panel on Review of Allergenic Extracts.	January 17-18, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 8900 Rockville Pike, Bethesda, Md.	Open January 17, 9 a.m. to 10 a.m., closed January 17 after 10 a.m., closed January 18. Clay Sisk (HFB-5), 8800 Rockville Pike, Bethesda, Md. 20014, 301-496-2263.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products or materials, either singly or in combination, that are administered to man for the diagnosis, prevention, or treatment of allergies and allergic diseases.

Agenda. Open session: Previous minutes, communications received, and comments and presentations by interested persons. Closed session: Continuing review of allergenic extracts under investigation.

Committee name	Date, time, place	Type of meeting and contact person
12. Panel on Review of Gastroenterological and Urological Devices.	January 20, 9:20 a.m., Room 8321, FB-8, 200 C St. SW., Washington, D.C.	Open 9:20 a.m. to 10:20 a.m., closed after 10:20 a.m., Thomas L. Anderson, M.D. (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3550.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and reliability of gastroenterological and urological devices currently in use.

Agenda. Open session: Interested parties are encouraged to present information pertinent to the classification of devices. Submission of data is also invited on the tentative classification findings, which may be obtained from Thomas L. Anderson, M.D., Executive Secretary, Division of Classification and Diagnostic Products, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852 (301-443-3550). Those desiring to make formal presentations should notify Dr. Anderson by January 6, 1975 and indicate the approximate time required to make their comments.

General discussion of renal dialysis. Closed session: Classification for renal dialysis devices and review of preliminary classification results for final report.

Committee name	Date, time, place	Type of meeting and contact person
13. Panel on Review of General Hospital and Personal Use Devices.	January 20 and 21, 9:30 a.m., Room 1409, FB-6, 200 C St. SW., Washington, D.C.	Open January 20, 9:30 a.m. to 10:30 a.m., closed January 20 after 10:30 a.m., closed January 21. William C. Dierksheide, Ph.D. (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-2376.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and reliability of general hospital and personal use devices currently in use.

Agenda. Open session: Interested parties are encouraged to present information pertinent to the classification of devices. Submission of data is also invited on the tentative classification findings, which may be obtained from Dr. William C. Dierksheide, Executive Secretary, Division of Classification and Scientific Evaluation (HFK-400), Bureau of Medical Devices and Diagnostic Products, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852 (301-443-2376). Those desiring to make formal presentations should notify Dr. Dierksheide by January 10, 1975 and indicate the approximate time required to make their comments. Closed session: Revision of device list.

Committee name	Date, time, place	Type of meeting and contact person
14. Panel on Review of Topical Analgesics.	January 21 and 22, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 21, 9 a.m. to 10 a.m., closed January 21, after 10 a.m., closed January 22. Lee Geismar (HFD-100), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription drug products for human use containing topical analgesics.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter topical analgesics under investigation.

Committee name	Date, time, place	Type of meeting and contact person
15. Dental Drug Products Advisory Committee.	January 22, 9 a.m., Conference Room I, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—Clarence C. Gilkes, D.D.S. (HFD-160) 5600 Fishers Lane, Rockville, Md. 20852 301-443-3660.

Purpose. Reviews and evaluates all available data concerning the safety and effectiveness of presently marketed and new prescription drug products proposed for marketing for use in the practice of dentistry.

Agenda. Development of guidelines for clinical studies of dental drug products.

Committee name	Date, time, place	Type of meeting and contact person
16. Panel on Review of Contraceptives and Other Vaginal Drug Products.	January 23 and 24, 9 a.m., Conference Room E, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—Armond Welsh, (HFD-100), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription drug products containing contraceptives or other vaginal drug products.

Agenda. Comments and presentations by interested persons. January 23, 1975: Review of pharmacology, teratology and toxicology of drugs. January 24, 1975: Development of standards and guidelines for the safety and efficacy of vaginal contraceptives and douches.

Committee name	Date, time, place	Type of meeting and contact person
17. Panel on Review of Bacterial Vaccines and Bacterial Antigens.	January 24 and 25, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open January 24, 9 a.m. to 10 a.m., closed January 24, after 10 a.m., closed January 25. Jack Cortese (HFB-6), 9000 Rockville Pike, Bethesda, Md. 20014, 301-496-1676.

Purpose. Advises the Commissioner of Food and Drugs on the safety and effectiveness of bacterial vaccines and bacterial antigens with no U.S. standards of potency.

Agenda. Open session: Previous minutes, communications received, and comments and presentations by interested persons. Closed session: Continuing review of bacterial vaccines and bacterial antigens under investigation.

Committee name	Date, time, place	Type of meeting and contact person
18. Panel on Review of Sedative, Tranquilizer, and Sleep Aid Drugs.	January 27 and 28, 9 a.m., Conference Rm. C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 27, 9 a.m. to 10 a.m., closed January 27, after 10 a.m., closed January 28. Michael Kennedy (HFD-109), 5600 Fishers Lane, Rockville, Md. [illegible], 301-[illegible].

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing sedative, tranquilizer, and sleep aid drugs.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
19. Panel on Review of Antiperspirant Drug Products.	January 30 and 31, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 30, 9 a.m. to 10 a.m., closed January 30, after 10 a.m., closed January 31. Lee Geismar (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing antiperspirant drug products.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter antiperspirant drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
20. Panel on Review of Neurology Devices.	January 31 and February 1, 9:20 a.m., Room 1813, FB-6, 200 C St. SW., Washington, D.C.	Open January 31, 9:20 a.m., to 10:20 a.m., closed January 31, after 10:20 a.m., closed February 1. James R. Veale (HFK-300), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3650.

Purpose. Reviews and evaluates available data concerning safety, effectiveness, and reliability of neurology devices currently in use.

Agenda. Open session: Interested parties are encouraged to present information pertinent to the classification of neurological devices. Those desiring to make formal presentations should notify James R. Veale (see address above) by January 17, 1975 and indicate the approximate time required to make their comments. Discussion of medical device classification with emphasis on scientific review and standards. Closed session: Revision of tentative device list and classification of selected devices from the revised list.

Committee name	Date, time, place	Type of meeting and contact person
21. Panel on Review of Internal Analgesic Including Antirheumatic Drugs.	January 31, February 1, and February 2, 9 a.m., Conference Room 1, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open January 31, 9 a.m. to 10 a.m., closed January 31, after 10 a.m., closed February 1 and February 2. Lee Geismar (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-[illegible].

Purpose. Reviews and evaluates available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription drug products for human use containing internal analgesic agents.

Agenda. Open session: Comments and presentations by interested persons. Closed session: Continuing review of nonprescription internal analgesic drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will

XUM
DEC 1974 V39 N243
17 74
XUM

be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: December 10, 1974.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

[FR Doc.74-29185 Filed 12-16-74;8:45 am]

PRESCRIPTION BIOLOGICAL PRODUCTS

Status of Advertising

Biological products, which include vaccines, blood, and blood products, are licensed by the Bureau of Biologics, Food and Drug Administration, prior to shipment in interstate commerce pursuant to the authority of section 351 of the Public Health Service Act (42 U.S.C. 262). That section requires that a license will be issued only after the product is demonstrated to be safe, pure, and potent.

Biological products are also subject to regulation pursuant to the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321 et seq.), inasmuch as they fall clearly within the statutory definition of the term "drug" (21 U.S.C. 321(g)(1)). In August 1972, the Commissioner of Food and Drugs announced his intention to implement a review of all licensed biological products for safety, effectiveness, and proper labeling, based upon the authority of both the Public Health Service Act and the Federal Food, Drug, and Cosmetic Act. That review, which is utilizing advisory panels of experts, is proceeding according to schedule.

It has recently come to the Commissioner's attention that there is some uncertainty within the biological products industry as to whether biological products are subject to the drug advertising regulations (21 CFR 1.105) for prescription drugs promulgated pursuant to section 502(n) of the Federal Food, Drug, and Cosmetic Act. To clear up any confusion in this regard, the Commissioner advises that advertising for prescription biological products is subject to precisely the same regulatory requirements as advertising for any other prescription drug products. There is no exemption for biological products either in section 502(n) of the Federal Food, Drug, and Cosmetic Act or in 21 CFR 1.105. Thus, prescription biological products, which comprise nearly all of the biological products currently on the market, must comply fully with the requirements of 21 CFR 1.105 with respect to their advertising.

It is suggested that manufacturers of prescription biological products review all advertising for their products to assure their compliance with these requirements.

Dated: December 10, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket FRA General Docket No. H-74-2]

TRAIN AIR BRAKE

Approved Test Program

Notice is hereby given that on December 10, 1974 the Railroad Safety Board of the Federal Railroad Administration approved a test program of limited duration, as set forth below, to determine the feasibility of increasing the maximum allowable brake pipe leakage prescribed in 49 CFR 232.12(b)(1) and 232.13(d)(1) under certain restrictive conditions. The test program is confined to trains which are operated during below freezing weather conditions. The test will permit the operation of freight trains of the selected carriers with brake pipe leakage in excess of 5 pounds per minute but not to exceed 8 pounds per minute when those freight trains are hauled by locomotives with pressure maintaining type automatic brake valves controlling train air brake operation and when the brake pipe pressure gradient (difference between pressures at the head and rear end) does not exceed 15 pounds.

In reaching its decision to approve this test program the Railroad Safety Board has considered the views of representatives for the Brotherhood of Locomotive Engineers, the Brotherhood of Railway Carmen, the Congress of Railway Unions and the United Transportation Union presented at the public hearing held on November 20, 1974. Although all of these representatives voiced concern over the wisdom of initiating this test program the Railroad Safety Board believes that advances in the pertinent technology warrants this test program. The union representatives also made several recommendations for modifications of the test program in the event it was approved. Among the recommended modifications which the Railroad Safety Board has adopted are a prohibition against the issuance of misleading operating instructions and the addition of a provision whereby the individual crew members of the designated test trains could provide supplementary information concerning the operation of those trains.

APPROVED TEST PROGRAM

PARTICIPATING CARRIERS

Southern Railway System
Union Pacific Railroad
Soo Line Railroad Company
Illinois Central Gulf Railroad
Chicago, Milwaukee, St. Paul and Pacific

TEST PERIOD

January 1, 1975 to April 1, 1975.

TRAINS

This test will be limited to freight trains which are hauled by locomotives with pressure maintaining type automatic brake valves controlling train air brake operation. "Run-through" and "unit run-through" trains operated in accordance with 49 CFR 232.19 and trains interchanged with nonparticipating carriers are excluded from operation under this test.

DESIGNATION OF TEST TRAINS

(1) Participating carriers are precluded from issuing any instructions or information which provides or appears to provide blanket relief from the existing requirements relative to brake pipe leakage.

(2) Participating carriers will make reasonable efforts to bring all trains into compliance with the present requirement that brake pipe leakage not exceed 5 pounds per minute.

(3) Only when the defects causing brake pipe leakage have been corrected to the best of personnel capability and the mandatory brake test procedures, set forth below, have been complied with may a train be identified and operated as a "test train" under this program.

MANDATORY BRAKE TEST PROCEDURES

(1) The air brake system on a freight train prior to making train air brake system tests must be charged to within 15 pounds of the setting of the brake pipe pressure regulating valve on the locomotive, but in no case to less

than 60 pounds, as indicated by an accurate gauge at rear end of train;

(2) Pressure maintaining feature must be cut out and not functioning during brake pipe leakage tests;

(3) Leakage in excess of 5 pounds per minute, and not exceeding 8 pounds per minute, is permissible if, in the opinion of qualified personnel, the excess leakage is caused by below freezing weather, does not result from equipment defects, and does not constitute a hazard.

(4) Participating carriers will establish measures to assure that trains operating under this test program which progress into worsening weather conditions will not exceed the eight (8) pounds-per-minute brake pipe leakage or be unable to charge the brake pipe to within the fifteen (15) pounds gradient in pressures between the locomotive and the rear of the train.

REPORTING OF TEST RESULTS

For each 30 day period, a written report summarizing each freight train operation with brake pipe leakage of 5 to 8 pounds per minute must be prepared and sent to Associate Administrator for Safety, RA-60, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590. Each report must be received within 15 days following the end of the 30 day period and must contain the following:

(1) Date and time;

(2) Location, also state whether initial terminal or other;

(3) Temperature and weather;

(4) Type of train (general merchandise, high priority freight, unit, etc.);

(5) A description of train consist including number of locomotive units and cars and tonnage;

(6) Brake pipe leakage;

(7) Statement of time spent working train in attempt to minimize leakage, including description of repairs or other work done;

(8) Narrative description of any significant circumstances other than those tabulated above, including any unusual delays or occurrences enroute which might be connected with train handling, and an estimate of penalty, such as additional delay or extent of train consist reduction, which would have resulted if the leakage has been reduced to 5 pounds per minute.

(9) Any additional statements which the engine and train crews voluntarily submit concerning the over the road train performance.

This notice is issued under the authority of section 202, 84 Stat. 971 (45 U.S.C. 431); and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C., on December 11, 1974.

DONALD W. BENNETT,
Chief Counsel.

[FR Doc.74-29290 Filed 12-16-74;8:45 am]

ATOMIC ENERGY COMMISSION

[Docket No. PR-Misc. Notice]

MANAGEMENT OF COMMERCIAL HIGH-LEVEL AND TRANSURANIUM-CONTAMINATED RADIOACTIVE WASTES

Environmental Impact Statement

By notice published in the FEDERAL REGISTER on November 26, 1974 (39 FR 41292), the Commission announced that a supplemental public hearing concerning its draft environmental study entitled "Management of Commercial High-Level and Transuranium-Contaminated Radioactive Wastes," would be held in Salt Lake City, Utah on December 12, 1974. Motions seeking a continuance of this hearing and requesting that the hearing be changed from a legislative to an adjudicative format—with rights to subpoena and cross-examine witnesses—were mailed to the Commission by the State of Texas on December 4, 1974. We deal first with the motion seeking a continuance.

Texas is mistaken in contending that §§ 2.703, 2.705 and 2.711 of the Commission's regulations required not less than twenty days, after public notice of the hearing, within which interested persons could indicate a desire to be "full participants." The foregoing sections are limited to "adjudications initiated by the issuance of an order to show cause, an order pursuant to § 2.205(e), a notice of hearing, or a notice of proposed action issued pursuant to § 2.105." None of the foregoing categories of actions includes the instant hearing, which, of course, is being held pursuant to 10 CFR Part 11. Apparently, Texas has overlooked 10 CFR 11.33 which requires the Commission to give at least fifteen days notice of a public hearing on a draft environmental impact statement—a requirement which was met here.

We conclude that the notice in question was more than adequate. Issuance of the draft environmental statement which is the subject of this hearing was announced on September 12, 1974 (39 FR 32929). Moreover, the instant hearing is a supplemental hearing called "to afford further opportunity for public participation in the assessment of environmental impacts * * *." 39 FR 41292. The first hearing, in which Texas participated, was held at the Commission's headquarters in Germantown, Maryland on November 12, 1974. In reality, therefore, Texas has had three months to prepare for the December 12 hearing. In view of our ruling, infra, denying Texas' request for an adjudicatory hearing, we need not decide whether more time should be afforded the State to prepare for such a hearing.

The notices for both the November 12 and December 12, 1974 hearings concerning the subject impact statement stated that the hearings "will be legislative rather than adjudicatory in nature. Formal discovery, subpoena of witnesses, cross-examination of witnesses and similar formal procedures appropriate to a trial-type hearing will not be provided" (39 FR pp. 32929 and 41292-93). Nothing in NEPA, the Atomic Energy Act, the Administrative Procedure Act or the Commission's regulations requires an adjudicatory type of hearing concerning a draft environmental statement. Indeed, the Commission's provision for a hearing goes beyond any NEPA requirement since that Act does not require hearings on impact statements. "Jicarilla Apache Tribe v. Morton," 471 F. 2d 1275 (9th Cir. 1973).

Although the Commission shares the State's concern that "the best possible record [be] developed," it does not agree that an adjudicatory hearing is required to achieve this goal. In any event, under existing regulations, there will be an opportunity for further hearings in connection with subsequent construction of any actual facilities.

The State's motions are denied.

It is so ordered.

Dated at Washington, D.C., this 11th day of December 1974.

By the Commission.

PAUL C. BENDER,
Secretary of the Commission.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 306-8; OPP-32000/164]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D)

of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the Federal Register a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–31, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before February 18, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH–569), Office of Pesticide Programs, 401 M Street, SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 18, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 5185–EIN. Bio-Lab, Inc., PO Box 1489, Decatur GA 30031. BIO-GUARD 822 ALGICIDE. Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 19.23%. Method of Support: Application proceeds under 2(c) of interim policy.

FEDERAL MARITIME COMMISSION

[Independent ocean freight forwarder License No. 1491]

AERO-NAUTICS FORWARDERS, INC.

Reinstatement of License

By Federal Maritime Commission Order dated October 10, 1974, Aero-Nautics Forwarders, Inc.'s Independent ocean freight forwarder license No. 1491 was revoked effective September 4, 1974, for failure to maintain a valid surety bond on file with the Commission. The Order of revocation was published in the FEDERAL REGISTER (39 FR 37425) on October 21, 1974.

On November 25, 1974, an appropriate surety bond was filed on behalf of Aero-Nautics Forwarders, Inc. and compliance pursuant to section 44, Shipping Act, 1916, and § 510.9 of General Order 4 has therefore been achieved.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(a) (dated September 15, 1973; Independent ocean freight forwarder license No. 1491 shall be reissued to Aero-Nautics Forwarders, Inc., effective November 25, 1974. A copy of this Notice of Reinstatement shall be published in the FEDERAL REGISTER and served upon Aero-Nautics Forwarders, Inc.

WM. JARREL SMITH, Jr.,
Deputy Managing Director.

PACIFIC WESTBOUND CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126; or may inspect the agreement at the field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 7, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act of detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

D. D. Day, Jr., Chairman
Pacific Westbound Conference
635 Sacramento Street
San Francisco, California 94111

Agreement No. 57-101, entered into by the member lines of the Pacific Westbound Conference, modifies the Appendix to the approved conference agreement by adding a new article thereto which authorizes the member lines to employ a collection agency or any similar organization at destination ports for the purpose of collecting delinquent bills which are due the Conference.

Dated: December 12, 1974.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

STATES STEAMSHIP CO. ET AL.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 7, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. J. W. Dickover
Vice President and General Manager
320 California Street
San Francisco, California

Agreement No. T-3031, between States Steamship Company (States) and Knutser Line (Bakke Steamship Corporation, General Agents) (Knutsen), is a terminal service agreement whereby States will perform terminal services for Knutsen at Pier 80, Port of San Francisco, California, for vessels owned, operated, or controlled for cargo purposes. States will assess Knutsen all service charges according to a schedule of rates filed with the Commission. All other charges assessed against the vessel or cargo will be billed to Knutsen in accordance with San Francisco Board of Harbor Commissioners Tariff No. 3C.

Dated: December 12, 1974.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Docket No. E-8101]

APPALACHIAN POWER CO.

Order Accepting for Filing and Suspending, Subject to Refund, Unsigned Service Agreement, Consolidating Proceedings, Providing for Hearing, Establishing Procedure, and Granting Intervention

DECEMBER 6, 1974.

On November 8, 1974, Appalachian Power Company (APCO) tendered for filing an unsigned service agreement between APCO and Virginia Polytechnic Institute and State University (VPI). APCO intended its filing to supersede and cancel its FPC Rate Schedule No. 48 under which VPI has been served. By its terms the contract was scheduled to expire on October 28, 1974 and APCO gave notice to VPI on September 21, 1973 of termination. The parties have been unable to satisfactorily negotiate a new contract to replace Rate Schedule No. 48 and APCO proposes service to VPI under the unsigned agreement until completion of the negotiation for a new service agreement. The tendered unsigned service agreement proposes the same rate which is at issue in the proceeding in Docket No. E-7775. APCO requests waiver of the requirements of § 35.13 of the Commission's regulations insofar as that section requirec the filing of cost of service data on the ground that the tendered service agreement is supported by cost-of-service data submitted in Docket No. E-7775. APCO further requests the Commission to waive the 30-day notice requirement and permit the proposed rates to go into effect as of October 29, 1974.

APCO's filing was noticed by the Secretary on November 15, 1974. The notice provided that all comments, protests, or petitions to intervene be filed on or before November 29, 1974.

On November 29, 1974, VPI filed a petition to intervene, protest, and motion to reject APCO's November 8, 1974 filing. VPI contended the filing should be rejected on the grounds that (a) the proposed rate increase is identical to the rate increase in Docket No. E–7775 which was not found to be just and reasonable;[1] (b) the draft contract submitted by APCO is patently unreasonable; and (c) suspension of the filing is not the proper remedy.

Upon review of the instant filing, we note that there are two separate issues involved in this proceeding, that of the rate increase itself and that of contractual provisions in the unsigned service agreement.

With respect to the rate increase, we find the most appropriate disposition to be that of consolidating the issue with the pending proceeding in Docket No. E–7775; APCO has the opportunity, pursuant to the Presiding Judge's Initial Decision, to present new evidence on rate base and cost-of-service to justify its request for an increase in its wholesale rates. If APCO fails to tender additional evidence or fails to justify the requested increase with the submittal of additional evidence, the disposition of the present proceeding would be directly affected. On the other hand, to require APCO to file cost-of-service data in the present proceeding would, to a certain extent, force APCO to unnecessarily duplicate the filing of data with the Commission. We conclude therefore that the most expeditious way of resolving the rate increase issue in the instant filing is to consolidate the rate issue with the pending proceeding in Docket No. E–7775 and that its disposition be subject to our final order in Docket No. E–7775.

With respect to the contractual provisions in APCO's filing, VPI, in its protest, objected to the language of section 5 of the agreement on the grounds that the provision would permit APCO to unilaterally revise rates and, without VPI's consent, change any terms and conditions contained in the contract. VPI further objects to section 5's requirement that VPI waive its rights to regulatory and judicial relief. VPI additionally objects to other provisions in the contract on the grounds that they make the contract too restrictive and unjust. VPI specifically points out that the contract (1) makes no provision for new points of delivery; (2) sets a ceiling on contract capacity of 22,800 kw; (3) allows APCO to move or remove its two 30,000 kVa transformers at its sole discretion; (4) sets too short a period (15 days) for payment of bills; (5) contains no provisions for "good faith" disputes over billing accuracy; (6) grants APCO authority to suspend service if VPI violates any terms of the service agreement or if VPI fails to pay bills; (7) contains a force majeure clause which includes as an uncontrollable force "any act of the Company to interrupt service to any customer whenever in the sole judgment of the Company such interruption is indicated in order to prevent or limit any instability or disturbance on the electric system of the Company or any electric system interconnected with the Company • • •" and (8) contains an indemnity clause which exempts APCO from joint liability by providing that it be held responsible for injury only in the event that it was occasioned by the sole negligence of APCO.

Upon review of the tendered unsigned service agreement, we find that VPI's allegation of unreasonableness and unjustness may be meritorious. We, therefore, will set for separate hearing the issue of the lawfulness and reasonableness of the terms and conditions of the proposed service agreement.

VPI's third basis for requesting the filing of APCO be rejected is that suspension of the filing is not a proper remedy since the rate increase has not been found to be just and reasonable. As already indicated, the proceeding in Docket No. E–7775 has not been completed and we have not made a final determination of the justness and reasonableness of the rate increase therein requested. We conclude therefore for the reasons discussed herein, that it is necessary and proper to suspend for one day the effectiveness of APCO's present filing, to make its effectiveness after suspension subject to refund, to consolidate the rate issue with the proceeding in Docket No. E–7775 and to set for separate hearing the issue of the lawfulness and reasonableness of the terms and conditions of the proposed service agreement. Accordingly, we shall grant APCO's request for waiver of the requirements of § 35.13 of the Commission's Regulations insofar as that Section requires the filing of cost of service data in this proceeding. We shall deny APCO's request for waiver of the 30-day notice period and not permit its tendered filing to go into effect on October 29, 1974.

The Commission finds. (1) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission accept for filing and suspend for one day the effectiveness of Appalachian Power Company's November 8, 1974 filing in Docket No. E–9101 and further to consolidate the requested rate increase by APCO in Docket No. E–9101 with the pending proceedings in Docket No. E–7775 and further to enter upon a separate hearing concerning the justness and reasonableness of the contract terms and conditions of the unsigned service agreement tendered by APCO in Docket No. E–9101 as hereinafter provided.

(2) It is desirable and in the public interest to allow Virginia Polytechnic Institute and State University to intervene in the instant proceeding.

(3) Good cause exists to grant waiver of § 35.13 of the Commission's regulations insofar as it would require APCO to file cost-of-service data.

(4) Good cause does not exist to grant APCO's request for waiver of the 30-day notice period in § 35.3 of the Commission's regulations.

The Commission orders. (A) Appalachian Power Company's November 8, 1974 filing in Docket No. E–9101 is accepted for filing and suspended for one day, subject to refund, and permitted to become effective December 9, 1974.

(B) The request for a rate increase in Appalachian Power Company's November 8, 1974 filing in Docket No. E–9101 is hereby consolidated with the proceedings pending in Docket No. E–7775 and subject to a final determination of that case.

(C) Appalachian Power Company, if it files additional evidence on cost-of-service and rate base in Docket No. E–7775, shall include in that additional evidence cost-of-service data with respect to VPI.

(D) The terms and conditions contained in the unsigned service agreement in Appalachian Power Company's November 8, 1974 filing in Docket No. E–9101 shall be set for hearing to determine their justness and reasonableness.

(E) Pursuant to the authority of the Federal Power Act and the Commission's rules and regulations (18 CFR Ch. I), in order to determine the justness and reasonableness of the terms and conditions of the service agreement tendered by Appalachian Power Company, a hearing shall be held commencing on April 29, 1975, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(F) On or before March 4, 1975, APCO shall file its prepared testimony and exhibits. The Commission staff shall file its prepared testimony and exhibits on or before March 18, 1975. Any intervenor evidence shall be filed on or before April 1, 1975. APCO shall file its rebuttal evidence on or before April 15, 1975.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See delegation of authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(H) VPI's petition to intervene is granted; VPI's motion to reject APCO's November 8, 1974 filing is denied.

(I) APCO's request for waiver of the requirements of § 35.13 insofar as that section requires filing of cost-of-service data is granted.

[1] On November 13, 1974, Administrative Law Judge Fribourg issued the initial decision in Docket No. E–7775. The Judge concluded that the record did not support the rate increase because a properly reflective test period for cost-of-service was not used. He therefore denied the requested relief "unless within ninety days from the date hereof APCO shall present new evidence embodying a rate base and cost of service properly related to each other and to an appropriate period." (mimeo at 8).

(J) APCO's request for waiver of the 30-day notice requirement of § 35.3 is denied.

(K) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

(SEAL) MARY B. KIDD, *Acting Secretary.*

[Project No. 2210]

APPALACHIAN POWER CO.

Application for Change in Land Rights

DECEMBER 6, 1974.

Public notice is hereby given that application was filed July 17, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by the Appalachian Power Company (Correspondence to: Mr. John W. Vaughan, Executive Vice President, Appalachian Power Company, 40 Franklin Road, Roanoke, Va. 24009 and Mr. A. Joseph Dowd, Assistant Secretary, Appalachian Power Company, P.O. Box 18, Bowling Green Station, New York, New York 10004) for change in land rights for constructed Project No. 2210, known as the Smith Mountain Project, located on the Roanoke River, a navigable waterway of the United States, in Bedford, Franklin, Campbell, Pittsylvania, and Roanoke Counties, Virginia.

Appalachian Power Company is seeking Commission authorization to grant an easement to Southside Electric Cooperative of Crewe, Virginia for the construction of an electric service cable across lands of the Smith Mountain Project No. 2210 to an island (located about 5 miles upstream from Smith Mountain Dam) owned by Pfura Graphics Corporation of New Jersey. The cable will be laid in a trench on land and in the reservoir to a point where the water depth reaches 12 feet. From that point it will be placed on the reservoir bottom for a distance of about 3200 feet. The easement will be located within Bedford County.

Any person desiring to be heard or to make protest with reference to said application should on or before January 13, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD, *Acting Secretary.*

[FR Doc.74-29605 Filed 12-6-74;8:45 am]

[Docket No. CI75-320]

ATLANTIC RICHFIELD CO.

Application

DECEMBER 10, 1974.

Take notice that on November 20, 1974, Atlantic Richfield Company (Applicant), PO Box 2819, Dallas 75221, filed in Docket No. CI75-320 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Northern Utilities Company (NUC) and Kansas Nebraska Natural Gas Company, Inc. (Kansas Nebraska), from the Riverton Dome Field, Fremont County, Wyoming, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon the sale of natural gas to NUC and Kansas Nebraska from reserves in the Riverton Dome Field, which sale was authorized in Docket No. G-3894 and is presently made pursuant to the terms of a 1958 gas sales contract comprising Applicant's FPC Gas Rate Schedule No. 50. Applicant states that under the terms of the 1958 agreement with NUC and Kansas Nebraska such contract "shall continue in full force and effect until 42.5 Billion Cubic feet of gas is delivered and sold * * * (at which time) * * * this contract shall be cancelled in its entirety". Applicant alleges that this volume will be attained on or about January 15, 1975, after which there will be no more reserves available under its Rate Schedule No. 50 and asserts that its certificated gas supply will then in effect be depleted. Applicant requests permission and approval to abandon the sale of gas to NUC and requests that its FPC Gas Rate Schedule No. 50 be terminated effective the day delivery of the 42.5 Bcf of gas is completed. The application indicates that the currently effective rate for gas sold to NUC and Kansas Nebraska is 18.0717 cents per Mcf and that it has received no response to its inquiry of NUC or Kansas Nebraska as to the latter's concurrence or lack thereof with respect to the instant proposal.

Applicant states that all remaining reserves underlying the producing property, in excess of 42.5 Bcf currently covered by its FPC Gas Rate Schedule No. 50, have been dedicated to Montana-Dakota Utilities Co. under a contract dated July 30, 1962, comprising Applicant's FPC Gas Rate Schedule No. 277. Applicant states further that it would make said sale under authorization in Docket No. CI65-576.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-29297 Filed 12-16-74;8:45 am]

[Docket No. E-9129]

CENTRAL ILLINOIS PUBLIC SERVICE CO.

Application

DECEMBER 4, 1974.

Take notice that on November 25, 1974, Central Illinois Public Service Company (Applicant), filed an application with the Commission pursuant to section 204 of the Federal Power Act seeking authority to issue short-term unsecured promissory notes to commercial banks and to commercial paper dealers in an aggregate principal amount not exceeding $80,000,000 outstanding at any one time. All notes are to mature on or before December 31, 1976.

Applicant is incorporated under the laws of the State of Illinois, with its principal business office at Springfield, Illinois and is engaged in the generation, purchasing, transmitting, distributing and selling of electric energy in portions of Central and Southern Illinois. Applicant also purchases, distributes and sells natural gas in various parts of the territory served.

Notes issued to commercial banks will be dated the date each such borrowing is made; will mature on a date not more than twelve months from the date thereof, but in any event not later than December 31, 1976. The notes will bear interest at a rate that will not exceed either (a) the prime rate of interest prevailing at such bank on the date each such borrowing is made or (b) the applicable prime rate or rates of interest prevailing at such bank during the term of the note.

Notes issued in the form of commercial paper will have varying maturities of

not more than nine months from its date of issue, but in any event not later than December 31, 1976. The commercial paper may be issued and sold in varying amounts or denominations of not less than $50,000 each and will be issued and sold at a discount which will not exceed the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and maturity.

The aggregate principal amount of commercial paper that may be outstanding and unpaid at any time shall not exceed an amount equal to 25 percent of the operating revenues of the Applicant for any period of twelve consecutive calendar months ending during the fifteen (15) consecutive calendar months next preceding the date of issue of such commercial paper.

The net proceeds from the sale of the notes will be added to the corporate treasury and used principally to finance, temporarily, a part of the Applicant's construction expenditures for the remainder of 1974 and for the years 1975 and 1976.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29294 Filed 12-16-74;8:45 am]

[Docket No. RP72-142; PGA 75-3]

CITIES SERVICE GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 10, 1974.

Take notice that Cities Service Gas Company (Cities) on December 3, 1974, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Cities states that pursuant to the Purchased Gas Cost Rate Adjustment provision contained in Article 21 of its FPC Gas Tariff, it proposes to increase its rates effective January 22, 1975, to reflect increased purchase gas costs. Cities states that such increased rates are reflected on Substitute Ninth Revised Sheet PGA-1, included in Appendix A, which is included with its filing and reflect a 4.62¢ per Mcf increase in rates.

If the Commission for any reason does not accept the 4.62¢ per Mcf increase, Cities, in the alternative, tendered for filing the Substitute Ninth Revised Sheet PGA-1 included in Appendix B reflecting a 4.28¢ per Mcf increase in rates.

Cities states that copies of this filing were served on all jurisdictional customers, interested state commissions and all parties to the proceedings in Docket Nos. RP72-142 and RP74-4.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29304 Filed 12-16-74;8:45 am]

[Docket No. RP75-35]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC., AND TENNESSEE GAS PIPELINE CO.

Complaint

DECEMBER 10, 1974.

Take notice that on November 19, 1974, Consolidated Edison Company of New York, Inc. (Complainant), 4 Irving Place, New York, New York 10003, filed in Docket No. RP75-35 a complaint against Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Defendant), P.O. Box 2511, Houston, Texas 77001, alleging injury as a result of Defendant's discriminatory implementation of its curtailment plan for sales of natural gas made pursuant to authorizations issued under the Natural Gas Act and requesting that the Commission direct the Defendant to return certain volumes of gas by which Complainant asserts it was over-curtailed, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

The complaint asserts that Defendant advanced a seasonal curtailment plan approach in Docket No. RP74-24, stating that such an approach was sound and reasonable in the interests of giving its customers the maximum amount of flexibility yet allowing Defendant to retain sufficient control to curtail over specific periods of time to operate its system better and retain more control over customer takes than if curtailment were on an annual basis. Complainant states that Defendant notified it of the curtailment period and the levels of curtailment which would be imposed on it. Based on reliance on such notification and various business considerations, Complainant states it elected to absorb the full 28.29 percent curtailment imposed at the earliest possible time and, accordingly accepted full curtailment prior to August 15, 1974. Complainant alleges that other customers of Defendant have either (1) followed the same approach as that taken by Complainant, (2) deferred the impact of the curtailment, or (3) took the curtailment at an average daily level. The complaint further states that subsequent to Complainant's full absorption of its share of curtailment, Defendant changed its curtailment period, imposed greater curtailments on Complainant and failed to give Complainant credit for the curtailments it had absorbed in reliance upon Defendant's announced plan.[1]

Complainant argues that Defendant, having adopted a plan of curtailment in its tariff, has the duty to apply that curtailment equitably and should not be allowed arbitrarily "to change the rules in the middle of the game." Complainant asserts that those distributors who had not fully absorbed their shares of curtailment prior to imposition of the change by Defendant of its curtailment period have been additionally curtailed but only to a proportionate degree over and above the previously imposed level while Complainant has been in effect the victim of a discriminatory "double dip." Complainant protests whereas it previously absorbed the full 28.29 percent curtailment originally imposed, it is now subject to the imposition of an additional 28.29 percent curtailment plus a 17 percent curtailment for the remainder of the season.

Complainant further states that, having offered its customers "the maximum amount of flexibility that is reasonably possible" and having induced its customers to take advantage of this flexibility, Defendant should not be allowed to take advantage of those customers by changing the curtailment period. Complainant admits that in order for Defendant to remedy such wrongs imposed upon Complainant it will be necessary that Defendant adjust the volumes of gas previously taken from Complainant to make them available now and that in doing so it may be necessary to curtail other of Defendant's customers. Complainant states, however, that this would simply redress earlier wrongs which resulted in those customers' obtaining more gas than they were entitled to. Complainant requests that the Commission enter an order directing the Defendant to return those volumes of gas by which it was over-curtailed.

---

[1] On September 23, 1974, Complainant states it was notified that because of the occurrence of Hurricane Carmen it was necessary that Defendant change its level of curtailment. Complainant states further that it recognized that a force majeure situation had occurred and that a change in level of curtailment might well have been required but that it expected that additional curtailment would be applied equitably, having in mind the curtailment already absorbed, and that to the extent additional curtailment would be necessary it would be supplementary to that already absorbed by Complainant.

Complainant states that it is not herein contesting the merits of the curtailment plan presently a part of Defendant's FPC Gas Tariff.

Any person desiring to be heard or to make and protest with reference to said complaint should on or before December 27, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-157; PGA75-3]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in FPC Gas Tariff

DECEMBER 6, 1974.

Take notice that Consolidated Gas Supply Corporation (Consolidated), on November 22, 1974, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective January 1, 1975. The proposed rate increase would generate $19.9 million annually in additional jurisdictional revenues.

Consolidated states that the PGA filing was triggered by rate increases filed by Tennessee Gas Pipeline Company (Tennessee) and Texas Eastern Transmission Corporation (Texas Eastern) both to be effective January 1, 1975. Tennessee filed two sets of tariff sheets for the same effective date, one of which, designated as Second Substitute Sixth Revised Sheet Nos. 12A and 12B, includes small producer increases above the level established by Opinion No. 699 while the other, designated as Substitute Sixth Revised Sheet Nos. 12A and 12B, does not Consolidated has reflected in its filing the Second Substitute Sixth Revised Sheet Nos. 12A and 12B rates of Tennessee. Texas Eastern has also filed two sets of tariff sheets, one of which, designated as Fifth Revised Sheet Nos. 14, 14A, 14B, 14C and 14D, includes the effect of United Gas Pipe Line Corporation's increases arising out of Opinion No. 699 and the other, designated as Alternate Fifth Revised Sheet Nos. 14, 14A, 14B, 14C and 14D, does not. Consolidated has reflected in its filing the Alternate tariff sheet rates of Texas Eastern. Additionally, Consolidated has reflected the reduced rates of Transcontinental Gas Pipe Line Corporation effective October 1, 1974, not previously reflected in any PGA filing and has eliminated the Research and Development Adjustment which became effective November 1, 1974. These Research and Development costs are reflected in the base rates filed in Docket No. RP74-90 which will become effective December 1, 1974.

Consolidated is requesting a waiver of the 45-day notice requirement contained in its PGA clause since it did not receive the supplier's revised rates in sufficient time to make a timely filing and further asks for a waiver of any other of the Commission's Rules and Regulations in order to permit the proposed rates to go into effect on January 1, 1975.

Copies of this filing were served upon Consolidated's jurisdictional customers, as well as interested state commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29303 Filed 12-16-74;8:45 am]

[Docket No. E-9048]

CONSUMERS POWER CO.

Interconnection Agreement

DECEMBER 6, 1974.

Take notice that Consumers Power Company, on October 3, 1974, tendered for filing an Interconnection Agreement between Consumers Power Company and the City of Holland, Michigan, cancelling and superseding a Contract for Electric Service between the same two parties dated November 15, 1967 (designated Consumers Power Company Rate Schedule FPC No. 15). The proposed Agreement prescribes the reserve responsibility of each party, the classes of power and energy to be exchanged by the parties, and the terms, conditions, and rates governing such exchanges.

A copy of the filing was served on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. The application is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket Nos. E-7543, E-8170, E-9091]

GEORGIA POWER CO.

Tariff Change

DECEMBER 6, 1974.

Georgia Power Company (Georgia Power) on November 20, 1974, tendered for filing Revised Sheets Nos. 3, 3-A, 3-B, 3-C, 3-D, 3-E, 3-F, 3-G, 3-H, 3-L, 3-N, and 3-O of the subject tariff. These revisions cover changes effective in the fourth quarter of 1974, consisting of eighteen (18) new wholesale delivery points and three (3) conversions of existing wholesale delivery points to the WR-7 rate, and one (1) previously omitted conversion of existing wholesale delivery point to the WR-7 rate.

The above changes reflect the fact that Georgia Power has established eighteen (18) new delivery points for existing customers, where service will be rendered at the WR-7 rate currently on file with the Commission and that pursuant to the terms of this present tariff, three (3) delivery points have been converted to the WR-7 rate, and one (1) delivery point previously omitted have been converted to the WR-7 rate. On October 31, 1974, Georgia Power filed new rate schedule WR-8, and this has been assigned Docket E-9091. As of this date the Commission has noticed the new filing, but has not ordered hearings or set procedural dates. Included in the filing are twenty-two (22) supplemental sheets giving data on the delivery points involved in the above changes.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket Nos. RP74-32, RP74-33]

EL PASO NATURAL GAS CO. AND NORTHWEST PIPELINE CORP.

Further Extension of Time

DECEMBER 4, 1974.

On November 25, 1974, El Paso Natural Gas Company filed a motion to extend the date for filing briefs on exceptions and briefs opposing exceptions to the initial Decision of the Presiding Administrative Law Judge issued August 28, 1974, as most recently extended by notice issued October 30, 1974, in the above-designated matter. The motion states that all parties have been contacted and have no objections.

Upon consideration, notice is hereby given that the date for filing briefs on exceptions is extended to December 30, 1974 and the date for filing briefs opposing exceptions is extended to January 20, 1975.

MARY B. KIDD,
Acting Secretary.

[Docket No. RM74-18]

INTEREST RATES SUBJECT TO REFUND

Order Denying Applications for Rehearing and Clarifying Prior Order

DECEMBER 11, 1974.

On April 23, 1974, we issued a notice of proposed rulemaking in which we stated that we were considering amending §§ 35.18(a), 154.102(c) and 154.67(c) of our regulations under the Federal Power Act and the Natural Gas Act to provide for a change in the interest rate on amounts subject to refund. Comments on this proposal were received from some fifty-one parties, and on October 10, 1974, we issued Order No. 513 by which we amended our regulations to provide for a 9 percent refund interest rate (up from the previously effective 7 percent rate) which would be applied prospectively to new rate filings made on or after the date of issuance of the order.

On November 11, 1974, the American Public Power Association, et al. (APPA) [1] and Northern Illinois Gas Company (N. Ill.) filed applications for rehearing of Order No. 513. In addition, the APPA pleading requests clarification of Order No. 513 to the extent of determining whether the 9 percent rate would be applied to a defective filing tendered prior to the issuance of the order but not cured until after such.

As grounds for rehearing, the APPA application asserts three contentions which essentially raise two primary issues. The first two of the three APPA allegations deal with the selection of 9 percent as the refund interest rate and specifically assert that selection of the 9 percent rate is arbitrary and unsupported by Order No. 513 and that the prime rate should be the minimum refund interest rate. In support of these allegations, APPA argues that: (1) The Commission has historically set the refund interest rate in excess of the prime rate; (2) amounts subject to refund represent a source of short-term capital for utilities, and thus the refund interest rate should approximate the cost of short-term borrowings which generally exceeds the prime rate; and (3) Order No. 513 gives no indication of the basis for the precise rate selected. APPA then advises us to "bear in mind that the purpose of the Natural Gas Act and the Federal Power Act is to protect consumers from excessive rates and charges, keeping rates as low as possible." [2]

We find no merit in the assertion of APPA that the prime rate should be the minimum refund interest rate. As stated in Order No. 513 (at page 6):

> Setting an appropriate interest rate on amounts subject to refund involves more than merely attempting to parallel it with interest rates on short-term borrowings or with interest rates on passbook savings accounts. The fund itself is unique, and while interest on the fund serves to compensate the consumer for the use of his money, it should not be so low as to unjustly enrich filing companies and should not be so high as to penalize the company for seeking a rate increase. Thus, the interest rate cannot be keyed to any single financial criterion but must reflect a variety of money market rates.

In addition, we note (as again we did in Order No. 513) that since the previous 7 percent refund interest rate was established [3] the prime rate has fluctuated nearly seven percentage points; and since we believe that a fixed—as opposed to a fluctuating—refund interest rate is desirable,[4] it would be self-defeating to key the refund interest rate to a point as volatile as the prime rate has proven itself to be. In regard to the lack of support in Order No. 513 for the selection of 9 percent as the refund interest rate, we state again (as we did in that order at page 6) that "there is no specific formula for making a determination such as this * * *" and we direct APPA to the necessary evidentiary content of rulemaking orders as defined by the Court of Appeals for the District of Columbia Circuit:

> What is required here is not specified and detailed findings and conclusions of the kind customarily associated with formal proceedings, but merely a concise general statement of the basis and purpose of the rule(s). We expect that such a concise general statement of * * * basis and purpose will enable a reviewing court "to see what major issues of policy were ventilated by the informal proceedings and why the agency reacted to them as it did." [5]

We are of the opinion that Order No. 513 more than adequately complies with these judicial requirements, and accordingly we believe that no useful purpose would be served by a continued discussion of the factors which influenced our decision to establish the refund interest rate at 9 percent. We further note that in regard to APPA's interpretation of the purpose of our statutory authority, we view our delegated statutory authority as requiring the establishment of the lowest reasonable rate consistent with the maintenance of a continuing and adequate supply of natural gas and electric power.

APPA's third contention is that the failure to apply Order No. 513 to filings pending before the Commission when Order No. 513 was issued is arbitrary and without basis or justification. In this same regard, the single contention of N. Ill. is that the 9 percent refund interest rate should be applied to all amounts collected subject to refund under any rate becoming effective after the issuance of Order No. 513 and no valid reason has been given for not doing so. Our decision to apply the 9 percent rate solely to amounts collected subject to refund in rate filings made on or after the date of issuance of our order was within our authority, and neither APPA nor N. Ill. has presented us with any reasons constituting good cause to modify that decision. APPA's final contention is that certain Commission actions in allowing rate relief (i.e. optional pricing for independent producers, higher nationwide producer rates, etc.), coupled with the fact of regulatory delays, demand that we adopt adequate refund interest policies. We believe that the 9 percent interest rate which we established in Order No. 513 is currently an appropriate rate, and further, we stated that we will reassess the refund interest rate periodically. Such actions, in our opinion, comprise an adequate refund interest policy.

Finally, APPA requests clarification as to whether application of the new interest rate on refunds to new filings contemplates the date on which a defective filing is tendered or the date on which such a filing is cured. When a deficient filing is tendered, it is not assigned a filing date until that deficiency is cured. Therefore, unless we waive the filing requirements of our Regulations and designate the original date of tender as the filing date, the date upon which the deficiency is cured is the filing date for the purposes of determining whether the 9 percent refund interest rate shall apply.

The Commission finds. The assignments of error and grounds for rehearing set forth in the petitions for rehearing

[Docket No. E-8315]

IOWA PUBLIC SERVICE CO.

Order Approving Rate Settlement

DECEMBER 11, 1974.

On May 29, 1974, Iowa Public Service Company (IPS) tendered for filing a proposed rate increase to IPS First Revised Sheet No. 1, FPC Electric Tariff, Original Volume No. 1 for electric service to Lincoln Light and Power Company, Farmers Cooperative Light and Power Company, and ten municipals.[1] The proposed new rate would have resulted in an estimated increase of $293,209 for the period ending June 30, 1975, and a realized rate of return of 8.29 percent. On June 28, 1974, the Commission, inter alia, suspended the proposed increase for the maximum statutory period (until November 28, 1974) for all but two of IPS's customers, rejected the increase as to the Towns of Denver and Hudson, and permitted all customers to intervene. Based on an Application for Reconsideration or Rehearing of Commission's Order, filed by IPS on July 17, 1974, the Commission ordered, on August 9, 1974, that the proposed new rate be accepted as to the Towns of Denver and Hudson.

On September 10, 1974, IPS and its customers participated in settlement discussions which resulted in IPS's filing of a Settlement Agreement for Commission approval on September 23, 1974. This filing was noticed on October 8, 1974, with comments or protests due on or before October 18, 1974. The Commission Staff filed comments in support of the Agreement on October 18, 1974. No other comments were received.

The Settlement provides for a revised Cost of Service Study attached hereto and identified as Appendix A below. Based on that Cost of Service Study, the parties have agreed that the increase to the wholesale customers should be $200,560 instead of the originally proposed increase of $293,209. The wholesale rates are also set forth in Appendix B below. The rate of return upon which the settlement is based is 6.81 percent. IPS proposes to effectuate settlement rates as per this Agreement on November 28, 1974.

We note that the proposed settlement contains a declining block rate structure, whereby the average charge per kWh to a customer declines as purchases of electricity increase. Based upon the record in this proceeding, we shall not modify the rate structure proposed by the parties in this proceeding. However, in future rate proceedings involving Iowa Public Service Company, as well as other electric utilities subject to our rate jurisdiction, we intend to review the rate structures proposed therein to determine whether they are consistent with our stated goals of promoting energy conservation and encouraging a more efficient allocation and use of this nation's scarce energy resources.[2]

Upon our review of the record in this proceeding, including the settlement agreement itself, the filings, documents and pleadings submitted by the parties, we conclude that the settlement agreement represents a reasonable resolution of the issues in this proceeding and will be in the public interest and, accordingly, the settlement should be approved.

The Commission finds. The settlement agreement in this proceeding, as filed by IPS on September 23, 1974, is reasonable and proper and in the public interest in carrying out the provisions of the Federal Power Act.

The Commission orders. (A) The Settlement Agreement as filed by Iowa Public Service Company in Docket No. E-8315 is hereby incorporated by reference, approved and made effective as of November 28, 1974.

(B) This order is without prejudice to any findings or orders which have been made or which will hereafter be made by this Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, or any party or person affected by this order, in any proceeding now pending or hereinafter instituted by or against IPS or any person or party.

(C) Within 15 days of the date of issuance of this order, IPS shall file revised tariff sheets consistent with the provisions of the settlement agreement.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

APPENDIX A.—*Iowa Public Service Co. comparison of allocated cost of service, 18 sales for resale customers—test year 1973*

	Existing rates	Adjustments	Proposed rates
Operating income:			
Operating Revenues: Sale of Electric Energy	$685,859	$200,560	$886,419
Operating expenses:			
Operating expense	426,153		426,153
Depreciation expense	134,030		134,030
Total operating expenses	570,183		570,183
Net operating revenue before income tax	115,676	200,560	316,236
Federal and State income tax	8,189	104,301	112,588
Net sales for resale income	107,451	96,109	203,650
Rate base:			
Average plant in service (with common allocated)	4,330,231		4,330,231
Average reserve for depreciation (with common allocated)	(1,185,805)		(1,185,805)
Materials and supplies	141,079		141,079
Accumulated deferred income tax	(302,592)		(302,592)
Total sales for resale rate base	2,991,913		2,991,913
Rate of return (percent)	3.59		5.31

APPENDIX B.—*Iowa Public Service Co. analysis of proposed settlement by rate block for test year 1973*

	Kilowatt-hour	Rate	Revenue
		Cents

[2] See: Order No. 496, issued November 29, 1973; notice of proposed rulemaking, Revision to Regulations Under Federal Power Act to Provide For Filing of Rate Design Information, issued April 26, 1974, in Docket No. RM74-20.

[Docket Nos. RP73-102, RP75-14 (PGA 75-1)]

MICHIGAN WISCONSIN PIPE LINE CO.

Filing Response to Commission Order

DECEMBER 6, 1974.

Take notice that on November 15, 1974, Michigan Wisconsin Pipe Line Company (Mich-Wis) filed a letter to the Secretary of this Commission as a response to the Commission's order of October 31, 1974 at these dockets. Within its letter Mich-Wis alleges the following:

(a) All large producers, whose production Michigan Wisconsin had included in its September 13, 1974 PGA filing at the new Uniform National Rate, have filed with the Commission an application to charge that higher rate.

(b) All large producers, whose production Michigan Wisconsin had included in its filing at the October 1, 1974 Southern Louisiana Area Rate for new gas, prescribed by Opinion No. 598, have filed with four exceptions. Hassie Hunt Trust (Rate Schedule 41), Hunt Petroleum Corporation (Rate Shedule 5), Hunt Oil Company (Rate Schedule 66) and Hunt Industries (Rate Schedule 8) have not yet, to Michigan Wisconsin's knowledge, filed for the 1.00¢ escalation. The increase in cost applicable to those four producers which was reflected in the rate filing totals $50,222.

(c) Many large producers whose production was not included in Michigan Wisconsin's September 13, 1974 filing at the new Uniform National Rate have, however, filed for that higher rate with an indicated cost increase to Michigan Wisconsin of some $7,800,000.

(d) On October 29, 1974, Michigan Wisconsin supplemented its September 13, 1974 filing with documents substantiating its increased cost of Canadian gas.

Mich-Wis further states that its cost of gas commencing November 1, 1974 will be no less than that included in the rates set forth in Seventh Revised Sheet No. 27F and, therefore, submits that no substitute tariff sheet is required to be filed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29312 Filed 12-16-74;8:45 am]

[Docket No. RP75-37-1]

MIDWESTERN GAS TRANSMISSION CO. AND HUISINGA GRAIN CO., INC.

Interim Emergency Relief

DECEMBER 6, 1974.

On November 29, 1974, Huisinga Grain Company, Inc. (Huisinga) of Casey, Illinois and the City of Casey, Illinois (Casey), Huisinga supplier, filed in Docket No. RP75-37-1, telegrams requesting relief from the curtailment imposed by Casey's supplier, Midwestern Gas Transmission Company (Midwestern). Huisinga and Casey stated therein that gas service to Huisinga had been curtailed and that continuation of such service was required for grain drying. The Secretary, by telegram of November 29, in response to the allegations contained in the aforementioned telegrams, advised Midwestern that the relief requested might be unilaterally granted under the applicable provision of Midwestern's curtailment plan. The Secretary also indicated therein, that if Midwestern refused to so act, Casey could then file, with supporting affidavits from Huisinga, for extraordinary relief pursuant to the provisions of § 2.78 of the Commission's rules and regulations. On December 3, Casey, on behalf of Huisinga, renewed its request stating, inter alia, that the gas is required for the drying of corn and beans, that crops worth approximately two million dollars are still in the fields unharvested, and if not dried could be a total loss. Furthermore, Huisinga maintains that the use of alternate fuel, in this case propane, is impractical in that it would involve an additional estimated cost of $50,000 dollars, and would require ten weeks for the delivery of the necessary equipment. Accordingly, Casey requests the Commission direct Midwestern to deliver to it, for the account of Huisinga, 1,400 Mcf per day for 20 operating days.

Midwestern's response to Casey's and Huisinga's petition was received on December 4, 1974. Midwestern stated therein that it had refused to unilaterally grant Casey and the requested relief, that its entire gas supply has been allocated for the current season, and that the utilization of temporary equipment would permit the immediate substitution of propane for the 20 day period. Midwestern also indicated that Casey attached the grain drying operation subsequent to the development of the end use data that was utilized as the basis for the allocations under the curtailment plan, and therefore no volumes of gas were allocated for this service.

We shall grant a portion of the relief requested in the instant petition because of the threatened loss of sizeable quantities of needed grain and because there appears to be no other recourse at this time. We do not however, do so without reservation. It appears to this Commission that Huisinga's grain drying operation was recently attached by Casey, that Midwestern was not informed of this situation, and that Casey continued to serve this requirement from the entitlement intended for Priority 1 and 2 service only. Since curtailment on the Midwestern system began on November 1, 1974, as a direct result of curtailments on the Tennessee Gas Pipeline Company, a Division of Tenneco, Inc., system, it is conceivable that Casey was unaware of the impending curtailment. Nevertheless, it is our firm view that both Casey and Huisinga should have been aware of the nationwide fuel shortage and should have planned for such a contingency, regardless of the cost. This is especially true in light of Huisinga's failure to install alternate fuel facilities, when an alternate fuel, propane, is available. Since it appears that it may be possible to install temporary facilities, utilizing propane, within 10 days, we shall direct and authorize Midwestern to deliver to Casey, for the account of Huisinga 1400 Mcf for 10 days, subject to possible payback. If relief is required in excess of that provided above, Casey will be required to file a petition for extraordinary relief pursuant to and consistent with the provisions promulgated by Order No. 467-C. Furthermore, it should be noted that the Commission shall not, in the future, be disposed toward granting petitions for extraordinary relief where the facts as alleged are similar to those contained in the instant filing.

Casey's November 29, telegram also seems to indicate that it would require an additional 16,000 Mcf for the November 1, 1974 through March 31, 1975, curtailment period. If this is so, the proper procedure for Casey to follow would be to file a petition for extraordinary relief pursuant to the provisions and conformance to the requirements of Order No. 467-C.

The Commission finds. That Midwestern should be authorized and directed to deliver to the City of Casey, Illinois, for the account of Huisinga Grain Company, Inc., 1,400 Mcf for 10 operating days.

The Commission orders. That Midwestern is hereby authorized and directed subject to possible payback to deliver to the City of Casey, Illinois, for the account of Huisinga Grain Company, Inc., 1,400 Mcf for 10 operating days.

By the Commission.

(SEAL)

MARY B. KIDD,
Acting Secretary.

[Docket No. E-9017]

MISSOURI UTILITIES CO.

Letter Agreement

DECEMBER 10, 1974.

Take notice that on September 11, 1974, Missouri Utilities Company (Applicant) filed with the Federal Power Commission a Letter Agreement between itself and the City of Kennett, Missouri (City) for emergency delivery of power.

The application states that the emergency arose because City was unable to obtain adequate natural gas supplies to fuel their generating stations and City's allocation of No. 2 fuel oil is inadequate to meet generating requirements. Delivery of power to City began on September 3, 1974 on an emergency basis, and Applicant requests retroactive acceptance of said Agreement, effective September 3, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1974, file with the Federal Power

Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29316 Filed 12-16-74;8:45 am]

[Docket No. RP74-100, PGA75-3]

NATIONAL FUEL GAS SUPPLY CORP.

Filing of Revised Tariff Sheet

DECEMBER 10, 1974.

Take notice that on November 27, 1974, National Fuel Gas Supply Corporation (National Fuel) tendered for filing First Interim Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1. National Fuel states that this tariff sheet, filed pursuant to section 17 (PGA) of the General Terms and Conditions of its tariff, reflects an annual increase of $1,688,245 over the revenues that would be generated from the rates set forth in National Fuel's Revised Sheet No. 4. National Fuel further states that these increased costs result from increases filed by certain of its suppliers.

The proposed effective date of this filing is December 1, 1974, and accordingly, National Fuel requests waiver of the 45 day notice requirement of § 17.5 of the General Terms and Conditions of its tariff and waiver of any Commission Rules and Regulations which might bar a December 1, 1974 effective date.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29315 Filed 12-16-74;8:45 am]

[Docket No. E-9136]

NEW ENGLAND POWER CO.

Tariff Change

DECEMBER 6, 1974.

Take notice that New England Power Company (NEPCO) on November 26, 1974, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1, and its Service Agreement for Primary Service for Resale with The Narragansett Electric Company (Narragansett). The proposed changes would increase the fixed credits allowed Narragansett on its purchased power billing by NEPCO in the amount of $1,646,700 annually based on the 12 month period ending December 31, 1975.

NEPCO states that it reviews annually, conjunctively with its affiliate Narragansett, that part of Narragansett's system which is used by it in providing all-requirements service to Narragansett, and upon a substantial change in circumstance, refiles with the Commission the revised generation and transmission credits. The company claims that the instant revision is primarily due to a substantial increase in the necessary rate of return occasioned by Narragansett's refinancing of low cost senior securities and increased depreciation expense.

Copies of the filing were served upon Narragansett and the Rhode Island Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-8137, Docket No. E-8217]

NEW ENGLAND POWER SERVICE CO. AND BOSTON EDISON CO.

Extension of Procedural Dates

DECEMBER 6, 1974.

On November 29, 1974, Boston Edison Company and New England Power Company filed a motion to extend the procedural dates fixed by order issued June 17, 1974, as most recently modified by notice issued November 14, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Rebuttal, December 30, 1974.
Hearing, January 6, 1975 (10 a.m. e.s.t.).

MARY B. KIDD,
Acting Secretary.

[Docket No. RP74-93; PGA 75-3]

NORTH PENN GAS CO.

Tariff Sheets for Filing Subject to Condition and Denying Motions To Reject

DECEMBER 6, 1974.

On May 15, 1974, North Penn Gas Company (North Penn) filed a proposed rate increase to recover, among other things, through a tracking clause the increased costs associated with the alleged imposition of a Pennsylvania Gross Receipts Tax on its interstate sales applicable to the years 1972 and 1973. By order issued June 28, 1974, the Commission suspended the proposed increase for five months until December 1, 1974, and denied North Penn's request for tracking of the gross receipts tax without prejudice to its inclusion in the base tariff rate through the filing of an appropriate surcharge. On July 29, 1974, North Penn made such a filing which was accepted by letter order on August 28, 1974.

On November 8, 1974, North Penn filed substitute tariff sheets to be effective December 1, 1974, which give effect, among other things, to a ruling by the Pennsylvania Board of Finance and Revenue granting North Penn's petition for review and reversing the Pennsylvania Department of Revenue's ruling that had imposed such tax for the year 1972. However, North Penn's November 8, 1974, filing retains the impact of the gross receipts tax as it would apply if assessed for the year 1973 and adds to its rate the impact of such tax as it would apply if assessed for the year 1974.

Also, included in the above filing was a PGA rate increase of 4.722¢ per Mcf or $741,277 per year which tracks a PGA increase of Consolidated Gas Supply Corporation (Consolidated), effective November 1, 1974, a general rate increase of Consolidated which is to become effective December 1, 1974, subject to refund, and the PGA increase of Transcontinental Gas Pipe Line Corporation, effective October 1, 1974. North Penn requested waiver of any of the Commission's regulations as may be required to permit Second Substitute Twelfth Revised Sheet No. PGA-1 to become effective on December 1, 1974.

Notice of the filing was issued on November 19, 1974, with protests or petitions to intervene due on or before November 26, 1974. On November 20, 1974, Corning Natural Gas Corporation (Corning) filed a protest and motion to reject; on November 25, 1974, New York State

XUM
DEC 17 1974
XUM

Electric and Gas Corporation (NYSEG) filed a protest; and on November 26, 1974, the Public Service Commission of the State of New York (New York) filed a protest and motion to reject and/or suspend the proposed rate filing.

Corning alleges that North Penn has successfully challenged the assessment of the gross receipts tax before the Board of Finance and Revenue of the Commonwealth of Pennsylvania. As a result of this decision, Corning argues that it is highly improbable that the Pennsylvania Gross Receipts Tax will ever be imposed upon North Penn's interstate sales of gas to Corning, and accordingly, Corning requests that North Penn's filing of November 8, 1974, be rejected and that North Penn be directed to file revised tariff sheets which totally exclude the gross receipts tax surcharge.

NYSEG avers that the gross receipts tax is a contingent liability, since North Penn is not paying the tax, and to permit North Penn to flow this cost through to its customeps would remover any incentive for North Penn to continue to challenge the imposition of the tax. Accordingly, NYSEG protests the inclusion of the gross receipts tax in North Penn's base tariff rate until after a hearing is held concerning the reasonableness of said tax.

New York argues the inclusion of the impact of the tax for the period from January 1, 1973, through November 30, 1974, and the inclusion of the prospective impact for the period commencing on December 1, 1974, is improper because there is no claim that North Penn has in fact paid or intends to pay the tax. As a result, New York requests that the part of North Penn's filing of November 8, 1974, that purports to include the gross receipts tax surcharge be rejected or alternatively, that said costs be suspended for the full statutory period, beginning on December 8, 1974, which is the end of the minimum statutory notice period.

On December 2, 1974, North Penn filed its answer to the above protests and motions to reject. North Penn argues that it is erroneous to assume that there will be no gross receipts tax assessment for 1973 and subsequent years, since the Pennsylvania Department of Revenue may still make such an assessment for 1973, and North Penn will not file its gross receipts tax for 1974 until April 15, 1975.

In light of the ruling of the Pennsylvania Board of Finance and Revenue relieving North Penn of any liability for the gross receipts tax on its interstate sales for the year 1972, and in view of the fact that North Penn has not been assessed, as of this date, any tax associated with the gross receipts for its 1973 and 1974 interstate sales, we believe the public interest is best served by the elimination from North Penn's rates, effective December 1, 1974, of any costs associated with such tax as may be included in North Penn's November 8, 1974, filing, and accordingly, we shall so order. This action shall be without prejudice to North Penn's filing to recover an amount associated with an actual assessment of the gross receipts tax, when and if such an assessment is made, and without prejudice to any action that may be taken by the Commission upon review of such filing and the comments received in response thereto.

Furthermore, we note that North Penn has included the PGA adjustment of 4.722¢ per Mcf as part of its base tariff rate instead of including the increase in a separate PGA adjustment clause pursuant to Section 154.38 of the Commission's regulations. Moreover, the PGA increase does not include the most recent substitute rates of Consolidated's general rate increase filing, since these rates were not available at the time of North Penn's filing. Accordingly, we shall require North Penn to include in its revised tariff sheets a separate PGA adjustment clause that reflects the cost of the revised Consolidated filing of December 1, 1974.

The Commission finds. (1) North Penn's proposed Second Substitute Twelfth Revised Sheet No. PGA–1 should be accepted for filing subject to the conditions hereinafter ordered.

(2) Good cause exists to grant waiver of § 154.51 of the Commission's regulations.

The Commission orders. (A) North Penn's proposed Second Substitute Twelfth Revised Sheet No. PGA–1 is hereby accepted for filing upon condition that North Penn, within twenty days of the issuance of this order, file revised tariff sheets that reflect the deletion of the gross receipts tax surcharge from the base tariff rate, the inclusion of the PGA increase in a separate PGA clause, and the use of the most recent substitute rates of Consolidated, filed on December 1, 1974.

(B) North Penn's requested waiver of § 154.51 of the Commission's regulations is hereby granted to permit an effective date of December 1, 1974, for the above filing subject to the conditions herein prescribed.

(C) Corning's and NYSEG's motions to reject North Penn's filing of November 8, 1974, are hereby denied.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29320 Filed 12-16-74;8:45 am]

[Docket Nos. RP71-107, Phase II, RP72-127, RP74-9, PGA 75-1]

NORTHERN NATURAL GAS CO.

Tariff Revision Filing

DECEMBER 6, 1974.

Take notice that on November 1, 1974 Northern Natural Gas Company (Northern) tendered for filing Second Revised Sheet No. 502 to Rate Schedule X-34 to become part of its F.P.C. Gas Tariff, Original Volume No. 2.

This sheet is being filed pursuant to the provisions of Article X of the contract which provides that the rate shall be adjusted concurrently with and in an amount equal to the amount by which the commodity rates in Northern's F.P.C. Gas Tariff, Third Revised Volume No. 1 are adjusted by operation of Northern's Gas Purchase Adjustment Clause.

In accordance with the provision of the Purchased Gas Adjustment Clause of Volume No. 1 of its Tariff, Northern has filed a rate adjustment on October 25, 1974 to become effective December 27, 1974, in an amount of 4.55¢ per Mcf. Therefore, Second Revised Sheet No. 502 reflects a rate for volumes delivered to El Paso of 30.06¢ which has been increased 4.55¢ over the rate of 25.51¢ as shown on First Revised Sheet No. 502. This increase in rates reflects the increase in Northern's average estimated cost of purchased gas for the year 1975. December 27, 1974 is the proposed effective date of this tariff sheet.

Northern has also enclosed for filing Substitute Second Revised Sheet No. 502. Northern advises that this tariff sheet provides for an additional PGA increase of one and fifty-six hundredths cents (1.56¢) per Mcf above the 4.55¢ or a total of 6.11¢ per Mcf which was also submitted for filing on October 25, 1974. This additional increase in rates reflects the increase in Northern's average estimated cost of purchased gas for the year 1975 resulting from the application of the proposed nationwide rates for purchased gas as provided in Table II of the Federal Power Commission's "Notice Issuing Staff Rate Recommendation and Prescribing Procedures" issued September 12, 1974, in "Nationwide Rulemaking to Establish Just and Reasonable Rates for Natural Gas Produced from Wells Commenced Before January 1, 1973," Docket No. R–478.

Northern also states that should the Commission issue an Order establishing nationwide rates in Docket No. R–478 by December 27, 1974, they proposed that Substitute Second Revised Sheet No. 502 be effectuated on December 27, 1974 and that Second Revised Sheet No. 502 be withdrawn. If, however, the Commission has not established nationwide rates so as to allow effectuation by December 27, 1974 of Substitute Second Revised Sheet No. 502, they propose the effectuation of Second Revised Sheet No. 502 on December 27, and that Substitute Second Revised Sheet No. 502 be suspended for one day and made effective December 28, 1974, subject to refund.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1974. Protests will be

considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.74-29309 Filed 12-16-74;8:45 am]

[Docket No. RP75-36]

ORANGE AND ROCKLAND UTILITIES, INC., AND TENNESSEE GAS PIPELINE CO.

Complaint

DECEMBER 10, 1974.

Take notice that on November 19, 1974, Orange and Rockland Utilities, Inc. (Complainant), 75 West Route 59, Spring Valley, New York 10977, filed in Docket No. RP75-36 a complaint against Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Defendant), PO Box 2511, Houston, Texas 77001, alleging violation of section 4(b) of the Natural Gas Act as a result of Defendant's discriminatory and preferential implementation of its curtailment plan for sales of natural gas made pursuant to authorizations issued under the Natural Gas Act and requesting that the Commission order the Defendant to deliver certain volumes of gas by which Complainant asserts it was over-curtailed, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

The complaint asserts that Defendant notified Complainant on December 27, 1973, that deliveries would be curtailed within three curtailment periods during 1974 with total deliveries for each period limited to a "curtailment period quantity entitlement" (CPQE) determined by Defendant. Complainant alleges that after notification as to its CPQE for the April 1–October 31 period (curtailment of 2,389,160 Mcf or 19.52 percent of the contract volume limitation for that period) Complainant accelerated curtailment of the specified volume with the result that curtailment was completed prior to September 23, 1974. The complaint states that on September 20, 1974, after alleged losses of production and storage injection during the period of Hurricane Carmen, Defendant imposed a new curtailment for the period September 23, 1974, through October 31, 1974, with Complainant's entitlement set at 1,655,809 Mcf during said period. Complainant asserts that the computation of this new quantity entitlement was premised on the assumption that during the period April 1 through September 22 each customer took a pro rata portion of its CPQE for the full curtailment period (April 1–October 31). The complainant alleges that Defendant's customers did not take pro rata portions but rather implemented their respective original curtailments at varying rates. Complainant asserts it and other customers who also accelerated their curtailment were entitled to receive a volume of gas during the 39-day period greater than the quantity entitlement computed by Defendant.

The complaint states that as a result of its accelerated curtailment and Defendant's failure to take into account actual volumes delivered Complainant has suffered a permanent loss of 452,666 Mcf of gas (the difference between actual accelerated volumes taken and the volume Complainant could have taken during the period of April 1 to September 23 if Complainant had maintained a uniform rate of curtailment). The complaint alleges that such a result is unduly discriminatory to Complainant and preferential to other of Defendant's customers who had not completed their curtailments as of September 23, 1974. Complainant argues that customers who by September 23 had curtailed on a less than pro rata basis have received a windfall. Complainant alleges that Defendant's failure to take into account actual volumes it delivered to Complainant during the period of April 1–September 22, when imposing new curtailment limitations on its customers, constitutes a violation of section 4(b) of the Natural Gas Act. Complainant requests an order by the Commission directing Defendant to deliver to Complainant 452,664 Mcf of gas, in addition to the amount determined to be due under Defendant's current CPQE.

Any person desiring to be heard or to make any protest with reference to said complaint should on or before December 30, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29301 Filed 12-16-74;8:45 am]

[Project No. 637]

PUBLIC UTILITY DISTRICT NO. 1 OF CHELAN COUNTY, WASHINGTON

Order Approving Change in Land Rights

DECEMBER 6, 1974.

On August 27, 1973, Public Utility District No. 1 of Chelan County, Washington, Licensee for Project No. 637, filed an application for Commission approval to convey in fee approximately 4.0 acres of land located within the project boundary to the Washington State Highway Department. The Chelan Project No. 637 is located on the Chelan River in Chelan County, Washington.

Notice of the referenced application was issued on January 3, 1974, with February 25, 1974, being the last date to file protests or petitions to intervene. None were received.

The Washington State Highway Department desires to purchase the aforementioned 4.0 acres, which are located about 1000 feet upstream of the project dam and are contiguous to and within the project reservoir, to construct a proposed highway and bridge across the Chelan River.

According to the Licensee, the proposed use of the land will not be inconsistent with any officially recognized local or regional land use plan. A copy of the proposed instrument of conveyance which accompanied the application states that the Washington State Highway Department acknowledges the rights of the Licensee, its successors and assigns, to use the land for purposes as contemplated by the license as now or hereafter amended.

The proposed instrument of conveyance further states that the use of the land by the Washington State Highway Department will not endanger health, create a nuisance, or otherwise be incompatible with overall project recreational use, in accordance with paragraph (C) of the Commission Order No. 313 issued December 27, 1965, (34 FPC 1546, 1549–1550).

We further determine that as a condition for approval of the application the Licensee must submit a revised Exhibit K for Project No. 637, depicting the location of the bridge.

Based on our review of the application, we conclude that our approval of the conveyance of the project lands is not a major Federal action having a significant impact on the quality of the human environment; therefore, there is no need for preparation of an environmental impact statement. Further, in this connection we note that the Washington State Highway Department, which has convened hearings, has prepared draft and final environmental impact statements regarding the proposal. The final Environmental Impact Statement, which was issued October 24, 1972, was concurred in by the Federal Highway Administration.

The conveyance of the above referenced acreage to the Washington State Highway Department will be in the public interest in that the 4.0 acres of project land will be used by the Washington State Highway Department to construct a highway and bridge across Lake Chelan, thereby facilitating traffic flow. Also as a consequence of this conveyance, the Washington State Highway Department has agreed to aid in future recreational development by increasing public access with the construction of a public walkway across the new highway right-of-way on both sides of the river.

The Commission finds. (1) It is appropriate and consistent with the public

interest that Licensee's application for change in land rights should be approved, thereby permitting Licensee to convey approximately 4.0 acres of project land to the Washington State Highway Department.

(2) Approval of this application for a change in land rights is not a major Federal action which would significantly affect the quality of the human environment; consequently no environmental impact statement is required.

The Commission orders. (A) The application for a change in land rights is hereby approved, thereby permitting the Licensee for Chelan Project No. 637 to convey approximately 4.0 acres of project land to the Washington State Highway Department: Provided, Licensee file a revised Exhibit K showing the location of the new bridge within 6 months after construction of the bridge is completed; and Provided further that the instrument of conveyance contains a covenant in accordance with paragraph (C) of Commission Order No. 313, issued December 27, 1965, (34 FPC 1546, 1549–1550).

(B) Applicant shall file with the Commission for its records a copy of the executed instrument within 60 days of its execution.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. CP-74-304]

SECRETARY OF THE ARMY AND CITIES SERVICE GAS CO.

Extension of Procedural Dates

DECEMBER 9, 1974.

On November 22, 1974, Cities Service Gas Company filed a motion to extend the procedural dates fixed by order issued September 4, 1974, as most recently modified by notice issued November 1, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Testimony and Exhibits of Applicant and Respondent, December 20, 1974.
Hearing, January 20, 1975 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29298 Filed 12-16-74;8:45 am]

[Docket No. CP75-163]

SOUTHERN NATURAL GAS CO.

Application

DECEMBER 10, 1974.

Take notice that on November 29, 1974, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP75-163 an application pursuant to section 7(c) of the National Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities for the transportation of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate, at an estimated cost of $2,448,475 to be financed from bank loans which will be repaid from cash on hand, facilities in St. Mary Parish, Louisiana, which will allow it to receive gas produced in South Marsh Island Blocks 268, 269 and 281, offshore Louisiana. Applicant states that Trunkline Gas Company (Trunkline) has agreed to transport up to 140,000 Mcf of gas per day from the South Marsh Island blocks to a point near Applicant's Shadyside Compressor station in St. Mary Parish.

In order to receive the subject gas Applicant proposes to construct approximately 1½ miles of 18-inch pipeline extending from the point of interconnection with Trunkline's 30-inch pipeline in St. Mary Parish to Shadyside, 3,600 horsepower of compression at Shadyside, which will be installed as needed as volumes of gas build up through delivery from the South Marsh Island blocks, and receiving facilities. According to Applicant, Trunkline's transportation of the subject gas is the subject of Trunkline's application in Docket No. CP75-149.

Applicant states that it has a real and urgent need for the reserves of natural gas which will eventually flow through the proposed facilities and that the facilities proposed in the instant docket will not result in expansion of Applicant's sales or service.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9133]

SOUTHERN SERVICES, INC.

Filing of Amendment to Interconnection Agreement

DECEMBER 10, 1974.

Take notice that on November 27, 1974, Southern Services, Inc. (Southern), on behalf of Alabama Power Company, Georgia Power Company, Gulf Power Company, and Mississippi Power Company tendered for filing an amendment to their interchange agreement, which amendment, according to Southern, provides for the continuing exchange of power and equitable participation in the benefits arising from integrated operation. According to Southern, copies of the agreement were mailed to Alabama Power Company, Georgia Power Company, Gulf Power Company and Mississippi Power Company. Southern requests that the proposed contract charges be made effective January 1, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before December 26, 1974. Protests will be considered by the

Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29314 Filed 12-16-74;8:45 am]

[Docket No. CP75-165]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

DECEMBER 10, 1974.

Take notice that on December 4, 1974, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP75-165 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for South Jersey Gas Company (South Jersey), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that to augment in part natural gas deliveries which are currently being curtailed by Applicant, South Jersey, an existing customer of Applicant, has entered into arrangements with Chattanooga Gas Company (Chattanooga) and Piedmont Natural Gas Company (Piedmont), an existing customer of Applicant, whereunder South Jersey will purchase liquefied natural gas (LNG) from Chattanooga [1] and transport the LNG by truck to Piedmont, where the LNG will be vaporized and delivered by displacement into Applicant's system for transportation. The transportation by Applicant would occur between authorized points of delivery to Piedmont and authorized points of delivery to South Jersey.

Applicant states that South Jersey will purchase from Chattanooga a vaporous gas equivalent of between 200,000 and 330,000 Mcf from December 1, 1974, to April 1, 1975. Daily volumes to be vaporized by Piedmont and transported by Applicant are estimated to be between 3,000 and 4,000 Mcf. Applicant requests authorization to transport the gas between December 1, 1974, and April 1, 1975. Applicant states that it will retain 5 percent of the transportation volumes as compensation of compressor fuel and line loss and that it will charge South Jersey 11 cents per Mcf delivered to South Jersey.[2]

[1] The application states that the sale to Chattanooga to South Jersey will be made under authorization granted in Docket No. CP 75-139.

[2] The application states that 11 cents per Mcf represents one-half of Applicant's normal charge of 22 cents per Mcf for interruptible transportation from Gulf Coast gas supply areas into Rate Zone 3 where South Jersey is located. The distance for the proposed transportation service is said to be approximately one-half of said distance.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 31, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-29285 Filed 12-16-74;8:45 am]

FEDERAL RESERVE SYSTEM

ALLIED BANCSHARES, INC.

Approved Acquisition of Bank

Allied Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The Kirbyville State Bank of Kirbyville, Kirbyville, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of the successor organization is treated herein as the proposed acquisition of Bank.

Notice of the receipt of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act by publication in the FEDERAL REGISTER (39 FR 38941). The time for filing comments and views has expired, and the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board, has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the tenth largest banking organization in Texas, presently controls nine subsidiary banks with aggregate deposits of $621.7 million, or 1.61 percent of the total commercial bank deposits in Texas.[3] Approval of the present acquisition would not produce a significant increase in the concentration of banking resources in Texas.

Bank is situated in the Jasper County banking market, which is located about 50 miles north of Beaumont in southeast Texas, and which is approximated by Jasper County. Bank, the third largest of four banks in the market, holds deposits of $7.1 million, representing 18.0 percent of market deposits. The proposed acquisition of Bank represents Applicant's initial entry into the market. Applicant's closest existing banking subsidiary lies 73 miles to the southeast, and its nearest proposed banking subsidiary is 42 miles away. The distances involved effectively negate the probability of existing competition between Bank and any of the Applicant's subsidiaries. The prospect of the development of such competition is greatly lessened by the distances involved and Texas' prohibitive branching laws. Applicant's entry into the market by means of a proposed new bank is considered highly unlikely; Jasper County, with a ratio of population to banking office and a figure for per capita deposits which are significantly far below the statewide averages, is considered unattractive to de novo entry. Also, the barriers to entry would not become greater, for other banks of comparable size remain available as alternative potential points of entry. Accordingly, on the basis of the record, the Federal Reserve Bank of Dallas concludes that consummation of the proposed transaction would not have significantly adverse effects on competition.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank are regarded as generally satisfactory and consistent with approval, especially in light of Applicant's proposed program for augmentation of the capital structure of certain of its subsidiary banks. Although there is no evidence in the record that

[3] All banking data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved through November 15, 1974. On December 6, 1974, the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board, has approved Applicant's proposed acquisitions of American Bank and Trust Company, Houston, Texas (deposits of $42.8 million), and Security Bank, Spring, Texas (deposits of $14.2 million).

the banking needs of the community are not presently being met, affiliation with Applicant will provide Bank with increased financial resources and banking expertise to permit Bank to expand and improve the banking services offered and will give Bank greater access to new sources of capital. Accordingly, considerations relating to the convenience and needs of the community to be served are regarded as consistent with approval of the application. It is therefore the judgment of the Federal Reserve Bank of Dallas that the proposed acquisition is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order, or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board of Governors, effective December 6, 1974.

[SEAL] ROBERT H. BOYKIN,
Secretary.

[FR Doc.74-29271 Filed 12-16-74;8:45 am]

ALLIED BANCSHARES, INC.

Approved Acquisition of Banks

Allied Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successors by merger to American Bank and Trust Company, Houston, Texas ("American Bank"), and Security Bank, Spring, Texas ("Security Bank"). The banks into which American Bank and Security Bank are to be merged have no significance except as means to facilitate the acquisitions of the voting shares of American Bank and Security Bank. Accordingly, the proposed acquisitions of the successor organizations are treated herein as the proposed acquisitions of American Bank and Security Bank.

Notices of the receipt of the applications, affording opportunity for interested persons to submit comments and views, have been given in accordance with section 3(b) of the Act by publication in the FEDERAL REGISTER (39 FR 38941). The time for filing comments and views has expired, and the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board, has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the tenth largest banking organization in Texas, presently controls nine subsidiary banks with aggregate deposits of $621.7 million, or 1.61 percent of the total commercial bank deposits in Texas.[1] Approval of the present acquisitions would not produce a significant increase in the concentration of banking resources in Texas.

American Bank and Security Bank are situated within the Houston banking market, which is approximated by the Houston SMSA, which is comprised of Harris County and five adjacent counties. American Bank, the 28th largest of 169 banks in the market, has deposits of $42.8 million, representing 0.5 percent of market deposits. Security Bank has deposits of $14.2 million, representing a 0.2 percent share of market deposits, and is the 79th largest bank in the market. With one exception, the distances separating American Bank and Security Bank from each other and from Applicant's banking subsidiary are in excess of 15 miles, the exception being the separation of American Bank from Applicant's lead bank by 3 miles. Although Applicant is the fourth largest banking organization operating in the Houston market, with six banking subsidiaries controlling deposits of $495.3 million, or 5.3 percent of total market deposits, it is much smaller than the three largest banking organizations in the market, which respectively control 20.0, 17.0, and 10.4 percent of total market deposits. Consummation of the proposed transactions would have only a negligible impact upon existing competition among American Bank, Security Bank, Applicant's subsidiaries, and other banks in the market, in light of the relatively small increase of Applicant's share of market deposits to 6.0 percent and the resultant continuation of the disparity of size between Applicant and the three larger banking organizations in the market. The prospect of competition developing between any one of Applicant's subsidiaries and either American Bank or Security Bank is greatly lessened by the large number of competitors in the market and Texas' prohibitive branching laws. Neither bank is of sufficient size to enable it to be considered as a potential lead bank of a holding company. Furthermore, barriers to entry into the market would not be increased, for numerous other medium-sized banks remain as attractive potential entry points. Accordingly, on the basis of the record, the Federal Reserve Bank of Dallas concludes that consummation of the proposed acquisitions would not have significant adverse effects on competition.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, American Bank and Security Bank are regarded as generally satisfactory and consistent with approval in view of the additions of equity capital in the amounts of $200,000 to American Bank and $300,000 to Security Bank, Applicant's purchase of $400,000 of existing debentures of Security Bank, and Applicant's commitment to maintain adequate capital in each of its existing and proposed subsidiaries. Although there is no evidence in the record that the banking needs of the communities involved are not adequately being served, affiliation with Applicant should enable American Bank and Security Bank to expand and improve the banking services offered and to enjoy greater access to sources of new capital. Accordingly, considerations of the convenience and needs of the communities to be served are regarded as consistent with approval. It is the judgment of the Federal Reserve Bank of Dallas that the proposed acquisitions are in the public interest and that the applications should be approved.

On the basis of the record as summarized above, the Federal Reserve Bank of Dallas approves the applications, provided that the transactions shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective December 6, 1974.

[SEAL] ROBERT H. BOYKIN,
Secretary.

[1] All banking data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved through November 15, 1974.

BROWNSVILLE COMMERCE BANK

Approved Application for Merger of Banks

Brownsville Commerce Bank, Brownsville, Texas, a proposed State member bank of the Federal Reserve System, has applied for the Board's approval, pursuant to the Bank Merger Act (12 U.S.C. 1842(c)), of the merger of that bank with Pan American Bank, Brownsville, Texas, under the name of Pan American Bank.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application in light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's Order of this date relating to the application of Texas Commerce Bancshares, Inc., Houston, Texas, to acquire the successor by merger to Pan American Bank, Brownsville, Texas, provided that said merger shall not be made (a) before the thirtieth calendar day following the date of this Order, or (b) later than three months after the date of this Order, unless such period is extended for good

cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 6, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-29276 Filed 12-16-74;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of September 10, 1974

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on September 10, 1974.[1]

The information reviewed at this meeting suggests that real output of goods and services is changing little in the current quarter, following the first-half decline, and that price and wage increases are continuing large. In August industrial production, according to preliminary indications, remained near the level of recent months, while the unemployment rate edged up to 5.4 per cent. Wholesale prices of farm products rose further, on average, and announcements of increases for industrial commodities continued numerous.

In recent weeks the dollar has continued to appreciate against leading foreign currencies. U.S. bank lending to foreign borrowers diminished in July and apparently also in August, while inflows from abroad increased. The foreign trade deficit, which had narrowed in June, widened in July.

In August growth of the narrowly defined money stock was above the low pace of July but well below the 6 per cent annual rate of the first half of the year. Net inflows of time deposits other than money market CD's continued at about the July rate, but the performance of passbook savings at banks—and of total deposits at nonbank thrift institutions—remained weak. Although growth in business loans remained relatively strong in August, growth in total bank credit was moderate, and banks reduced their reliance on large-denomination CD's and nondeposit funds. Interest rates on most short-term market instruments have changed little on balance since mid-August, while rates on most types of longer-term securities have risen further. On September 4 the Federal Reserve announced the removal of the 3 per cent marginal reserve requirement on longer-term large-denomination CD's.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to resisting inflationary pressures, supporting a resumption of real economic growth, and achieving equilibrium in the country's balance of payments.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, December 9, 1974.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.74-29273 Filed 12-16-74;8:45 am]

[1] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns.

[1] The Record of Policy Actions of the Committee for the meeting of September 10, 1974, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FEDERAL OPEN MARKET COMMITTEE

Special Authorization Relating to Foreign Currency Operations

In accordance with § 271.5 of its rules regarding availability of information, notice is given that on September 25, 1974 the Committee approved the following special authorization:

The Federal Reserve Bank of New York is authorized and directed, under the provisions of 270.4(c) of the Regulation relating to Open Market Operations of Federal Reserve Banks, to engage in such open market transactions in foreign currencies, including transactions for the System Open Market Account, as may be necessary to carry out the arrangements that have been made by the Federal Reserve Bank of New York, with the concurrence of the Board of Governors of the Federal Reserve System, for the disposition of assets and liabilities of the Franklin National Bank.

By order of the Federal Open Market Committee, December 9, 1974.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.74-29273 Filed 12-16-74;8:45 am]

FIRST CITY BANCORPORATION OF TEXAS, INC.

Acquisition of First City Life Insurance Co.

First City Bancorporation of Texas, Inc., Houston, Texas, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of First City Life Insurance Company, Houston, Texas. Notice of the application was published on:

Date	Newspaper	City and State
Oct. 30, 1974	Corpus Christi Caller	Corpus Christi, Tex.
Do.	The Corpus Christi Times	Do.
Do.	Dallas Times Herald	Dallas, Tex.
Do.	El Paso Times	El Paso, Tex.
Nov. 5, 1974	The Houston Post	Houston, Tex.
Do.	The Midland Reporter-Telegram	Midland County, Tex.
Do.	The Orange Leader	Orange County, Tex.
Do.	The Paris News	Paris, Tex.
Do.	San Angelo Standard-Times	San Angelo, Tex.

Applicant states that the proposed subsidiary would engage de novo in the activity of acting as an underwriter for credit life insurance and credit accident and health insurance which is directly related to extensions of credit by banks in the holding company system. Mortgage redemption and mortgage cancellation insurance will not be underwritten. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than January 7, 1975.

Board of Governors of the Federal Reserve System, December 6, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.74-29270 Filed 12-16-74;8:45 am]

FIRST UNITED BANCORPORATION, INC.

Acquisition of Bank

First United Bancorporation, Inc., Fort Worth, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire an additional 15,861 voting shares of University Bank, Fort Worth, Texas ("Bank"). The proposed acquisition is to be effected through the conversion of debentures of Bank, currently held by Applicant, into voting shares of Bank. Applicant currently controls approximately 37 percent of Bank's voting shares. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 9, 1975.

Board of Governors of the Federal Reserve System, December 9, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.74-29277 Filed 12-16-74;8:45 am]

SECURITY BANKSHARES, INC.

Approved Acquisition of Bank

Security Bankshares, Inc., Waco, Texas, a bank holding company within

the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent, less directors' qualifying shares, of City State Bank in Wellington, Wellington, Texas.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views, and the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board, has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is at present a one-bank holding company ranking 968th largest of 1109 banking organizations in Texas; Applicant through its single subsidiary bank controls aggregate deposits of approximately $3.3 million, representing 0.009 percent of total commercial bank deposits in Texas.[1] Approval of this application would increase Applicant's share of statewide deposits by less than 0.1 of 1 percent and would have no appreciable effect upon the concentration of banking resources in the State.

Bank is the smaller of the two banks in the Collingsworth banking market (approximated by Collingsworth County), located 96 miles southeast of Amarillo in the Texas Panhandle, and holds approximately $4.9 million in deposits, or about 24.5 percent of total commercial bank deposits in the market. Applicant's present single subsidiary is not in the Collingsworth banking market and is located 31 miles east of Bank; there is no substantial existing competition between Bank and Applicant's present subsidiary due to such geographic separation. In view of the distances involved and Texas' prohibitive branching laws, it is unlikely that any such competition will develop. Barriers to entry into the market would be no higher after the acquisition than now exist, even though the market is unattractive to de novo entry, as indicated by a county population which is declining and by a ratio of population to banking offices which is far below the statewide average. Bank's relatively small size precludes its being considered as the potential lead bank of a holding company structure. Also, the principal shareholders of Applicant are the present majority shareholders of Bank, and disaffiliation is considered unlikely. The transaction therefore involves a formalization of the control of Bank. The Federal Reserve Bank of Dallas therefore concludes that consummation of the proposed acquisition would not have a significant adverse effect on existing or potential competition.

The financial and managerial resources and future prospects of Applicant, its subsidiary, and Bank are regarded as generally satisfactory in light of Applicant's recent infusion of $150,000 of equity funds with its present subsidiary and Applicant's proposed addition of $150,000 of equity funds to the capital structure of Bank. Applicant's acquisition of Bank would improve Bank's access to capital markets as a member of a bank holding company and would facilitate the continuation of Bank's existing loan participation with Applicant's present subsidiary bank. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the judgment of the Federal Reserve Bank of Dallas that the proposed acquisition is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board of Governors, effective December 5, 1974.

[SEAL] ROBERT H. BOYKIN,
Secretary.

[FR Doc.74-29270 Filed 12-16-74;8:45 am]

TEXAS COMMERCE BANCSHARES, INC.

Approved Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Pan American Bank, Brownsville, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Texas, controls 23 banking subsidiaries with aggregate deposits of approximately $2.3 billion, representing about 5.9 percent of the total deposits in commercial banks in the State.[1] Acquisition of Bank (deposits of $57.3 million) would increase Applicant's share of deposits in the State by less than .2 of one percent.

Bank, the third largest of nine banks in the Brownsville Market,[2] holds approximately 18 percent of the total commercial bank deposits in the market. Applicant has no subsidiary in the market and its nearest subsidiary bank is approximately 160 miles north of Brownsville. Thus, it appears that no existing competition would be eliminated as a result of consummation of the proposal. Moreover, due primarily to the distances involved and the restrictive State branching laws, it does not appear that any significant competition would develop between Bank and any of Applicant's banking subsidiaries. In addition, two new banks have opened in the Brownsville banking market since December 31, 1973, and two more banks were recently chartered for this market, reducing the population per banking office ratio and making the market only moderately attractive to de novo entry. Ease of entry into the Brownsville market, however, would not be significantly diminished by consummation of the subject proposal as six independent banks would remain as potential entry vehicles for other bank holding companies. Also, Bank is not large enough to be considered a potential lead bank of a holding company structure. Accordingly, on the basis of the facts of record, the Board concludes that consummation of the proposed acquisition would not have a significant adverse effect on existing or potential competition.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank are regarded as generally satisfactory and consistent with approval of the application, particularly in view of Applicant's plans to increase the capital of Bank. Applicant's acquisition of Bank would give Bank access to Applicant's wide range of banking expertise, particularly in the areas of international banking, leasing, real estate financing, and trust services. These considerations relating to the convenience and needs of the community to be served lend weight toward approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

NATIONAL SCIENCE FOUNDATION

SCIENCE ADVISORY STAFFS

Notice of Meeting

In order to improve channels of communication with members of scientific and professional societies, the Science Advisory Staffs hold informal discussions from time to time with various representatives of these societies to discuss issues of mutual interest. While these ad hoc informal discussions with the Science Advisory Staffs are not considered to be meetings of "advisory committees" as that term is defined in section 3 of the Federal Advisory Committee Act (Pub. L. 92-436, these sessions are believed to be of sufficient importance and interest to the general public to have them opened for public attendance and observation.

A meeting of representatives of various scientific and professional societies with the Science Advisory Staffs is scheduled to be held on Tuesday, December 17, 1974, at the National Science Foundation, Room 543, 1800 G Street, NW., Washington, D.C. 20550. The meeting will begin at 9 o'clock a.m. and will conclude at or about 4 o'clock p.m. The subject matters for discussions include: Science Information Policy in the following areas:

1. Journals and abstract services.
2. Data handling, storage and retrieval.
3. Applicable communications technology.
4. National coordination considerations.

Members of the public are invited to observe this meeting. Space will be available on a first-come basis. Public participation is limited to questions or statements submitted to the Chairman in writing or to such oral presentations as the Chairman may permit within available time. Persons wishing to attend such meeting are requested to either write or phone Mr. Richard L. Stone, Science and Technology Policy Office, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550, telephone 202-632-4250.

Dated: December 5, 1974.

RUSSELL C. DREW,
Director, Science and Technology Policy Office.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 12/12/74 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received: The name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-3062]

ALL AMERICAN BURGER, INC.

Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

NOVEMBER 21, 1974.

I. The All American Burger, Inc. ("All American") 11546 North Western Avenue, Los Angeles, California 90027, incorporated in California on August 23, 1968, filed with the Commission on August 7, 1972, a Notification on Form 1-A and Offering Circular relating to an offering of 80,000 shares of $.10 par value common stock at $3.00 per share. The aggregate offering price was $240,000. The filing was made for the purpose of obtaining an exemption from the registration

[1] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns.

XUM
DEC 17 1974 V 43

provisions of the Securities Act of 1933, pursuant to section 3(b) thereof and Regulation A thereunder. Daniel Reeves & Co., a registered broker-dealer, having its principal place of business at 9090 Wilshire Boulevard, Los Angeles, California 90024, was named as underwriter of the offering. The offering commenced on October 31, 1972, and ended on December 29, 1972, with all 60,000 shares sold.

II. The Commission on the basis of information provided by its staff, has reason to believe that:

A. The Notification and Offering Circular of All American contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading particularly with respect to:

1. The failure to disclose the existence of a written agreement with All American's franchisee which served as an inducement for the payment of the balance due on the sale of the franchise;

2. The failure to disclose that the payment of the full franchise fee occasioned by this agreement was contingent upon the successful completion of the offering;

3. The failure to disclose that the payment occasioned by this agreement with All American's franchisee was placed in an escrow account from which it could not be released until the franchisee gave his consent;

4. The Statement of Operations for the period ended June 30, 1972, which by including a $50,000 franchise sale overstated All American's operating results for that period by $35,150. As a result, All American showed an operations profit of $14,663 instead of what ought to have been a loss of $20,487; and

5. The Balance Sheet for the period ended June 30, 1972, which by not treating the $50,000 franchise sale as a current liability, gave All American the appearance of having a positive current ratio instead of a negative current ratio.

B. The terms and conditions of Regulation A have not been met in that:

1. The offering circular failed to disclose an agreement between the issuer and its franchisee relating to payment for the balance due on the franchise sale; and that the payment was contingent upon successful completion of the offering;

2. The financial statements were not prepared in accordance with generally accepted accounting principles as required by Item 11 of Schedule I as discussed in part II herein.

C. The offering was made in violation of section 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of All American under Regulation A be temporarily suspended,

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be and hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within thirty days of the entry thereof;

Notice is hereby given that any person having interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.74-29359 Filed 12-16-74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Delaying Amendment to Proposed Amendments to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed an amendment delaying the effectiveness of certain of its proposed new rules and rules amendments and deletions to its Option Plan filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934. CBOE's amendment delays the effectiveness of these proposed amendments until the Commission may allow their effectiveness or shall disapprove the changes in whole or in part as being inconsistent with the public interest or the protection of investors. The proposed changes were originally published at 39 FR 40203 on November 14, 1974.

The proposed CBOE rules changes are necessary because of the proposed changes in the By-Laws and rules of the Chicago Board Options Exchange Clearing Corporation.

The changes are as follows:

Amendments to Rules 1.1(d), 1.1(m), 4.9, 4.11, 4.12, 4.13, 4.14, 4.15, 4.16, 4.20, 5.2, 5.3, 5.5, 5.6, 5.7, 6.40, 6.50, 6.51(d), 9.7(c), 9.17, 10.2, 11.1, 12.3(a)(5), 12.3(g), 12.3(c), 12.4, 13.4 15.2 and 15.3;

New Rules 6.55, 6.56, 6.57, 6.58 and 6.59;

Deletions of Rules 11.4, 12.4 and 12.5.

All interested persons are invited to submit their views and comments on the proposed new rules and rules amendments and deletions to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capital Street, Washington, D.C. 20549. Reference should be made to file number 10-94. The proposed new rules and rules amendments and deletions are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

GEORGIA POWER CO.

Proposal by Subsidiary Utility Company To Deliver Letter of Indemnity to Another Subsidiary Utility Company in Same Holding Company System

Notice is hereby given that Georgia Power Company ("Georgia"), 270 Peachtree Street, NW., Atlanta, Georgia 30303, an electric utility subsidiary company of The Southern Company, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 12(b) thereunder as applicable to the following proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Georgia and Alabama Power Company ("Alabama"), which is also an electric utility subsidiary company of The Southern Company, each own 50 percent of the outstanding stock of Southern Electric Generating Company ("SEGCO"). To assist SEGCO in financing pollution control facilities at its Ernest C. Gaston Steam Plant through the issuance of pollution control revenue bonds by The Industrial Development Board of the Town of Wilsonville, Alabama ("Board"), Alabama has proposed to guarantee certain payments to be made by SEGCO to the Board. The guaranty and the agreement between SEGCO and the Board are the subject of a separate filing with the Commission (Holding Company Act Release No. 18323).

Georgia now proposes to deliver a letter to Alabama pursuant to which it will agree to indemnify Alabama, on a pro rata basis based on Georgia's equity ownership of SEGCO, for any payments made by Alabama to the Board under the guaranty agreement. The letter of indemnity provides that Georgia's commitment thereunder will terminate at any time Georgia ceases to own an interest in SEGCO.

The fees, expenses and commissions incurred in connection with the proposed transaction will be in the aggregate amount of $3,500. The Georgia Public Service Commission has jurisdiction over the delivery by Georgia of its letter of indemnity. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than January 3, 1975, request in writing that a hearing

be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules under the Act as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74-29357 Filed 12-16-74;8:45 am]

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 17, Rev. 1]

ASSISTANT ADMINISTRATOR FOR MANAGEMENT ASSISTANCE

Delegation of Authority

Pub. L. 93-386 (August 23, 1974) repeals Title IV of the Economic Opportunity Act of 1964 and amends the Small Business Act to include those provisions of the EO Act which provide technical or management assistance with special attention to small business located in urban areas of high concentration of unemployed or low-income individuals or owned by low-income individuals. Delegation of Authority No. 17 (39 FR 29445) is accordingly revised as follows:

I. Pursuant to the authority vested in the Administrator by the Small Business Act, 72 Stat. 384, as amended, and the Small Business Investment Act of 1958, 72 Stat. 689, as amended, there is hereby delegated to the Assistant Administrator for Management Assistance the following authority:

A. *Technical or Management Assistance (406 Program).* 1. To execute grants, agreements, and contracts to provide financial assistance to public or private organizations to pay all or part of the costs of projects designed to provide technical or management assistance to individuals or enterprises eligible for assistance under subsections 7(i) and (j) of the Small Business Act, as amended, with special attention to small business located in urban or rural areas of high concentration of unemployed or low-income individuals or owned by low-income individuals.

Such financial assistance may be provided for projects including without limitation:

a. Planning and research, including feasibility studies and market research;

b. The identification and development of new business opportunities;

c. The furnishing of centralized services with regard to public services and Government programs, including programs authorized under subsection 7(i) of the Small Business Act, as amended;

d. The establishment and strengthening of business service agencies, including trade associations and cooperatives;

e. The encouragement of the placement of subcontracts by major businesses with small business concerns located in urban areas of high concentration of unemployed or low-income individuals or owned by low-income individuals, including the provision of incentives and assistance to such major businesses so that they will aid in the training and upgrading of potential subcontractors or other small business concerns; and

f. The furnishing of business counseling, management training, and legal and other related services, with special emphasis on the development of management training programs using the resources of the business community, including the development of management training opportunities in existing businesses, and with emphasis in all cases upon providing management training of sufficient scope and duration to develop entrepreneurial and managerial self-sufficiency on the part of the individuals served.

II. The authority delegated herein may be redelegated to Central Office officials.

III. All authority delegated herein may be exercised by any Small Business Administration employee designated as Acting Assistant Administrator for Management Assistance.

Effective date: August 23, 1974.

THOMAS S. KLEPPE,
Administrator.

Office of the Secretary

ADAMSTON DIVISION AND HARDING DIVISION, FOURCO GLASS CO.

Worker Request for Certification of Eligibility To Apply for Adjustment Assistance; Investigation

A petition requesting certification of eligibility to apply for adjustment assistance has been filed on December 4, 1974, with the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, by the United Glass and Ceramic Workers of North America, AFL-CIO, and the Window Glass Cutters League of America, AFL-CIO, on behalf of workers and former workers of the Adamston Division, Clarksburg, West Virginia and the Harding Division, Fort Smith, Arkansas of the Fourco Glass Company, Clarksburg, West Virginia. The request for certification is made under Proclamation 3967 (Adjustment of Duties on Certain Sheet Glass) of February 27, 1970. In that Proclamation the President, among other things, acted to provide under section 302(a)(3) with respect to the sheet glass industry that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance, under Chapter 3, Title III, of the Trade Expansion Act of 1962.

XUM
DEC 17 1974
XUM

The Act, section 302(b)(2), provides that the Secretary of Labor shall certify as eligible to apply for adjustment assistance under Chapter 3 any group of workers in an industry with respect to which the President has acted under section 302(a)(3), upon a showing by such group of workers to the satisfaction of the Secretary of Labor that the increased imports (which the Tariff Commission has determined to result from concessions granted under trade agreements) have caused or threatened to cause unemployment or underemployment of a significant number or proportion of workers of such workers' firm or subdivision thereof.

In view of the petition and the responsibilities of the Secretary of Labor, the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.11. The investigation relates, as above indicated, to the determination of whether any of the group of workers covered by the request should be certified as eligible to apply for adjustment assistance, including the determinations of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart C of 29 CFR Part 90.

Interested persons should submit written data, views or arguments relating to the subjects of investigation to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. 20210, on or before December 19, 1974.

Signed at Washington, D.C., this 5th day of December 1974.

GLORIA G. VERNON,
Director, Office of Foreign Economic Policy.

[FR Doc.74-29286 Filed 12-16-74;8:45 am]

WEISS-LAWRENCE, INC., DOVER, NEW HAMPSHIRE

Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of November 8, 1974, the U.S. Tariff Commission made a report of the results of its investigation (TEA-W-246) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance submitted on behalf of former workers of Weiss-Lawrence, Inc., Dover, New Hampshire. In this report the Commission found that articles like or directly competitive with footwear for women, misses and children produced by Weiss-Lawrence, Inc., are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

Upon receipt of the Tariff Commission's affirmative finding, the Department, through the Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs, instituted an investigation.

Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342; 37 FR 2472; 39 FR 40626; 29 CFR Part 90). In the recommendation she noted that concession generated imports like or directly competitive with women's and misses' footwear produced by Weiss-Lawrence, Inc. increased substantially. In 1973 and 1974 company sales, which consisted mainly of women's and misses' footwear, declined sharply as customers increasingly shifted their purchases to foreign producers. Company attempts to obtain new accounts were unsuccessful in major part because imports were capturing greater shares of the women's and misses' footwear market. The company ceased production in August 1974 when profitable operations were no longer possible. Significant unemployment or underemployment at Weiss-Lawrence, Inc. caused in major part by increased imports began in June 1973. Eight workers of the company are still engaged in employment related to the women's and misses' footwear business but they will be laid off in the near future unless company plans to resume production materialize. As long as these workers are performing duties at the company related to the women's and misses' footwear business, their employment is threatened by import competition. After due consideration, I make the following certification:

All hourly, piecework and salaried workers of Weiss-Lawrence, Inc., Dover, New Hampshire, engaged in the production of women's, misses' or children's footwear, who became unemployed or underemployed after June 2, 1973 and before November 23, 1974 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962, except that the following identified employees of Weiss-Lawrence, Inc. shall be eligible to apply for adjustment assistance even if they become unemployed or underemployed on or after November 23, 1974.

NAME AND LAST KNOWN ADDRESS

[AB 26 (Sub-No. 5)]

GEORGIA NORTHERN RAILWAY CO.

Abandonment of Operations Between Albany and Cordele, in Dougherty, Lee, Worth and Crisp Counties, Georgia

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Crisp, Dougherty and Worth Counties, Ga., within 15 days of the date of service of this order, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the Federal Register.

Dated at Washington, D.C., this 2nd day of December, 1974.

By the Commission, Commissioner Tuggle.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[AB 26 (Sub-No. 5)]

GEORGIA NORTHERN RAILWAY COMPANY ABANDONMENT OF OPERATIONS BETWEEN ALBANY AND CORDELE, IN DOUGHERTY, LEE, WORTH AND CRISP COUNTIES, GEORGIA

The Interstate Commerce Commission hereby gives notice that by order dated December 2, 1974, it has been determined that the proposed abandonment of operations by the Georgia Northern Railway Company of its line between Albany in Dougherty County and Cordele in Crisp County, a distance of approximately 33 miles, all in Dougherty, Lee, Worth, and Crisp Counties, Ga., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was considered, among other things, that the environmental effects of the proposed abandonment of operations are not considered significant because (1) no traffic has moved in the past 10 years over the Albany-Warwick segment which is about two-thirds of the line, (2) the amount of traffic has been low handled over the remaining segment between Warwick and Cordele and (3) there are adequate Federal, State and local highways serving the affected area. In addition, any resultant diversion from rail to motor carrier service will not have significant adverse impacts in the area involved.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-3965.

Interested parties may comment on this matter by the submission of representations to the Interstate Commerce Commission, Washington, D.C. 20423, on or before January 2, 1975.

[Notice 369]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 17, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted), filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 6, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75197. By order of December 5, 1974, the Motor Carrier Board on reconsideration approved the transfer to East Kentucky Theatre Service, Inc., Pikeville, Ky., of the operating rights in Certificates Nos. MC-111166 and MC-111166 (Sub-No. 4) issued November 21, 1957, and October 30, 1956, to Truly Francis, doing business as East Kentucky Theatre Service, Garrett, Ky., authorizing the transportation of newspapers, motion picture films, theatrical posters, displays, and advertising material; and parts for motion picture projectors, over irregular routes, between Cincinnati, Ohio, on the one hand, and, on the other, named points in Kentucky, and over regular routes between certain points in Ohio and Kentucky. Ollie L. Merchant, Suite 202, 140 South Fifth Street, Louisville, Ky. 40202, attorney for applicants.

No. MC-FC-75519. By order entered 12.5.74, the Motor Carrier Board approved the transfer to Willard Wassel, Scranton, Pa., of that portion of the operating rights set forth in Certificate No. MC-67402, issued May 1, 1963, to Thomas Gerrity, Scranton, Pa., authorizing the transportation of household goods, as defined by the Commission, between Scranton, Pa., on the one hand, and, on the other, points in New Jersey, and points in the New York, N.Y., Commercial Zone, as defined by the Commission; and between Scranton and Clarks Summit, Pa., on the one hand, and, on the other, points in New York. Kenneth R. Davis, 999 Union St., Taylor, Pa. 18517, practitioner for applicants.

No. MC-FC-75531. By order entered 12.5.74, the Motor Carrier Board approved the transfer to Eddy Transfer Company, Inc., Port Chester, N.Y., of that portion of the operating rights set forth in Certificate No. MC-94901, issued March 16, 1960, to Eddy Moving & Storage Co., Inc., Port Chester, N.Y., authorizing the transportation of household goods as defined by the Commission, between points in Westchester County, N.Y., and those in Connecticut within ten miles of Port Chester, N.Y., on the one hand, and, on the other, points in New York, Connecticut, Massachusetts, Rhode Island, and New Jersey. William P. Jackson, Jr., 919 Eighteenth St., NW., Washington, D.C. 20006, attorney for applicants.

No. MC-FC-75530. By order of December 5, 1974, the Motor Carrier Board approved the transfer to Michael E. Schnitker, doing business as Schnitker Truck

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 12, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 27, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 29572 (Sub-No. E1), filed June 4, 1974. Applicant: McCLAIN MOVING COMPANY, Highway 73, Palmyra, N.J. 08065. Applicant's representative: George D. McClain, Jr. (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Maryland, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of points in Philadelphia County, Pa.

No. MC 43038 (Sub-No. E1), filed June 4, 1974. Applicant: COMMERCIAL CARRIERS, INC., 10701 Middlebelt Road, Romulus, Mich. 48174. Applicant's representative: Paul H. Jones (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Automobiles*, in secondary movements, in truckaway service, from points in California, Colorado, Idaho, Nevada, New Mexico, Utah, Washington, and Wyoming to points in Wayne County, Mich. (Colorado Springs or Denver, Colo.) *. (2) *New and used automobiles*, and *new and used trucks* (except repossessed automobiles and trucks), in secondary movements, in truckaway service, between points in Kansas, on the one hand, and, on the other, points in California, Idaho, Iowa, Nevada, Utah, Wayngton, Arizona and New Mexico (points in Colorado) *. (3) *Automobiles, jeeps, chassis*, and *cabs and parts and accessories* moving in connection with shipments thereof, in truckaway service from Chicago Heights and Joliet, Ill., to points in Oregon (points in Utah) *. Restriction: The authority granted in (3) above is restricted to shipments originating at points in Wayne County, Mich. (4) *New trucks* from Ames, Dewitt, and Clinton, Iowa, to points in Arizona, Nevada, New Mexico, Utah, and California (points in Colorado) *. The purpose of this filing is to eliminate the gateways marked with asterisks above.

No. MC 110525 (Sub-No. E1262), filed June 4, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Coal tar and coal tar products*, from points in Pennsylvania to points in Connecticut and Rhode Island (Kearny, N.J.) *; (B) *Dry coal tar chemicals*, (1) from points in Pennsylvania to points in Maine (except points in Aroostook County), and (2) from points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line, thence along Interstate Highway 81 to junction Interstate Highway 81E, thence along Interstate Highway 81E to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line, to points in New Hampshire (Kearny, N.J., and Springfield, Mass.) *; (C) *Liquid chemicals*, (1) (except bituminous products and materials), from points in North Carolina to points in Pennsylvania (Hopewell, Va., or Morgantown, W. Va.) *, and (2) (except such oils and greases as may be included in the term "chemicals"), from Painesville, Ohio, to points in Wisconsin (Ft. Wayne, Ind.) *; (D) *Coal tar products*, (1) from points in Connecticut to points in Indiana and Kentucky (Newark, N.J., and Pittsburgh, Pa.) *, (2) from points in Delaware and Maryland to points in the Lower Peninsula of Michigan (points in Allegheny County, Pa.) *, (3) from points in Indiana and Kentucky to points in New Jersey (Pittsburgh, Pa.) *, (4) from points in the Lower Peninsula of Michigan to points in New Jersey (Pittsburgh, Pa.) *, and (5) from points in the Lower Peninsula of Michigan to points in Massachusetts and Rhode Island (Pittsburgh, Pa., and Ft. Lee, N.J.) *; and (E) *Coal tar products* as described in Appendix XIV to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (1) from points in Connecticut and Massachusetts to points in Wisconsin (Newark, N.J., and Pittsburgh, Pa.) *, and (2) from the District of Columbia and points in Delaware, Maryland, and New York, to points in Wisconsin (Pittsburgh, Pa.) *; restricted, in each instance, to the transportation of traffic in bulk, in tank vehicles. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113843 (Sub-No. E74) (Correction), filed May 3, 1974, published in the FEDERAL REGISTER, June 20, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as defined by the Commission, from Cattaraugus, Chautauqua, and Erie Counties, N.Y., to Camden, Newark, and Jersey City, N.J., Baltimore, Md., and Philadelphia and Middletown, Pa. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y. The purpose of this correction is to clarify the destination points in Pennsylvania.

No. MC 113843 (Sub-No. E749) (Correction), filed May 19, 1974, published in the FEDERAL REGISTER, September 18, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and edible meat by-products*, as defined by the Commission (except in bulk, in tank vehicles), from Sandusky, Ohio, to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Rochester, N.Y. The purpose of this correction is to correct the origin point.

No. MC 114211 (Sub-No. E108), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Ia. 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors'*

equipment and supplies, between points in Illinois, on the one hand, and, on the other, points in Minnesota. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E164), filed May 24, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Ia. 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, between points in Illinois, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E165), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Farm tractors, and equipment* designed for use in conjunction with farm tractors, and (2) *attachments and parts* therefore, from points in that part of Minnesota on, south, and west of a line beginning at the Iowa-Minnesota State line, thence along Minnesota Highway 5 to junction Minnesota Highway 7, thence along Minnesota Highway 7 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-South Dakota State line, to points in Washington, Oregon, Idaho, that part of California on and north of a line beginning at the Nevada-California State line, thence along U.S. Highway 95 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction California Highway 247, thence along California Highway 247 to junction California Highway 18, thence along California Highway 18 to junction U.S. Highway 395, thence along U.S. Highway 395 to San Diego, that part of Nevada on and west of a line beginning at the Idaho-Nevada State line, thence along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Nevada Highway 8A, thence along Nevada Highway 8A to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Nevada Highway 23, thence along Nevada Highway 23 to junction Nevada Highway 89, thence along Nevada Highway 89 to junction U.S. Highway 95, thence along U.S. Highway 95 to the Nevada-Arizona State line, and that part of Montana on, west, and north of a line beginning at the Montana-North Dakota State line, thence along Interstate Highway 94 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of Fargo, N. Dak.

No. MC 114211 (Sub-No. E166), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, stationary engines, and attachments and parts therefore*, when moving incidental to and in the same vehicle with tractors and stationary engines (not including tractors with vehicle beds, bed frames, of fifth wheels, not any of the above-specified commodities which, because of their size or weight, require the use of special equipment); from points in that part of Illinois on and south of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 20 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Illinois-Michigan State line, to points in that part of Wisconsin on and west of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 2 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 40, thence along Wisconsin Highway 40 to junction Interstate Highway 53, thence along Interstate Highway 53 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Wisconsin-Minnesota State line. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E167), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, agricultural implements, and parts therefore* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from Ft. Dodge, Iowa, to points in Louisiana, that part of Arkansas on, south, and west of a line beginning at the Oklahoma-Arkansas State line, thence along Interstate Highway 40 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Mississippi-Arkansas State line, that part of Mississippi on and south of a line beginning at the Arkansas-Mississippi State line, thence along U.S. Highway 82 to junction Mississippi Highway 430, thence along Mississippi Highway 430 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction Mississippi Highway 14, thence along Mississippi Highway 14 to junction Mississippi Highway 19, thence along Mississippi Highway 19 to the Mississippi-Alabama State line, that part of Alabama on, west, and south of a line beginning at the Mississippi-Alabama State line, thence along Alabama Highway 10 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Interstate Highway 10.

Thence along Interstate Highway 10 to the Alabama-Florida State line, that part of Florida on and south of a line beginning at the Alabama-Florida State line, thence along Interstate Highway 10 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Florida Highway 40, thence along Florida Highway 40 to junction Interstate Highway 95, thence along Interstate Highway 95, thence along Interstate Highway 95 to junction U.S. Highway 92, thence along U.S. Highway 92 to Daytona Beach, that part of New Mexico on and south of U.S. Highway 66, that part of Arizona on and south of a line beginning at the New Mexico-Arizona State line, thence along U.S. Highway 66 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-Nevada State line, that part of Nevada on and south of a line beginning at the California-Nevada State line, thence along Interstate Highway 15 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-Nevada State line, and that part of California on, west, and south of a line beginning at the Nevada-California State line, thence along Interstate Highway 15 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 120, thence along California Highway 120 to junction Interstate Highway 580, thence along Interstate Highway 580 to junction California Highway 92, thence along California Highway 92 to San Mateo. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E168), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments*, from points in that part of California on and north of a line beginning at San Francisco, thence along Interstate Highway 80 to junction Interstate Highway 580, thence along Interstate Highway 580 to junction California Highway 120, thence along California Highway 120 to junction California Highway 108, thence along California Highway 108 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Nevada-California State line, that part of Utah on and north of a line beginning at the Nevada-Utah State line, thence along U.S. Highway 50 to junction Utah Highway 132, thence along Utah Highway 132 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 6/50, thence along U.S. Highway 6/50 to junction Utah Highway 33, thence along Utah Highway 33 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Utah-Colorado State line, and points in that part of Nevada on and north of a line beginning at the

California-Nevada State line, thence along U.S. Highway 395 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Nevada-Utah State line, to points in that part of Florida on and south of a line beginning at the Atlantic Ocean, thence along U.S. Highway 90 to junction Florida Highway 3, thence along Florida Highway 3 to junction U.S. Highway 98, thence along U.S. Highway 98 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of Canton, S. Dak., and Claremore, Okla.

No. MC 114211 (Sub-No. E171), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above) Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, in those described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), between points in that part of Iowa on and south of Interstate Highway 80, on the one hand, and, on the other, points in that part of Nebraska on, south, and west of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 30 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Iowa-South Dakota State line. The purpose of this filing is to eliminate the gateway of Nebraska City, Nebr., and points within 50 miles thereof.

No. MC 114211 (Sub-No. E172), filed June 4, 1974. Applicant. WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and those described in *Mercer Extension—Oil Field Comodities*, 74 M.C.C. 459), between points in that part of Iowa on, south, and east of a line beginning at the Nebraska-Iowa State line, thence along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S Highway 20 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 24, thence along Iowa Highway 24 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateways of Council Bluffs, Iowa, and Omaha, Nebr.

No. MC 114211 (Sub-No. E173), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and those described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), between points in that part of Iowa on, south, and east of a line beginning at the Nebraska-Iowa State line, thence along Interstate Highway 80 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in that part of Nebraska on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 77 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line. The purpose of this filing is to eliminate the gateways of Council Bluffs, Iowa, and Omaha, Nebr.

No. MC 114211 (Sub-No. E174), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Dallas, Tex. 75222. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand, as described in Section (1) (b) of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *parts therefore* when their transportation is incidental to the transportation of the machinery and implements, from points in that part of Minnesota on and south of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 12 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Minnesota-Iowa State line, to points in that part of Texas on and south of a line beginning at the Okahoma-Texas State line, thence along U.S. Highway 83 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 62/70, thence along U.S. Highway 62/70 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Texas-New Mexico State line, and that part of New Mexico on and south of a line beginning at the Arizona-New Mexico State line, thence along Interstate Highway 40 to junction New Mexico Highway 41; thence along New Mexico Highway 41 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E186), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, and such road making machinery and contractors' equipment and supplies*, as are designed for use in conjunction with tractors, from points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 14 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction South Dakota Highway 87, thence along South Dakota Highway 87 to the South Dakota-Nebraska State line, to points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New Jersey, that part of New York on and east of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 79 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 8, thence along New York Highway 8 to junction New York Highway 49, thence along New York Highway 49 to junction New York Highway 3, thence along New York Highway 3 to junction New York Highway 104, thence along New York Highway 104 to Oswego, that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line, thence along U.S. Highway 15 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Pennsylvania Highway 92, thence along Pennsylvania Highway 92 to the Pennsylvania-New York State line, that part of Maryland on and east of a line beginning at the Virginia-Maryland State line, thence along U.S. Highway 211 to junction Interstate Highway 708, thence along Interstate Highway 708 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Maryland-Pennsylvania State line, that part of Virginia on and east of a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 21 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 211, thence along U.S. Highway 211 to the Virginia-Maryland State line, that part of North Carolina on and east of a line beginning at the North Carolina-South Carolina State line, thence along U.S. Highway 21 to junction North Carolina Highway 115, thence along North Carolina Highway 115 to junction North Carolina 18, thence along North Carolina Highway 18 to junction U.S.

Highway 21, thence along U.S. Highway 21 to the North Carolina-Virginia State line, and that part of South Carolina on and east of U.S. Highway 21. The purpose of this filing is to eliminate the gateway of points in that part of Minnesota located in the Fargo, N. Dak., commercial zone.

No. MC 114211 (Sub-No. E187), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories, and attachments* between points in that part of North Dakota on and east of a line beginning at the International Boundary line between the United States and Canada, thence along North Dakota Highway 20 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction North Dakota Highway 30, thence along North Dakota Highway 30 to junction North Dakota Highway 13, thence along North Dakota Highway 13 to junction North Dakota Highway 56, thence along North Dakota Highway 56 to junction North Dakota Highway 11, thence along North Dakota Highway 11 to junction North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in that part of Iowa on and south of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 71 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 4, thence along Iowa Highway 4 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S Highway 20 to junction U.S. Highway 30.

Thence along U.S. Highway 30 to junction Iowa Highway 17, thence along Iowa Highway 17 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 212, thence along Iowa Highway 212 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Illinois State line, that part of Illinois on and south of a line beginning at the Iowa-Illinois State line, thence along Interstate Highway 80 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 114, thence along Illinois Highway 114 to the Illinois-Indiana State line, that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to the Nebraska-Kansas State line, and that part of Kansas on and east of a line beginning at the Nebraska-Kansas State line, thence along Kansas Highway 8 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E199), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Nebraska on and east of a line beginning at the South Dakota-Nebraska State line line, thence along Nebraska Highway 137 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 6/34, thence along U.S. Highway 6/34 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-Kansas State line, to points in that part of Texas on, south, and east of a line beginning at the Texas-New Mexico State line, thence along Interstate Highway 10 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Texas Highway 16, thence along Texas Highway 16 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Texas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E200), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, require the use of special equipment or special handling, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), between points in that part of Nebraska on and west of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 2 to junction U.S. Highway 73/75, thence along U.S. Highway 73/75 to the Nebraska-Kansas State line, on the one hand, and, on the other, points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along Missouri Highway 126 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Interstate Highway 57, thence along Interstate Highway 57 to the Missouri-Kentucky State line, restricted against the transportation of traffic to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E201), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, require the use of speical equipment or special handling, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Nebraska on and west of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 81 to junction Nebraska Highway 12, thence along Nebraska Highway 12 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 79, thence along Nebraska Highway 79 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Missouri, restricted against the transportation of traffic to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E202), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Nebraska on and south of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 26 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 6, thence

along U.S. Highway 6 to junction Nebraska Highway 103, thence along Nebraska Highway 103 to Junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Illinois, Indiana, and Ohio, restricted against the transportation of traffic to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E203), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Nebraska on and west of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 2 to junction U.S. Highway 73/75, thence along U.S. Highway 75 to the Nebraska-Kansas State line, to points in that part of Indiana on and south of U.S. Highway 40, that part of Illinois on and south of a line beginning at the Illinois-Missouri State line, thence along Illinois Highway 140 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Indiana-Illinois State line, and that part of Ohio on and south of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 40 to junction Interstate Highway 270, thence along Interstate Highway 270 to junction Ohio Highway 3, thence along Ohio Highway 3 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Ohio-Pennsylvania State line, restricted against the transportation of traffic moving to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E204), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery, farm equipment* designed for use with self-propelled farm machinery, *and parts thereof*, from Portals, N. Dak., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at Minneapolis, Minn.

No. MC 114211 (Sub-No. E210), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which because of size or weight, requires the use of special equipment and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in Oklahoma to points in Maryland, Delaware, New Jersey, the Upper Peninsula of Michigan, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E213), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (except pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products, and by-products), and *fittings and accessories therefore*, when moving with such pipe, from points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 215, thence along Iowa Highway 215 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 330, thence along Iowa Highway 330 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line, to points in Florida, restricted against the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E214), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E215), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E213), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (except pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products, and by-products), and *fittings and accessories therefore*, when moving with such pipe, from points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 215, thence along Iowa Highway 215 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 330, thence along Iowa Highway 330 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line, to points in Florida, restricted against the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E214), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E215), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E213), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E213), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E213), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities, 74 M.C.C. 459*), from points in Oklahoma to points in Maryland, New Jersey, Delaware, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 77 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

Colorado Highway 131, thence along Colorado Highway 131 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E216), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled road building machinery, and road building equipment* designed for use in conjunction with self-propelled road building machinery, from points in that part of Texas on and east of U.S. Highway 281, to points in that part of North Dakota on, north, and east of a line beginning at the Minnesota-North Dakota State line, thence along U.S. Highway 10 to junction North Dakota Highway 1, thence along North Dakota Highway 1 to junction North Dakota Highway 9, thence along North Dakota Highway 9 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction North Dakota Highway 15, thence along North Dakota Highway 15 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction North Dakota Highway 256, thence along North Dakota Highway 256 to the International Boundary line between the United States and Canada, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Interstate Highway 90 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Wisconsin Highway 173, thence along Wisconsin Highway 173 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to Green Bay. The purpose of this filing is to eliminate the gateways of points in Kansas, and Minneapolis, Minn.

No. MC 114211 (Sub-No. E217), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors and parts thereof*, from points in that part of South Dakota on, south, and east of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 14 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction South Dakota Highway 53, thence along South Dakota Highway 53 to junction South Dakota Highway 44, thence along South Dakota Highway 44 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to the South Dakota-Nebraska State line, to points in that part of Wisconsin on and south of a line beginning at the Iowa-Wisconsin State line, thence along U.S. Highway 151 to junction U.S. Highway 18, thence along U.S. Highway 18 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E223), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled sweepers, and hod buggies*, from points in that part of Minnesota on and east of a line beginning at the International Boundary line between the United States and Canada, thence along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 18, thence along Minnesota Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, to points in Virginia, Maryland, Delaware, New Jersey, Pennsylvania, Connecticut, Massachusetts, Rhode Island, and New York. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E226), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields, and corn cribs*, knocked down, and *attachments and parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidental to and in the same vehicle with said commodities, from points in that part of Missouri on and west of a line beginning at the Iowa-Missouri State line, thence along Interstate Highway 29 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Missouri-Kansas State line, to points in New York, that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 12 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction Wisconsin Highway 52, thence along Wisconsin Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to the Wisconsin-Michigan State line, that part of Pennsylvania on, north, and east of a line beginning at the Ohio-Pennsylvania State line, thence along U.S. Highway 30 to junction U.S. Highway 140, thence along U.S. Highway 140 to the Pennsylvania-Maryland State line, that part of Ohio on and north of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 30 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, and that part of Indiana on and north of U.S. Highway 20, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Oelwein, Iowa.

No. MC 114211 (Sub-No. E227), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agriculture sprayers, scalpers, row crop shields, corn cribs*, knocked down, and *attachments and parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidentally to and in the same vehicle with said commodities, from points in that part of Missouri on, south, and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 36 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Missouri-Arkansas State line, to points in that part of Michigan on and north of a line beginning at the Wisconsin-Michigan State line, thence along U.S. Highway 8 to junction U.S. Highway 2, thence along U.S. Highway 2 to Lake Michigan, that part of Minnesota on and east of a line beginning at the International Boundary line between the United States and Canada, thence along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction Minnesota Highway 1, thence along Minnesota Highway 1 to junction Minnesota Highway 38, thence along Minnesota Highway 38 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Minnesota Highway 33, thence along Minnesota Highway 33 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Minnesota Highway 95, thence along Minnesota Highway 95 to junction U.S. Highway 8, thence along U.S. Highway 8 to the Minnesota-Wisconsin State line, and that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line, thence along U.S. Highway 8 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 52, thence along Wisconsin Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction U.S. Highway 141, thence along U.S. Highway 141 to the Michigan-Wisconsin State line, restricted to the transportation of commodities

which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Ocheyedan, Iowa.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields, corn cribs,* knocked down, *and attachments and parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidentally to and in the same vehicle with said commodities, from points in that part of Missouri on and east of U.S. Highway 63 to points in North Dakota, that part of Minnesota on and north of U.S. Highway 52, that part of South Dakota on and north of a line beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 18 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. 281, thence along U.S. Highway 281 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-Minnesota State line, and that part of Wisconsin on, north, and west of a line beginning at the Wisconsin-Minnesota State line, thence along U.S. Highway 12 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 71, thence along Wisconsin Highway 71 to the Wisconsin-Michigan State line, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Ocheyedan, Iowa.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields, corn cribs,* knocked down, *and attachments and parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidentally to and in the same vehicle with said commodities, from points in that part of Missouri on and east of U.S. Highway 63 to points in North Dakota, that part of Minnesota on and north of U.S. Highway 52, that part of South Dakota on and north of a line beginning at the Wyoming-South Dakota State line, thence along U.S. Highway 18 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. 281, thence along U.S. Highway 281 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-Minnesota State line, and that part of Wisconsin on, north, and west of a line beginning at the Wisconsin-Minnesota State line, thence along U.S. Highway 12 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 71, thence along Wisconsin Highway 71 to the Wisconsin-Michigan State line, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Ocheyedan, Iowa.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields, corn cribs,* knocked down, *and attachments and parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidentally to and in the same vehicle with said commodities, from points in that part of Missouri on, north, and west of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Kansas State line, to points in the Upper Peninsula of Michigan, that part of New York on and east of a line beginning at Oswego, thence along New York Highway 57 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line (except points in Queens, Kings, Nassau, and Suffolk Counties), points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line, thence along Interstate Highway 81 to junction Interstate Highway 380, thence along Interstate Highway 380 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line, and that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along Interstate Highway 94 to junction Wisconsin Highway 13, thence along Wisconsin Highway 33 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Lake Michigan, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Ocheyedan, Iowa.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields,* corn cribs, knocked down, *and attachments and parts for* said shredders, sprayers, scalpers, and corn cribs, when moving incidentally to and in the same vehicle with said commodities, from Ocheyedan, Iowa, to points in Arizona, that part of Louisiana on and west of a line beginning at the Arkansas-Louisiana State line, thence along Louisiana Highway 15 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 42, thence along Louisiana Highway 42 to junction Louisiana Highway 328, thence along Louisiana Highway 328 to the Gulf of Mexico, that part of Nevada on and west of a line beginning at the Arizona-Nevada State line, thence along Interstate Highway 15 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Nevada Highway 3 to the Nevada-California State line, that part of California on, south, and west of a line beginning at the California-Nevada State line, thence along California Highway 3 to junction California Highway 202, thence along California Highway 202 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 178, thence along California Highway 178 to junction California Highway 129, thence along California Highway 129 to junction California Highway 99, thence along California Highway 99 to junction California Highway 4, thence along California Highway 4 to San Francisco, and that part of Arkansas on and west of a line beginning at the Arkansas-Missouri State line, thence along Arkansas Highway 69 to junction Arkansas Highway 63, thence along Arkansas Highway 63 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 23, thence along Arkansas Highway 23 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to the Arkansas-Louisiana State line, restricted against the transportation of commodities which, because of size or weight, require the use of special equipment, and those commodities described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of points in Kansas, and Clarence, Okla.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, between points in Minnesota, on the one hand, and, on the other, points in Missouri, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. [illegible]), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Nebraska on and east of a line beginning at the Iowa-Nebraska State line, thence along Interstate Highway 80 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-Kansas State line, to points in that part of North Dakota on and west of a line beginning at the Montana-North Dakota State line, thence along Interstate Highway 94 to junction North Dakota Highway 22, thence along North Dakota Highway 22 to junction North Dakota Highway 23, thence along North Dakota Highway 23 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S.

Highway 281, thence along U.S. Highway 281 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction Interstate Highway 29, thence along Interstate Highway 29 to the International Boundary line between the United States and Canada, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E233), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Nebraska on, north, and west of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 92 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line, to points in Indiana, restricted to the transportation of commodities which, because of size and weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E234), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in Nebraska to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E235), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in Kansas to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Ft. Dodge, Iowa.

No. MC 114211 (Sub-No. E236), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe, and fittings and accessories therefore*, when moving with such pipe, from points in Iowa to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 281 to junction Texas Highway 16, thence along Texas Highway 16 to junction U.S. Highway 87, thence along U.S. Highway 87 to Port Lavaca, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E237), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *—Road building equipment*, between points in Minnesota, on the one hand, and, on the other, points in Oklahoma and Texas. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E238), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, agricultural implements, and parts therefore* (except commodities which, because of size or weight, require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from the plant site and storage facilities of J. I. Case Company, Inc., located at Burlington and Bettendorf, Iowa, to points in Arizona, that part of California on, west, and south of a line beginning at the Nevada-California State line, thence along U.S. Highway 6 to junction California Highway 120, thence along California Highway 120 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction California Highway 37, thence alon. California Highway 37 to junction U.S. Highway 101, thence along California Highway 101 to Berkeley, and that part of Nevada on, west, and south of a line beginning at the Nevada-Arizona State line, thence along Interstate Highway 15 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E239), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand, and *parts thereof* when transported with such agricultural machinery and implements, as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities requiring the use of special equipment), from Corpus Christi, Tex., to points in that part of Oklahoma on, north, and east of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 183 to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 114211 (Sub-No. E240), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand, and *parts thereof* when transported with such agricultural machinery and implements, as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities requiring the use of special equipment), from Corpus Christi, Tex., to points in that part of Montana on and north of a line beginning at the Wyoming-Montana State line, thence along U.S. Highway 212 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line, that part of Idaho on and north of U.S. Highway 12, and that part of Washington on and north of a line beginning at the Idaho-Washington State line, thence along U.S. Highway 12 to junction Washington Highway 261, thence along Washington Highway 261 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Interstate 82, thence along Interstate Highway 82 to junction U.S. Highway 12, thence along U.S. Highway 12 to Grays Harbor. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E241), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery and implements*, other than hand, and *parts thereof* when transported with such agricultural machinery and implements, as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities requiring the use of special equipment), from Corpus Christi, Tex., to points in New Jersey. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E242), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from Newton, Iowa, to points in that part of California on and south of a line beginning at the Nevada-California State line, thence along California Highway 127 to junction California Highway 190, thence along California Highway 190 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 178, thence along California Highway 178 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 50, thence along U.S. Highway 50 to San Francisco, Calif., that part of Nevada on and south of a line beginning at the Arizona-Nevada State line, thence along U.S. Highway 93 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Nevada Highway 29, thence along Nevada Highway 29 to the California-Nevada State line, that part of Arizona on and south of a line beginning at the New Mexico-Arizona State line, thence along U.S. Highway 66 to junction U.S. Highway 91, thence along U.S. Highway 93 to the Arizona-Nevada State line, that part of New Mexico on and south of a line beginning at the Colorado-New Mexico State line, thence along U.S. Highway 550 to junction New Mexico Highway 44, thence along New Mexico Highway 44 to junction New Mexico Highway 57, thence along New Mexico Highway 57 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Arizona-New Mexico State line. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E243), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from Newton, Iowa, to points in Louisiana, that part of Florida on and south of a line beginning at the Gulf of Mexico, thence along Florida Highway 688, to junction Interstate Highway 75, thence along Interstate Highway 4 to junction Florida Highway 50, thence along Florida Highway 50 to the Atlantic Ocean, and that part of Alabama on and south of Interstate Highway 10. The purpose of this filing is to eliminate the gateways of points in Kansas, and Claremore, Okla.

No. MC 114211 (Sub-No. E244), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such material handling equipment, winches, compaction and road making equipment, rollers, and mobile cranes*, as are self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), or equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and (2) *Parts, attachments, and accessories* of the commodities described in (1) above, from the plant sites of Hyster Company located at Danville, Kewanee, and Peoria, to points in Washington, Oregon, Montana, Idaho, North Dakota, Nevada, that part of California on and north of a line beginning at the California-Nevada State line, thence along Interstate Highway 15 to junction California Highway 91, thence along California Highway 91 to junction California Highway 55, thence along California Highway 55 to the Pacific Ocean, that part of Utah on and west of a line beginning at the Utah-Idaho State line, thence along U.S. Highway 91 to junction U.S. Highway 89/91, thence along U.S. Highway 89/91 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Utah-Arizona State line, and that part of Wyoming on and north of a line beginning at the Nebraska-Wyoming State line, thence along U.S. Highway 30 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Idaho State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E245), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 169 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, on the one hand, and, on the other, to points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 183 to junction Kansas Highway 1, thence along Kansas Highway 1 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Beatrice, Nebr.

No. MC 114211 (Sub-No. E246), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such agricultural machinery and agricultural implements* as are self-propelled vehicles (except motor vehicles as defined in Section 203(a)(13) of the Interstate Commerce Act and commodities moving in driveaway service), or equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and *parts thereof*, from Fort Dodge, Iowa, to points in that part of Nevada on, north, and west of a line beginning at the California-Nevada State line, thence along U.S. Highway 93 to junction Nevada Highway 34, thence along Nevada Highway 34 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Nevada Highway 46, thence along Nevada Highway 46 to junction Nevada Highway 51, thence along Nevada Highway 51 to the Nevada-Idaho State line, that part of Idaho on, north, and west of a line beginning at the Nevada-Idaho State line, thence along Idaho Highway 51 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Idaho Highway 21, thence along Idaho Highway 21 to junction U.S. Highway 93, thence along U.S. Highway 93 to junction Idaho Highway 28, thence along Idaho Highway 28 to junction Idaho Highway 324, thence along Idaho Highway 324 to the Idaho-Montana State line, that part of Montana on, north, and west of a line beginning at the Montana-South Dakota State line, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Montana Highway 41, thence along Montana Highway 41 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Montana Highway 324,

Thence along Montana Highway 324 to the Montana-Idaho State line, that part of Michigan on and north of a line beginning at Traverse City, thence along Michigan Highway 32 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Michigan Highway 55, thence along Michigan Highway 55 to Tawas City, that part of New York on, north, and east of New York Highway 14, that of Florida on and south of a line beginning at the Atlantic Ocean, thence along Florida Highway 207 to junction Florida Highway 20, thence along Florida Highway 20 to junction Florida Highway 24, thence along Florida Highway 24 to Cedar Key, that part of South Carolina on and east of a line beginning at the North Carolina-South Carolina State line, thence along

U.S. Highway 21 to junction Interstate Highway 26, thence along Interstate Highway 26 to Charleston, and that part of North Carolina on and east of a line beginning at the North Carolina-Kentucky State line, thence along U.S. Highway 52 to junction North Carolina Highway 268, thence along North Carolina Highway 268 to junction North Carolina Highway 18, thence along North Carolina Highway 18 to junction U.S. Highway 21, thence along U.S. Highway 21 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E247), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm vehicles, and farm machinery* designed for use in conjunction with self-propelled farm vehicles, and *parts thereof*, from Pembina, N. Dak., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at Minneapolis, Minn.

No. MC 114211 (Sub-No. E248), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm vehicles, and farm machinery* designed for use in conjunction with self-propelled farm vehicles, and *parts thereof*, from Noyes, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at Minneapolis, Minn.

No. MC 114211 (Sub-No. E250), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except commodities which because of size or weight require the use of special equipment, and those described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459), from points in that part of Oklahoma on and west of U.S. Highway 77 to points in that part of Georgia on, north, and east of a line beginning at the Alabama-Georgia State line, thence along U.S. Highway 280 to junction U.S. Highway 55, thence along U.S. Highway 55 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Georgia-Florida State line, that part of Alabama on, east, and north of a line beginning at the Georgia-Alabama State line, thence along U.S. Highway 280 to junction U.S. Highway 431, thence along U.S. Highway 431 to the Alabama-Tennessee State line, that part of Tennessee on and east of a line beginning at the Alabama-Tennessee State line, thence along Interstate Highway 65 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Tennessee Highway 78, thence along Tennessee Highway 78 to the Tennessee-Kentucky State line, and that part of Florida on and east of a line beginning at Perry, thence along U.S. Highway 221 to junction Florida Highway 14, thence along Florida Highway 14 to junction Florida Highway 145, thence along Florida Highway 145 to the Georgia-Florida State line. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E252), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such tractors, roadmaking machinery, and contractors' equipment and supplies* as are self-propelled vehicles (except motor vehicles as defined in Section 203(a)(15) of the Interstate Commerce Act and Commodities moving in driveaway service), or equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers of parts and attachments therefore), from points in that part of South Dakota on, south, and east of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 14 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to the South Dakota-Nebraska State line (except points in that part of South Dakota on and east of a line beginning at Yankton, thence along U.S. Highway 81 to junction U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Minnesota State line), to points in that part of Wisconsin on, south, and east of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 53 to junction Interstate Highway 94, thence along Interstate Highway 94 to Milwaukee. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E253), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe, and fittings and accessories therefore*, when moving with such pipe, *from* points in Iowa, to points in that part of Kansas on and west of U.S. Highway 283, restricted to the transportation of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E254), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe, and fittings and accessories therefore*, when moving with such pipe, from points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Idaho-Nebraska State line to points in Arkansas, restricted to the transportation of traffic which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E255), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefore*, when moving with such pipe from points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 71 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line, to the District of Columbia, and points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, New York, Florida, that part of Maryland on and east of U.S. Highway 220, that part of North Carolina on and east of a line beginning at the South Carolina-North Carolina State line, thence along North Carolina Highway 601 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction U.S. Highway 29, thence along U.S. Highway 29 to the North Carolina-Virginia State line, that part of Virginia on and east of a line beginning at the North Carolina-Virginia State line, thence along Virginia

Highway 29 to junction Virginia Highway 56, thence along Virginia Highway 56 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Virginia Highway 42, thence along Virginia Highway 42 to junction Virginia Highway 259, thence along Virginia Highway 259 to the Virginia-Maryland State line, that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line, thence along U.S. Highway 78 to junction South Carolina Highway 4, thence along South Carolina Highway 4 to junction U.S. Highway 601, thence along U.S. Highway 601 to the South Carolina-North Carolina State line, that part of Georgia on and south of a line beginning at the Alabama-Georgia State line, thence along Georgia Highway 62 to junction Georgia Highway 257, thence along Georgia Highway 257 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction Georgia Highway 221, thence along U.S. Highway 211 to junction U.S. Highway 1, thence along U.S. Highway 1 to the Georgia-South Carolina State line, that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 84 to junction Alabama 52, thence along Alabama Highway 52 to the Alabama-Georgia State line, that part of Mississippi on and south of Mississippi Highway 84, that part of Louisiana on and south of a line beginning at the Louisiana-Texas State line, thence along Interstate Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Mississippi-Louisiana State line, that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line, thence along Pennsylvania Highway 220 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction Pennsylvania Highway 422, thence along Pennsylvania Highway 422 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Pennsylvania Highway 322, thence along Pennsylvania Highway 322 to junction Pennsylvania Highway 19, thence along Pennsylvania Highway 19 to Erie, and points in that part of West Virginia on and east of a line beginning at the Maryland-West Virginia State line, thence along U.S. Highway 220 to junction West Virginia Highway 55, thence along West Virginia Highway 55 to junction West Virginia 259, thence along West Virginia Highway 259 to the West Virginia-Virginia State line, restricted to the transportation of traffic which, because of size or weight, requires the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E256), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefore*, when moving with such pipe, from points in that part of Iowa on and west of a line beginning at the Iowa-Nebraska State line, thence along Iowa Highway 2 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 183, thence along Iowa Highway 183 to junction Iowa Highway 37/175, thence along Iowa Highway 37/175 to the Iowa-Nebraska State line, to points in that part of Michigan on and east of a line beginning at the Wisconsin-Michigan State line, thence along U.S. Highway 45 to junction Michigan Highway 26, thence along Michigan Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to Fort Watkins, restricted to the transportation of traffic which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E257), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefore*, when moving with such pipe, from points in that part of Iowa on and south of a line beginning at the Iowa-Illinois State line, thence along Interstate Highway 80 to junction Interstate Highway 29, thence along Interstate Highway 29 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Nebraska State line to points in North Dakota, restricted to the transportation of traffic which, because of size or weight, requires the use of special equipment. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E258), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers*, from points in that part of Minnesota on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 14 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-Wisconsin State line, to points in Massachusetts, Connecticut, Rhode Island, that part of New York on and east of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 14 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 11, thence along New York Highway 11 to junction New York Highway 57, thence along New York Highway 57 to Lake Ontario, and that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line, thence along U.S. Highway 220 to junction Pennsylvania Highway 147, thence along Pennsylvania Highway 147 to junction U.S. Highway 22/322, thence along U.S. Highway 22/322 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E260), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, roadmaking machinery, and contractors' equipment and supplies*, from points in that part of Minnesota on and east of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 14 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-Wisconsin State line, to points in Washington, Oregon,, California, Idaho, Nevada, Arizona, Utah, Montana, Wyoming, Colorado, New Mexico, Texas, North Dakota, Louisiana, Oklahoma, Florida, Vermont, New Hampshire, Maine, that part of South Dakota on and west of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 183 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-North Dakota State line, that part of Nebraska on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 77 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-South Dakota State line, that part of Kansas on and east of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 54 to junction Kansas Highway 99, thence along Kansas Highway 99 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 77, thence along U.S. Highway 77 to the

Kansas-Nebraska State line, to points in that part of Missouri on and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Alternate Highway 71, thence along U.S. Alternate Highway 71 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Missouri Highway 37, thence along Missouri Highway 37 to the Missouri-Arkansas State line, that part of Arkansas on and west of a line beginning at the Arkansas-Missouri State line, thence along U.S. Highway 62 to junction Arkansas Highway 23, thence along Arkansas Highway 23 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 21, thence along Arkansas Highway 21 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction Arkansas Highway 10, thence along Arkansas Highway 10 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Mississippi State line, that part of Mississippi on and south of U.S. Highway 82, that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 82 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 78, thence along U.S. Highway 78 to the Alabama-Georgia State line, that part of Georgia on and south of Georgia Highway 8, that part of North Carolina on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 220 to junction Interstate Highway 85, thence along Interstate Highway 85 to junction In-Interstate Highway 85 to junction Interstate Highway 77 to the North Carolina-South Carolina State line, and that part of South Carolina on and east of a line beginning at the South Carolina-Georgia State line, thence along South Carolina Highway 72 to junction U.S. Highway 12/72, thence along U.S. Highway 12/72 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 29/70, thence along U.S. Highway 29/70 to junction U.S. Highway 220, thence along U.S. Highway 220 to the North Carolina-South Carolina State line, restricted to the transportation of self-propelled vehicles (except motor vehicles as defined in Section 203 (a) (13) of the Interstate Commerce Act and commodities moving in driveaway service), equipment designed for use in conjunction with self-propelled vehicles (except tank semi-trailers), and parts and attachments for these commodities. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E262), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors and parts thereof* (except commodities which because of size or weight, require the use of special equipment), between port of entry on the International Boundary line between the United States and Mexico located at Laredo, Tex., on the one hand, and, on the other, points in North Dakota, Minnesota, Iowa, and that part of Illinois on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 54 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa, and points within 6 miles thereof.

No. MC 114211 (Sub-No. E261), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Cast iron pressure pipe, and fittings and accessories therefore*, when moving with such pipe, from points in that part of Indiana on and north of U.S. Highway 40, and that part of Michigan on, west, and south of a line beginning at the Indiana-Michigan State line, thence along U.S. Highway 127 to junction Interstate Highway 96, thence along Interstate Highway 96 to Muskegon, to points in Montana, Wyoming, Colorado, that part of North Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 83 to junction North Dakota Highway 256, thence along North Dakota Highway 256 to the International Boundary line between the United States and Canada, that part of South Dakota on and south of a line beginning at the Minnesota-South Dakota State line, thence along U.S. Highway 212 to junction South Dakota Highway 20, thence along South Dakota Highway 20 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction South Dakota Highway 10, thence along South Dakota Highway 10 to junction U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-North Dakota State line, that part of Nebraska on, north, and west of a line beginning at the Nebraska-Iowa State line, thence along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-Kansas State line, that part of Kansas on, north, and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 81 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction Kansas Highway 23, thence along Kansas Highway 23 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Kansas-Oklahoma State line, that part of Oklahoma on and west of U.S. Highway 54, that part of Texas on and north of U.S. Highway 62/180, and that part of New Mexico on, north, and west of a line beginning at the Texas-New Mexico State line, thence along New Mexico Highway 18 to junction New Mexico Highway 86, thence along New Mexico Highway 86 to junction New Mexico Highway 252, thence along New Mexico Highway 252 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction New Mexico Highway 20, thence along New Mexico Highway 20 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 62/180, thence along U.S. Highway 62/180 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at Council Bluffs, Iowa.

No. MC 128273 (Sub-No. E1) (correction), filed May 2, 1974, published in the FEDERAL REGISTER May 15, 1974. Applicant: MIDWESTERN DISTRIBUTION, INC., P.O. Box 189, Fort Scott, Kans. 66701. Applicant's representative: Harry Ross (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, (a) from Savannah, Ga., and the facilities of Union Camp Corp., in Autauga County, Ga., to Chicago, Ill.; (b) from Lock Haven, Pa., to Mobile, Ala.; (c) from Franklin, Va., to points in that part of Tennessee on and west of U.S. Highways 45 and 45E; (d) from Memphis, Tenn., to points in Indiana, Illinois, Michigan, Wisconsin, Minnesota, Pennsylvania, New York, New Jersey, Delaware, Massachusetts, Connecticut, Rhode Island, New Hampshire, Vermont, Maine, and West Virginia, restricted to the transportation of traffic originating at the facilities of Kimberly-Clark Corporation at Memphis, Tenn.; and (e) from Mobile, Ala., and Moss Point, Miss., to points in Michigan, Minnesota, and Wisconsin; and (2) *Paper*, from points in Talladega County, to points in Michigan, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateway of Wickliffe, Ky. The purpose of this correction is to continue route description.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

■

FOOD STAMP PROGRAM

Administrative Costs of State Agencies

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—FOOD STAMP PROGRAM

[Amdt. 47]

ADMINISTRATIVE COSTS OF STATE AGENCIES

Pursuant to the authority contained in the Food Stamp Act of 1964, as amended (78 Stat. 703, as amended; 7 U.S.C. 2011–2026), regulations governing the operation of the Food Stamp Program are hereby amended.

The Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4201–4244) was passed for the purpose in part of: (a) achieving the fullest cooperation and coordination of activities among levels of governments; (b) Improving the administration of grants-in-aid to the States; and (c) Establishing coordinated intergovernmental policy and administration of Federal assistance programs.

To this end there has been a continuing effort within the Federal Government to simplify and standardize the multitude of varying and oftentime conflicting requirements in the same subject area on the recipients of Federal assistance. Inherent in this standardization is the concept of decentralizing and the placing of greater reliance on State and local governments.

Legislatively imposed constraints previously prohibited standardization of program administrative practices in Food Stamp Program administration in the manner envisioned by the Intergovernmental Cooperation Act. However, enactment of Pub. L. 93–347 amended section 15(b) of the Food Stamp Act to read as follows:

(b) The Secretary is authorized to pay to each State agency an amount equal to 50 per centum of all administrative costs, including, but not limited to, the cost of (1) The certification of households; (2) The acceptance, storage, and protection of coupons after their delivery to receiving points within the States; (3) The issuance of such coupons to eligible households; (4) The outreach and fair hearing requirements of section 10 of this Act; and (5) The control and accounting of coupons: *Provided*, That each State shall, from time to time at the request of the Secretary, report to the Secretary on the effectiveness of its administration of the program and no such payment shall be made to any State unless the Secretary is satisfied pursuant to regulations which he shall issue that an adequate number of qualified personnel are employed by the State in the program to administer the program efficiently and effectively.

While the Food Stamp Program is not a grant-in-aid program, it falls within the definition of "grant" in Federal Management Circular 74–7 (formerly OMB Circular No. A–102) insofar as it relates to payments to the States for administrative cost, by virtue of the fact that State agencies enter with the Food and Nutrition Service into contractual arrangements; i.e., plans of operation for the administration of the Food Stamp Program. The definition of "grant" in FM Circular 74–7 reads:

The term "grant" • • • means money, or property provided in lieu of money, paid or furnished by the Federal Government to a State or local government under programs that provide financial assistance through grant or contractual arrangements • • •

Not all provisions are directly applicable to Food Stamp Program administration. In those instances, the circular has been adapted to the unique requirements of the Food Stamp Program.

Substantial portions of this Part 275 are derived from FM and from FM Circular 74–7, which are binding in most aspects upon the Department of Agriculture and other Federal agencies making grants to or contracting with State and local governments. This amendment also establishes (§ 275.16 and Appendix A) principles for determining allowable costs under payments to States by the Food and Nutrition Service for costs of administering Food Stamp Programs. Implementation of this Part 275 requires conforming amendments to the existing regulations governing operation of the Food Stamp Program.

Section 275.10, Monitoring and Reporting of Program Performance, provides that specific requirements on reporting and conditions for continued funding will be published at a later date for proposed rulemaking. During this interim period State agencies may receive funds under Pub. L. 93–347 upon compliance with the provisions of this subchapter for program costs incurred on and after October 1, 1974. The intent of allowing State agencies to receive such funds prior to final publication is to permit State agencies a reasonable period of time to identify program weaknesses and to utilize the additional funding to take any necessary corrective action to improve program administration prior to the implementation of regulations which could result in suspension or cancellation of funding.

Despite standardization, however, there are areas in which there must be exceptions, such as:

(1) Payments to State agencies for the in-kind value of services performed by volunteers or contributed by third persons. The value of in-kind contributions of goods or services by third parties shall not be considered as eligible for payments by FNS to State agencies as a part of their costs for program administration.

(2) The provisions of FM Circular 74–7 deal with loan guarantees in connection with grants. Such provisions are not applicable to Food Stamp Program administration.

(3) Costs of insurance covering the risk of loss of, or damage to, Federal Government property would not ordinarily be a cost of program administration; however, since States are held strictly accountable for all losses of coupons, such costs of insurance for the loss or theft of food coupons shall be an allowable cost of program administration.

(4) Indemnification—that is, securing the State agency against liabilities to third persons and other losses not compensated by insurance or otherwise—is not allowable under the provisions of FM Circular 74–4 unless expressly provided for in an agreement between States and Federal agencies. In the case of FNS, FNS shall not be obligated to indemnify the State nor shall such a provision be incorporated in any State Plan of Operations or related agreement.

(5) While pertinent circulars provide for various methods of payments, in the interest of uniformity and because of the limited number of FNS assistance programs, all payments will be made through the "letter-of-credit" system as set out in § 275.11.

Relation to FM Circular 74–7. Sections 275.2 through 275.15, inclusive, are adapted from FM Circular 74–7, which, as adapted for the purpose of this Part 275, will be considered binding on USDA as it is to other Federal agencies which do make grants to State and local governments. The circular was one of the major results of the Federal Assistance Review

(FAR) program, a three-year effort ordered by the President on March 27, 1969, to simplify, standardize, decentralize, and otherwise modernize the Federal grant machinery. Inherent in the FAR program and in the development of the standards in FM Circular 74–7 was the concept of placing greater reliance on State and local governments.

FM Circular 74–7 consists of a basic document, setting forth the circular's purpose, background, certain definitions, coverage, etc., and a series of attachments, each of which covers a more or less discrete area of grant administration. The circular's attachements are as follows:

Attachment:	*Subject*
A	Cash Depositories.
B	Bonding and Insurance.
C	Retention and Custodial Requirements for Records.
D	Waiver of "Single" State Agency Requirements.
E	Program Income.
F	Matching Share.
G	Standards for Grantee Financial Management Systems.
H	Financial Reporting Requirements.
I	Monitoring and Reporting of Program Performance.
J	Grant Payment Requirements.
K	Budget Revision Procedures.
L	Grant Closeout Procedures.
M	Standard Forms for Applying for Federal Assistance.
N	Property Management Standards.
O	Procurement Standards.

Section 275.1 of Part 275 provides general requirements applicable to Part 275 as a whole, and is roughly equivalent in function to the basic FM Circular 74–7 document.

Cost principles. The cost principles prescribed by § 275.16, set forth in full in the text of Appendix A have been in use by DHEW in management of federally funded programs for several years but until recently have been published by DHEW only in staff manual and brochure formats.

Appendix A covers payments to State agencies and is taken essentially from FM Circular 74–4, "Principles for determining costs applicable to grants and contracts with State and local governments." Appendix A also includes the principles of OMB Circular A–90, "Cooperating with State and local governments to coordinate and improve infor-

mation systems." These Circulars are binding on all Federal agencies, except that the language has been adapted to deal with payments to State agencies of portions of the costs of Food Stamp Program administration rather than "grants."

Those exceptions to the provisions of FM Circular 74–4 which appear here are necessary to enable Food Stamp Program administration to be adapted to the relevant circulars, as is explained above.

It is the policy of the Department that 30 days' notice is given for comments on amendments to the regulations. However, in view of the immediate need for placing this amendment into effect, it is hereby determined to be contrary to the public interest to give notice of proposed rulemaking with respect to this amendment. Therefore, while this amendment shall become effective December 17, 1974, it provides for funding of program costs incurred on or after October 1, 1974, upon compliance with the provisions of this Part.

Because the Department feels that the public should have an opportunity to comment on these regulations, comments are solicited until January 16, 1975. Written comments, suggestions or objections should be submitted to P. Royal Shipp, Director, Food Stamp Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250. Amendments to or revisions in this amendment will be made if, after due consideration of comments, suggestions or objections received, it is determined that such revisions or amendments are necessary.

Interested persons are reminded that, as explained above, much of Part 275 is derived from FM Circular 74–4 and FM Circular 74–7 from which USDA cannot unilaterally deviate.

Consequently, the Department's discretion to act on any comments which take issue with provisions mandated by the circulars may be limited to referral of such comments to those Federal officials who are in a position to change the circulars.

Chapter II of Title 7 of the Code of Federal Regulations is amended as follows:

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

1. The heading and text of § 271.2 is revised to read as follows:

§ 271.2 Payments for certain State agency administrative costs.

(a) FNS is authorized to pay to each State agency an amount equal to 50 percentum of administrative costs incurred pursuant to § 270.3(b) of this subchapter on or after October 1, 1974.

(b) In any case, where an administrative cost of a State agency is paid with funds which have been contributed by another Federal agency or by an agency from other federally furnished funds, FNS will pay up to 50 percentum of the administrative cost, but in no case will the total of the FNS payment and the other federally contributed or furnished funds total more than 100 percent. Unless authorized by Federal legislation, outlays charged to other Federal grants or to Federal contracts may not be considered as State agency costs.

(c) Submission of claims for payments of such costs shall be in accordance with Part 275 of this subchapter.

2. Section 271.10(d) is revoked as follows:

§ 271.10 Eligibility and certification of supplemental security income recipients.

* * * * *

(d) [Removed]

* * * * *

PART 275—PAYMENT OF CERTAIN ADMINISTRATIVE COSTS OF STATE AGENCIES

3. A new Part 275 is added to read as follows:

Sec.

275.1 General.
275.2 Cash Depositories.
275.3 Bonding and Insurance.
275.4 Retention and custodial requirements for records.
275.5 Single State Agency requirements.
275.6 Program Fund related income.
275.7 Payments to State Agencies.
275.8 Standards for State Agency and Subagency financial management systems.
275.9 Financial reporting requirements.
275.10 Monitoring and reporting of program performance.
275.11 Payment requirements.
275.12 Budget and budget revision procedures.
275.13 Suspension or cancellation of payments and program closeout.
275.14 Property.
275.15 Procurement standards.
275.16 Cost Principles.

Appendix A—Principles for Determining Costs Applicable to Administration of the Food Stamp Program by State Agencies

AUTHORITY: 78 Stat. 703, as amended; 7 U.S.C. 201–2026); unless otherwise noted.

§ 275.1 General.

(a) *Purpose.* This section establishes: (1) Uniform requirements for the administration of Food Stamp Program funds to State agencies, and

(2) Principles for determining costs applicable to activities assisted by the Food Stamp Program funds provided to State agencies.

(b) *Scope.* This section sets forth: (1) General rules and regulations pertaining to this part (definitions, purpose and scope, and applicability); and (2) procedures for control of deviations from this part.

(c) *Definitions.* As used in this section, the words and terms shall have the meanings set forth below, unless a different definition is prescribed for a particular portion of this section.

"Food Stamp Program funds" means money, or property provided in lieu of money, paid or furnished by USDA to an eligible State agency as costs of administering the Food Stamp Program. The term includes such financial assistance when provided by contract, but does not include any Federal procurements subject to the procurement regulations in 41 CFR, nor does it include technical assistance or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, except as provided by this part, or direct appropriations. The term does not include food coupons or the value of food coupons or the funds representing purchase requirements paid by households.

"State agency" means the organization or person to which program funds are given and which is accountable to the Federal Government for the use of the funds provided. The term does not include any secondary recipients such as subagencies, contractors, etc., who may receive funds from a State agency pursuant to the administration of the Food Stamp Program.

"FNS" means the Food and Nutrition Service.

"USDA" means the U.S. Department of Agriculture.

"Local government" means a local unit of government including specifically a county, municipality, city, town, township, local public authority, special district, intrastate district, council of governments, sponsor group representative organization, and other regional or interstate government entity, or any agency or instrumentality of a local government exclusive of institutions of higher education and hospitals.

"OGPM" means the Office of Grants and Procurement Management, which is an organizational component within the Office of the Secretary of Health, Education, and Welfare.

"GSA" means the General Services Administration. For purposes of this part it means Office of Federal Management Policy within the General Services Administration.

"State" means any one of the 50 States of the United States, the District of Columbia, Puerto Rico, Guam and the Virgin Islands of the United States.

"Subagency" means the organization or person to which a State agency makes any payment for acquisition of goods, materials or services for use in administering the Food Stamp Program and which is accountable to the State agency for the use of the funds provided.

"Terms and Conditions" means all legal requirements imposed by the Federal Government whether under statute, regulations, contracts, agreements, or otherwise.

(d) *Applicability of this part.* (1) Sections 275.5 through 275.8 inclusive are applicable to State agencies. Except to the extent inconsistent with an applicable Federal statute or regular §§ 275.2 through 275.15 are applicable to all payments made to State agencies. Upon compliance with the provisions of this part, payments will be made for program costs incurred on or after October 1, 1974.

(2) Section 275.16. The applicability of this section is set forth therein.

(e) *Deviations.* (1) A deviation shall be considered to be either of the following,

XUM
V 1974 DEC 17 243 39
XUM

except when specifically mandated by Federal legislation:

(i) Use of any policy, procedure, form, standard, or condition which is inconsistent with an applicable provision of this part, or

(ii) Failure to use when applicable any policy, procedure, form, standard, or program fund condition which is required by this part.

(2) In the interest of maintaining uniformity to the greatest extent feasible, deviations shall be kept to a minimum. A deviation, whether proposed by a State agency or FNS, may be authorized only when necessary to meet program objectives, to conserve program funds, or when it is otherwise essential to the public interest.

(3) Deviations from §§ 275.2 through 275.15 inclusive may be made in regard to Food Stamp Program funds to a State or local government, only when authorized by both:

(i) The Administrator of FNS or other officials if designated in or pursuant to formal deviation control procedures established by FNS, and

(ii) GSA.

(4) Deviations from § 275.16 and Appendix A to this part may be made only as follows:

(i) In individual cases (i.e., where only a single program fund is involved) deviations may be authorized by the Administrator of FNS or by other officials if designated in or pursuant to formal deviation control procedures established by the agency.

(ii) Deviations in classes of cases may be made only when authorized as provided in paragraph (e)(3) of this section.

§ 275.2 Cash depositories.

(a) *Physical segregation and eligibility.* FNS will not:

(1) Require physical segregation of cash depositories for program funds which are provided to a State agency.

(2) Establish any eligibility requirements for cash depositories in which program funds are deposited by a State agency or subagency.

(b) *Minority-owned banks.* Consistent with the national goal of expanding opportunities for minority business enterprise, State agencies are encouraged to use minority-owned banks.

§ 275.3 Bonding and Insurance.

(a) *General.* In administering FNS program funds, State agencies shall observe their regular requirements and practices with respect to bonding and insurance. FNS will not impose additional bonding and insurance requirements, including fidelity bonds.

(b) *Loan guarantees.* FNS shall make no guarantees of any loan or payment of money borrowed by a State agency for purposes of administration of the Food Stamp Programs, nor shall any State agency make any assurances to any lendor or contractor that FNS will furnish funds for such purposes.

§ 275.4 Retention and Custodial Requirements for Records.

(a) *Length of retention period.* FNS will not impose record retention requirements over and above those established by the State agency except that financial records, supporting documents, statistical records, and all other records pertinent to FNS program funds, or to negotiated contracts exceeding $2,500, thereunder, shall be retained for a period of three years, with the following qualifications:

(1) If audit by or on behalf of the Federal Government has begun but is not completed at the end of the three-year period, or if audit findings have not been resolved at the end of the three-year period, the records shall be retained until resolution of the audit findings. In no case, however, will FNS require retention of records relating to any program funds with respect to which actions by the United States to recover for diversion of money paid under the program funds are barred by the statute of limitations in 28 U.S.C. 2415(b).

(2) In order to avoid duplicate recordkeeping, FNS may make special arrangements with a State agency to retain any records which are continuously needed for joint use. FNS will request transfer of records to its custody from a State agency when it determines that the records possess long-term retention value. When the records are transferred to or maintained by FNS, the three-year retention requirement is not applicable to the State agency.

(b) *Starting date of retention period.*—(1) *General.* The retention period for each year's records starts from the date of submission to FNS of the State agency's first quarterly expenditure report for that year. For nonconstruction activities, the term "expenditure report" means: The "Financial Status Report" (or other report equivalent thereto).

(2) *Records for nonexpendable property.* For nonexpendable personal property whose acquisition cost was borne in whole or in part by FNS program funds, property records required by § 275.14(f) shall be retained for three years after final disposition of the property. For purposes of this paragraph, payment by the State agency to the United States for the Federal share of the fair market value of such property, in accordance with § 275.14 of this part, shall be deemed in final disposition of such property.

(3) *Records for indirect cost rate proposals, etc.*—(i) *Applicability.* This paragraph applies to records supporting indirect cost rate proposals, cost allocation plans of State and local governments pursuant to Appendix A to this part, and any similar accounting computations of the rate at which a particular group of costs is chargeable to FNS program funds. Examples of the latter are computer usage chargeback rate computations and composite fringe benefit rate computations.

(ii) *If submitted to the Federal Government.* If the proposal, plan, or other computation is required to be submitted to the Federal Government to form the basis for negotiation of the rate, then the three-year retention period for its supporting records starts from the date of such submission.

(iii) *If not submitted to the Federal Government.* If the proposal, plan, or other computation is not required to be submitted to the Federal Government for negotiation purposes, then the three-year retention period for its supporting records starts from the end of the State agency's fiscal year (or other accounting period covered by the proposal, plan or other computation).

(c) *Substitution of Microfilm.* State agencies may be authorized by FNS to substitute microfilm or other adequate copies in lieu of original records.

(d) *Access to records.* (1) USDA, FNS, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the State agency which any of them determine are pertinent to administration of specific FNS program funds for the purpose of making audit, examination, excerpts and transcripts.

(2) In the case of a payment (or negotiated contract exceeding $2,500) using FNS program funds the State agency, USDA, FNS, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the subagency or contractor which the State agency, USDA, FNS or the Comptroller General of the United States or any of their duly authorized representatives, determine are pertinent to administration of the specific FNS program funds, for the purpose of making audit, examination, excerpts, and transcripts.

(e) *Restrictions on public access.* Unless otherwise required by law, FNS will not place restrictions on State agencies which will limit public access to the State agency's records or to the records of their subagencies or contractors, except when the records must remain confidential for any of the following reasons:

(1) To prevent a clearly unwarranted invasion of personal privacy.

(2) To comply with an Executive Order or statute which specifically requires the records to be kept secret.

(3) To protect commercial or financial information obtained from a person or firm on a privileged or confidential basis.

(4) To protect information which could be improperly exploited for personal gain.

(5) To comply with the provisions of this subchapter regarding disclosure of information.

§ 275.5 Single State Agency requirement.

When a State wishes to deviate from the single State agency requirement, it shall request approval from FNS.

§ 275.6 Program Fund-Related Income.

(a) *Scope.* This section sets forth standards for State agencies' accounting for program income related to projects financed in whole or in part by FNS program funds.

(b) *Meaning of program income.* As used in this section, the term "program income" shall have the meaning set forth for that term in § 275.9(b).

(c) *Interest income.* (1) As used in paragraph (c)(2) of this section and in accordance with section 102 of the Intergovernmental Cooperation Act of 1968, the term "State" means any of the several States of the United States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State.

(2) In accordance with section 203 of the Intergovernmental Cooperation Act of 1968, States shall not be held accountable for interest earned on program funds, pending their disbursement for program purposes.

(d) *Sale of personal property.* Proceeds from the sale of tangible personal property whose acquisition cost was borne in whole or in part by FNS program funds shall be handled in accordance with § 275.14.

(e) *Royalties*—(1) *Applicability*—(i) *Copyrights.* This section applies to royalties received by State agencies from copyrights on publications or other works developed under FNS program funds.

(ii) *Patents.* This section also applies to royalties received by State agencies from patents on inventions conceived or first actually reduced to use in the course of or under any FNS program fund.

(2) *During the program fund period.* If the State agency receives royalties during the operation of the Food Stamp Program, they may be handled in one of two ways:

(i) Such royalties shall be used by the State agency for any purposes which further the objectives of the Food Stamp Act, or

(ii) Such royalties shall be deducted from total projects costs for the purpose of determining the net costs on which the FNS share of costs shall be based. When a State receives income from patents the State agency shall elect either of the alternatives specified in this paragraph if the terms and conditions of the Statewide cost allocation plan or the State's indirect cost rate proposal do not specify which is to be followed. If the funds were received by a subagency, disposition of royalties received during the period covered by the funding shall be governed by agreements as provided in paragraphs (e)(3)(i)(a) and (e)(3)(ii) of this section.

(3) *After the program fund period*—(i) *Copyrights.* (A) Disposition of copyright royalties received after the termination or completion of the program fund period should ordinarily be governed by specific agreements between FNS and the State agency. Such agreements may be negotiated on a case-by-case basis, or may be in the form of a standard rule or policy of FNS agreed to by the State agency as one of the conditions of receipt of program funds.

(B) If a State is given program funds and no other agreement between the FNS and State agency is applicable, the Federal share of copyright royalties in excess of $200 received annually shall be paid by the State agency to FNS. In such cases, the FNS share of the royalties shall be computed on the same ratio basis as the percentage of FNS participation in the cost of the project or program. This percentage of participation shall be determined in accordance with § 275.14(k)(1).

(ii) *Patents.* Disposition of patent royalties received after the termination or completion of the program fund period shall be governed by agreements between USDA and the State agency.

(f) *Other program income.* (1) This paragraph applies to all program income earned during the operation of the Food Stamp Program except royalties and proceeds from the sale of real property or tangible personal property.

(2) All such income earned during the operation of the Food Stamp Program shall be retained by the State agency. The terms and conditions of the Statewide cost allocation plan or State's indirect cost rate proposal shall provide either:

(i) That such income shall be used by the State agency for any purposes which further the objectives of the Food Stamp Act.

(ii) That such income shall be deducted from total project costs for the purpose of determining the net costs on which the FNS share of costs shall be based.

(3) The State agency shall elect either of the alternatives specified in paragraph (f)(2) of this section if the terms and conditions of the Statewide cost allocation plan or State's indirect cost rate proposal do not specify which is to be followed.

(g) *Earmarked Revenues of State Agencies.* State agencies shall record the receipt and expenditure of revenues such as taxes, special assessments, levies, fines, etc., as a part of program fund transactions when such revenues are specifically earmarked for program fund projects in accordance with the terms and conditions of the Statewide cost allocation plan or the State's indirect cost rate proposal.

§ 275.7 Payments to State agencies.

(a) *Purpose and scope.* This section sets forth standards for the allowability of and for evaluation of the costs of activities and property which may be considered as State agency costs of administration of the Food Stamp Program.

(b) *Definitions.* "State agency costs" means the State agency cash outlay from funds available to it for program administration. Unless authorized by Federal legislation, outlays charged to other Federal grants or to Federal contracts may not be considered as State agency costs.

"Funds available to the State agency" may include contributions from third parties, including Federal agencies.

"In-Kind contributions" means the value of noncash contributions provided by the State agency or other agency of the State. In-kind contributions may consist of charges for real property and nonexpendable personal property, and the value of goods and services directly benefiting and specifically identifiable to Food Stamp Program administration. Unless otherwise authorized by Federal legislation, charges for property purchased wholly with Federal funds, and charges based on the Federal share of the value of property purchased partly with Federal funds may not be considered as the State agency in-kind contributions. Such charges may be considered as in-kind contributions to the State after exclusion of amounts previously funded.

(d) *Allowable charges.* (1) Charges incurred by the State agency as project costs. Not all charges require cash outlays during the program fund period by the State agency; examples are depreciation and use allowances for buildings and equipment.

(2) Project costs which are financed with contributions are acceptable if: (i) The contributions are transferred to the State agency and are under its administrative control, (ii) Are contributed on an unrestricted basis (except that funds contributed to support a specific activity may be acceptable provided that the contributing organization is not the sponsor or operator of the activity being funded).

(3) Project costs financed with contributions are not acceptable where such contributions are: (i) Funds which revert to the contributor's facility or use (ii) Funds which are earmarked for a particular individual or for members of a particular organization.

(4) In-Kind contributions by the State agency or other agency of the State for program purposes shall be accepted as part of the State agency's administrative costs when such contributions:

(i) Are identifiable from the State agency's records; and

(ii) Are not included as contributions for any other federally assisted program, or any Federal contract, and

(iii) Are necessary and reasonable for proper and efficient accomplishment of Food Stamp Program objectives, and

(iv) Are types of costs which are allowable under the applicable cost principles specified in § 275.16 and Appendix A to this part, and

(v) Are in conformance with other applicable provisions of this section.

(d) *In-Kind Contributions from Third Parties.* Neither the value of services rendered by volunteers nor the value of in-kind contributions by third parties shall be allowable.

§ 275.8 Standards for State Agency or Subagency or Contractor financial management systems.

(a) *Scope.* This section prescribes standards for financial management sys-

XUM
V 39 N 243 DEC 17 1974
XUM

tems for administration of Food Stamp Program funds by the State agency and its subagencies or contractors. Neither the USDA nor FNS will impose additional standards. However, suggestions and assistance may be provided in establishing or improving financial management systems when needed or requested.

(b) *Standards.* Financial management systems for FNS funds in the State agency or with its subagencies or contractors shall provide for:

(1) Accurate, current and complete disclosure of the financial results of each program activity in accordance with the Federal reporting requirements and for each subagency or contractor in accordance with the State agency's requirements. Except when specifically required by law, FNS will not require financial reporting on the accrual basis from organizations whose records are not maintained on that basis. However, when accrual reporting is required by law, organizations whose records are not maintained on that basis, will not be required to convert their accounting system to the accrual basis, they may develop the accrual information through an analysis of the documentation on hand or on the basis of best estimates.

(2) Records which identify adequately the source and application of funds for FNS or State agency supported activities. These records shall contain information pertaining to activities of the State agency or its subagencies or contractors and authorizations, obligations, unobligated balances, assets, liabilities, outlays and income.

(3) Effective control over and accountability for all FNS or State agency funds and personal property acquired with FNS or State agency funds. State agencies and subagencies or contractors shall adequately safeguard all such property and shall assure that it is used solely for authorized purposes.

(4) Comparison of actual with budgeted amounts for the State agency or its subagencies or contractors and the relationships of financial information to disbursement by the State agency. Including the production of unit cost data.

(5) Procedures to minimize the time elapsing between the transfer of funds from the United States Treasury and the disbursement by the State agency. In the letter-of-credit system, the State agency shall make drawdowns from the United States Treasury through a United States Treasury Regional Disbursing Office as nearly as possible to the time of making the disbursements.

(6) Procedures for determining the allowability and allocability of costs in accordance with the applicable provisions prescribed by § 275.16 and Appendix A to this part.

(7) Accounting records which are supported by source documentation.

(8) Audits to be made by the State or at its direction to determine, at a minimum, the fiscal integrity of State agency or subagency or contractor financial transactions and reports, and the compliance with the terms and conditions of these regulations. The State agency or its subagency or contractors will schedule such audits with reasonable frequency, usually annually, but not less frequently than once every two years, considering the nature, size and complexity of the activity.

(9) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(c) *Subagencies or contractors.* The standards in § 275.8(b), as they apply to subagencies or contractors shall be included in the terms and conditions of contracts awarded under FNS funding.

§ 275.9 Financial Reporting Requirements.

(a) *Scope.* This section prescribes requirements for State agencies to report financial information to FNS, and specifies standard forms incident thereto.

(b) *Definitions.* As used in this section and in the forms identified by the section:

"Accrued expenditures" are the charges incurred by the State agency during a given period requiring the provision of funds for: Goods and other tangible property received; services performed by employees, contractors, subagencies, and other payees; and amounts becoming owed under functions for which no current services or performance are required.

"Accrued income" is the earnings during a given period which is a source of funds resulting from services performed by the State agency, goods and other tangible property delivered to the purchasers, and amounts becoming owed to the State agency for which no current services or performance are required by the State agency.

"Disbursements" are payments in cash or by check.

"Federal funds authorized" represents the total amount of the Federal funds authorized for obligations and establishes the ceiling for obligation of Federal funds. This amount may include any authorized carryover of unobligated funds from prior fiscal years.

"In-Kind contributions" represent the value of noncash contributions provided by the State agency. In-kind contributions may consists of charges for real property and nonexpendable personal property, and value of goods and services directly benefiting and specifically identifiable to the Federal payment supported activity. Unless otherwise authorized by Federal legislation, charges for property purchased wholly with Federal funds, and charges based on the Federal share of the value of property purchased partly with Federal funds may not be considered as the State agency's in-kind contributions.

"Obligations" are the amounts of orders placed, contracts and program funds provided, services received, and similar transactions during a given period which will require payment during the same or a future period.

"Outlays" represent charges made to the State agency. Outlays may be reported on a cash or accrued expenditure basis.

"Program income" represents earnings by the State agency realized from the activities supported by FNS. Such earnings exclude interest income and may include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, sale of assets purchased with Federal program funds, and royalties on patents and copyrights. Program income may be reported on a cash or accrued income basis.

"Unobligated balance" is the portion of the funds authorized by FNS which has not been obligated by the State agency and is determined by deducting the cumulative obligations from the funds authorized.

"Unpaid obligation" represents the amount of obligations incurred by the State agency which have not been paid.

(c) *Authorized forms and instructions.*—(1) Only those forms specified by this part, and such supplementary or other forms as may from time to time be authorized by GSA or FNS, may be used, for obtaining financial information from State agencies for the Food Stamp Program.

(2) All applicable standard instructions promulgated by GSA for use in connection with the form specified in this part, shall be followed. FNS may prescribe substitute supplementary instructions only with the approval of GSA.

(3) State agencies shall submit the original and two copies of forms required pursuant to this section. However, FNS may waive the requirement for the second copy, or both copies, when not needed.

(4) The forms (with their instructions) specified in this part shall be available to the State agencies and to the public upon request to the appropriate Regional Office of FNS as set out in § 270.5 of this subchapter.

(d) *Financial status report.*—(1) *Form.* State agencies shall use the standard Financial Status Report (Form AD-526) to report the status of funds for the Food Stamp Program.

(2) *Accounting basis.* Each State agency shall report outlays and program income on the same accounting basis, i.e., cash or accrued expenditure (accrual), which is used in maintaining its accounting records. The basis used by a State agency must be consistent for all programs it administers and for which it is claiming against the Federal Government.

(3) *Frequency.* The report (Form AD-526) shall be required quarterly.

(4) *Due date.* Quarterly reports shall be due 30 days after the end of each quarter. Final reports shall be due 90 days after the completion or termination of financial support. Justified requests from individual State agencies for extension of reporting due dates will be approved whenever feasible.

(e) *Report of Federal cash transactions.*—(1) *Form.* When funds are advanced to State agencies through letters of credit, each State agency shall submit the Report of Federal Cash Transactions

(Form AD-427). This report will be used by FNS to monitor cash advanced to State agencies and to obtain disbursement or outlay information for the program from the State agency. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment, provided that the information to be submitted is not changed.

(2) *Forecasts of Federal cash requirements.* Forecasts of Federal cash requirements may be required in the "Remarks" section of the report.

(3) *Cash in hands of subagencies.* When deemed necessary and feasible by the responsible Federal finance officer, State agencies may be required to report in the "Remarks" section of the report the amount of cash advances in excess of three days' requirements in the hands of subagencies, and to provide short narrative explanations of actions taken by the State agency to reduce the excess balances.

(4) *Frequency and due date.* State agencies shall submit the Report of Federal Cash Transactions (Form AD-427) no later than 15 working days following the end of each month.

(5) *Waiver.* FNS may waive the requirement for submission of the Report of Federal Cash Transactions when a State agency's monthly advances do not exceed $10,000: *Provided,* That such advances are monitored through other forms authorized pursuant to this part, or the State agency's accounting controls are adequate to minimize excessive Federal advances.

§ 275.10 Monitoring and reporting program performance.

Specific requirements for State agency reporting on the effectiveness of program administration and the conditions under which FNS will continue to make funds available to State agencies will be published in this section after compliance with proposed rulemaking procedures. In the interim, State agencies may receive payments upon compliance with the other provisions of this subchapter. This procedure is intended to permit State agencies a reasonable period of time to utilize the additional funding available to them to take such actions as may be necessary to improve program administration prior to implementation of regulations which could result in suspension or cancellation of funding.

§ 275.11 Payment requirements.

(a) *Scope.* This section sets forth FNS methods of making payments to State agencies. These methods will minimize the time elapsing between the disbursement by the State agency and the transfer of funds from the United States Treasury to the State agency, whether such disbursement occurs prior to or subsequent to the transfer of funds.

(b) *Definition.* "Letter of credit" (Treasury Form BA-7577-test) is an instrument certified by an authorized official of FNS which authorizes a State agency to draw funds when needed from the United States Treasury through a United States Treasury Regional Disbursing Office, in accordance with the provisions of Treasury Circular 1075.

(c) *General.* Effective July 1, 1975, the United States Treasury Regional Disbursing Office Letter of Credit will be the method of payment to all State agencies. Until the letter of credit is established in each State, State agencies will continue to be paid in accordance with current procedures—that is by claims for reimbursement of State agency costs or by request for advance of funds at the rates provided by this subchapter.

(d) *Conditions for payment.* Letters of credit will be used to pay State agencies when all of the following conditions exist:

(1) There is or will be a continuing relationship between the State agency and FNS for at least a 12-month period and the total amount of advances to be received from FNS is $120,000 or more, an exception to Treasury Circular 1075, and

(2) The State agency has established or demonstrated to FNS the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds from the Treasury and their disbursement by the State agency, and

(3) The State agency's financial management system meets the standards for fund control and accountability prescribed in § 275.8.

(4) A State agency has requested payment in accordance with the terms of the letter of credit through proper execution and submission to the appropriate United States Treasury Regional Disbursing Office and submission of a copy to FNS of Request for Payment on Letter of Credit and Status of Funds Report (Treasury Form GFO-7578-test).

(e) *Withholding of payments.* Unless otherwise required by law, payments for proper charges incurred by State agencies will not be withheld unless: (1) Payments to State agencies are suspended or cancelled pursuant to § 275.13; or (2) The State agency is indebted to the United States and collection of the indebtedness will not impair the accomplishment of the objectives of any program sponsored by the United States; or (3) The State agency fails to comply with the performance and performance reporting requirements of § 275.10. When a payment is suspended or cancelled, payment adjustments will be made in accordance with § 275.13. When an indebtedness is to be collected, FNS will provide reasonable notice to the State agency, and will require appropriate accounting adjustments to recorded cash balances for which the State agency is accountable to the Federal Government, in order to liquidate the indebtedness.

§ 275.12 Budget and Budget Revision Procedures.

(a) *Scope.* This section prescribes criteria and procedures to be followed by State agencies in reporting deviations from Food Stamp Program budgets and requesting approvals for budget revisions which would require change in the letter of credit.

(b) *Definition.* The term "program budget" as used in this section means a State agency's best estimate of those amounts to be expended in Food Stamp Program administration during a Federal fiscal year.

(c) *Requirement.* The program budgets shall be submitted to FNS 45 days prior to the expiration of the current fiscal year. The program budget must be submitted in sufficient detail to identify the amount which the State will commit to the various operations of the Food Stamp Program.

(d) *Program funds.* (1) For program funds, State agencies shall request prior approvals promptly from FNS for budget revisions whenever:

(i) The revision indicates the need for additional Federal funding.

(ii) The program budget is over $100,000, and the cumulative amount of transfers among program functions exceeds or is expected to exceed $10,000, or five percent of the program budget, whichever is greater. The same criteria apply to the cumulative amount of transfers among functions and activities when budgeted separately for a budget of a subagency, except that FNS shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(iii) The program budget is $100,000, or less, and the cumulative amount of transfers among program functions exceeds or is expected to exceed five percent of the program budget. The same criteria apply to the cumulative amount of transfers among functions and activities when budgeted separately for program funds provided to a subagency, except that FNS shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(iv) The revisions involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs.

(v) The revisions pertain to the addition of items requiring prior approval by FNS in accordance with the provisions of the applicable cost principles specified in this part.

(2) No other changes to the program fund budget require approval from FNS. Examples of changes which do not require Federal approval are: The use of State agency funds in furtherance of program objectives over and above the State agency minimum share included in the approved program budget; and the transfer of amounts budgeted for direct costs to absorb authorized increases in indirect costs.

(3) The requirements of paragraphs (d)(1)(ii) and 1(iii) of this section may be waived by FNS: *Provided,* however, That

(i) No different limitation or approval requirement for cumulative transfers may be imposed, and

(ii) FNS shall in no case permit a transfer which would cause any Federal appropriation, or part, thereof, to be

used for purposes other than those intended.

(e) *Authorized funds exceeding State Agency needs.* When it becomes apparent that the funds authorized by the letter of credit will exceed the needs of the State agency, FNS will make appropriate adjustments in the letter of credit.

(f) *Method of requesting approvals.* When requesting approval for budget revisions, State agencies shall use the budget format which was used in the previous submission. However, State agencies may request by letter the approvals required by paragraph (d)(1)(v) in the section entitled "Program Funds."

(g) *Notification of approval or disapproval.*—Within 30 days from the date of receipt of the request for budget revisions, FNS shall review the request and notify the State agency whether or not the budget revisions have been approved. If the revision is still under consideration at the end of 30 days, FNS shall inform the State agency in writing as to when the State agency may expect the decision.

§ 275.13 Suspension or cancellation of payments and program closeout.

(a) *Definitions.* "Suspension" means an action by FNS which temporarily suspends a payment or payments to a State agency pending corrective action by the State agency or pending a decision by FNS to cancel the payment or payments or to terminate the program.

"Cancellation" means a decision to cancel a payment or payments, in whole or in part, to a State agency.

"Termination" means a direction to a State agency to discontinue issuing coupons in a project area or areas where FNS has determined that the State agency has substantially failed to comply with the provisions of this subchapter, or when the State agency and FNS have agreed to discontinue the program in a project area or areas.

"Program Closeout" means the process by which FNS determines that all applicable administrative actions and all necessary financial accounting processes have been completed by the State agency and FNS in order to accomplish termination of the Food Stamp Program in the affected project area or areas.

(b) *Suspension.* When a State agency has materially failed to comply with the terms and conditions of this subchapter, FNS may, after reasonable notice to the State agency suspend program funds for all or any functions required for administration of the Food Stamp Program. Appropriate adjustments to the payments under the suspended functions will be made, either by withholding the payments or by not allowing the State agency credit for disbursements which it may make in liquidation of unauthorized obligations it incurs during the period of suspension. Suspensions shall remain in effect until the State agency has taken corrective action to the satisfaction of FNS, or gives assurances to FNS that corrective action will be taken, or until FNS cancellation of payment.

(c) *Cancellation.* (1) Cancellation for cause. FNS may cancel a payment or payments, in whole or in part, at any time whenever it is determined that the State agency has materially failed to comply with the provisions of this subchapter. FNS shall promptly notify the State agency in writing of the cancellation and the reasons for the cancellation, together with the effective date. Payments made to State agencies or recoveries by FNS after cancellation for cause shall be in accordance with the legal rights and obligations of the parties.

(2) Cancellation on other grounds. Except as provided in paragraph (c)(1) of this section, payments may be cancelled, in whole or in part, only as follows:

(i) By FNS with the consent of the State agency, in which case the two parties shall agree upon the cancellation conditions, including the effective date, and in the case of cancellation of part of a payment, the portion to be cancelled or,

(ii) By the State agency upon written notification to FNS, setting forth the reasons for such cancellation, the effective date, and in the case of cancellation of a part of the payment, the portion to be cancelled.

(iii) When payments are cancelled pursuant to subdivision (i) of this subparagraph, the State agency shall not incur new obligations for the charges which were to be paid with the proceeds of the payments after the effective date of the cancellation. The State agency shall cancel as many outstanding obligations as possible. FNS shall allow, as charges for costs of administration of the Food Stamp Program, noncancellable obligations properly incurred by the State agency prior to cancellation.

(d) *Program closeout.* (1) When termination of a project area or areas has been agreed upon or directed by FNS, the following closeout procedures shall be observed:

(i) Upon request, FNS shall make, or arrange for prompt payment to the State agency for allowable costs not covered by previous payments.

(ii) The State agency shall immediately refund to FNS any unencumbered balance of cash paid to the State agency for the administration of the program in the affected project area or areas.

(iii) The State agency shall submit to FNS within 90 days after the date of termination of the program, all required financial, performance and other reports. FNS may grant extensions when requested by the State agency.

(iv) FNS shall adjust the amount authorized by the letter of credit in order to effect payment of any amounts due the State agency, and if appropriate, shall bill the State agency for any amounts due FNS. The amounts of such billings shall be promptly remitted to FNS.

(v) In the event a final audit has not been performed prior to the closeout of the program, FNS shall retain the right to recover an appropriate amount after fully considering the recommendation on questionable matters resulting from the final audit.

(2) The provisions of § 275.14 shall be observed for any property acquired with program funds or received from the Federal Government in connection with the program and which was in use in the affected project area or areas.

(e) *Retroactive adjustment.* In the event that FNS finds that a State agency has failed to comply substantially with the provisions of this subchapter, retroactive adjustments may be made to accomplish the purposes of suspension, cancellation, or termination.

§ 275.14 Property.

(a) *Scope.* This section prescribes policies and procedures governing title, use, and disposition of real and tangible personal property whose acquisition costs were borne, in whole or in part, as a direct charge to FNS funds, and ownership rights of intangible personal property developed, wholly or in part, with FNS funds.

(b) *General.* State agencies may follow their own property management policies and procedures, provided they observe the requirements of this section. With respect to property covered by this section, FNS may not impose on State agencies any requirements (including property reporting requirements) not authorized by this section unless specifically required by Federal law.

(c) *Definitions.* "Acquisition cost" of nonexpendable personal property acquired by purchase means the net invoice price of the property including any attachments, accessories or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Ancillary charges such as taxes, duty, protection in-transit insurance, freight or installation shall be included in or excluded from acquisition cost in accordance with the State agency's regular accounting practices.

"Expendable personal property" means all tangible personal property other than nonexpendable property.

"Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of more than $300 per unit. A State agency may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined herein.

"Personal property" means property of any kind except real property. It may be tangible (having physical existence) or intangible (having no physical existence) such as patents, inventions and copyrights.

"Real property" means land, land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

(d) *Nonexpendable personal property.*—(1) *Title.* Title to nonexpendable personal property whose acquisition cost is borne, in whole or in part, by FNS shall vest in the State agency upon acquisition, and shall be subject to the restrictions on

use and disposition set forth in paragraphs (d) (2) and (3) of this section.

(2) *Use.* (i) The State agency shall use the property in the program as long as there is a need for such property to accomplish the purpose of the program.

(ii) When there is no longer a need for the property to accomplish the purpose of the program, the State agency shall use the property where needed in administration of other programs in the following order of priority:

(A) Other federally funded programs of FNS.

(B) Other federally funded programs of USDA.

(C) Other federally funded programs of other Federal agencies.

(iii) When the State agency no longer has need for such property in any of its federally financed activities, the property may be used for the State agency's own official activities in accordance with the following standards:

(A) If the property had an acquisition cost of less than $500 per unit and has been used four years or more, the State agency may use the property without reimbursement to FNS or sell the property and retain the proceeds.

(B) For all such property not covered under paragraph (d) (2) (iii) (A) of this section, the State agency may retain the property for its own use: *Provided*, That a fair compensation is made to FNS for the FNS share of the property. The amount of such compensation shall be computed by applying the percentage of FNS participation in the cost of the property to the current fair market value of the property.

(3) *Disposition.* If the State agency has no need for the property, disposition of the property shall be made as follows:

(i) If the property had an acquisition cost of $1,000 or less per unit except for property covered under paragraph (d) (2) (iii) (A) of this section the State agency shall sell the property and reimburse FNS in accordance with paragraph (b) (2) (ii) (C) of this section.

(ii) If the property had an acquisition cost of over $1,000 per unit, the State agency shall request disposition instructions from FNS. The FNS shall issue instructions to the State agency within 120 days following the receipt of such request and the following procedures shall govern:

(A) If the State agency is instructed to ship the property elsewhere, the State agency shall be reimbursed with an amount which is computed by applying the percentage of the State agency's participation in the cost of the property to the current fair market value of the property, plus any shipping or interim storage costs incurred.

(B) If the State agency is instructed to otherwise dispose of the property, the State agency shall be reimbursed by FNS for the costs incurred in such disposition.

(C) If disposition or other instructions are not issued within the 120-day period specified in paragraph (d) (3) (ii) of this section, the State agency shall sell the property and reimburse FNS with an amount which is computed by applying the percentage of FNS participation in the cost of the property to the sales proceeds. The State agency may, however, deduct and retain from such amount $100 or 10 percent of the total sales proceeds, whichever is greater, for the State agency selling and handling expenses.

(e) *Transfer of Title to certain property.* (1) Where FNS determines that an item of nonexpendable personal property with an acquisition cost of $1,000 or more which is to be wholly borne by FNS is unique, difficult or costly to replace, FNS may reserve the right to require the State agency to transfer title to the property to the Federal Government or to a third party named by FNS.

(2) Such reservation shall be subject to the following:

(i) The right to require transfer of title may be reserved only by means of an express special condition under which funds were authorized for acquisition of the property, or, if approval for the acquisition of the property is given after the funds are awarded, by means of a written stipulation at the time such approval is given.

(ii) The property must be sufficiently described to enable the State agency to determine exactly what property is involved.

(3) FNS may not exercise the right until the State agency no longer needs the property in the activity for which it was acquired. Such need shall be assumed to end with termination of the activity in which the property was used unless the State agency continues to use the property in other program-related activities after the termination date and demonstrates to FNS a continued need for such use in the program.

(4) In order to exercise the right, the Federal Government must issue disposition instructions to the State agency not later than 120 days after the State agency no longer needs the property in the activity for which it was acquired. If instructions are not issued within that time, FNS' right shall lapse, and the State agency shall act in accordance with the applicable standards in paragraph (d) (2) and (d) (3) (ii) of this section.

(5) The State agency shall be entitled to reimbursement for any shipping and interim storage costs it incurs pursuant to the Federal Government's disposition instructions.

(f) *Property Management Standards.* State agencies' property management standards for nonexpendable personal property covered by § 276.14(d) shall include the following procedural requirements:

(1) Property records shall be maintained accurately and provide for:

(i) A description of the property.

(ii) Manufacturer's serial number or other identification number.

(iii) Acquisition date and cost.

(iv) Source of the property.

(v) Percentage of FNS funds used in the acquisition of the property.

(vi) Location, use and condition of the property; and

(vii) Ultimate disposition data including sales price or the method used to determine current fair market value if the State agency reimburses FNS for its share.

(2) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years to verify the existence, current utilization and continued need for the property.

(3) A control system shall be in effect to insure adequate safeguards to prevent loss, damage or theft to the property. Any loss, damage or theft of nonexpendable personal property shall be investigated and properly documented.

(4) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(5) Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.

(g) *Expendable personal property.* (1) Consumable materials and supplies. The cost principles prescribed by § 276.16 and Appendix A of this part provide, in effect, that the cost of consumable supplies or materials is allowable only to the extent that the supplies or materials are reasonably necessary to carry out the program. Amounts in excess of need are therefore not allowable costs.

(2) Other expendable personal property. In many cases, items of expendable personal property (other than consumable supplies or materials) whose acquisition cost was borne, in whole or in part, by FNS have a useful life longer than the period of need on the program for which they were required. The State agency may at its option either retain or sell such items when no longer needed for any federally sponsored activity (including activities sponsored by other Federal agencies). However, compensation to FNS shall be required if the aggregate fair market value of all such items acquired under the same FNS funding exceeds $500 when no longer needed for any federally sponsored activity. The amount of compensation shall be computed by applying the percentage of FNS participation in the cost of the property to the current fair market value of items retained, and to the sale proceeds of items sold.

(h) *Waiver of accountability.* (1) Where authorized under Federal Law (*e.g.*, (42 U.S.C. 1892) Pub. L. 85-934) title to tangible personal property whose acquisition cost is borne, in whole or in part, by program funds shall vest in the State agency without regard to any other requirements of this part and without further obligation to the Federal Government, except as provided in paragraph (h) (2) of this section.

(2) When title to an item of property having an acquisition cost of $1,000 or more is vested in the State agency pursuant to paragraph (d) of this section, FNS shall have the right to require the State agency to transfer title to the item of property to the Federal Government or to a third party named by FNS. The

right may be exercised at any time, but no later than 12 months after FNS has received the final Financial Status Report (or other final financial report serving an essentially equivalent function) from the State agency after completion or termination of the activity for which the property was acquired. If the right is exercised, the State agency shall be entitled to reimbursement for the costs incurred in transferring the property.

(i) *Patents and inventions.* If any program activity produces patents, patent rights, processes or inventions in the course of work aided by FNS, such fact shall be promptly and fully reported to FNS. FNS shall determine whether protection on such invention or discovery shall be sought and how the rights in the invention or discovery—including rights under any patent issued thereon—shall be disposed of and administered in order to protect the public interest consistent with "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971), and Statement of Government Patent Policy as printed in 36 CFR 16123.

(j) *Copyrights.* When a program activity results in a book or other copyrightable material, the author or State agency is free to copyright the work, but FNS reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use the work for government purposes.

(k) *Determining percentage of participation.* (1) Various provisions in this part require a determination of the percentage of FNS participation in the cost of the property in order to compute the amount of compensation for the value, or proceeds from sale of property. In determining the applicable percentage, there shall first be deducted from the allowable costs incurred during the appropriate period any royalties or other income (not including interest income or proceeds from sale of property) earned by the program activity during such period.

(2) The deduction of income required by paragraph (k) of this section is independent of, and is not intended to control, the disposition of such income pursuant to § 275.6.

§ 275.15 Procurement standards.

(a) *Scope.* This section provides standards for use by State agencies in establishing procedures for the procurement of supplies, equipment, construction and other services whose cost is borne in whole or in part as a direct charge to FNS. These standards are furnished to insure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal laws and Executive Orders. No additional procurement standards will be imposed by FNS upon State agencies unless specifically required by Federal laws or Executive Orders.

(b) *General.* (1) State agencies may use their own procurement policies provided that procurements whose cost is borne, in whole or in part, as a direct charge to FNS adhere to the standards set forth in this part.

(2) The standards contained in this part do not relieve the State agency of the responsibilities arising under its contracts. The State agency is the responsible authority for the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of the program. This includes, but is not limited to, disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State or Federal authority as may have proper jurisdiction.

(c) *Code of conduct.* The State agency shall maintain a code or standard of conduct which shall govern the performance of its officers, employees or agents in contracting with and expending FNS funds. The State agency's officers, employees or agents shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors or potential contractors. To the extent permissible under State or local law, rules or regulations, such standards shall provide for appropriate penalties, sanctions or other disciplinary actions to be applied for violations of such standards either by the State agency's officers, employees or agents or by contractors or their agents.

(d) *Free competition.* All procurement transactions of the State agency regardless of whether negotiated or advertised and without regard to dollar value shall be conducted in a manner so as to provide maximum open and free competition. The State agency should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(e) *Procedural requirements.* The State agency shall establish procurement procedures which provide for, as a minimum, the following:

(1) Proposed procurement actions shall be reviewed by appropriate State agency officials to avoid purchasing unnecessary or duplicate items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical and practical procurements.

(2) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient features of a procurement, and when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(3) Positive efforts shall be made by the State agencies to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed with FNS funds.

(4) The type of procuring instruments used (i.e., fixed-price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.) shall be appropriate for the particular procurement and for promoting the purposes of the program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(5) Formal advertising, with adequate purchase description, sealed bids and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (f) of this section is necessary to accomplish sound procurement. However, procurements of $2,500 or less need not be so advertised unless otherwise required by State or local laws, rules or regulations. When formal advertising is employed by the State agency:

(i) The awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the State agency, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid.

(ii) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State agency.

(iii) Any or all bids may be rejected when it is in the State agency's interest to do so, and such rejections are in accordance with applicable State or local law, rules and regulations.

(f) *Negotiated procurements by State agencies.* (1) Procurements may be negotiated by State agencies if it is not practicable or feasible to use formal advertising. Generally, procurements may be negotiated if one or more of the following conditions prevail:

(i) The public exigency will not permit the delay incident to advertising;

(ii) The material or service to be procured is available from only one person or firm; all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to FNS for prior approval;

(iii) The aggregate amount involved does not exceed $2,500;

(iv) The contract is for personal or professional services, or for any services to be rendered by a university, college or other educational institution;

(v) No acceptable bids have been received after formal advertising;

(vi) The purchase is for highly perishable materials, for materials or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, and for technical or specialized supplies requiring substantial initial investment for manufacture;

(vii) Negotiation is otherwise authorized by applicable Federal, State or local law, rules or regulations.

(2) Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable.

(g) *Contractor responsibility.* Contracts shall be made by State agencies only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, and accessibility of other necessary resources.

(h) *Records for negotiated procurements by State Agencies.* The procurement records or files of State agencies for negotiated purchases in amounts in excess of $2,500 shall include the following pertinent information: justification for the use of negotiation in lieu of advertising, contractor selection and the basis for the cost or price negotiated. Justification for the use of negotiation in lieu of advertising may be provided on a class basis or on an individual contract basis.

(i) *Contract Administration System.* A system for contract administration shall be maintained by the State agency to assure contractor compliance with terms, conditions and specifications of the contract or order and to assure adequate and timely follow up of all purchases.

(j) *Contract provisions.*—(1) *General.* (i) The State agency shall establish procedures to define a sound and complete agreement in all contracts which it awards when the contract costs are to be borne as a direct charge, in whole or in part, to FNS.

(ii) In awarding such contracts, the State agency must comply with the applicable requirements of paragraphs (j) (2) and (3) of this section.

(2) *Provisions.* (i) Contracts shall contain contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(ii) All contracts awarded by State agencies in excess of $2,500 shall contain suitable provisions for termination by the State agency including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall set forth the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of, circumstances beyond the control of the contractor.

(iii) In all contracts for construction or facility improvement awarded in excess of $100,000, the bonding requirements set forth in § 275.3 shall be observed.

(iv) All negotiated contracts (except those of $2,500 or less) shall include provisions giving access to, and requiring retention of, the contractor's records in accordance with § 275.4.

(3) *Compliance provisions.* (i) Provisions for compliance with Executive Order 11246, entitled, "Equal Employment Opportunity" as supplemented in Department of Labor regulations (41 CFR Part 60) shall be included in all contracts to which they are applicable.

(ii) All contracts in excess of $2,000 for construction or repair shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as implemented in Department of Labor regulations (29 CFR Part 3). The State agency shall report all suspected or reported violations to FNS.

(iii) All construction contracts awarded by State agencies in excess of $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a–7) as supplemented by Department of Labor regulations (29 CFR Part 5). The State agency shall report all suspected or reported violations to FNS.

(iv) All construction contracts exceeding $2,000 awarded by State agencies and all other contracts awarded by them which exceed $2,500 and which involve the employment of mechanics and laborers, shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as implemented by Department of Labor regulations (29 CFR Part 5).

(v) All research or development contracts shall contain a notice to the effect that rights to inventions conceived or first actually reduced to practice in the course of or under the agreement shall be governed by "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971), and Statement of Government Patent Policy as printed in 36 CFR 16889. The State agency shall assure that the performer of the research or development work either is given all necessary information regarding these matters, or is advised as to the source of such information. This subdivision shall also apply to nonresearch and nondevelopment contracts in fields of science or technology in which there has been little significant experience, outside of work funded by the Federal Government.

(vi) Contracts in excess of $100,000 shall contain a provision which requires the contractor to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act of 1970, as amended (42 U.S.C. 1857b. et seq.). Suspected violations shall be reported by the State agency in writing to the Regional Office of the United States Environmental Protection Agency, with a copy to FNS.

§ 275.16 Cost Principles.

The cost principles set out in Appendix A shall apply.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date: This amendment shall become effective December 17, 1974.

(Catalog of Federal Domestic Assistance Programs No. 10.551, National Archives Reference Services)

DECEMBER 12, 1974.

CLAYTON YEUTTER,
Acting Secretary.

Appendix A—Principles for Determining Costs Applicable to Administration of the Food Stamp Program by State Agencies

This appendix sets forth the procedures implementing uniform requirements for the negotiations and approval of indirect cost rate proposals with State agencies, in accordance with the provisions of Federal Management Circular 74–4. This material is adapted substantially from the circular; changes have been made only where necessary in order to conform with legislative constraints. Extraneous material has been deleted.

A. *Purpose and scope.*—(1) *Objectives.* This attachment sets forth principles for determining the allowable costs of Food Stamp Programs administered by State agencies under FNS approved State Plans of Operation. The principles are for the purpose of cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in the financing of the program. They are designed to provide that all federally assisted programs bear their fair share of costs recognized under these principles, except where restricted or prohibited by law. No provision for profit or other increment above cost is intended.

(2) *Policy guides.* The application of these principles is based on the fundamental premises that:

(a) State agencies are responsible for the efficient and effective administration of the Food Stamp Program through the application of sound management practices.

(b) The State agency assumes the responsibility for seeing that Food Stamp Program funds have been expended and accounted for in consistence with underlying agreements and program objectives.

(c) Each State agency, in recognition of its own unique combination of staff facilities and experience, will have the primary responsibility for employing whatever form of organization and management techniques may be necessary to assure proper and efficient administration.

(3) *Application.* These principles will be applied by FNS in determining costs incurred by State agencies receiving FNS payments for administering the Food Stamp Program including costs in cost reimbursement type contracts (including subcontracts).

B. *Definitions.*—(1) *Approval of authorization of FNS* means documentation evidencing consent prior to incurring specific costs.

(2) *Cost allocation plan* means the documentation identifying accumulating, and distributing allowable costs of program administration together with the allocation methods used.

(3) *Cost,* as used herein, means cost as determined on a cash, accrual, or other basis acceptable to FNS as a discharge of the State agency's accountability for FNS funds.

(4) *Cost objective* means a pool, center, or area established for the accumulation of cost. Such areas include organizational units, functions, objects or items of expense, as well as ultimate cost objectives including specific costs, projects, contracts, and other activities.

(5) *Federal agency* means FNS and also any department, agency, commission, or instrumentality in the executive branch of the Federal Government which makes grants

to or contracts with State or local governments.

(6) *Payments for administrative costs* means payments to State agencies pursuant to any agreement whereby FNS provides funds or aid in kind to carry out programs, services, or activities in connection with administration of the Food Stamp Program. The principles and policies stated in this attachment as applicable to program payments in general also apply to any State agency obligations under a cost reimbursement type of agreement performed by a subagency, including contracts and subcontracts.

(7) *Food Stamp Program administration* means those activities and operations of the State agency which are necessary to carry out the purposes of the Food Stamp Act, including any portion of the program financed by the State agency.

(8) *State agency* means the department or agency of the State which is responsible for administration of the Food Stamp Program.

(9) *Local unit* means any political subdivision of government below the State level.

(10) *Other agencies of the State* means departments or agencies of the State or local unit which provide goods, facilities, and services to a State agency.

(11) *Subagencies* means the organization or person to which a State agency makes any payment for acquisition of goods, materials or services for use in administering the Food Stamp Program and which is accountable to the State agency for the use of the funds provided.

(12) *Services*, as used herein, means goods and facilities, as well as services.

(13) *Supporting services* means auxiliary functions necessary to sustain the direct effort involved in administering the Food Stamp Program or an activity providing service to the program. These services may be centralized in the State agency or in some other agency, and include procurement, payroll, personnel functions, maintenance and operation of space, data processing, accounting, budgeting, auditing, mail and messenger service, and the like.

C *Basic guidelines.*—(1) *Factors affecting allowability of costs.* To be allowable under the Food Stamp Program, costs must meet the following general criteria:

(a) Be necessary and reasonable for proper and efficient administration of the program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out the overall responsibilities of State or local governments.

(b) Be authorized or not prohibited under State or local laws or regulations.

(c) Conform to any limitations or exclusions set forth in these principles, Federal laws, or other governing limitations as to types or amounts of cost items.

(d) Be consistent with policies, regulations, and procedures that apply uniformaly to both federally assisted and other activities of the unit of government of which the State agency is a part.

(e) Be accorded consistent treatment through application of generally accepted accounting principles appropriate to the circumstances.

(f) Not be allocable to or included as a cost of any other federally financed program in either the current or a prior period.

(g) Be the net of all applicable credits.

(2) *Allocable costs.* (a) A cost is allocable to a particular cost objective to the extent of benefits received by such objective.

(b) Any cost allocable to a particular program or cost objective under the principles provided for in this attachment may not be shifted to other Federal programs to overcome fund deficiencies, avoid restrictions imposed by law or grant agreements, or for other reasons.

(c) Where an allocation of joint cost will ultimately result in charges to the program, an allocation plan will be required as prescribed in section I.

(3) *Applicable credits.* (a) Applicable credits refer to those receipts or reduction of expenditure-type transactions which offset or reduce expense items allocable to programs as direct or indirect costs. Examples of such transactions are: Purchase discounts; rebates or allowances; recoveries or indemnities on losses; sale of publications, equipment, and scrap; income from personal or incidental services; and adjustments of overpayments or erroneous charges.

(b) Applicable credits may also arise when Federal funds are received or are available from sources other than FNS to finance operations or capital items of the State agency. This includes costs arising from the use or depreciation of items donated or financed by the Federal Government to fulfill matching requirements under another program. These types of credits should likewise be used to reduce related expenditures in determining the rates or amounts applicable to a given program.

D. *Composition of cost.*—(1) *Total cost.* The total cost of a program is comprised of the allowable direct cost incident to its performance, plus its allocable portion of allowable indirect costs, less applicable credits.

(2) *Classification of costs.* There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to a program or other ultimate cost objective. However, it is essential that each item of cost be treated consistently either as a direct or an indirect cost. Specific guides for determining direct and indirect costs allocable under Federal programs are provided in the sections which follow.

E. *Direct costs.*—(1) *General.* Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to the Food Stamp Program, contracts, or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the accumulation of costs pending distribution in due course to programs and other ultimate cost objectives.

(2) *Application.* Typical direct costs chargeable to the Food Stamp Program are:

(a) Compensation of employees for the time and effort devoted specifically to the administration of the program.

(b) Cost of materials acquired, consumed, or expended specifically for the purpose of the program.

(c) Equipment and other approved capital expenditures.

(d) Other items of expense incurred specifically for efficiently and effectively administering the Food Stamp Program.

(e) Services furnished specifically for the program by other agencies, provided such charges are consistent with criteria outlined in Section G of these principles.

F. *Indirect costs.*—(1) *General.* Indirect costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the State agency, as well as those incurred by other departments in supplying goods, services, and facilities, to the State agency. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect cost within a State agency or in other agencies providing services to a State agency. Indirect cost pools should be distributed to benefiting cost objectives on bases which will produce an equitable result in consideration of relative benefits derived.

(2) *State agency indirect costs.* All State agency indirect costs, including the various levels of supervision, are eligible for allocation to the program provided they meet the conditions set forth in this attachment. In lieu of determining the actual amount of State agency indirect cost allocable to the program, the following methods may be used:

(a) *Predetermined fixed rates for indirect costs.* A predetermined fixed rate for computing indirect costs applicable to program administration may be negotiated annually in situations where the cost experience and other pertinent facts available are deemed sufficient to enable the parties to reach an informed judgment (1) as to the probable level of indirect costs in the State agency during the period to be covered by the negotiated rate, and (2) that the amount allowable under the predetermined rate would not exceed actual indirect cost.

(b) *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate under circumstances where the benefits derived from a State agency's indirect services cannot be readily determined as in the case of a small self-contained or isolated activity. When this method is used, a determination should be made that the amount negotiated will be approximately the same as the actual indirect cost that may be incurred. Such amounts negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses of the State agency before allocation to remaining activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

(3) *Limitation on indirect costs.* (a) Some Federal programs may be subject to laws that limit the amount of indirect cost that may be allowed. Agencies that sponsor programs of this type will establish procedures which will assure that the amount actually allowed for indirect costs under each such program does not exceed the maximum allowable under the statutory limitation or the amount otherwise allowable under this attachment, whichever is the smaller.

(b) When the amount allowable under a statutory limitation is less than the amount otherwise allocable as indirect costs under this attachment, the amount not recoverable as indirect costs under a program may not be shifted to another federally sponsored program or contract.

G. *Cost incurred by other agencies of the State.*—(1) *General.* The cost of service provided by other agencies may only include allowable direct costs of the service plus a pro rata share of allowable supporting costs (section B. 13) and supervision directly required in performing the service, but not supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in operations. However, supervision by the head of a department or agency whose sole function is providing the service furnished would be an eligible cost. Supporting costs include those furnished by other units of the supplying department or by other agencies.

(2) *Alternative methods of determining indirect cost.* In lieu of determining actual indirect cost related to a particular service furnished by other agencies of the State, either of the following alternative methods may be used provided only one method is used for a specific service during the fiscal year involved.

(a) *Standard indirect rate.* An amount equal to ten percent of direct labor cost in providing the service performed by other agencies of the State (excluding overtime, shift, or holiday premiums and fringe benefits) may be allowed in lieu of actual allowable indirect cost for that service.

(b) *Predetermined fixed rate.* A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated as set forth in section F(2)(a).

H. *Cost incurred by State agency for others.*—(1) *General.* The principles provided in section G will also be used in determining the cost of services provided by the State agency to another agency.

I. *Cost allocation plan.*—(1) *General.* A plan for allocation of costs will be required to support the distribution of any joint costs related to the program. All costs included in the plan will be supported by formal accounting records which will substantiate the propriety of eventual charges.

(2) *Requirements.* The allocation plan of the State agency should cover all joint costs of the department as well as costs to be allocated under plans of other agencies or organizational units which are to be included in the costs of federally sponsored programs. The cost allocation plans of all the agencies rendering services to the State agency, to the extent feasible, should be presented in a single document. The allocation plan should contain, but not necessarily be limited to, the following:

(a) The nature and extent of services provided and their relevance to the federally sponsored programs.

(b) The items of expense to be included.

(c) The methods to be used in distributing cost.

(3) *Instructions for preparation of cost allocation plans.* The Department of Health, Education and Welfare, in consultation with the other Federal agencies concerned, will be responsible for developing and issuing the instructions for use by States in preparation of cost allocation plans. This responsibility applies to both central support services at the State and local government level and indirect cost proposals of individual State agencies.

(4) *Negotiation and approval of indirect cost proposals for States.* (a) The Department of Health, Education and Welfare, in collaboration with the other Federal agencies concerned, will be responsible for negotiation, approval, and audit of cost allocation plans, which will be submitted to it by the States. These plans will cover central support service costs of the State.

(b) At the State agency level in any State, a single Federal agency will have responsibility similar to that set forth in (a), above, for the negotiation, approval, and audit of the indirect cost proposal. Cognizant Federal agencies have been designated for this purpose. In the case of the Food Stamp Program this is HEW's Social and Rehabilitation Service. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education and Welfare in collaboration with the other interested agencies, and submitted to the General Services Administration for final approval. A current list of agency assignments will be maintained by the Department of Health, Education and Welfare.

(c) Questions concerning the cost allocation plans approved under (a) and (b), above, should be directed to the agency responsible for such approvals.

(5) *Negotiation and approval of indirect cost proposals for State agencies.* (a) Cost allocation plans will be retained at the State agency level for audit by SRS or USDA except in those areas where either agency requests that cost allocations plans be submitted to it for negotiation and approval.

(b) A list of cognizant Federal agencies assigned responsibility for negotiation, approval and audit of central support service cost allocation plans at the local government level is being developed. Changes which may be required from time to time in agency assignments will be arranged by the Department of Health, Education and Welfare in collaboration with the other interested agencies, and submitted to the General Services Administration for final approval. A current list of agency assignments will be maintained by the Department of Health, Education and Welfare.

(c) At the State agency level, the Federal agency with the predominant interest in the work of the State agency will be responsible for necessary negotiations, approval and audit of the indirect cost proposal.

(6) *Resolution of problems.* To the extent that problems are encountered among the Federal agencies in connection with (4) and (5) above, the General Services Administration will lend assistance as required.

STANDARDS FOR SELECTED ITEMS OF COST

A. *Allowable Costs.*—Standards for allowability of costs are established by Federal Management Circular 74–4. These standards will apply regardless of whether a particular item of cost is treated as direct or indirect. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable, rather determination of allowability in each case should be based on the treatment of standards provided for similar or related items of cost. The allowability of the selected items of cost is subject to the general policies and principles as stated in Attachment A to Circular 74–4.

(1) *Accounting.* The cost of establishing and maintaining accounting and other information systems required for the management of Federal programs is allowable. This includes cost incurred by central agencies for these purposes. The cost of maintaining central accounting records required for overall State or local government purposes, such as appropriation and fund accounts by the Treasurer, Comptroller, or similar officials, is considered to be a general expense of government and is not allowable.

(2) *Advertising.* Advertising media includes newspaper, magazines, radio and television programs, direct mail, trade papers, and the like. The advertising costs allowable are those which are solely for:

(i) Recruitment of personnel required for the program.

(ii) Solicitation of bids for the procurement of goods and services required.

(iii) Disposal of scrap or surplus materials acquired in the performance of the agreement.

(iv) Other purposes specifically provided for in the administration of the Food Stamp Program.

(3) *Advisory Councils.* Costs incurred by State advisory councils or committees established pursuant to Federal requirements to carry out programs are allowable. The cost of like organizations is allowable when used in improving the efficiency and effectiveness of the program.

(4) *Audit Service.* The cost of audits necessary for the administration and management of functions related to the program is allowable.

(5) *Bonding.* Costs of premiums on bonds covering employees who handle Federal program funds or food coupons are allowable. The amount of allowable coverage shall be limited to the anticipated maximum amount of USDA funds or food coupons handled at one time by that employee.

(6) *Budgeting.* Costs incurred for the development, preparation, presentation, and execution of budgets are allowable. Costs for services of a central budget office are generally not allowable since these are costs of general government. However, where employees of the central budget office actively participate in the State agency's budget process, the cost of identifiable services is allowable.

(7) *Building lease management.* The administrative cost for lease management which includes review of lease proposals, maintenance of a list of available property for lease, and related activities is allowable.

(8) *Central stores.* The cost of maintaining and operating a central stores organization for supplies, equipment, and materials used either directly or indirectly for the Food Stamp Program is allowable.

(9) *Communications.* Communication costs incurred for telephone calls or service, telegraph, teletype service, wide area telephone service (WATS), centrex, telpak (tie lines), postage, messenger service and similar expenses are allowable.

(10) *Compensation for personal services.*—(i) *General.* Compensation for personal services includes all remuneration, paid currently or accrued, for services rendered during the period of performance in the administration of the program including but not necessarily limited to wages, salaries, and supplementary compensation and benefits (section A (13) below). The costs of such compensation are allowable to the extent that total compensation for individual employees: (a) is reasonable for the services rendered, (b) follows an appointment made in accordance with State or local government laws and rules and which meets Federal merit system or other requirements, where applicable; and (c) is determined and supported as provided in (ii) below. Compensation for employees engaged in federally assisted activities will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the State or local government. In cases where the kinds of employees required for the federally assisted activities are not found in the other activities of the State or local government, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the employing government competes for the kind of employees involved. Compensation surveys providing data representative of the labor market involved will be an acecptable basis for evaluating reasonableness.

(ii) *Payroll and distribution of time.* Amounts charged to the program for personal services, regardless of whether treated as direct or indirect costs, will be based on payrolls documented and approved in accordance with generally accepted practice of the State or local agency. Payrolls must be supported by time and attendance or equivalent records for individual employees. Salaries and wages of employees chargeable to more than one program or other cost objective will be supported by appropriate time distribution records. The method used should produce an equitable distribution of time and effort.

(11) *Depreciation and use allowances.* (i) State agencies may be compensated for the use of buildings, capital improvements, and equipment through use allowances or depreciation. Use allowances are the means of providing compensation in lieu of depreciation or other equivalent costs. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

(ii) The computation of depreciation or use allowances will be based on acquisition cost. Where actual cost records have not been maintained, a reasonable estimate of the original acquisition cost may be used in the computation. The computation will exclude the cost or any portion of the cost of buildings and equipment donated or borne directly or indirectly by the Federal Government

XUM
V 39 N 243 DEC 17 1974
XUM

through charges to Federal programs or otherwise, irrespective of where title was originally vested or where it presently resides. In addition, the computation will also exclude the cost of land. Depreciation or a use allowance on life or excess facilities is not allowable, except when specifically authorized by FNS.

(iii) Where the depreciation method is followed, adequate property records must be maintained, and any generally accepted method of computing depreciation may be used. However, the method of computing depreciation must be consistently applied for any specific asset or class of assets for all affected federally sponsored programs and must result in equitable charges considering the extent of the use of the assets for the benefit of such programs.

(iv) In lieu of depreciation, a use allowance for buildings and improvements may be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment (excluding items properly capitalized as building cost) will be computed at an annual rate not exceeding six and two-thirds percent of acquisition cost of usable equipment.

(v) No depreciation or use charge may be allowed on any assets that would be considered as fully depreciated, provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

(12) *Disbursing service.* The cost of disbursing program funds by the State Treasurer or other designated officer is allowable. Disbursing services cover the processing of checks or warrants, from preparation to redemption, including the necessary records of accountability and reconciliation of such records with related cash accounts.

(13) *Employee fringe benefits.* Costs identified under (i) and (ii) below are allowable to the extent that total compensation for employees is reasonable as defined in section A(10) above.

(i) Employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, court leave, military leave, and the like, if they are: (a) provided pursuant to an approved leave system, and (b) the cost thereof is equitably allocated to all related activities, including federally assisted programs.

(ii) Employee benefits in the form of employers' contribution or expenses for social security, employees' life and health insurance plans, unemployment insurance coverage, workmen's compensation insurance, pension plans, severance pay, and the like, provided such benefits are granted under approved plans and are distributed equitably to programs and to other activities.

(14) *Employee morale, health and welfare costs.* The costs of health or first-aid clinics and/or infirmaries, recreational facilities, employees' counseling services, employee information publications, and any related expenses incurred in accordance with general State or local policy, are allowable. Income generated from any of these activities will be offset against expenses.

(15) *Exhibits.* Costs of exhibits relating specifically to the Food Stamp Program are allowable.

(16) *Legal expenses.* The cost of legal expenses required in the administration of the program is allowable. Legal services furnished by the chief legal officer of a State or local government of his staff solely for the purpose of discharging his general responsibilities as legal officer are unallowable. Legal expenses for the prosecution of claims against the Federal Government are unallowable.

(17) *Maintenance and repair.* Costs incurred for necessary maintenance, repair, or upkeep of property which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are allowable.

(18) *Materials and supplies.* The cost of materials and supplies necessary to carry out the program is allowable. Purchases made specifically for the program should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the State agency. Withdrawals from general stores or stockrooms should be charged at cost under any recognized method of pricing consistently applied. Incoming transportation charges are a proper part of material cost.

(19) *Memberships, subscriptions and professional activities.*—(i) *Memberships.* The cost of membership in civic, business, technical and professional organizations is allowable, *Provided:* (a) The benefit from the membership is related to the program, (b) the expenditure is for agency membership, (c) the cost of the membership is reasonably related to the value of the services or benefits received, and (d) the expenditure is not for membership in an organization which devotes a substantial part of its activities to influencing legislation.

(ii) *Reference material.* The cost of books, and subscriptions to civic, business, professional, and technical periodicals is allowable when related to the program.

(iii) *Meetings and conferences.* Costs are allowable when the primary purpose of the meeting is the dissemination of technical information relating to the program and they are consistent with regular practices followed for other activities of the State agency.

(20) *Motor pools.* The costs of a service organization which provides automobiles to user State agencies at a mileage or fixed rate and/or provides vehicle maintenance, inspection and repair services are allowable.

(21) *Payroll preparation.* The cost of preparing payrolls and maintaining necessary related wage records is allowable.

(22) *Personnel administration.* Costs for the recruitment, examination, certification, classification, training, establishment of pay standards, and related activities for the program are allowable.

(23) *Printing and reproduction.* Cost for printing and reproduction services necessary for program administration, including but not limited to forms, reports, manuals, and information literature, are allowable. Publication costs of reports or other media relating to program accomplishments or results are allowable.

(24) *Procurement service.* The cost of procurement service, including solicitation of bids, preparation and award of contracts, and all phases of contract administration in providing goods, facilities and services for the program is allowable.

(25) *Taxes.* In general, taxes or payments in lieu of taxes which the State agency is legally required to pay are allowable.

(26) *Training and education.* The cost of in-service training, customarily provided for employee development which directly or indirectly benefits the program is allowable. Out-of-service training involving extended periods of time is allowable only when specifically authorized by FNS.

(27) *Transportation.* Costs incurred for freight, cartage, express, postage and other transportation costs relating either to goods purchased, delivered, or moved from one location to another are allowable.

(28) *Travel.* Travel costs are allowable for expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business incident to the program. Such costs may be charged on an actual basis, or a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip, and results in charges consistent with those normally allowed in like circumstances in nonfederally sponsored activities. The difference in cost between first-class air accommodations and less-than-first-class air accommodations is unallowable except when less-than-first class air accommodations are not reasonably available.

B. *Costs allowable with approval of FNS.*—(1) *Automatic data processing.* The cost of data processing services for Food Stamp Program administration is allowable. This cost may include rental of equipment or depreciation on State agency owned equipment. The acquisition of equipment, whether by outright purchase, rental-purchase agreement or other method of purchase, is allowable only upon specific prior approval of FNS as provided under the selected item for capital expenditures. The conditions for Federal financial participation in the acquisition of Automatic Data Processing equipment and services are contained in this Section in accordance with OMB Circular No. A-90.

(i) *Definitions.* (a) "Acceptance documents" means written evidence of satisfactory completion of an approved phase of work or contract, and acceptance thereof by the State agency.

(b) "Advance planning document" or "APD" means a written plan of action to acquire the proposed ADP services, system or equipment containing a statement of needs and objectives; a preliminary cost/benefits analysis; a personnel resource statement indicating availability of qualified and adequate staff, including a project director to accomplish the project objectives; a detailed description of the nature and scope of the activities to be undertaken and the methods to be used; a proposed schedule; and a proposed budget.

(c) "Automatic data processing" or "ADP" means data processing performed by a system of electronic or electrical machines so interconnected and interacting as to minimize the need for human assistance or intervention.

(d) "Automatic data processing equipment" or "ADP equipment" means:

(i) Electronic digital computers, regardless of size, capacity or price;

(ii) All peripheral or auxiliary equipment used in support of electronic computers whether selected and acquired with the computer or separately;

(iii) Data transmission or communications equipment that is selected and acquired solely or primarily for use with a configuration of ADP equipment which includes an electronic computer; and

(iv) Punch Card Accounting Machines (PCAM) whether used in conjunction with or independent of an electronic computer.

(e) "Automatic data processing services" or "ADP services" means:

(i) Services to operate ADP equipment, either by private sources, or by employees of the State agency, or by State or local organizations other than the State agency; and/or

(ii) Services provided by private sources or by employees of the State agency or by State and local organizations other than the State agency to perform such tasks as feasi-

bility studies, system studies, system design efforts, development of system specifications, system analysis, programming and system implementation.

(f) "Data processing" means the preparation of source media containing data or basic elements of information, and the use of such source media according to precise rules of procedures to accomplish such operations as classifying, sorting, calculating, summarizing, recording and transmitting.

(g) "Feasibility study" means a preliminary study to determine whether it is sufficiently probable that effective and efficient use of ADP equipment or systems can be made to warrant the substantial investment of staff, time, and money.

(h) "Request for proposal" or "RFP" means the document used for public solicitations of competitive proposals from qualified sources as outlined in 7 CFR 275.15.

(i) "Service agreement" means a document signed by the State or local agency and a second State or local organization providing ADP services to the State or local agency which:

(i) Identifies those ADP services to be provided by the provider agency;

(ii) Includes, preferably as an amendable attachment, a schedule of charges for each identified ADP service, and a certification that these charges apply equally to all users;

(iii) Includes a description of the method(s) of accounting for the services rendered under the agreement and computing service charges;

(iv) Includes assurances that services provided shall be timely and satisfactorily; and

(v) Requires the provider agency to obtain prior State agency approval and to follow competitive procurement procedures equivalent to those contained in 7 CFR 275.15 for the acquisition of any ADP services in support of or in addition to the service agreement.

(j) "Software" means a set of computer programs, procedures, and associated documentation by which ADP equipment is used and operated.

(k) "System design" means the putting together of a new or more efficient ADP system which avoids the deficiencies and discrepancies in the old system.

(l) "System specifications" means information about the new ADP system—such as workload descriptions, input data, information to be maintained and processed, data processing techniques, and output data—which is required to determine the ADP equipment and software necessary to implement the system design.

(m) "System study" means the examination of existing information flow and operational procedures within an organization to determine how to provide more timely, accurate, and meaningful information for management decision-making and to develop new or improved ADP systems to service, control and coordinate the activities of the organization to improve operational efficiency. The study essentially consists of three basic phases: data gathering or investigation of the present system and new information requirements; analysis of the data gathered in the investigation; and synthesis, or refitting of the parts and relationships uncovered through the analysis into an efficient system.

(ii) *Specific conditions for obtaining Federal financial participation.*—(a) *FNS Prior Approval.* Prior approval by FNS is required for the costs of ADP equipment or ADP services in support of the Food Stamp Program for which Federal financial participation is being requested. The only exception to this prior approval requirement is when the acquisition of ADP equipment or ADP services do not exceed a combined total of $2,500 in Federal and State funds in any calendar quarter. Requests for approvals must be forwarded through the State agency prior to submittal to FNS. Approval by FNS will be based on a review of the studies conducted by or for the agency that will justify the acquisition of the proposed ADP equipment or ADP services. Written approval of the Advance Planning Document must be obtained from FNS by the State agency prior to entering into contractual agreements or making any other commitment for acquisition of ADP equipment or ADP services.

(b) *Approval by the State Agency.* Approval by the State agency is required for all documents specified in this regulation prior to submittal for FNS approval. In addition, State agency approval is also required for those acquisitions of ADP equipment and ADP services exempt from FNS approval because of the $2,500 quarterly limitation.

(c) *Competitive Procurement.* Acquisition of ADP equipment and purchase of ADP services shall be based on competitive procurement procedures specified in 7 CFR 275.15 when Federal grant funds are involved. State agency officials responsible for such procurement will ensure that formal advertising is the method of procurement unless the conditions for negotiation in 7 CFR 275.15(f) are met. Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable. This competitive procurement policy shall be applicable except for ADP services provided by the agency itself, or by another State or local agency.

(d) *Submittal of Documents.* Submittal, prior to claiming Federal financial participation is required of: (i) the advance planning document;

(ii) the service agreement (when data processing services are to be provided by a State central data processing facility or by another State or local agency);

(iii) the request for proposal, prior to its issuance when service or equipment proposals are being solicited from commercial sources; and

(iv) the contract, prior to signature of the contracting officer when services or equipment are to be acquired commercially.

(v) Voluntary submittal, or when requested by FNS, will be made of:

(a) the feasibility study,

(b) the system study,

(c) the system design,

(d) the system specifications,

(e) the acceptance document.

(e) *Methods for charging costs.* Methods and procedures for properly charging the costs of all systems whether acquired from public or private sources shall be in accordance with this regulation and applicable FNS instructions.

(f) *Access.* Access to the system by FNS in all of its aspects, including design, development, and operation, including work performed by any source, and including cost records of contractors and subcontractors, shall be made available by the State at intervals as are deemed necessary by FNS to determine whether the conditions for approval are being met and to determine the efficiency, economy and effectiveness of the system. Failure to provide full access by appropriate State and Federal representatives to all parts of the system shall result in termination of Federal financial participation in the costs of the system and its operation.

(g) *Ownership rights.*—(i) *Software.* The State will have all ownership rights in software or modifications thereof and associated documentation designed, developed or installed with Federal financial participation except that FNS reserves a royalty-free, nonexclusive license to reproduce, publish, or otherwise use, and to authorize others to do so, such software, modification and documentation. Proprietary software which is provided at established catalog or market prices and sold or leased to the general public shall not be subject to the ownership provisions of this section.

(ii) *Automatic data processing equipment.* The policies and procedures governing title, use and disposition of property purchased with Federal financial participation, which are covered in 7 CFR 275.14 are applicable to automatic data processing equipment.

(h) *Use of ADP systems.* ADP systems designed, developed or installed with Federal financial participation shall be used for a period of time consistent with the Advance Planning Document as approved, or which FNS shall determine is sufficient to justify the Federal funds invested.

(i) *Basis for continued Federal financial participation.* Periodic on-site surveys and reviews of State and local agency ADP methods and practices may be conducted by or for FNS to determine the adequacy of such methods and practices and to assure that ADP equipment and services are utilized for the purposes for which Federal funds were authorized. Such surveys may include:

(ii) *Pre-installation readiness.* A pre-installation survey including an on-site evaluation of the physical site and the agency's readiness to use efficiently and effectively ADP services, equipment or system when installed and operational.

(iii) *Post-installation.* A review conducted after installation of ADP equipment or systems to assure that the objectives for which Federal financial participation was approved is being accomplished.

(iv) *Utilization.* A continuing review of ADP facilities to determine whether or not the ADP equipment or services are being efficiently and effectively utilized in support of the Food Stamp Program. Should FNS determine from such surveys or reviews or otherwise that the State agency has improperly used grant funds, or has failed to comply with the conditions of the grant as approved, termination of Federal financial participation may be invoked. Such termination would be limited to the costs of the data processing services or equipment in question as specified in the written ontification of termination by FNS.

(j) *Application of this section.* The conditions of the section apply for initial and continuing authority to claim Federal funds for automatic data processing services and equipment, notwithstanding the existence of an approved cost allocation plan and indirect cost proposal.

(2) *Building space and related facilities.* The cost of space in privately or publicly owned buildings used for the benefit of the program is allowable subject to the conditions stated below. The total cost of space, whether in a privately or publicly owned building, may not exceed the rental cost of comparable space and facilities in a privately owned building in the same locality. The cost of space procured for program usage may not be charged to the program for periods of nonoccupancy, without authorization of FNS.

(i) *Rental cost.* The rental cost of space in a privately owned building is allowable.

(ii) *Maintenance and operation.* The cost of utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs and alterations and the like, are allowable to the extent they are not otherwise included in rental or other charges for space.

(iii) *Rearrangements and alterations.* Cost incurred for rearrangement and alteration of facilities required specifically for the program or those that materially increase the value or useful life of the facili-

V 39 NO 243 DEC 17 1974 XUM

ties (Section B(3)) are allowable when specifically approved by FNS.

(iv) *Depreciation and use allowances on publicly owned buildings.* These costs are allowable as provided in Section A.11.

(v) *Occupancy of space under rental-purchase or a lease with option-to-purchase agreement.* The cost of space procured under such arrangements is allowable when specifically approved by FNS.

(3) *Capital expenditures.* The cost of facilities, equipment, other capital assets, and repairs which materially increase the value or useful life of capital assets, or of nonexpendable personal property having a useful life of more than one year and an acquisition cost of more than $300 per unit, is allowable when such procurement is specifically approved by FNS. No such approval shall be granted when the State may be reasonably compensated for such costs through application of the depreciation and use procedures authorized by this attachment, unless it shall be demonstrated by the State that approval of such costs will result in a determinable savings to FNS. When assets acquired with Federal funds are (i) sold, (ii) no longer available for use in a federally sponsored program, or (iii) used for purposes not authorized by FNS, the Federal agency's equity in the asset will be refunded in the same proportion as Federal participation in its cost. In case any assets are traded on new items, only the net cost of the newly acquired assets is allowable.

(4) *Insurance and Indemnifications.* (i) Costs of insurance required, or approved and maintained pursuant to the agreement, is allowable.

(ii) Costs of other insurance in connection with the general conduct of activities is allowable subject to the following limitations:

(a) Types and extent and cost of coverage will be in accordance with general State or local government policy and sound business practice.

(b) Costs of insurance or contributions to any reserve covering the risk of loss of, or damage to, Federal Government property are unallowable except that costs of insurance against the loss or theft of food coupons or ATP cards may be allowed.

(iii) Contributions to a reserve for a self-insurance program approved by the SRS negotiating office are allowable to the extent that the type of coverage, the extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

(iv) Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable. However, costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice, and minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations, are allowable.

(v) Indemnification includes securing the State against liabilities to third persons and other losses not compensated by insurance or otherwise. FNS shall not be obligated to indemnify any State.

(5) *Management studies.* The cost of management studies to improve the effectiveness and efficiency of program management for the Food Stamp Program is allowable except that the cost of studies performed by agencies other than the State agency or outside consultants is allowable only when authorized by FNS.

(6) *Procurement costs.* Costs incurred prior to the effective date of approval of the amended indirect cost proposal or the revised Statewide cost allocation plan, whether or not they would have been allowable thereunder if incurred after such date, are allowable only when subsequently provided for in the plan or approved indirect cost proposal.

(7) *Professional services.* Cost of professional services rendered by individuals or organizations not a part of the State agency is allowable only if prior authorization is obtained from FNS.

(8) *Proposal costs.* Costs of preparing indirect cost proposals or amendments for allocating, distributing, and implementing provisions for payment of portions of the costs of administering the Food Stamp Program by the State agency are allowable.

(9) *Cost incurred by Agencies other than the State.* The cost of services provided by other agencies (including municipal governments) may only include allowable direct costs plus a prorata share of allowable supporting costs and supervision directly required in performing the service. Allowable supporting costs are those services which may be centralized and includes such functions as procurement, payroll, personnel services, maintenance and operation of space, data processing, accounting, budgeting, auditing, mail and messenger service and the like. Supervision costs will not include supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in the operation of the program.

In lieu of determining actual indirect cost related to a particular service performed by another agency either of the following alternative methods may be used provided only one method is used during the fiscal year involved and is specifically provided for in the indirect cost proposal.

(i) Standard indirect rate equal to ten percent of direct labor cost in providing the service (excluding overtime, shift or holiday premiums, and fringe benefits) may be allowed in lieu of actual allowable cost.

(ii) A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated.

C. *Unallocable Costs.* The following costs shall not be allowable:

(1) *Bad Debts.* Any losses arising from uncollectible accounts or other claims, and related costs, are unallowable.

(2) *Contingencies.* Contributions to a contingency reserve or any similar provision for unforeseen events are unallowable.

(3) *Contributions and Donations.* Unallowable.

(4) *Entertainment.* Cost whose purpose is for amusement, social activities, and incidental costs relating thereto, such as meals, beverages, lodgings, rentals, transportation, and gratuities are unallowable.

(5) *Fines and Penalties.* Costs resulting from violations of or failure to comply with Federal, State and local laws and regulations are unallowable.

(6) *Governor's Expenses.* The salaries and expenses of the Office of the Governor of a State or the chief executive of a political subdivision are considered a cost of general State or local government and are unallowable. However, the cost of department heads who serve fully as operating officials of programs may be recognized.

(7) *Interest and other Financial Costs.* Interest on borrowings, bond discounts, cost of financing and refinancing operations, and legal and professional fees paid in connection therewith, are unallowable.

(8) *Legislative Expenses.* Salaries and other expenses of the State legislature or similar local governmental bodies are unallowable.

(9) *Underrecovery of Cost Under Agreements.* Any excess of cost over Federal contribution under one agreement is unallowable under another agreement.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

FEDERAL REGISTER DOCUMENT DRAFTING HANDBOOK—Notice of availability and order forms 43800

SUPPLEMENTAL SECURITY HOME—HEW/SSA rules on waiver of overpayments resulting from change in Social Security Act 43716

HEALTH INSURANCE—HEW/SSA rules on requirements for disability and children's benefits (2 documents), effective 12–18–74 43711

PESTICIDES—EPA establishes tolerances and exemptions for certain chemicals in or on raw agricultural commodities (3 documents), effective 12–18–74 ..... 43723, 43724

FOOD ADDITIVES—HEW/FDA establish tolerance level for benomyl on tomatoes and grapes, effective 12–18–74 43719

STANDBY RESERVE—Selective Service System rules on availability of members for active duty, effective 12–18–74 43720

NEW ANIMAL DRUG—HEW/FDA approves use of amprolium in drinking water and as drench for calves, effective 12–18–74 43719

FEDERAL SAVINGS AND LOAN ASSOCIATIONS—
FHLBB amends branch office applications procedures, effective 1–20–75 43708
FHLBB rules on individual retirement accounts, effective 1–1–75 43708

STATE STUDENT INCENTIVE GRANTS—HEW/Education Office proposal for continuation awards, comments by 1–17–75 43729

VISTA VOLUNTEERS—Action rules on hearing opportunities, 12–18–74 43724

STATE NONMEMBER BANKS—FDIC allows dealings in gold, effective 12–18–74 43765

VOW-OF-POVERTY MEMBER—HEW/SSA proposal on elective coverage for religious orders, comments by 1–17–75 43729

PART II:

OCCUPATIONAL NOISE EXPOSURES—EPA requests review and report on proposed regulations 43801

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—ANIMAL BREEDS

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PURE-BRED ANIMALS

Recognized Breeds and Books of Record; Correction

In FR Doc. 74-26675 (39 FR 40165), appearing in the FEDERAL REGISTER of Thursday, November 14, 1974, the effective date statement was inadvertently omitted. Accordingly, the effective date statement is added after the statutory authorities to read:

Effective date. This amendment shall become effective November 14, 1974.

The amendment was in the nature of a relief of restrictions in that it provides for the duty-free entry of certain pure-bred animals.

Done at Washington, D.C., this 12th day of December 1974.

R. P. JONES,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

In FR Doc. 74-27976, appearing at page 41735 in the issue for Monday, December 2, 1974, in § 23.1(a), in the ninth line, the date "January 31, 1975", should be changed to read "March 1, 1975."

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 74-1245]

PART 545—OPERATIONS

Branch Office Applications

December 5, 1974.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulation.

I. *Regulations prior to present amendment.* If a Federal association has had two branch office applications disapproved to serve any substantial part of the same savings service area within a 12 month period, 12 months must elapse before the association may reapply.

II. *Amended regulations.* Permit a Federal association that has had two branch applications disapproved within the preceding 12 months to refile either of the disapproved applications in cases where any other savings and loan association, savings bank or similar institution has filed for any substantial part of the same savings service area.

III. *Reason for changing the regulations.* To prohibit inequities from arising where a savings service area's economic profile changes after a Federal association has had two applications denied to such an extent that another thrift institution files an application for a branch office there.

The Federal Home Loan Bank Board, by Resolution No. 74-930, dated September 13, 1974, proposed an amendment to § 545.14 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.14) in order to permit a Federal savings and loan association that has had two branch applications denied within the preceding twelve months to refile in cases where another thrift institution has filed for any substantial part of the same savings service area. By a companion resolution (Resolution No. 74-931; dated September 13, 1974), the Board also proposed a similar amendment to Part 582 of the regulations for District of Columbia Savings and Loan Associations and Branch Offices (12 CFR Part 582).

Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on September 23, 1974 (39 FR 34060-34061), with an invitation for interested persons to submit written comments by October 9, 1974. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt the proposed amendment, as set forth below.

Prior to the present amendment, § 545.14(b)(1)(ii) required that before a Federal association could have a branch application considered 12 months must have elapsed since the date of disapproval by the Board of an application to serve any substantial part of the same savings service area. However, this requirement was applicable only if such Federal association had filed two applications to serve any substantial part of such savings service area within the 12 months preceding such date of disapproval and both such applications were disapproved by the Board. The amendment allows such a Federal association which would otherwise be prohibited from filing an application 12 months to do so if another savings and loan association, savings bank, or similar institution has filed an application to establish a branch in any substantial part of the same savings service area. An additional result of the amendment is a clarification of the present language in § 545.14(b)(1)(ii).

Accordingly, the Federal Home Loan Bank Board hereby amends Part 545 by revising § 545.14(b)(1)(ii) thereto to read as set forth below, effective January 20, 1975.

§ 545.14 Branch office.

* * * * *

(b) *Eligibility.* (1) Except as provided in paragraph (b)(2) of this section, a Federal association shall be eligible to have an application for permission to establish a branch office (including an application for a limited facility branch office) considered and processed only if at the date on which such application is filed with the Board:

* * * * *

(ii) Two such applications, whereby such association proposes to serve any substantial part of the same savings service area (as determined by the Supervisory Agent) have not been disapproved by the Board during the 24 months preceding such date unless at least 12 months have elapsed since the most recent disapproval. However, if two such applications by such association have been disapproved during the 24 months preceding such date, either of such disapproved applications will be considered and processed upon refiling if any other savings and loan association, savings bank, or similar institution files such an application whereby it proposes to serve any substantial part of the same savings service area (as determined by the Supervisory Agent) within 12 months since the most recent disapproval.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[No. 74-1389]

PART 545—OPERATIONS

Stock Bonus, Pension or Profit Sharing Plans

DECEMBER 12, 1974.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is subject to the full provisions of this resolution, including the provisions in the preamble thereof and in the amended regulation set forth below.

I. *Regulations prior to present amendment.* Certain Federal associations are authorized to act as trustees of certain trusts that form part of a stock bonus, pension or profit sharing plan which qualifies or qualified for specific tax treatment under section 401(d) of the Internal Revenue Code of 1954 (relating to trusts and plans benefiting owner-employees).

II. *Amended regulations.* Authorize certain Federal associations to also act as trustee of certain trusts that form part of a stock bonus, pension or profit sharing plan which qualifies or qualified for specific tax treatment under section 408(a) of the Internal Revenue Code of 1954 (relating to individual retirement accounts).

III. *Reason for changing the regulations.* Implement section 4(d) of the Emergency Home Purchase Assistance Act of 1974 (Pub. L. 93-449).

Section 4(d) of the Emergency Home Purchase Assistance Act of 1974 amended the first sentence of the pertinent paragraph of section 5(c) of the Home Owners' Loan Act of 1933, as amended, (12 U.S.C. 1464(c)) by adding the phrase "or section 408(a)" after the phrase "section 401(d)". This portion of section 5(c), as so amended, reads as follows:

> Any such association is authorized to act as trustee of any trust created or organized in the United States and forming part of a stock bonus, pension, or profit-sharing plan which qualifies or qualified for specific tax treatment under section 401(d) or section 408(a) of the Internal Revenue Code of 1954, if funds of such trust are invested only in savings accounts or deposits in such association or in obligations or securities issued by such association.

Section 408(a) of the Internal Revenue Code of 1954 is a new section, relating to individual retirement accounts, which was added to the Code by section 2002(b) of the Employee Retirement Income Security Act of 1974 (Pub. L. 93-406) and which applies to taxable years beginning after December 31, 1974.

The Federal Home Loan Bank Board considers it desirable to amend § 545.17-1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.17-1) for the purpose of implementing section 4(d) of the Emergency Home Purchase Assistance Act of 1974 relating to certain bonus, pension, or profit-sharing which qualify for specific tax treament under section 408(d) of the Internal Revenue Code of 1954. Accordingly, the Board hereby amends this § 545.17-1 to read as set forth below. Since this amendment relieves restriction, the Board hereby finds that notice and public procedure are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board hereby provides that the amendment shall become effective January 1, 1975.

§ 545.17-1 Stock bonus, pension, or profit-sharing plan.

A Federal association which has a charter in the form of Charter K (rev.) or Charter N may act as trustee, and may receive reasonable compensation for so acting, of any trust created or organized in the United States and forming part of a stock bonus, pension, or profit-sharing plan which qualifies or qualified for specific tax treatment under section 401(d) or section 408(a) of the Internal Revenue Code of 1954, if the funds of such trust are invested only in savings accounts or deposits in such association or in obligations or securities issued by such association. All funds held in such fiduciary capacity by any such association may be commingled for appropriate purposes of investment, but individual records shall be kept by the fiduciary for each participant and shall show in proper detail all transactions engaged in under the authority of this section.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[FR Doc.74-29487 Filed 12-17-74;8:45 am]

SUBCHAPTER E—DISTRICT OF COLUMBIA SAVINGS AND LOAN ASSOCIATIONS AND BRANCH OFFICES

[No. 74-1346]

PART 582—OFFICES

Branch Office Applications

DECEMBER 5, 1974.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulation.

I. *Regulations prior to present amendment.* If a District of Columbia association has had two branch office applications disapproved to serve any substantial part of the same savings service area within a 12 month period, 12 months must elapse before the association may reapply.

II. *Amended regulations.* Permit a District of Columbia association that has had two branch applications disapproved within the preceding 12 months to refile either of the disapproved applications in cases where any other savings and loan association, savings bank or similar institution has filed for any substantial part of the same savings service area.

III. *Reason for changing the regulations.* To prohibit inequities from arising where a savings service area's economic profile changes after a District of Columbia association has had two applications denied to such an extent that another thrift institution files an application for a branch office there.

The Federal Home Loan Bank Board, by Resolution No. 74-931, dated September 13, 1974, proposed an amendment to § 582.1 of the regulations for the District of Columbia Savings and Loan Associations and Branch Offices (12 CFR 582.1) in order to permit a savings and loan association that has had two branch applications denied within the preceding 12 months to refile in cases where another thrift institution has filed for any substantial part of the same savings service area. By a companion resolution (Resolution No. 74-930; dated September 13, 1974), the Board also proposed a similar amendment to Part 545 of the rules and regulations for the Federal Savings and Loan System.

Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on September 23, 1974 (39 FR 34080-34081), with an invitation for interested persons to submit written comments by October 9, 1974. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt the proposed amendment, as set forth below.

Prior to the present amendment, § 582.1(b)(ii) required that before an association could have a branch application considered 12 months must have elasped since the date of disapproval by the Board of an application to serve any substantial part of the same savings service area. However, this requirement was applicable only if such association had filed two applications to serve any substantial part of such savings service area within the 12 months preceding such date of disapproval and both such applications were disapproved by the Board. The amendment allows such an association which would otherwise be prohibited from filing an application for 12 months to do so if another savings and loan association, savings bank, or similar institution has filed an application to establish a branch in any substantial part of the same savings service area. An additional result of the amendment is a clarification of the present language in § 582.1(b)(ii).

Accordingly, the Federal Home Loan Bank Board hereby amends Part 582 by revising § 582.1(b)(1)(ii) thereto to read as set forth below, effective January 20, 1975.

§ 582.1 Branch offices.

* * * * *

(b) *Eligibility.* (1) Except as provided in paragraph (b)(2) of this section, an association shall be eligible to have an application for permission to establish a branch office (including an application for a limited facility branch office) considered and processed only if, at the date on which such application is filed with the Board:

* * * * *

(ii) Two such applications, whereby such association proposes to serve any substantial part of the same savings service area (as determined by the Supervisory Agent) have not been disapproved by the Board during the 24 months preceding such date unless at least 12 months have elapsed since the most recent disapproval. However, if two such applications by such association have been disapproved during the 24 months preceding such date, either of such disapproved applications will be considered and processed upon refiling if any other savings and loan association, savings bank, or similar institution files such an application whereby it proposes to serve any substantial part of the same savings service area (as determined by the Supervisory Agent) within 12 months since the most recent disapproval.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; Sec. 5, 48 Stat. 132, as added by Sec. 913, 64 Stat. 1815; 12 U.S.C. 1464, 1466a. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] GREENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[FR Doc.74-29436 Filed 12-17-74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-EA-60; Amdt. 39-2050]

PART 39—AIRWORTHINESS DIRECTIVE

Bendix

On Page 38668 of the FEDERAL REGISTER for November 1, 1974, the Federal Aviation Administration published a proposed rule so as to issue an airworthiness directive applicable to Bendix Scintilla S-20, S-200, S-1200 series magnetos.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697], § 39.13 of the Federal Aviation Regulations is amended hereby and the airworthiness directive adopted as published.

This amendment is effective December 24, 1974.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1421 and 1423) and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Jamaica, N.Y., on December 10, 1974.

JAMES BISPO,
Deputy Director.

BENDIX ELECTRICAL COMPONENTS DIVISION: Applies to certain Bendix (Scintilla) S-20, S-200 and S-1200 Series Magnetos listed on Bendix Service Bulletin No. 566B.

a. Red nameplate magneto models listed in the Equipment Affected section, excepting those with change designations as shown in Table No. 1 or later.

b. Blue nameplate (Bendix remanufactured) magneto models listed in the Equipment Affected section excepting those having serial number 249001 or higher.

c. Black nameplate magnetos bearing a part number listed in the Equipment Affected section.

Compliance required as indicated unless already accomplished. Within 200 hours in service or 90 days after the effective date of this AD, whichever occurs first, insure that the affected magnetos incorporate a solid steel drive shaft bushing by complying with all provisions, except the compliance paragraph, of Bendix Electrical Components Division Service Bulletin No. 566B or subsequent FAA approved revision or an equipment procedure approved by the Chief, Engineering & Manufacturing Branch, FAA, Eastern Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Bendix Electrical Components Division, Sidney, New York 13838. These documents may also be examined at FAA Eastern Region, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430, and at FAA headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C. and at the Eastern Region.

As permitted by FAR's 21.197 and 21.199, aircraft may be flown to a base where maintenance required by this Airworthiness Directive can be accomplished.

[FR Doc.74-29380 Filed 12-17-74;8:45 am]

[Docket No. 74-WE-60-AD; Amdt. 39-2051]

PART 39—AIRWORTHINESS DIRECTIVES

Rockwell-International Sabreliner Models NA265-40, NA265-60, NA265-70 (CT-39E and CT-39G) Series Airplanes

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on November 26, 1974, and made effective immediately as to all known United States operators of Rockwell-International Sabreliner Models NA265-40, NA265-60, NA265-70 (CT-39E and CT-39G) Series Airplanes. The directive requires adoption of an inspection procedure, removal of potentially defective pressure switches, interim corrective action and installation of cockpit placard until an improved pressure switch is installed.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Rockwell-International Sabreliner Models NA265-40, NA265-60, NA265-70 (CT-39E and CT-39G) series airplanes by individual air mail letters dated November 27, 1974. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

ROCKWELL-INTERNATIONAL. Applies to NA265-40, NA265-60, NA265-70 (CT-39E, CT-39G) series airplanes certificated in all categories.

Compliance required as indicated.

To preclude inflight engine shutdown due to loss of oil quantity because of an unknown incipient failure condition in the engine oil low pressure switch, (Hydra-electric, P/N 12252), accomplish the following:

(1) Within ten flight hours after receipt of this AD, unless already accomplished, inspect each engine installation to determine if Hydra-electric P/N 12252, is installed. If found installed remove Hydra-electric P/N 12252 and;

(a) Replace with Hydra-electric P/N 12252-1, or,

(b) Install Aero Instruments Co. P/N 1B2522-230, or Century Electronics and Instrument Inc. P/N 1B2522-230; or

(c) Install O-ring NAS 617-4 and plug MS 9015-04 or an 814-4L. Safety wire with proper lockwire. Disconnect the electric connector cap, and stow in accordance with good maintenance practice. See (d)(ii) and (e) below for placard installation.

(d) If both engine oil low pressure switches are removed and plugged;

(i) The amber "OIL PRESS LOW" caution light must be modified by either removing the light cover and replacing with a blank cover or installing an "INOPERATIVE" placard over the light cover, and,

(ii) Install, in front of and in full view of the crew, a placard which reads: "ENGINE LOW OIL PRESSURE WARNING SYSTEM INOPERATIVE. MONITOR OIL PRESSURE GAGES."

(e) If one engine oil low pressure switch is removed and plugged, install in front of and in full view of the crew, a placard which reads:

(LEFT OR RIGHT) ENGINE LOW OIL PRESSURE WARNING SYSTEM INOPERATIVE. MONITOR (LEFT OR RIGHT) OIL PRESSURE GAGE."

NOTE. Sabre Gram, dated November 15, 1974, covers this subject.

(2) Within sixtey days after receipt of this AD, install new engine oil low pressure switch, Hydra-electric P/N 12252-1 or Aero Instruments Co. or Century Electronics and Instrument Inc. P/N 1B2522-230, in those positions where Hydra-electric P/N 12252 was removed, and plugs have been installed. Reconnect the electrical connector and accomplish functional check before return to service.

(3) Remove placecards and reactivate "OIL PRESS LOW" caution light when (2), above, has been accomplished.

(4) Airplanes may be flown to a base for the performance of the inspections and installations required by paragraph one of this AD, per FAR's 21.197 and 21.199.

(5) Return P/N 12252 switches removed from service to Rockwell-International, Aviation Service Division, Lambert Field, St. Louis, Mo. 63145.

(6) Equivalent inspections and installations may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiating data.

This amendment is effective December 24, 1974, for all persons except those to whom it was made effective immediately by airmail letter dated November 27, 1974.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421

XUM
V 39 12 DEC 74 XUM

and 1423) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Los Angeles, California, on December 9, 1974.

ROBT. O. BLANCHARD,
Acting Director,
FAA Western Region.

[Docket No. 74-EA-76; Amdt. 39-2054]

PART 39—AIRWORTHINESS DIRECTIVE

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 72-22-5 applicable to PA-24 type aircraft.

It is intended that aircraft which install the alteration proposed by the manufacturer may return to operating the aircraft at its designed speed of VNE 227 mph (CAS).

Since this amendment presents an option under the requirements of the AD, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 72-22-5 as follows:

Insert the following as paragraph 3, and change the present paragraph 3 to paragraph 4:

3. For PA-24-250 and PA-24-260 type airplanes, a Vne of 227 mph (CAS) may be used upon altering the stabilator in accordance with Piper Service Kit No. 760747, or an approved equivalent, and by altering the rudder as in paragraph 2(b) above.

(Piper Service Bulletin No. 607, dated June 19, 1974, refers to this subject.)

This amendment is effective December 26, 1974.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]).

Issued in Jamaica, N.Y., on December 11, 1974.

JAMES BISPO,
Deputy Director,
Eastern Region.

[FR Doc.74-29381 Filed 12-17-74;8:45 am]

[Docket No. 74-EA-84; Amdt. 39-2053]

PART 39—AIRWORTHINESS DIRECTIVE

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Piper PA-31 and PA-31P type airplanes.

There have been reports of pilots inadvertently shutting off the rocker-type magneto switch located on the overhead panel. Since this deficiency exists in other similar type aircraft, an airworthiness directive is being issued so as to require the installation of a safety guard over the switch.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

PIPER AIRCRAFT—applies to Magneto Switch Guard Installation on Piper PA-31 and PA-31-300 S/N 31-2 to 31-7300969 incl; PA-31-350 S/N 31-5001 to 31-7305001 incl; and PA-31P S/N 31P-1 to 31P-7300161 incl.

To prevent inadvertently or accidentally shutting down an engine, perform the following:

1. Within the next 100 hours time in service, after the effective date of this Airworthiness Directive, install a protective guard over the magneto switches in accordance with Piper Service Letter No. 675, dated September 17, 1973.

2. Equivalent installations must be approved by the Chief, Engineering and Manufacturing Branch, Eastern Region, Jamaica, New York.

3. Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the compliance time specified in this A.D.

This amendment is effective December 26, 1974.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Jamaica, N.Y., on December 11, 1974.

JAMES BISPO,
Deputy Director,
Eastern Region.

[Docket No. 73-WA-6]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Terminal Control Area at Philadelphia, Pennsylvania

On May 2, 1974, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (39 FR 15307) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a Group II Terminal Control Area (TCA) for Philadelphia, Pa.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received reflected concurrence with the proposed establishment of the TCA.

In consideration of the foregoing and for reasons stated in Docket No. 9880 (35 FR 7782), Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, by adding the following to § 71.401(b) Group II Terminal Control Areas.

Philadelphia, Pa., Terminal Control Area
Primary Airport

Philadelphia International Airport (Lat. 39°52'25'' N., Long. 75°14'58'' W.)

Boundaries.

Area A.

That airspace extending upward from the surface to and including 7,000 feet MSL within a 6-mile radius of the Philadelphia International Airport, excluding that airspace within and underlying Areas B and C.

Area B.

That airspace extending upward from 360 feet MSL, to and including 7,000 feet MSL, beginning at the east tip of Tinicum Island, along the south shore of Tinicum Island to its westernmost point, thence direct to the outlet of Darby Creek at the north shore of the Delaware River, thence along the north shore of the river to Chester Creek, thence eastward direct to Thompson Point, thence eastward along the south shore of the Delaware River to Bramell Point, thence direct to the point of beginning.

Area C.

That airspace extending upward from 600 feet MSL, to and including 7,000 feet MSL, beginning at Bramell Point, along the south shore of the Delaware River to Thompson Point, thence direct to the outlet of Chester Creek at the Delaware River, thence southwestward along the north shore of the Delaware River, to the 6-mile arc of the Philadelphia International Airport, thence counterclockwise along the 6-mile arc to Kings Highway (Route 551), thence northward direct to Bramell Point.

Area D.

That airspace extending upward from 1,500 feet MSL to and including 7,000 feet MSL within an 11-mile radius of the Philadelphia International Airport, excluding Areas A, B, and C.

Area E.

That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 15-mile radius of Philadelphia International Airport, excluding that airspace southeast of a line extending from Lat. 39°32'50''N., Long. 75°10'30''W., to Lat. 40°00'09''N., Long. 74°50'45''W., and Areas A, B, C, and D.

Area F.

That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius of Philadelphia International Airport, excluding that airspace southeast of a line extending through Lat 39°32'50''N., Long. 75°10'30''W., and Lat. 40°00'00''N., Long. 74°50'45''W., and Areas A, B, C, D, and E.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on December 12, 1974.

EDWARD J. MALO,
Acting Chief, Airspace and
Air Traffic Rules Division.

[FR Doc.74-29377 Filed 12-17-74;8:45 am]

[Docket No. 74-SO-80]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On March 11, 1974, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (39 FR 9456), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Homerville, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., February 27, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

HOMERVILLE, GA.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Homerville Airport (latitude 31°-03'00" N., longitude 82°46'30" W.); within 2 miles each side of the 310 bearing from the Homerville RBN (latitude 31°03'17" N., longitude 82°48'16" W.), extending from the 6.5-mile radius area to 8.5 miles northwest of the RBN.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in East Point, Ga., on December 6, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

Title 17—Commodities and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11284]

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Rescission of EDP Attachments

The Securities and Exchange Commission today announced the rescission of the EDP attachment heretofore required to be filed in certain instances with reports on Forms 10-Q (17 CFR 249.310) and 10-K (17 CFR 249.308a) under the Securities Exchange Act of 1934 ("Exchange Act"), and the withdrawal of a proposed amendment to Form 10-K under the Act.

RESCISSION OF EDP ATTACHMENTS

In Securities Exchange Act Release Nos. 9443 (January 10, 1972) (37 FR 601) and 9502 (February 22, 1972) (37 FR 4331), the Commission adopted amendments to Forms 10-Q and 10-K to elicit information concerning recent transactions by the issuer in unregistered securities. The information included transactions in securities, debt as well as equity, issued in reliance upon the exemption from registration provided by section 4(2) of the Securities Act of 1933. For statistical purposes, the Commission also then adopted an EDP attachment to be filed in certain situations as Exhibit I to Form 10-K and 10-Q.

The EDP attachment was intended as a current compilation of information generally reflected in the report of which it was an exhibit, and it has been utilized by the Commission to gather information for various purposes. At this time, the Commission has determined that the functional justification for the preparation and filing of the EDP attachment no longer warrants its use, and accordingly the Commission has rescinded the requirement that the EDP attachment be filed as Exhibit I to Form 10-K and Form 10-Q.

WITHDRAWAL OF PROPOSED AMENDMENT TO FORM 10-K

In Securities Exchange Act Release No. 9576 (April 20, 1972), (37 FR 9045) the Commission announced a proposal to amend Form 10-K by adding a new Item 16. The proposed amendment would have required identification of the information contained in the annual report to security holders. In view of the Commission's recent action to improve the dissemination of annual reports to security holders, (Securities Exchange Act Release No. 11079 (October 31, 1974) (39 FR 40766)), the Commission hereby withdraws the proposed amendment to Form 10-K.

The Commission has found that the rescission of the EDP attachment relieves a restriction and that publication for comment is not required under the Administrative Procedure Act. The foregoing action is taken pursuant to the Securities Exchange Act of 1934, particularly sections 13, 15(d) and 23(a) thereof, and shall become effective December 16, 1974; however, after the date of this release, no objection will be raised by the staff of the Commission if an EDP attachment required to be filed prior to such effective date is not filed.

(Secs. 13, 15(d), 23(a), 48 Stat. 894, 895, 901; secs. 3, 8, 49 Stat. 1377, 1379; secs. 4, 6, 78 Stat. 569, 570; (15 U.S.C. 78m, 78o(d), 78w(a)))

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950-.....)

Child's Insurance Benefits

On July 8, 1974, there was published in the FEDERAL REGISTER (39 FR 24915) a Notice of Proposed Rule Making with proposed amendments to Subparts D, E, H, and L of Regulations No. 4. The proposed amendments incorporate therein the sections of Public Law 92-603, enacted October 30, 1972, and Public Law 93-66, enacted July 9, 1973, affecting eligi 93-66, enacted July 9, 1973, affecting eligibility requirements for child's benefits. The substance of these provisions is as follows:

(a) Section 108 (P.L. 92-603) (1) Permits an individual who is under a disability which began before age 22 (rather than before age 18) to qualify for child's benefits; and

(2) Permits reentitlement of an individual to child's benefits whose entitlement to such benefits ended because he was not disabled and who later became disabled after age 18 and before age 22; and

(3) Permits reentitlement of an individual to child's benefits whose entitlement to such benefits ended because he ceased to be under a disability, provided that he again becomes disabled before the end of the 84th month following the month in which his most recent entitlement to childhood disability benefits ended due to cessation of his disability; and

(4) Provides that no payment may be made to an individual entitled to childhood disability benefits who has attained age 55 and who meets the definition of disability on the basis of "statutory blindness" for any month in which that individual engages in substantial gainful activity.

(b) Section 109 (P.L. 92-603) provides that where a student child is in full-time attendance and has not completed the requirements for or received an undergraduate degree in the month in which he attains age 22, his entitlement will not end until the month after the month in which the quarter or semester ends. If the school does not operate on a quarter or semester system, the student's entitlement will continue through the month in which the course of study ends or until the third month after the month in which he attains age 22, whichever occurs first.

(c) Section 111 (P.L. 92-603) sets out the dependency requirements for a child adopted by an individual after the individual became entitled to old-age or disability insurance benefits.

(d) Section 112 (P.L. 92-603) provides for the continued entitlement of a child who has been adopted and for reentitlement of a child whose benefits were terminated due to adoption.

(e) Section 113 (P.L. 92-603) sets out the conditions and requirements for entitlement of a child on the account of a grandparent, stepgrandparent, or the spouse of a grandparent or stepgrandparent.

(f) Section 115 (P.L. 92-603) provides for the waiver of the duration-of-relationship requirement for qualifying as a "widow," "widower," "mother," or "stepchild" of the insured individual where the surviving spouse (in the case of the "widow," "widower," or "mother") or the stepchild's parent (in the case of the

XUM
2193 V 39 N 244 DEC 18 1974 XUM

"stepchild") had previously been married to the insured individual, such marriage had ended in divorce, and the duration-of-relationship requirements would have been satisfied at the time of the divorce if the previous marriage had ended in the death of the insured individual rather than in divorce.

(g) Section 145 (P.L. 92-603) modifies the provisions for waiving the duration-of-relationship requirements for a "widow," "widower," "mother," or "stepchild" where the insured individual's death was accidental or occurred in the line of duty while serving on active duty as a member of a uniformed service.

(h) Section 240 (P.L. 92-66) provides for an alternative support period for an adopted child where the child is adopted by an insured individual after insured individual's entitlement to retirement or disability benefits and the child is the grandchild of the insured individual or his spouse.

Interested persons were given the opportunity to submit, within 30 days, data, views or arguments with regard to the proposed changes.

The time period permitted for comment has passed and no comments have been received. Accordingly, the proposed amendments are hereby adopted without change as set forth below.

(Secs. 202, 205, and 1102 of the Social Security Act, as amended; 49 Stat. 622, as amended, 53 Stat. 1360, as amended, 49 Stat. 647, as amended; (42 U.S.C. 402, 405, and 1302))

Effective date. The amendments shall be effective December 16, 1974.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security—Disability Insurance; 13.803, Social Security—Retirement Insurance; 13.805, Social Security—Survivors Insurance.)

Dated: December 5, 1974.

J. B. Cardwell,
Commissioner of Social Security.

Approved: December 12, 1974.

Caspar W. Weinberger,
Secretary of Health, Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 404.320 is revised to read as follows:

§ 404.320 Child's insurance benefits; conditions of entitlement.

(a) *Entitlement.* A child is entitled to a child's insurance benefit if he:

(1) Is the child (as defined in § 404.1109) of:

(i) An individual entitled to old-age insurance benefits or disability insurance benefits; or

(ii) An individual who was fully insured (see §§ 404.108–404.113) or currently insured (see § 404.114) at the time of death; and

(2) Has filed application for, except as provided in § 404.353(d), the child's insurance benefits; and

(3) Is unmarried at the time such application is filed; and

(4) At the time such application is filed:

(i) Has not attained age 18, or

(ii) Has not attained the age of 22 (except as provided in paragraph (c)(4) of this section) and is a full-time student (as defined in paragraph (c)(1) of this section), or

(iii) Is under a disability which began before attainment of age 22, and

(5) Was dependent (see §§ 404.324–404.327a) at a time specified in § 404.323, upon the individual on whose earnings child's insurance benefits are claimed.

(b) *Reentitlement.* A child whose entitlement to benefits terminated with the month before the month in which he attained age 18 or later, may thereafter, provided he has not been married since his last entitlement (see § 404.321(b)(2)), again become entitled to such benefits upon filing application for such reentitlement beginning with:

(1) The first month after such termination in which he is a full-time student and has not attained the age of 22 (except as provided in paragraph (c)(4) of this section); or

(2) The first month after such termination in which he is under a disability if he became disabled prior to attainment of age 18; or

(3) The first month after such termination in which he is under a disability but no earlier than January 1973, if he became disabled prior to attainment of age 22, except that if he was not entitled to a monthly benefit under section 202 of the Act for December 1972, the application for reentitlement must be filed after September 1973; or

(4) The first month after such termination in which he is under a disability but no earlier than January 1973 if he became disabled before the close of the 84th month following the month in which his most recent entitlement to child's benefits terminated because his disability ceased, except that if he was not entitled to a monthly benefit under section 203 of the Act for December 1972, the application for reentitlement must be filed after September 1973; or

(5) November 1972 if such termination was due to the child's adoption, provided that the application for reentitlement is filed after October 30, 1972.

(c) *Definitions of terms*—(1) *Full-time student.* The term "full-time student" means a student who is in full-time attendance (as defined in subparagraph (2) of this paragraph) at an educational institution (as defined in subparagraph (5) of this paragraph), except that no student shall be considered a full-time student if he is paid by his employer while attending an educational institution at his employer's request or pursuant to a requirement of his employer.

(2) *Full-time attendance.* Ordinarily, a student is in "full-time attendance" at an educational institution if he is enrolled in a noncorrespondence course and is carrying a subject load which is considered full time for day students under the institution's standards and practices. However, a student will not be considered in "full-time attendance" (i) if he is enrolled in a junior college, college, or university in a course of study of less than 13 school weeks' duration; or, (ii) if he is enrolled in any other educational institution and either the course of study is less than 13 school weeks' duration or his scheduled attendance is at the rate of less than 20 hours a week. A student whose full-time attendance begins or ends in a month is in full-time attendance for that month except that a student will not be considered in full-time attendance in the month in which he graduates if he completed his course of study and ceased carrying a full-time subject load in a month before the month immediately preceding the month of graduation.

(3) *Deemed full-time student during period of nonattendance.* An individual will be deemed a full-time student during any period of nonattendance (including part-time attendance) at an educational institution if the period is 4 consecutive calendar months or less, and the individual:

(i) Establishes that he intends to be in full-time attendance at an educational institution in the month immediately following such period, or

(ii) Is in full-time attendance at an educational institution in the month immediately following such period.

However, an individual will not be deemed a full-time student during any period of nonattendance if the nonattendance is due to expulsion or suspension, notwithstanding such individual intends to, or does in fact, resume full-time attendance within 4 calendar months after the beginning of such period of nonattendance.

(4) *Attainment of age 22 while in full-time attendance.* A full-time student (as defined in subparagraph (1) of this paragraph) who, in the month in which he attains age 22, has not completed the requirements for, or received, a degree from a four-year college or university will be deemed, beginning January 1973, to attain age 22 on the first day of the month following the month in which ends the quarter or semester for which he was enrolled full-time in the month in which he attains age 22. If such college or university or other educational institution (as defined in subparagraph (5) of this paragraph) does not operate on a quarter or semester system, a full-time student will be deemed to attain age 23 on either the first day of the month following the completion of the course in which he was enrolled full-time in the month in which he attained age 22, or if earlier, the first day of the third month following the month in which he attained age 22.

(5) *Educational institution.* An educational institution, as used in this paragraph (c), is a school (including a technical, trade, or vocational school), junior college, college, or university which meets any of the conditions described in

the following subdivisions (i), (ii), and (iii) of this subparagraph (5):

(i) It is operated or directly supported by the United States or by any State or local government or political subdivision thereof; or

(ii) It is approved by a State or accredited by a State-recognized or nationally recognized accrediting agency or body. A nationally recognized accrediting agency or body is an agency or body that has been determined to be such by the U.S. Commissioner of Education. A State-recognized accrediting agency or body is an agency or body designated or recognized by a State as proper authority for accrediting schools, colleges, or universities as meeting educational standards. Approval by a State includes approval of a school, college, or university as an educational institution, or of one or more of the school's, college's, or university's courses, by a State agency or subdivision of the State. This approval may be indirect, as, for example, if attendance at the school satisfies the State's compulsory education laws, or if the school has a tax exemption as a school, or if the school receives financial aid, loans, or scholarship allowances; or

(iii) In the case of a nonaccredited school, college, or university, its credits are accepted, on transfer, by not less than three institutions which have been accredited by a State-recognized or nationally recognized accrediting agency or body, for credit on the same basis as if transferred from an institution so accredited. Acceptance of credits on transfer includes, in addition to acceptance of laterally transferred credits between similar educational institutions, acceptance of credits completed in an institution at a lower grade level for entrance into an institution at a higher grade level.

2. In § 404.321, paragraph (a)(6) is revised, new paragraphs (a)(7) and (a)(8) are added, and paragraph (b) is revised to read as follows:

§ 404.321 Child's insurance benefits; duration of entitlement.

(a) A child is entitled to a child's insurance benefit for each month beginning with the first month in which all of the conditions of entitlement described in § 404.320 (a) or (b) are met. However, no entitlement to child's benefits may be established for any month:

* * * * *

(6) Before January 1973, if the child's entitlement is based on his disability which began after attainment of age 18 and before attainment of age 22, or if the child's reentitlement is based on his disability which began before the close of the 84th month following the month in which his most recent entitlement to child's benefits terminated because his disability ceased.

(7) Before January 1973, if the child's entitlement is based on his status as a grandchild or stepgrandchild (as defined in § 404.1109(c)).

(8) Before the month of the child's birth.

(b) The last month for which a child is entitled to a child's insurance benefit is the month before the month in which any one of the following events first occurs:

(1) The child dies;

(2) The child marries (except as provided in paragraph (d) of this section);

(3) The child attains age 18, and

(i) Is not under a disability at that time, and

(ii) Is not a full-time student (as defined in § 404.320(c)) during any part of the month in which he attains age 18;

(4) If the child's entitlement is based on his status as a full-time student, the earlier of:

(i) The first month during no part of which he is a full-time student, or

(ii) The month in which he attains age 22, or a later month under the circumstances described in § 404.320(c)(4);

(5) If the child's entitlement is based on his disability, the third month following the month in which he ceases to be under a disability, unless he is a full-time student during any part of such third month and has not attained age 22 in or before such month. (See subparagraph (4) of this paragraph);

(6) The insured individual on whose earnings the child's entitlement to benefits is based ceases to be entitled to disability insurance benefits for reasons other than death or attainment of age 65.

* * * * *

Section 404.323 is revised to read as follows:

§ 404.323 Child's insurance benefits; time at which child must be dependent upon insured individual.

(a) *Months after September 1972 (or months after December 1967 based on an application filed after September 30, 1972, and before May 1, 1973).* For months after September 1972, the dependency requirements must be met:

(1) If the insured individual is living, at the time the application is filed, subject to the limitations in subparagraph (4) of this paragraph; or

(2) If the insured individual is deceased, at the time of such insured individual's death; or

(3) Subject to the limitations in subparagraph (4) of this paragraph, if the insured individual had established a period of disability which continued until he became entitled to disability or old-age insurance benefits (or, if he died, such period of disability continued until his death), at the beginning of such period of disability, or at the time he became entitled to such benefits.

(4) If the child of an insured individual was adopted after the insured individual became entitled to old-age or disability insurance benefits, the dependency of such child may not be established at the times specified in subparagraph (1) or (3) of this paragraph unless such child:

(i) Is the natural child or stepchild of such insured individual (including a natural child or stepchild who was legally adopted by such insured individual), or

(ii) (A) Was legally adopted by such insured individual in an adoption decreed by a court of competent jurisdiction within the United States, and

(B) Had not attained the age of 18 before he began living with such insured individual; and

(C) Was living with such insured individual in the United States and receiving at least one-half of his support from such insured individual:

(1) If the insured individual is an individual entitled to old-age insurance benefits (other than an individual refered to in subdivision (2) of this subparagraph (4)(ii)(C)), for the year immediately before the month in which such individual became entitled to old-age insurance benefits, or if such insured individual had a period of disability which continued until he became entitled to old-age insurance benefits, the month in which such period of disability began; or

(2) If the insured individual is an individual entitled to disability insurance benefits, or an individual entitled to old-age insurance benefits who was entitled to disability benefits for the month preceding the first month for which he was entitled to old-age insurance benefits, for the year immediately before the month in which began the period of disability of such individual which still exists at the time of the adoption (or, if such child was adopted by such individual after such individual attained age 65, the period of disability of such individual which existed in the month preceding the month in which he attained age 65), or the month in which such individual became entitled to disability insurance benefits; or

(3) Effective for months after July 1973 based on an application filed on or after July 1973, for the year immediately before the month in which the child's application is filed if the child is the grandchild (as defined in § 404.1109(c) but not including a stepgrandchild) of the individual upon whose wages and self-employment income his application is based or the grandchild (as defined in § 404.1109(c)) of that individual's spouse.

(4) If the child was born during the applicable 1-year period described in subdivision (1), (2), or (3) of this subparagraph (4)(ii)(C), such child shall be deemed to meet the requirements of subdivision (1), (2), or (3), of this subparagraph (4)(ii)(C) if, as of the close of such period, such child has lived with such insured individual in the United States and received at least one-half of his support from such individual for "substantially all" (as defined in subdivision (5) of this paragraph (a)(4)(ii)(C)) of the period which begins on the date of birth of such child.

(5) For purposes of § 404.327a(b) and subparagraph (4)(ii)(C)(4) of this

XUM
V 39 N 244 DEC 18 1974
XUM

paragraph, the requirement that a child must have been living with an individual and receiving at least one-half support from such individual for "substantially all" of the period beginning with the date of birth of such child will be met if the period during which the child did not live with such individual or receive one-half support from such individual did not exceed the lesser of 3 months or one-half of the period beginning with the date of birth of such child, provided the child is living with such individual and receiving one-half support for such individual as of the close of such period.

(b) *Months after August 1958 and before October 1972.* For months after August 1958 and before October 1972, the dependency requirement must be met:

(1) If the parent is living, at the time the application for child's insurance benefits is filed, subject to the limitations in subparagraphs (4), (5), and (6) of this paragraph; or

(2) If the parent is deceased, at the time of the parent's death; or

(3) Subject to the limitation in subparagraph (5) of this paragraph, if the parent had a period of disability which continued until he became entitled to disability or old-age insurance benefits (or, if he had died, until the month of his death), at the beginning of such period of disability, or at the time he became entitled to such benefits.

(4) With respect to applications for child's insurance benefits filed before July 30, 1965, if the parent is entitled to disability insurance benefits, dependency of the child may not be established at the time specified in subparagraph (1) of this paragraph unless such child:

(i) Is the natural child or stepchild of such parent (including a natural child or stepchild who was legally adopted by such parent); or

(ii) Was legally adopted by such parent before the end of the 24-month period beginning with the month after the month in which the parent most recently became entitled to disability insurance benefits, and (A) proceedings for such adoption had been instituted by the parent in or before the month in which such parent's period of disability began, and such period of disability still existed at the time of such adoption, or (B) such adopted child was living with such parent in the month in which such period of disability began.

(5) Effective with applications for child's insurance benefits filed on or after July 30, 1965, but before October 1, 1972, if the parent is entitled to disability insurance benefits, or is entitled to old-age insurance benefits and was entitled to disability insurance benefits for the month preceding the first month for which he was entitled to old-age insurance benefits, and the child had been adopted by such parent after he became entitled to the disability insurance benefits, such child shall be deemed not to meet the dependency requirements at the times specified in subparagraphs (1) and (3) of this paragraph unless such child:

(i) Is the natural child or stepchild of such parent (including a natural child or stepchild who was legally adopted by such parent), or

(ii) Was legally adopted by such parent before the end of the 24-month period beginning with the month after the month in which such parent most recently became entitled to disability insurance benefits: *Provided*, (A) The proceedings for the adoption of the child had been instituted by such parent in or before the month in which such parent's period of disability began, and such period of disability still existed at the time of adoption (or, if such child was adopted by the parent after he attained age 65, such period of disability existed in the month before the month in which he attained age 65), or (B) such adopted child was living with such parent in the month in which the period of disability began; or

(iii) For benefits for months after January 1968, but only on the basis of an application for child's insurance benefits filed after January 2, 1968 and before October 1, 1972, was legally adopted by such parent at any time after he became entitled to disability insurance benefits, and provided that such adoption: (A) took place under the supervision of a public or private child-placement agency as defined in paragraph (d) of this section, and (B) was decreed by a court of competent jurisdiction within the United States and immediately preceding the date of the adoption such parent had continuously resided for not less than 1 year in the United States, and (C) took place at a time prior to such child's attainment of age 18.

(6) Effective with applications for child's insurance benefits filed on or after July 30, 1965, but before October 1, 1972, if the parent is entitled to old-age insurance benefits but is not a parent included under subparagraph (5) of this paragraph and the child had been adopted by such parent after he became entitled to the old-age insurance benefits, such child shall be deemed not to meet the requirements of subparagraph (1) of this paragraph unless such child:

(i) Is the natural child or stepchild of such parent (including a natural child or stepchild who was legally adopted by such parent), or

(ii) Was legally adopted by such parent before the end of the 24-month period beginning with the month after the month in which such parent became entitled to old-age insurance benefits (however, this time limit does not apply if the child was adopted before August 1966): *Provided*, (A) Such child had been receiving at least one-half of his support from such parent for the year before such parent filed his application for old-age insurance benefits, or if such parent had a period of disability which continued until he became entitled to old-age insurance benefits, for the year before such period of disability began, and (B) either the proceedings for the adoption of the child had been instituted by such parent in or before the month in which the parent filed his application for old-age insurance benefits, or such adopted child was living with such parent in the month he filed his application for old-age insurance benefits.

(c) *Months before September 1958.* For benefits for months before September 1958, the points in time at which the dependency requirement might be met were the time of filing of the application for child's insurance benefits, or, if the parent was deceased, the time of such parent's death.

(d) *Adoption under the supervision of a public or private child-placement agency.*—(1) *Public child-placement agency.* For the purposes of paragraph (b)(5)(iii) of this section, the term "public child-placement agency" means any governmental agency authorized by a State (including the District of Columbia and the Commonwealth of Puerto Rico), or local governmental agency or component of either to place children in a private home for adoption. The term does not include a court; it also does not include a court investigator, juvenile officer, probation officer, or other governmental official or agency appointed solely for the purpose of conducting an investigation for the court in an adoption proceeding unless such governmental official or agency has the authority to place children in private homes for adoption.

(2) *Private child-placement agency.* For the purposes of paragraph (b)(5)(iii) of this section, the term "private child-placement agency" means any individual, corporation, organization, or institution licensed or approved by a State or local governmental agency or component of either to place children in a private home for adoption. The term does not include any other individual, corporation, organization, or institution undertaking an investigation or appointed by a court in an adoption proceeding unless such individual or entity is authorized to place children in a private home for adoption.

(3) *Supervision by a child-placement agency.* For purposes of paragraph (b)(5)(iii) of this section, the term "supervision of a public or private child-placement agency" means that such agency as defined in subparagraphs (1) and (2) of this paragraph, prior to the final decree of adoption, was significantly involved in the adoption by making an investigation to determine the suitability of the adopting parent and the eligibility of the child for adoption, or by issuing a report of such suitability and eligibility, or by making recommendations based on such suitability and eligibility, to the court having jurisdiction of the adoption proceedings. This requirement is not met if such investigation, report, or recommendation by such an agency was not made, whether because it was waived, or because it is not required under applicable State law, or for other reason.

4. Section 404.324 is revised to read as follows:

§ 404.324 Child's insurance benefits; determining dependency upon insured individual; in general.

The test used in determining whether a child is dependent at one of the applicable times indicated in § 404.323, depends on the relationship between the child and the insured individual, i.e., whether the insured individual (or the insured individual's spouse in the case of a grandchild or stepgrandchild) is the child's father or mother, adopting father or adopting mother, stepfather or stepmother, or grandparent or stepgrandparent. The tests are described in § 404.325–404.327a.

5. Following § 404.327, a new § 404.327a is added to read as follows:

§ 404.327a Child's insurance benefits; dependency upon grandparent or stepgrandparent or spouse of grandparent or stepgrandparent.

(a) *Support period defined.* A child who is the grandchild or stepgrandchild of an individual or the grandchild or stepgrandchild of an individual's spouse (as defined in § 404.1109(c)) shall be deemed not to be dependent on such individual at the time determined under the provisions of § 404.323(a) unless:

(1) Such child was living with such individual in the United States and receiving at least one-half of his support from such individual for the year immediately preceding the month in which such individual became entitled to old-age insurance benefits or disability insurance benefits or died, or if such individual had a period of disability which continued until he had become entitled to old-age insurance benefits or disability insurance benefits or died, for the year immediately before the month in which such period of disability began, and

(2) The period during which such child was living with such individual began before the child attained age 18.

(b) *Exception to support period.* In the case of a child who was born in the 1 year period during which such child must have been living with and receiving at least one-half of his support from such individual, such child shall be deemed to meet such requirements prescribed in paragraph (a) of this section for such period if, as of the close of such period, such child has lived with such individual in the United States and received at least one-half of his support from such individual for "substantially all" (as defined in § 404.323(a)(5)) of the period which begins on the date of such child's birth.

6. Section 404.467 is revised to read as follows:

§ 404.467 Nonpayment of benefits; individual entitled to disability insurance benefits or childhood disability benefits based on statutory blindness is engaging in substantial gainful activity.

(a) *Disability insurance benefits.* An individual who has attained age 55 and who meets the definition of disability for disability insurance benefits purposes based on "statutory blindness," as defined in § 404.1501, may be entitled to disability insurance benefits for months in which he is engaged in certain types of substantial gainful activity. No payment, however, may be made to the individual or to beneficiaries entitled to benefits on his earnings record for any month in which such individual engages in any type of substantial gainful activity.

(b) *Childhood disability benefits.* An individual who has attained age 55 and who meets the definition of disability prescribed in § 404.1501(a)(1)(ii) for childhood disability benefits on the basis of statutory blindness may be entitled to childhood disability benefits for months in which he engages in certain types of substantial gainful activity. However, no payment may be made to such individual for any month after December 1972 in which such individual engages in substantial gainful activity.

7. Section 404.705 is revised to read as follows:

§ 404.705 Presumption of death.

(a) *General.* Whenever it is necessary to determine the death of an individual in order to determine the right of another to a monthly benefit or a lump-sum death payment under section 202 of the Social Security Act, and such individual has been unexplainedly absent from his residence and unheard of for a period of 7 years, the Administration, upon satisfactory establishment of such facts and in the absence of any evidence to the contrary, will presume that such individual has died.

(b) *Grandchild claims.* For purposes of § 404.1109(c)(1)(ii), the evidence required by § 404.704 or paragraph (a) of this section will be sufficient to determine that the grandchild's (or stepgrandchild's) parent is deceased provided the identity of the parent can be established. The identity of the parent will be established, absent information to the contrary, based on a statement of parentage by the grandchild's known parent, or by the applicant if the known parent is deceased, incompetent, or unavailable. However, where there is a question concerning the identity of the parent, additional evidence of parentage is required. If the identity of the grandchild's parent is unknown, the Social Security Administration will presume that such individual was deceased at the appropriate time as prescribed by § 404.1109(c)(1)(ii)(A) or (B).

8. In § 404.1109 paragraph (c) is revised and a new paragraph (d) is added to read as follows:

§ 404.1109 Definition of child.

The term "child" means a claimant who:

* * * * *

(c) Is the grandchild or stepgrandchild of the individual upon whose wages and self-employment income his application is based or the grandchild or stepgrandchild of that individual's spouse. For purposes of this paragraph a child is the grandchild or stepgrandchild of such individual or his spouse if:

(1) (i) The child is related to an individual as the individual's biological child, legally adopted child or stepchild by reason of a valid marriage between the child's biological or legally adopting parent and the individual, and this individual in turn, is a child (as defined in paragraphs (a), (b), or (d) of this section) of the individual upon whose wages and self-employment income the grandchild's application is based or who is a child (as defined in paragraphs (a), (b), or (d) of this section) of such individual's spouse (providing the spouse is assumed to be the insured individual); and

(ii) The child's natural mother and father or, if the child has been adopted, the child's adoptive mother and father are either deceased (see § 404.705(b) when the identity or whereabouts of one or both parents is in question) or disabled (as defined in § 404.1501):

(A) In the month in which the individual upon whose wages and self-employment income the grandchild's application is based became entitled to old-age insurance benefits or disability insurance benefits, or died; or

(B) In the month in which such individual's period of disability began, if such individual had a period of disability which continued until he had become entitled to old-age insurance benefits or disability insurance benefits or died; or

(2) The grandchild or stepgrandchild of the individual or his spouse meets the requirement of paragraph (c)(1)(i) of this section and the child was legally adopted by the surviving spouse of the individual upon whose wages and self-employment income the grandchild's application is based in an adoption decreed by a court of competent jurisdiction within the United States and the child's natural or adopting parent or stepparent was not living in the household of such individual and making regular contributions to the child's support at the time such individual died; or

(d) Is neither the stepchild, legally adopted child, grandchild, or stepgrandchild of the individual upon whose wages and self-employment income his application is based or the grandchild or stepgrandchild of such individual's spouse but has the status of a child of such individual under applicable State law as described in § 404.1101 (a) and (b)(1), or is deemed to have the status of a child of such individual pursuant to § 404.1101 (c) or (d).

9. In § 404.1113, paragraph (a) is revised and a new paragraph (c) is added to read as follows:

§ 404.1113 "Living with" and "living in such individual's household."

(a) *Defined.* "Living with" as used in sections 202(d)(3), 202(d)(4), 202(d)(8), 202(d)(9), and 216(h)(3) of the Act as amended and "living in such individual's household" as used in section 216(e) of the Act mean the parent and child are sharing the same residence and

XUM
V 39 N 244 DEC 18 74
XUM

that the parent is exercising or has the right to exercise parental control and authority over the child. As used in this section, the term "parent" includes a natural parent, legally adopting parent, stepparent, the foster parent as to whom the child-claimant has the status of "child" under a theory of "equitable adoption," and the grandparent or stepgrandparent.

• • • • •

(c) *Time when "living with" and "living in such individual's household" had to exist.* For purposes of sections 202(d)(3) and 202(d)(4) of the Act the determination as to whether the child was "living with" his parent shall be based on the facts and circumstances at the times prescribed in § 404.323(a). For purposes of section 216(h)(3) of the Act, the determination shall be based on the facts and circumstances at the times prescribed in § 404.1101(d). For purposes of section 216(e) of the Act the determination as to whether the child was "living in such individual's household" shall be based on the facts and circumstances at the time such individual died. For purposes of sections 202(d)(8) and 202(d)(9) of the Act, the determination as to whether the child was "living with" his parent (including his grandparent or stepgrandparent) shall be based on the facts and circumstances for the year immediately preceding the month prescribed in §§ 404.323(a)(4)(ii)(C) and 404.327a respectively, but only if "living with" began before the child attained age 18. If section 202(d)(8) or 202(d)(9) of the Act applies, the child must have been "living with" his parent in each month of the year except if the child were born during the applicable year, in which case the child must have been "living with" his parent for substantially all of the year prescribed in §§ 404.323(a)(4)(ii)(C) and 404.327a respectively.

10. In § 404.1114, paragraphs (a) and (c) are revised to read as follows:

§ 404.1114 Waiver of 9-month requirement for widow, stepchild, or widower.

(a) *General.* Except as provided in paragraph (c) of this section, the requirement in § 404.1104(e) or § 404.1107(e) that the surviving spouse of an individual have been married to such individual for a period of not less than 9 months immediately prior to the day on which such individual died in order to qualify as such individual's widow or widower, and the requirement in § 404.1109(b) that the stepchild of a deceased individual have been such stepchild for not less than 9 months immediately preceding the day on which such individual died in order to qualify as such individual's child, shall be deemed to be satisfied, where such individual dies within the applicable 9-month period if:

(1) His or her death is accidental (as defined in paragraph (b) of this section), or

(2) His or her death occurs in line of duty while he or she is a member of a uniformed service serving on active duty (as defined in § 404.1013(f)(2) and (3)), or

(3) The surviving spouse had been previously married to the individual for at least 9 months or the surviving stepchild had been the stepchild of such individual for at least 9 months during a previous marriage of such stepchild's parent to the individual; and (i) the previous marriage between the individual and the surviving spouse (or the stepchild's parent) ended in divorce, and (ii) the surviving spouse (or the stepchild's parent) had been remarried to the individual at the time of his death.

• • • • •

(c) *Applicability.* (1) The provisions of this section apply with respect to monthly benefits under title II of the Act for months after December 1972, except that such provisions shall not apply if the Social Security Administration determines that at the time of the marriage involved, the individual involved could not have reasonably been expected to live for 9 months.

(2) The provisions of paragraph (a)(1) and (2) of this section shall also apply for months after January 1968 and before January 1973 if, in the case of the surviving spouse, he or she was married to the individual for a period of not less than 3 months prior to the day on which such individual died or, in the case of the stepchild, he or she had been such stepchild for not less than 3 months immediately preceding the day on which the individual died. In either case, the provisions shall not apply if the Secretary determines that at the time of the marriage involved, the individual could not have reasonably been expected to live for 9 months.

(Secs. 205, 209, 210, 229, and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 625, as amended, 64 Stat. 502, as amended, 81 Stat. 838, as amended, 49 Stat. 647, as amended; (42 U.S.C. 405, 409, 410, 429, and 1302)

[Reg. No. 4]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Waiver of Overpayments and Student Reentitlement Situations

On August 5, 1974, there were published in the FEDERAL REGISTER (39 FR 28163), a Notice of Proposed Rule Making and a proposed amendment to Subpart F of Regulations No. 4 of the Social Security Administration providing in substance that where an individual incurs an overpayment because one or more beneficiaries on the same social security record were properly terminated and subsequently reentitled pursuant to a new provision of law (as where students were reentitled by the enactment of section 109(a) of Public Law 92-603 on October 30, 1972), such individual would be considered to be "without fault" for purposes of waiver.

Interested parties were given 30 days within which to submit their data, views, and comments. No comments were received. Accordingly, the amendment is adopted without change, and is set forth below.

Subpart F, Regulations No. 4, of the Social Security Administration, as amended (20 CFR Part 404), is further amended as set forth below.

Section 404.510a is amended to read as follows:

§ 404.510a When an individual is "without fault" in an entitlement overpayment.

A benefit payment under title II or title XVIII of the Act to or on behalf of an individual who fails to meet one or more requirements for entitlement to such payment or a benefit payment exceeding the amount to which he is entitled, constitutes an entitlement overpayment. Where an individual or other person on behalf of an individual accepts such overpayment because of reliance on erroneous information from an official source within the Social Security Administration (or other governmental agency which the individual had reasonable cause to believe was connected with the administration of benefits under title II or title XVIII of the Act) with respect to the interpretation of a pertinent provision of the Social Security Act or regulations pertaining thereto, or where an individual or other person on behalf of an individual is overpaid as a result of the adjustment upward (under the family maximum provision in section 203 of the Act) of the benefits of such individual at the time of the proper termination of one or more beneficiaries on the same social security record and the subsequent reduction of the benefits of such individual caused by the reentitlement of the terminated beneficiary(ies) pursuant to a change in a provision of the law, such individual, in accepting such overpayment, will be deemed to be "without fault." For purposes of this section "governmental agency" includes intermediaries and carriers under contract pursuant to sections 1816 and 1842 of the Act.

[Reg. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Nonpayments; Increases and Amount of Disability Insurance Benefit Reduction

On June 27, 1973, there was published in the FEDERAL REGISTER (38 FR 16911) a

Notice of Proposed Rule Making with a proposed amendment to Subpart E of Regulations No. 4 to reflect a change in the law with respect to a reduction in the amount of a disability insurance benefit.

The Social Security Act provides that under certain conditions a disability insurance benefit to which an individual is entitled is reduced if he is also entitled to a workmen's compensation benefit for the same month. The amount of the reduction is the amount by which the total of the beneficiary's social security benefits exceeds the higher of (1) 80 percent of his average current earnings, or (2) the total of all social security benefits payable on his earnings record. The proposed amendment to the regulations reflects a change in the formula for figuring a beneficiary's average current earnings, provided by section 119 of the Social Security Amendments of 1972 (P.L. 92-603). Prior to the 1972 amendments to the Social Security Act the individual's average current earnings meant (1) the higher of the average monthly wage upon which his disability insurance benefit was based, or (2) his average monthly earnings for the 5 consecutive calendar years after 1950 for which his earnings were highest. The 1972 amendments provide a third alternative. For benefits for months after December 1972 "average current earnings" means the highest of three alternative amounts—the two applicable to benefits for months prior to January 1973 and, in addition, the average monthly earnings determined on the basis of one-twelfth of the individual's earnings for the calendar year of highest earnings during a period consisting of the year his disability began and the preceding 5 years.

Interested persons were given the opportunity to submit, within 30 days, data, views, or arguments with regard to the proposed amendment. The 30-day period has passed and no comments were received. Accordingly, the amendment as proposed is hereby adopted.

(Secs. 205, 224, and 1102, 53 Stat. 1368, as amended, 79 Stat. 406, as amended, 49 Stat. 647, as amended (42 U.S.C. 405, 424, and 1302))

Effective date. This amendment shall be effective December 18, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.802, Social Security—Disability Insurance)

Dated: December 5, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: December 12, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as set forth below.

Section 404.408 is amended by revising paragraph (c)(3) through subdivision (ii)(a) to read as follows:

§ 404.408 Reduction of benefits based on disability on account of receipt of workmen's compensation.

* * * * *

(c) *Amount of reduction.* * * *

(3) *Average current earnings defined*—(i) *In general*—(a) *For benefits for months prior to January 1973.* An individual's "average current earnings" for purposes of this section means the larger of:

(*1*) The average monthly wage used for purposes of computing the individual's disability insurance benefit under section 223 of the Act, or

(2) One-sixtieth of the total of such individual's wages and earnings from self-employment without the limitations under section 209(a) and 211(b)(1) of the Act for the 5 consecutive calendar years after 1950 for which such wages and earnings from self-employment were highest. The extent by which such individual's wages and earnings from self-employment exceed the limitations under sections 209(a) and 211(b)(1) of the Act for any calendar year after 1950 is computed in accordance with the provisions of subdivision (ii) of this subparagraph. Any amount so computed which is not a multiple of $1 is reduced to the next lower multiple of $1.

(*b*) *For benefits for months after December 1972.* An individual's "average current earnings" for purposes of this section means the largest of:

(*1*) The amount arrived at under paragraph (c)(3)(i)(*a*)(*1*) of this section, or

(2) The amount arrived at under paragraph (c)(3)(i)(*a*)(*2*) of this section, or

(3) One-twelfth of the total of such individual's wages and earnings from self-employment, without the limitations under sections 209(a) and 211(b)(1) of the Act, for the calendar year in which he had the highest such wages and earnings from self-employment during the period consisting of the calendar year in which he became disabled and the 5 years immediately preceding that year. The extent by which such individual's wages and earnings from self-employment exceed the limitations under sections 209(a) and 211(b)(1) of the Act is computed in accordance with the provisions of subdivision (ii) of this subparagraph. Any amount so computed which is not a multiple of $1 is reduced to the next lower multiple of $1.

(ii) *Method of determining calendar year earnings in excess of the limitations under sections 209(a) and 211(b)(1) of the Act*—(*a*) *In general.* For the purposes of paragraph (c)(3)(i)(*a*)(2) and (i)(*b*)(2) and (3) of this section the extent by which the wages or earnings from self-employment of an individual exceed the maximum amount of earnings credible under sections 209(a) and 211(b)(1) of the Act in any calendar year after 1950 will ordinarily be estimated on the basis of the earnings information available in the records of the Administration. (See Subpart I of this Part.) If an individual adduces satisfactory evidence of his actual earnings in any year, the extent, if any, by which his earnings exceed the limitations under sections 209(a) and 211(b)(1) of the Act shall be determined by the use of such evidence instead of by the use of estimates.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

Delegations of Authority Relating to Certification of Insulin and Antibiotics; Correction

In FR Doc. 74-27980 appearing at page 41706 in the issue of Monday, December 2, 1974, the following correction is made on page 41707: In § 2.121(f), the phrase "pursuant to section 507(a)" is changed to read "pursuant to sections 507(a) and 512(n)."

Dated: December 10, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.74-29401 Filed 12-7-74;8:45 am]

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

REVISION OF DELEGATIONS OF AUTHORITY RELATING TO APPROVAL OF NEW-DRUG APPLICATIONS FOR DRUGS FOR HUMAN USE

The Commissioner of Food and Drugs is amending "Part 2—Administrative Functions, Practices, and Procedures" (21 CFR Part 2) to provide for revised delegations relating to authority to approve new-drug applications and new-drug application supplements for drugs for human use. The reorganization of the Bureau of Drugs, notice of which was published in the FEDERAL REGISTER of September 24, 1974 (39 FR 34316), abolished the Office of Scientific Evaluation making the revision of the delegation of authority necessary.

Further redelegation of the authority redelegated hereby is not authorized. Authority redelegated hereby to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis, unless prohibited by a restriction written into the document designating him as "acting" or unless not legally permissible.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 2

XUM
DEC 1974
XUM

is amended in § 2.121 by revising paragraph (k) to read as follows:

§ 2.121 Redelegations of authority from the Commissioner to other officers of the Administration.

* * * * *

(k) *Delegations regarding approval of new-drug applications and new-drug application supplements for drugs for human use.* (1) The Director, Deputy Director, and Associate Director for New Drug Evaluation of the Bureau of Drugs are authorized to perform all the functions of the Commissioner of Food and Drugs with regard to the approval of new-drug applications and new-drug application supplements which are for drugs for human use and have been submitted pursuant to section 505 of the Federal Food, Drug, and Cosmetic Act.

(2 The Directors of the Divisions of: Anti-Infective Drug Products; Cardio-Renal Drug Products; Surgical-Dental Drug Products; Metabolism and Endocrine Drug Products; Neuropharmacological Drug Products; Oncology and Radiopharmaceutical Drug Products; and Drug Advertising of the Bureau of Drugs are authorized to perform all the functions of the Commissioner with regard to the approval of new-drug application supplements which are for drugs for human use and have been submitted pursuant to section 505 of the Federal Food, Drug, and Cosmetic Act.

* * * * *

Effective date. This order shall be effective on December 18, 1974.

(Sec. 701(a), 52 Stat. 1055; (21 U.S.C. 371(a))

Dated: December 10, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.74-29402 Filed 12-17-74;8:45 am]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

SUBCHAPTER C—DRUGS

MONENSIN

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications (38-878V, 41-500V), filed by Elanco Products Co., a Division of Eli Lilly & Co., Indianapolis, IN 46206, proposing certain technical changes in the drug's generic name, specifications, and concentration in complete feed. After due and careful consideration, the supplemental applications are approved. Accordingly, the regulations are being amended to delete certain references to the term "monensin sodium" and refer to the drug as "monensin," to delete or combine similar items, to delete reference to "monensic acid activity," and to incorporate certain technical changes.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b (i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

PART 121—FOOD ADDITIVES

§ 121.262 [Amended]

1. In § 121.262 *3-Nitor-4-hydroxyphenylarsonic acid*, paragraph (c), table 1, by deleting item 1.14, by deleting from items 1.18 and 1.23 the word "sodium" in the third column headed "Combined with," the phrase "(as monensic acid activity)" in the fourth column headed "Grams per ton," and by inserting after the text in the fifth column headed "Limitations" the phrase "as monensin or monensin sodium" for item 1.18 and "as monensin sodium" for item 1.23.

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

2. In § 135e.50 by revising the specifications; revising, combining, and renumbering the approvals; and by revising, combining, and renumbering the conditions of use. As revised § 135e.50 reads as follows:

§ 135e.50 Monensin.

(a) *Specifications.* Monensin is the substance produced by the fermentation of *Streptomyces cinnamonensis* or the same substance produced by any other means. It is present as monensin or the sodium salt. A minimum of 90 percent of monensin activity is derived from monensin A.

(b) *Approvals.* Approvals for premixes containing the specified levels of monensin activity granted to firms identified by sponsor code numbers in § 135.501(c) of this chapter for the conditions of use indicated in paragraph (f) of this section are as follows:

(1) To 014: 44 or 45 grams per lb., item 1.

(2) To 014: 110 grams per lb., items 1, 3, 4, 5, 6, and 7.

(3) To 014: 44 grams per lb. with 18 grams per lb. of 3-nitro-4-hydroxyphenylarsonic acid, 110 grams per lb. with 45 grams per lb. of 3-nitro-4-hydroxyphenylarsonic acid, item 2.

(4) To 606: 303.5 grams per ton, as monensin sodium, with .0138 percent 3-nitro-4-hydroxyphenylarsonic acid, item 2.

(5) To 110: 14.67 grams per lb., as monensin sodium, item 1.

(6) To 110: 11.736 grams per lb., as monensin sodium, with 1.062 percent 3-nitro-4-hydroxyphenylarsonic acid, 22 grams per lb., as monensin sodium, with 1.98 percent 3-nitro-4-hydroxyphenylarsonic acid, item 2.

(c) *Assay limits.* Finished feed not less than 75 percent nor more than 125 percent of labeled amount of monensin activity.

(d) *Special considerations.* Finished feed containing monensin shall bear an expiration date of 30 days after its date of manufacture.

(e) *Related tolerances.* See § 135g.68 of this chapter.

(f) *Conditions of use.* It is used as follows:

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Monensin	90-110			For broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 72 hr before slaughter; as monensin or monensin sodium.	As an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitis*, and *E. maxima*.
2. Monensin	90-110	3-Nitro-4-hydroxy-phenyl-arsonic acid	45.4	For broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 5 d before slaughter; as sole source of organic arsenic; as monensin or monensin sodium.	Growth promotion and feed efficiency, improving pigmentation; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitis*, and *E. maxima*.
3. Monensin	90-110	Lincomycin	2	For floor raised broiler chickens; do not feed to laying chickens; to be fed as a sole ration; withdraw 72 hr before slaughter; as monensin sodium.	For increase in rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitis*, and *E. maxima*.
4. Monensin	90-110	Lincomycin and 3-nitro-4-hydroxy-phenyl-arsonic acid	2 15-45	For floor-raised broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 5 d before slaughter; as sole source of organic arsenic; as 3-nitro-4-hydroxyphenyl-arsonic acid provided by code No. 051, § 135.501(c) of this chapter; as monensin sodium provided by code No. 014, § 135.501(c) of this chapter; as lincomycin provided by code No. 057, § 135.501(c) of this chapter; as a combination provided by code No. 057, § 135.501(c) of this chapter.	For increased rate of weight gain; as an aid the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitis*, and *E. maxima*.
5. Monensin	90-110	Bacitracin methylene disalicylate	5-20	For broiler chickens; do not feed to laying chickens; feed continuously as sole ration; withdraw 72 hr before slaughter; as bacitracin methylene disalicylate provided by code No. 028 in § 135.501(c) of this chapter; as monensin sodium.	For increased rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitis*, and *E. maxima*.

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
6. Monensin	110	....do	10	For broiler chickens; do not feed to laying chickens; feed continuously as sole ration; withdraw 72 hr before slaughter; as zinc bacitracin provided by code No. 009 in § 135.501(c) of this chapter; as monensin sodium.	For increased rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitati*, and *E. maxima*.
7. Monensin	110	....do	10-20	....do	For improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mitati*, and *E. maxima*.

[1] 0.005 percent.

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

§ 135g.68 [Amended]

3. In § 135g.68 *Monensin* by deleting the phrase "calculated as monensic acid."

Effective date. This order shall be effective December 18, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated: December 9, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FRL 308-4]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

BENOMYL

A petition (FAP 5H5062) was filed (39 FR 34706) by E. I. du Pont de Nemours & Co., Wilmington DE 19898, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance for combined residues of the fungicide benomyl (methyl 1-(butylcarbamoyl) -2-benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in concentrated tomato products at 50 parts per million, resulting from application of the fungicide to the growing raw agricultural commodity tomatoes. (For a related document, see this issue of the FEDERAL REGISTER, page 43723.)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under section 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Having evaluated the data submitted in the petition and other relevant material, it is concluded that the tolerance should be established.

Therefore, pursuant to provisions of the Federal Food, Drug and Cosmetic Act (sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), § 121.1254 is revised to read as follows:

§ 121.1254 Benomyl.

Tolerances of 50 parts per million are established for combined residues of the fungicide benomyl (methyl 1-(butylcarbamoyl) - 2 - benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in raisins and concentrated tomato products when present therein as a result of application of the fungicide to growing grapes and tomatoes.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective December 18, 1974.

(Sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4))

Dated: December 11, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.74-29302 Filed 12-17-74;8:45 am]

PART 135—NEW ANIMAL DRUGS

Tylosin

Correction

In FR Doc. 74-28140 appearing on page 41840 in the issue of Tuesday, December 3, 1974 the amendment to § 135.501 should read as set forth below:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * * * *

(c) * * *

Code No.	*Firm name and address*
* * * * *	
151	Simonsen Mill-Rendering Plant, Inc. Quimby, IA 51049
* * * * *	

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Amprolium

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (33-165V) filed by Merck & Co., Inc., Rahway, NJ 07065, proposing safe and effective use of 20 percent amprolium soluble powder in addition to use of 9.6 percent solution, in drinking water and as a drench, to aid in the treatment and/or prevention of coccidiosis in calves. The supplemental application is approved.

Section 135c.3(d) is amended to denote the use of 20 percent amprolium soluble powder for poultry, to include its use for calves and for preparation of the finished product as administered to calves, and to denote the medication used to prepare drinking water for poultry.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)), and under authority delegated to the Commissioner (21 CFR 2.120), § 135c.3(d) is amended by revising tables 1 and 2 to read as follows:

§ 135c.3 Amprolium.

* * * * * * *

(d) * * *

XUM
V 39 N 244 DEC 18 1974
XUM

TABLE 1.—*In drinking water*

Amount	Limitations	Indications for use
1. Amprolium.. 20% soluble powder.	For chickens and turkeys; administer at the 0.012% level in drinking water as soon as coccidiosis is diagnosed and continue for from 3 to 5 days (in severe outbreaks, give amprolium at the 0.024% level); continue with 0.006% amprolium-medicated water for an additional 1 to 2 weeks; no other source of drinking water should be available to the birds during this time; no auto source of amprolium.	Treatment of coccidiosis.
2. Amprolium.. 9.6% solution or 20% soluble powder.	For calves; add 16 fluid ounces of the 9.6% solution to each 100 gallons of drinking water; or 4 oz of the soluble powder to each 50 gal. of drinking water; at the usual rate of water consumption, this will provide an intake of approximately 10 milligrams per kilogram (2.2 lb) of body weight; offer this solution as the only source of water for 5 days; for a satisfactory diagnosis, a microscopic examination of the feces should be done by a veterinarian or diagnostic laboratory before treatment; when treating outbreaks, the drug should be administered promptly after diagnosis is determined; withdraw 24 hours before slaughter.	As an aid in the treatment of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.
3. Amprolium.....do.....	For calves; add 8 fluid ounces of the 9.6% solution or 4 oz of the 20% soluble powder to each 100 gallons of drinking water; at the usual rate of water consumption, this will provide an intake of approximately 5 milligrams per kilogram (2.2 lb) of body weight; offer this solution as the only source of water for 21 days during periods of exposure or when experience indicates that coccidiosis is likely to be a hazard; withdraw 24 hours before slaughter.	As an aid in the prevention of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.

TABLE 2.—*As a drench*

Amount	Limitations	Indications for use
1. Amprolium.. 9.6% solution or 20% soluble powder.	For calves; add 3 fluid ounces of the 9.6% solution to 1 pint of water or 3 oz of the 20% soluble powder to each qt of water and with a dose syringe administer 1 fluid ounce of this solution for each 100 pounds of body weight; this will provide a dose of approximately 10 milligrams per kilogram (2.2 lb) of body weight; administer daily for 5 days; for a satisfactory diagnosis, a microscopic examination of the feces should be done by a veterinarian or diagnostic laboratory before treatment; when treating outbreaks, the drug should be administered promptly after diagnosis is determined; withdraw 24 hours before slaughter.	As an aid in the treatment of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.
2. Amprolium.....do.....	For calves; add 1¼ fluid ounces of the 9.6% solution to 1 pint of water or 1¼ oz of the 20% soluble powder to each qt of water and with a dose syringe administer 1 fluid ounce of this solution for each 100 pounds of body weight; this will provide a dose of approximately 5 milligrams per kilogram (2.2 lb) of body weight; administer daily for 21 days during periods of exposure or when experience indicates that coccidiosis is likely to be a hazard; withdraw 24 hours before slaughter.	As an aid in the prevention of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.

Effective date. This order shall be effective December 18, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated: December 11, 1974.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities; Correction

On December 7, 1971, in 36 FR 23215, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included New Castle County, Delaware, as an eligible community and included map No. H 10 003 0000 07 which indicates that Section Four of Fairfield Subdivision in the City of Newark, Delaware, approved January 13, 1969, and recorded in the Recorder of Deeds Office in New Castle County, Delaware, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after a further technical review of the above map in the light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 6, 1970 map No. H 10 003 0000 07 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408–410, Public Law 91–152, December 24, 1969), 42 U.S.C. 4001–4127; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 20, 1974.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

[FR Doc.74-30410 Filed 12-17-74;8:45 am]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities; Correction

On February 20, 1973, in 38 FR 4668, the Federal Insurance Administrator published a list of communities eligible for flood insurance and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the Village of Palatine, Illinois, as an eligible community and included map No. H 17 031 6650 02 which indicates that lot No. 217 of Willow Wood Subdivision, a part of section No. 14, Township 42 North, Range 10 East of the Third Principal Meridian in Cook County, Illinois (present address: 710 North Stark Drive, Palatine, Illinois) according to the plate thereof registered in the Office of the Registrar of Titles of Cook County, Illinois, on July 30, 1962, as Document Number 2046942, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after a further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective February 16, 1973, map No. H 17 031 6650 02 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408–410, Public Law 91–152, December 24, 1969), 42 U.S.C. 4001–4127; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: November 22, 1974.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

Title 32—National Defense

CHAPTER XVI—SELECTIVE SERVICE SYSTEM

PART 1690—DETERMINATION OF AVAILABILITY OF MEMBERS OF THE STANDBY RESERVE OF THE ARMED FORCES FOR ORDER TO ACTIVE DUTY

Miscellaneous Amendments

Pursuant to section 672(a) of Title 10 U.S.C. and to implement that section, the Director of Selective Service has determined to amend Part 1690 of Selective Service regulations.

The amendment of § 1690.2 eliminates instructions to reservists that may appropriately be issued by the Armed Forces.

The revision of § 1690.4 eliminates reference to an obsolete form and administrative detail.

The revocation of §§ 1690.5, 1690.6, 1690.7, 1690.17, and 1690.20 eliminates administrative details.

The amendment of § 1690.12 eliminates the authority to determine by a telephone poll of local board members a reservist's availability and instructions to reservists that may appropriately be issued by the Armed Forces.

The revision of § 1690.12 clarifies the definition of Category IV–R reservists.

The amendment of § 1690.13 modifies the conditions under which a local board may reconsider and redetermine its determination of a reservist's availability.

The revision of § 1690.15 modifies the conditions under which a local board may reconsider and redetermine a determination by the Director of Selective Service of a reservists availability.

Section 1690.16 is amended to eliminate administrative detail.

These amendments are effective December 18, 1974.

The amendments follow:

§ 1690.2 [Amended]

1. Paragraphs (b), (c) and (d) of § 1690.2 *Local Board which has jurisdiction* are revoked.

2. Section 1690.4 is revised as follows:

§ 1690.4 Minutes of meetings of local board.

Each local board shall keep a record of each meeting of the board held for the purpose of determining the availability of a reservist for order to active duty. This record shall be filed by the local board as minutes of its meetings.

§ 1690.5 [Revoked]

3. Section 1690.5 *Standby reserve folder (SSS Form 90)* is revoked.

§ 1690.6 [Revoked]

4. Section 1690.6 *Standby reserve questionnaire (SSS Form 89)* is revoked.

§ 1690.7 [Revoked]

5. Section 1690.7 *Assignment of standby reserve number* is revoked.

6. Section 1690.8 is revised as follows:

§ 1690.8 Duty of local board to determine reservist's availability promptly.

Notwithstanding any previous determinations of availability, local boards shall determine the reservist's availability promptly by holding a special local board meeting if necessary. In determining the availability of a reservist for order to active duty and his category consideration shall be given to (a) the information furnished to the local board by the reservist, (b) such other written information as may be contained in his file, and (c) current instructions issued by the Director of the Selective Service.

7. Section 1690.12 is revised to read as follows:

§ 1690.12 Category IV–R: Reservist found not available for order to active duty who is not eligible for another category.

In Category IV–R shall be placed any reservist who is found to be not immediately available for order to active duty under such criteria as the Director of Selective Service may determine and who is not eligible for either Category II–R or Category III–R.

8. Paragraph (b) of § 1690.13 is revised as follows:

§ 1690.13 Reconsideration and redetermination by local board of reservist's availability and category.

* * * * *

(b) The local board may reconsider and redetermine a reservist's category upon his written request when, subsequent to an initial determination, circumstances beyond his control have changed the basis upon which his availability for order to active duty had been determined provided (1) the request is received within 10 days after the notice of his category was mailed to the reservist, and (2) the request is accompanied by written information presenting facts not considered in the initial determination, which, if true, would justify a change in the reservist's category.

9. Section 1690.15 is revised as follows:

§ 1690.15 Determination of availability and category by Director of Selective Service.

Notwithstanding any other provision of this part, the Director of Selective Service may at any time determine whether any reservist is available or not available for order to active duty and place the reservist in any category he may deem appropriate. Such action under this section by the Director of Selective Service shall be final unless it was taken prior to a determination of a local board and the Director of Selective Service requests the local board to reconsider and redetermine the reservist's category.

10. Section 1690.16 is amended to read as follows:

§ 1690.16 Notification of availability.

As soon as practicable after the local board has determined or redetermined the reservist's availability and category, or after the local board receives notice of the determination of a reservist's case by the Director of Selective Service, the local board shall inform the reservist and the armed force of which a reservist is a member as to the determination of his availability.

§ 1690.17 [Revoked]

11. § 1690.17 *Notifying armed force of availability of* reservist is revoked.

§ 1690.20 [Revoked]

12. § 1690.20 *Identification of records of reservists* is revoked.

BYRON V. PEPITONE,
Director.

DECEMBER 12, 1974.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 209-6]

PART 120—WATER QUALITY STANDARDS

Colorado River System; Salinity Control Policy and Standards Procedures

The purpose of this notice is to amend 40 CFR Part 120 to set forth a salinity control policy and procedures and requirements for establishing water quality standards for salinity and a plan of implementation for salinity control in the Colorado River System which lies within the States of Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming pursuant to section 303 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1313). A notice proposing such policy and standards procedures was issued on June 10, 1974 (39 FR 20703, 39 FR 24517).

High salinity (total dissolved solids) is recognized as a significant water quality problem causing adverse impacts on water uses. Salinity concentrations are affected by two basic processes: (a) Salt loading—the addition of mineral salts from various natural and man-made sources, and (b) salt concentrating—the loss of water from the system through stream depletion.

Studies to date have demonstrated that the high salinity of stream systems can be alleviated. Although further study may be required to determine the economic and technical feasibility of controlling specific sources, sufficient information is available to develop a salinity control program.

Salinity standards for the Colorado River System would be useful in the formulation of an effective salinity control program. In developing these standards, the seven States must cooperate with one another and the Federal Government to support and implement the conclusions and recommendations adopted April 27, 1972, by the reconvened 7th Session of the Conference in the Matter of Pollution of the Interstate Waters of the Colorado River and its Tributaries.

Public hearings on the proposed regulation were held in Las Vegas, Nevada, on August 19, 1974, and in Denver, Colorado, on August 21, 1974. Public comments were provided at the hearings and also by letter during the review period. A summary of major comments and Environmental Protection Agency response follows:

(1) The Colorado River Basin Salinity Control Forum stated that it did not object to the proposed regulation, and believed that it satisfied the requirements of section 303(b)(2) of P.L. 92–500 until October 18, 1975. The Forum reported that the seven Colorado River Basin States were actively working on the development of water quality standards and a plan of implementation for salinity control.

(2) The Colorado River Water Conservation District inquired as to whether

the definition of the Colorado River Basin contained in Article II(f) of the Colorado River Compact of 1922 would be followed in the development of salinity standards and the salinity control plan.

The requirement for establishing water quality standards and an implementation plan apply to the Colorado River System as defined in Part 120.5(a) of this regulation. This definition is consistent with the definition of the Colorado River System contained in Article II(a) of the Compact. The regulation states that the salinity problem shall be treated as a basinwide problem. Articles II(f) and II(g) define the Basin to include the System plus areas outside the drainage area which are served by the Colorado River System. The Environmental Protection Agency (EPA) will require that the standards and implementation plan consider the impacts of basinwide uses, e.g., transmountain diversions, on salinity effects in the System, but the establishment of standards and implementation plans pursuant to this regulation will not be required for streams located outside the System.

The District also questioned the feasibility of relying on irrigation improvement programs as a means of alleviating the salinity problem.

EPA believes that adequate information is available to initiate controls for irrigated agriculture, yet at the same time acknowledges that additional work is needed to demonstrate the efficacy of certain control measures. Projects presently being supported by EPA and others should demonstrate the adequacy of various control measures including management and non-structural techniques. These measures will be considered during the development of the implementation plan.

(3) The Environmental Defense Fund (EDF) testified that it believed that EPA was not complying with the requirements of the Federal Water Pollution Control Act, as amended, chiefly because of EPA's late response to the timetable delineated in the Act for establishing standards, and also because numerical standards still have not been set for the Colorado River System. EDF called upon EPA to withdraw the proposed regulation and promptly promulgate numerical limits for salinity.

EPA believes that a move to promulgate numerical standards at this time could cause even further delays in controlling salinity due to the problems involved with obtaining interstate cooperation and public acceptance of such a promulgation.

(4) The Sierra Club raised a number of objections to the proposed regulation, principally because, in its opinion, it permits further development of the waters of the Colorado River without requiring that adequate salinity controls be on line prior to development. Specific suggestions are:

(a) Section 120.5(c)(2). Shorten the deadline for submission of the standards and implementation plan to May 30, 1975.

EPA believes that this would not allow adequate time due to the complexities of the problem, the interstate coordination needed and the time requirements for public hearings. The October 18, 1975, date is consistent with the requirements of the Federal Water Pollution Control Act, as amended, for the three year review and revision of standards. The schedule set forth by the Colorado River Basin Salinity Control Forum calls for development of draft standards and an implementation plan by February 1975 in order to allow time for public participation prior to promulgation.

(b) Section 120.5(c)(2). Delete "as expeditiously as practicable."

The date of July 1, 1983, remains the goal for accomplishment of implementation plans as stated in § 120.5(c)(2)(iii). It is the purpose of this language to accelerate progress by the States toward this goal where possible.

(c) Section 120.5(c)(2)(ii). Delete "while the basin States continue to develop their compact apportioned waters."

In recognition of the provisions of the Colorado River Compact of 1922 and until such time that the relationship between the Compact and the Federal Water Pollution Control Act, as amended, is clarified, EPA believes that development may proceed provided that measures are taken to offset the salinity increases resulting from further development.

(d) Section 120.5(c)(2)(iv). Add language to describe conditions under which temporary increases above the 1972 levels will be allowed.

EPA believes that this matter should be addressed in further detail in the formulation, review and acceptance of the implementation plan, not in the regulation.

(e) Add a new subsection on financing of control measures.

EPA believes that this, too, is an issue that should be handled as part of the implementation plan.

(f) Add a new subsection delineating requirements for evaluating control plans and restricting consideration of controls for the Blue Spring on the Little Colorado River.

EPA believes these issues should also be addressed as part of the implementation plan. It should be noted that nothing in this regulation removes the requirement for assessing environmental impacts and preparing environmental impact statements for control measures.

(g) Add a new section requiring public hearings.

EPA's public participation regulations appear at 40 CFR 105 and apply to all actions to be taken by the States and Federal Government pursuant to the Act. States have provided for public participation throughout the initial water quality standards review process. We expect the States to do so in this situation and see no need to set forth additional requirements.

(h) Add a new section stating that the implementation plan will be published in the FEDERAL REGISTER.

EPA expects there will be substantial public participation at the State and local level prior to adoption of the plan. The salinity standards are expected to be published in the FEDERAL REGISTER, but the size and complexity of the plan may militate against its publication. At the very least, the plan will be available for review at appropriate EPA and State offices. Notice of its availability will be published in the FEDERAL REGISTER, and 60 days will be allowed for public review and comment.

(i) Add a new subsection stating that EPA will promulgate standards if the States fail to do so as prescribed in this regulation.

Section 303 of the Federal Water Pollution Control Act provides for promulgation by EPA where the States fail to adopt standards requested by the Administrator, or where the Administrator determines Federal promulgation is necessary to carry out the purposes of the Act. EPA's responsibility to promulgate standards if the States fail to do so is thus expressed in the statute itself; the Agency does not believe that recitation of the statutory duty in this particular rulemaking is necessary.

(5) The American Farm Bureau Federation, California Farm Bureau Federation, Nevada Farm Bureau Federation, and the New Mexico Farm and Livestock Bureau believe that standards should not be set until further evaluation of the problems and opportunities for control are completed.

EPA believes that adequate information is available for setting standards and formulating controls, and while it recognizes that additional work is needed on specific aspects of solutions, it believes that further delay without any action is not appropriate.

Records of the hearings and comments received by letter during the review period are available for public inspection at the regional offices of the Environmental Protection Agency at 1860 Lincoln Street in Denver, Colorado, at 100 California Street in San Francisco, California, at 1600 Patterson Street in Dallas, Texas, and at the Environmental Protection Agency Freedom of Information Center at 401 M Street SW in Washington, D.C.

This regulation sets forth a policy of maintaining salinity concentrations in the lower main stem of the Colorado River at or below 1972 average levels and requires the Colorado River System States to promulgate water quality standards and a plan for meeting the standards. The first step will be the establishment of procedures within 30 days of the effective date of these regulations which will lead to adoption on or before October 18, 1975, of water quality standards for salinity including numeric criteria and an implementation plan for salinity control.

Except as provided in this regulation, the interstate and intrastate standards previously adopted by the States of Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming and approved by the Environmental Protection

Agency are the effective water quality standards under section 303 of the Act for interstate and intrastate waters within those States. Where the regulations set forth below are inconsistent with the referenced state standards, these regulations will supersede such standards to the extent of the inconsistency.

In consideration of the foregoing, 40 CFR Part 120 is amended as follows:

1. Section 120.5 is added to read as set forth below:

§ 120.5 Colorado River System Salinity Standards and Implementation Plan.

(a) "Colorado River System" means that portion of the Colorado River and its tributaries within the United States of America.

(b) It shall be the policy that the flow weighted average annual salinity in the lower main stem of the Colorado River System be maintained at or below the average value found during 1972. To carry out this policy, water quality standards for salinity and a plan of implementation for salinity control shall be developed and implemented in accordance with the principles of paragraph (c) below.

(c) The States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming are required to adopt and submit for approval to the Environmental Protection Agency on or before October 18, 1975:

(1) Adopted water quality standards for salinity including numeric criteria consistent with the policy stated above for appropriate points in the Colorado River System; and,

(2) A plan to achieve compliance with these standards as expeditiously as practicable providing that:

(i) The plan shall identify State and Federal regulatory authorities and programs necessary to achieve compliance with the plan.
